User Guide
2014 Interim Feedback Dashboard

Purpose
The 2014 Interim Feedback Dashboard User Guide is designed to assist eligible professionals, and their authorized users, with accessing and interpreting the 2014 interim Dashboard data. The Dashboard allows organizations and eligible professionals (EPs) to log-in to a web-based tool and access their 2014 Physician Quality Reporting System (PQRS) data on a quarterly basis in order to monitor the status of claims-based individual measures. Additional information about the 2014 PQRS requirements is available on the Centers for Medicare & Medicaid Services (CMS) website at http://www.cms.gov/Medicare/Quality-Initiatives-Patient-Assessment-Instruments/PQRS.

Note: The Dashboard does not provide the final data analysis for full-year reporting, or indicate 2014 PQRS incentive eligibility or subjectivity to the 2016 PQRS payment adjustment or the value-based payment modifier to be implemented in 2016. The Dashboard will only provide claims-based data for 2014 interim feedback. Data submitted via registry reporting, qualified clinical data registry (QCDR), Group Practice Reporting Option (GPRO) Web Interface, Centers for Medicare & Medicaid Innovation (CMMI, includes Pioneer Accountable Care Organizations [ACO] participants), Medicare Shared Savings Program ACOs, or qualified Electronic Health Records (EHR) systems will not be included for purposes of the 2014 Dashboard data feedback. Data submitted for 2014 PQRS reporting via methods other than claims will be available for review in the fall of 2015 through the final PQRS feedback report.

PQRS Program Overview
The 2006 Tax Relief and Health Care Act (TRHCA) authorized a physician quality reporting system, including an incentive payment, for EPs who satisfactorily reported data on quality measures for Medicare Part B Physician Fee Schedule (PFS) covered professional services furnished to Medicare Fee-for-Service (FFS) beneficiaries during the second half of 2007. CMS named this program the Physician Quality Reporting Initiative (PQRI), which was renamed Physician Quality Reporting System (PQRS) in 2011.

PQRS was further modified as a result of The Medicare, Medicaid, and SCHIP Extension Act (MMSEA) and the Medicare Improvements for Patients and Providers Act of 2008 (MIPPA). MMSEA authorized CMS to establish two alternative reporting periods; the reporting of measures groups, and submission of data on PQRS quality measures through clinical data registries. The Affordable Care Act authorized payment adjustments beginning in 2015. For each program year, CMS implements PQRS through an annual rulemaking process published in the Federal Register. The program has expanded the number of measures and reporting options over time to facilitate quality reporting by a broad array of eligible professionals.

PQRS for the 2014 calendar year continues as a pay-for-reporting program that includes claims-registry, qualified clinical data registry-, electronic health record (EHR)-, CMS-certified survey vendor, and Group Practice Reporting Option (GPRO) Web Interface-based reporting of data on 284 total quality measures, 25 measures groups, 22 GPRO Web Interface measures (including subcomponents of composite measures), and 12 summary survey modules for CG CAHPS. The two reporting periods for this program year include: January 1, 2014-December 31, 2014, and July 1, 2014-December 31, 2014 (for registry reporting of measures group[s] only). There are 13 options for satisfactorily reporting quality measures data for 2014 PQRS that differ based on the reporting period, the reporting option (individual measures or measures group[s]), and the selected data collection method (claims, participating registry, qualified clinical data registry, qualified/participating EHR, CMS-certified survey vendor, or GPRO Web Interface). In 2016, the program also applies a payment adjustment to EPs who do not satisfactorily report data on quality measures for covered professional services during the 2014 program year.

For more information on the 2014 PQRS, please visit the CMS website at http://www.cms.gov/Medicare/Quality-Initiatives-Patient-Assessment-Instruments/PQRS.
Dashboard Overview
The Affordable Care Act of 2010 called for “timely feedback to eligible professionals on the performance of the eligible professional with respect to satisfactorily submitting data on quality measures.” As timely feedback is already provided, CMS indicated in the 2012-2014 PFS final rule the introduction of the Dashboard as an additional tool for EPs to review their interim performance in PQRS. The Dashboard allows organizations and EPs to log-in and access their interim 2014 PQRS reported data on a quarterly basis in order to monitor the status of claims-based individual measures reporting. The Dashboard should not be used to determine final data analysis for full-year program reporting, or final determination of 2014 PQRS incentive eligibility.

The Dashboard is available to each TIN with at least one EP who submits one or more denominator-eligible Medicare Part B PFS claims. The Dashboard will display the most current data available on a cumulative quarterly basis for claims with dates of service during the following interim report periods, and processed into the National Claims History (NCH) by the given deadlines as follows:

<table>
<thead>
<tr>
<th>Dashboard Data Quarters</th>
<th>Claims Dates of Service</th>
<th>Processed into NCH Deadline</th>
</tr>
</thead>
<tbody>
<tr>
<td>1st Quarter (3-months)</td>
<td>January 1-March 31, 2014</td>
<td>April 25, 2014</td>
</tr>
<tr>
<td>2nd Quarter (6-months cumulative)</td>
<td>January 1-June 30, 2014</td>
<td>July 25, 2014</td>
</tr>
<tr>
<td>3rd Quarter (9-months cumulative)</td>
<td>January 1-September 30, 2014</td>
<td>November 28, 2014</td>
</tr>
<tr>
<td>4th Quarter (12-months cumulative)</td>
<td>January 1-December 31, 2014</td>
<td>February 27, 2015</td>
</tr>
</tbody>
</table>

All Medicare Part B claims submitted for services furnished from January 1-December 31, 2014 and processed through February 27, 2015 will be analyzed to determine the EP’s interim participation in 2014 PQRS. The Dashboard will analyze data for those eligible professionals who reported individual measures’ quality-data codes (QDCs) to CMS via claims. Participation in PQRS is analyzed at the individual NPI-level within a Tax ID (TIN/NPI). Data provided through the Dashboard is separate from the final PQRS feedback reports that will be released in the fall of 2015.

Dashboard Content and Appearance
Dashboard data can be viewed as a TIN summary or as individual NPI detail. The TIN-level data (Table 1) provides a summary of claims submission data from all individual/rendering NPIs under the organizational TIN. NPI-level data (Table 2) provides detail of claims submission data from individual/rendering NPIs. Both TIN-and NPI-level data provide cumulative interim analysis for 2014 PQRS individual measures and on a quarterly basis throughout the program year.

As the Dashboard does not indicate 2014 PQRS incentive eligibility, claims-based Measure-Applicability Validation (MAV) will not be shown for those EPs who reported less than nine individual measures across three National Quality Strategy (NQS) domains via claims or nine individual measures across less than three NQS domains. Eligible professionals reporting less than nine individual measures and/or less than three NQS domains will need to refer to the information provided on the CMS PQRS website to ensure they are meeting the MAV and required performance rate criteria for successful reporting. Measures with 0% performance rates for all eligible patients (which will not count toward incentive eligibility) will be included in the Dashboard data.

Following are examples and additional information about the TIN- and NPI-level Dashboard data and appearance.
Table 1: Interim Reporting Summary for the Taxpayer Identification Number (Tax ID or TIN)

TIN-level analysis of claims submission from all individual/rendering NPIs under the organizational TIN will be available to authorized Individuals Authorized Access to the CMS Computer Services (IACS) account users. TIN-level data will be provided in Table 1: Interim Reporting Summary for the Taxpayer Identification Number (Tax ID or TIN), and will analyze each individual NPI who submitted at least one QDC on a Medicare Part B PFS claim during the applicable 2014 PQRS interim report period (see Example 1.1). The Dashboard will provide the following data:

- **Total # Measures Reported**: The total number of different individual measures reported for TIN/NPI (identified by measure-specific QDCs received) regardless of accuracy of reporting. The provider will see how many individual measures were accurately reported in the next field titled “Total # Measures Accurately Reported.”

- **Total # Measures Accurately Reported**: The total number of different individual measures reported for TIN/NPI based upon valid QDC submissions. Valid reporting is defined by numerator and denominator requirements as outlined in the measure specification. As previously mentioned, incentive eligibility is based upon the final analysis of 12-months of data, and the interim Dashboard data is not the final indicator of incentive eligibility for the reporting period.

- **Total # Domains Covered by Measures Accurately Reported**: The number of domains in which measures were reported with a valid QDC. This does not necessarily indicate that satisfactory reporting criteria have been met.

For definition of terms related to Dashboard TIN-level data see Appendix A. For additional content detail, please refer to the footnotes of each table.

**Note**: The Dashboard may contain a partial or “masked” Social Security Number/Social Security Account Number (SSN/SSAN) as part of the TIN field. Care should be taken in the handling and disposition of Dashboard data to protect the privacy of the individual practitioner with which the SSN is potentially associated. Please ensure that Dashboard data is handled appropriately and disposed of properly to avoid a potential Personally Identifiable Information (PII) exposure or Identity Theft risk.

The following screenshot is provided for example only and is subject to change. Minor changes in language and/or format should be expected.

Summary: 99 80

*Name identified by matching the identifier number in the CMS national Provider Enrollment Chain and Ownership System (PECOS) database. If the organization or professional’s enrollment record or enrollment changes have not been processed and established in the national PECOS database as well as at the local A/B MAC and Carrier systems at the time this report was produced, this is indicated by “Not Available”. This does not affect the organization’s or professional’s enrollment status or eligibility for a <insert program year> Physician Quality Reporting System (PQRS) incentive payment or <insert payment adjustment year> payment adjustment, only the system’s ability to populate this field in the report.

For additional information, please refer to the <insert program year> Interim Dashboard User Guide on the CMS PQRS website at www.cms.gov/Medicare/Quality-Initiatives-Patient-Assessment-Instruments/PQRS.

Caution: This report may contain a partial or “masked” Social Security Number (SSN/SSAN) as part of the Tax Identification Number (TIN) field. Care should be taken in the handling and disposition of this report to protect the privacy of the individual practitioner the SSN is potentially associated with. Please ensure that these reports are handled appropriately and disposed of properly to avoid a potential Personally Identifiable Information (PII) exposure or Identity Theft risk.

Figure 1.1 Screenshot of Table 1: Interim Reporting Summary for the Taxpayer Identification Number (Tax ID)
Table 2: Interim Reporting for NPI

NPI-level data reports can be requested for individual EPs who submitted at least one denominator-eligible Medicare Part B PFS claim with a date of service during the interim report period. The Dashboard will allow eligible professionals, and their authorized users, to view data for individual measures reported. The following NPI-level reports will be available through the Dashboard depending on the NPIs reporting:

Table 2a: Interim Reporting Summary for the NPI (for individual measures reporting)
Table 2b: Interim Individual Measure Detail for the NPI (for individual measures reporting)
NPI-level Tables 2(a-b) will provide the following data:

Table 2a: Interim Reporting Summary for the NPI (see Example 2.1):
• **Total # Measures Reported:** The total number of different individual measures reported for TIN/NPI (identified by measure-specific QDCs received) regardless of accuracy of reporting. The provider will see how many individual measures were accurately reported in the next field titled “Total # Measures Accurately Reported.”
• **Total # Measures Accurately Reported:** The total number of different individual measures reported for TIN/NPI based upon valid QDC submissions. Valid reporting is defined by numerator and denominator requirements as outlined in the measure specification. As previously mentioned, incentive eligibility is based upon the final analysis of 12 months of data, and the interim Dashboard data is not the final indicator of incentive eligibility for the reporting period.
• **Total # Domains Covered by Measures Accurately Reported:** The number of domains in which measures were reported with a valid QDC. This does not necessarily indicate that satisfactory reporting criteria have been met.

Table 2b: Interim Reporting Individual Measure Detail for the NPI (see Example 2.2):
• **Domain:** The category of care a measure falls under.
• **Number of Eligible Instances:** The number of denominator-eligible instances the TIN/NPI was eligible to report the measure.
• **Number of Eligible Instances Where QDCs Were Accurately Reported:** The number of denominator-eligible instances that were accurately reported with a valid QDC(s). Valid reporting is defined by numerator and denominator requirements as outlined in the measure specification. As previously mentioned, incentive eligibility is based upon the final analysis of 12 months of data, and the interim Dashboard data is not the final indicator of incentive eligibility for the reporting period.
• **Number of Eligible Instances Where No QDC Was Reported:** The number of denominator-eligible instances where the TIN/NPI could have reported a QDC, but did not.

For definition of terms related to Dashboard NPI-level data see Appendix A. For additional content detail, please refer to the footnotes of each table.

**Note:** The Dashboard may contain a partial or "masked" SSN/SSAN as part of the TIN field. Care should be taken in the handling and disposition of Dashboard data to protect the privacy of the individual practitioner with which the SSN is potentially associated. Please ensure that Dashboard data is handled appropriately and disposed of properly to avoid a potential PII exposure or Identity Theft risk.

The screenshots are provided for examples only and are subject to change. Minor changes in language and/or format should be expected.

### Figure 2.2 Screenshot of Table 2b: Interim Reporting Individual Measure Detail for the NPI
Accessing the Dashboard

EPs or their authorized users are able to access the Dashboard via the Physician and Other Health Care Professionals Quality Reporting Portal (Portal), at http://www.qualitynet.org/pqrs, with Individuals Authorized Access to the CMS Computer Services (IACS) sign-in. The Portal is a CMS supported secured website that safely transfers and stores PQRS data. EPs or their authorized users will have the ability to access prior Dashboard data for up to two years. The Dashboard allows end users to immediately view the current interim data through the website. The Dashboard will not email data to the requestor. Downloadable and printable PQRS interim data will be available as HTML via the Dashboard.

The end user will be able to view TIN- or NPI-level Dashboard data depending on his/her IACS account. These IACS accounts will have the following permissions:

- **"PQRS Representative"** authorization will be able to access TIN-level Dashboard data; which will display NPI-level data for all eligible professionals under that TIN.
- **"Individual Practitioner"** authorization for sole proprietors, who submitted claims under a SSN, will be able to access NPI-level Dashboard data.
- **"Security Official"** or **"Back-up Security Official"** roles will **not** be able to access the Dashboard data.

The Dashboard User Guide is available on the Portal to assist EPs and authorized users with navigating through the Dashboard, and understanding the Dashboard data.

If you do not already have an IACS account, refer to the Quick Reference Guides for step-by-step instructions; see Figure 3.1 for assistance in locating these guides. Eligible professionals will need to obtain an IACS account for a “PQRS Representative” role or “Individual Practitioner” role for sole proprietors, who submitted claims under a SSN, in order to access the Dashboard through the Portal. Those assigned “Security Official” or “Back-up Security Official” roles only perform IACS administrative functions, such as creating the Organization and approving IACS accounts, and do not have access to Dashboard data. The New User Registration Menu for CMS Applications is at https://idm.cms.hhs.gov/idm/user/newregistration.jsp. Provider enrollment information must be current in the Medicare Provider Enrollment Chain and Ownership System (PECOS) in order to request an IACS account, see http://www.cms.gov/MedicareProviderSupEnroll.

System Requirements for the Dashboard

Minimum hardware and software requirements to effectively access and view the Dashboard are listed below.

**Hardware**

The Dashboard requires the following minimum set of hardware requirements:

- 233 MHZ Pentium processor with a minimum of 150 MB free disk space
- 64 MB Ram (128MB preferred)

**Software**

The Dashboard requires the following minimum set of software requirements:

- Microsoft® Internet Explorer version 7.0 and above, or Mozilla® Firefox
- Adobe® Acrobat® Reader version 5.0 and above
- JRE is 1.6
- Windows® XP operating system

**Internet Connection**

- Dashboard will be accessible via any Internet connection running on a minimum of 33.6k or high-speed Internet
Step-by-Step Dashboard Instruction

Dashboard will only be available to eligible professionals and authorized users who have an IACS account. Only interim data for the individual/rendering NPI is available via the Dashboard – do not enter a group NPI. Entering a group NPI will result in a “No Data Available” message.

The screenshots are provided for examples only and are subject to change. Minor changes in language and/or format should be expected.

**STEP 1: Portal Sign-In (eligible professionals or authorized users must have IACS sign-in)**

b) To sign-in to the Portal, click on the “Sign-In” button on the middle of the screen as shown in Figure 3.1.
c) Enter your IACS username and password, and click “Sign In” as shown in Figure 3.2.
d) Once logged-in, review the Terms and Conditions, click on the box to accept the Terms and Conditions, and click “I Accept” as shown in Figure 3.3.

*Example 3.1: Screenshot of Step 1*
Example 3.2: Screenshot of Step 1

Figure 3.2 Screenshot of Portal Sign In Page (Step 1c)

- Enter IACS User Name
- Enter IACS Password
- Sign In

- c) Enter your IACS username and password
- c) Once username and password are entered, click here

Example 3.3: Screenshot of Step 1

Figure 3.3 Screenshot of Terms and Conditions Page (Step 1d)

- d) Review the Terms and Conditions, then click on the box to accept
- d) After clicking on the box, click "I Accept" to continue
STEP 2: Accessing the Dashboard  
  
e) Once signed-in to the Portal, click on \textbf{"Feedback Dashboard"} in top left-hand corner of window as shown in Figure 3.4.

Example 3.4: Screenshot of Step 2

\begin{figure}[h]  
\centering  
\includegraphics[width=\columnwidth]{fig3_4.png}  
\caption{Screenshot of Accessing the Dashboard (Step 2a)}  
\end{figure}

a) The “Interim 2014 Physician Quality Reporting System Dashboard” page will open in either a new tab or a new window based upon your Internet browser settings (see Step 5 for browser pop-up options).
   - The most recent claims-based report period is displayed at the top of the page (as shown in Figure 3.5)
   - This page provides an introduction about the Dashboard data. As new Dashboard data becomes available, the date fields throughout this page will update to provide the current report period dates.

b) Review the information on the “Interim 2014 Physician Quality Reporting System Dashboard” page and, if agreeable, check the box to accept the terms and conditions, and then click “Continue”. See Figure 3.5 for an example of these features.

Example 3.5: Screenshot of Steps 3

Figure 3.5 Screenshot of “Interim 2014 Physician Quality Reporting System Dashboard” Page (Steps 3a-b)
STEP 4: Dashboard Request Report Page

As previously mentioned, the EP or authorized user will be able to view the TIN-level Dashboard Request Report page (see Figure 3.6), or the NPI-level Dashboard Request Report page (see Figure 3.7) based on his/her IACS permissions. The following fields must be completed for the Request Report page:

a) **Report Type** – Based on IACS permissions, end users must choose which report to view from the choices in the drop-down box. Examples and definitions of the different reports were previously mentioned in the Dashboard Content and Appearance section.

b) **NPI #** or **TIN #** – Based on IACS permissions, end users may choose to enter either a NPI or TIN to view Dashboard data for different providers or organizations.
   1. If able to enter **NPI #** (Example 3.6) – Enter one individual/rendering NPI (10-digits) to view a specific EP’s data. Do not enter a group NPI. If no NPI number is entered, the Dashboard will display data for all NPIs associated with the TIN. Only one individual/rendering NPI can be entered for each report request.
   2. If able to enter **TIN #** (Example 3.7) – Individual Practitioner should leave this field blank. If there is a circumstance under which the practitioner also submits claims under a different TIN, enter one TIN (9-digits, including leading “0” if applicable) to view reporting under a specific TIN. If no TIN is entered, the Dashboard will display data for all TINs the EP billed under. Only one TIN can be entered for each report request.

c) **Report Format** – “HTML”

d) **Report Period** – Select the desired report period from the drop-down box.
   1. **HTML** – The table displays up to 20 NPIs per table. TINs with more than 20 NPIs will see multiple tables of 20 until all NPIs are listed. The HTML table has a “mouse-over” functionality allowing definitions to pop-up when the mouse cursor is placed over keywords. To view the report, scroll up and down with the arrow directions provided on the side of the screen or with the mouse wheel.

 e) Click on the “Request Report” button to continue

**Example 3.6: Screenshot of Steps 4 (Request Report Page for IACS “PQRS Representative”)**

![Interim Physician Quality Reporting System Dashboard](image)

The Dashboard will display data for all NPIs within the TIN. For specific NPI data, enter the NPI # in the field above.

d) Click on the “Request Report” button to continue

![Figure 3.6 Screenshot of Dashboard End User Request Report Page (Steps 4a-e)](image)
Example 3.7: Screenshot of Steps 4 (Request Report Page for IACS “Individual Practitioners”)

Interim Physician Quality Reporting System Dashboard

- a) Select report period from the drop-down box
- b) Select report type from the drop-down box
- c) Those individual practitioners who may bill under more than one TIN can enter one TIN to view data for the specific organization.
- d) Click on the "Request Report" button to continue

Figure 3.7 Screenshot of Dashboard Individual Practitioner Request Report Page (Steps 4a-e)
STEP 5: Request Report Confirmation

a) The “Request Report” page will open in either a new tab or a new window based upon your Internet browser settings (see Step 6 for browser pop-up options).

b) Click on “Request Report” to continue to the report.

Example 3.8: Screenshot of Step 5

![Request Report](image)

b) Click “Request Report” to continue to the Dashboard data

**NOTE:** There can be an extended wait time when requesting a report in PDF format.

Figure 3.8 Screenshot of Request Report Page (Step 5b)

**NOTE:** Extended time will be needed to generate Dashboard data for TINs with multiple NPIs. Prolonged use of the Dashboard may result in a system “time out”, which requires the end user to click “Ok” on the pop-up refresh window.

STEP 6: Viewing the Dashboard Data

a) Depending on your web browser settings, the Dashboard data will either pop-up in a new window or the current webpage will redirect you to the report. You can choose to have pop-ups open in new tab or new window by going to the Internet Explorer “Internet Options” drop-down, scroll down to the Tab section and click on “Settings”. Then select the desired option in the “When a pop-up is encountered” and “Open links from other programs in” sections (see Figure 3.9).

b) If the Internet Explorer window indicates that a Pop-up is blocked, click on the “Tools” drop-down menu, scroll down to “Pop-up Blocker” and select “Turn off Pop-up Blocker” (see Figure 3.10).

c) Screenshot examples of Dashboard data were previously provided in Figures 1.1-2.3.

Examples 3.9: Screenshot of Step 6 (Pop-Up Blocker Settings)

![Internet Options](image)

![Tabbed Browsing Settings](image)

![Settings](image)

**Figure 3.9 Screenshot of Internet Explorer Pop-up Settings (Step 6a)**
STEP 7: Exiting the Dashboard
a) The user can log off via the “Log Off” link located in the top left-hand corner of the window (see Figure 3.11).
Key Facts about the Dashboard

Frequent Concerns

- CMS will provide the final 2014 PQRS feedback report through a separate process.
- The final 2014 PQRS feedback reports will be available fall of 2015.
- The incentive payment and the final 2014 PQRS feedback report will be issued at different times, and independent of Dashboard data.
- Dashboard data does not indicate whether or not an incentive payment was earned. The Dashboard will only include those EPs who reported individual measures’ QDCs to CMS via claims during the specified report period.
- Dashboard data does not indicate subjectivity to the 2016 PQRS payment adjustment.
- Dashboard interim data will show a rolling 2 years availability.
- If all of the 2014 PQRS QDCs submitted by individual EPs are not denominator-eligible events for the 2014 PQRS measure, the NPI-level Dashboard will be populated with zeroes in most or all of the numeric fields of the tables.
- For EPs who submitted claims under multiple TINs, CMS groups claims by TIN/NPI for analysis. As a result, a professional who submitted claims under multiple TINs will need to submit QDCs for each TIN (s)he bills under to be incentive eligible.
- If a provider sees “0” reporting displayed, but is certain QDCs were entered on Part B claims, the provider should look for the N365 remark code on remittance advice to determine if the QDC was processed, as PQRS reporting codes may have been stripped by claims software or by a clearinghouse. Claims may not be resubmitted only to add QDCs. Please call the QualityNet Help Desk for assistance in this circumstance. Note: The N365 remark code does NOT indicate whether the QDC is accurate for that claim or for the measure the eligible professional attempted to report.
  - Note: Effective July 2014 there will be changes to the PQRS remark codes, as the N365 will be deactivated 7/1/2014.
    - If the QDC line-item charge submitted was $0.00, the N620 remark code will be reported in remittance advice with the following alert: This procedure code is for quality reporting/informational purposes only.
    - If QDC line-item charge submitted was $0.01, the CO 246, N572 remark code will be reported in remittance advice with the following information:
      - CO 246: This non-payable code is for required reporting only.
      - N572: This procedure is not payable unless non-payable reporting and appropriate modifiers are submitted.

Dashboard Messages

- The “No Data Available” message will appear for the following reasons:
  - An invalid or Group NPI, or invalid TIN entry
  - GPPO TIN/NPI entry (includes CMMI participants, such as Pioneer ACOs, and Medicare Shared Savings Program ACOs)
  - There is no PQRS data available for report type or report period requested
  - The organization or eligible professional's enrollment record or enrollment changes have not been processed and established in the national PECOS database at the time this report was produced (Table 1 only)
- The “Invalid Number” message will appear for the following reasons:
  - If the TIN user enters less than 10 digits into the NPI # text field box
  - If the TIN user enters 10 or less alpha or alpha numeric characters into the NPI # text field box
  - If the NPI user enters less than 9 digits into the TIN # text field box
  - If the NPI user enters 9 or less alpha or alpha numeric characters into the TIN # text field box

Help/Troubleshooting

Following are helpful hints and troubleshooting information:

- The report may not function optimally, correctly, or at all with some older versions of Microsoft® Windows, Microsoft® Internet Explorer, or Mozilla® Firefox.
- Users may need to turn off their web browser’s Pop-up Blocker or temporarily allow Pop-up files in order to download the Dashboard data.
- Regardless of the format, users should preview their Dashboard data prior to printing.
- If you need assistance with the IACS registration process (i.e., forgot ID, password resets, etc.), contact the QualityNet Help Desk at 866-288-8912 (TTY 877-715-6222) or qnetsupport@sdps.org (Monday-Friday 7:00 a.m.-7:00 p.m. CT). You may also contact them for assistance including accessing the Portal.
Copyright, Trademark, and Code-Set Maintenance Information

### Appendix A: Dashboard Definitions

#### Table 1: Interim Reporting Summary for the Taxpayer Identification Number (Tax ID or TIN)

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tax ID Name</td>
<td>Legal business name associated with a Taxpayer Identification Number (TIN). Eligible professional's name identified by matching the identifier number in the CMS national Provider Enrollment Chain and Ownership System (PECOS) database. If the organization's or professional's enrollment record or enrollment changes have not been processed and established in the national PECOS database at the time this report was produced, this is indicated by &quot;Not Available&quot;. This does not affect the organization's or professional's enrollment status; only the system's ability to populate this field in the report.</td>
</tr>
<tr>
<td>Tax ID Number</td>
<td>The masked TIN, whether individual or corporate TIN. A TIN can be an Employer Identification Number (EIN) used by organizations to submit claims, or a TIN can be the Individual Practitioner's Social Security Number (SSN).</td>
</tr>
<tr>
<td>Reporting Time Period</td>
<td>Indicates the dates of service of the Medicare Part B PFS claims data that was analyzed for this report (data extracted from claims processed into NCH by the processing date).</td>
</tr>
<tr>
<td>NPI Number</td>
<td>Individual National Provider Identifier of the eligible professional billing under the TIN.</td>
</tr>
<tr>
<td>NPI Name</td>
<td>Eligible professional's name identified by matching the identifier number in the CMS national Provider Enrollment Chain and Ownership System (PECOS) database. If the organization's or professional's enrollment record or enrollment changes have not been processed and established in the national PECOS database as well as at the local Carrier or MAC systems at the time this report was produced, this is indicated by &quot;Not Available&quot;. This does not affect the organization's or professional's enrollment status; only the system's ability to populate this field in the report.</td>
</tr>
<tr>
<td>Method of Reporting</td>
<td>The method of reporting attempted by the NPI. Defaults to Individual Measures via Claims.</td>
</tr>
<tr>
<td>Total # Measures Reported</td>
<td>The total number of different individual measures reported for TIN/NPI (identified by measure-specific QDCs received) regardless of accuracy of reporting. The provider will see how many individual measures were accurately reported in the next field titled &quot;Total # Measures Accurately Reported.&quot;</td>
</tr>
<tr>
<td>Total # Measures Accurately Reported</td>
<td>The total number of different individual measures reported for TIN/NPI based upon valid QDC submissions. Valid reporting is defined by numerator and denominator requirements as outlined in the measure specification. <strong>Note:</strong> As previously mentioned, incentive eligibility is based upon the final analysis of 12 months of data, and the interim Dashboard data is not the final indicator of incentive eligibility for the reporting period.</td>
</tr>
