A Retirement Plan with Huge Tax Savings

The small business defined benefit (DB) plan is an IRS-approved qualified retirement plan that allows independent professionals and consultants, individuals with self-employment income, and small business owners to make large annual tax-deferred contributions and accumulate as much as $1-2.5 Million in just 5-10 years. The contributions are deductible and can potentially reduce income tax liability by $40,000 or more annually.

Is a Defined Benefit Plan Right For You?

If you’re a sole proprietor or own a business with family, you may potentially qualify for a tax deduction of $100,000 or more each year against your business income. The OnePersonPlus® DB plan is designed specifically to meet the tax savings and retirement income needs of people who are:

- 40+ years of age
- Interested in contributing more than $50,000 annually to their retirement or a higher percent of compensation than allowed in a 401(k) or SEP
- Able to make that contribution for at least the next 3-5 years
- Earning at least $100,000 annually

Typical plan owners include:

- Employees who also receive self-employment income from a side business
- Independent contractors, consultants, professionals and sales reps
- Owner-only or owner + spouse or family business
- Self-employed spouses of high income earners

Advantages of OnePersonPlus Defined Benefit Plans

- Highest allowable contributions to a qualified plan — $100,000 or more
- Annual tax savings of $40,000 or more potentially
- Investments grow tax-deferred building wealth faster
- Tax-free roll over to an IRA at retirement (or at plan termination)
- Simplified plan set-up
- You and your financial advisor select the investments

Contributions

- The contribution is calculated based on age, earned income and years of service
- Contributions must be made each year
- Contributions are due by the tax-filing deadline including extensions, but not later than eight and one-half months after the fiscal year end

Highest Contributions

Contribute 2-3 times the amount you might otherwise contribute to a SEP or 401(k). Your contribution maximum is based on your age, income and years to retirement.

Typical OnePersonPlus Plan Owners

Maximizing Tax Savings
Nick is 52 years old and expects to have a W-2 income of at least $300,000 from his law practice until he retires in ten years. By establishing a OnePersonPlus, he can contribute and take a tax deduction of $182,200 — more than twice what he could have contributed to his SEP or 401(k). If Nick wants to maximize deductions this year, he can also set up a 401(k) and contribute an additional $39,900 for total deductions of $222,100 and tax savings of $84,400 (38% combined federal and state marginal tax rate).

Taking Advantage of a Part-Time Income Opportunity
Charles is a 56-year-old professor at the local university business school and plans to retire in six years. He consistently earns an additional $150,000 each year consulting after paying his self-employment taxes. The university provides him with a 403(b) plan to which he’s been contributing. Charles sets up a OnePersonPlus plan to reduce his taxable income and makes a tax-deductible contribution of $120,000 based on his consulting income.

Building Retirement Wealth with Spouse’s Income
Teresa is 60 years old and is a sole proprietor earning $100,000 each year after payment of self-employment taxes. She’s married to a high-income executive, and they don’t need Teresa’s income to maintain their lifestyle. They both plan to retire in five years. They want to deduct as much as they can this year and add to their retirement wealth. Teresa can set up a OnePersonPlus plan and make a tax-deductible contribution of $80,000 — saving 80% of her earnings for retirement.

You Choose the Investments
Your assets may be invested in mutual funds, bonds, equities, annuities or other marketable securities that you and your advisor select. Investments with low volatility are generally recommended.

Companies with Employees
Consider an OwnersPlus™ Retirement Program which combines a cash balance defined benefit plan with a safe harbor 401(k)/profit sharing plan. For more information, please contact our plan design specialists at 1-866-269-2709.

Getting Started is as Easy as 1-2-3
1. Decide on percent of annual income to contribute. We’ll estimate your benefit and contribution.
3. Once you have received and signed your Adoption Agreement, you can open an investment account and select investments.

Important Dates
OnePersonPlus plans must be opened by the end of your fiscal year, usually December 31, but earlier could be beneficial. Plans must be funded by the business tax filing deadline.
