Safety Data Sheet

Section 1: Identification

Product identifier

Product Name
- Mechanical/OEM - Sustainable Insulation (CT10167-2)

Synonyms
- Canadian Metal Building Insulation; Commercial Blanket; Commercial Board; Crimp Wrap; HT (High Temperature) Blanket; Insulation for Flex Duct; Marine Ductwrap; Metal Building Insulation 202-96; OEM Board; Quickwrap Ductwrap; Soft Touch Duct Wrap; ToughGard™ R Duct Liner; Universal Blanket

Product Code
- Literature Code: 30-37-004

Relevant identified uses of the substance or mixture and uses advised against

Recommended use
- Acoustical & Thermal Insulation

Details of the supplier of the safety data sheet

Manufacturer
- CertainTeed Corporation
  P.O. Box 860
  Valley Forge, PA 19482-0101
  United States
  www.certainteed.com
  CertainTeed - EHS@saint-gobain.com

Telephone (General)
- (610) 341-7000

Telephone (Technical)
- (610) 341-7000 - 9 AM – 5 PM (Eastern Time – USA)

Telephone (General)
- (800) 274-8530 - Main Number

Emergency telephone number

Manufacturer
- 800-527-3887

Manufacturer
- (800) 424-9300 - Chemtrec

Manufacturer
- (703) 527-3887 - Outside of the U.S. Chemtrec

Key to abbreviations
‡ = HMIS is a registered trademark of the American Coatings Association

Section 2: Hazard Identification

United States (US)
According to OSHA 29 CFR 1910.1200 HCS

Classification of the substance or mixture

OSHA HCS 2012
- Carcinogenicity 2 - H351

Label elements

OSHA HCS 2012

WARNING
Hazard statements
- Suspected of causing cancer. - H351

Precautionary statements

Prevention
- Obtain special instructions before use. - P201
  Do not handle until all safety precautions have been read and understood. - P202
  Wear protective gloves/protective clothing/eye protection/face protection. - P280

Response
- IF exposed or concerned: Get medical advice/attention. - P308+P313

Storage/Disposal
- Store locked up. - P405
  Dispose of content and/or container in accordance with local, regional, national, and/or international regulations. - P501

Other hazards

OSHA HCS 2012

Canada

According to WHMIS

Classification of the substance or mixture

WHMIS
- Other Toxic Effects - D2A

Label elements

WHMIS

- Other Toxic Effects - D2A

Other hazards

WHMIS
- In Canada, the product mentioned above is considered Hazardous under the Workplace Hazardous Materials Information System (WHMIS).

See Section 12 for Ecological Information.

Section 3 - Composition/Information on Ingredients

Substances
- Material does not meet the criteria of a substance.

Mixtures

See Section 11 for Toxicological Information.

### Section 4: First-Aid Measures

**Description of first aid measures**

**Inhalation**
- Remove to fresh air immediately and notify medical personnel and supervisor. If breathing is difficult, give oxygen. Give artificial respiration if victim is not breathing.

**Skin**
- After contact with skin, take off immediately all contaminated clothing and wash immediately with plenty of soap and water. If irritation develops and persists, get medical attention.

**Eye**
- Do not rub or scratch your eyes. Immediately flush eyes with plenty of water for at least 15 minutes and notify medical personnel and supervisor.

**Ingestion**
- Consult a physician if unusual reaction is noted. Product is not intended nor is it likely to be ingested or eaten.

**Most important symptoms and effects, both acute and delayed**
- Refer to Section 11 - Toxicological Information.

**Indication of any immediate medical attention and special treatment needed**

**Notes to Physician**
- All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

### Section 5: Fire-Fighting Measures

**Extinguishing media**

**Suitable Extinguishing Media**
- Use any media suitable for the surrounding fires.

**Unsuitable Extinguishing Media**
- No data available.

**Special hazards arising from the substance or mixture**

**Unusual Fire and Explosion Hazards**
- Does not support combustion. These products contain a cured binder and various facings which contain retardant systems to reduce the possibility of fire. Use of plasma or other type of cutting tool may cause the release of toxic fumes and smoke. Facings on these products may burn. Do not leave facing exposed when working close to an open flame. If burned, the materials could release toxic fumes.

**Hazardous Combustion Products**
- If burned, the materials could release toxic fumes and smoke. The binder and kraft facings combustion products include carbon-dioxide, hydrogen chloride, carbon monoxide and molecular fragments of hydrocarbon particles, carbon-hydrgen-nitrogen and nitrogen-oxygen compounds. Comparative animal inhalation toxicity studies of
combustion products on a number of CertainTeed fiber glass insulation products found the insulation products to be no more toxic than wood based on incapacitation and mortality.

**Advice for firefighters**

- Firefighters should avoid inhaling any combustion products.
- Firefighters should wear full-face, self-contained breathing apparatus and impervious protective clothing.
- Treat as residential building materials.

---

### Section 6 - Accidental Release Measures

#### Personal precautions, protective equipment and emergency procedures

**Personal Precautions**
- Avoid contact with skin and eyes during clean-up. Take proper precautions to minimize exposure by using appropriate personal protective equipment.

**Emergency Procedures**
- Persons not wearing appropriate protective equipment should be excluded from area of spill until clean-up has been completed. Ventilate the contaminated area.

**Environmental precautions**
- Avoid run off to waterways and sewers.

**Methods and material for containment and cleaning up**

- Containment of this material should not be necessary. Remove sources of ignition. Collect dust or particulates using a vacuum cleaner with a HEPA filter. Avoid the generation of dusts during clean-up.

### Section 7 - Handling and Storage

#### Precautions for safe handling

**Handling**
- Do not breathe dust from this material. Keep this product from heat, sparks, or open flame. Use this product with adequate ventilation. Always wash work clothes separately from other clothing. Wipe out the washer or sink to prevent loose glass fibers from getting on other clothing. Wash thoroughly after handling. Use personal protective equipment as described in Section 8.

**Conditions for safe storage, including any incompatibilities**

**Storage**
- Store in a dry place and under cover to protect product.

**Incompatible Materials or Ignition Sources**
- Hydrofluoric acid.

### Section 8 - Exposure Controls/Personal Protection

Exposure controls

Engineering Measures/Controls

- Use general ventilation and use local exhaust, where possible, in confined or enclosed spaces. Avoid spread of fiber glass dust.

Personal Protective Equipment

- Pictograms

  Respiratory
  - A properly fitted NIOSH approved N 95 series disposable dust respirator such as a 3M Brand #8210, #8511, #8233 or equivalent, in high humidity environments should be used when: high dust levels are encountered; the level of glass fibers in the air exceeds the occupational exposure limits; or if irritation occurs.

  Eye/Face
  - Safety glasses with side shields should be worn at a minimum. In dusty environments chemical goggles should be worn.

  Hands
  - Leather or cotton gloves may be worn to prevent skin contact and irritation.

  Skin/Body
  - Work clothing sufficient to prevent all skin contact should be worn, such as coveralls, long sleeves and cap.

General Industrial Hygiene Considerations

- Use good industrial hygiene practices in handling this material. Availability of eye wash fountains are recommended. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco.

Environmental Exposure Controls

- Follow best practice for site management and disposal of waste. Controls should be engineered to prevent release to the environment, including procedures to prevent spills, atmospheric release and release to waterways.

Other Information

- This product contains a chemical known to the State of California to cause cancer. Fiber glass wool may cause temporary skin, eye, throat and upper respiratory irritation. In 2001, the International Agency for Research on Cancer (IARC) reclassified glass wool as Group 3, not classifiable as to carcinogenicity to humans. In 2012 a similar action was taken by the U.S. National Toxicology Program (NTP) and the California Office of Environmental Health Hazard Assessment (OEHHA).

Key to abbreviations

ACGIH = American Conference of Governmental Industrial Hygiene
NIOSH = National Institute of Occupational Safety and Health
OSHA = Occupational Safety and Health Administration

STEL = Short Term Exposure Limits are based on 15-minute exposures
TWA = Time-Weighted Averages are based on 8h/day, 40h/week exposures
TWAEV = Time-Weighted Average Exposure Value

Section 10: Stability and Reactivity

Reactivity
- No dangerous reaction known under conditions of normal use.

Chemical stability
- Stable under normal conditions of use.

Possibility of hazardous reactions
- Hazardous polymerization not indicated.

Conditions to avoid
- Keep away from heat, ignition sources and incompatible materials.

Incompatible materials
- Hydrofluoric acid.

Hazardous decomposition products
- Hazardous decomposition products may include oxides of carbon, sulfur and other potentially volatile organic compounds, oxides of arsenic, oxides of nitrogen, hydrogen chloride, antimony, bromide gas, hydrogen bromide, formaldehyde, and trace hydrogen cyanide.

Route(s) of entry/exposure
- Inhalation

Medical Conditions Aggravated by Exposure
- Pre-existing conditions which may be aggravated by mechanical irritants upon inhalation or skin contact.

Potential Health Effects

Inhalation
- Acute (Immediate) Temporary irritation of nose and throat may occur.
- Chronic (Delayed) Chronic overexposure to dusts of this material in excess of published exposure limits may cause lung damage/disease, including decreased lung function.

Skin
- Acute (Immediate) Temporary irritation of the skin may occur in some individuals.
- Chronic (Delayed) No data available.

Eye
- Acute (Immediate) Temporary irritation or redness may occur.
- Chronic (Delayed) No data available.

Ingestion
- Acute (Immediate) Ingestion of this product unlikely.
- Chronic (Delayed) Ingestion of this product unlikely.

Carcinogenic Effects
- This product contains antimony trioxide which may cause cancer based on sufficient animal data. This product contains glass wool insulation fibers. Following a thorough review of all the medical-scientific data available at a meeting in October 2001, the IARC panel lowered the classification for glass wool insulation fibers from a Group 2B classification ("possibly carcinogenic to humans") to a Group 3 classification ("not classifiable as to carcinogenicity to humans"). According to IARC, there is no evidence of increased risks of lung cancer or of mesothelioma from occupational exposures during manufacturing of these materials, and inadequate evidence overall of any cancer risk. U.S., California and international authorities have all agreed that biosoluble and inhalable glass fibers should not be labeled as a possible cancer hazard. The U.S. National Toxicology Program ("NTP") and the California Office of Environmental Health Hazard Assessment ("OEHHHA") actions mean that a cancer warning label for biosoluble fiber glass is no longer required under Federal or California Law.

Reproductive Effects
- No data available.

Section 12 - Ecological Information

Toxicity
- Binder-coated fiber glass is hydrophobic, therefore, no adverse environmental effects would be expected if this product were accidentally released in the water or soil. No harm to fish or wildlife would be caused by this product.

Persistence and degradability
- No information available for the product.
Bioaccumulative potential

- No information available for the product.

Mobility in Soil

- No information available for the product.

Other adverse effects

Potential Environmental Effects

- No environmental effects expected.

Section 13 - Disposal Considerations

Waste treatment methods

Product waste

- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

Packaging waste

- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

Section 14 - Transport Information

<table>
<thead>

### United States - California

#### Environment

**U.S. - California - Proposition 65 - Carcinogens List**

- Glass, oxide, chemicals as Glass wool fiber                                      60% TO 100% carcinogen, initial date 7/1/90 (inhaleable and biopersistent)
- Poly(oxy-1,2-ethanediyoxy carbonyl-1,4-phenylenecarbonyl)                        25038-59-9 0% TO 5% Not Listed
- Antimony oxide (Sb2O3)                                                           1309-64-4  0% TO 5% Not Listed
carcinogen, initial date 10/1/90
- Antimony oxide (Sb2O3) as Antimony compounds                                     0% TO 5% Not Listed
- Antimony oxide (Sb2O3) as Antimony oxides                                       0% TO 5% Not Listed
- Acetic acid, vinyl ester, polymer                                               9003-20-7  0% TO 5% Not Listed
- Glass, oxide, chemicals                                                          65997-17-3 60% TO 100% Not Listed

#### U.S. - California - Proposition 65 - Developmental Toxicity

- Glass, oxide, chemicals as Glass wool fiber                                      60% TO 100% Not Listed
- Poly(oxy-1,2-ethanediyoxy carbonyl-1,4-phenylenecarbonyl)                        25038-59-9 0% TO 5% Not Listed
- Antimony oxide (Sb2O3)                                                           1309-64-4  0% TO 5% Not Listed
- Antimony oxide (Sb2O3) as Antimony compounds                                     0% TO 5% Not Listed
- Antimony oxide (Sb2O3) as Antimony oxides                                       0% TO 5% Not Listed
- Acetic acid, vinyl ester, polymer                                               9003-20-7  0% TO 5% Not Listed
- Glass, oxide, chemicals                                                          65997-17-3 60% TO 100% Not Listed

#### U.S. - California - Proposition 65 - Maximum Allowable Dose Levels (MADL)

- Glass, oxide, chemicals as Glass wool fiber                                      60% TO 100% Not Listed
- Poly(oxy-1,2-ethanediyoxy carbonyl-1,4-phenylenecarbonyl)                        25038-59-9 0% TO 5% Not Listed
- Antimony oxide (Sb2O3)                                                           1309-64-4  0% TO 5% Not Listed
- Antimony oxide (Sb2O3) as Antimony compounds                                     0% TO 5% Not Listed
- Antimony oxide (Sb2O3) as Antimony oxides                                       0% TO 5% Not Listed
- Acetic acid, vinyl ester, polymer                                               9003-20-7  0% TO 5% Not Listed
- Glass, oxide, chemicals                                                          65997-17-3 60% TO 100% Not Listed

#### U.S. - California - Proposition 65 - No Significant Risk Levels (NSRL)

- Glass, oxide, chemicals as Glass wool fiber                                      60% TO 100% Not Listed
- Poly(oxy-1,2-ethanediyoxy carbonyl-1,4-phenylenecarbonyl)                        25038-59-9 0% TO 5% Not Listed
- Antimony oxide (Sb2O3)                                                           1309-64-4  0% TO 5% Not Listed
- Antimony oxide (Sb2O3) as Antimony compounds                                     0% TO 5% Not Listed
- Antimony oxide (Sb2O3) as Antimony oxides                                       0% TO 5% Not Listed
