The K to 12 Program covers Kindergarten and 12 years of basic education (six years of primary education, four years of Junior High School, and two years of Senior High School [SHS]) to provide sufficient time for mastery of concepts and skills, develop lifelong learners, and prepare graduates for tertiary education, middle-level skills development, employment, and entrepreneurship.

**SALIENT FEATURES**

- Strengthening Early Childhood Education (Universal Kindergarten)
- Building Proficiency through Language (Mother Tongue-Based Multilingual Education)
- Making the Curriculum Relevant to Learners (Contextualization and Enhancement)
- Gearing Up for the Future (Senior High School)
- Ensuring Integrated and Seamless Learning (Spiral Progression)
- Nurturing the Holistically Developed Filipino (College and Livelihood Readiness, 21st Century Skills)
Every Filipino child now has access to early childhood education through Universal Kindergarten. At 5 years old, children start schooling and are given the means to slowly adjust to formal education.

Research shows that children who underwent Kindergarten have better completion rates than those who did not. Children who complete a standards-based Kindergarten program are better prepared, for primary education.

Education for children in the early years lays the foundation for lifelong learning and for the total development of a child. The early years of a human being, from 0 to 6 years, are the most critical period when the brain grows to at least 60-70% of adult size.

Examples, activities, songs, poems, stories, and illustrations are based on local culture, history, and reality. This makes the lessons relevant to the learners and easy to understand.

Students acquire in-depth knowledge, skills, values, and attitudes through continuity and consistency across all levels and subjects.

Discussions on issues such as Disaster Risk Reduction (DRR), Climate Change Adaptation, and Information & Communication Technology (ICT) are included in the enhanced curriculum.
Building Proficiency through Language (Mother Tongue-Based Multilingual Education)

Students are able to learn best through their first language, their Mother Tongue (MT). Twelve (12) MT languages have been introduced for SY 2012-2013: Bahasa Sug, Bikol, Cebuano, Chabacano, Hiligaynon, Iloko, Kapampangan, Maguindanaanoan, Meranao, Pangasinense, Tagalog, and Waray. Other local languages will be added in succeeding school years.

Aside from the Mother Tongue, English and Filipino are taught as subjects starting Grade 1, with a focus on oral fluency. In Grade 4, English and Filipino are used as the primary Medium of Instruction (MOI).

After Grade 1, every student can read in his or her Mother Tongue. Learning in Mother Tongue also serves as the foundation for students to learn Filipino and English easily.

Ensuring Integrated and Seamless Learning (Spiral Progression)

Subjects are taught from the simplest concepts to more complicated concepts through grade levels in spiral progression. As early as elementary, students gain knowledge in areas such as Biology, Geometry, Earth Science, Chemistry, and Algebra.

For example, currently in High School, Biology is taught in 2nd Year, Chemistry in 3rd Year, and Physics in 4th Year. In K to 12, these subjects are connected and integrated from Grades 7 to 10. This same method is used in other Learning Areas like Math.

Gearing Up for the Future (Senior High School)

Senior High School is two years of specialized upper secondary education; students may choose a career track based on aptitude, interests, and school capacity. The choice of career track will define the content of the subjects a student will take in Grades 11 and 12. These subjects fall under either the Core Curriculum or specific Career Pathways.
CORE CURRICULUM

There are six subjects under the Core Curriculum. These are Humanities, Languages (English and/or Filipino), Math, Philosophy, Science, and Social Sciences. Current content from some General Education subjects are embedded in the SHS curriculum.

CAREER PATHWAYS

Each student in Senior High School can choose among five tracks: Business and Entrepreneurship; Humanities and Social Sciences; Science, Technology, and Engineering; Sports; and Technical-Vocational.

Students undergo On-the-Job Training (OJT) or immersion, which may include earn-while-you-learn opportunities, to provide them relevant exposure and actual experience in their chosen track.

TVET (Technical Vocational Education & Training) NATIONAL CERTIFICATE

After finishing Grade 10, a student can obtain Certificates of Competency (COC) or a National Certificate Level I (NC I). After finishing a Technical-Vocational track in Grade 12, a student may obtain a National Certificate Level II (NC II), provided he/she passes the competency-based assessment of the Technical Education and Skills Development Authority (TESDA).

NC I and NC II improves employability of graduates in fields like Agriculture, Electronics, and Trade.
MODELING BEST PRACTICES FOR SENIOR HIGH SCHOOL

In SY 2012-2013, there are 30 public high schools and higher education institutions (HEIs) that have implemented Grade 11. This is a Research and Design (R&D) program to simulate different aspects of Senior High School in preparation for full nationwide implementation in SY 2016-2017. Modeling programs offered by these schools are based on students’ interests, community needs, and their respective capacities.

After going through Kindergarten, the enhanced Elementary and Junior High curriculum, and a specialized Senior High program, every K to 12 graduate will be ready to go into different paths – may it be further education, employment, or entrepreneurship.

Every graduate will be equipped with:

- information, media and technology skills,
- Learning and Innovation Skills
- Effective Communications Skills
- Life and Career Skills

IMPLEMENTATION AND TRANSITION MANAGEMENT

SCHEMATIC IMPLEMENTATION IN PUBLIC SCHOOLS

First batch to start K to 12 education

First cohort of of K to 12 Grade 6 and Grade 12 graduates of 2018

★ The first batch of learners who went through the full K to 12 system will graduate on 2024
Program implementation in public schools is being done in phases starting SY 2012–2013. Grade 1 entrants in SY 2012–2013 are the first batch to fully undergo the program, and current 1st year Junior High School students (or Grade 7) are the first to undergo the enhanced secondary education program. To facilitate the transition from the existing 10-year basic education to 12 years, DepEd is also implementing the SHS Modeling.

Private schools craft their transition plans based on: (1) current/previous entry ages for Grade 1 and final year of Kinder, (2) duration of program, and most importantly, (3) content of curriculum offered.

PK: PRE KINDER K: KINDER K1 OR K2: KINDER 1 OR KINDER 2
WHEN WILL THE K TO 12 PROGRAM BE IMPLEMENTED?

• Universal Kindergarten began in SY 2011–2012.
• The enhanced curriculum for Grade 1 and Grade 7 (1st Year Junior High School) was rolled out this SY 2012–2013, and will be progressively introduced in the other grade levels in succeeding school years.
• Grade 11 will be introduced in SY 2016–2017 and Grade 12 in SY 2017–2018.
• The first batch of high school students to go through K to 12 will graduate in March 2018.

WHERE WILL THE ADDITIONAL TWO YEARS BE ADDED?

The two years will be added after the four-year high school program. This will be called Senior High School.

WHY ARE WE IMPLEMENTING 12 YEARS OF BASIC EDUCATION AND NOT 11 YEARS?

• A 12-year program is found to be the adequate period for learning under basic education. It is also a standard for recognition of students and/or professionals abroad (i.e., the Bologna Process for the European Union and the Washington Accord for the United States).
• Other countries like Singapore have 11 years of compulsory education, but have 12 to 14 years of pre-university education depending on the track.
• The Philippines is the last country in Asia and one of only three countries worldwide with a 10-year pre-university cycle.

HOW WILL K TO 12 HELP IN ENSURING EMPLOYMENT FOR OUR GRADUATES?

• The K to 12 Basic Education Curriculum will be sufficient to prepare students for work.
• The curriculum will enable students to acquire Certificates of Competency (COCs) and National Certifications (NCs). This will be in accordance with TESDA Training Regulations. This will allow graduates to have middle-level skills and will offer them better opportunities to be gainfully employed or become entrepreneurs.
• There will be a school–industry partnership for technical–vocational courses to allow students to gain work experience while studying and offer the opportunity to be absorbed by the companies.

WHAT WOULD BE THE ASSURANCE THAT K TO 12 GRADUATES WILL BE EMPLOYED?

• DepEd has entered into an agreement with business organizations, local and foreign chambers of commerce, and industries to ensure that graduates of K to 12 will be considered for employment.
• There will be a matching of competency requirements and standards so that 12-year basic education graduates will have the necessary skills needed by the labor market.
• Entrepreneurship will also be fostered in the enhanced curriculum, ensuring graduates can venture into other opportunities beyond employment.
WHAT WILL HAPPEN TO COLLEGES AND UNIVERSITIES DURING THE INITIAL NATIONWIDE IMPLEMENTATION OF SENIOR HIGH SCHOOL IN SY 2016–2017 AND SY 2017–2018?

Discussions between private Higher Education Institutions and DepEd are being conducted for the possible utilization of facilities and hiring of college teachers for Senior High School. This ensures that during the transition period, the reduction in enrollment in these colleges and universities may be offset.

WHERE WILL SENIOR HIGH SCHOOL BE IMPLEMENTED?

Existing public schools may implement Senior High School. DepEd is likewise in discussions with CHED, TESDA, and private schools to use their facilities. In addition, new standalone Senior High Schools will be built.

HOW WILL K TO 12 AFFECT THE COLLEGE CURRICULUM?

The college General Education Curriculum is being revised. It will have fewer units with the removal of unnecessary remediation as K to 12 graduates adhere to the College Readiness Standards. With K to 12, the college curriculum will comprise of a year’s worth of General Education subjects and at least two years of major subjects.

WILL K TO 12 CHANGE TESDA TECHNICAL VOCATIONAL EDUCATION AND TRAINING (TVET) PROGRAMS?

No. TESDA will continue to offer TVET programs. Students may also be eligible for NC I and NC II through Junior High School and Senior High School, respectively.
WHAT WILL HAPPEN TO THE CURRICULUM? WHAT SUBJECTS WILL BE ADDED AND REMOVED?

• There is a continuum from Kindergarten to Grade 12, and to technical-vocational and higher education.
• The current curriculum has been enhanced and has been given more focus to allow mastery of learning.
• In Grades 11 and 12, core subjects like Math, Science, and Languages will be strengthened. Specializations in students’ areas of interest will also be offered.

WILL STUDENTS CHOOSE SPECIALIZATIONS OR WILL THIS BE DETERMINED BY ASSESSMENT?

Students will undergo several assessments to determine their interests and strengths. These will include an aptitude test, a career assessment exam, and an occupational interest inventory for high schools, and should help students decide on their specialization.

FOR SENIOR HIGH SCHOOL, WHAT WILL HAPPEN IF MAJORITY OF OUR STUDENTS WANT TO SPECIALIZE IN AGRICULTURE AND ONLY ONE IS INTERESTED TO TAKE MATH OR BUSINESS? HOW WILL THIS BE ACCOMMODATED?

• This is an extreme situation.
• The areas of specialization will be offered according to the resources available in a locality and the needs of students.

WHAT WILL HAPPEN TO SPECIAL SCHOOLS SUCH AS SCIENCE HIGH SCHOOLS, HIGH SCHOOLS FOR THE ARTS, TRADE SCHOOLS, ETC.?

These schools will remain special schools with enriched curriculum for Grades 7 to 12.

WHAT WILL HAPPEN TO MULTI-GRADE TEACHING?

• Multi-grade teaching will continue, and will use the K to 12 curriculum.

THE ALTERNATIVE LEARNING SYSTEM (ALS) AGE REQUIREMENT IS ONLY 16 YEARS OLD FOR THE HIGH SCHOOL EQUIVALENCY TEST. WILL THIS CHANGE TO 18? STUDENTS MIGHT WANT TO TURN TO ALS IF THEY CAN SAVE TWO YEARS OF FORMAL SCHOOL EDUCATION COSTS.

WHAT IS MY ROLE IN SUPPORTING THIS PROGRAM?

• Be informed. Education shapes our future as Filipinos, it is our duty to be aware of reforms in basic education that will move our country forward.
• Spread awareness. Tell your family, friends, and networks about the K to12 Program and help them stay informed.

CURRICULUM
• The ALS is based on the existing 10-year basic education curriculum. When the new 12-year curriculum will be in place, ALS will likewise be revised.

WILL K TO 12 ENHANCE PROGRAMS TARGETED TO INDIGENOUS PEOPLE, MUSLIM LEARNERS, AND PEOPLE WITH SPECIAL NEEDS?

Yes, the K to 12 curriculum was designed to address diverse learner needs, and may be adapted to fit specific learner groups.

KINDERGARTEN

IS KINDERGARTEN A PRE-REQUISITE FOR ENTERING GRADE 1?

Yes. Republic Act No. 10157, or the Kindergarten Education Act, institutionalizes Kindergarten as part of the basic education system and is a pre-requisite for admission to Grade 1. Public schools will admit children who have not taken Kindergarten into Grade 1 until SY 2013-2014.

IS THERE AN OVERLAP BETWEEN THE DAYCARE PROGRAM OF THE LGUS AND DEPED KINDERGARTEN?

There is no overlap. Day care centers of the LGUs take care of children aged 4 and below, whereas the DepEd Kindergarten program is for five-year-old children.

SHOULD SCHOOLS NOW PREPARE PERMANENT RECORDS FOR KINDERGARTEN STUDENTS?

Yes. Although the assessment of readiness skills of students in Kindergarten is not academically driven, a good measure of the child’s ability to cope with formal schooling is needed for future learning interventions.

WHO IS IN CHARGE OF KINDERGARTEN TEACHER COMPENSATION? THE LGU OR DEPED?

• DepEd is the main agency that employs and pays Kindergarten teachers.
• There are LGUs that assist the Kindergarten program and provide honoraria for Kindergarten teachers.

WILL MTB-MLE INCLUDE OTHER LANGUAGES IN THE FUTURE?

For SY 2012-2013, 12 Mother Tongue languages are being used for MTB-MLE. More languages, such as Ivatan, will be added in succeeding years.

WHICH MOTHER TONGUE WILL BE USED IN MULTI-CULTURAL AREAS?

• The common language in the area or lingua franca shall be used as the medium of instruction.
• The principle of MTB-MLE is to use the language that learners are most comfortable and familiar with.
WILL TEACHERS BE BURDENED BY ADDITIONAL TEACHING LOAD DUE TO THE K TO 12 PROGRAM?

There will be no additional workload due to the K to 12 Program. The Magna Carta for Public School Teachers provides that teachers should only teach up to six hours a day.

WILL TEACHER SALARY INCREASE AS A RESULT OF THE K TO 12 PROGRAM?

• The K to 12 Program will not result in a teacher salary increase because there will be no additional teaching load or additional teaching hours.
• Salary increases for other reasons, such as the Salary Standardization Law, inflation, promotion, and Performance-Based Bonuses (PBB), may apply.

HOW WILL TEACHERS BE PREPARED FOR THE K TO 12 PROGRAM?

• Teachers will be given sufficient in-service training to implement this program. The pre-service training for aspiring teachers will also be modified to conform to the requirements of the program.
• Training of teachers will follow the phased-in introduction of the enhanced curriculum.

DEPED LACKS RESOURCES TO ADDRESS ITS CURRENT INPUT SHORTAGES. WITH K TO 12 AND ITS ADDED RESOURCE NEEDS, HOW WILL THIS BE ADDRESSED?

• All input shortages will be wiped out before the end of 2013. A 1:1 ratio for student-to-textbook and student-to-seat will be achieved within the year. Shortages in classrooms, teachers, and toilets will be fully addressed next year.
• One scheme for Senior High School is to front-load all needed capital investments, take a grant or loan from government and private banks based on annual budget, and pay the amortization yearly.
• We also have the support of local government units and private partners to build the needed infrastructure.

HOW CAN DIFFERENT SECTORS AND INDIVIDUAL CITIZENS COLLECTIVELY COLLABORATE TO IMPROVE THE BASIC EDUCATION SECTOR?

• Private partners can donate through our Adopt-A-School program, which provides them a 150 percent tax rebate for their contribution.
• Individuals and institutions can take part in the TEN Moves! Campaign to build 10,000 classrooms by donating P10 per day for ten months.
• LGUs can follow the front-loading scheme using their Special Education Fund as collateral and the allocation as amortization.
• For teacher items, LGUs also help by hiring qualified teachers for our public schools and paying honoraria for them.
• We have enough time to provide the additional classrooms, teachers, and instructional materials since they will be needed beginning SY 2016-2017.
I LIKE THIS PROGRAM BUT I'M WORRIED ABOUT ADDITIONAL COST TO FAMILIES. HOW WILL GOVERNMENT RESPOND TO THIS DIFFICULTY?

• Kindergarten and 12 years of basic education is offered for free in public schools.
• There are additional indirect costs, but government agencies are collaborating to provide programs that will enable everyone access to quality education, especially to those with lesser means.
• Proposals such as the expansion of the Education Service Contracting (ESC) scheme under the Government Assistance to Students and Teachers in Private Education (GASTPE) and other cost-sharing arrangements are being developed by DepEd.
• K to 12 graduates should have higher earning potential, as they will be more competent and skilled.
• As a result of the K to 12 Program, particularly the more specialized education in Senior High School, CHED is exploring the possibility of decreasing the number of years of certain degree programs in college.
• K to 12 graduates can obtain national certification from TESDA, which will enable them to have more employment opportunities.

WHAT ABOUT THE DROPOUT PROBLEM? WILL THIS BE ADDRESSED BY THE K TO 12 CURRICULUM?

• DepEd prefers the term “school leavers” rather than “dropout”, recognizing that most students who discontinue schooling were pushed out of the system due to factors beyond their and their parents’ control.
• Keeping students in school is a responsibility of the entire community. To respond to this, DepEd and other government agencies are collaborating to make sure that all children stay in school through programs like the Pantawid Pamilyang Pilipino Program (4Ps) of the Department of Social Welfare and Development (DSWD).
• The curriculum will be learner-centered, enriched, and responsive to local needs. It will also allow students to choose electives and specializations that suit their interest. This should partly address those who stop attending school because of the perceived lack of relevance of the curriculum.
• DepEd will also continue to offer programs such as home schooling for elementary students and the school leavers reduction program for high schools. These programs address the learning needs of marginalized students and learners at risk of leaving the school system.

WON’T THIS BE ANOTHER AVENUE FOR CORRUPTION? HOW CAN YOU ENSURE THAT FUNDS WILL BE RELEASED AND USED PROPERLY?

• DepEd fully supports the Aquino administration’s drive against corruption.
• We will regularly package and disseminate information on agency budgets, bidding and procurement documents, and SALNs (Statements of Assets, Liabilities, and Net Worth) of senior government officials, to ensure transparency and accountability.
• It is also in our best interest to ensure that funds and resources are not lost to corruption.
