**Pediatric EEG DVD **

“Pediatric EEG is the first fully interactive tool to simulate an actual pediatric EEG lab reading session. Pediatric EEG: An Interactive Reading Session teaches pediatric EEG interpretation to neurology residents, clinical neurophysiology fellows, neurologists, and neurodiagnostic technologists using 100 EEG cases, over 150 high-quality EEGs, and a scored self-testing module with case-based questions, answers, and explanations to help users assess reading skills. A wide variety of examples are presented to illustrate the most important aspects of pediatric EEG, including ontogeny of waveforms, key features of all pediatric epilepsy syndromes, various seizure types, common abnormalities, metabolic syndromes, altered mental status, infantile spasms, and more. Teaching points in the cases are emphasized throughout, making this the perfect tool for clinical self-assessment and board preparation.

DMP005 ............................................. $99.00

**Somnology 2 **

Fundamental Essentials and Comprehensive Primer on the Principles and Practice of Somnology including Focused Review of the Basic Science of Sleep Medicine, Best Pearls of Clinical Practice, and Atlas of Polysomnogram Interpretation and Technical Considerations that Experts and Primary Care Physicians can Use as a Handbook, Guide or Practical Overview of the Clinical Aspects of Common Sleep Disorders

CS001 ............................................. $39.00

**Hybernite® Rainout Control System**

The Hybernite Rainout Control System helps to prevent moisture condensation in the breathing tube of adult patients requiring continuous positive airways pressure or mask ventilation. The system consists of a heated breathing tube and an independent power supply. The system can be used in the sleep labs and in the home.

ROC-2300 ............................................. $39.00

**Mini Lab Hurricane CPAP Equipment Dryer**

A gentle, static warm air dryer for CPAP and related sleep testing supplies (masks, pillows, headgear, hoses, humidifier chambers, respiratory belts, EEG nets, and washable CPAP/BiLevel machine filters). Three timer settings with automatic shut-off: 15 minute, 30 minute, and 60 minute. Automatic temperature control, keeping cabinet temperature under 121 degrees fahrenheit. Unit overheat safety shut-off feature.

- One drying port for connecting CPAP hoses
- Removable water collection tray for excess dripping of supplies
- Opaque, see-through, easy-roll lid keeps supplies covered all day
- Removable stainless steel basket
- Washable air inlet filter
- Electrical Safety Certification (ETL)
- Dimensions: 12.5” (Length) x 15” (Width) x 12” (Height)
- 1 Year Warranty

ML001 ............................................. $149.00

$139.00 ($10.00 off) with coupon code Q2MINI!

Ideal for electrode application. 10 yards. 6 rolls per bag.
MVAP13-6 $9.95

CPAP Mask Gel
CPAP Mask Gel creates a seal around the mask, stopping the air from escaping and creating irritating leaks and noises. Reduces irritation and increases mask comfort, by allowing you to loosen the mask without jeopardizing the seal. CPAP Mask Gel is FDA approved over the counter drug that helps restore dry or cracked lips and skin. 1.76 oz’s per tube. 3 month supply per tube.
CMG001 $17.95

Low Cost Sopora Nasal Mask
SP-SOPN-S Small $39.95
SP-SOPN-M Medium $39.95
SP-SOPN-L Large $39.95

Low Cost Sopora Full Face Mask
SP-FMS Small $49.95
SP-FMM Medium $49.95
SP-FML Large $49.95

EZ Talk
The EZ-Talk is used to facilitate speaking and yawning while using a CPAP or other positive air pressure therapy. By simply depressing the button, pressure is temporarily interrupted giving the user a brief window in which to speak, yawn, or make adjustments without having to turn off the machine. Once the button is released, pressure resumes and therapy can continue.
