And if you prove that you have the potential to get a Rank in Top 500 AIR in JEE Advanced,

And all this can be a reality through Talent Recognition Exam

for Students presently in Class VII, VIII, IX, X & XI

Sunday, 16th October 2016
FIITJEE laid its foundation stone with a Mission,

A mission to nurture all the Talented & Deserving Engineering Aspirants of the country and facilitate them to bag a seat in the prestigious IITs.

And this mission has today resulted in every third IITian being a FIITJEE Student. At the same time, we have been aggrieved to see so much of Talent succumbing to the harsh realities of the world - extreme competition at IIT-JEE Level coupled with lack of availability of the right coaches / right mentors. More often than not, they start falling prey to the wrong & unethical practices like making false commitment, claiming false results etc. followed by most of the institutes in the Country. Exploiting the extreme desire of Students for a seat in IIT, even a nondescript small town came into limelight for its IIT-JEE Coaching a few years ago. Students from other parts of the Country flocked to this small hamlet with a belief that their dreams of becoming an IITian will come true by joining one of the Coaching Institutes there. These Coaching Institutes formed batches of 200 - 500 Students in each class. Obviously classes could only happen as a monologue with learning being the sole responsibility of the Student.

This approach of the institutes forced Students into cramming IIT-JEE syllabus and seeking help of alternative study materials etc. Initially the system saw some success, only because some good Students were getting enticed, primarily due to lack of good coaching opportunities in their home towns. Infact one of the famed Coaching Institutes, following this very system, produced 40 Ranks in Top 100 All India Ranks in IIT-JEE, 2007.

Contrary to the Students quest for True Gurus, these institutes do not even have competent Faculty who can teach Physics, Chemistry & Mathematics reasonably well. Leave alone enhancing the talent, these sham Institutes end up ruining even the inborn talent of the Students. Such success was short lived and Students soon realised the faults of such a system.

Just like a True Guru cannot see the future of his disciples get ruined, FIITJEE too cannot see the future of Talented Students get damaged at the hands of such Institutes. Hence, in step with our unceasing Commitment towards harnessing unrecognized Talent of Punjab, Himachal Pradesh & the Tricity of Chandigarh, Panchkula & Mohali, we launched Talent Recognition Exam in 2014.

Salutations to the Guru, who Removes the Darkness of Ignorance from our Blind Inner Eyes by applying the Collyrium of the Light of Knowledge. By Whom our Inner Eyes are Opened.

I am Siddharth Nohria, a student of FIITJEE Amritsar. I joined in class 7 in the 2-year Udaya programme. After, I came to know about the excellent teaching standards of FIITJEE Amritsar centre. Then, I joined the 4-year classroom programme for preparation for JEE Advanced.

FIITJEE provided me the right atmosphere and motivation for my preparation. The interactive classroom teaching and a healthy, competitive environment gave me motivation for excelling in my quest for JEE Advanced. The teaching standard is great and the study package is top-notch quality. The assignments, CPP at the end of each chapter, provided great practice questions. The archive, GMP, and RTPF were the ultimate source of high standard questions which helped me sharpen my skills. The doubt clearing session was especially beneficial. The AITS exams helped me practice in real exam-like environment and also helped me track my constant progress.

Under the constant guidance of FIITJEE teachers and the excellent study material, I was able to perform well in JEE Advanced. I thank FIITJEE Amritsar for their guidance.

I, Bhavya Vasudeva, joined FIITJEE in class XI in two-year classroom programme (class XI-XII) for preparation of IIT-JEE. FIITJEE provides the best atmosphere for learning with the knowledgable and motivating faculty members as well as excellent study material including chapter-wise packages, review packages, GMP’s, workbooks, archives, RTPF etc. The CFP’s and assignments at the end of each chapter include unique problems to develop thinking skills. Numerous tests simulating actual test environment, like phase tests, AITS, AITS are conducted. They not only provides AIR, but also strengthen concepts. Practice session and doubt removal sessions prove beneficial.

I give the credit of achieving AIR 978 in JEE (advanced) 2016 to the FIITJEE team. FIITJEE is definitely the place to go to improve yourself and achieve your goals.

I am Mehak, student of one year classroom program at FIITJEE Chandigarh. My journey with FIITJEE began in class XI. Relevant study material, good and frequent test papers like chapterwise mock tests, quizzes helped clear my concepts and laid a strong foundation for a successful road to JEE. The exceptional faculty at FIITJEE helped in chaining one success after another on the ever-changing engineering landscape. Moreover, I am indebted to my parents and brothers who stood by me through every thick and thin. My advice to my juniors would be to choose an institution suited to their needs and stick to it.
