### 10:15–10:30am  
Networking Break  -  *Coffee, drinks, snacks*

### 10:30–12pm  
Clean Technologies Panel: Overview of commercially available and advanced clean technologies for on-highway and nonroad heavy duty applications. Technology topics include:  
- Modern diesel  
- Low-NOx engines  
- Natural gas  
- Zero tailpipe emission  
**Intention:** Share information on the emissions performance of commercially available heavy-duty technologies, and explore the state of advanced heavy-duty technology demonstration and deployment.
Moderator: Dr. Matt Miyasato, Deputy Executive Officer, South Coast Air Quality Management District

Panelists
I. Allen Schaeffer, Executive Director, Diesel Technology Forum
