What is a subject-specific seminar?
The IB publishes new subject guides at the beginning of the calendar year, and then offers subject specific seminars to help educators understand and implement the changes.

Why should you attend?
These seminars offer an important opportunity for experienced teachers to fully acquaint themselves with change to particular subject area. They explain and exemplify the teaching and learning framework, the guidelines and requirements for implementation, the objectives and criteria, and the assessment tools and task types.

Academic staff from the programme development team and/or a member of the curriculum review team will be on hand throughout the workshop to answer questions and participate in discussion.

NOTE: Subject-specific seminars are for experienced teachers only. Educators who are new to the IB should attend a category 1 workshop.

Where do they take place?
These events are taking place in each region where IB World Schools operate. Visit ibo.org/events to find the location and date that works best for you.

What you need to know
Subject-specific seminars are held as face-to-face events within the first three months following publication of the new guide. After that time, both online and face-to-face workshops will correspond to the new curriculum guide(s); workshops held prior to the subject-specific seminars will work to the current guide(s).
