Fill your house with love and laughter, put everything else in an Amish Mike Shed.
ABOUT US

We believe what truly separates Amish Mike from so many other shed dealerships, is our quality of service.

Amish Mike offers a full range of wood sheds, vinyl sheds, cedar sheds, board and batten sheds and more. We also feature a great selection of indoor and outdoor handmade Amish furniture, including chairs, tables, hutches, swings, wishing wells, windmills, gliders, doghouses, chicken coops and much, much more. And remember, All Amish Mike wood products are 100% hand-made in the U.S.A. and come with a full warranty.

But we believe what truly separates Amish Mike from so many other shed dealerships is our quality of service. We are not simply a middle man. Our Amish builders can construct your shed directly on site or have one of our experienced drivers carefully deliver your shed to your property in one piece. We also offer a vast array of services to meet your every need. Have an old shed you want torn down or removed? Let Amish Mike do it. Need your site professional prepared? We offer that as well. Whatever it takes to get an Amish Mike shed onto your property, we can make it happen.

While northern NJ continues to be our main base of operations, we have also built and delivered sheds in New York, Pennsylvania, Maryland, Delaware, and Virginia. At Amish Mike we know we’ve been in business for so long for one reason and one reason only, and that’s because of you, our loyal customer. We firmly believe that a partnership exists between you, the customer, and us the provider. That’s why we want you to have the same quality shed in your backyard that we have in ours. For your convenience, our store is opened seven days a week. Please stop by for a visit and see our finest Amish workmanship.

FREQUENTLY ASKED QUESTIONS

Q: Why should I buy my shed from Amish Mike as opposed to another dealer?
A: There are many reasons to buy your shed from Amish Mike. For starters, we’ve been in business for over 35 years; and the same family that sold your parents a shed a generation ago is the same family that you will be buying a shed from today. Plus, we have upwards of 100 sheds on site for you to see, and we are open 7 days a week. Therefore, you can walk in anytime, pick the shed you want, and have it delivered within days. Better yet, you can sit down with one of our experienced and knowledgeable shed experts and design your very own customized shed.

Q: Do I need a permit?
A: Amish Mike strongly encourages you to contact your local township and inquire with them directly. Permit requirements vary greatly from town-to-town, especially if you are purchasing one of our larger buildings; so, be safe, and check with your town. Amish Mike is not responsible for permits.

Q: How do you deliver your sheds?
A: Most buildings come fully assembled and delivered directly to your prepared site. Amish Mike offers several delivery methods. For most deliveries, we use our shed truck and trailer system. We also offer the new “mule” delivery system that allows our driver to get into most places other dealers can’t. If no access is available, Amish Mike can build your shed on site.

Q: Is there an additional cost for sheds built on site?
A: Yes. The cost for building a shed on site is based on a several factors, including the size of the building and the siding material selected. Vinyl sheds cost more to build than a building with T-111 siding because the carpenter has to side the building after it is erected. Also, dormers and garage doors add to the construction cost. Some buildings are too tall with the roof assembled; therefore, the roof needs to be erected on site, also for an additional cost.

Q: How long does the order process take?
A: If you purchase a shed from the lot, we can deliver the shed to your backyard within days, as long as the site is properly prepared. However, if you choose to personally design your own, unique shed, as so many of our customers prefer to do, the waiting period is typically 3 to 5 weeks, depending on the time of year that you place your order.

Q: Does Amish Mike do site checks?
A: Once a order is placed with a deposit, please request a site check. This service is offered within a 30-mile radius of our store. Site checks are performed to ensure that we can get your shed safely onto your property where you want it placed. If it is determined that the shed cannot be delivered assembled, we will offer to have it built on site. On-site consultations are provided within 30 of the store providing that a order with a deposit will be given at this time. Please contact the store for on-site consultations performed outside a 30-mile radius of the store.

Q: What kind of warranty do I get?
A: All Amish Mike structures come with a warranty. Our Premium Quality and New England style sheds come with our standard 10-year warranty. Some manufacturers also provide extended warranties on individual items, such as a 30-year warranty on architectural shingles.

Q: Do I need to visit the store to order my shed?
A: Amish Mike recommends that you visit the store before ordering your shed. We always have upwards of 100 sheds on the property for you to see and compare. Visiting the store provides you the best opportunity to see the true color of the sheds instead of a ¼-inch thumbnail on the website; and you have the opportunity to step inside the sheds to see the quality construction. In addition, you will get a true feel for the size of the shed you are interested in purchasing. You will also get to see many different features and options available on or in the sheds, such as the different trim, shutters, vents, and flavor box options.
OUR SHED STYLES

Fill your house with love and laughter, put everything else in an Amish Mike shed!

Enter Amish Mike and be delighted with a wide range of building choices from simple function to exquisite lifestyle. Amish Mike brings personal integrity, service integrity, and product integrity to every order. Our family has been delighting our community since opening their store in 1978—and the rest is history. Now in the second generation, Amish Mike has a long history of satisfied customers.

So come on in to Amish Mike and write your own piece of history for your home and family. We promise you our attention and your satisfaction.
