Combined Reporting Instructions

Combined Reporting General Information

2011 FORM 355U and Accompanying Schedules

For tax years beginning on or after January 1, 2009 Massachusetts requires certain corporations engaged in a unitary business to calculate their income on a combined basis. A corporation is subject to this requirement if it is subject to a tax on its income under Massachusetts General Law (M.G.L.) c. 63, § 2, 2B, 32D, 39 or 52A and it is engaged in a unitary business with one or more other corporations under common control, whether or not the other corporations are taxable in Massachusetts. The requirement to file on a combined basis is not dependent upon an evidentiary showing that there is a distortion of income between corporations that are related by common ownership or that there is a lack of arm’s length pricing in transactions between such corporations.

Common ownership for the purposes of M.G.L. c. 63, § 32B means that more than 50% of the voting control of each member of the group is directly or indirectly owned by a common owner or owners, either corporate or non-corporate, whether or not the owner or owners are members of the combined group. A unitary business exists for the purposes of § 32B when the activities of a group of two or more corporations under common ownership are sufficiently interdependent, integrated or interrelated through their activities so as to provide mutual benefit and produce a significant sharing or exchange of value among them or a significant flow of value between the separate parts. Massachusetts construes the term unitary business to broadest extent permitted under the United States Constitution.

A “combined group” is a group of corporations engaged in a unitary business and may, at the option of the group, include all non-U.S. corporations under a world-wide election that is binding for a ten year period. Alternately, taxpayers may elect to treat as their combined group all eligible members of their affiliated group without regard to whether or not the activities of each member are unitary; such an election is also binding for a ten year period. No group may make both a worldwide election and an affiliated group election for the same tax period and no group may make either election during the ten year period for which the other is in effect.

Corporations are excluded from the group if they are entities classified and taxed under M.G.L. c. 63, § 38B (Massachusetts Security Corporations, which pay a tax under M.G.L. c. 63 on gross income). A corporation is also excluded from a combined group if it is an entity described in G.L. c. 63, §§ 20 to 29E, inclusive, except as provided in 830 CMR 63.32B.2 (4) (b) (certain insurance companies) or it is an entity described in M.G.L. c. 63, § 38Y (corporations exempt from taxation under section 501 of the Code with respect to most activities but subject to a tax on unrelated business come).

Members of the combined group, whether or not taxable in Massachusetts, combine their income from the unitary business. A “taxable member” is a corporation included in a combined group which is taxable on its income in Massachusetts; all other corporations which are part of such a group are “non-taxable members”. Each taxable member of such a combined group is apportioned a Massachusetts share of the group’s combined income calculated based on its own property, payroll and sales in this commonwealth and the total property payroll and sales of the entire group. If the taxable member has other income, either from non-business activities or from its participation in a second unitary business carried on by the group, all such amounts are added together to determine the taxable member’s income subject to tax. Each taxable member of the group then determines its separate income measure of excise and may take credits against this excise to the extent allowed by Massachusetts law.

The combined report required by M.G.L. c. 63, § 32B is filed on behalf of all members of the group by a principal reporting corporation, which must be a taxable member of the combined group and, if such a corporation exists and is a taxable member, the combined group’s common parent. If the combined group does not have a common parent or that corporation is not a taxable member of the group, the principal reporting corporation shall be the taxable member of the group that reasonably expects to have the largest amount of Massachusetts taxable net income on a
recurring basis. In filing the return on behalf of the combined group, the principal reporting
corporation agrees to act as the agent on behalf of the members of the combined group for all tax
matters relating to the combined group, including: assessments; requesting extensions of time to
file returns; making, renewing or revoking an election such as an affiliated group election or
worldwide election; filing a refund claim; accepting of refunds or notices; executing waivers; and
providing access to tax and other relevant records of the nontaxable members of the combined
group as reasonably requested by the Commissioner. The designation of the principal reporting
corporation, the elections allowed or required to be made by M.G.L. c. 63, the calculation of the
group’s combined income, the determination of the apportioned shares of the taxable members,
and the calculation of the income tax liabilities of the various members and the payments made
by the group are reported on behalf of all members by the principal reporting corporation when
filing Form 355U.

Form 355U, and all pertinent schedules, must be filed electronically. Submissions other than by
electronic filing will not be considered a timely filed return. Detailed regulatory guidance with
respect to the Massachusetts combined reporting law is set forth at 830 CMR 63.32B.2.

New for 2011 – Non-Income Measure Consolidation

A major change for the current year is the addition of the non-income measure of excise to Form
355U. A business corporation will only file a separate form 355 or 355S to calculate its non-
income measure of excise if its separate federal taxable year ends at a different time than the
common year used to determine combined group income (e.g. if the member is subject to
fiscalization as described in 830 CMR 63.32B.2(12)(c). A Massachusetts S corporation that is
included in a 355U will also continue to file form 355S but that return will be informational only
and will include Schedules S and SK-1.

Structure of the Return & Relationship of Schedules

Form 355U

Form 355U shows the aggregate tax liability of the combined group. Massachusetts requires all
corporations that are part of the combined group to use Department of Revenue (DOR)
schedules to report their income as determined for federal income tax purposes and certain
adjustments. This information must be provided separately for each member of the combined
group on the specific DOR schedules described below. Each taxable member must also
separately calculate its income measure of excise. For 2011 and subsequent years, most taxable
members subject to a non-income measure of excise will also calculate that amount as part of the
Form 355U filing and combine the totals. Taxable members also show the credits taken against
its excise on the appropriate DOR schedules. The Form 355U will report the total tax liability
shown on the schedules of the taxable members. The Form 355U will also declare whether the
combined group is making or filing pursuant to either a worldwide or affiliated group election, and
shall provide other general information on behalf of the combined group.

Schedules Required in All Returns

Schedule U-M

Each member of the combined group, whether taxable or not, reports its own income and
expenses for federal income tax purposes together with certain adjustments. An additional
Schedule U-M is also filed to show the Massachusetts intercompany eliminations, if any.

Schedule U-CI

The amounts on all Schedules M are totaled to show the combined income of the group before
certain Massachusetts adjustments.
Schedule U-E

In Part 1 of this schedule, the combined income from a single unitary business is modified to reflect differences between Massachusetts and federal income calculations. Note that a group which is not making or subject to an affiliated group election may have more than one unitary business, in which case the group will divide the combined income shown on Schedule U-CI between the unitary businesses and file multiple Schedules U-E, one for each different unitary business.

In Part 2 of this schedule, the group calculates the denominators of the combined group’s property, payroll and sales factors for the purpose of apportioning this combined income to taxable members.

In Part 3 of this schedule, the group reports the combined Massachusetts numerators of all taxable members, totaling the amounts being reported separately by each taxable member on Schedule U-MSI.

In Part 4 of this schedule, the group reports the amount of the combined group’s taxable income or loss to be apportioned to all taxable members, totaling the amounts being reported separately by each taxable member on Schedule U-MSI.

Schedule U-NI

The amounts on all Schedules U-E are totaled.

Schedule U-MSI

Each taxable member of the group separately calculates its Massachusetts numerator for the purpose of apportioning the combined income. These figures, together with the group denominators calculated in Part 2 of the Schedule U-E are used to calculate the property, payroll and sales factors used to calculate the taxable member’s apportionment percentage for determining its Massachusetts apportioned share of the income reported on Schedule U-E. The apportionment factors are weighted for each corporation based on the provisions of Ch. 63 under which that member is taxable.

Schedule U-ST

A taxable member combines its apportioned share of income from the combined group with any other income allocated or apportioned to Massachusetts on this schedule and the member’s income measure of excise is calculated here. A taxable member eligible to take a net operating loss (NOL) deduction takes that deduction here. A business corporation which is subject to the non-income measure of excise also reports that amount on this Schedule A taxable member with available tax credits reflects those here.

Schedule U-TM

The tax liability and the total credits taken by each of the taxable members as shown on all the Schedules U-ST is reported on Schedule U-TM.

Schedule CG

The payments made by group members are reported here.

Other Common Schedules

The following schedules are included in the combined report if required to report or reconcile additional taxable income, calculate the non-income measure of excise when applicable, support a deduction or credit or to make certain required disclosures.

Schedule TTP

A member that takes a treaty-based return position must disclose that position when filing its Massachusetts form 355U. A taxpayer takes a treaty based return position by maintaining that a
treaty of the U.S. overrules or modifies a provision of the Internal Revenue code and thereby causes (or potentially causes) a reduction of income required to be shown on the return. A member (including a non-taxable member) of the Massachusetts combined group calculating income under a treaty position indicates this on schedule U-M and provides further information about the treaty and its effect on income by attaching Schedule TTP.

Schedule DRE
An entity that is disregarded as a separate entity from its owner for federal income tax purposes shall similarly be disregarded for purposes of MGL c. 63. A member that is the owner of such an entity and which is also a taxable member must identify each such disregarded entity by filing Schedule DRE. An S Corporation must similarly identify its QSUB(s) by filing Schedule DRE.

Schedule U-INS
A member claiming a deduction for insurance premiums or other amounts paid directly or indirectly to an affiliate that is not a member of the Massachusetts combined group and that qualifies as a life insurance company as defined in section 816 of the code or an insurance company subject to tax imposed by section 831 of the code must disclose the deduction.

Schedule ABI
A member claiming a deduction for interest paid or accrued to a related party (in cases where such expense is not eliminated in the combined reporting that determines the taxable income of the group for Massachusetts purposes) must complete this schedule explaining the basis for the deduction.

Schedule ABIE
A member claiming a deduction for intangible expense paid or accrued to a related party (in cases where such expense is not eliminated in the combined reporting that determines the taxable income of the group for Massachusetts purposes) must complete this schedule explaining the basis for the deduction.

Schedule U-DRD
A member with dividend income which is eligible for a Massachusetts dividends received deduction calculates the amount of that deduction on this schedule. Depending on whether the dividend income is included in the combined group’s income or the members separate income, the deduction is taken on Schedule U-E or Schedule U-MTI.

Schedule U-MTI
A taxable member may have income from non-unitary sources; if such income is taxable in Massachusetts, the amount of such income allocated or apportioned to Massachusetts is reported on this schedule.

Schedule U-NOL
A taxable member that is eligible for a net operating loss deduction calculates the amount of the available NOL and the amount taken using this schedule. The NOL deduction taken is reported on Schedule U-ST.

Schedule U-NOLS
A taxable member of a combined group which has an available NOL deduction which it cannot use may share an NOL generated by the unitary business with other members of the combined group provided such other members (a) are eligible to take a NOL deduction and (b) filed a combined report under 830 CMR 63.32B.2 with the corporation that has the NOL for the tax year to which the NOL relates. Note that this precludes corporations sharing losses from tax years beginning before January 1, 2009. The total amount of all such shared losses is reported on Schedule U-ST.
Schedules A, B, C, D, RNW, F, A-1, A-2, and A-3

A member of a combined group that is taxable under the provisions of M.G.L. c. 63, § 39 (business corporations, including S corporations determining their income measure of excise under §32D) is also liable for a non-income measure of excise. For years beginning in 2011, corporations with federal taxable years ending at the same time as the common taxable year used by the group to determine and pay the income measure of excise must include in the combined report the calculation of the non-income measure. Such members must include Schedules A, B and either Schedule C, D or RNW showing the calculation of the non-income measure of excise with the return. Schedules F, A-1, A-2, and A-3 must be enclosed if applicable. The non-income measure is reported on Schedule U-ST.

Schedule U-IC

A taxable member taking credits against its excise reports the amount and type of each credit taken on this schedule. The total of the credits taken by a taxable member is reported on Schedule U-ST.

Credit Schedules

Supporting schedules may be required if claiming certain credits. Attached the relevant schedule if the corporation is claiming a particular credit is due for the year even if the credit is not being taken to reduce excise on the return (e.g. the corporation’s net excise has already been reduced to a statutory minimum by application of other credits).

Schedule U-CS

A taxable member of a combined group which has available credits which it cannot use may share credits generated by the unitary business with other members of the combined group provided such other members (a) are eligible to take the credit and (b) filed a combined report under 830 CMR 63.32B.2 with the corporation that has the credit for the year to which the credit relates (note that this precludes corporations sharing credits from years beginning before January 1, 2009, but Corporations may also continue to share certain credits that were eligible to be shared under prior law (see 830 CMR 63.32B.2 (9)(c)(2)). The total amount of such shared credits is reported on Schedule 355U-ST.

Schedule CD

A member of a combined group that is taxable under the provisions of M.G.L. c. 63, § 39 (including S corporations determining their income measure of excise under §32D) must complete and file schedule CD.

Schedule F-2

A taxable member of a combined group that is subject to the apportionment provisions of M.G.L. c. 63, § 38(m) (Mutual Fund Service Corporations) must complete all lines of schedule F-2. A Taxable member that is subject to the apportionment provisions of M.G.L. c. 63, §38(l) (Section 38 Manufacturers) that has more than 25 employees (worldwide) must complete lines 1 through 17 of schedule F-2.

Schedule NIR

Certain large corporations are required to file Schedule M-3 with their U.S. tax return reconciling, in Part 1, the income reported on their financial statements to the book income figure used as a base for calculating federal taxable income. Corporations filing Schedule M-3 with its U.S. tax return must file Schedule NIR with Massachusetts.

Schedule CIR

Corporations participating in the filing of a consolidated U.S. tax return are required to submit a Schedule CIR with their Massachusetts corporate excise tax return, reconciling the net income of each member to the consolidated return income as reported federally.
**Schedule FE**

Corporations required to file U.S. Form 5471 with respect to certain foreign corporations must file schedule FE with their Massachusetts return for each such foreign corporation. If any member of the combined group files U.S. Form 5471, the principal reporting corporation files schedule FE on behalf of that member.

**Schedule TDS**

Taxpayers whose Massachusetts returns take positions inconsistent with the positions taken in another state where the governing law is the same in all material respects are required to disclose those positions. Taxpayers who fail to disclose such a position are subject to a penalty of 100% of any understatement of tax due to the inconsistent position and such penalty is in addition to any other penalty that may be due.

In addition, taxpayers who underpay their tax liability due to (a) either negligence or disregard of the tax laws of the commonwealth or (b) where there is a substantial understatement (the greater of 10% of the tax required to be shown on the return or $1,000) are liable for a penalty of 20 percent of the amount of the underpayment. For purposes of determining the amount of the penalty, the amount of the deficiency subject to the substantial understatement provision will be reduced by any portion of the underpayment attributable to a position supported by substantial authority or if the relevant facts are adequately disclosed in the return and there is a reasonable basis for the return position.

Enclosing Schedule TDS with the return understating the tax liability is one of two methods available to a taxpayer to make disclosure of such positions taken on the return. See TIR 06-05 for more information on applicable penalties and disclosure requirements.

**Relationship of the Combined Report (Form 355U) to the Non-Income Measure of Excise**

Form 355U is used by the combined group to calculate and pay the income excise due from the taxable members of a combined group and, for 2011 and subsequent years, members of the group also pay their non-income measure of excise with the Form 355U if their taxable year ends at the same time as the year used for the combined report. Business corporations that pay their non-income measure of excise with the combined report should no longer file Form 355.

A taxable member of the combined group with a fiscal year ending at a different time (a member subject to “Fiscalization” as described in 830 CMR 63.32B.2 (12) (c) must still file a separate return (Form 355 or Form 355S as appropriate) at the time determined based on its own taxable year as determined as a separate taxpayer and pay its non-income measure of excise. The separate non-income measure return, if required, must include Schedules A, B, and Schedule C, D or RNW along with any supporting schedules required for some entries as referenced on Schedule A. A corporation that would be eligible to apportion its income based on its own separate activities (i.e., the corporation is taxable on its income in another state without regard to the activities of its other combined group members) must also complete Schedule F without regard to the combined reporting provisions in order to determine its non-income measure.

Income reported in the combined return (including income to be reported on the following year’s combined return is not to be reported on the separate non-income measure return filed by a corporation subject to fiscalization. Schedule E is not required unless the taxpayer has income from a source other than a unitary business that is to be reported on a separate company basis. In such cases, the corporation is to report on Form 355 or 355S, Schedule E only the income that is not included in the combined report and is to apportion such income without regard to the combined reporting provisions.

A member required to file a separate non-income return may claim credits against the excise shown due on that return, entering the credits claimed on Schedule CR of Form 355 or 355S. Supporting schedules for credits calculated on an aggregated basis (e.g. the research credit under § 38M) are determined based on the group year and schedules claiming such credits are
submitted with Form 355U; duplicates of these schedules should not be attached to the separate non-income measure return. Members are required to reflect credits taken against the separately reported excise when determining credits available on the subsequent combined report (if carryover is allowed, reduce the amount carried over to prevent overstating available credits). Schedules supporting other credits claimed by a member with a year end that is different from the combined group’s year must be submitted with the member’s separate return when filed. Any credit not used on the member’s separate return and carried over may be used against the excise due on a subsequent combined report with the limitations applicable to the specific credit.

Relationship of the Combined Report (Form 355U) to Schedules S and SK-1

S corporations must still file Form 355S and submit Schedule S and Schedules SK-1 with that return, determining the distributive income for shareholders and, for non-resident shareholders, the apportionment of that income without regard to the combined reporting provisions.

This return is due at the end of the S corporation’s separately determined taxable year. Unless the S corporation has a different taxable year than the combined report and Form 355S is therefore also being filed to determine and pay the non-income measure of excise, do not complete Schedules A, B, C, D, E and RNW with Form 355S and no excise is due with that return. Schedule F may be required if the income of the S Corporation is subject to apportionment and there are non-resident shareholders.

Note that financial institutions that are S Corporations, although not subject to a non-income measure of excise, must file Form 63FI for the purpose of calculating distributive income and must submit Schedules S and SK-1.
