been determined by a court of competent jurisdiction pursuant to §32.1-257 of the Code of Virginia, or both natural parents present a sworn acknowledgement of paternity.

D. Delayed birth certificates shall be prepared on forms supplied by the State Registrar. Each such delayed certificate shall be signed and sworn to before an official authorized to administer oaths by the person whose birth is to be registered if such person is available and is competent to sign and swear to the accuracy of the facts stated therein; if not, the application shall be signed and sworn to by one of the parents, guardian, legal representative, or by an older person having knowledge of the facts of birth.

E. The birth facts entered on the delayed certificate shall be supported by at least three pieces of documentary evidence; except that:

1. If one of the documents was established before the registrant’s seventh birthday, only two such documents shall be required.

2. If the person whose birth is being registered is 15 years of age or under, only two such documents shall be required.

F. All documents used shall be primary evidence, such as school admission records, physician’s records, insurance applications, baptismal records, federal census abstracts, immunization records, or passports. Only one affidavit of personal knowledge shall be used as an additional supporting document.

G. Facts of parentage need only be supported by one such document described in subsection F of this section.

H. Documents shall be in the form of the original or certified or true copies of the original.

I. All documents, except the affidavit of personal knowledge, shall be returned to the applicant after review.
J. Whether delayed certificates and documentary evidence submitted conform with this chapter and are acceptable for filing shall be determined by the State Registrar. If, in his judgment, an applicant does not submit the documentation required in support of the facts of birth or if there appears reason to question the delayed registration, the delayed birth certificate shall not be accepted and the applicant shall be advised of its deficiencies.

1. If a delayed birth certificate is acceptable for filing, the State Registrar or his designated representative shall abstract on the delayed birth certificate form a description of each document submitted in support of the delayed registration, including the kind and title of the document; the name and relationship of the affiant if the document is an affidavit of personal knowledge; the date the document was originally established; and

2. The State Registrar or his designated representative shall then enter the date of filing of the delayed registration, and by his signature thereto shall certify:
   a. That no prior birth certificate is on file for the person whose birth is to be registered.
   b. That the documentary evidence submitted to establish the facts of birth has been reviewed and is in conformity with the stated facts.

1. The name of the child;

2. The date and place of birth as transcribed from the original certificate;

After preparation of the new certificate, the existing certificate and the evidence upon which the new certificate was based are to be placed in a special file. Such file shall not be subject to inspection except upon order of a circuit court of this Commonwealth or by the State Registrar for purposes of properly administering the system of vital records and health statistics.

Statutory Authority

§32.1-273 of the Code of Virginia.

A complete and properly executed medical certification of cause of death shall mean the entry by a physician or medical examiner of a definite medical diagnosis of the underlying cause of death and related conditions following the instructions indicated on the death certificate. This may be variously:

1. Supported by clinical findings of the physician who attended the deceased for the illness or condition that resulted in death;

2. Supported by tentative clinical findings that may or may not be supported by the gross findings of an autopsy; or
3. Supported by autopsy findings where necessary to establish a definite medical diagnosis of cause of death.

In cases where an autopsy is to be performed, the physician or medical examiner shall not defer the entry of the cause of death pending a full report of microscopic and toxicological studies. In any case where the autopsy findings significantly change the medical diagnosis of cause of death, a supplemental report of the cause of death shall be made by the physician or medical examiner to the registrar as soon as the findings are available. (As examples: If it is clear that a patient dies of "cancer of the stomach," report the cause while a determination of the histological type is being carried out. Similarly, if it is clear that a death is from "influenza," do not delay the medical certification while a laboratory test is being carried out to determine the strain).

Statutory Authority
§32.1-273 of the Code of Virginia.

Historical Notes
Derived from VR355-29-100 §10.1, eff. April 1, 1995.

When a patient dies, the physician in charge of the patient's care for the illness or condition shall be responsible for executing and signing the medical certification of cause of death as follows:

1. The physician shall execute and sign the medical certification of cause of death on the death certificate form prescribed by the State Registrar.

2. In an case where an autopsy is scheduled and the physician wishes to await its gross finding to confirm a tentative clinical finding, he shall give the funeral service licensee notice that he attended the patient and when he expects
to have the medical data necessary for the certification of cause of death. If the provisions of 12VAC5-550-350 cannot be adhered to, he shall indicate that the cause is pending and sign the certification. Immediately after the medical data necessary for determining the cause of death have been made known, the physician shall, over his signature, forward the cause of death to the registrar.

3. If the physician is unable to establish the cause of death or if a death is within the jurisdiction of the medical examiner, he shall immediately report the case to the local medical examiner and advise the funeral service licensee of this fact. If the medical examiner does not assume jurisdiction, the physician shall sign the medical certification noting special circumstances and exception.

4. An associate physician who relieves the attending physician while he is on vacation or otherwise temporarily unavailable may certify to the cause of death in any case where he has access to the medical history of the case, provided that he views the deceased at or after death occurs and that death is from natural causes. In all other cases in which a physician is unavailable, the funeral service licensee shall contact the medical examiner.

5. When the attending physician shall have given the person in charge of an institution authorization in writing, the person in charge of such institution, or his designated representative, may prepare the medical certification of cause of death in cases where all pertinent aspects of the medical history are a part of the official medical records and the death is due to natural causes. In such instances, the signature shall be that of a physician.

Statutory Authority

§§32.1-12 and 32.1-250 of the Code of Virginia.

Historical Notes
12VAC5-550-370. Responsibility of the medical examiner.

1. The medical examiner shall, at the time of releasing a body to a funeral service licensee or person who first assumes custody of a dead body, or as soon as practicable thereafter, execute and sign the medical certification of cause of death on the death certificate form prescribed by the State Registrar.

2. In any case where an autopsy is scheduled and the medical examiner wishes to await its gross findings to confirm a tentative clinical finding, he shall give the funeral service licensee notice as to when he expects to have the medical data necessary for the certification of cause of death. If the provisions of 12VAC5-550-350 cannot be adhered to, he shall indicate that the cause is pending and sign the certification. Immediately after the medical data necessary for determining the cause of death have been made known, the medical examiner shall, over his signature, forward the cause of death to the registrar.

3. In any case where a death has been referred to the medical examiner because a physician in attendance is deceased or physically incapacitated and there was no associate physician, the medical examiner shall prepare and sign the medical certification of cause of death.

Statutory Authority

§§32.1-12 and 32.1-250 of the Code of Virginia.

Historical Notes
12VAC5-550-380. Responsibility of the hospital or institution.

1. Place the full name of the deceased on the death certificate form and obtain from the attending physician the medical certification of cause of death.

2. The signature shall be that of a physician.

3. Present the partially completed death certificate identified by the name and the complete medical certification to the funeral service licensee.

4. In a case of long-term residence by a patient in a state institution, a death certificate including personal particulars of the deceased may be prepared for presentation to the funeral service licensee.

Historical Notes

Derived from VR355-29-100 §10.4, eff. April 1, 1995; amended, Virginia Register Volume 19, Issue 26, eff. October 8, 2003.

Each funeral service licensee who has been authorized to take custody of a dead human body shall exercise the following responsibilities with respect to the preparation and filing of the death certificate:

1. When he arrives to take custody of the body, he shall first ascertain whether an attending physician or local medical examiner has established the cause of death as follows:

   a. The funeral service licensee shall obtain the medical certification of cause of death from the physician if the death is from natural causes. An associate physician or person in charge of an institution may prepare the medical certification as outlined in 12VAC5-550-360.

   b. If a physician attended the deceased but did not complete the medical certification of cause of death, the funeral service licensee shall immediately contact such physician in person or by telephone to be certain that he was the attending physician and to ascertain whether the physician is to assume responsibility for the medical certification or to refer the case to the medical examiner.

   c. When a medical examiner assumes jurisdiction in a death, or when a physician in attendance is incapacitated, the funeral service licensee shall obtain the signed medical certification of cause of death from the medical examiner as required by subdivision 3 of 12VAC5-550-370.

2. The personal history of the deceased and the facts of the death shall be obtained from the best source possible. This source may be variously: a member of the immediate family of the deceased who possesses the necessary information; a hospital records custodian whose records contain the necessary information; or the local medical examiner having jurisdiction over a case. The
name of the informant, his address and relationship to the decedent shall be entered on the death certificate. The facts required as to the manner and place of disposal of the body or its removal from the Commonwealth shall be entered over the signature of the funeral service licensee. He shall personally sign the certificate and print or type the name of his firm.

3. Except as outlined in 12VAC5-550-410, a satisfactory death certificate shall be filed with the city, county, or special registrar in the city or county where death occurred, or a dead body is found, prior to final disposal of the body or its removal from the Commonwealth, and within three days. In cases where a completed medical certification is not available when the funeral service licensee takes possession of a body, he shall not move the body from the place of death until so authorized by the local medical examiner or until the attending physician has advised him that death is from natural causes and the physician is able to prepare the medical certification of cause of death. In every case, the removal of a dead human body from the city or county of death is unlawful unless notice is given to the city, county, or special registrar by telephone or in person. Such notice shall consist of the name of the deceased, date and place of death, and the name of the attending physician or of the medical examiner, as the case may be, and, if the body is to be removed, the destination within the Commonwealth. Such notification shall be made during the next available business hours of the registrar following the time of death. After business hours, in independent cities and in designated counties, such notification shall be made immediately on assumption of custody of the deceased to the registrar's representative.

Statutory Authority

§§32.1-12 and 32.1-250 of the Code of Virginia.

Historical Notes

A. The body of any person whose death occurs in Virginia or whose body shall be found dead therein shall not be removed from the Commonwealth unless an out-of-state transit permit on a form prescribed by the State Registrar has been issued by the city, county, or special registrar of the city or county where the death occurred or the body was found except as outlined in 12VAC5-550-410.

B. No out-of-state transit permit shall be issued until a proper certificate of death is filed except as outlined in 12VAC5-550-410.

C. A certificate of death shall be considered to be properly filed:

2. When the certificate has been presented for filing with the city, county, or special registrar of the city or county where the death occurred or the body was found, or, in emergency cases, with the city or county registrar of the area to which removal was made within the Commonwealth.

Statutory Authority

1. A completed or pending medical certification is unavailable.
2. Personal data concerning the deceased is temporarily unavailable.
3. The body must be moved immediately out of the Commonwealth.

B. If one or more of the above situations exists and the conditions of subdivision 3 of 12VAC5-550-390 have been complied with by the funeral service licensee when the body is to be moved, any authorized registrar, or registrar's representative, may issue an out-of-state transit permit. Such permit shall be issued upon application by a funeral service licensee and the presentation by the funeral service licensee, over his signature only, of a death certificate form complete in as many known details as possible.

C. The incomplete death certificate form originally furnished to the registrar as outlined in subsection B of this section is to be placed by the funeral service licensee with a completed death certificate as soon as the missing data become known or the medical certification is obtained, or within 10 days, whichever occurs first.

D. Under emergency provisions and the conditions of subdivision 1 c of 12VAC12-550-390, the death certificate may be filed with a registrar other than the registrar at the place of death. If the cause of death is completed by the presentation of a second and complete certificate before the original certificate is sent to the State Registrar, the original incomplete certificate should be marked "VOID." B. The city or county registrar at the place from which disinterment is to be made shall issue a disinterment permit in triplicate. C. Marriage and divorce or annulment records on file with the State Registrar may be amended only by notification from the clerk of court in which the original record is filed. Such notification to the State Registrar shall indicate what items have been amended on the original record and shall indicate that the State Registrar's copy should be amended accordingly. Every application for a correction or amendment of a birth or death certificate shall be accompanied by appropriate documentary evidence as follows:

1. Except as provided in subdivisions 2 and 3 of this section, name changes, other than minor corrections in spelling involving the given names or surname of a registrant, or the given names or surnames of the parents or of a spouse as listed on a certificate, shall require that a certified or attested copy of a court order changing the name be obtained.

   a. In cases where the mother's married surname is listed instead of her maiden name, a correction can be made administratively with a correction affidavit and copy of her birth record.

   b. In cases where the given name shown on a birth certificate was not used or known to the registrant and this fact can be proven by the
registrant, the birth certificate can be amended administratively with primary evidence showing the name at birth and a correction affidavit.

2. Within one year of birth, the given names listed on a birth certificate may be changed by the affidavit of:
   a. Both parents;
   b. The mother in the case of a child born out of wedlock;
   c. The father in the case of the death or incapacity of the mother;
   d. The mother in the case of the death or incapacity of the father; or

3. In cases of hermaphroditism or pseudo-hermaphroditism, given names of a registrant may be changed on a birth certificate by affidavit of the parents or guardian as listed in subdivision 2 of this section, or by affidavit of the registrant if 18 years of age or older. Additionally, a statement from a physician must be submitted which certified the birth record of the registrant contains an incorrect designation of sex because of congenital hermaphroditism, pseudo-hermaphroditism, or ambiguous genitalia which has since been medically clarified.

4. Except as otherwise provided in the Code of Virginia or this chapter, after one year from the date of birth, any change of name shall be made only by court order, and any second change of name within one year shall be made only by court order.

5. Within seven years after birth, given names may be added to a birth certificate where such information has been left blank by use of an affidavit only prepared by the parent, guardian, or legal representative of the child.

Evidence to be supplied to the court in support of such change should include a federal census transcript from the Bureau of the Census.

7. If the date of birth on a birth certificate is to be changed to one year or less from the date of birth, a federal census transcript from the Bureau of the Census shall be required as documentary evidence.

8. If a federal census transcript cannot be obtained, an affidavit shall be obtained which sets forth: the identity of the incorrect record, the incorrect data as it is listed, the correct data as it should be listed, and the documentary evidence supporting the facts. In addition to the affidavit, a document or certified or true copy of such document must be obtained which was written before the registrants' eighth birth date and will establish the identity of the certificate to be altered or corrected and will support the true and correct facts.
