Zohne Portable Sound Conditioner

The Zohne creates white noise without using digital loops or recordings and works in any environment where unwanted or intrusive noise is a problem. With the touch of one button, it emulates the soothing, natural sound of waterfall, rain, or surf to block out everyday noises like a coworker’s chatter, a partner’s snoring, or next-door neighbors playing music. The white noise produced by the Zohne can also be used as a sound shield to provide confidentiality for doctor’s appointments, mask phone calls with clients, or protect other private conversations.

2408400 .......................................................... $69.95
2408410 With Mounting Bracket ................................................. $79.95

OneSafe – Single Dispensing Glove System

The oneSAFE design makes it easy to grab only one glove at a time and put it on without contaminating other gloves in the box. Because the system allows users to touch the glove only on the cuff, the glove’s palm and fingers won’t come into contact with the user’s bare hands. The unique, single-glove dispensing system also helps reduce the amount of gloves contaminated, dropped and discarded, helping you control costs and run an efficient operation. Latex Free.

102-1SF-112 Powder-Free Vinyl - Small (200 Per Box) ........................................ $119.95

11-1SF1 Wall Mounted Dispenser - Hardware Included ........................................ $100.00

Rhythmlink Disposable Deep EEG Cups

Rhythmlink’s Disposable Deep EEG Cups were specifically designed to hold a higher volume of conductive material, 2.5 times more to be exact, than the Standard EEG Cups. Like the Standard Cups, the Deep Cups are made with patient safety in mind and, compared to their reusable counterparts, are more cost effective. Ag/AgCl, 10mm Cup.

10 Per Pack

**Pediaprep By Mavidon Medical**

First skin prep designed for children (also can be useful for geriatric patients, and some with sensitive skin). An abrasive skin prep used to lower skin impedance to enhance a signal quality of patient recording electrodes. Examples of tests include EEG, EKG, EP, etc. Peppermint scented.

**Cidex® Activated Dialdehyde Solution**

CIDE Activated Dialdehyde Solution enables quick instrument turnaround to help you maximize scheduling of daily procedures. Cidex disinfectant is a 2.4% alkaline glutaraldehyde solution that provides superior microbicidal and anticorrosion properties vs acid glutaraldehydes. With its broad kill spectrum, this reliable high-level disinfectant is effective and safe for a wide variety of medical instruments and devices. The activated solution of Cidex can be reused for up to 14-days or until otherwise indicated by the test strip.

Enov-8® Polyethylene Powder Free (PF) Exam Gloves

Adenna’s Enov-8® (pronounced as “innovate”) Polyethylene Powder Free Exam Glove is one of the first medical grade examination glove made of stretch polyethylene that is approved by the U.S. FDA for patient care, diagnosis, exam and other medical applications. The Enov-8® glove is thicker than most polyethylene gloves. Our proprietary formula and technology make them more stretchy and stronger against wear and tear. They are more economical alternatives for vinyl (polyvinyl chloride) exam gloves used in home care, long term care, nursing homes, day care and for food preparation. They are powder free, latex free and clear without color.

Neurology Pocket

The Neurology pocket gives the health care provider personal access to the most recent and germane treatments, diagnostic tools and algorithms available today. The pocket-sized book primarily covers the more common reoccurring conditions and diseases in neurology today. Its purpose is to provide clinical relevance and support when working with other health care providers and patients. The book will likely lend a bit of panache to your application of medical care. Highlights include:

- Up-to-date algorithms for clinical application
- Lists of differentials of many of the more common neurological disorders
- User friendly for all health care providers- Physician Assistant (PA), medical student, Nurse Practitioner (NP), practicing physicians
