PeopleSoft Enterprise HRMS Portal Pack

Preface

This preface discusses:

• PeopleSoft applications.
• PeopleSoft Enterprise HRMS application fundamentals.

PeopleSoft Applications

This PeopleBook refers to the following PeopleSoft application: PeopleSoft Enterprise HRMS Portal Pack.

PeopleSoft Enterprise HRMS Application Fundamentals

Additional, essential information describing the setup and design of your system appears in a companion volume of documentation called *PeopleSoft Enterprise HRMS Application Fundamentals PeopleBook*. Each PeopleSoft line of applications has its own version of this documentation.

*Note.* One or more pages in HRMS Portal Pack operate in deferred processing mode. Deferred processing is described in the preface in the *PeopleSoft Enterprise HRMS Application Fundamentals PeopleBook*.

*See Also*

*PeopleSoft Enterprise HRMS 9.1 Application Fundamentals PeopleBook*, "PeopleSoft Enterprise HRMS Application Fundamentals Preface"

PeopleBooks and the PeopleSoft Online Library

A companion PeopleBook called *PeopleBooks and the PeopleSoft Online Library* contains general information, including:

• Understanding the PeopleSoft online library and related documentation.
• How to send PeopleSoft documentation comments and suggestions to Oracle.
• How to access hosted PeopleBooks, downloadable HTML PeopleBooks, and downloadable PDF PeopleBooks as well as documentation updates.
• Understanding PeopleBook structure.
• Typographical conventions and visual cues used in PeopleBooks.
• ISO country codes and currency codes.
• PeopleBooks that are common across multiple applications.
• Common elements used in PeopleBooks.
• Navigating the PeopleBooks interface and searching the PeopleSoft online library.
• Displaying and printing screen shots and graphics in PeopleBooks.
• How to manage the locally installed PeopleSoft online library, including web site folders.
• Understanding documentation integration and how to integrate customized documentation into the library.
• Application abbreviations found in application fields.

You can find *PeopleBooks and the PeopleSoft Online Library* in the online PeopleBooks Library for your PeopleTools release.
Chapter 1

Getting Started with HRMS Portal Pack

This chapter discusses:

- HCM Portal Pack pagelets.
- HRMS Portal Pack integrations.
- HRMS Portal Pack implementation.

HCM Portal Pack Pagelets

PeopleSoft Enterprise HRMS pagelets include:

- Birthday Alerts pagelet.
- Anniversary Alerts pagelet.
- Direct Reports pagelet.
- Employee Leave Summary pagelet.
- Manager Leave Summary pagelet.
- Stock Options pagelet.
- Paychecks pagelet.
- Company Directory pagelet.
- Organization Directory pagelet.
- Employee Performance pagelet.
- Upcoming Training pagelet.
- Schedule Training pagelet.
- Employee Expiring Licenses pagelet.
- Manager Expiring Licenses pagelet.
- Open Positions pagelet.
- Time Management Alerts pagelet.
- Workforce Availability pagelet.
• Direct Reports Phones pagelet.

PeopleSoft Enterprise Recruiting Solutions pagelets include:

• Recruiter Alerts pagelet.
• My Job Openings pagelet.
• Find Job Openings pagelet.
• My Applicants pagelet.
• Job Openings pagelet.
• Quick Search pagelet.

PeopleSoft Enterprise HCM to ELM On Demand pagelets include:

• Instructor Center pagelet.
• Manager Learning Center pagelet.
• My Learning pagelet.
• My Team Learning pagelet.

PeopleSoft Enterprise HCM on Demand pagelets include:

• Administer Career Plans pagelet.
• Administer Succession Plans pagelet.
• Employee Profile pagelet.
• Manage Careers & Successions pagelet.
• Manager Profile Management pagelet.
• My Development Documents pagelet.
• My Performance Documents pagelet.
• Profile Administrator Home pagelet.
• Team Development Documents pagelet.
• Team Performance Documents pagelet.
• ePerformance Administration pagelet.
• My Career Plan pagelet.

PeopleSoft Enterprise TalentLinks pagelets include:

• My Compensation Activities pagelet.
• eCompensation Admin Home pagelet.
• eCompensation Administration pagelet.

Chapter 4, "Using HRMS Portal Pack Pagelets," page 17

---

**HRMS Portal Pack Integrations**

The HRMS Portal Pack includes portal pagelets that provide access to key data from your PeopleSoft HRMS system. The portal pack is intended to supplement the core business applications with pagelets for your portal's homepage.

The following graphic shows the PeopleSoft HRMS applications that feed data to the HRMS Portal Pack:

![PeopleSoft Enterprise HRMS Portal Pack data sources](image)

This documentation discusses integration considerations in the implementation chapters in this PeopleBook.

---

**HRMS Portal Pack Implementation**

PeopleSoft Enterprise Setup Manager enables you to generate a list of setup tasks for your organization based on the features that you are implementing. The setup tasks include the components that you must set up, listed in the order in which you must enter data into the component tables, and links to the corresponding PeopleBook documentation.
Other Sources of Information

In the planning phase of your implementation, take advantage of all PeopleSoft sources of information, including the installation documentation, table-loading sequences, data models, and business process maps.

Enterprise PeopleTools PeopleBook: PeopleSoft Setup Manager
Chapter 2

Understanding HRMS Portal Pack

This chapter discusses:

- HRMS Portal Pack overview.
- PeopleSoft pagelet activation and personalization.
- HRMS Portal Pack pagelets.

HRMS Portal Pack Overview

The PeopleSoft Enterprise HRMS Portal Pack provides a collection of pagelets that you can individually select to appear on a corporate intranet or extranet homepage. The individual pagelets provide information gathered from various PeopleSoft HRMS applications.

PeopleSoft Pagelet Activation and Personalization

HRMS Portal Pack includes portal pagelets that provide at-a-glance access to essential data from your system. The portal pack supplements other PeopleSoft HRMS applications that provide the underlying data.

When you install HRMS Portal Pack, users can personalize their portal homepages by adding the pagelets that they need. Standard PeopleSoft role-based security ensures that users can access only the pagelets appropriate to their roles.

Users can configure their portal homepages with three narrow columns or one narrow and one wide column. What appears to the user is determined by the pagelets dynamically.

Note. Each pagelet can be configured to use any of the HRMS access types. PeopleSoft recommends using the same access type for each pagelet. This ensures consistency when managers of direct reports view the different pagelets to help improve performance. To set up the access type, access the Direct Reports Setup component by selecting Set Up HRMS, Common Definitions, Direct Reports for Managers, Direct Reports Setup.

Some pagelets support personalization that enables individual users to configure content displayed in their pagelet; the Customize button in the pagelet title bar alerts you to this capability. Click the button to access the Personalization page.
See Also

Chapter 4, "Using HRMS Portal Pack Pagelets," Personalizing Pagelets, page 19

HRMS Portal Pack Pagelets

This section lists the pagelets that make up HRMS Portal Pack and identifies:

- The name and object name of the pagelets.
- The audience for the pagelet: employees, customers, or suppliers.
- The functional role of the person who uses the pagelet.

These are business process functional roles not delivered as such by Enterprise PeopleTools user security roles.

- The pagelet's enabling application.

The enabling application provides the data that appears in the pagelet. If the enabling application has not been licensed, the pagelet won't work.

This table lists the pagelets and their enabling applications:

Chapter 3

Setting Up HRMS Portal Pack

This chapter discusses how to:

• Define default settings for the Employee Performance Alerts pagelet.
• Define default settings for the Open Positions pagelet.

Defining Default Settings for the Employee Performance Alerts Pagelet

To define default settings for the Employee Performance Alerts Settings page, use the Employee Performance Alerts Setup (EP_ALERT_SETUP) component.

This section discusses how to:

• Activate the Employee Performance pagelet.
• Define settings for the Employee Performance Alerts pagelet personalizations.

See Also

Chapter 4, "Using HRMS Portal Pack Pagelets," Viewing the Employee Performance Pagelet, page 38

Page Used to Define Default Settings for the Employee Performance Alert Pagelet

<table>
<thead>
<tr>
<th>Page Name</th>
<th>Definition Name</th>
<th>Navigation</th>
<th>Usage</th>
</tr>
</thead>
</table>
Activating the Employee Performance Pagelet

The Employee Performance pagelet is a self-service pagelet that managers can use to quickly check the status of the performance documents for which they are responsible. For a given document type, the pagelet lists each employee's name, the due date, and a color-coded button that identifies if the document is complete, on schedule, behind schedule, or cancelled.

To enable managers to use the pagelet, you must:

1. Activate the Employee Performance pagelet.
2. Define the default rules for the pagelet.

See Also

Defining Settings for the Employee Performance Alerts Settings Page

Access the Employee Performance Alerts Setup page (Set Up HRMS, Product Related, ePerformance, Pagelet Alerts).
Employee Performance Alerts Setup page

**Doc Type** (document type)  
Select the type of document to list on the Employee Performance pagelet. You define document types on the Document Types page.  

**Period End Date >=** (period end greater than or equal to)  
Select the end date for the performance period for which documents are to be listed. The system lists documents with the same period end date or later.

**Employees to display**  
Enter the number of employees to list on the pagelet. If the number of employees with documents exceeds this number, the pagelet automatically includes a More link that enables the manager to list all employees with the selected document type.
**Self Service Edits**

Use this group box to define how much control managers can have over the appearance of their Employee Performance pagelet. If you select any of the check boxes here, the manager can change the selected default settings. To change the settings on the Employee Performance pagelet, click the Customize button on the pagelet to access the Employee Performance Alerts Settings page.

- **Allow changes to Type** Select to enable managers to pick a document type other than the one you selected in the Type field.

- **Allow changes to Date Range** Select to enable managers to enter a different date range.

- **Allow changes to Alert Levels** Select to enable managers to determine which alerts should appear on the pagelet.

- **Allow changes to Alert Days** Select to enable managers to change the number of days before the due date that triggers the alerts.

- **Allow changes to Nbr Employees** Select to enable managers to change the number of employees that are listed on the pagelet when the pagelet is opened.

**Display Alert Levels**

Use this group box to select the types of alerts that should appear. Select the corresponding check box for each alert to display.

**Alert Days Before Due Date**

Use this group box to select the statuses that are to trigger alerts and the number of days prior to the due date that an alert is to be considered standard versus critical.

- **Sequence** Enter the order in which this document status is to appear on the Employee Performance Alerts Personalization page.

- **Document Status** Select the status to trigger an alert. Values are: Acknowledged, Available for Review, Cancelled, Completed, In Progress, Not Started, and Review Held.

See PeopleSoft Enterprise ePerformance 9.1 PeopleBook, "Using Inquiry Pages."
**Critical Alerts and Standard Alerts**

These fields apply only if you select Critical Alert and Standard Alert in the Display Alert Levels group box.

Enter the number of days before a document's due date that a critical alert button or a standard alert button is to appear if the document is still in the selected status.

For example, suppose that you select the status *In Progress*, and enter 30 in the Critical Alerts field and 60 in the Standard Alerts field. This causes the standard alert button to appear on the pagelet when a document is in progress from 31 to 60 days before its due date. The critical alert button appears if the document is still in progress 30 days or less before the due date.

---

**Defining Default Settings for the Open Positions Pagelet**

To set default settings for the Open Positions pagelet, use the Open Positions Setup (CO_PE_VACPOS_SETUP) component.

This section discusses how to:

- Activate the Open Positions pagelet.
- Define default rules for the Open Positions pagelet.

**See Also**

</tr>
</thead>
</table>
Activating the Open Positions Pagelet

The Open Positions pagelet is a self-service pagelet that managers can use to quickly check the status of open positions. The pagelet displays position information and links to other related position pages.

To enable managers to use the pagelet, you must:

1. Activate the Open Positions pagelet.
2. Define the default settings for the pagelet.

Chapter 4

Using HRMS Portal Pack Pagelets

This chapter lists common elements and discusses how to:

• Display portal pagelets.
• Personalize pagelets.
• View manager pagelets.
• View employee pagelets.
• View Recruiter Alerts for Talent Acquisition Manager
• View additional Talent Acquisition Manager pagelets.

Common Elements Used in This Chapter

<table>
<thead>
<tr>
<th>Element</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Number of Rows (1 to 99)</td>
<td>Enter the number of rows to display on the page.</td>
</tr>
<tr>
<td>Days to view in the future</td>
<td>Enter the number of days in the future that the system should use to display upcoming events.</td>
</tr>
<tr>
<td>Days to view in the past</td>
<td>Enter the number of days in the past that the system should use to display past events.</td>
</tr>
<tr>
<td>Maximum displayed rows</td>
<td>Enter the maximum number of rows that should appear on the page. This only limits the number of rows that appear and does not limit the amount of information that the system retrieves.</td>
</tr>
<tr>
<td>More</td>
<td>Click this link to view more information.</td>
</tr>
<tr>
<td>!</td>
<td>Indicates that an approaching date is within the defined alert limit.</td>
</tr>
<tr>
<td>✚</td>
<td>Click the Customize button to define the number of rows and columns you want to display on a pagelet. Not all pagelets can be personalized.</td>
</tr>
</tbody>
</table>
Displaying Portal Pagelets

You can control the pagelet selection and, optionally the layout, for your users by using the Portal homepage feature in PeopleTools. To make pagelets available for selection and display:

2. Select the Portal Objects link on the Structure and Content page.
3. Select the Homepage link.
4. Select the Tabs link.
5. Select the Edit link for My Page in the Content References grid.
6. Access the Tab Content page (select the Tab Content tab).
7. Use the Tab Content page to select pagelets and define their behavior. Select Required or Req-Fix to make the pagelets always appear on users' home pages. Using Req-Fix also prevents pagelets from being moved on the home page.
8. Use the Tab Layout page to arrange any required pagelets.

Note. Access to pagelets is also controlled by the standard PeopleTools component security. Even with the pagelet selected using the previous procedure, you cannot see the pagelet as a content choice unless you also have the PeopleTools security to access the component through your role and its permission lists.

See Enterprise PeopleTools PeopleBook: Portal Technologies, "Administering Portal Homepages and Pagelets."

The next example displays a personalized homepage using PeopleSoft HRMS portal pagelets. After defining portal objects in PeopleTools, individual users can click the Content link in the upper left-hand corner to define pagelets for their homepage, and click the Layout link to arrange their homepage elements. The example uses a three-column layout.

By default, portal pagelets display action bars in the upper right-hand corner that, depending on the pagelet properties, enable you to minimize, personalize, or remove the pagelet from the homepage.
Personalizing Pagelets

Each individual user can personalize the content for their pagelets by clicking the Customize (pencil) button on the pagelet headers. This section discusses how to:

- Personalize the Direct Reports pagelet.
- Personalize the Employee Leave Summary pagelet.
- Personalize the Manager Leave Summary pagelet.
- Personalize the Stock Options pagelet.
- Personalize the Employee Performance pagelet.
- Personalize the Upcoming Training pagelet.
- Personalize the Scheduled Training pagelet.
- Personalize the Setup Open Positions pagelet.

Select Job Title page

**Note.** This pagelet is similar to the page used to personalize the Manager Leave Summary pagelet.

**Personalizing the Manager Leave Summary Pagelet**

Access the Select Job Title page (click the Customize button on the Manager Leave Summary pagelet).

Select Job Title page for the Manager Leave Summary pagelet

**View Absences for the last and View Absences for the next**

Enter the number of weeks in the past and in advance for which you want to display absence information.

**Note.** This page is similar to the page used to personalize the Employee Leave Summary pagelet.

**Personalizing the Stock Options Pagelet**

Access the Personalize Stock Options page (click the Customize button on the Stock Options pagelet).
### Personalize Stock Options

Use this page to specify the default values used in displaying your stock options.

**Display Preferences**

- **Default Company Stock**: Select the company for which you want to display stock option information.
- **Max Number of Displayed Rows**: For multiple stock option grants, select the number of rows to appear on the pagelet. If the number of grants exceeds the number of rows, the system automatically displays the More link.
- **Sort By**: Define how the information is sorted. Values are: Grant Date, Grant Number, Grant Price, and Option Type.

**Display Fields - Select up to 4**

- **Grant Number**: Displays the grant issue number.
- **Grant Date**: Displays the issue date of each grant listed.

---

**Display Preferences**

**Default Company Stock**

Select the company for which you want to display stock option information.

**Max Number of Displayed Rows**

For multiple stock option grants, select the number of rows to appear on the pagelet. If the number of grants exceeds the number of rows, the system automatically displays the More link.

**Sort By**

Define how the information is sorted. Values are: Grant Date, Grant Number, Grant Price, and Option Type.

**Display Fields - Select up to 4**

Each check box that you select appears on the pagelet. You can select up to four fields from this list. Selecting Last Vesting Date overrides all of the other display options.

- **Grant Number**: Displays the grant issue number.
- **Grant Date**: Displays the issue date of each grant listed.
**Option Type** Displays the type of option for each grant.

**Grant Price** Displays the issue price for each grant.

**Shares Granted** Displays the number of shares granted for each grant.

**Shares Exercisable** Displays the number of shares currently exercisable for each grant listed.

**Last Vesting Date** Displays only the last date that options vested and does not display any additional information about the options.

---

### Personalizing the Employee Performance Pagelet

Access the Employee Performance Alerts Settings page (click the Customize button on the Employee Performance pagelet).

![Employee Performance Alerts Settings](image)

**Employee Performance Alerts Settings page**
**Document Type**

**Period End Date >=**
Select the end date of the performance period for which documents are to be listed. The system lists documents with the same date or later than the date entered here.

**Employees to display**
Enter the number of employees to list on the pagelet.

**Use Default Settings**
Click to reset the values on the page to the values that you defined when you last set up this page. Values are defaulted from product level.

---

**Note.** This button does not appear on the Employee Performance Alerts Setup (EP_ALERT_SETUP) page when you are defining the settings. It appears only on the Employee Performance Alerts Setup (EP_PE_OPR_ALERT) page, which is accessed when a user clicks Customize from the Employee Performance pagelet.

---

**Note.** Fields that display on this page are defined on the Employee Performance Alerts Setup page and may vary depending on the setup defined there.

---

**Alert Levels to Include**
Select the desired alert levels to include on the Employee Performance page.

**Alert Days Before Due Date**
For each document status type (*Acknowledged, Review Held, Available for Review, In Progress, Cancelled* and *Complete*), define the number of days before a document's due date that a critical or standard alert appears.

**See Also**

**Personalizing the Upcoming Training Pagelet**
Access the Personalize Upcoming Training Page (click the Customize button on the Upcoming Training pagelet).
Chapter 4 Using HRMS Portal Pack Pagelets

Personalize Upcoming Training page

Maximum displayed rows
Enter the number of rows of training information you want to display on the Upcoming Training pagelet.

Days to view in the future
Enter the number of days into the future for which you want to see upcoming training.

Personalizing the Scheduled Training Pagelet

Access the Personalize Scheduled Training page (click the Customize button on the Scheduled Training pagelet).

Maximum displayed rows
Enter the number of rows of training information you want to display on the Scheduled Training pagelet.
Days to view in the future

Enter the number of days into the future for which you want to see scheduled training.

Personalizing the Open Positions Pagelet

Access the Personalize Open Positions page (click the Customize button on the Open Positions pagelet).

**Personalize Open Positions**

Specify the number of open positions you would like to see on the home page.

**Display Preferences**

- **Number of Rows (1 to 99):** 5

* Required Field

[Save]  [Return]

Personalize Open Positions page

Enter the number of positions that you want to display on the Open Positions pagelet.

Personalizing the Time Management Alerts Pagelet

Access the Personalize Time Management Alerts page (click the Customize button on the Time Management Alerts pagelet).

**Personalize Time Management Alerts**

**Alerts to Display**

- Overtime Limit Reached
- Overtime Approval Required
- Payable Time Approval Required
- Exceptions to Review
- Absence Approval Required

[Save]  [Return]

Personalize Time Management Alerts page

Use this page to select which time management alerts you want to make available on the Time Management Alert pagelet.
Overtime Limit Reached  Select to display those employees who have reached the overtime limit.

Overtime Approval Required  Select to display those employees who have requested overtime approval.

Payable Time Approval Required  Select to display those employees who have payable time which requires approval.

Exceptions to Review  Select to display time reporting exceptions that require review.

Absence Approval Required  Select to display requested Global Payroll absences which require approval.

PeopleSoft Enterprise Time and Labor 9.1 PeopleBook, "Managing Time"

Personalizing the Workforce Availability Pagelet

Access the Personalize Workforce Availability page (click the Customize button on the Workforce Availability pagelet).

![Personalize Workforce Availability]

Use this page to select which workforce availability alerts you want to make available on the Workforce Availability pagelet.

**Currently Clocked In**  Select to display employees who are currently clocked in for the current punch shift.

**No Show for Current Shift**  Select to display employees who are scheduled for the current punch shift but have not clocked in.
Scheduled for Current Shift
Select to display employees who are scheduled for the current punch shift.

Reported Absent for Today
Select to display employees who are reported as absent.
If PeopleSoft Enterprise Global Payroll is installed, the system determines if any absences are reported in the absence pages. In addition, the system detects any leave time reporting codes (TRCs) in the PeopleSoft Enterprise Time and Labor application's reported elapsed time, which is not a Global Payroll absence.

Reported In Training for Today
Select to display employees who have scheduled, approved training for the day.
This count will include the attendance statuses from the Training Administration business process of currently attending, completed, enrolled, approved and authorized.

Personalizing the Direct Reports Phones Pagelet
Access the Personalize Phones page (click the Customize button on the Direct Reports Phones pagelet).

Personalize Phones page

Display Phone Type 1
Select up to three phone types and in the order in which you want them to appear.

Personalizing the Recruiter Alerts Pagelet
Access the Personalize Alerts page (click the Customize button on the Recruiter Alerts pagelet).
Personalize Alerts page

Use this page to select the alerts that you want to display on the Recruiter Alerts pagelet.

**New Applicants and Applied Within**
Select New Applicants to display the number of new applicants that have applied to your job openings within the time frame that you select in the Applied Within drop-down list box.

For example, you can select to view applicants that have applied within the last 30 days.

**Auto Match Results**
Select to display the number of applicants currently in the Auto Match results.

**Interviews Today**
Select to display the number of interviews scheduled for the user.

**Unconfirmed Interviews**
Select to display the number of interviews that have been scheduled but are not yet confirmed.

**Interview Evaluations**
Select to display the number of interview evaluations assigned to the user.

**Prepare Job Offer**
Select to display the number of applicants in the Prepare Job Offer queue.

**Approve Job Offer**
Select to display the number of applicants in the Approve Job Offer queue.
**Prepare for New Hire** Select to display the number of new hire proceedings for applicants that have accepted job offers.

**Approve Job Opening** Select to display the number of job openings waiting for approval.

**Online Job Offer and Days Until Offer Expires** Select to display the number of open online job offers that you created that have expired or that will expire within the number of days that you enter.

Open online job offers are offers that you posted to Candidate Gateway that have not been accepted or rejected. The offer status must be *Extend*.

**Unevaluated Answers** Select to display the number of open-ended screening question evaluations that the user has requested but that the assigned evaluators have not yet completed.

**Questionnaire Request** Select to display the number of applicants who have not completed the questionnaires for job openings to which they are linked.

---

**Personalizing the My Job Openings Pagelet**

Access the Personalize My Job Openings page (click the Customize button on the My Job Openings pagelet).
**Personalize My Job Openings**

Select the information that should display on the pagelet. The values selected for Status Code and Created Within are the criteria that determine which Openings display on the pagelet. The selected values in the Additional Columns list determine which columns are displayed on the pagelet. The Job Opening column is preselected and will always display.

### My Job Openings

<table>
<thead>
<tr>
<th>With Status of:</th>
<th>006 Pending Approval</th>
</tr>
</thead>
<tbody>
<tr>
<td>Created Within:</td>
<td>040 - Last Week</td>
</tr>
<tr>
<td>Maximum displayed rows:</td>
<td>5</td>
</tr>
</tbody>
</table>

**Additional Columns (max. = 5)**

- Job Opening
- Job Opening Title
- Location
- Hiring Manager
- Status
- Days Open (Since Approval)
- Target Openings
- Number Filled Openings
- Number of Applicants
- Job Opening Activity Hyperlink
- Actions

---

**Personalize My Job Openings page**

Use this page to define what information displays on the My Job Opening pagelet. Use the fields in the upper portion of the page to place parameters on the type of information you select in the lower portion of the page. To include a type of information on the pagelet, select the corresponding check box. The Job Opening check box is selected as a default, and you can select four more types of information to display on the pagelet.

**With Status of**

Select a specific status for which you want to view job openings. If you do not make a selection, job openings in all statuses that meet other criteria you specify on this page will be available using the My Job Opening pagelet.

**Created Within**

Select a point in time from which you want to view job openings. For example, select *Last Month* to display your job openings for the last 30 days or *Last Week* to see your openings for the last seven days. If you do not make a selection, the system does not display any results on the My Job Opening pagelet.

**Maximum displayed rows**

Enter the number of rows you want to display on the My Job Opening pagelet. You can enter up to 99 rows; however, the system will only display the number of job openings that meet the criteria you specify.
Viewing Manager Pagelets

This section discusses:

- Viewing the Birthday Alerts pagelet.
- Viewing the Anniversary Alerts pagelet.
- Viewing the Direct Reports pagelet.
- Viewing the Manager Leave Summary pagelet.
- Viewing the Company Directory pagelet.
- Viewing the Organization Directory pagelet.
- Viewing the Employee Performance pagelet.
- Viewing the Scheduled Training pagelet.
- Viewing the Manager Expiring Licenses pagelet.
- Viewing the Open Positions pagelet.
- Viewing the Time Management Alerts pagelet.
- Viewing the Workforce Availability pagelet.
- Viewing the Direct Reports Phones pagelet.

**Note.** You can personalize many of these pagelets, so they can appear differently in the application than described in this chapter.

See Also

Chapter 4, "Using HRMS Portal Pack Pagelets," Personalizing Pagelets, page 19

Viewing the Birthday Alerts Pagelet

The Birthday Alerts pagelet displays upcoming employee birthdays.
Birthday Alerts pagelet

Managers use this pagelet to view the birth dates for their direct reports.

Click an employee name to access the Employee Information page in PeopleSoft Enterprise eProfile where you can view additional information about a specific employee and access links to pages with more specific employee information.

Click Employee Search to access the Employee Search page to look for a specific employee.

Viewing the Anniversary Alerts Pagelet

The Anniversary Alerts pagelet displays upcoming employee job anniversaries.

Anniversary Alerts pagelet

Managers use this pagelet to view the hire date for their direct reports.

Click an employee name to access the Employee Information page where you can view additional information about a specific employee and access links to pages with more specific employee information.

This pagelet uses time and labor group security or defaults to department security to determine the employees reporting to a manager. The reporting structure also depends on the association to the manager's row security permission list.

The date that appears in the First Start Date column is the current date, unless the time and labor date is enabled on the Time and Labor Permission List page for the manager's row security permission list.
Viewing the Direct Reports Pagelet

The Direct Reports pagelet displays information on direct reports.

<table>
<thead>
<tr>
<th>Direct Reports</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Employees</strong></td>
</tr>
<tr>
<td><strong>Name</strong></td>
</tr>
<tr>
<td>Adland Chu</td>
</tr>
<tr>
<td>Diane Palmer</td>
</tr>
<tr>
<td>Susan Hoinck</td>
</tr>
<tr>
<td><strong>More...</strong></td>
</tr>
</tbody>
</table>

Direct Reports pagelet

Managers use this pagelet to view a list of their direct reports.

**Name**
Click a link in the Name column to access the View Employee Personal Information page where you enter data and click Continue to access the Employee Information page in eProfile. On the Employee Information page in eProfile, you can view additional details for a specific employee. The Employee Information page also contains links to related employee data pages.

**More**
Click to access a wide version of the pagelet with multiple columns showing additional data.

The narrow version displays only the data specified in the Display Additional Information filed on the Personalize Direct Reports page.

**Employee Search**
Click to access the Employee Search page where you can define search criteria to find a specific employee.

**Skill**
Click to access the Current Team Profiles page for profiles to which you have security access, where you can view detailed information regarding the skills of a selected employee.

**Training**
Click to access the Training Summary page where you can view detailed information regarding training for a specific employee.

**Note.** The Skill link appears only on the wide version of the Direct Reports pagelet.

**Note.** The Training link appears only on the wide version of the Direct Reports pagelet.
Viewing the Manager Leave Summary Pagelet

The Manager Leave Summary pagelet displays information about absence requests from employees.

This pagelet displays information for absence requests. Select a value in the Your Employee’s Absence Request to access Absence Requests page. You use the page to review absence requests by status and to access absence requests details.

Click the More link to view additional requests if they exist.

Viewing the Company Directory Pagelet

The Company Directory pagelet displays search fields to locate employees by name, job title, department, or email. You also have the option to use an advanced search, where you can enter additional search criteria.

```
Company Directory
Search by Name, Job Title, Department, or Email

Advanced Search  Search  My Profile
```

Organization Directory pagelet

Employees use this pagelet to search for people using the Company Directory feature.

**Advanced Search**
Click this link to access the Company Directory - Search For People: Advanced Search page. Use the Advanced Search link to enter multiple criteria to search for an individual.

**My Profile**
Click this link to have the system display your information as the focus in the Company Directory component.

Viewing the Organization Directory Pagelet

The Organization Directory pagelet displays search fields to locate employees by name and or location.
Organization Directory pagelet

Employees use this pagelet to search for people or locations.

Viewing the Employee Performance Pagelet

The Employee Performance pagelet displays summarized employee performance information.

Employee Performance pagelet
Managers use this pagelet to check the status of the performance document for which they are responsible. The pagelet lists the employees with performance documents, the dues dates, and an indicator that shows whether a document is complete, on schedule, behind schedule, or cancelled.

**Employee**
Click an employee name link to access the Maintain Performance Document page. The type of document that appears on the Maintain Performance Document page depends on the document types that you set up on the Employee Performance Alerts Settings page.

**More**
Click this link to access performance information for additional employees.

**See Also**

### Viewing the Scheduled Training Pagelet

The Scheduled Training pagelet displays employee training that has been scheduled. The page also displays the course start date and the enrollment status.

![Scheduled Training](image)

Scheduled Training pagelet

Click an employee name link to access the Training Summary page where you can view details regarding the selected employee's training. The Training Summary page provides detailed information on training including internal and external training and courses that have been completed.

Click the More link to access the Scheduled Training page.

**See Also**

Viewing the Manager Expiring Licenses Pagelet

The Manager Expiring Licenses pagelet displays employee information on licenses and certificates which employees hold related to their jobs.

An asterisk next to the employee name implies that the license is being renewed. Click an employee name link to access the License/Certificate Detail page to view details of a selected employee's license or certificate.

Viewing the Open Positions Pagelet

The Open Positions pagelet displays information on positions currently open.

Position Displays the position title.
### Position Headcount
Displays the number of open positions for the corresponding position.

### More
Click to access the complete list of open positions.

### See Also

---

**Viewing the Time Management Alerts Pagelet**

The Time Management Alerts pagelet displays time related events and occurrences alerts.

![Time Management Alerts](image)

#### Time Management Alerts pagelet

Alert links on this pagelet are active only if there are occurrences to report and action to be taken.

The pagelet uses time and labor group security or defaults to department security to determine employees reporting to a manager, depending on the association to the manager's row security permission list. In addition, the date is determined as the current date, unless the time and labor system date is enabled on the Time and Labor Permission List page for the manager's row security permission list.

---

**Note.** This page requires implementation of Time and Labor.

**Overtime Limit Reached**
Click to access the View Overtime Balances page where you can view detailed information regarding overtime limits reached by employees.

Click Get My Employees or Get Employees in Group on the View Overtime Balances page to view the overtime limits and balances.

The occurrences equal the count of the employees that are shown to have exceeded their overtime limit when you view overtime balances.
Overtime Approval Required
Click to access the Approve Overtime Requests page where you can view and approve overtime requests for employees.
The occurrences indicate the number of requests to be approved. This value equals the count of the employees that appear on the Select an Employee Request page.

Payable Time Approval Required
Click to access the Approve Payable Time page where you can view and approve reported payable time.
The occurrences indicate the number of rows of payable time to be approved.

Exceptions to Review
Click to access the Manage Time Exceptions page where you can view time reporting exceptions generated through time reporting.
The occurrences indicate the number of exceptions to review.

Absence Approval Required
Click to view and approve Global Payroll absence requests for employees.
This link only displays if Global Payroll is installed. The occurrences indicate the number of absence requests to be approved.

See Also

Viewing the Workforce Availability Pagelet
The Workforce Availability pagelet displays summarizes current availability and general absence information.
Chapter 4 Using HRMS Portal Pack Pagelets

Workforce Availability pagelet

Click the Customize button in the upper right-hand corner to define which statuses display in the Employee Status column.

To populate the Employee Count field for the Reported Absent for Today status, the system checks for any absences reported in PeopleSoft Enterprise Absence Management whether they are designated for PeopleSoft Enterprise Payroll for North America or for Global Payroll.

The system uses data from the PeopleSoft Enterprise Learning Management application to update the Employee Count field for the Reported in Training for Today status. However, you must enable the application to retrieve the data. To send the training data, the system uses the Scheduled Time Fullsync and Scheduled Time Sync messages. Training data is stored in the PS_SCH_EXT_DTL record.

Daily Time Calendar and Weekly Time Calendar

Click to access the Daily Time Calendar and Weekly Time Calendar pages to view current time-related information on employees. These time calendars provide more detailed information regarding availability details.

Viewing the Direct Reports Phones Pagelet

The Direct Reports Phones pagelet displays employee phone contact information.
Direct Reports Phones pagelet

To change the phone type displayed, click the Customize button in the upper right corner.

Name
Click a value in the Name column to see more details about the direct report.

More
Click to access a wider version of the pagelet with multiple columns showing additional data.

The narrow version displays only one phone type using Display Phone Type 1 from the Personalize Phones page.

### Viewing Employee Pagelets

This section discusses:

- Viewing the Employee Leave Summary pagelet.
- Viewing the Stock Options pagelet.
- Viewing the Paychecks pagelet.
- Viewing the Upcoming Training pagelet.
- Viewing the Employee Expiring Licenses pagelet.

**Note.** You can personalize many of these pagelets, so they can appear differently in the application than described in this chapter.

### Viewing the Employee Leave Summary Pagelet

The Employee Leave Summary pagelet displays absence summary information for the employee.
Employee Leave Summary pagelet

This pagelet displays absence summary information for an employee.

For Global Payroll users, payees can review absence history, review absence balances, enter requests for absences, and forecast absence balances as of a particular date.

For Payroll for North America users: Payees can view their leave balances.

Details Click to access detailed information regarding absences.

Viewing the Stock Options Pagelet

The Stock Options pagelet displays stock option grant information for an employee.

Stock Options pagelet

Employees use this pagelet to review detailed information about their stock options.
Grant Number  Click to access the Stock Option Information page where you can view more details about a selected grant.

Grant Date  Displays when the stock was granted.

Type  Displays the type of stock plan.

Price  Displays the granted stock option price.

More  Click to access the Stock Option Summary (ST_GRANT_SUMM_OPT) page where you can view additional data including the number of shares that have been granted and the number of shares currently exercisable for each grant listed.

See Also

Viewing the Paychecks Pagelet

The Paychecks pagelet displays a link to the View Paycheck page.

![Paychecks](image)

Paychecks pagelet

Click the View Paychecks link to access the View Paycheck (PY_IC_PI_LIST) page where you can select the check date of the payslip to view.

Viewing the Upcoming Training Pagelet

The Upcoming Training pagelet displays upcoming scheduled training, including the course name, start date, and enrollment status.
Upcoming Training pagelet

Click a course name link to access the Training Summary Course Details page where you can view more details about a specific training course.

Click the More link to access the Upcoming Training page.

Click the Training Summary link to access the Training Summary page.

Viewing the Employee Expiring Licenses Pagelet

The Employee Expiring Licenses pagelet displays information on employee licenses that are nearing expiration.

Employee Expiring Licenses pagelet

Click a license or certificate link to access the License/Certificate Detail page to view more details regarding a specific license or certificate that is expiring. If the renewal has been applied for, an asterisk appears at the left of the link.

Viewing Recruiter Alerts for Talent Acquisition Manager

The recruiter alerts pagelet consolidates a variety of important information for recruiters. From the pagelet, you can access detail pages with additional information.

This section discusses:

• The Recruiter Alerts pagelet.
• The Unconfirmed Interview Summary page.
• the Interview Evaluation Summary page.
• The Prepare Job Offer page.
• The Online Job Offer page.
• The Unevaluated Answers page.
• The Questionnaire Request page.

### Viewing the Recruiter Alerts Pagelet

The Recruiter Alerts pagelet provides recruiters with summary information for the recruiters' own job openings. These are job openings in which the user is on the hiring team in any role.

The Recruiter Alerts pagelet provides recruiters with summary information for the recruiters' own job openings.

To personalize which alerts appear on this page, click the Customize button in the upper right-hand corner.

For each alert, the system displays the number of associated occurrences. Clicking the number opens a page that lists the individual occurrences.
The following table lists the alerts that appear on this pagelet and explains what the number represents. The last column in the table identifies the page that appears if you click the number and indicates whether the page is a Talent Acquisition Manager page or whether the page is a Portal Pack page that you can access only from the Recruiter Alerts pagelet.

<table>
<thead>

</tbody>
</table>

- **Select All**
- **Deselect All**

### Unevaluated Answers page

- **Applicant**
  - Click this link to access applicant data on the Manage Applicant page.

- **Job Opening**
  - Click this link to access the Job Opening page.

- **Send Reminder**
  - Select the check box next to one or more of the applicants in the grid, then click the Send Reminder button to send a reminder to the evaluators who are assigned to evaluate answers for the selected applicants.

- **Delete Request**
  - Select the check box next to one or more of the applicants in the grid, then click the Delete Request button to remove the selected rows from this grid. Removing rows from this grid does not change anything about the screening process; unevaluated answers are still included in screening. If there are no evaluations for the answer, then the applicant receives no points for the answer.

### Viewing the Questionnaire Request Page

The Questionnaire Request page displays a list of applicants who have not completed an online questionnaire after being linked to one of the user's job openings and after being sent a request to complete the questionnaire.
Questionnaire Request page

Name and Applicant  Click either of these links to access applicant data on the Manage Applicant page.

Job Opening  Click this link to access the Job Opening page.
