COMMUNITY LIVING OPTIONS
The following describes the various options available to individuals who need supportive services in their place of residence. Choice of a suitable alternative depends on a number of factors, including lifestyle preferences, the level of support needed, cost, and the options available in a particular community. Some of the options are subject to specific government regulation, while others are not.

IN HOME CARE
Supportive home care services can be provided to individuals in their own home or apartment. Homemaker, chore services, Meals on Wheels, home health care, attendant care, and transportation are some of the services that make it possible for people with long term care needs to remain in their homes. These can be arranged through public social service agencies, purchased from private agencies, or provided by family and friends. While most services are unregulated, home health agencies are licensed by the state.

SENIOR AND DISABLED HOUSING/INDEPENDENT LIVING APARTMENTS
This housing is multi-unit rental housing that is specially designed for, and marketed to elderly and disabled tenants. Most offer studio and/or one bedroom apartments and some have a recreation room or other common space for social gatherings. There may be a manager available to make referrals or organize events. Tenants may individually arrange for supportive services from outside providers, as with any in-home care. No license or special regulation is required for the facility.

RESIDENTIAL CARE APARTMENT COMPLEX (RCAC)
RCACs combine apartment housing with supportive, personal and nursing services. Residents have their own apartments, including full bath and kitchen facilities, and retain control over their personal space, care decisions and daily routines. Services are individually tailored to each resident’s capacities and preferences and are adjusted as necessary to avoid requiring people to move when their condition deteriorates with age. Facilities may provide up to 28 hours of service per resident per week. RCACs are either registered or certified. Certified facilities will be monitored by the state and eligible to receive Medical Assistance waiver funding, registered facilities will not.

ADULT FAMILY HOME
An adult family home is a residence where one to four unrelated adults live and receive meals, supervision, and personal care. Many adult family homes, especially those with only one or two paying residents, are private homes where elderly or people with disabilities live with a foster family. Adult family homes caring for one or two unrelated adults are certified by the county; homes caring for three or four residents are licensed and regulated by the state.
COMMUNITY BASED RESIDENTIAL FACILITY (CBRFS)

Community Based Residential Facilities (CBRFs) are staffed group living arrangements that provide room, board, supervision and other supportive services to five or more adult residents. Typically, residents have either a private or shared sleeping room and share living, dining, and bathroom space with other residents of the facility. CBRFs are intended for people who cannot live independently but are neither acutely ill nor need extensive amounts of nursing care. Facilities vary in size from five residents to over 100. Some are houses, others are facilities. Some serve a frail elderly population; others serve people with disabilities, people with Alzheimer's disease, or mixed group of residents. All CBRFs must be licensed by the state.

NURSING HOME

A nursing home is a health care facility which provides room, board, and 24 hour a day care. Residents may be admitted for a short-term respite or recuperative stays or for long-term care for chronic conditions. Nursing homes are licensed by the state. Most are also certified for Medicare and Medicaid, which provide public funds to cover the cost of care for eligible residents.

CAREGIVER SERVICES
You are a caregiver if you are a spouse, adult child, relative or friend, who helps care for, or is concerned about an older and/or disabled adult.

Because of care giving duties you may feel stressed, frustrated, guilty or concerned about how you will handle future care giving duties.

The ADRC-CW offers professional, unbiased information about supportive services and options that can assist you – the caregiver – and the person you are caring for.

HERE ARE SOME OF THE SERVICES WE OFFER:

ALZHEIMER’S FAMILY AND CAREGIVER SUPPORT PROGRAM
This program is funded through the State to assist caregivers and prevent caregiver burnout. Limited financial assistance is available to assist with some of the costs related to caring for someone with dementia in a home setting. Reimbursable services are those which are necessary to maintain a person with dementia in the community. Typical services include in-home help, respite care, adult day care and transportation.

INFORMATION AND ASSISTANCE
We offer office, in-home and phone consultation about community resources and options available to you. These include respite care, financial resources and care options as well as information about ways to reduce stress and take care of yourself.

POWERFUL TOOLS FOR CAREGIVER CLASSES
This six week course is designed specifically for the caregiver to teach important tools to help reduce stress, improve communication, master emotions and communicate in challenging situations.

CAREGIVER OUTREACH PRESENTATIONS
Community presentations can be scheduled on issues related to care giving to help raise awareness and educate the public about available resources.

NATIONAL FAMILY CAREGIVER SUPPORT PROGRAM
Limited financial assistance is available annually to individuals providing care to others. Call us for more information about this program and status of the funds.

MEDICARE PART D & MEDICARE SAVINGS PROGRAMS

MEDICARE PART D
Any person who receives benefits through Medicare (Part A and/or B) is eligible for the Medicare Part D drug benefit. Medicare Part D is a voluntary program and if you want the benefit you will need to enroll in a Medicare Part D plan. Please be aware that if you do not enroll in Medicare Part D or have other “creditable coverage” you will be subjecting yourself to a permanent premium penalty if you decide to enroll at a later date. Unlike traditional Medicare coverage, private insurance companies, whose plans have been approved by the federal government, offer drug coverage through Medicare Part D. The private insurance company will administer the drug coverage not the federal government. A Benefit Specialist can meet with you to discuss your prescription drug coverage needs and help you enroll in a Medicare Part D plan if you choose to enroll.

MEDICARE SAVINGS PROGRAMS - EXTRA HELP
Medicare Savings Programs can help Medicare recipients with limited income and assets pay for their Medicare Part B premium. Some Medicare recipients may also qualify for Prescription Extra Help to pay for the costs of the monthly premiums, annual deductibles, and prescription co-payments that are related to a Medicare Part D prescription drug plan. Many people qualify for these potentially big savings and don’t even know it, so it is worth asking the question.

To find out if you qualify for Prescription Extra Help or the Medicare Savings Programs, contact the ADRC-CW and ask about these Low-Income Medicare programs. We can assist with a financial assessment to see if you qualify and help with the application if you meet the guidelines.

NUTRITION PROGRAM

Balanced nutrition is so important to maintain independence and good health. Many older adults do not get the nutrition they need for a variety of reasons such as:
- It is difficult to cook for only one or two persons
- They simply do not feel like cooking
- There are physical and/or emotional reasons they cannot prepare food

The ADRC-CW offers Nutrition Program services to help older adults get good nutrition. Our meals meet 1/3 of the daily nutritional needs for older adults.

HERE ARE SOME OF THE SERVICES WE OFFER:

SENIOR DINING
Join us for delicious meals at many locations throughout our communities. Cooking ability or income/assets are not part of being eligible.

Who is eligible for Senior Dining?
- Anyone age 60 or older, and their spouse.
- A disabled individual who lives at home with an eligible older individual who participates in the program.
- A person with a disability, under age 60, who lives in senior housing where Senior Dining is provided. (Includes: Park Place, Jenny Towers)

MEALS ON WHEELS
Delivered meals are helpful when someone is not easily able to prepare balanced meals for themselves. Meal delivery also eases the caregiving burden for spouses, family, and friends. Every meal delivery provides a friendly “check-in” opportunity.

Meals on Wheels eligibility includes all of the following: being age 60 or older; being mostly homebound; and being unable to prepare balanced meals.

A spouse of an eligible person or a disabled person who resides at home with an older eligible individual participating in the program can also participate. Before meal delivery begins, a home visit from staff of the Aging & Disability Resource Center of Central Wisconsin is completed to determine eligibility. Each request for Meals on Wheels is evaluated on an individual basis. See the Meals on Wheels section of this Directory for more details.

ADVANCE DIRECTIVES

As a competent adult, you have the right to make your own health care decisions. However, you could become incapacitated at any time by an accident or illness or by a debilitating condition that could lead to your loss of ability to express your wishes about medical treatment. For this reason, it is important for you to plan in advance for future health care decisions. An advance directive is a legal document that allows you to make your health care desires and preferences known.

An advance directive includes written instructions recognized under state law by which you communicate your health care preferences. There are many different terms used to describe advance directives. The written advance directives recognized by Wisconsin law are:

- Power of Attorney for Health Care (POAHC)
- Declaration to Physicians (known in Wisconsin as Living Will)

Completing either of these documents is voluntary. They are “valid” once they have been completed, properly witnessed and signed. It is important to know that you continue to make your own health care decisions as long as you are able. A Power of Attorney for Health Care becomes effective when two physicians, or one physician and one psychologist, personally examine you and sign a certificate that you are “incapacitated” to make health care decisions. A Living Will becomes effective when you are either in a “persistent vegetative state” or have a terminal illness with death imminent. Two physicians must certify that one of these conditions exists.
