NOTICE OF NONDISCRIMINATION

The following link provides the nondiscrimination policy for Wilkes University.

http://www.wilkes.edu/bulletin/current/graduate/wilkes-university/statement-of-nondiscrimination.aspx
WILKES UNIVERSITY

OUR MISSION:

To continue the Wilkes tradition of liberally educating our students for lifelong learning and success in a constantly evolving and multicultural world through a commitment to individualized attention, exceptional teaching, scholarship and academic excellence, while continuing the university’s commitment to community engagement.

OUR VISION:

Wilkes University will provide exceptional educational experiences that transform students and develop innovations through scholarly activities that lead to national recognition and shape the world around us.

OUR VALUES:

Mentorship: Nurturing individuals to understand and act on their abilities while challenging them to achieve great things.
Scholarship: Advancing knowledge through discovery and research to better educate our constituents.
Diversity: Embracing differences and uniqueness through sincerity, awareness, inclusion and sensitivity.
Innovation: Promoting creative scholarly activities, programs, ideas and sustainable practices.
Community: Appreciating and collaborating with mutual respect to foster a sense of belonging.

INSTITUTIONAL STUDENT LEARNING OUTCOMES

Students will:
- Demonstrate a comprehensive understanding of appropriate theories, methods and standards specific to the field of study;
- Demonstrate appropriate application of the methods, skills and techniques specific to the field of study;
- Demonstrate the ability to engage in the process of systematic inquiry appropriate to the field of study;
- Demonstrate effective written communication skills in the field of study;
- Demonstrate effective oral communication skills in the field of study; and
- Demonstrate understanding of integrity and ethical practice.
ACCREDITATION
Wilkes is regionally accredited by the Middle States Commission on Higher Education. Professional accreditations include:

- American Chemical Society
- Engineering Accreditation Commission
- Accreditation Board of Engineering and Technology
- Accreditation Council for Business Schools & Programs
- Accreditation Council for Pharmacy Education
- American Society of Health-System Pharmacist Commission on Credentialing
- Pennsylvania Department of Education
- Commission on Collegiate Nursing Education

The baccalaureate degree in nursing/master's degree in nursing/Doctor of Nursing Practice, and post graduate APRN certificate programs at Wilkes University are accredited by the Commission on Collegiate Nursing Education.
PASSAN SCHOOL OF NURSING

MISSION
The mission of the Passan School of Nursing is to promote interprofessional practitioners of nursing, who provide quality health care in a constantly evolving multicultural world, engage in lifelong learning, and expand nursing science through scholarship, technology, and academic excellence, while engaging in community service.

VISION
The vision of the Passan School of Nursing is to be a recognized nursing education leader who prepares professional nurses for advancing nursing practice and scholarship with meaningful contributions to clinical prevention, population health, and healthcare policy development.

- Baccalaureate nursing students are prepared to meet the challenges of clinical practice in an increasingly complex healthcare environment through the application of evidenced-based practice, technology, and scholarship.
- Graduate students are prepared to assume diverse health care and leadership roles for the advancement of nursing science as expert scholars, practitioners, educators, executives, and informatics specialists.

PHILOSOPHY
The Wilkes University Passan School of Nursing, consistent with the mission of the University, is committed to educating our students for success in a constantly evolving and multicultural world, through a commitment to individualized attention, exceptional teaching, academic excellence, and to upholding the Wilkes’ tradition of community service. Faculty in the nursing programs are dedicated to demonstrating and educating students in the importance of self-directed and lifelong learning within a technologically advanced, complex, and dynamic profession and society.

Consistent with the metaparadigm of nursing, person is viewed as a unique individual interconnected with families, communities and other groups or aggregates who are participants in nursing, and are in constant interaction within a dynamic environment. Humans have culturally derived values and beliefs that give meaning to life and health. Environment is the setting in which the human experience of health occurs. It encompasses the biological, physical, psychological, sociocultural, political, and economical experiences of humans. Health is a state having individual dynamic responses based on fluctuating interactions with the environment. Nursing is both an art and science with intentional focus on providing care of individuals among interprofessional environments while supporting the promotion of health and the prevention of disease, illness and disability, contributing to population health outcomes.
ACCREDITATION

The baccalaureate degree in nursing/master's degree in nursing/ Doctor of Nursing Practice/, and post graduate APRN certificate programs at Wilkes University are accredited by the Commission on Collegiate Nursing Education.

The graduate nursing program in the Passan School of Nursing builds upon The Essentials of Baccalaureate Education for Professional Nursing Practice (AACN, 2008) and incorporates the following professional nursing standards and guidelines, along with others identified, for meeting program outcomes:

- The Essentials of Master’s Education in Nursing (AACN, 2011);
- The Essentials of the Doctoral Education for Advanced Nursing Practice (AACN, 2006);
ALMA MATER

Words and Music by Eleanor C. Farley

Wilkes, our Alma Mater,
We pledge our hearts to
thee, Honor, faith, and
courage, Truth and loyalty.
In our work as in our
pleasure
Guide us as a friend; We
shall always love thee,
Loyal to the end.
Thou shalt lead us
onward In search of
finer things. May we
find the wisdom That
thy spirit brings.
May our deeds of love and
service
Ever swell thy fame —
Wilkes, we stand to greet
thee! Glory to thy name!
DOCTOR OF NURSING PRACTICE (DNP)

PURPOSE
The distance education program leading to the Doctor of Nursing Practice degree at Wilkes University is linked to the mission statements of the University and the Passan School of Nursing as well as, AACN’s scope for advanced nursing practice. The doctoral program focuses on two primary elements: applied research and clinical practice. These two elements are embedded in courses throughout the program with opportunities to apply acquired knowledge to clinical practice in the students’ respective fields for improving safety and quality in health care organizations.

DNP PROGRAM OUTCOMES
The DNP Program at Wilkes University prepares students to:
1. Apply scientific inquiry and information technology to become leaders in advancing nursing practice.
2. Demonstrate application of scholarship and research for solving the nation’s complex health problems.
3. Translate evidence based research into clinical practice.
4. Integrate and disseminate knowledge for improving patient and population health outcomes.
5. Engage in health care policy.

DNP STUDENT LEARNING OUTCOMES
Students in the DNP Program at Wilkes University will:
1. Synthesize nursing science to manage complex health problems and improve health outcomes in advanced nursing practice.
2. Develop and evaluate knowledge and skills in organizational and systems leadership to improve health care practice and policy.
3. Critically analyze information technology, research methodology, quality improvement methodology to implement the best evidence based practice.
4. Design and analyze patient care technology and information systems to enhance quality of health care delivery.
5. Evaluate health care policies to improve health care policy outcomes at the local, state, and national levels.
6. Employ specialized knowledge and leadership skills when collaborating and leading other inter-professional health care teams in complex health care delivery systems.
7. Analyze health disparities, cultural diversity, environmental and societal needs in the care of individuals, aggregates, and populations.
8. Develop, demonstrate, and sustain advanced levels of clinical judgment, systems thinking and accountability to implement and evaluate evidence based care disparities, cultural diversity, environmental and societal needs in the care of individuals, aggregates, and populations.
MS-DNP ADMISSION REQUIREMENTS

Regular Acceptance
- Master of Science in Nursing degree - advanced practice registered nurse (APRN), nurse executive, nursing informatics, clinical nurse leader, or health policy concentrations only
- GPA of 3.5 or higher from master’s-degree-granting institution which is programmatically (ACEN, NLNAC, CCNE) accredited. Students who have graduated from a non-programmatically accredited institution and meet all other admission requirements will be evaluated on a case by case basis. Admission is not guaranteed.
- RN license; and advanced practice registered nurse (APRN) license and national board certification, as appropriate
- Completed application and CV
- Proof of completion of supervised clinical practice hours during master’s or post-graduate certificate program. Verification of completed hours must be provided by the nursing program where the clinical hours were completed. Transcripts are not considered official verification and will not be accepted as verification. (Please note: The DNP degree requires completion of a total of 1000 clinical hours earned during master's/post-graduate certificate, and the DNP program)
- Two recommendations from graduate-prepared nurses or faculty who can attest to the candidate’s potential for advanced practice studies and leadership
- Official transcripts from master’s degree and post-graduate certificate granting institutions
- Evidence of completion for advanced health assessment, advanced pharmacology, and advanced pathophysiology by APRN students (Nurse Practitioners, Clinical Nurse Specialists, Nurse Anesthetists and Nurse Midwives) who do not hold current national certification

Provisional Acceptance (collateral)*
- Master of Science in Nursing degree - advanced practice registered nurse (APRN), nurse executive, nursing informatics, clinical nurse leader, or health policy concentrations only
- GPA of 3.5 or higher from master’s-degree-granting institution which is programmatically (ACEN, NLNAC, CCNE) accredited. Students who have graduated from a non-programmatically accredited institution and meet all other admission requirements will be evaluated on a case by case basis. Admission is not guaranteed.
- RN license; and advanced practice registered nurse (APRN) license and national board certification, as appropriate
- Completed application and CV
- Proof of completion of supervised clinical practice hours during master’s or post-graduate certificate program. Verification of completed hours must be provided by the nursing program where the clinical hours were completed. Transcripts are not considered official verification and will not be accepted as verification. (Please note: The DNP degree requires completion of a total of 1000 clinical hours earned during master's/post-graduate certificate, and the DNP program)
- Two recommendations from graduate-prepared nurses or faculty who can attest to the candidate’s potential for advanced practice studies and leadership
• Unofficial transcripts* from master’s degree and post-graduate certificate granting institution.
• Evidence of completion for advanced health assessment, advanced pharmacology, and advanced pathophysiology is required by APRN students (Nurse Practitioners, Clinical Nurse Specialists, Nurse Anesthetists and Nurse Midwives) who do not hold current national certification

*Official transcript from degree-granting institution due prior to start of second course

Conditional Acceptance (academic)**
• Master of Science in Nursing degree - advanced practice registered nurse (APRN), nurse executive, nursing informatics, clinical nurse leader, or health policy concentrations only
• GPA of 3.0-3.49 from master’s-degree-granting institution which is programmatically (ACEN, NLNAC, CCNE) accredited. Students who have graduated from a non-programmatically accredited institution and meet all other admission requirements will be evaluated on a case by case basis. Admission is not guaranteed.
• RN license; and advanced practice registered nurse (APRN) license and national board certification, as appropriate
• Completed application and CV
• Proof of completion of supervised clinical practice hours during master’s or post-graduate certificate program. Verification of completed hours must be provided by the nursing program where the clinical hours were completed. Transcripts are not considered official verification and will not be accepted as verification.(Please note: The DNP degree requires completion of a total of 1000 clinical hours earned during master's/post-graduate certificate, and the DNP program)
• Letter of Intent addressing reason for pursuing DNP, reason for GPA less than 3.5 in graduate studies, and steps student will take to ensure successful completion of DNP program
• Three recommendations from graduate-prepared nurses or faculty who can attest to the candidate’s potential for advanced practice studies and leadership
• Official transcripts from master’s degree and post-graduate certificate granting institutions
• Evidence of completion for advanced health assessment, advanced pharmacology, and advanced pathophysiology by APRN students (Nurse Practitioners, Clinical Nurse Specialists, Nurse Anesthetists and Nurse Midwives) who do not hold current national certification

**Admitted students must achieve a cumulative 3.0 GPA in first two courses to move forward in program of study.
**MS-DNP CORE**

Courses are 8 weeks in length*

- NSG 600 Nursing Informatics 3 credits
- NSG 601 Biostatistics 3 credits
- NSG 602 Ethical Principles for Advanced Nursing Practice 3 credits
- NSG 603 Application of Nursing Research 3 credits
- NSG 604 Epidemiology and Environmental Health 3 credits
- NSG 605 Collaboration in Health Care Delivery 3 credits
- NSG 606 Diversity and Social Issues 3 credits
- NSG 607 Leadership in Advanced Nursing Practice 3 credits
- NSG 608a* Scholarly Project 3 credits
- NSG 608b* Scholarly Project 3 credits

*NSG 608 a and b are completed over the last 2 courses (32 weeks) in the MS-DNP program.

**Total: 30 credits**

Elective practicum courses are available for students entering the MS-DNP program with less than 400 hours from their master’s degree and post grad certificate programs. These courses provide students with additional time to complete the required 1000 hours for the DNP degree, prior to the start of the scholarly project. Students could take the following elective practicum courses after completing NSG 603:

- NSG 609: DNP Program Practicum I; 150 clinical hours; 2 credits
- NSG 610: DNP Program Practicum II; 150 clinical hours; 2 credits

The MS-DNP program provides an accelerated track where students can take 2 courses simultaneously during an 8-week period. Admission criteria for regular acceptance is a GPA of 3.6 and above. There is no conditional acceptance, and students must be approved by the program Chair or designee. Students complete an attestation form which outlines the rigor and expectations of this accelerated track.
MASTER OF SCIENCE IN NURSING (MSN)

PURPOSE
The purpose of the distance education Master of Science in Nursing program at Wilkes University is to prepare the Nurse Practitioner, Nurse Executive, Nursing Educator, and Informatics Nurse Specialist for advancing nursing practice. The demand is growing for master’s degree nurses who are innovative and clinically focused. This multidisciplinary program provides a foundation for further study in nursing and continued professional development. Graduates are eligible for national certification in their respective concentration.

MASTER OF SCIENCE IN NURSING PROGRAM OUTCOMES
The Master of Science in Nursing program at Wilkes University prepares students to:
1. Engage in lifelong learning in a constantly evolving and multicultural world.
2. Demonstrate competence in the development of scientific inquiry relevant to clinical practice, administration, or education.
3. Utilize leadership strategies that foster improvement of patient and population health.
4. Advance nursing practice by translating evidence in a variety of roles and areas of practice.
5. Improve healthcare outcomes through interprofessional collaboration.
6. Participate in lifelong learning as a part of advancing nursing practice.

MASTER OF SCIENCE IN NURSING STUDENT LEARNING OUTCOMES
Students in the Master of Science in Nursing program at Wilkes University will:
1. Synthesize advanced knowledge of nursing and related disciplines for the development of advanced nursing practice in the roles of the Nurse Practitioner, Nurse Executive, Nursing Educator, and Informatics Nurse Specialist.
2. Develop expertise in the Nurse Practitioner, Nurse Executive, Nurse Educator, and Informatics Nurse Specialist roles to advance nursing practice.
3. Develop skills and abilities to assume leadership roles in advanced nursing practice.
4. Evaluate nursing research for its applicability to advance nursing practice.
5. Evaluate applicable knowledge and concepts in nursing to deal with the complexities of a dynamic society.

ADMISSION REQUIREMENTS

Regular Acceptance
- GPA of 3.0 or higher from an associate’s-(for RN to MSN program) or baccalaureate-(for full MSN program) degree-granting institution which is programmatically (ACEN, NLNAC, CCNE) accredited. Students who have graduated from a non-programmatically accredited institution and meet all other admission requirements will be evaluated on a case by case basis. Admission is not guaranteed.
- RN License
- Completed application
- Resume
- Minimum one year of clinical experience
- Official transcripts from degree-granting institution.
**Provisional Acceptance (collateral)***

- GPA of 3.0 or higher from an associate’s- (for RN to MSN program) or baccalaureate-level (for full MSN program) degree-granting institution which is programmatically (ACEN, NLNAC, CCNE) accredited. Students who have graduated from a non-programmatically accredited institution and meet all other admission requirements will be evaluated on a case by case basis. Admission is not guaranteed.
- RN License
- Completed application
- Resume
- Minimum one year of clinical experience
- Unofficial transcript from degree-granting institution*.

*Official transcripts from degree-granting institution due prior to start of second course

**Conditional Acceptance (academic)*** **(NP students are not admitted under conditional acceptance)

- GPA between 2.5-2.99 from an associate’s- (for RN to MSN program) or baccalaureate-level (for full MSN program) degree-granting institution which is programmatically (ACEN, NLNAC, CCNE) accredited. Students who have graduated from a non-programmatically accredited institution and meet all other admission requirements will be evaluated on a case by case basis. Admission is not guaranteed.
- RN License
- Completed application
- Minimum one year of clinical experience
- Resume
- Official transcripts from degree-granting institution.
- Letter of Intent (must include reason for pursuing MSN degree and reason GPA is less than 3.0)
- Two letters of recommendation (letters of recommendation must be from supervisors and/or those who can attest to candidate’s ability to be successful in graduate nursing education)

**Admitted students must achieve a cumulative 3.0 GPA in first two courses to move forward in program of study.

The MSN program provides an accelerated track where students can take 2 courses simultaneously during an 8-week period. Admission criteria for regular acceptance is a GPA of 3.25 and above. There is no conditional acceptance, and students must be approved by the program Chair or designee. Students complete an attestation form which outlines the rigor and expectations of this accelerated track. The accelerated track is not available to NP students.
CURRICULUM
Graduate Nursing Core (24 Credits)

NSG 500  Advanced Health Assessment  3 credits
NSG 501  Theoretical Foundations of Nursing Science  3 credits
NSG 502  Advanced Nursing Research  3 credits
NSG 504  Advanced Role Development in Nursing  3 credits

NSG 505  Health Policy and Politics for Advancing Nursing Practice  3 credits
NSG 530  Advanced Pathophysiology  3 credits
NSG 533  Advanced Pharmacology  3 credits
NSG 590  Scholarly Review*  3 credits

*Students in the Post Graduate/APRN Certificate Programs have an option to complete (1) billable credit of national certification preparation.

CONCENTRATIONS
NURSE PRACTITIONER STUDENT LEARNING OUTCOMES
Students in the Nurse Practitioner program at Wilkes University will:
1. Synthesize theoretical, scientific, and clinical knowledge in providing comprehensive, evidence-based care.
2. Perform comprehensive health history and physical examination to diagnose health conditions involving critical analysis, differential diagnosis, and data interpretation.
3. Assume leadership roles in collaboration with other health professionals to achieve optimum patient health.
4. Integrate health care policy as it impacts the decision-making ability to provide quality patient care.
5. Negotiate healthcare delivery systems to promote quality health outcomes for individuals, communities, and organizational systems.
6. Coordinate care for patients with complex conditions through referrals and collaboration.
7. Participate in life-long learning through higher education, continuing education, certification and evaluation.

Adult-Gerontology Primary Care Nurse Practitioner (16 Credits)

NSG506  Advanced Practice in Adult-Gerontology Clinical I  3 credits
NSG515  Advanced Practice in Adult-Gerontology Clinical II  3 credits
NSG550  Diagnostic Reasoning for Nurse Practitioners  2 credits
NSG553  Adult Health Perspectives of Culturally Diverse, Rural, and Underserved  2 credits
Populations
NSG554  Nurse Practitioners in Primary Care I  3 credits
NSG555  Nurse Practitioners in Primary Care II  3 credits

Psychiatric/Mental Health Nurse Practitioner (18 Credits)
NSG526  Clinical Modalities in Advanced Psychiatric/Mental Health Nursing Practice  3 credits
NSG527  Psychopathology, Theories, and Advanced Clinical Modalities  3 credits
NSG535  Advanced Practice in Psychiatric/Mental Health Nursing I  3 credits
NSG536  Advanced Practice in Psychiatric/Mental Health Nursing II  3 credits
NSG550  Diagnostic Reasoning for Nurse Practitioners  2 credits
NSG551  Mental Health Perspectives of Culturally Diverse, Rural, and Underserved Populations  2 credits
NSG552  Psychopharmacology  2 credits

NURSE EXECUTIVE STUDENT LEARNING OUTCOMES
Students in the Nurse Executive program at Wilkes University will:
1. Examine innovations for leadership and management to meet the challenges in delivering quality health care.
2. Critically analyze the challenges and issues facing nurse executives for maintaining healthcare workforces.
3. Discuss the role of the nurse executive as a leader in advancing nursing practice.
4. Apply evidence based practice as an organizational leader in redesigning healthcare delivery systems.

Nurse Executive (15 Credits)
*Theory courses are 8 weeks and practicum courses are 16 weeks in length.*

NSG 560  Healthcare Operations for the Nurse Executive  3 credits
NSG 561  Organizational Leadership for the Nurse Executive  3 credits
NSG 562  Advanced Leadership Topics for the Nurse Executive  3 credits
NSG 563  Nurse Executive Practicum I  3 credits
NSG 564  Nurse Executive Practicum II  3 credits
NURSING EDUCATION STUDENT LEARNING OUTCOMES
Students in the Nursing Education program at Wilkes University will:
1. Analyze theoretical and evidence-based research specific to nursing education.
2. Develop expertise in education assessment, teaching/learning strategies, evaluation and testing.
3. Design a curriculum that addresses a dynamic complex nursing environment.
4. Demonstrate leadership abilities through classroom and clinical teaching in a variety of community agencies.

Nursing Education (15 Credits)
*All courses are 8 weeks in length
NSG540 The Nursing Curriculum: Development and Implementation 3 credits
NSG541 Teaching Methodologies and Strategies in Nursing 3 credits
NSG542 Evaluation in Nursing Education 3 credits
NSG544 Classroom Practicum in Nursing Education 3 credits
NSG545 Clinical Practicum in Nursing Education 3 credits

NURSING INFORMATICS STUDENT LEARNING OUTCOMES
Students in the Nursing Informatics program at Wilkes University will:
1. Discuss the role of the informatics nurse specialist for advancing nursing practice.
2. Apply informatics nurse specialist competencies as a nursing leader on healthcare organization, interprofessional teams.
3. Integrate nursing knowledge and technology for improving patient quality of care.
4. Demonstrate an ability to incorporate data analysis and management techniques for achieving efficiency and quality in healthcare organizations.

Nursing Informatics (15 credits)
*All courses are 8 weeks in length
NSG565 Foundations of Nursing Informatics 3 credits
NSG566 Data Management in Healthcare 3 credits
NSG567 Nursing Informatics Leadership in Healthcare Systems and Project Designs 3 credits
NSG568 Nursing Informatics Practicum I 3 credits
NSG569 Nursing Informatics Practicum II 3 credits
RN to MSN PROGRAM

PURPOSE
This distance education RN to MSN graduate nursing program is designed for the experienced, practicing registered nurse with a nursing-focused associate’s degree (AAN or ASN) who plans to earn a career-enhancing advanced nursing degree to the master’s level. Students enter this program as graduate students of the university. The curriculum starts with two bridge courses totaling 10 credit hours, which bring the student to the baccalaureate level of study. *A pass-through bachelor's degree in nursing is not granted as part of this program. After completing these bridge courses, students continue in completing a concentration for completion of the Master of Science in Nursing degree of their choice (see Master of Science in Nursing section of the handbook). Graduates are eligible for national certification in their respective concentrations.

ADMISSION REQUIREMENTS
• See the Master of Science in Nursing admission requirements above.

CURRICULUM
Courses are completed in 8 week or 12 week sessions based upon the master’s concentration chosen. The two bridge courses include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>NSG 290</td>
<td>Transition to Baccalaureate Nursing</td>
<td>7 credits</td>
</tr>
<tr>
<td>NSG 347</td>
<td>Leadership and Management Practicum</td>
<td>3 credits</td>
</tr>
</tbody>
</table>

The total number of credits required for completion of the RN to MSN nursing degree is based upon the concentration chosen (see Master of Science in Nursing section of the handbook). The range is between 49-52 total credits. RN to MSN students follow the policies of the Passan School of Nursing graduate nursing program.

The RN to MSN program provides an accelerated track where students can take 2 courses simultaneously during an 8 week period after completion of the 10 credit bridge courses. Admission criteria for regular acceptance is a GPA of 3.25 and above. There is no conditional acceptance, and students must be approved by the program Chair or designee. Students complete an attestation form which outlines the rigor and expectations of this accelerated track. The accelerated track is not available to NP students.
POST-GRADUATE/APRN CERTIFICATE PROGRAMS

PURPOSE
This distance education Post Graduate/APRN Certificate program is designed for the experienced registered nurse who has earned a master’s or doctoral degree in Nursing and seeks to expand their education in a new specialty area. Certificate programs are offered in all concentrations available in the Master of Science in Nursing degree program. Graduates of our accredited online certificate programs are eligible to sit for national certification exams. A review of official transcripts will determine a student’s course of study. No degree is awarded.

Students admitted to the nurse practitioner program who have previously taken an Advanced Pharmacology course are advised to contact their State Board of Nursing to determine if their Pharmacology course meets the criteria set by State Board for length of time that is allowed from taking the course to the date of applying for prescriptive privileges.

ADMISSION REQUIREMENTS

Regular Acceptance
- Master of Science in Nursing or Doctoral degree in Nursing
- GPA of 3.0 or higher from master’s-degree-granting institution which is programmatically (ACEN, NLNAC, CCNE) accredited. Students who have graduated from a non-programmatically accredited institution and meet all other admission requirements will be evaluated on a case by case basis. Admission is not guaranteed.
- RN License; and Advanced Practice Registered Nurse (APRN) license and national board certification, as appropriate
- Completed application
- Resume
- Minimum one year of clinical experience
- Official transcript from degree-granting institution.

Provisional Acceptance (collateral) *
- Master of Science in Nursing or Doctoral degree in Nursing
- GPA of 3.0 or higher from master’s-degree-granting institution
- Students must have graduated from a programmatically (ACEN, NLNAC, CCNE) accredited institution within one year prior to receiving programmatic accreditation. Students who have graduated from a non-programmatically accredited institution and meet all other admission requirements will be evaluated on a case by case basis. Admission is not guaranteed.
- RN License; and Advanced Practice Registered Nurse (APRN) license and national board certification, as appropriate
- Completed application
- Resume
- Minimum one year of clinical experience
- Unofficial transcript from degree-granting institution*
*Official transcripts from all schools attended due prior to start of second course

**Conditional Acceptance (academic)** *(NP students are not admitted under conditional acceptance)*
- Master of Science in Nursing or Doctoral degree in Nursing
- GPA of 2.50-2.99 from master’s-degree-granting institution which is programmatically (ACEN, NLNAC, CCNE) accredited. Students who have graduated from a non-programmatically accredited institution and meet all other admission requirements will be evaluated on a case by case basis. Admission is not guaranteed.
- RN License; and Advanced Practice Registered Nurse (APRN) license and national board certification, as appropriate
- Completed application
- Resume
- Minimum one year of clinical experience
- Official transcript from degree granting institution
- Letter of Intent addressing reason for pursuing post-graduate certificate, reason for GPA less than 3.0 in graduate studies,
- Two letters of recommendation (letters of recommendation must be from supervisors and/or those who can attest to candidate’s ability to be successful in graduate nursing education)

** Admitted students must achieve a cumulative 3.0 GPA in first two courses to move forward in program of study

Student outcomes for each of the following concentrations can be found in the Master of Science in Nursing section of this handbook.

Students in the Post Graduate/APRN Certificate programs have an option to complete (1) billable credit of national certification preparation in NSG 590: Scholarly Review.

**Adult –Gerontology Primary Care Nurse Practitioner (25 Credits)**

*All courses are 12 weeks in length*

Policies

ACADEMIC ADVISEMENT
Each graduate nursing student is assigned an academic advisor. Students are responsible for contacting the advisor with academic issues encountered. The advisor is responsible for timely responses to the student and for providing guidance with meeting program requirements. The student and advisor collaborate ongoing and develop a plan to meet the student’s individual learning needs. Students enrolled in the Nurse Executive, Nursing Education, Nursing Informatics and DNP programs are assigned an advisor from the Students Services team. NP students are assigned graduate nursing faculty as advisors.

ACADEMIC HONESTY STATEMENT ON ACADEMIC HONESTY, INTELLECTUAL RESPONSIBILITY AND PLAGIARISM
At Wilkes the faculty and the entire University community share a deep commitment to academic honesty and integrity. The following are considered to be serious violations and will not be tolerated:
1. **Plagiarism**: the use of another’s ideas, programs, or words without proper acknowledgment.
2. **Collusion**: improper collaboration with another in preparing assignments, computer programs, or in taking examinations.
3. **Cheating**: giving improper aid to another, or receiving such aid from another, or from some other source.
4. **Falsifying**: the fabrication, misrepresentation, or alteration of citations, experimental data, laboratory data, or data derived from other empirical methods. Instructors are expected to report violations to both the Dean of Students and the Provost.

Penalties for violations may range from failure in the particular assignment, program, or test, to failure for the course. The instructor may also refer the case for disposition to the Student Affairs Cabinet. The academic sanctions imposed are the purview of the Faculty; the Student Affairs Cabinet determines disciplinary sanctions.

The appeal of a failing grade for academic dishonesty will follow the academic grievance policy. The appeal of a disciplinary sanction will follow the disciplinary action policy. Students assume the responsibility for providing original work in their courses without plagiarizing. According to the seventh edition of the Little, Brown Handbook, plagiarism “is the presentation of someone else’s ideas or words as your own” (578).

Similarly, the seventh edition of the MLA Handbook for Writers of Research Papers states, “using another person’s ideas, information, or expressions without acknowledgement of that person’s work constitutes intellectual theft. Passing off another person’s ideas, information, or 75 expressions as your own to gain an advantage constitutes fraud” (26).
Academic writing assignments that require the use of outside sources generally are not intended
to teach students to assemble a collection of ideas and quotes, but rather to synthesize the ideas
they find elsewhere in order to construct new knowledge for themselves. This process requires a
higher level of thinking than some students may have been trained to engage in, and
inexperienced writers may be sorely tempted to copy wording they feel inadequate to improve or
even restate. Plagiarism is a serious issue that violates most people’s sense of property rights,
honest representation, and fairness.

The University considers the following as three separate forms of plagiarism:
1. **Deliberate plagiarism** centers on the issue of intent. If students deliberately claim another’s
language, ideas, or other intellectual or creative work as their own, they are engaged in a form of
intellectual theft. This is not tolerated in academic, business, and professional communities, and
confirmed instances of plagiarism usually result in serious consequences. Similarly, submitting
the work of another person or submitting a paper purchased from another person or agency is a
clear case of intentional plagiarism for which students will be subject to the severest penalties.
2. **Unintentional plagiarism** often results from misunderstanding conventional documentation,
oversight, or inattentive scholarship. Unintentional plagiarism can include forgetting to give
authors credit for their ideas, transcribing from poor notes, and even omitting relevant
punctuation marks.
3. **Self-plagiarism** occurs when students submit papers presented for another course, whether for
the English department or another department or school. Students may submit papers for more
than one course only if all instructors involved grant permission for such simultaneous or
recycled submissions.

Penalties for plagiarism may range from failure for the particular assignment to failure for the
course. In accordance with the academic grievance procedures of Wilkes University, cases of
plagiarism will be addressed first by the instructor. Any appeal by the student should be directed
to the department chairperson. Students can avoid plagiarizing by carefully organizing and
documenting materials gathered during the research process. Notes attached to these materials,
whether in the form of informal notes, photocopied articles, or printouts of electronic sources,
should carefully identify the origin of the information. Such attention to detail at every stage of
the process will ensure an accurate bibliography that documents all the outside sources consulted
and used.

Students should follow these general principles when incorporating the ideas and words of others
into their writing:
1. The exact language of another person (whether a single distinctive word, phrase, sentence, or
paragraph) must be identified as a direct quotation and must be provided with a specific
acknowledgment of the source of the quoted matter.
2. Paraphrases and summaries of the language and ideas of another person must be clearly
restated in the author’s own words, not those of the original source, and must be provided with a
specific acknowledgment of the source of the paraphrased or summarized matter.
3. All visual media, including graphs, tables, illustrations, raw data, audio and digital material, are covered by the notion of intellectual property and, like print sources, must be provided with a specific acknowledgment of the source.

4. Sources must be acknowledged using the systematic documentation method required by the instructor for specific assignments and courses.

5. As a general rule, when in doubt, provide acknowledgment for all borrowed material.

Different disciplines use different documentation methods; therefore, students should consult instructors about the correct use of the appropriate documentation style. Style manuals detailing correct forms for acknowledging sources are available in the Farley Library, at the Writing Center, and at the college bookstore. Additional resources and guidance in the correct use of sources can be obtained at the Writing Center and from individual instructors.

Graduate nursing students are expected to follow the most current APA guidelines. The required manuals are listed in the syllabus under Required Textbook(s)/Course References. Students not adhering to the APA guidelines, as outlined, are at risk for violating academic integrity. The Writing Resource Center (See Student Services below) provides resources for graduate nursing students to support academic honesty. TurnItIn is used, as appropriate, in all virtual classroom settings for graduate nursing courses.

The Graduate Program in the Passan School of Nursing reserves the right to dismiss a student from the program if deemed appropriate.

ACADEMIC STANDING AND DISMISSAL
Individual programs/departments may have more stringent academic progression requirements than those prescribed by the general policies.

In order for a student to maintain good academic standing in graduate programs, the student must maintain a GPA of 3.0 or higher at and after the point of completing 10 credits in his/her respective program. The 10 credit probationary allowance provides a student the opportunity to demonstrate his/her academic ability. After completing 10 credits, a graduate student whose GPA drops below a 3.0 will be dismissed from his/her respective program. Students who are dismissed may retake a course or courses, with the next course offerings, as a non-degree student, which provides for the opportunity to replace one or more of their deficient grades. If the student is successful in moving his/her GPA above the 3.0 level, he/she may re-apply for acceptance into his/her program.

Only courses with grades below a 3.0 may be taken for grade replacement. If a student elects to take a course for grade replacement, the higher grade earned will be counted in the calculation of the GPA. Courses may be repeated for grade replacement only one time. For example, if a student earns a 2.0 and replaces the grade and earns a 2.5, the higher grade (2.5) would be used in the GPA calculation. Note: Students must also meet all degree requirements in addition to maintaining an acceptable GPA.
Students on conditional (academic) acceptance must achieve a cumulative 3.0 GPA in the first two courses taken to move forward in the program of study. Grade replacement is not granted to students who are admitted as conditional (academic) and fall below the expected 3.0 cumulative GPA. Students are dismissed from the university.

**Program-specific academic progression requirements exist for students enrolled in nurse practitioner (NP) programs.**
In addition to maintaining an overall 3.0 GPA after the probationary period, students in NP concentrations must achieve a minimum of a 3.0 course grade in each of the following NP specialty courses:

- **Adult-Gerontology Primary Care:** NSG 550, 506, 515, 554, and 555
- **Psychiatric/ Mental Health:** NSG 550, 552, 526, 527, 535, and 536

Students are only allowed one NP specialty course grade below a 3.0. Students who receive 2 grades below a 3.0 in an NP specialty course will be dismissed from the program and not permitted to reapply. No grade replacement is allowed for NP specialty courses.

Students with poor NP clinical performance, supported by clinical evaluations of faculty and preceptors, are dismissed from the program and unable to reapply.

Students who withdrawal from a theory course, while concurrently taking a clinical course, must withdrawal from the clinical course at that time, also. Completed clinical hours taken in the clinical course from which a student withdraws will not apply to the total required clinical hours for graduation from the NP program.

**ADMISSION**
It should be noted that individual graduate programs retain the right to impose more rigorous conditions on students who have been admitted. Such conditions, if imposed, will be detailed in the letter of admission sent to the student.

**Regular admission** is granted to students who have completed all requirements of the application process and who have demonstrated an acceptable level of academic work in their undergraduate degree program, including meeting program-specific, minimum GPA requirements and demonstrating preparedness for work at the graduate level in their field of specialization.

**Provisional admission** is granted to students who have not satisfied general or academic admissions requirements including missing documentation or insufficient prerequisite coursework for regular admission. Some graduate programs may allow a provisionally admitted student to begin graduate work before or simultaneously with completion of admissions deficiencies. Individual programs will determine the maximum number of graduate credits a provisional student may complete. Upon completion of the designated, maximum number of graduate credits, a provisionally admitted student will either be granted regular admission or denied admission into a graduate program. Under extraordinary circumstances a student may
petition the Chair of the Department, as applicable, for an extension to the number of allowable credits.

**Conditional** admission is granted to students who have demonstrated inadequate scores or academic performance, including failure to meet minimum GPA requirement. To change to regular admission status, the conditionally admitted student must achieve a cumulative 3.0 GPA in first two courses to move forward in a program of study. Conditional admission is not granted to nurse practitioner students.

**Rejection** will be used in cases when a student fails to meet the general or academic admissions requirements of the individual program of study.

**Cancellation.** Applicants who have not fully completed the admissions process, and who have not yet started taking academic classes, will have one year to complete their application file. Should the process not be completed within that timeframe, the application will be cancelled one year after the date of application.

Additionally, students who have completed the admissions process and received a decision, but have not yet started taking academic courses, will have their applications cancelled one year after the date of acceptance. Nurse practitioner students who have not started taking academic courses after receiving a decision will have their applications cancelled after the start of the first semester they were enrolled to begin courses.

**Non-Degree Students**
Individuals who are interested in completing credits for transfer to another university or for personal enrichment only need to complete a non-degree application and send a copy of their undergraduate or graduate transcript. The non-degree application will be cancelled after the maximum number of credits is reached. The graduate nursing program allows students a maximum of 6 credits taken as a non-degree student for transfer. Non degree student status does not guarantee acceptance into a graduate nursing program. A formal review process for acceptance is conducted.

**ANTI-HARASSMENT (INCLUDING SEXUAL HARASSMENT)**

**CAREER OPPORTUNITIES**
Career opportunities are provided to graduate nursing students on a continuous basis. The following information can guide a career search
[http://www.liquidcompass.com/institutions/wilkes](http://www.liquidcompass.com/institutions/wilkes)

**CLASSROOM BEHAVIOR**
The primary responsibility for managing the distance education classroom environment rests with the course faculty. Students who engage in any prohibited or unlawful acts that result in disruption of a class may be directed by the faculty member to leave the class and will possibly
face suspensions or dismissal on disciplinary grounds from the course and/or program. Faculty will report incidents to the appropriate individual in the graduate nursing program.

**CLINICAL CLEARANCE REQUIREMENTS**

Students are responsible for arranging clinical experiences, selecting preceptors or mentors, submitting in a timely manner all appropriate paperwork, and completing the required clinical clearance process. Students may not choose family members for preceptors or mentors. Graduate nursing faculty follow the PSON policy for violations found on background checks. Each finding is evaluated on an individual basis. However, healthcare organizations can deny students access to clinical rotations based upon violations noted in background clearances, in spite of PSON policy. Specific student, preceptor or mentor, and faculty criteria exist for each concentration.

**Clinical Requirements for Nurse Practitioner Students (MSN, RN to MSN, and Post Graduate/ APRN Certificate programs)**

Students in the Adult-Gerontology Primary Care and Psychiatric/Mental Health nurse practitioner concentrations are required to secure a clinical preceptor for all clinical courses.

**Student Requirements:**

- Students will receive an email from their concentration specific graduate clinical coordinator the semester prior to clinical course starts. Upon receipt of this email they should complete and submit the Clinical Agency and Preceptor/Mentor Form available at [http://www.wilkes.edu/academics/graduate-programs/masters-programs/nursing/graduate-nursing-forms.aspx](http://www.wilkes.edu/academics/graduate-programs/masters-programs/nursing/graduate-nursing-forms.aspx) along with supporting documents as required to the specialty specific, graduate clinical concentration coordinator. **Forms must be submitted by April 1st for fall semester and September 1st for spring semester** to assure completion of clinical contracts. A student will not be enrolled in a clinical course if the clinical contract is not on file with the University by Sunday 11:59 PM ET prior to the start of the Monday clinical course.

- Initiate a profile in CastleBranch, 4 months prior to the start of the clinical experience, which includes a comprehensive list of requirements for clinical clearance (some clearances can take up to 4 months to receive). Students not meeting all clinical requirements by Sunday, 11:59 PM EST prior to the start of the Monday clinical course, cannot begin clinical. Students will not be enrolled in clinical courses until all clinical clearance requirements are satisfied. Students not enrolled by the second week of the semester start will need to wait for the next course offering to register. Students will be disenrolled from the course if their information expires during the semester, after the student begins clinical, and the student does not update the information. The site for CastleBranch can be located at [https://portal.castlebranch.com/WK23](https://portal.castlebranch.com/WK23)
• Meet additional agency requirements related to the practicum experience that exceed those required by the Passan School of Nursing (OSHA, HIPAA, training).
• Attend a clinical Residency for direct supervision and evaluation by nurse practitioner faculty or be prepared for an onsite visit by nurse practitioner clinical faculty for evaluation of NP competencies. Each course syllabus dictates the terms of the specific course Residency and clinical expectations.

Preceptor requirements:
• Hold a graduate degree
• Educated in a clinical area which he/she is teaching or providing supervision or be extensively clinically experienced in those areas.
• Licensed in his/her State and nationally board certified (advanced practice nurses) or board eligible (as appropriate, physicians) to practice in his/her population-focused area or specialty area of practice.
• Provide a copy of current State licensure and/or verification statement, national board certification (advanced practice nurses), board eligible (as appropriate, physicians), and curriculum vita.

Graduate nursing clinical faculty requirements:
• Grant/discuss approval of clinical preceptors by the Graduate Clinical Concentration Coordinator, after completion of a comprehensive vetting process.
• Availability to clinical preceptors, as needed.
• Provide oversight of clinical preceptors during each clinical course.
• Communicate with preceptors a minimum of one time per semester; this can be done face to face or via telecommunication.

**Practicum Requirements for Nurse Executive, Nursing Education, and Nursing Informatics Students (MSN, RN-MSN, and post graduate certificate programs)**

Students in the Nurse Executive, Nursing Education, and Nursing Informatics concentrations need to secure a clinical preceptor for all practicum courses.

Student requirements:
• Students will receive an email from their student services advisor approximately 4 months prior to the start of their first practicum course.
• Upon receipt of this email, students are required to initiate a profile in Castle Branch at https://portal.castlebranch.com/WK23 which includes a comprehensive list of requirements for practicum clearance (some clearances can take up to 4 months to receive).
• Additionally, within **TWO WEEKS** of receipt of this email, students are required to submit the following documentation:
a. Signed Clinical Agency and Preceptor/Mentor Form (form may be downloaded at http://www.wilkes.edu/academics/graduate-programs/masters-programs/nursing/graduate-nursing-forms.aspx

b. Copy of Preceptor’s Curriculum Vitae

c. Copy of Preceptor’s RN license (if preceptor is an APRN, submit a copy of this license and national board certification as well)

• A student will not be enrolled in a practicum course if the clinical contract is not on file with the University course and requirements for Castle Branch are not met by Sunday 11:59 PM ET prior to the start of the Monday clinical. Students will be disenrolled from the course if Castle Branch information expires during the semester, after the student begins practicum, and the student does not update the information.

• Meet additional agency requirements related to the practicum experience that exceed those required by the School of Nursing (OSHA, HIPAA, training).

Preceptor requirements:

• Hold a graduate nursing degree
• Educated in the area which he/she is teaching or providing supervision or be extensively clinically experienced in those areas.
• Licensed in his/her State and hold appropriate credentials.
• Provide a copy of current State licensure and/or verification statement and curriculum vita.

Graduate nursing clinical faculty requirements:

• Availability to preceptors, as needed.
• Provide oversight of clinical preceptors during each practicum course.
• Communicate with preceptors via telecommunication, a minimum of one time per semester.

Clinical Requirements for RN to MSN (NSG 347)

Students in NSG 347 need to secure a preceptor for this clinical course.

Nurse Executive, Nursing Education, and Nursing Informatics Students

Student requirements:

• Prior to starting NSG 290, students are required to submit:
  a. Signed Clinical Agency and Preceptor/Mentor Form (students will receive the form from their enrollment specialist via docusign).
  b. Copy of Preceptor’s Curriculum Vitae or resume
  c. Copy of Preceptor’s RN license (if preceptor is an APRN, submit a copy of this license and national board certification as well)

• In week 2 of NSG 290, students will receive an email from their student services advisor.

• Upon receipt of this email, students are required to initiate a profile in Castle Branch at https://portal.castlebranch.com/WK23
which includes a comprehensive list of requirements for clinical clearance (some clearances can take a minimum of 3 months to receive).

- A student will not be enrolled in the clinical course if the clinical contract is not on file with the University course and requirements for Castle Branch are not met by Sunday 11:59 PM ET one week prior to the start of the Monday clinical. Students will be disenrolled from the course if Castle Branch information expires during the semester, after the student begins clinical, and the student does not update the information.
- Meet additional agency requirements related to the practicum experience that exceed those required by the School of Nursing (OSHA, HIPAA, training).

Preceptor requirements:
- Hold a minimum of a bachelor degree in nursing.
- Educated in the area which he/she is teaching or providing supervision or be extensively experienced in those areas.
- Licensed in his/her State as an RN and hold appropriate credentials.
- Provide a copy of current State licensure and/or verification statement and curriculum vita.

Graduate nursing clinical faculty requirements:
- Availability to preceptors, as needed.
- Provide oversight of clinical preceptors during each practicum course.
- Communicate with preceptors via telecommunication, a minimum of one time per semester.

**Nurse Practitioner Students**
- Students will receive an email and course communication during the first week of NSG 290 course. Upon receipt of this email they should complete and submit the Clinical Agency and Preceptor/Mentor Form available at [http://www.wilkes.edu/academics/graduate-programs/masters-programs/nursing/graduate-nursing-forms.aspx](http://www.wilkes.edu/academics/graduate-programs/masters-programs/nursing/graduate-nursing-forms.aspx) along with supporting documents as required to the NSG 290 faculty member to assure completion of clinical contracts. A student will not be enrolled in a clinical course if the clinical contract is not on file with the University by Sunday 11:59 PM ET prior to the start of the Monday clinical course.
- Initiate a profile in CastleBranch, 4 months prior to the start of the clinical experience, which includes a comprehensive list of requirements for clinical clearance (some clearances can take up to 4 months to receive). Students not meeting all clinical requirements by Sunday, 11:59 PM EST prior to the start of the Monday clinical course, cannot begin clinical. Students will not be enrolled in clinical courses until all clinical clearance requirements are satisfied. Students not enrolled by the second week of the semester start will need to wait for the next course offering to
register. Students will be disenrolled from the course if their information expires during the semester, after the student begins clinical, and the student does not update the information.
The site for CastleBranch can be located at [https://portal.castlebranch.com/WK23](https://portal.castlebranch.com/WK23)

- Meet additional agency requirements related to the practicum experience that exceed those required by the PSON (OSHA, HIPAA, training).

Preceptor requirements:
- Hold a minimum of a bachelor degree in nursing.
- Educated in the area which he/she is teaching or providing supervision or be extensively experienced in those areas.
- Licensed in his/ her State as an RN and hold appropriate credentials.
- Provide a copy of current State licensure and/or verification statement and curriculum vita.

Graduate nursing clinical faculty requirements:
- Availability to preceptors, as needed.
- Provide oversight of clinical preceptors during each practicum course.
- Communicate with preceptors via telecommunication, a minimum of one time per semester.

**Clinical Requirements for DNP Students**

Students in the DNP program need to secure a clinical mentor prior to entering NSG 608a: Scholarly Project. The DNP program requires completion of a total of 1000 hours of practice experience beyond the bachelor's level of nursing education. The hours will be conducted in the scholarly project courses. Students who have completed practicum hours to satisfy past curriculum requirements may be credited with hours from their master's program and/or post master’s graduate/ APRN certificate in nursing. Validation of those hours is required by a letter from the degree granting academic institution verifying the number of practicum hours which is part of the enrollment process.

Students in the BS-DNP program complete clinical hours according to the concentration chosen. These clinical hours can be applied towards the 1000 clinical hours required for completion of the DNP degree.

Student requirements:

- Students will receive an email from their student services advisor approximately 4 months prior to the start of NSG 608a. Upon receipt of this email, students are required to initiate a profile in Castle Branch at [https://portal.castlebranch.com/WK23](https://portal.castlebranch.com/WK23), which includes a comprehensive list of requirements on health clearance.
- Additionally, within **TWO WEEKS** of receipt of this email, students are required to submit the following documentation:
Clinical Agency and Preceptor/Mentor Form at http://www.wilkes.edu/academics/graduate-programs/masters-programs/nursing/graduate-nursing-forms.aspx

b. Copy of Mentor’s Curriculum Vitae

c. Provide a copy of mentor’s current State licensure and/or verification statement, national board certification (advanced practice nurses), board eligible (as appropriate, physicians)

d. Students are assigned a Scholarly Project Chair. Once the project is approved by the Chair the student will complete the Graduate Nursing Clinical Initiation Form at http://www.wilkes.edu/academics/graduate-programs/masters-programs/nursing/graduate-nursing-forms.aspx and return to their Chair for signature. The Scholarly Project Chair will submit the form to the appropriate PSON designee.

Clinical mentor requirements:

- Hold graduate degree in area of expertise.
- Licensed in his/her State and be nationally board certified (advanced practice nurses) or board eligible (physicians) to practice in his/her population-focused area or specialty area of practice.
- Provide a copy of current State licensure and/or verification statement, national board certification (advanced practice nurses), board eligible (as appropriate, physicians), and curriculum vita.
- Provide clinical expertise to the student during the scholarly project

Scholarly Project Chairperson requirements:

- Discuss and approve the student project during the period of clinical clearance.
- Submit the completed Graduate Nursing Clinical Initiation Form to the appropriate designee.
- Be available to clinical mentors, as needed.

**CLINICAL DRESS CODE AND ID BADGES**

Students are required to wear appropriate professional business attire, including a white lab coat (not required for PMHNP clinical) and name tag for all clinical. Professional attire includes dress pants or skirt and conservative top (no shorts, jeans, open-toed shoes, or low cut shirts). The lab coat must be clean and pressed. The student university ID badge is to be worn at all times in the clinical setting. Non-compliance with the dress code policy will result in clinical failure.

ID badges are either sent to students at the time of enrollment or can be obtained by the following process http://www.wilkes.edu/academics/graduate-programs/masters-programs/nursing/graduate-nursing-forms.aspx
CONDUCT OF STUDENTS IN CLINICAL/PRACTICUM SETTINGS

Students are required to:

- Wear a clean, pressed, white lab coat (not required for PMHNP clinical) over professional business attire in clinical settings, as per the Clinical Dress Code policy in this handbook, when representing Wilkes University.
- Wear a Wilkes University ID badge in clinical settings, when representing Wilkes University.
- Practice personal hygiene and grooming of a standard that ensures the safety and comfort of clients; this includes minimal jewelry and makeup; no perfumes or scented lotion; hair neatly secured away from face; and neat short fingernails.
- Arrive in clinical areas with all the required equipment (e.g., stethoscope, watch, mobile devices for reference etc.) necessary for providing patient care.
- Arrive in clinical areas on the negotiated dates and times.
- Limit cell phone and mobile devices to professional use only for accessing evidence based practice applications. Texting and answering personal calls is unacceptable during the negotiated clinical hours.
- Adhere to all HIPPA guidelines of patient confidentiality, including discussion of patient encounters on social media networks. Students violating patient confidentiality on social networks are at risk for immediate dismissal from the graduate nursing program.

Faculty members have the right to remove a student from a clinical area if, in the faculty member’s judgment, the student presents an unprofessional appearance or in any way is a threat to patient safety or comfort.

COURSE ATTENDANCE CLINICAL AND DIDACTIC

Students are expected to participate in online classes from the first day of each course, which includes students in clinical courses starting clinical hours at approved clinical sites. A student unable to meet course requirements for a distance education course is expected to notify the instructor and/or Student Services as soon as the student is aware of the potential conflict. Faculty are not obligated to give credit or make concessions for student missed time if he/she is on vacation without access to internet services. The student’s grade will reflect incomplete work for the week. Students may ultimately be disenrolled in a didactic or clinical course for non-participation as per the terms of the course. Failure of students to post the required responses to the two discussion questions in week one prior to 11:59 pm EST of the first Sunday demonstrate lack of participation, which may result in being administratively dropped from the course or the university.” An administrative withdrawal will not result in any notation on a student’s transcript, and the student will not incur fees for the course.

Students in clinical/practicum courses are required to complete clinical practice hours and assignments as per the syllabus. Clinical hours should be completed weekly and at a minimum of 50% by the mid semester point. Application of classroom didactic theory in the clinical setting is the expectation with learning. Failure to meet the time frames of the course will result in failing grades for the appropriate assignments. For example, mid
semester assignments/evaluations for clinical courses are to be completed at the mid-
semester point which is between 6-8 weeks of the 12 week semester; incomplete clinical-
hours by week 12 will lead to students receiving a failing grade on the clinical log.
Failure of these assignments/evaluations and/or clinical log will result in a course failure
and immediate termination from the program. The completion terms for these clinical
hours are as outlined.

COURSE TECHNOLOGY INTEGRATION
Students are responsible for the compatibility of the hardware of their computer systems
with Wilkes University technology requirements. Please see the following link for
further information:
http://wilkes.edu/academics/graduate-programs/grad-campus-life/technology-
resources.aspx

DEGREE AND GRADUATION COMPLETION REQUIREMENTS
Students may be awarded the master's or doctoral degree upon satisfactory completion of
all graduate degree requirements and the following specific requirements:
1. A completed file;
2. Full admission into a graduate program;
3. Satisfactory completion of all requirements for the degree to be from the date of
matriculation; BS-DNP students have 8 years and MS-DNP and master’s students have 6
years to complete program requirements; and
4. A minimum GPA of 3.0 for all graduate work

The expectation is that students will maintain continuous enrollment in the graduate
nursing program. Students enrolled in 12 week courses must register for fall, spring, and
summer semesters until all degree requirements are complete. Students enrolled in 8
week courses will be auto registered.

MS-DNP students are required to complete the thirty (30) credit DNP core. The total
number of credits to complete the Master of Science in Nursing program varies
depending on the chosen program concentration. This handbook contains the individual
program descriptions for the specific course credit requirements for each graduate
nursing concentration.

It is the responsibility of the graduate student to sign up for a graduation audit no later
than ninety days prior to the date of the Commencement Exercise at which the student
expects to be graduated. This is done by registering for GRD-000-B (0 credits/ see
graduation fee) during the beginning of the final term before graduation. Students should
consult with their advisor if they have any questions regarding the process. Transfer
credits (approval forms and official transcripts) must be received before each semester's
graduation clearance deadline. Students changing their status from non-degree seeking to
degree-seeking must do so at least a year prior to graduation.

Graduating students may participate in one of the three commencement exercises held
over the calendar year which will be based upon the date of program completion. These exercises occur in January, May, and September of each year. Diplomas given during September ceremonies will always be dated as the fourth Saturday in August.

**EXPECTATIONS FOR DISTANCE EDUCATION**

Distance education is designed as an interactive and collaborative learning environment that requires students to actively and effectively participate in class discussions with respect and understanding for various points of view. Students are expected to participate in distance education classes from the first day of each course. A student unable to meet course requirements for a specific distance education course is expected to notify the instructor as soon as the student is aware of the potential conflict. The student’s grade will reflect incomplete work for the week if communication was not initiated with the faculty member. It is the discretion of the faculty member in each course to determine what concessions would be provided to the students for each unit. Students are expected to:

- Follow the Professionalism and Student Conduct policies as outlined in this handbook.
- Utilize the Wilkes University email system ([wilkes.edu](http://wilkes.edu)) as the primary means of communication for university issues between the student, faculty, staff and university and the live email in D2L as the primary source for course related communication between the student and faculty ([live.wilkes.edu](http://live.wilkes.edu)). To ensure a quality classroom experience students are expected to check their emails every 24-48 hours and respond to faculty within 72 hours of the initial email. One reminder email will be sent to the student. If the student remains unresponsive, the Chair, of the graduate nursing program will be notified due to a violation of the Student Conduct policy outlined in the this handbook.
- Maintain high ethical standards in the preparation and submission of assignments—see [http://www.wilkes.edu/bulletin/current/undergraduate/introduction/academic-reg/academic-honesty.aspx](http://www.wilkes.edu/bulletin/current/undergraduate/introduction/academic-reg/academic-honesty.aspx)
- Practices good Netiquette ([http://www.albion.com/netiquette/corerules.html](http://www.albion.com/netiquette/corerules.html)) throughout each course by demonstrating respect for the personal and professional growth of oneself and others through verbal and written interactions with peers, faculty, and university staff.
- Demonstrate respect for faculty, peers, and staff regardless of gender, ethnicity, sexual orientation, religious, moral, or political beliefs.
- Assure that computer hardware is setup and required software is installed.
- Complete the Wilkes University orientation program for online students.
- Notify their advisor and course instructor of any disabilities, or specialized learning needs as soon as identified.
- Assume a self-motivated, independent, and engaged learning role.
- Actively participate in all online activities, open and read all course content.
- Meet course deadlines and place assignments etc. in Dropbox provided.
- Access the online syllabus and refer to it throughout the course.
- Respect copyrighted course materials and use them within accepted
• Maintain confidentiality regarding information communicated related to patients, employers, and other students.
• Obtain course work missed due to interruption in internet service or technology failure. Extension of assignment deadlines will be considered at the discretion of faculty.

Any action, verbal statement, or written statement that threatens or violates the personal safety of any faculty, staff, or student, or any conduct which interferes with the online educational process will be referred to the Chair, Graduate Nursing Program.

Faculty is expected to:
• Be prepared with all online course materials prior to the first day of class.
• Log into the online classroom a minimum of three times per week.
• Be engaged in the online discussion forum providing substantive discussion post feedback for students weekly.
• Provide timely grades and constructive feedback for all assignments including discussions, within 5 days for 8 week courses and 2 weeks for 12 week courses, via the learning management system classroom (Dropbox).
• Respond to student emails within 24-48 hours.

FEES
Additional fees exist for software products employed in graduate nursing programs, which promote student achievement of course outcomes in the distance education environment.

**GOVERNANCE**

The organizational structure of the Passan School of Nursing includes an undergraduate and graduate program. Committees in the Graduate Nursing Program include Graduate Nursing, Graduate Curriculum and Graduate Student Affairs. Student representation is granted for committees. Representation is based upon interest and availability. Students are provided other opportunities during each academic year to participate in program feedback for governance purposes.

**GRADING POLICY**

**Structure**

The following grading structure is applied to grading for graduate nursing work within the Passan School of Nursing:

- 4.0/94-100 = A Academic achievement of superior quality
- 3.5/87-93 = B+ Academic achievement of good quality
- 3.0/83-86 = B Academic achievement of acceptable quality in meeting graduation requirements
- 2.5/78-82 = C+ Academic achievement of adequate quality but below the average required for graduation
- 2.0/73-77 = C Academic achievement below the average required for graduation
- 0.0/72 below = F Failure. No graduate course credit.

A grade of "X" indicates assigned work yet to be completed in a given course. Except in scholarly project, grades of "X" will be given only in exceptional circumstances. Grades of "X" must be removed through satisfactory completion of all course work no later than four weeks for 12 week courses and 2 weeks for 8 week courses, after the end of the final examination period of the semester in which the "X" grade was recorded. Failure to complete required work within this time period will result in the conversion of the grade to 0. An extension of the time allowed for the completion of work should be endorsed by the instructor in the form of a written statement and submitted to the Registrar.

**Appeal of Grade Policy**

Students in 8 week courses initiate this process through their Student Services advisor who will contact the Chair of graduate nursing. Students in 12 week courses will contact the Chair of graduate nursing. The appeal must be made by the end of the fourth week.
following the end of the course being appealed. Further information can be obtained at 
http://www.wilkes.edu/bulletin/current/graduate/introduction/academic-
information/appeal-of-grade-policy.aspx

GRIEVANCE POLICY/ INTERNAL COMPLAINT PROCEDURE
This policy is to be implemented only when dealing with circumstances not covered by 
existing academic or student conduct procedures. Students in 8 week courses initiate this 
process through their Student Services advisor who will contact the Chair of graduate 
nursing. Students in 12 week courses will contact the Chair of graduate nursing. The 
policy can be located at 
http://www.wilkes.edu/bulletin/current/graduate/introduction/academic-
information/student-conduct.pdf

HIPPA
Students are expected to adhere to the HIPPA guidelines of their clinical healthcare 
organization /setting for protecting the confidentiality and security of healthcare patient 
information. Students requiring further information on this topic can contact their 
clinical faculty or access http://www.hhs.gov/ocr/privacy/

LEAVE OF ABSENCE
Students who are unable to continue graduate degree studies, due to medical or personal 
reasons, are eligible for a graduate nursing program-approved leave of absence. Student 
advisors should be notified by students when requesting a leave of absence. Students 
will be directed to complete a Leave of Absence form and return it to their advisor. The 
expectation is that a student will notify their advisor prior to the anticipated leave. 
Students in 8 week courses may request up to a maximum of 8 LOA periods during the 
course of their program of study. Students in 12 week courses may request up to a 
maximum of 4 LOA semesters during their program of study.

There will be no guarantees for course sequencing provided at the time of the leave 
request. Students maintaining continuous enrollment are given priority for course 
selection. Students who exceed the two year leave of absence limit or the limit on 
degree completion (see Degree and Graduation Completion Requirements) will receive 
written notification of withdrawal from the University.

NATIONAL CERTIFICATION EXAMINATIONS
Certification is offered through several professional organizations for nurses who have 
met requirements for clinical or functional practice in a specialized field. Further 
information on specific certification is available to students in clinical/practicum courses 
of each graduate nursing program concentration and during the scholarly review course.

PROCTOR NOW
Students enrolled in courses with examinations are required by policy to complete these by 
taking proctored exams online from anywhere using a webcam and a high speed internet 
connection. Further information is available in the classroom. Course faculty will provide further 
direction on these requirements, as appropriate.
PROFESSIONALISM
Graduate nursing students are expected to adhere to the American Nurses Association Code of Ethics for Nurses (2001) (http://www.nursingworld.org/codeofethics). Students found to have violated any provision of the Code of Ethics will be subject to academic disciplinary action. In the event that a violation constitutes a breach of the Student Code of Conduct (as outlined in the graduate nursing handbook), sanctions may (depending on the circumstances) result in a failing grade on an assignment or course, or dismissal from the graduate nursing program. Final decisions on disciplinary action shall be made by the Dean of the Passan School of Nursing. Students shall have a right of appeal to the University Provost, whose decision shall be final and not subject to further appeal.

PROGRAM CHANGE
Students requesting to change programs need to contact their advisor for further discussion regarding this issue.

RESIDENCY REQUIREMENTS
An on-site residency is required for nurse practitioner students only, who are enrolled in NSG500, Advanced Health Assessment, in order to demonstrate advanced physical assessment skills. In addition, nurse practitioner students in the following clinical courses may be required to complete an on-site residency based upon the location of the clinical practice site. During residency, direct supervision and evaluation of the student will be completed by nurse practitioner clinical faculty at his/her designated clinical practice sites. Each course syllabus dictates the terms of the specific course residency.

NSG 506 – Advanced Practice in Adult-Gerontology Clinical I
NSG 515 – Advanced Practice in Adult-Gerontology Clinical II
NSG 535 – Advanced Practice in Psychiatric/ Mental Health Nursing I
NSG 536 – Advanced Practice in Psychiatric/ Mental Health Nursing II

SCHOLARLY PROJECT AND REVIEW
MS-DNP
Students in the graduate program are required to complete a scholarly project that demonstrates mastery of theoretical content through analysis and synthesis. Students should have a topic prior to entering the program and will research the topic throughout their DNP coursework. DNP scholarly project oversight is provided by an assigned Scholarly Project Chairperson.

One other committee members is chosen by the student to serve as a reader and can include graduate faculty members or community members, who are serving as scholarly project mentors. The DNP program scholarly project validates that candidates have achieved competency in The Essentials of Doctoral Education for Advanced Nursing Practice (AACN, 2006) through the application of research and clinical implementation. The Scholarly Project is 6 credits and completion is over the last 2 courses of the DNP program.
Scholarly project clearance requirements are as per the policy in this handbook.

The scholarly project in the DNP program is a pilot study directed at making a practice or policy change. All students are expected to model their project in this fashion. The DNP project 1) is clinically focused, 2) has NO control group, and 3) uses outcome data to support quality improvement for a practice or policy change. Students may be required by graduate faculty to seek an editor, if their strength is not in writing.

Students must complete 1000 clinical hours for the DNP degree. Included in these hours are the clinically supervised hours conducted in attaining the master’s degree. The remaining hours will be conducted by the student, in collaboration with the Scholarly Project Chairperson and the clinical mentor, while completing the DNP scholarly project. Scholarly Project Chairpersons will validate the official hours required by students for completion of the 1000 hours on the Clinical Log for the DNP Program. Students are expected to complete the required Clinical Log for the DNP program documenting all hours and details of their experience. These clinical hours can include activities related to implementing the scholarly project, conferences, seminars, interviews, data collection that is associated with the scholarly project and activities which enhance the student’s level of knowledge on their scholarly project topic. Hours are not granted for activities related to course assignments such as writing the scholarly project paper, conducting the review of literature, and writing the IRB. Students are encouraged to discuss with their Scholarly Chairperson any activities in question.

Students will enter the program with various levels of completed clinical hours in masters’ degree programs. See the MS-DNP Core section of this handbook for further information on elective practicum courses for obtaining these hours outside the scholarly project courses.

The final project is presented to the scholarly project committee via webinar or onsite at the university. The expectation is that students will complete the project over the last 2 courses of the DNP program. Students who are unable to complete their scholarly project over the allocated timeframe of 2 courses may be eligible to register for 1 billable credit hour in an additional term, one time only, to meet the requirements of the project. This additional credit hour is upon approval of the Scholarly Project Chairperson.

**BS-DNP**

Students seeking a BS to DNP will stop out and receive a pass through master’s degree allowing them to sit for the appropriate national certification exam and begin clinical practice. Students will then resume enrollment into the DNP curriculum. This allows students to gain clinical expertise in advancing nursing practice role, while simultaneously completing requirements for DNP courses, including the scholarly project in NSG 608.
Scholarly Review-Master of Science in Nursing
The master’s program scholarly review validates that candidates have achieved competency in *The Essentials of Master’s Education in Nursing* (AACN, 2011). The scholarly review is 3 credits and completion is the last semester/term of the program. Students will synthesize and review issues relevant to their chosen specialty for clinical practice. An overview of the graduate core courses and specialty focused review prepares students for national certification and transition into advanced nursing practice.

SOCIAL NETWORKING
Student are responsible for reviewing *A Nurse’s Guide to the use of Social Media* and a *Nurse’s Guide to Professional Boundaries* by the National Council of State Boards of Nursing (NCSBN) at [www.ncsbn.org](http://www.ncsbn.org). The social media policy enforced at the university can be found at [http://www.wilkes.edu/about-wilkes/offices-and-administration/marketing-communications/web-services/social-media-policy.aspx](http://www.wilkes.edu/about-wilkes/offices-and-administration/marketing-communications/web-services/social-media-policy.aspx)

STATE AUTHORIZATION AND REGISTRATION REQUIREMENTS
Authorization requirements for distance education vary by state. Wilkes University is currently in the process of pursuing individual state authorizations and approvals, as necessary, for its online course delivery. Wilkes is not required to have state authorization in all 50 states and may choose not to enroll students from states where we are not authorized. Any questions related to the university's approval to offer graduate education programs in a specific state should be forwarded to the graduate admissions team. Please note: Since distance education requirements vary by state, distance education students who change their residency to a state in which Wilkes University is not approved to operate may be unable to remain enrolled at Wilkes University. Further information can be located at [http://www.wilkes.edu/about-wilkes/accreditation-and-rankings/state-authorization-and-registration.aspx](http://www.wilkes.edu/about-wilkes/accreditation-and-rankings/state-authorization-and-registration.aspx) and [http://www.wilkes.edu/about-wilkes/accreditation-and-rankings/state-authorization-and-registration.aspx](http://www.wilkes.edu/about-wilkes/accreditation-and-rankings/state-authorization-and-registration.aspx)

STUDENT CONDUCT AND GRADUATE DISCIPLINARY PROCESS FLOWCHART
Graduate students are obligated to observe the regulations governing all Wilkes University students relative to:

- Academic honesty and integrity;
- Respect for the rights of others relative to their safety, welfare and educational commitments;
- The safety and security of the entire community.

Students are required to follow the Expectations for Distance Education and Professionalism policy as outlined in this *Passan School of Nursing Graduate Program Student Handbook.*

Any disciplinary cases arising from a lack of observance of these regulations will be adjudicated by the Dean of the Passan School of Nursing and the Office of Student Affairs. Appeals from the decisions of this Committee may be made in written form to
the Provost.

See the following for further information
http://www.wilkes.edu/bulletin/current/graduate/introduction/academic-
information/student-conduct.pdf

STUDENT ENROLLMENT STATUS
A graduate student's status as full- or part-time is determined by the number of graduate
credits the student carries in a semester. Nine graduate credits per semester is the
minimum number of credits a graduate student may carry to be considered a full-time
graduate student. A graduate student registered for at least six credits, but fewer than
nine credits, is considered a half-time student. A graduate student registered for fewer
than nine graduate credits in a semester is considered a part-time student.

TEXTBOOKS
Course textbook information is available at
http://wilkes.bncollege.com/webapp/wcs/stores/servlet/BNCBHomePage?storeId=11051
&catalogId=10001&langId=-1

TRANSFER CREDITS
A maximum of 6 credits of graduate credits toward a master’s degree or 12 credits
towards a doctoral degree completed at another U.S. regionally and programmatically
accredited university or college may be applied toward the requirements for the degree.
There is no exception to this policy. Students seeking to transfer courses from another
institution may be requested to produce a course syllabus and coursework so that a final
determination can be made. Academic officers who are agents of Wilkes University may
review the syllabus to determine if the course contains graduate level learning
objectives, a sufficient number of contact hours (40-45 for a three-credit course), and an
appropriate content outline containing assessments and assignments that clearly
delineate student performance.

Wilkes University does not transfer credits for 1) courses titled as workshops; 2) other
courses that are determined not to meet academically rigorous standards; 3) courses that
do not align with the goals and objectives of existing Wilkes University courses; or 4)
courses taken as Pass-Fail, unless the "Pass" can be substantiated by the former
institution as being equivalent to a grade of B (3.0) or better.
A transfer credit form must be submitted and an official transcript provided in order for
credits to be transferred. Approval for any transferred credits toward a degree program
must be granted by the Chair, Graduate Nursing Program. Transferred academic work
must have been completed within six years prior to the date of admission to the graduate
program at Wilkes University, with a grade of B (3.0) or better. Grades earned in
transferred courses are not included in the computation of the cumulative grade point
average at the University.

Current Wilkes graduate students who seek to take a graduate course at another
accredited university or college in order to transfer the credits into their respective program at the University must complete a "Pre-Approval Form" prior to registering for the course. All completed forms for transfer of credits should be submitted to the respective department. An official transcript must be requested from the other institution as soon as it is available and should be sent to the Student Services Office.

A student cannot be approved for graduation until all transfer credits are approved by the respective program designee, an official transcript has been received at Wilkes University from the institution granting the credit, and the approved transfer credits are posted to the Wilkes University transcript. All paperwork must be received prior to each semester's Wilkes graduation clearance deadline.

**TURNITIN®**
The Passan School of Nursing (PSON) uses Turnitin® software as a formative process to help students develop and improve scholarly writing skills, while promoting academic honesty.

The Turnitin® service which identifies matching text with online databases of written works is available for use in selected LIVE nursing courses of the learning management system. The software produces an Originality Report which contains a similarity index. This guides instructors and students to identify matching text that could lead to violation of academic honesty in the form of plagiarism. The software cannot identify or interpret plagiarized material – it can only report on similarity of matches in text. Sources for matching in the Originality Report as noted in the similarity index include internet (current and archived web pages), publications (journals, chapters of books, and other specific reports) and student papers. The reports become formative feedback and can aid in the development of scholarly writing skills.

Appropriate references to the use of Turnitin® appear in the course syllabus. Students are required to check the Dropboxes of each course to see if Turnitin® is integrated into the LIVE Dropbox tool and required in that class. An icon will appear in the Dropbox area next to each assignment as appropriate. Once the student submits the assignment and Turnitin® is integrated into the LIVE Dropbox tool similarity reports are automatically produced for any submissions. This option provides student the ability to improve the level of original scholarly writing.

Multiple submissions are allowed in the Dropbox to produce new Originality Reports on each assignment. Students must allow additional time for processing the reports before assignment due dates. Extensions on assignments and excusal from the Academic Honesty policy will not be awarded based upon late submissions to the Dropbox and Originality Reports not being received for review. The timeframe for receiving a report can be 15 mins to 24 hours.

The Originality Report contains a similarity index. Assignments should be scored at 24% and less and have a green or blue score attached. A similarity score of less than 24% is satisfactory and required for the final submission. It is at the discretion of the faculty to accept any score higher than 24% based upon the review of the similarity report. The similarity index is according to the following:
Blue - no matching text

Green - one word to 24% matching text

Yellow - 25-49% matching text

Orange - 50-74% matching text

Red - 75-100% matching text

Students are expected to use the Originality Report to correct deficiencies and lower their percentage scores from the similarity index with their subsequent submissions of assignments to the Dropbox and Turnitin®, until a similarity index of 24% or less is received. An algorithm to guide this process is available from the PSON and is located in the Course Resource Section of the learning management system.

Once the deficiencies are corrected and the similarity index is 24% or less, nothing further needs to be done with the assignment. The faculty member will correct the last assignment submission and Originality Report as attached.

Students need to be knowledgeable of the Academic Honesty, Intellectual Responsibility and Plagiarism Policy in this handbook. Faculty will apply this policy upon independent interpretation of matching text as outlined in the Originality Report and similarity index to determine the degree of originality in the text.

Various resources are available to students and faculty for Turnitin® in each Course Resource section of D2L under and in the Writing Resource Center for graduate nursing students.

**TYPHON**

Students in NP courses are required to use the Typhon clinical tracking software system for documenting all patients and clinical hours in each clinical course. The necessary clinical and patient information should be placed into the Typhon Log no longer than 7 days from each clinical day. Typhon is set to lock students out from entering any information after the 7 day time period. Faculty will monitor the Typhon logs regularly to ensure that students are completing their clinical hours and have appropriate clinical experiences.

At the end of each semester, students must provide a summary of their clinical time to the course faculty member. This information is then placed into the student’s Passan School of Nursing permanent file.

**WITHDRAWAL FROM COURSE**

A student may withdraw from a course during the first week of the course by informing the instructor, completing a withdrawal form that is co-signed by the student and the student's advisor, and submitting the signed form within the first week of the semester. A "W" granted after the first week of the semester reflects a decision on the part of the
student, after consultation with the instructor and advisor, not to be enrolled in a course.

A student may withdraw from a course the second week through the tenth week (12 week courses); the second week through the sixth week (8 week courses); and the second week through the thirtieth week (16 week courses) only with the approval of both the instructor and the student's advisor. A "W" granted after the tenth week (12 week courses) or sixth week (8 week courses) or thirtieth week (16 week courses) of the course constitutes recognition and agreement by the student, instructor, and advisor, that, due to some extraordinary circumstances beyond the student's control, enrollment in that course is not possible or feasible. Fear of receiving a low grade does not constitute an extraordinary circumstance.

Once a student consents to a course withdrawal they are not to access the course in D2L. Students who access courses after being withdrawn face potential withdrawal from the program and university.

A mark of "W" indicates an authorized withdrawal from the course. A grade of "0" is assigned by the instructor and recorded for all courses in which no official withdrawal, as specified above, has been completed by the student. "W" is not a grade; it does not constitute a reflection of academic performance within a course. The appropriate grade for academic performance below the minimum standard for course credit is "0."

Students are advised that withdrawing from a course(s) may have financial implications Refunds are based upon the percentage of course completion.

### 8, 12, and 16-Week Courses

**For NP Students**

Students who withdrawal from a theory course, while concurrently taking a clinical course, must withdrawal from the clinical course at that time, also. Completed clinical hours taken in the clinical course from which a student withdraws will not apply to the total required clinical time for the NP program.
STUDENT SERVICES

Disability/Disability Support Services:
For more information on Disability Support Services, see the following link:
http://wilkes.edu/academics/colleges/university-college/disability-support-services-dss

Financial Aid Services:
For more information on graduate Financial Aid Services, see the following link:

IT Help Desk:
Wilkes University IT offers 24/7 computer support to students on- and off-campus through the Help Desk. For more information on the Help Desk, see the following link:

Library:
For more information on the Library, see the following link:
http://www.wilkes.edu/library
The Library is a student service for support in the virtual classroom. It is the expectation of the Passan School of Nursing faculty that graduate nursing students master the skills for scholarly research. Tutorials on accessing Library resources are available in the student orientation session and on the Library web site.

Writing Resource Center-Graduate Nursing Program:
For more information on the graduate nursing program’s Writing Resource Center, see the following link at http://wilkes.libguides.com/gradnursing
ATTESTATION TO THE PASSAN SCHOOL OF NURSING
GRADUATE PROGRAM STUDENT HANDBOOK

Graduate nursing students are required to review each semester/term the Graduate Student Program Handbook from Wilkes University, Passan School of Nursing. An affixed signature attests that the student has reviewed the electronic handbook online, has no further questions on the policies, agrees to all stated policies, and will maintain responsibility for all updates to the handbook each semester/term while enrolled in the graduate nursing program at Wilkes University. Students are required to submit only one attestation statement for their file, while enrolled in the program. Please submit this form electronically to the Office Assistant of the Graduate Nursing Program, Paula Eddy, at paula.eddy@wilkes.edu or your student services advisor, if enrolled in the Nurse Executive, Nursing Education, Nursing Informatics, or DNP programs. Thank you.
