SUMMER 2016

iD Tech
CAMPS, ACADEMIES & ONLINE

S U M M E R  2 0 1 6
At iD Tech, our family company is fueled by optimism. Everyone is welcome. Female or male, tall or short, dark or light, the class clown, the super-nerd, the soccer star, or the one that gets picked on too much—technology can and should break down barriers and stereotypes—and iD Tech is a place of inclusion. Here, everybody is welcome. And anybody with a little heart and drive can do this stuff. Let’s dream bigger.”

-Pete Ingram-Cauchi, CEO
Welcome!

This is your place. In 1999, we had dial-up modems and flip phones. Google was only one year old. And iD Tech was born. Now, we have cars that drive themselves. Smartphones with a bazillion apps. Amazon packages about to be delivered by flying drones. And iD Tech continues to provide the skills needed to innovate in a tech-driven world.

WHAT WILL YOU DREAM UP?

- An app that changes how we communicate?
- A website to spark a social movement?
- A video game that connects your friends?
- A film that stands up to bullies?
- Where it will end, nobody knows.
- Where it begins—that’s up to you.

KICK-START YOUR FUTURE AT THE WORLD’S #1 TECH CAMP

 لكلن: We began as a family start-up and have now taught over 235,000 students.

✓ Our instructors are tech-savvy adults—not counselors-in-training.

✓ We’re an innovative place to learn, create, and make new friends.

8:1

✓ We teach in clusters of 8 students per instructor—ratio guaranteed—for personalized learning.

✓ We have 150+ campus locations all across the country.

✓ We teach real-world skills for school and future careers. There will be over 1 million open STEM jobs by 2020—let’s get ready.

Let’s Make Awesome this summer!

Pete (CEO, Brother)  Alexa (Co-Founder, Sister)
Dream Bigger
At the end of the week, our son was begging us to stay over the weekend. As he put it, ‘I love this place and I feel it’s really worth it.’ We agree 100%.”

-Christopher C., Parent, Princeton University

Inspiration + Innovation

Explore a prestigious campus. Make new friends. Commute or stay in a real college dorm. Whether you want to code with Java, mod Minecraft, program the next big iPhone or Android app, discover 3D printing, design a game with Unreal Engine or Unity, develop wearable electronics, or produce your own film, you’ll be innovating and creating in no time. Kick-start your future in tech this summer. We have programs available for ages 6-18.
Work with big-name tech products and innovate like the pros with industry-standard software and hardware. When you’ve got the latest and greatest tools, there’s no stopping you.
Unlike Anything Else

I am beyond impressed by the caliber of your staff. Every single person was polite, intelligent, and helpful, and I was completely at ease leaving my student in your care.”

-Amika A., Parent, Stanford University

OUR SUMMER PROGRAMS INCLUDE

- 8:1 student-to-instructor ratio
- Diploma with personalized instructor insights
- Final project, portfolio, or course activity files
- Custom T-shirt and water bottle
- Outdoor activities
- New skills and self-confidence
- Product specials (most courses)
- Campus tours (select locations)
- Gaming tournaments (most locations)
- Access to summer curriculum after camp (Does not apply to iD Tech Mini)
OUR 8:1 GUARANTEE
We guarantee a maximum of 8 students per instructor to ensure properly paced learning for students of all skill levels. Curriculum is delivered in small, collaborative clusters, and live instruction is coupled with iD Game Plan for an effective, blended learning experience.

iD PEDAGOGY & LEARNING EXPERIENCE
With a common sense balance of indoor and outdoor time and an emphasis on fun, creativity, problem solving, innovation, and collaboration, iD Tech is anything but a typical classroom environment. We take the pressure off so students can get straight to what matters—developing a passion for STEM and bringing project ideas to life through experimentation and exploration.

WHAT’S YOUR GAME PLAN?
iD Game Plan is our proprietary learning engine, used to deliver custom content in our courses. With this tool, students track their progress during and after camp by leveling up and earning points. iD Game Plan is the perfect complement to our live, 1-on-1 instruction, offering students a wealth of challenges and projects.

Note: iD Game Plan is not used at iD Tech Mini.

THE BEST TECH-SAVVY STAFF
Our camp culture brings out the best in our students and summer staff. We’ve been voted a Top Workplace by the Bay Area News Group for six years running, and we attract top talent from the best universities (Stanford, MIT, RIT, UCLA, etc.) to teach our courses. You’ll see the quality in our programs.
Please note: The use of the location names is solely for the purpose of identifying the location at which iD Tech is delivering the programs. iD Tech is not a university sponsored program and is not affiliated with the locations mentioned herein. The locations mentioned are not involved in or responsible for the quality, suitability, delivery, or other aspects of iD Tech programs in any way.
CEUs Available for Ages 13+

Teens at locations nationwide can earn accredited Continuing Education Units (CEUs) and receive an official certificate issued by Villanova University. Gain a competitive edge for college. Not transferable as high school or college credit.

Per Massachusetts state law, “This camp must comply with regulations of the Massachusetts Department of Public Health and be licensed by the local Board of Health. Parents may request copies of background checks, health care and discipline policies, as well as procedures for filing grievances.” (105 CMR 430.00, 430.190 C, D.) Per New York state law, “This camp must comply with regulations of the New York State Department of Health (State Sanitary Code Subpart 7-2) and be licensed by the local Board of Health and inspected twice yearly. The inspection reports are filed at the local Department of Health offices in each county.” iD Tech is not affiliated with nor endorsed by the UCLA School of Theater, Film and Television.
MINI AGES. MINI PRICES. MINI HOURS. BIG TECH AWESOMENESS!

iD Tech Mini is our latest twist on STEM summer camp for our youngest innovators. Come play, experiment, and explore concepts in programming, video game design, robotics, and graphic design. You’ll unlock new tech skills during guided, hands-on activities, build confidence, and make friends in a fun, energetic, and inviting environment. It’s never too early to dream BIG!

Prices may vary by location. Prices are in US Dollars. All taxes included. In addition to the prices listed above, there will be a one-time Safety & Compliance Fee of $20 per student per year.

Each course is weeklong. Please see iDTech.com/mini for real-time availability. If attending a full day, please select two different courses per week. Enrolling for multiple weeks? Try different courses and dive into new concepts and projects.
THE MAKER STATION AT iD TECH MINI

Our Maker Station introduces campers to the Maker Movement by fostering do-it-yourself creation, engineering principles, spatial reasoning, coding concepts, and problem-solving skills using high-tech and low-tech toys and gadgets. It’s part of every iD Tech Mini course!
OUR FLAGSHIP PROGRAM COMBINES TECH COURSES FOR EVERY INTEREST WITH WELL-BALANCED, FUN SUMMER CAMP ACTIVITIES.

App development. Coding. Film production. Video game design. Robotics engineering. Web design. Whatever your passion, our STEM courses are built around YOU and your creativity. Boost your tech IQ, make friends, eat in the dining hall, experience college life, and get inspired by tech-savvy instructors.

DISCOVER CODING, DESIGN, ENGINEERING, BRAND IDENTITY, ENTREPRENEURSHIP, LEADERSHIP, PHILANTHROPY, AND MORE IN A UNIQUE, INVITING SETTING.

At Alexa Café, collaboration takes place in small, close-knit clusters, and BIG ideas come to life around café tables. With an emphasis on entrepreneurship, leadership, brand identity, and philanthropy, you’ll build tech skills in a unique, stylish setting, alongside tech-savvy mentors. Join our movement!

**Also available with the purchase of Alexa Café:**

- Continuing Education Units: ages 13+, **add $99**
- Tech Rocket: Annual Online Membership, ages 10-18, **add $179**
Programs specifically designed to teach girls to code are a vital part of getting more girls interested in tech.

-Susan Wojcicki, CEO, YouTube

The goal is to work toward a world where expectations are set...by our personal passion, talents, and interests.

-Sheryl Sandberg, Chief Operating Officer, Facebook
iD Tech Academies
Ages 13-18 | Co-ed | Beg - Adv | 2 Weeks | Overnight

Maker of Games
Maker of Code

INTENSIVE, PRE-COLLEGE CURRICULUM. TALENTED FACULTY. INDUSTRY INSIGHTS. ASSIGNMENT-DRIVEN, COLLABORATIVE PROJECTS.

We offer two distinct teen-only programs: iD Programming Academy and iD Game Design & Development Academy. Courses are built around real-world products from industry leaders like Apple, Arduino, Autodesk, Epic Games, Google, Microsoft, Unity, VEX, and more. You’ll experience collegiate life, learn from tech-savvy staff, make new friends, gain industry insights, and graduate with a portfolio and the tools needed to excel in college and a career!
