K – 8 CENTER

Boarding Flight 4391 – “NON-STOP to EXCELLENCE”

VISION

Irving and Beatrice Peskoe K-8 Center is committed to provide educational excellence for all.

MISSION

The mission of Irving and Beatrice Peskoe K-8 Center is to provide the highest quality education so that all of our students are empowered to become lifelong learners and responsible citizens.

CORE VALUES

Excellence
We pursue the highest standards in academic achievement and organizational performance.

Integrity
We build positive relationships through honesty, respect and compassion, which enhance the self esteem, safety and well being of our students, families and staff.

Equity
We foster an environment that serves all students and aspires to eliminate the achievement gap.

Citizenship
We honor the diversity of our community by working as a team to ensure the educational success of all of our students and recognize that our obligations go beyond our professional responsibilities to promote democratic principles.

Dear Parents and Students:

**Congratulations!**

This will be an exciting year for you and your son/daughter as they will be a member of the first sixth grade class at Irving and Beatrice Peskoe K-8 Center. The faculty and staff of Peskoe realize that middle school is an important step in your son/daughter’s school career. An exciting step filled with new learning experiences as well as responsibilities as the future leaders of our school.

To prepare them for these responsibilities it is crucial we, parents, teachers, and administrators work together to ensure our students’ academic success. Our teachers will provide them with many opportunities to explore new and exciting concepts and with your support, guide them in the selection of their sixth grade courses.

This curriculum bulletin is designed to assist parents and students in the course selection process. We encourage you to read it carefully and assist our students in selecting the coursework best suited to meet their individual needs and interests.

Parents are our partners in education so we urge you to take an active role in the school. You are an integral part of the success of your son/daughter, our student, and collaboration will ensure wonderful middle school memories for both you and your son/daughter.

Attached you will find a subject selection sheet. Read it carefully, make your selection and please hand it in by the deadline.

Should you have any questions about the subject selection, course work or any other information contained in this bulletin, please feel free to contact an administrator or a counselor.

Have a wonderful year!

*Magda R. Pereira*

Principal
PROMOTION AND PLACEMENT IN THE MIDDLE SCHOOL

Promotion, Placement, and Retention

To decide whether students have met the minimum level of achievement required in the MDCPS Pacing Guide/CBC, which incorporates the NGSSS, and to receive credit toward promotion, teachers will consider all available data. This will include standardized test results, progress tests, daily assignments, teacher observation, and other objective information. The student's mastery of the content of the course, in which the student is enrolled, as determined by the teacher, is a further condition for passing the course. There are mechanisms which make it possible for students to benefit from the advantages of a semester system without the disadvantages of major rescheduling at midyear or midyear promotions.

Teachers should observe continually and carefully assess each student's performance throughout the school year to determine if expected achievement levels are being met. Under no circumstances should student performance be judged solely on the basis of a test(s).

Students must meet School Board-approved and state-mandated course requirements. The Secondary School Redesign Act, also known as the A++ Plan for Education, was passed by the Florida Legislature and signed into law by the Governor and became effective on July 1, 2006. In order to increase the rigor and relevance of the middle high school experience and to prepare middle school students for senior high school, the requirements contained in this legislation became effective with entering sixth graders in the 2006-2007 school year.

Promotion for ELLs and ELLs with disabilities is to be based on the student's performance in the dominant language while the student is in the process of becoming independent in English. Retention of ELLs requires the review and recommendation of the ELL committee. Retention of a student with disabilities who is also ELL (ESE/ESOL) requires the review and recommendation of the IEP team.

Language Arts Through ESOL instructional time for ELLs must be equal to the time non-ELLs are required to participate in the regular English language arts/reading program. The courses M/J Language Arts (1, 2, 3) Through ESOL mirror the course descriptions for regular middle school Language Arts. In addition, all secondary ELLs, i.e., ESOL Levels I-IV are required to take a second period of Developmental Language Arts Through ESOL.

Students in grades 6 - 8 may retake failed courses by utilizing the following options:

- By means of middle school course recovery, students in grades 7 or 8 who have failed a language arts, mathematics, science, or social studies course are eligible to retake the course in a modified time frame. A student can be promoted to the next grade level, where, in addition to taking the current grade level language arts, mathematics, science, or social studies course, the student will take the failed course in a concentrated one semester format. The middle school course recovery option can be delivered in either a computer-based or traditional classroom instructional model or a combination thereof.
- Modified/flexible student schedules during the regular school day or placement in alternative models developed by schools to meet these criteria, e.g., Early Bird, Extended School Day, Saturday Academy.
- Students in Grades 6 and 7 who pass four (4) or five (5) courses at each grade level, including language arts or mathematics, are to be placed in the next grade level and double blocked in the regular school year or enrolled in alternative models.

Students who pass less than 4 courses are retained in the same grade, interventions are continued, and progress must be monitored as specified in the school-wide PMP. Prior to a recommendation for a second retention, a student is to be referred to a SST for consideration of placement in an alternative program or initiation of the comprehensive SST collaboration process.
Required Courses for Students in Middle School

It is required that all students in the middle school receive instruction in the state and district grade level objectives and competencies approved in mathematics, language arts/ESOL, social science, science, physical education, and career exploration as well as in a range of exploratory/elective areas, including but not limited to music, art, theatre arts, dance, foreign language, and career and technical education.

For students who entered grade 6 in 2006-2007 and thereafter, promotion to senior high school requires that the student successfully complete the following academic courses:

- three middle school annual courses in English. These courses are to emphasize literature, composition, and technical text. (M/J Language Arts Through ESOL must be taken by ELLs. These courses meet the state requirement.)
- three middle school annual courses in mathematics.
- three middle school annual courses in science.
- three middle school annual courses in social science, one of which is civics. Beginning with students entering grade 6 in 2012-2013, a civics course must be successfully completed in order to be promoted to senior high school. An end-of-course (EOC) assessment will comprise 30% of the civics grade for entering sixth graders in 2013-2014 and for students entering grade 6 in 2014-2015, an EOC assessment must be passed in order to successfully complete the civics course.
- one semester of physical education in grades 6, 7, and 8 beginning in the 2009-2010 school year. This requirement may be waived if a student is enrolled or required to enroll in a remedial course or if the student’s parent indicates in writing a request that the student enroll in another course or that the student is participating in physical activities outside the school day which are equal to or in excess of the mandated requirement. Parents are to be notified of the waiver options before scheduling the student to participate in physical education. Students may elect additional physical education courses.
- a middle school course which incorporates career and education planning, which should be completed in 7th grade. This course will culminate in completion of an electronic Personalized Education Planner (ePEP), which must be signed by the student, the student’s guidance counselor, and the student’s parent. The ePEP must inform students of high school graduation requirements, high school assessments and college entrance test requirements, Florida Bright Futures Scholarship Program requirements, state university and Florida college admission requirements, and programs through which a high school student can earn college credit, including Advanced Placement, International Baccalaureate, International Certificate of Education, dual enrollment, career academy opportunities, and courses that lead to national industry certification. Students with disabilities can elect to complete an ePEP related to the requirements for a standard high school diploma or a special diploma plan.

For each year in which the student scores at Level 1 or 2 on FCAT Reading, the student must be enrolled in and complete an intensive reading course the following year.

For each year in which a student scores at Level 1 or Level 2 on FCAT Mathematics, the student must receive remediation the following year, which may be integrated into the student’s required mathematics course.

Response to Intervention (RtI) requirements are applicable to students at all grade levels.

* Students in grade 7 are required to enroll in a course listed in the 2010-2011 Course Code Directory, which includes career and education planning.

** Students scoring at Level 1 and Level 2 on FCAT Reading will lose the opportunity to select an elective course and will be required to enroll in an intensive reading course. Students scoring at Level 1 and Level 2 on FCAT Math may also lose the opportunity to select an elective course.

*** M/J Language Arts Through ESOL as appropriate. ELLs scoring at Levels 1 and 2 on the most recent administration of FCAT reading are to be enrolled in a second ESOL course. The M/J Developmental Language Through ESOL course will count as an elective credit.

Required Topics of Study for Middle Grades

The following topics are specifically required by Florida statutes, the Florida Board of Education, or the School Board, and they are embedded within various authorized middle school courses:

- Human Growth and Development (Science, grades 6, 7, and 8)
- Substance Abuse Education (Science, grades 6, 7, and 8)
- Sexually Transmitted Diseases (including HIV/AIDS Education) (Science, grades 6, 7, and 8)
- Teen dating violence and abuse prevention (Science, grades 6-8)
- Economic Education (Social Science, grades 6, 7, and 8)
- Florida History, Government, and Geography (Social Science, grades 6, 7, and 8)
- African American History (Social Science, grades 6, 7, and 8)
- Character Education (Social Science, grades 6, 7, and 8)
- Hispanic contributions to the United States (Social Science, grades 6, 7, and 8)
- Women's contributions to the United States (Social Science, grades 6, 7, and 8)
- History of the Holocaust (Social Science, grades 6, 7, and 8)
- Multicultural Education (Social Science, grades 6, 7, and 8)
- Sacrifices made by veterans in protecting democratic values (Social Science, grades 6, 7, and 8)
- History and content of the Declaration of Independence and the U.S. Constitution (Social Science, grades 6, 7, and 8)
- History of the U.S., including the period of discovery, early colonies, the War for Independence, the Civil War, the expansion of the U.S. to its present boundaries, the world wars, and the civil rights movement to the present (Social Science, grade 8)

Students should also receive instruction in computer literacy. Instruction should be provided in critical thinking skills and other related skills in the context of mathematics, language arts/reading, science, social science, and elective courses. Developmental Language Through ESOL course will count as an elective credit.

Middle School Interdisciplinary Teams

The interdisciplinary team is an essential middle school element. The functions of the interdisciplinary team shall include perpetuating academic excellence, exploring and infusing curriculum elements appropriate to the students on the team, fostering students' personal development, increasing basic skills mastery, infusing School-To-Career strategies throughout the curriculum, and promoting instruction in interdisciplinary units. Middle grades instructional units in mathematics, science, language arts, and social science may be provided through an interdisciplinary team design which ensures integration of the core curriculum and which reflects the Pacing Guide/CBC objectives and competencies.
Language Arts/Reading/Mathematics Instruction

Developmental instruction in reading/mathematics may be required during grade 6 when student performance in grade 5 indicates a need for strengthening. These courses will be in addition to the regular language arts/mathematics courses and may be offered as electives. Students scoring at Levels 1 and 2 on the most recent administration of FCAT reading are to be enrolled in the appropriate M/J Intensive Reading course in addition to their required M/J Language Arts course in grades 6, 7, and 8. The district’s K-12 CRRP requires each school to conduct a screening and diagnostic process to identify appropriate placement of Level 1 and Level 2 students in reading classes to be completed prior to the end of the school year. The K-12 CRRP also requires a daily double literacy block for all Level 1 or 2 FCAT reading students who have reading deficiencies in decoding and fluency (Intensive Reading Plus). All FCAT Level 1 and 2 students are required to be enrolled in an Intensive Reading, Intensive Reading Plus, or Intensive Reading Enrichment course with the exception of ELLs who are required to enroll in a M/J Developmental Language Arts Through ESOL course. Students requiring further strengthening in mathematics should take the M/J Intensive Mathematics course.

Reading strategies in the content areas are to be provided to students in all grades in the middle schools. These strategies should be in addition to those taught during language arts class.

Elective Courses/ELL

For ELLs scoring at Levels 1 and 2 on the most recent administration of FCAT reading, only one elective course is allowed since the second elective is the required M/J Developmental Language Arts through ESOL.

Establishment of Increased Requirements

Individual schools may establish requirements greater than prescribed district requirements, subject to the approval of the Regional Superintendent and the Superintendent of Schools, or designee. An increase in academic requirements shall not apply to students in grades 6-8 at the time of the increase. In each instance, the school shall establish school-level procedures for waiving such requirements for students with a demonstrated educational need.

Senior High School Credit (s) for Students in Grades 6, 7, and 8

Students in grades 6, 7, and 8 may enroll in selected senior high school courses for the purposes of pursuing a more challenging grade point averages and rank in class (School Board Rule 6Gx13-5B-1.061). Up to six credits may be earned (with parental permission) in grades 6, 7, and/or 8, for courses taken prior to the 2007-2008 school year which may be applied toward the total credits needed for graduation, college admission, or for the Florida Bright Futures Scholarship Program requirements. During the time students are enrolled in designated high school courses, they are considered to be grade 9 students for those class periods. Students and their parents will be informed that all high school credit courses taken in the middle school will be included in their high school transcript. Factors to be considered in taking high school courses in the middle school include the impact on the students’ GPA and subsequent rank in class, the possible lack of recognition by the National Collegiate Athletic Association (NCAA) for senior high school courses taken in a grade below grade 9, and the benefit of retaking a course in which skills have not been mastered. Courses taken will remain a part of a student’s middle school record, as well as the student’s senior high school record. Credit may be earned in the courses listed below:
Mathematics and Science

Students should be encouraged to enroll in advanced/honors mathematics and science courses whenever appropriate. Accelerating in mathematics and science offers students the opportunity to take higher level mathematics and science courses in senior high school. Students should begin this sequence early in order to follow a path leading to the successful completion of four credits of high school mathematics and a minimum of three credits of high school science. Successful completion of a high school level Algebra I, Geometry, or Biology I course is not contingent upon the students’ performance on the EOC assessment. However, beginning with the 2011-2012 school year to earn high school credit for Algebra I, a middle school student must pass the Algebra I EOC assessment. Beginning with the 2012-2013 school year, to earn high school credit for Geometry or Biology I, a middle school student must pass the respective EOC assessments. Students who encounter difficulties in mathematics and science courses should be provided assistance through peer tutoring, teacher tutoring, before/after school programs, online tutorial programs, and/or Saturday school, where appropriate.

Student Performance Standards

The district-established student performance standards and specified performance levels as measured by district and state assessments are listed below. Students must meet at least one (1) or more of the district indicators in each subject and grade, or they must meet the specified level of performance on the state assessments.

Then student must also have completed his/her ePEP. | Promoted to Grade 9 |
| 8            | 14 or Fewer Courses Passed | Retained 8th Grade Student |

M/J Language Arts Through ESOL as appropriate

### High School Accelerated Graduation Options

Each school shall provide each student in grades 6 through 8 and their parents with information concerning the three-year and four-year high school graduation options so that students and their parents may select the high school graduation option that best fits their needs in developing a postsecondary education or career plan.
GRADING STUDENT PERFORMANCE – MIDDLE SCHOOL

By School Board directive, academic grades are to reflect the student's academic progress. The determination of the specific grade a student receives must be based on the teacher's best judgment after careful consideration of all aspects of each student's performance during a grading period, including such factors as class attendance, homework, and participation.

In authorized semester courses, the student's final grade shall be determined as follows: 40 percent value for each of two nine-week grading periods and 20 percent value for the final examination, with a provision for teacher override.

In authorized annual courses, the student's final grade shall be determined as follows: 20 percent value for each of four nine-week grading periods, 10 percent value for the midterm exam, and 10 percent for the final exam, with a provision for teacher override. In order to pass an annual course in grades 9-12, a student must earn a minimum of 10 grade points, of which a minimum of five must be earned in the second semester. Teacher override (either up or down) can be used.

In both authorized semester courses and authorized annual courses, the criteria for grading certain students with disabilities may be modified by the Individual Educational Plan (IEP) team.

The following are the academic grades used:

<table>
<thead>

PROVISIONS FOR ACCELERATION

Students may utilize the acceleration option listed below to pursue a more challenging program of study or to accelerate entry into postsecondary institutions or vocations of their choice.

In addition to the two accelerated graduation programs (the college preparatory program and the career preparatory program), there is a middle school provision whereby students may accelerate their graduation or take additional courses prior to graduation. These include:

**Middle School Option.** Credits may be earned, with parental permission, in grades 6, 7, and/or 8, which may be applied toward the total credits needed for graduation, college admission, or Florida Bright Futures Scholarship Program requirements. During the time students are enrolled in designated senior high school courses, they are considered to be grade 9 students for those class periods. The decision to accept or reject the earned credit will be made at the beginning of the student's ninth grade year, for those high school courses taken prior to the 2007-2008 school year. The courses will remain a part of the students' middle school record. Factors to be considered in removing the courses from the high school record include the impact on the student's GPA and subsequent rank in class, the possible lack of recognition by the National Athletic Association (NCAA) for senior high school courses taken in a grade below grade 9, and the benefit of retaking a course in which all the skills have not been mastered.
HOMEWORK POLICY*

Regular, purposeful homework is an essential part of a student's education. Homework is an integral factor in fostering the academic achievement of students and in extending school activities into the home and the community. Regular homework provides opportunities for developmental practice, drill, the application of skills already learned, the development of independent study skills, enrichment activities, and self-discipline. Homework should provide reinforcement and extension of class instruction, and should serve as a basis for further study and preparation for future class assignments.

Student's Responsibilities

1. Completing assigned homework as directed and in the spirit in which it was assigned.
2. Returning homework to the teacher by the designated time.
3. Submitting homework assignments that reflect careful attention to detail and quality of work.
4. Devoting a minimum of 30 minutes each day to reading as an additional part of the homework assignment.

NOTE: Students can receive additional help through the Homework Helpers Program, which includes the Dial-A-Teacher program, at 305-995-1600, Monday through Thursday from 5:30 P.M. to 8:30 P.M., WLRN, Channel 17. Students may also access Miami-Dade County Public School’s web page at: http://www.dial-a-teacher.com.

Parents' Responsibilities

While it is understood that parents are not responsible for providing a great deal of assistance to their child in completing homework, there is still much that parents can do to promote good study habits. Parents’ responsibilities include:

1. Providing an environment conducive to study.
2. Providing continued interest and concern for the child's successful performance in school, through, encouraging and supporting the child in his/her performance of homework assigned.
3. Indicating an interest in assignments and assisting, if possible, when requested by the child, but not to include performing the work for the child.
4. Supporting the school in regard to the child being assigned homework.
5. Requesting assignments for the child when short-term absences are involved.
6. Assuring that the child reads for a period of at least 30 minutes each day in addition to any other assigned homework.

* Excerpt from School Board Rule 6Gx13-6A-1.23
ATTENDANCE POLICY

There are probably no factors more important to a student’s progress in school than regular and punctual attendance. Miami-Dade Public Schools has a vision whereby each student engages in a rigorous instructional program which prepares him/her for a myriad of successful post-secondary options. Students are expected to:

- be present at school each and every day;
- attend class as scheduled;
- arrive at school and class(es) on time; and
- demonstrate appropriate behavior and readiness to learn.

Miami-Dade Public Schools has the affirmative obligation to increase student attendance through a monitoring process that will classify all absences as excused or unexcused, to inform parents of student absences, and to ensure that compulsory attendance laws are enforced as mandated by Florida statutes. This obligation will be satisfied through the implementation of an attendance review procedure, which monitors the type and number of student absences, as well as the impact of these absences on learning. Each school has an Attendance Review Committee, which is comprised of a minimum of a student services representative and an administrator or an administrative designee. The committee will provide guidance and support to students with significant absences by providing early intervention by convening when students reach an accumulation of five (5) unexcused absences in a semester course or ten (10) unexcused absences in an annual course.

A. Attendance Defined

1. **School Attendance** - Students are to be counted in attendance only if they are actually present or engaged in a school-approved educational activity which constitutes a part of the instructional program for the student.

2. **Class Attendance** - Students are to be counted in attendance if they are physically present in class or have been excused by the teacher on a class-related assignment, or have been requested by a member of the school support staff for an approved school activity.

3. **Tardiness** - It is a reasonable expectation that in order for a learning activity to take place, each student must arrive to school and class on time. Accumulated unexcused tardies will be counted toward the threshold for initiating attendance review.

4. **Early Sign-outs** - The early release of students causes disruption to academic performance of all students and may create safety and security concerns. No student shall be released within the final 30 minutes of the school day unless authorized by the school principal or principal’s designee, e.g., emergency, sickness.

B. Absences Defined

1. **Excused School and Class Absences and Tardies**

   - **Student illness**: students missing 5 or more consecutive days of school due to illness or injury are required to provide a written statement from a medical provider. The written statement must include all the days the student has been absent from school. If a student is continually ill and repeatedly absent from school due to a specific medical condition, he/she must be under the supervision of a physician in order to receive excused absences from school.

   - **Medical appointment**: If a student is absent from school because of a medical appointment, a written statement from a medical provider indicating the date and time of the appointment must be submitted to the principal.
• Death in family

• **Observance of a religious holiday or service** when it is mandated for all members of a faith that such a holiday or service be observed.

• **School sponsored event or educational enrichment activity** that is not a school sponsored event, as determined by the principal or principal’s designee. The student must obtain advance written permission from the principal or the principal' designee. Examples of special events include: public functions, conferences, and regional, state, and national competitions.

• **Subpoena** by law enforcement agency or mandatory court appearance.

• **Outdoor suspensions**

• Other individual student absences beyond the control of the parent or student, as determined and approved by the principal or the principal' designee. The principal shall require documentation related to the situation.

2. Unexcused School Absence

Any absence that does not fall into one of the above excused absence categories is to be considered unexcused. Any student who has been absent from school will be marked unexcused absent until he/she submits the required documentation as specified above. Failure to provide the required documentation within three school days upon the return to school will result in an unexcused absence.

Unexcused absences include:

- Absences due to vacations, personal services, local non-school event, program, or sport activity.
- Absence due to older students providing day care services for siblings.
- Absences due to the illness of others.
- Absences due to non-compliance of immunization requirements unless lawfully exempted.

The student is expected to:

1. Attend school/classes one hundred and eighty (180) days each school year.
2. Request the make-up assignments for all excused absences/tardies from his/her teachers upon his/her return to school or class. It should be noted that all classwork, due to the nature of the instruction, is not readily subject to make-up work.
3. Complete the make-up assignments for classes missed within three school days of the return to school. Failure to make up all assignments will result in the lower assessment of the student's academic and/or effort grade.
4. Be reported as present for the school day in order to participate in athletic and extracurricular activities.

The parent is expected to:

1. Be responsible for his/her child’s school attendance as required by law and stress the importance of regular and punctual school attendance with his/her child.
2. Report and explain an absence or tardiness to the school.
3. Ensure that his/her child has requested and completes make-up assignments for all excused absences/tardies from the child’s teachers upon his/her return to school or class.
4. Appear before the Attendance Review Committee at the scheduled time to provide information relating to his/her child’s absences and support prescribed activities.
Irving and Beatrice Peskoe K-8 Center
Mandatory Uniform School

Student Dress for Success Policy

Philosophy and general statement to the Parents:

It is our professional belief that school performance and behavior is enhanced by appropriate dress and grooming. Parents/guardians are strongly urged to work closely with the school to ensure their child’s adherence to the mandatory uniform policy of Irving and Beatrice Peskoe K-8 Center. Parents and educators committed to working together will continue to emphasize standards of neatness, cleanliness, safety, and decency in dress and grooming for the students.

Irving and Beatrice Peskoe K-8 Center is a mandatory uniform school. Middle school students are required to wear a uniform daily, which consists of the following:

- **Tops:**
  - Polo Shirts: Navy Blue

- **Bottoms:**
  - Long pants: Khaki or Dark Blue
  - Shorts: Khaki or Dark Blue, Bermuda style
  - Skirts: Khaki or Dark Blue

- Shoes must be closed-toe and may not be backless.

  **The following items are not permitted:**

  - **NO** excessively large shirts
  - **No** halter tops, sleeveless tops, no cap sleeves, slit sleeves, tank tops, mesh shirts, see through tops, short tops that do not cover the belly button or midriff. Sleeves must be worn down, not rolled up.
  - **No** shirts displaying inappropriate or suggestive phrases, designs or language (alcohol, drugs, sex or violence)
  - **No** excessively tight slacks, leggings, capris or shorts
  - **No** sagging pants. Pants must be worn at their original length and fitted at the waist with no visible undergarments and must have belt loops
  - **No** headwear of any kind: mesh head coverings, bandanas, handkerchiefs, do-rags, hair curlers, combs, sweat bands, hair picks or hoods
  - **No** sleepwear, bedroom shoes, pajamas, or slippers
  - **No** dog collars, motorcycle chains, two or three finger rings, or spikes
  - **No** colors, symbols, or items associated with fraternities or groups (this includes bandanas and flags made with beads) **No** trench coats
  - **No** open-toe shoes, backless shoes, or flip flops
  - **No** Blue Jeans
Eligibility Requirements for Participation in Interscholastic Extracurricular Athletics and Activities

In order for a student to participate in extracurricular athletics and activities, a student must meet the standards set forth by Section 1006.15, Florida Statutes, policies of the Greater Miami Athletic Conference (GMAC), and Miami-Dade County School Board rules. In addition, a student must comply with the school district’s Contract for Student Participation in Interscholastic Competitions or Performances, FM-7155.

To be eligible to participate in interscholastic extracurricular student athletics and activities a student must maintain an unweighted cumulative grade point average (GPA) of 2.0 or above on a 4.0 scale in the courses required for graduation. The student must also maintain a 2.0 GPA in conduct for the previous semester. Computation of grade point averages requires the inclusion of all applicable high school courses to which a forgiveness policy has been applied.

A student shall be eligible during the first semester of his/her ninth-grade year provided that it is the student’s first entry into ninth grade and he/she was regularly promoted from eighth grade the immediate preceding year.

If a student becomes ineligible during the second semester of his/her ninth-grade year or during the first semester of his/her 10th-grade year because the student’s cumulative grade point average was below 2.0 at the conclusion of the previous semester and continues to be below 2.0 at the conclusion of the semester of ineligibility, he/she may regain his/her eligibility for the following semester provided:

(a) the student signs an academic performance contract with his/her school at the beginning of the semester in which he/she is ineligible that states, at a minimum, that the student will attend summer school, or its graded equivalent, AND
(b) earns a grade point average of 2.0 or above on a 4.0 unweighted scale or its equivalent in all courses taken during the semester of ineligibility.

Once a student enters grade 11, he/she must have and maintain from that point forward a 2.0 or above cumulative grade point average on a 4.0 scale, or its equivalent, in all courses required for graduation at the conclusion of each semester to be eligible to participate during the following semester.

If a student’s eligibility is affected by an incomplete grade, the student is ineligible until the incomplete grade is removed and all eligibility requirements are met.

All students participating in interscholastic athletic competition or who are candidates for an interscholastic team(s) are required to pass an annual medical evaluation and purchase the School Board’s sponsored insurance program prior to engaging in any practice, tryout, or pre- or post-season physical activity associated with the student’s candidacy for an interscholastic athletic team.

A student shall be eligible for no more than four (4) consecutive academic years from the date he/she first enrolls in the ninth grade. Four years from the date he/she first enrolls in the ninth grade, he/she shall become ineligible for further interscholastic athletic competition. For students enrolled in either one of the two accelerated graduation programs, once they have met all the graduation requirements, they cannot remain in high school for a fourth year in order to continue eligibility to participate in high school athletics/activities.

The school athletic director and guidance counselor can assist students in planning a program of study that will include the appropriate courses to prepare for college entrance examinations and meet core course requirements for participation in National Collegiate Athletic Association (NCAA) athletic programs. They can also assist students in determining how to calculate the GPA required to be eligible to participate in NCAA athletics and advise the student regarding which courses do not meet NCAA eligibility requirements.
## PHILosophical Basis:

Grades, at best, are but an indicator of the student's knowledge or skill at any particular time. Grades are not necessarily an accurate gauge as to whether learning has taken place. However, since much emphasis is placed upon grades, a student's academic grade should reflect the teacher's most objective assessment of the student's academic achievement. Academic grades should not be used as a threat in order to maintain classroom decorum.

<table>
<thead>
<tr>
<th>Rights</th>
<th>Responsibilities</th>
</tr>
</thead>
<tbody>
<tr>
<td>Students have the right to be informed of the teacher's grading criteria, which is consistent with district guidelines, at the beginning of each grading period.</td>
<td>Students have the responsibility to ask teachers in advance of a graded assignment, for an explanation of any grading criteria or practice they may question or that needs clarification.</td>
</tr>
<tr>
<td>Students have the right to receive an academic grade that reflects their achievement.</td>
<td>Students have the responsibility for maintaining reasonable standards of academic performance commensurate with their ability.</td>
</tr>
<tr>
<td>Students have the right to be notified when they are performing unsatisfactorily.</td>
<td>Students have the responsibility for making every effort to improve their performance upon receipt or notification of unsatisfactory performance.</td>
</tr>
<tr>
<td>Students have the right to receive a conduct and effort grade in each class consistent with their overall behavior and effort.</td>
<td>Students have the responsibility to conduct themselves in each class in ways that are conducive to the learning process.</td>
</tr>
<tr>
<td>Students have the right to achieve academic success based upon their own initiative and ability without interference from others.</td>
<td>Students have the responsibility to earn grades based upon their performance while guarding against cheating by other students.</td>
</tr>

IRVING AND BEATRICE PESKOE K-8 CENTER
2011-2012

PROGRAM DESCRIPTIONS

The faculty members on grade level teams work with the students to prepare them for high school. Core curriculum programs are recommended by current grade level teacher(s) on the Student Subject Selection request Form and reviewed by parents as indicated with a parent/guardian signature. The programs available at Irving and Beatrice Peskoe K-8 Center include:

ADVANCED ACADEMICS

Students eligible for this program have been evaluated and met the district criteria for gifted education.

ADVANCED

Student eligibility is based on above average achievement test scores and grade point average. These courses accommodate and challenge students’ intellectual abilities. Students need to be self motivated and dedicated to succeed in this program.

REGULAR

These are the normal classes for students whose primary learning needs are mastery of state competencies appropriate to their grade level. Students who perform at or near grade level with mid-range achievement test scores and/or grade point average indicating student is working up to his/her ability level are among those for whom these regular courses are appropriate.

INTENSIVE

Students significantly below grade level will take regular classes, but are required to take elective classes in math or reading to help master grade level skills.

SPECIAL EDUCATION (SPED)

For students who have been identified by evaluation and district and/or state criteria as having special learning needs. Courses are structured to accommodate the students’ Individual Educational Plan (IEP) for overall school success. Students may be enrolled part-time or full-time in the program depending on their IEP.

ENGLISH LANGUAGE LEARNERS (ELL)

Students with limited or no English proficiency qualify for the program. Criteria are based on the results of the Home Language Survey, OLPS-R test results, and/or teacher recommendation. Students receive two hours of ESOL courses.
6th Grade Courses

REQUIRED COURSES: Language Arts, Mathematics, Science, World Geography

LANGUAGE ARTS

M/J LANGUAGE ARTS 1 GIFTED
1001002002    1.00 Credit
The purpose of this course is to promote academic excellence in writing, oral communication, and the interpretation of literature. The content should include but not be limited to the interpretation of literature and the use of the writing process. The course should also include advanced reading skills, techniques of effective speaking and listening, critical thinking, and study skills and how these skills relate to success in the world of work. The course incorporates the goals and objectives contained in the Resource Manual for Gifted Programs and are available only to students staffed into the gifted program.

M/J LANGUAGE ARTS 1 ADVANCED
100102001    1.00 Credit
The purpose of this course is to promote academic excellence in writing, oral communication, and the interpretation of literature. The content should include but not be limited to the interpretation of literature and the use of the writing process. The course should also include advanced reading skills, techniques of effective speaking and listening, critical thinking, and study skills and how these skills relate to success in the work of work.

M/J LANGUAGE ARTS 1
100101001    1.00 Credit
The purpose of this course is to provide educational experiences which develop English language arts concepts and skills. The content should include, but not be limited to: the study of literature, the use of the writing process, and the application of reading, listening, speaking and critical thinking and study skills.

M/J LANGUAGE ARTS 1 THROUGH ESOL
100200002    1.00 Credit
The purpose of this course is to provide educational experiences, which develop English language arts concepts and skills for speakers of other languages. This course addresses the needs of limited English proficient (LEP) students through the application of second language strategies. The content should include, but not limit to: the study of literature, the use of writing process, and the application of reading, listening, speaking, critical thinking and study skills. Information on how language arts skills apply to daily life and work should also be provided on how language arts skills apply to daily life and work should also be provided.

M/J ESE LANGUAGE ARTS 1
100101001    1.00 Credit
The purpose of this course is to provide educational experiences which develop English language arts concepts and skills. The content should include, but not be limited to: the study of literature, the use of the writing process, and the application of reading, listening, speaking and critical thinking and study skills. Information on how language arts skills apply to daily life and work should also be provided.
MATHEMATICS

M/J MATHEMATICS 1 ADVANCED
120502001   1.00 Credit
The purpose of this course is to extend the traditional sixth-grade curriculum through horizontal enrichment and vertical acceleration, addressing appropriate content should include, but not be limited to: numeration, whole numbers, geometry, measurement, estimation, graphing, number theory, ratio and proportion, probability, statistics, algebra, and knowledge of the use of calculators and computer skills from the middle grades Standards of Excellence. The context should parallel a pre-algebra course.

M/J MATHEMATICS 1
120501001   1.00 Credit
The purpose of this course is to continue the development of the skills of arithmetic and to introduce mathematical content fundamental for higher-level coursework. The content should include, but not be limited to: numeration, whole numbers, fractions, mixed numbers, decimals, percent, problem-solving, estimation, geometry, measurement, graphing, number theory, and knowledge of the use of calculators and computers.

M/J ESE MATHEMATICS 1
120501001   1.00 Credit
The purpose of this course is to continue the development of the skills of arithmetic and to introduce mathematical content fundamental for higher-level coursework. The content should include, but not be limited to: numeration, whole numbers, fractions, mixed numbers, decimals, percent, problem-solving, estimation, geometry, measurement, graphing, number theory, and knowledge of the use of calculators and computers.

Enrichment and Intensive Remediation Courses – Reading/Mathematics

M/J INTENSIVE READING
10001006   1.00 Credit
Mandatory course for students whose standardized reading test score is Level 1 or 2 on the FCAT reading. The purpose of this course is to provide intensive reading instruction and practice in reading skills. The content should include, but not be limited to, content identified by diagnosis of each student’s needs for intensive instruction specified in the academic improvement plan and practice in test-taking skills and strategies for reading. The course provides instruction on the Sunshine State Standards to develop mastery.

M/J INTENSIVE READING PLUS
100010PL   1.00 Credit
The purpose of this course is to provide instruction in the acquisition of developmental reading skills through an integrated reading, listening, speaking and writing approach. The content should include, but not be limited to, the development of reading as a process with emphasis on comprehension, vocabulary, listening, speaking, writing and study skills. Opportunities should be provided for independent / recreational reading.
M/J INTENSIVE READING ENRICHMENT
1000010E6   1.00 Credit
The purpose of this course is to provide instruction in the acquisition of developmental reading
skills through an integrated reading, listening, speaking and writing approach. The content should
include, but not be limited to, the development of reading as a process with emphasis on
comprehension, vocabulary, listening, speaking, writing and study skills. Opportunities should be
provided for independent/recreational reading.

M/J INTENSIVE MATHEMATICS
120400001   1.00 Credit
Mandatory course for students whose standardized mathematics test score is Level 1 or 2 on the
FCAT math. The purpose of this course is to provide intensive mathematics instruction and
practice in math skills. The content should include, but not be limited to, content identified by
diagnosis of each student’s needs for intensive instruction specified in the academic improvement
plan and practice in test-taking skills and strategies for mathematics. The course provides
instruction on the Sunshine State Standards to develop mastery.

M/J EXCEPTIONAL STUDENT READING 1.00 Credit
Grades 6-8
781002001
This course is designed for students functioning at mildly handicapped levels. The purpose of this
course is to provide instruction in the acquisition of basic reading skills through an integrated
reading, listening, speaking, and writing approach. ***Enrollment in this course is determined by
the IEP of each exceptional student.

SCIENCE

M/J COMPREHENSIVE SCIENCE 1 ADVANCED
200205001   1.00 Credit
The purpose of this course is to provide the first year of the sequential three-year course of study
in exploratory experiences and activities in concepts of life, earth/space, and physical sciences.
The content should include, but not be limited to: scientific method, cells, human body, plants,
animals, matter and energy, geology, astronomy, meteorology, and oceanography. This course
meets the requirement for sixth graders. Laboratory investigations of selected topics are an
integral part of this course.

M/J COMPREHENSIVE SCIENCE 1
200204001   1.00 Credit
The purpose of this course is to provide the first year of the sequential three-year course of study
in exploratory experiences and activities in concepts of life, earth/space, and physical sciences.
The content should include, but not be limited to: scientific method, cells, human body, plants,
animals, matter and energy, geology, astronomy, meteorology, and oceanography. This course
meets the requirement for sixth graders. Laboratory investigations of selected topics are an
integral part of this course.

M/J ESE COMPREHENSIVE SCIENCE 1
200204001   1.00 Credit
The purpose of this course is to provide the first year of the sequential three-year course of study
in exploratory experiences and activities in concepts of life, earth/space, and physical sciences.
The content should include, but not be limited to: scientific method, cells, human body, plants,
animals, matter and energy, geology, astronomy, meteorology, and oceanography. This course
meets the requirement for sixth graders. Laboratory investigations of selected topics are an
integral part of this course.
SOCIAL STUDIES

M/J WORLD GEOGRAPHY ADVANCED
210302001    1.00 Credit
The purpose of this course is to provide students an opportunity to acquire an in-depth and comprehensive understanding of the six essential elements of geography, i.e., the world in spatial terms, places and regions, physical systems, environment and society, and the uses of geography. The content should include, but not be limited to, the study of world regions as they relate to topography, climate, political divisions, natural resources and interrelationships of people and their environment.

M/J WORLD GEOGRAPHY
210301001    1.00 Credit
The purpose of this course is to provide students an opportunity to acquire an understanding of the physical environment and geographic regions of the world. The content should include, but not be limited to, the study of world regions as they relate to topography, climate, political divisions, natural resources, and interrelationships within places, movement, and regions. Selection consideration: Meets the middle school requirement for United States and world geography.

M/J WORLD GEOGRAPHY, ESE
210301001    1.00 Credit
The purpose of this course is to provide students an opportunity to acquire an understanding of the physical environment and geographic regions of the world. The content should include, but not be limited to, the study of world regions as they relate to topography, climate, political divisions, natural resources, and interrelationships within places, movement, and regions. Selection consideration: Meets the middle school requirement for United States and world geography.

DEVELOPMENTAL LANGUAGE ARTS THROUGH ESOL

M/J DEVELOPMENTAL LANGUAGE ARTS THRU ESOL (Level 1)
1002181L1    1.00 Credit
The purpose of this course is to provide instruction in developmental language arts skills to native speakers of other languages. Emphasis of instruction should be on reading, vocabulary, writing, listening, and speaking skills. The content should include, but not be limited to the following: listening and speaking experiences, reading skills within the context of selected reading levels, vocabulary development, writing instruction, including the analysis of sentence structure and paragraph, writing, study skills. Selection consideration: recommended a second ESOL course.

M/J DEVELOPMENTAL LANGUAGE ARTS THRU ESOL (Level 2)
1002181L2    1.00 Credit
Course 100215001 has the same purpose as the above ESOL course. The content should include but not be limited to the following: participation in formal and informal English conversations with increased vocabulary, and more integrated English communication skills.
M/J DEVELOPMENTAL LANGUAGE ARTS THRU ESOL (Level 3)
10021810L3    1.00 Credit
Course 100216001 has the same purpose as the above ESOL course. The content should include, but not be limited to the following: Reading instruction within the context of representative samples of literature, writing instruction, including frequent practice in writing paragraphs and multi-paragraph papers for a variety of purposes and audiences, listening and speaking experiences in relation to the reading and writing assignments.

M/J DEVELOPMENTAL LANGUAGE ARTS THRU ESOL (Level 4)
10021811L4   1.00 Credit
The purpose of these courses is to enable native speakers of languages other than English to develop proficient reading, writing, listening, viewing, and speaking skills in the English language. The courses encourage the use of multimedia presentations, technology, and text resources to enrich student's learning experiences and provide an active learning environment. Skills and strategies are designed to increase the students' level of skill and proficiency while meeting state-mandated assessments. Oral communication, reading, and writing skills are interrelated in order to build a connection between oral and written language and empower students with the ability to function in the English language across all subject areas.

The content should include, but not be limited to the following:
  i. Participation in informal and formal English conversation, reading, and writing activities with increased vocabulary usage;
  ii. Listening, speaking, reading, and writing experiences for increased communication;
  iii. Opportunities for informal, formal, and state-mandated assessments.

PHYSICAL EDUCATION

M/J COMPREHENSIVE PHYSICAL EDUCATION 1 (6th Grade)
150100003    1.00 Credit
The purpose of this course is to develop competence in: (A) physical fitness, (B) body-management skills, (C) throwing and catching skills, (D) skills related to striking with the body, (E) skills related to striking with objects, and (F) strategies. The content should include, but not be limited to, the following: safety practices; assessment of health-related fitness; skill-related components of physical fitness; evaluation of physical activities in terms of fitness value; principles of exercise and training; psychological values of physical fitness including positive self-image; interrelationships among exercise, nutrition, and rest; knowledge and refinement of body-management skills; application of body management skills through games/sports; knowledge and refinement of throwing and catching skills; application of throwing and catching skills through games/sports; knowledge and refinement of skills related to striking objects with the body.
ELECTIVES

MJ/PERSONAL, CAREER, AND SCHOOL DEVELOPMENT SKILLS  
050000001                1.00 Credit  
The purpose of this course is to provide students who have been designated as at-risk of dropping out of middle school with an opportunity to experience success in school and improve attitudes and behaviors towards learning, self, school, and community. The content should include: knowledge of self and others, development of positive attitudes, family relationships, peer pressure, individual responsibility, goal setting, time management, decision making, problem solving, leadership skills, life management skills, employability skills, and career awareness.

M/J EXPERIENCING ART  
010403001                1.00 Credit  
The purpose of this course is to provide students with an understanding of the five objectives in the middle school student: perceptual awareness, manipulation, and the ability to produce artwork. Experiences are planned developmentally in nine areas of art: drawing, painting, printmaking, photography, textiles, ceramics, sculpture, and collage. Art will be integrated through service learning activities.

M/J MULTI-MEDIA / TECHNOLOGY  
110000001                1.00 Credit  
This course provides practical experiences for students in the operation of the media center and with basic office procedures. Students will receive hands-on experience in a broadcast studio. Students will learn to research, prepare, write and produce a daily news broadcast. The content will include learning skills such as individual responsibility, goal setting, time management, decision making, career awareness and leadership skills.

M/J MUSIC APPRECIATION I  
130119001                1.00 Credit  
The purpose of this course is to help students develop purposeful listening skills, acquire knowledge about music and musicians, and appreciate the role and contribution of music in society. The content should include, but not be limited to listening to music, reading about music, discussing the role of music, and acquiring necessary skills for making informed judgments about music.

M/J SPANISH BEGINNING I  
070800001                1.00 Credit  
The purpose of this course is to introduce students to the Spanish language and its culture and to develop interactive communicative skills and cross-cultural understanding. Content emphasis is on listening comprehension and speaking with special attention to pronunciation, basic structures, and everyday vocabulary. Students are introduced to reading and writing in the language and to basic cultural elements of the Spanish-speaking world.
CAUTIONS:

1. Please review the elective requirements carefully and select those for which you are qualified.
2. Please be sure to obtain all necessary teacher recommendations.
3. Please be sure that you select and rank your elective choices in order of preference.
4. Please make your elective choices carefully. Schedule changes may not be available after **May 19, 2011**.
5. Upon commencement of the 2011 – 2012 school year, schedule changes may only be permitted by Administrative approval.
6. Please be sure that you submit your subject selection form to the school by the required deadline. Students who do not return the form will have their classes selected for them.
7. Your signature on the Subject Selection Form indicates your acceptance of recommended programs and elective classes included on your preference list.

Please be aware that every attempt will be made to place students in electives they select. Placement in such classes cannot be guaranteed and will be based on availability.

1. Obtain a subject selection form from school office or counselor.
2. Fill in your name and student identification number.
3. Read all your course requirements. See a counselor if you have any questions.
4. Choose 3 electives, rank them 1-3 (1 highest).
5. Obtain parent and student signatures.
6. Return form to office or counselor.
HIGH SCHOOL GRADUATION PROGRAMS

The Secondary School Redesign Act, also known as the "A++ Plan for Education," was passed by the Florida Legislature and signed into law by the Governor to become effective on July 1, 2006. The provisions of this law include academic course requirements at the middle school level to better prepare middle school students for senior high school. In order to increase the rigor and relevance of the senior high school experience and to prepare high school students for college and the workplace, the high school instructional program was changed significantly.

Ninth graders who entered high school in the 2007-2008 school year and thereafter are required to earn 16 core academic credits and eight elective credits in order to graduate with a high school diploma. Core requirements consist of four credits in English and mathematics; three credits of science and social science; one credit of fine and performing arts; and one credit of physical education with the integration of health education.

To better engage students in planning and making decisions for their future, they are to select an area of interest as part of their personalized education and career plan. Students are to earn four credits in a major area of interest, similar to college students, which may be in the arts, advanced academic studies, or career preparation. Each school will provide students and their parents with a list of district/state-approved major areas from which a selection is to be made. The remaining four elective credits may be used to earn a second major area of interest, a minor, or for other elective courses.

Currently, there are three options for high school graduation and earning a diploma, two of which are accelerated options. Students and their parents may select from one of the three options, although if the student and his/her parents do not select a graduation option, the student will be considered to have selected the four-year, 24-credit standard program. In order to graduate all three options require students to earn a passing score on the FCAT graduation test, earn a specific grade point average (GPA) on a 4.0 scale, and successfully complete the required courses listed in the chart entitled “2010-2011 Graduation Requirements.”

The graduation options are as follows:

- A four-year, 24-credit standard program;
- A three-year, 18-credit college preparatory program; and
- A three-year, 18-credit career preparatory program;

Prior to selecting one of the two accelerated programs the following requirements must be met:

1. The requirements, advantages, and disadvantages of each graduation option are to be explained to the student and his/her parents.
2. A signed parental consent form (FM-6911) must be submitted to the principal and guidance counselor to enroll in either one of the accelerated programs.

The requirements for the two accelerated options have been changed several times by the Florida Legislature since these options became available to students in 2003-2004. Students are responsible for the requirements in force at the time they selected an accelerated program.

As mentioned above, the requirements for the four-year, 24-credit program were changed by the Florida Legislature for students who entered the 9th grade in 2007-2008. Students who enrolled in the four-year, 24-credit program prior to July 1, 2007, are responsible for the requirements in force at that time.

High school courses successfully completed by a student in grades 6 - 8 can be applied to the requirements for graduation. However, the student and his/her parents are reminded that high school credits earned prior to 9th grade as well as through the adult education program are generally not recognized by the National Collegiate Athletic Association (NCAA) toward a student’s eligibility to participate in college athletics. For information regarding athletic scholarships and eligibility, it is recommended that contact be made with the National Collegiate Athletic Association (NCAA) at www.ncaa.org or the athletic director at the student’s school.
This table represents requirements for students who entered 9th grade in 2007-2008 and thereafter. In order to graduate from high school and earn a diploma, students must successfully complete the required credits, earn the required grade point average (GPA), and earn a passing score on the FCAT graduation test.

## EXPLANATORY NOTES

| ENGLISH/LANGUAGE ARTS | English I, II, III, & IV or English I-IV Through ESOL are required to meet the English/language arts graduation requirement. This requirement applies to all three graduation options. It should be noted that grade 9 and 10 students who scored at Levels 1 and 2 on the most recent administration of the FCAT reading test as well as grade 11 and 12 retakers will be required to take an intensive reading course in lieu of an elective and in addition to the required English course. ELLs scoring at Levels 1 and 2 on the most recent administration of FCAT reading are to be enrolled in a Developmental Language Through ESOL course in lieu of an intensive reading course. The district’s K-12 CRRP requires each school to conduct a screening and diagnostic process to identify appropriate placement of Level 1 and Level 2 students in reading classes to be completed prior to the end of the school year. The K-12 CRRP also requires a daily double block for all students who have reading deficiencies in decoding and fluency (Intensive Reading Plus). Some high achieving FCAT Level 2 students as per the CRRP may attend either an Intensive Reading or a homogeneously grouped language arts course, in which the language arts teacher instructs the reading course, while infusing the language arts benchmarks into the course. |
| MATHEMATICS | For the 24 credit option for students who entered 9th grade prior to 2007-2008, 3 credits of mathematics are required to graduate; for students who entered 9th grade in 2007-2008 and thereafter, 4 credits of mathematics are required to graduate. For the 18 credit options students must earn 3 credits. A four-year sequence includes Algebra I, Geometry, Algebra II, & Advanced Topics in Mathematics. Business Math & Liberal Arts Math meets the high school graduation requirement, but do not meet the minimum entrance requirement for the Florida University System nor the Florida Bright Futures Scholarship Award. For students who entered grade 9 in 2010-2011, Algebra I and Geometry are required graduation courses. For students entering grade 9 in 2012-2013, Algebra II will be a graduation requirement. This phase in of graduation requirements also applies to students in the two accelerated options, who, beginning with those students who entered grade 9 in 2010-2011, will be required to earn 4 mathematics credits in order to graduate. |
| SCIENCE | For students selecting any one of the three graduation options, 3 credits are required. The three-year recommended sequence includes: Earth/Space Science, Biology I, and 1 course from the following: Chemistry, Physical Science, Physics, or Integrated Science III. Students who entered grade 8 in 2007-2008 and thereafter, must enroll in one of the required science courses in grade 11. For students entering grade 9 in 2011-2012, Biology I will be a graduation requirement. For students entering grade 9 in 2013-2014, either Chemistry or Physics or an equally rigorous science course will be required for graduation. |
| SOCIAL SCIENCE | Regardless of the date of entry into grade 9, for students selecting the 24 credit program and the two accelerated programs, the required courses include: World History – 1 credit, United States History – 1 credit, United States Government - .5 credit, and Economics - .5 credit. |
FOREIGN LANGUAGE
For students selecting the college preparatory program, they are to complete any two sequential courses in the same foreign language, including American Sign Language, or demonstrate foreign language proficiency at a level equivalent to two years of high school foreign language. This proficiency must be documented by the student's school. Students enrolled in the 24 credit or the career preparatory programs are not required to earn foreign language credit.

PERFORMING/ FINE ARTS/ PRACTICAL ARTS/ CAREER & TECHNICAL EDUCATION
For students in the 24 credit option who entered 9th grade prior to 2007-2008, they are to earn .5 credit in performing/fine arts (art, dance, theatre, music, speech, or debate) and .5 credit in practical arts (any career/technical education course or a district-approved annual computer or journalism course). It should be noted that state statute provides for three methods by which high school students enrolled in the four year, 24-credit, standard program can meet the Performing Fine Arts/Practical Arts graduation requirement. M-DCPS students are to earn 0.5 credit in Performing Fine Arts and 0.5 credit in Practical Arts. However, students transferring to M-DCPS from another Florida school district can meet the Performing Fine Arts and Practical Arts graduation requirement if they have met one of the other two methods provided in state statute, i.e., 1.0 credit in Performing Fine Arts or 1.0 credit in Practical Arts. For students in the 24 credit option who entered 9th grade in 2007-2008 and thereafter, they must earn 1 credit in performing/fine arts or an approved practical arts (see details in Graduation Options chart above). Students enrolled in the college preparatory program or the career preparatory program do not have to meet any requirement in this area. Completion of two years in a Junior Reserve Officers Training Corps (J.R.O.T.C.) class, a significant component of which is drill, shall satisfy the one-credit requirement in performing arts. This credit may not be used to satisfy the personal fitness requirement.
PHYSICAL EDUCATION

For students in the 24 credit option who entered 9th grade prior to 2007-2008, this requirement is met by successful completion of Personal Fitness or Adaptive Physical Education and any other approved physical education semester course. Participation in an interscholastic sport at the junior varsity or varsity level, for two full seasons, and obtaining a passing score of AC@ or higher on a competency test on personal fitness shall satisfy the one credit physical education requirement. If the student satisfies the physical education graduation requirement through the interscholastic sport option, the student must earn one additional elective credit since no credit is granted for an interscholastic junior or senior varsity sport. Completion of one semester with a grade of C or better in a marching band class, in a physical activity class that requires participation in marching band activities as an extracurricular activity, or in a Junior Reserve Officers Training Corps (J.R.O.T.C.) class with a significant component of drills, shall satisfy the one-half physical education elective requirement, but the student must still complete the Personal Fitness or the Adaptive Physical Education course.

For students who entered 9th grade in 2007-2008 and thereafter, this requirement is met by successful completion of Personal Fitness or Adaptive Physical Education and any other approved physical education semester course. Participation in an interscholastic sport at the junior varsity or varsity level for two full seasons shall satisfy the one credit physical education requirement if the student passes a competency test on personal fitness with a score of “C” or higher. If the student satisfies the physical education graduation requirement through the interscholastic sport option, the student must earn one additional elective credit since no credit is granted for an interscholastic junior or senior varsity sport. Completion of one semester with a grade of “C” or higher in a marching band class, in a physical activity class that requires participation in marching band activities as an extracurricular activity, or in a dance class shall satisfy one-half credit in physical education or one-half credit in performing/fine arts. Students must still successfully complete the Personal Fitness course or the Adaptive Physical Education course. Completion of two years of a Junior Reserve Officer Training Corps (J.R.O.T.C.) class with a significant component in drill and taking the one-half credit Personal Fitness course or, if appropriate, the Adaptive Physical Education course, shall satisfy the one-credit requirement in physical education and the one-credit requirement in performing fine arts. This credit may not be used to satisfy the personal fitness requirement or the requirement for adaptive physical education under an individual education plan (IEP) or 504 plan.

Students who entered 9th grade prior to 2007-2008 must earn .5 credit in Life Management Skills. Students enrolled in either of the two 18 credit options are not required to take physical education be used to satisfy the personal fitness requirement or the requirement for adaptive physical education under an individual education plan (IEP) or 504 plan.

ELECTIVES

For students in the 24 credit option who entered 9th grade prior to 2007-2008, 8.5 elective credits are required. Students enrolled in the college preparatory are required to take 3 credits and those students in the career preparatory program are required to take 2 credits unless they select the 5-credit career/technical option. For students enrolled in either of the two accelerated programs and who entered grade 9 in 2010 - 2011, the number of electives for the college preparatory program has been reduced from 3 to 2. For students enrolled in the career preparatory program the number of credits has been reduced from 2 to 1, unless they select the 4-credit career/technical option.
For students in the 24 credit option who entered 9th grade in 2007-2008 and thereafter, they are required to complete 8 elective credits in sequential courses in a career/technical program, fine and performing arts, or academic content areas, selected by the student as part of the student’s ePEP.

For students enrolled in the College Preparatory program at least six (6) of the 18 credits must be dual enrollment, Advanced Placement, International Baccalaureate, Advanced International Certificate of Education, or Level 3 courses. Honors courses are not included in these six credits.

COMMUNITY SERVICE
For students in the 24 credit option, the completion of a community service project is an additional graduation requirement regardless of their date of entry into 9th grade. Students in either one of the 18 credit options are not required to complete a community service project. However, one of the requirements for the Florida Bright Futures Scholarship Program’s Academic Scholars Award is 75 hours of community service.

ADMISSION TO THE FLORIDA STATE UNIVERSITY SYSTEM
Admission decisions are based on high school graduation, grade point average in academic core courses; admissions test scores, and course distribution requirements. The minimum requirements apply to all of the state universities; however, universities are permitted to have higher admission standards. There are three methods to qualify for admission into the universities: the traditional admissions criteria based on the Florida Division of Colleges and Universities sliding scale, the Talented Twenty program, or the student profile assessment.

TRADITIONAL REQUIREMENTS
In addition to graduation from an accredited high school with the 18 credits in approved college prep courses, students must meet grade point average and test score requirements as indicated on the chart below. The weighted grade point average (GPA) will be calculated by the university using a 4.0 scale from grades earned in high school academic core courses in designated subject areas. Additional weights may be assigned to certain grades in state designated Honors, Advanced Placement, International Baccalaureate, Dual Enrollment, Advanced International Certificate of Education, International Studies, and other advanced courses. Admissions eligibility for students who are not in the Talented Twenty program will be determined from the sliding scale, which allows an applicant to balance a lower recalculated GPA with a higher test score or a lower test score with a higher GPA.

* There is no minimum test score for students with a GPA of 3.0 or better. However, either an ACT or SAT score must still be submitted.
TALENTED TWENTY

The Talented Twenty Program is part of the Governor's One Florida Initiative. Students eligible for the Talented Twenty Program are guaranteed admission to one of the eleven state universities, and are given priority for award of funds from the Florida Student Assistance Grant (FSAG). The FSAG program is a need-based grant; therefore, Talented Twenty students must meet FSAG eligibility requirements in order to be eligible for priority funding. Please note that while eligible students are guaranteed admission at one of the state universities, they may not be admitted to the campus of choice.

In order to qualify for the Talented Twenty Program, one must:
  
  Be enrolled in a Florida public high school and graduate with a standard diploma.
  Be ranked in the top 20% of the class after the posting of seventh semester grades (with validation of the eighth semester ranking) for students enrolled in the 4-year, 24-credit program. For students in either one of the two 3-year, 18-credit programs, the ranking will occur after the posting of the fifth semester grades (with validation of the sixth semester ranking).
  Take the ACT or SAT (with no minimum score required).
  Complete the eighteen college preparatory courses as specified in State Board of Education Rule. (See www.FACTS.org. for a list of these courses.)

APPLICATION FOR STATE UNIVERSITIES:

High school counselors and College Assistance Program advisors are prepared to assist students with the application process for state university admissions. To be considered for the FSAG program, students must file the Free Application for Federal Student Aid (FAFSA) in time to meet the application deadline established by the institution they plan to attend. The FAFSA is available online at www.fafsa.ed.gov and uses parent and student income information in a formula developed by the United States Congress to calculate the financial contribution families are expected to make toward a student's post-secondary education.

STUDENT PROFILE ASSESSMENT

The majority of students are admitted on the basis of their past academic achievement and admissions test scores in relation to the minimum requirements. Universities are allowed flexibility to admit a limited number of students as exceptions to the minimum requirements provided that the university determines that the student has potential to be successful in college. Applicants who do not meet minimum requirements may be eligible for admission through a student profile assessment which considers factors such as: family educational background, socioeconomic status, special talents, or the high school or geographic location of the applicant. Any important attributes of special talents should be reported with the application. The factors will not include preferences on the basis of race, national origin, or gender.
FLORIDA’S BRIGHT FUTURES SCHOLARSHIP PROGRAM

The Bright Futures Scholarship Program establishes a lottery-funded scholarship for Florida high school graduates based on academic achievement, who enroll in eligible Florida postsecondary institutions. The scholarship may be used for either full-time or part-time enrollment and is renewable. Basic information and qualification requirements are outlined below.

Requirements for all scholarship levels include:

- Be a Florida resident and a U.S. citizen or an eligible non-citizen;
- Authorize the release of eligibility information to the Florida Department of Education;
- Earn a Florida high school diploma or its equivalent from a Florida public or private high school;
- Successfully complete certain courses while attaining the grade point average specified in the scholarship type;
- Be accepted by and enroll in an eligible Florida postsecondary education program;
- Be enrolled for at least six (6) semester credit hours or the equivalent;
- Not have been found guilty of, nor pled no contest to a felony charge;
- Apply for a scholarship from the program prior to high school graduation by completing the online Florida Financial Aid Application (FFAA) for the Florida State Student Financial Assistance Database (SSFAD) at www.FloridaStudentFinancialAid.org; and use the award within three years of high school graduation.

Requirements for 2011 - 2012 Applicants

### Other Ways to Qualify

Initial eligibility criteria used in "Other Ways to Qualify" must be met by high school graduation.

| National Merit or Achievement Scholars and Finalists; |
| National Hispanic Scholars; |
| IB Diploma recipients; Students who have completed the IB curriculum with best composite score of 1270 SAT or 28 ACT; |
| AICE Diploma recipients; Students who have completed the AICE curriculum with best composite score of 1270 SAT or 28 ACT; |
| GED with best composite score of 1270 SAT or 28 ACT and a 3.5 weighted GPA in the above 15 required credits; |
| Early Admissions with best composite score of 1270 SAT or 28 ACT and a 3.5 weighted GPA in courses completed; or |
| 3-year college preparatory program with best composite score of 1270 SAT or 28 ACT and a 3.5 weighted GPA in the above 16 required credits. |

| National Merit or Achievement Scholars and Finalists and National Hispanic Scholars who have not completed 75 hours of community service; |
| Students who have completed the IB curriculum with best composite score of 970 SAT or 20 ACT; |
| AICE Diploma recipients who have not completed 75 hours of community service; |
| Students who have completed the AICE curriculum with best composite score of 970 SAT or 20 ACT; |
| GED with best composite score of 970 SAT or 20 ACT and a 3.0 weighted GPA in the above 16 required credits; or |
| 3-year college preparatory program with best composite score of 980 SAT or 21 ACT and a 3.0 weighted GPA in the above 16 required credits. |

The other ways to qualify listed below must also include a 3.5 unweighted GPA in a minimum of 3 career education credits in one career education program and minimum test scores listed above.

- 3-year Career Preparatory diploma with 3.0 weighted GPA using the 16 core credits required for graduation listed below:
  - 4 English (3 with substantial writing)
  - 4 Math (including Algebra I)
  - 3 Science (2 with substantial lab)
  - 3 Social Science; or
  - 2 Foreign Language; or

- GED with 3.0 weighted GPA using the core credits required for the selected high school graduation program (standard, career, or college).

### Additional Information

Additional information on the Bright Futures Scholarship Program may be obtained on the internet: www.floridastudentfinancialaid.org/ssfad/bf or you may call toll free 1-888-827-2004.

### Career Planning / College Entrance Examinations

In completing their postsecondary education plans, students may find it advisable to complete one or more of the standardized tests listed below which are used for college admissions, career planning, placement in college courses, and/or eligibility for scholarships. Recommended grade levels during which tests should be taken are shown in parenthesis ( ).

1. ACT: American College Testing Program (11, 12)
2. ASVAB: Armed Services Vocational Aptitude Battery (11, 12)
3. PLAN: Preliminary ACT (10)
4. PSAT: Preliminary SAT (10, 11)
5. SAT I: Reasoning Test – formerly the Scholastic Assessment Test (11, 12)
6. SAT II: Subject Tests – formerly the Scholastic Assessment Test (11, 12)
7. CPT: College Placement Test (10, 11, or 12)
Students should see their school counselor for further information about the tests that would be most appropriate for meeting their needs. Some tests require the completion and mailing of a registration form several weeks in advance of the test date. These materials are available in the student services office.

**THE CAREER TECHNICAL EDUCATION/COLLEGE CONNECTION**

Students completing specific Career Technical Education (CTE) programs can earn post-secondary hours and/or scholarships to enable them to complete post-secondary training. The following options explain how students may maximize their high school CTE course work. For additional information students should contact their program instructor or school counselor.

**ARTICULATION AGREEMENTS - POSTSECONDARY CREDIT FOR CTE COURSES**

Students completing CTE training courses in the high school may earn credits toward completion of CTE training programs at area technical centers (Miami Lakes Educational Center, Robert Morgan Educational Center, and Lindsey Hopkins Technical Education Center). Students completing CTE training programs at area technical centers may earn credits toward an Associate of Science degree at Miami-Dade College. Specifically negotiated agreements between the college and M-DCPS award students college credit for CTE program work successfully completed in high school.

**CAREER PATHWAYS**

Career Pathway is an exciting and challenging educational initiative that allows students to obtain a sequential program of study which leads to a post-secondary career. Career Pathway students typically select general programs of study; show interest in career technical fields; transition on to a two-year certificate program; or pursue an associate or baccalaureate degree. The Career Pathway program of study provides students with skills and knowledge through a variety of curriculum choices and college credits. Students should check with their school counselors for information and approval of Career Pathway courses. After graduation from high school, students can continue their career-focused education at the community college or post-secondary institutions and earn a two-year associate degree or a two-year certificate. Post-secondary credits are granted through articulation agreements which may contain a dual-enrollment component.

**HIGH SCHOOL DIPLOMAS / CERTIFICATES**

The Miami-Dade County School Board provides for the awarding of a standard diploma, a certificate of completion, a CPT-eligible certificate of completion, a special diploma, or a special certificate of completion.

**STANDARD DIPLOMA**

A standard diploma will be awarded to graduates, if the student has earned the required credits and attained the grade point average for the graduation program selected. Also, students must pass the Grade 10 Florida Comprehensive Assessment Test 2.0 (FCAT 2.0) Reading test. The purpose of the standard diploma is to certify that the student has met all district and state standards for graduation. A special education student will be awarded a standard diploma if all of the criteria for a standard diploma have been met by that student.

**SUPERINTENDENT'S DIPLOMA OF DISTINCTION**

This diploma will be awarded to students who are enrolled in the 4-year, 24-credit program and complete an academically rigorous course of study. The requirements include at least four honors, Advanced Placement, International Baccalaureate, Advanced International Certificate of Education, and/or International Studies courses; and completion of 75 hours of community service, which includes identification of a social problem of interest, development of a plan for personal involvement in addressing the problem and, through papers and other presentations, evaluate, and reflect upon the experience. All students must earn a 3.5 GPA (weighted scale) by the end of the first semester of the senior year with no final grade less than a "C."
CERTIFICATE OF COMPLETION

A student who is enrolled in the 4-year, 24-credit program and has met all requirements for graduation except passing the FCAT graduation test, or earning the 2.0 GPA required for graduation shall be awarded a certificate of completion. A student may make further attempts to meet the requirements for a standard diploma.

CPT – ELIGIBLE CERTIFICATE OF COMPLETION

Students, who earn the 24 required graduation credits and achieve a GPA of 2.0 or higher, but do not pass the FCAT graduation test, are eligible to receive the College Placement Test (CPT) – eligible certificate of completion. Students who receive the CPT – eligible certificate of completion may enroll directly into a Florida community college or post-secondary career and technical education program. Based upon the score the student receives on the CPT, the student may enroll in remedial or credit courses at the community college.

SPECIAL DIPLOMA AND SPECIAL CERTIFICATE OF COMPLETION

Students with disabilities who are enrolled in the 4-year, 24-credit program and have been properly classified may be eligible to receive a special diploma or a special certificate of completion. Parents who have questions concerning these special diplomas or certificates are urged to consult the school counselor, special education department chairperson, or Regional Center exceptional student education staffing specialist.

FOR STUDENTS WHO ENTERED GRADE 9 IN 2007-2008 AND THEREAFTER, THE FOLLOWING STANDARD DIPLOMA DESIGNATIONS ARE AVAILABLE:

- Completion of four or more accelerated college credit courses in Advanced Placement, International Baccalaureate, International Certificate of Education, or dual enrollment
- Career education certification
- Florida Ready to Work Credential

GRADING STUDENT PERFORMANCE

By School Board directive, academic grades are to reflect the student's academic progress. The determination of the specific grade a student receives must be based on the teacher's best judgment after careful consideration of all aspects of each student's performance during a grading period, including such factors as class attendance, homework, and participation.

In authorized semester courses, the student's final grade shall be determined as follows: 40 percent value for each of two nine-week grading periods and 20 percent value for the final examination, with a provision for teacher override.

In authorized annual courses, the student's final grade shall be determined as follows: 20 percent value for each of four nine-week grading periods, 10 percent value for the midterm exam, and 10 percent for the final exam, with a provision for teacher override. In order to pass an annual course in grades 9-12, a student must earn a minimum of 10 grade points, of which a minimum of five must be earned in the second semester. Teacher override (either up or down) can be used.

For senior high school students the forgiveness policy for required courses is limited to replacing a grade of D or F with a grade of C or higher earned subsequently in the same or comparable course. The forgiveness policy for elective courses is limited to replacing a grade of D or F with a grade of C or higher earned subsequently in another course. In either situation when a student attempts forgiveness for a grade, only the new grade will be used to compute the student’s GPA. Any course not replaced according to this policy shall be included in the calculation of the cumulative grade point average required for graduation.

In both authorized semester courses and authorized annual courses, the criteria for grading certain students with disabilities may be modified by the Individual Educational Plan (IEP) team.
The following are the academic grades used:

<table>
<thead>
<tr>
<th>GRADE</th>
<th>NUMERICAL VALUE (%)</th>
<th>VERBAL INTERPRETATION</th>
<th>GRADE POINT VALUE</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>90 -100</td>

<td>0</td>
</tr>
</tbody>
</table>

**GRADE POINT AVERAGE**

Grade point averages (GPA) may be used for any of the reasons listed below.
- High school graduation
- Rank in class
- Eligibility to participate in interscholastic extracurricular activities
- Academic Recognition Program
- Placement on the honor roll and/or membership in honor societies
- College admissions and scholarship competitions

The grade and bonus point values shown in the chart below are used in determining unweighted (without bonus points) and weighted (with bonus points) GPA's.

<table>
<thead>
<tr>
<th>LETTER GRADES</th>

<td>1</td>
</tr>
<tr>
<td>D</td>
<td>1</td>
<td>0</td>
</tr>
<tr>
<td>F</td>
<td>0</td>
<td>0</td>
</tr>
</tbody>
</table>

NOTE: Dual enrollment courses are awarded the equivalent of Advanced Placement, International Baccalaureate, or Advanced International Certificate of Education bonus points as required by state statute.

The grade point average used for determining the final rank in class for students includes grades from all courses in which credits have been earned for high school graduation and the first semester of the students' final year. The calculation process produces an unweighted GPA to which bonus values are added. This GPA is used for the ranking process.

Students selecting one of the three-year accelerated programs are included in the overall class ranking for their graduation year based on the relative ranking of his/her cumulative GPA. These students are also eligible for consideration for the academic recognition program and the Talented Twenty program.
The levels of the Academic Recognition Program are as follows:

**Cum Laude**: the upper 15% of the graduating class, excluding the Summa and Magna Cum Laude students, using a weighted GPA or students who have a 4.0 GPA or higher

**Magna Cum Laude**: the upper 10% of the graduating class, excluding the Summa Cum Laude students, using a weighted GPA

**Summa Cum Laude**: the upper 5% of the graduating class using a weighted GPA

The school counselor can assist students and parents in determining the processes for computing the GPA’s used for the various purposes listed above.

**PROVISIONS FOR ACCELERATION**

Students may utilize the acceleration options listed below to pursue a more challenging program of study or to accelerate entry into postsecondary institutions or vocations of their choice.

In addition to the two accelerated graduation programs (the college preparatory program and the career preparatory program), there are several provisions whereby students may accelerate their graduation or take additional courses prior to graduation. These include:

**Optional Seventh Period**: With prior approval of the high school principal, credits earned in an adult education optional seventh period may be applied to graduation for a senior high school program. The optional seventh period classes funded through the adult education program are considered an extension of the senior high school program.

**Career Pathway**: Career Pathway is a senior high school transition initiative that allows students to obtain a sequential program of study which leads to a post-secondary career. Students should check with their school counselors for information and approval of Career Pathway courses.

**Dual Enrollment**: Dual enrollment allows high school students who have completed ninth grade to simultaneously earn college or career technical education credit toward a post-secondary degree or certificate and credit toward meeting their high school graduation requirements. Students must meet the following eligibility criteria:

a) 3.0 unweighted grade point average (GPA) to enroll in college credit courses or a 2.0 GPA to enroll in CTE certificate courses;

b) pass the appropriate section of the college placement test (CPT); and

c) meet additional admissions criteria established by the post-secondary institution.

The college courses selected by the student must count toward high school graduation. They may earn bonus points equivalent to those earned in Advanced Placement, International Baccalaureate, or Advanced International Certificate of Education courses. Approval in advance of course registration is required. Students should check with their school counselors for information and approval of dual enrollment courses.

**Early Admission**: Early admission is a form of dual enrollment through which eligible students may enroll in a college or university on a full-time basis in courses that are creditable toward a high school diploma and the associate or baccalaureate degree. To be considered full-time, a student must enroll in a minimum of 12 college credit hours, but may not be required to enroll in more than 15 college credit hours.

**Advanced Placement**: Advanced Placement (AP) courses provide college experience to students while they are still high school students. AP programs are offered in each major academic area. Post-secondary credit for an AP course shall be awarded to students who score at least a 3 on a 5-point scale on the corresponding AP exam. A student who elects to enroll in an AP course that is jointly offered with a dual enrollment course may not earn postsecondary credit for that course through dual enrollment.

**International Baccalaureate/Advanced International Certificate of Education/International Studies**: The International Baccalaureate (IB), the Advanced International Certificate of Education (AICE), and the International Studies (IS) programs are offered in several schools for which eligible high school students earn credit toward graduation and may receive post-secondary credit at colleges and universities.
Career Education: Any career education course authorized for grades 13 or higher may be taken for credit by students in grades 9-12, based on the career objectives of the students.

Florida Virtual School: Middle and senior high school students are eligible to enroll in the Florida Virtual School (FLVS). The courses offered are teacher-facilitated and available throughout the state. Courses are based upon the same criteria as those taught in the standard high school program and, therefore, generate the same credit for students. Middle school students may earn credit only in those courses designated as "acceleration" courses as indicated above. Secondary students are also eligible to enroll in courses offered through the Miami-Dade Virtual School. A complete list of courses is available through FLVS's web site at http://www.flvs.net or Miami-Dade Virtual School's (M-DVS) web site at http://mdvs.dadeschools.net .

Credit by Examination: Credit by examination is a method by which post-secondary credit is earned based on the receipt of a specified minimum score on a nationally standardized general or subject area examination.

Credit Acceleration Program (CAP): Students may earn credit for selected high school courses by taking the End-of-Course (EOC) assessment for the course and earning a score that indicates the student has attained a satisfactory score on a state EOC assessment or on a district-created standardized EOC. Students may obtain more information about any of these opportunities for acceleration from their school guidance counselors.

Florida Virtual School Option

While the initiative to use Florida Virtual (FLVS) classes district-wide originated with the class-size mandate, online learning was already common place in many students’ educational experiences. With the mass proliferation of online digital content as well as changes in students’ learning modalities, virtual education is continuing to expand and is a reality of the evolution of education. A 2008 study released by the Hoover Institute at Stanford University estimates that 50% of education courses will be delivered online by the year 2019. The advantages of virtual education include self-paced learning and access to course work not available in schools or not accessible due to scheduling conflicts. Additionally, virtual education provides students with a learning environment that closely resembles the 21st century workplace. In K-12 education, more than 70 percent of school districts in the United States currently offer at least one online course and at least two states have adopted policies that require high school students to take an online course to graduate. While Florida has yet to adopt such a policy, it was considered during the last legislative session and current trends such as computer-based end-of-course tests and legislation mandating full-time, K-12 virtual education are strong predictors that Florida may soon follow suit.

Florida Virtual Course Offerings

• The FLVS course list can be found at this link: http://www.flvs.net/areas/flvscourses/Pages/Course%20Catalog/CourseListing.aspx.

• Schools may not limit core courses that are graduation requirements to online FLVS classes. For example, courses such as Government and Economics may be offered to students via Florida Virtual; however, face-to-face classes must also be offered.

• Elective courses may be limited to online options.

• Courses that will be provided online through Florida Virtual will be identified on subject selection forms.

Recommended Participation Criteria for Students

• Students who are reading at or above grade level (FCAT Reading score of 3 or above).
• Students who are motivated with a previous grade of A or B in subject area.
• Students with good attendance history.
• Students who have access to a computer with Internet access after school hours.
• Students who are English Language Learners (ESOL Levels 3 and 4) may participate based on the course and English proficiency.
• Students with disabilities may participate only if the IEP supports participation in online classes.
Notification of Parents

• FLVS does not require parent permission to register students for online classes.
• Schools will advise parents when students are enrolled in an FLVS class.

Progress and Grade Reporting

• FLVS progress reports will be provided to parents on a monthly basis.
• Grades will be reported at the end of each semester.

MAGNET / INNOVATIVE CHOICE PROGRAMS
2011 – 2012

Through the School Choice & Parental Options office, Miami-Dade County Public Schools offers numerous Magnet program options that infuse career-oriented themes, provide enhanced quality educational opportunities, and promote diversity. Thus, the District has one of the largest representations of Magnet programs/schools in the United States. A major feature of the programs/schools has been to appeal to students with similar interests but diverse backgrounds, and to draw them into a learning environment in which they will prosper.

These programs provide unique educational experiences for students in areas of interest or special talent. Such programs have been successful because their content has satisfied the educational needs of the students. Some programs accept all interested students, while other programs have specific entrance criteria. When the number of eligible students exceeds the number of available seats in non-talent magnets programs, a random selection procedure is utilized to admit students according to guidelines set in the Magnet School Board Rule 6Gx13-6A-1.46.

CAREERS AND PROFESSIONS

A variety of programs prepare senior high school students for careers and professions. These programs are tailored to maximize the understanding of any given career and profession. Students are given experiences in real-world situations to enable them to succeed in college and the workforce.

Information about individual school programs in Careers & Professions can be found at: http://choice.dadeschools.net/ms.asp.

LIBERAL ARTS

The Liberal Arts magnet theme provides programs that prepare students to be knowledgeable citizens and empower them to meet the challenges of a rapidly changing world. The programs are dedicated to the formation of knowledge in the Humanities, Natural Sciences, and Social Sciences through the use of cutting edge technology, research, and artistic production. Academic excellence and commitment to the values of diversity, community, and collaboration and an appreciation for aesthetics distinguish the Liberal Arts Magnet schools. Each program views learning as a transformative, socially interactive process.

These schools are committed to furthering the career aspirations of students by developing their intellectual powers and offering them experiences in a variety of vocational directions before they enter their chosen careers.

Information about individual school programs in Liberal Arts can be found at: http://choice.dadeschools.net/ms.asp.

INTERNATIONAL PROGRAMS

International programs offer a challenging curriculum promoting high levels of academic productivity, comprehension of world cultures, and the acquisition of a foreign language. Through internationally benchmarked academic study and interdisciplinary courses, students become active lifelong learners and global citizens prepared to succeed in an ever-changing international society and economy.
INTERNATIONAL THEMES:
Through the International Studies program, school administration, teachers, students, and parents work collaboratively with foreign ministries of education in Spain, France, Italy, Brazil, and Germany to ensure that the educational requirements and standards of that country are infused and taught in the curriculum. The pedagogy results in the acquisition of a second language.

The International Baccalaureate (IB) Programme is a highly coordinated, rigorous course of study linking Humanities, Science, Mathematics, Languages, and Community Service. Curriculum in the IB Diploma Programme incorporates standards that assume high level of aptitude and achievement. The IB Diploma is highly recognized at colleges and universities throughout the country and world-wide. For more information, visit www.ibo.org.

The Cambridge (AICE Diploma) Program is a challenging, accelerated curriculum that is based on Britain’s A Level examinations. At the senior high school level, the Cambridge Program becomes a four-year curriculum that progresses from two years of preparatory classes to entrance in the Advanced International Certificate in Education (AICE) Diploma Program. For more information, visit www.cie.org.uk.

International Education Programs immerse students in multicultural education with an emphasis on learning a second language. These programs which are delivered in various, successful, curricular designs prepare students to live effectively in a fast changing global society and economy.

Florida senior high school students who earn the International Baccalaureate Diploma or the Cambridge AICE Diploma qualify for the Florida Bright Futures Scholarship Program.

Information about individual school offerings in International Programs can be found at: http://choice.dadeschools.net/ms.asp.

MONTESSORI
Montessori programs are based on a philosophy whose fundamental belief is that children learn best within a social environment which supports each child’s individual development. The child is considered as a whole. The physical, emotional, social, aesthetic, spiritual, and cognitive needs and interests are inseparable and equally important. The aim of Montessori education is to foster responsible and active citizens who will become lifelong learners and problem solvers. These programs offer carefully planned, stimulating environments that promote the development of essential study habits, decision-making skills, self-awareness, and ideas which are vital for continuous learning. Learning occurs in an inquiring, nurturing atmosphere that encourages social interaction for cooperative learning, peer teaching, and emotional development. Students increase their own knowledge through self and teacher-initiated experiences. The specific and uniquely designed curriculum and the use of multi-sensory learning materials enable students to become self-directed and motivated learners.

Information about individual school featuring Montessori programs can be found at: http://choice.dadeschools.net/ms.asp.

MATHEMATICS, SCIENCE, AND TECHNOLOGY
Mathematics, Science, and Technology programs utilize innovative strategies and technology to engage students in investigation and discovery. This hands-on approach captures natural curiosity and stimulates interest, thereby building better understanding and quality performance. Students utilize mathematics, science, and technology laboratories, as well as real world environmental sites, to engage in mathematical analysis, scientific inquiry, and engineering design.

Information about individual school programs in Mathematics, Science and Technology can be found at: http://choice.dadeschools.net/ms.asp.
VISUAL AND PERFORMING ARTS
Visual & Performing Arts talent programs provide intellectually stimulating and educationally challenging classes in the arts. Students and teachers engage in a continuous exchange with numerous opportunities to develop and showcase talents. Information about individual school programs in Visual & Performing Arts can be found at: http://choice.dadeschools.net/ms.asp.
The Family Educational Rights and Privacy Act (FERPA) is a federal law. The intent of this law is to protect the accuracy and privacy of student educational records. Under this law, parents have the right upon request, to inspect, release, and challenge information contained within the student's educational records. This right transfers to the student when he/she reaches the age of 18. Only authorized individuals having legitimate educational interest will have access to a student’s educational records. The Board approved directive for implementing the provision of the Family Educational Rights and Privacy Act is contained in the document “Student Educational Records,” and is available at http://www.ehandbooks.dadeschools.net/policies/91/SER. FERPA's legal statute citation can be found in the U.S. Code of Federal Regulations for Title 34; (20 USC section 1232g; 34 CFR Part 99).

Education records include a range of information about a student that is maintained in schools in any recorded way, such as handwriting, print, computer media, video or audiotape, film, microfilm, and microfiche. Examples are:

1. Date and place of birth, parent’s address, and where parents can be contacted in emergencies;
2. Grades, test scores, courses taken, academic specializations and activities, and official letters regarding a student’s status in school;
3. Special education records;
4. Disciplinary records;
5. Medical and health records that the school creates or collects and maintains;
6. Documentation of attendance, schools attended, courses taken, awards conferred, and degrees earned;
7. Personal information such as a student’s identification code, social security number, photograph, or other information that would make it easy to identify or locate a student.

Personal notes made by teachers and other school officials that are not shared with others are not considered educational records as long as they are kept private by the maker of the record. Additionally, law enforcement records created and maintained by a school district law enforcement unit are not education records.

Parents or eligible students are guaranteed the right, upon request, to inspect and review their children's records and to obtain copies of them under federal and state laws. Parents are guaranteed a right of "meaningful" access to copies of their children's records. The parent or eligible student also has the right to request that a school correct records which he/she believes to be inaccurate or misleading. The parent’s rights extend to any lawyer, lay person, or advocate whom the parent authorizes to represent him or her. Access must be granted within 30 calendar days from the initial request.

NOTE: The Florida Department of Education (and all state education agencies) is required to afford parents and eligible students (students who are 18 years of age or older) to access educational records the state agency maintains, e.g., state achievement tests.
