STUDENT AWARDS — A BIG BENEFIT

Each year thousands of worthy SAIT Polytechnic students receive $3.6 million in awards, scholarships and bursaries from our donors. A student award can mean the difference between attending SAIT or not, or having to work and taking longer to graduate. We believe that helping students manage their debt load before they graduate will make it easier for them to start their careers off right, and start giving back to the community sooner.

Knowing that people they’ve probably never met before care about their future is the overwhelming sense of gratitude students feel when they win an award. Here is what some of SAIT’s award recipients have to say:

“As a student returning to post-graduate studies and risking much to follow my passion, it has not been a path void of challenges. Receiving this generous award has lifted a huge burden off my shoulders, but more importantly, has reinforced my determination to follow through with my program while performing at my highest ability.”

— Ranjene Muzumdar, Film and Video Production '11

“My family arrived here as landed immigrants two-and-a-half years ago and tried very hard to assimilate to the culture, weather and environment. This award is a manifestation of acceptance, telling me that I am a part of this country, Canada.”

— Manuelito Malveda, Power Engineering Technology '11

“With awards like these we can concentrate on our studies, especially during exam time, without having to worry as much about money. This award helps me financially, but it also makes me feel good to be recognized for my hard work and dedication to my studies.”

— Jude Polsky, Architectural Technology '11

“Working on cars and building a career around cars is something I have wanted to do since I was a little kid, and now I will be able to fulfill that dream with the help of this scholarship. It will lessen the amount of student loans that I will have to take to pay for tuition and tools. Hopefully I will become successful enough so that one day I can donate to a scholarship and give other students the same opportunity that I was given.”

— David Million, Automotive Service Technology '11

“Having two young children and attending school full time is not easy, but now I can breathe easier and not focus on worrying about money. This award has also given me the opportunity to demonstrate to my daughters that hard work and dedication pays off.”

— Sigcwalisiwe Ntaka, Business Administration '11

“Entering the Diagnostic Medical Sonography field is a career change for me and it was a choice that was not easy to make. There were many issues to contemplate before making the decision. This award is a validation of that decision and is encouragement to strive for the constant improvement of oneself.”

— Marina Choy, Diagnostic Medical Sonography '11

We often hear from our donors about the many reasons they give – to honour relatives, to support specific programs they feel passionately about and to leave legacies. But they all give to make a difference in a student’s life. They give because they want to help students achieve their dreams and be successful. Through the strong support of our donors, many of whom are SAIT alumni, the number of awards will continue to grow.

Read on, apply and take advantage of $3.6 million in awards available to you as a SAIT student.

WELCOME TO SAIT POLYTECHNIC

Whether you are just starting out in your first semester or finishing your last and getting ready to graduate, you’re now well on your way to a new and exciting career. SAIT is committed to helping you achieve success by providing you with the best possible education.

Alumni and Development is part of that commitment and we hope we have an opportunity to meet you and be part of your educational experience.

We work for you in a number of ways:

The SAIT Student Awards Program – We are proud to offer $3.6 million in awards to students in almost every SAIT program. Awards are available to all qualifying SAIT students in recognition of academic success, financial need, community involvement and much more. This guide gives you all of the information you need to help you apply. But don’t hesitate to call us at 403.284.7010 if you have any questions.

Connections to Industry – Get involved with your student club and get connected to alumni and other industry leaders. Together with the Student Clubs Board we host a number of networking events that will connect you to your industry – a great way to learn more about your future career and to meet people who may someday become your employer.

Free Business Cards for Graduating Students – If you are a member of the Class of 2012, watch in the coming months for your free business cards. We want you to succeed in and out of the classroom.

These are just a few of the many opportunities that are coming your way. Watch The Weal, mySAIT.ca, the Alumni and Development and SAITSA websites for details. Catch up with SAIT Alumni on:

Spend time with the Alumni and Development team. Volunteer! You’ll gain experience to add to your resume, meet industry professionals and stay connected with fellow alumni. For more information or volunteer opportunities, visit alumnilink.ca or email alumni@sait.ca.

From the moment we welcome you on campus to the time when we help you succeed in your chosen profession after graduation, we will do all we can to support your goals. We look forward to meeting you and seeing you throughout the year. Drop by our offices at any time. We’re located in room MA 113 in Heritage Hall.

On behalf of the Alumni and Development team, I wish you a great year and continued success.

Director, Alumni and Development
AWARD TYPES
SAIT offers more than 3,250 awards to its students, with most falling into one of the following four categories: Entrance, General, School—Nominated and Government.

ENTRANCE
Entrance awards are designated for students who are beginning a new program. In some instances they are program-specific and in others, students in all programs may apply.

The 2012–2013 Entrance awards will be available commencing November 2011 and will be open for application until May 2, 2012. In November, please visit Student Awards at sait.ca or look in the Entrance Awards Guide to see a listing of these awards.

GENERAL
General awards are undesignated awards that, in most circumstances, any student in any program may apply for if they meet the criteria outlined in this guide.

SCHOOL—NOMINATED AWARDS
These awards are designed by the academic school and are program specific. Contact your Academic Chair for more information on applying online. SAIT awards take the form of bursaries, prizes or scholarships.

Bursary – Financial need is the primary criteria used for selection, however, other criteria may also be included.

Prize – Non-cash awards including such items as plaques, medals and prizes awarded for a specific accomplishment (academic or non-academic).

Scholarship – Academic achievement is the primary selection criteria, however, other criteria may also be included such as financial need, community involvement, etc.

GOVERNMENT FUNDED
These awards are issued directly by the government. All details on these awards can be found by visiting alis.alberta.ca/scholarships.

AWARD CRITERIA
SAIT awards are given based in whole or in part on the following criteria:

Academic Achievement – A pre–determined Grade Point Average (GPA).

Financial Need – Financial need is determined by assessing a student’s income and expenses for the academic year. Students receiving student loans may still be considered in financial need.

Community Involvement – Participation in community events, volunteer commitments with non–profits and/or charities, and involvement in extracurricular activities such as sports or church is important to include in your application.

**Some awards may include additional criteria as specified by the donor. Some examples may include your family status, your heritage or your chosen profession. Please read through the guide carefully to ensure that you meet all of the criteria and apply only for the awards for which you are eligible.
GENERAL INFORMATION

WHO MAY APPLY?
If you are enrolled at SAIT as a continuous, full-time student or apprentice you may be eligible to apply. There are exceptions for part-time and distance learning students that are outlined in the guide, so please review the criteria carefully.

I'M AN INTERNATIONAL STUDENT – AM I ELIGIBLE?
Yes, students who are citizens of countries other than Canada and who have been accepted at SAIT on a student visa are eligible for SAIT student awards. In order to collect the award however, an international student must have either a Social Insurance Number (SIN) or an Individual Tax Number (ITN). International students should contact the SAIT International Student Office for details and assistance. The office may also suggest other awards that are directed specifically to international students.

IF I WIN AN AWARD – HOW WILL I KNOW?
SAIT Alumni and Development will notify students selected for awards within four months of the application deadline. Recipients will receive an email, telephone call or written notification as to when the award may be obtained.

HOW TO APPLY
All applications can now only be accepted online at mySAIT.ca. Click on the myStudent tab and look under the Finance Information section for Scholarships and Awards. By typing in your student ID, only the awards you are eligible for based on your program will be viewable. One application form lists all the awards you are eligible for – simply check off the awards on the form. Apply anytime, anywhere. It's that simple.

APPLICATION DEADLINES
APPLY ONLINE AHEAD OF TIME!
Please pay specific attention to deadlines for each unique award. Note that deadlines are firm and cannot be extended.

APPLICATION TIPS
READ THE CRITERIA
Read the conditions for each award carefully. Please do not apply for an award if you do not meet the essential criteria. This will save you time in the essay section by eliminating essays that you do not have relevant information for.

A WORD ABOUT YOUR REFERENCES
Choose your references with care. Employers, religious leaders, community leaders, teachers and instructors can serve as excellent references. Ideally your references should have known you for a minimum of six months. Avoid using members of your family, best friends or roommates. Please advise your references of the award for which you are applying and inform them of the specific criteria of the award so that, if required, they may indicate why you are a suitable candidate. They should always try to address your current attributes and skills.

FINANCIAL INFORMATION
If you are applying for any awards that have financial need as a criteria, you must fill this section out. Please provide accurate information on monthly expenses and income. If you are unsure of exact amounts, please provide an estimate.

ESSAYS, WRITTEN DOCUMENTATION, SPECIALTY CRITERIA
Please read these sections carefully and answer the questions as specifically as you can. It is best to provide as much detailed information as possible.

TAXATION OF SCHOLARSHIPS AND BURSARIES
The full amount of scholarships, fellowships, or bursaries are not taxable and are no longer reported as income on your tax return. The scholarships, fellowships, or bursaries must be received by you as a student with respect to your enrolment in a program that entitles you to claim the Education Amount (Form T2202, Education and Textbook Amounts Certificate). If you are not eligible for the education amount, report on line 130 only the amount that is more than $500.
For Government funded awards, the T4As are issued by Alberta Advanced Education – Students Finance will show the tax amount of scholarships and bursaries in Box 28 – Other Income. Box 38, shows the footnote code as 05, which is for Scholarships/Bursaries. This amount should not be reported on your tax return, as long as you are eligible for the Education Amount (Form T2202, Education and Textbook Amounts Certificate).”
If you are unsure of your tax status, contact the Canada Revenue Agency at: 1.800.959.8281 or cra.gc.ca.

PLEASE NOTE:
• All awards, amounts and numbers of awards, as listed in the guide, are subject to receipt of funding. In the event of program cancellation, awards will be reallocated to a program area designated by Alumni and Development.
• If there is a discrepancy between the published award criteria or value and the official award documentation located in the Alumni and Development department, the official documentation is deemed accurate. Award criteria and values are subject to change.
THANK YOU FOR INVESTING IN SAIT POLYTECHNIC’S STUDENT AWARDS PROGRAM. YOUR SUPPORT PROVIDES $3.6 MILLION IN BURSARIES, SCHOLARSHIPS AND AWARDS TO OVER 3,250 STUDENTS EACH YEAR.

Your help removes financial barriers and allows men and women to focus on their studies. SAIT is proud of the many large and small businesses and individuals that contribute to student awards which inspire our students to achieve success.

If you would like to contribute to the SAIT Student Awards Program, please call Alumni and Development at 403.284.7010. We would be pleased to provide you with more information on how you can help SAIT students achieve their career goals.

ELIZABETH STEINBURG
MOM IN A NON-TRADITIONAL TRADE

Elizabeth Steinburg was a high school math teacher for ten years before deciding to make a career change. She traded her classroom and chalkboard for the world of electrical motors, transformers and digital electronics.

Steinburg enrolled in SAIT’s Electrical Engineering Technology (EET) program. “A big part of the decision was that a lot of my fellow teachers were being laid off. I looked at the future of the teaching profession and realized it wasn’t going to get a lot better,” says Steinburg. “I’ve always followed a non-traditional path. I’m good at math and physics and I knew there was a lot of math and theory in the EET program.”

Deciding to come back to school wasn’t just a personal decision; it was a family decision. Steinburg has two young daughters at home. Steinburg knew her student loans weren’t going to provide enough family income, so she enlisted the help of the Student Awards Guide.

“I have a very well marked catalogue of all the different scholarships,” says Steinburg. “For the rewards, it really isn’t that much work. I spent maybe an hour tops filling out the online forms. It’s important to me because I needed all the help I could get.”

Steinburg’s work ethic and program choice made her the perfect candidate for the CN Scholarship for Women, an award that recognizes women in a non-traditional trade. She also received the Norman Bakken Memorial award, which is determined by the positive attitude of the applicant.

Steinburg says that the awards provided “a little extra wiggle room for birthday presents and other family expenses. It’s nice to have that cushion that scholarships provide.”

The big celebration will happen when Steinburg walks across the stage and graduates from Electrical Engineering Technology at SAIT in 2012.

“The whole country is my oyster! First of all, I would really like to find a job in the industry. I’m also looking forward to being flexible with time and money again...it’s going to be really exciting!”

When I came to Canada, I could not speak English very well so I worked labour jobs, which was very tough on the body," says Xumei Chen. "I had a workplace accident that injured my leg and I realized I had to go back to school and learn English."

Like many immigrants, Chen lacks English language skills but has a great deal of education. Chen holds a degree in Textile Engineering and a certificate in International Business from Chinese post-secondary institutions. When the textile industry took a downturn, Chen became a consultant helping foreign investors do business in China. After he was laid off in 1999, Chen applied to come to Canada as an independent immigrant ready to start a new life.

Before Chen could enrol in a post-secondary program in Canada, he had the enormous task of learning English. He studied English as a Second Language at Chinook Learning Centre and after 16 months of classes he was able to enrol in SAIT's Business Administration diploma program. Chen's perseverance and dedication paid off when he was awarded the Hong Kong Canada Business Association award.

"Winning the award was very encouraging for me because my hard work had been recognized," says Chen. "My English isn't fluent, and at my age, I must take more time to study to get good marks. It was very motivating and inspiring."

With a SAIT Polytechnic diploma added to his list of accomplishments, Chen is mapping his future with further education. His goals are to work part-time while completing a bachelor's degree in finance and to open a small restaurant in China.

SABRINA FORTH
CARING AND COMMITTED

Sabrina Forth knew she wanted to work in health care before she finished high school. She loved biology and chemistry classes and a discussion with an old friend opened her eyes to the career possibilities available to her in SAIT Polytechnic’s Nuclear Medicine Technology program.

“I talked to my friend who used to babysit me when I was little. I asked her what she was doing for work. She was a Nuclear Medicine Technologist so I did some research and asked her if I could go to her workplace for a job shadow,” says Forth. “She set me up at Peter Lougheed Hospital and I fell in love with Nuclear Medicine.”

As a second year student, Forth worked a 32-hour per week practicum at the Lougheed while completing her online required school courses. All that hard work paid off when she received the EFW Radiology – Percy Kung award. Forth says she’s glad she took time to apply. “When I received the email from the awards department I called my mom and was jumping with joy. I didn’t expect to win the scholarship.”

Forth has some advice for other students, “Apply for whatever you can. You have nothing to lose. Get your name out there. You don’t need a perfect GPA. If you fit the criteria, apply for it.”

As Forth gets ready to embark on her career, she reflects on her time at SAIT. “It’s been the hardest two years of my life. It’s a very tough program but I am very fortunate I was accepted and I loved the practicum – which is real world experience.”

Forth says she plans to continue working and studying. She hopes to eventually work on a degree in Medical Radiology.

Many students attending school full time face a variety of challenges but Brandi Johnson's was bigger than most. “I was born with a degenerative hip disease that prevents me from walking or standing for long periods, so I use a scooter to get around. God blessed me with computer skills and I find sitting at a computer helps.”

Johnson enrolled in SAIT Polytechnic’s Digital Graphics Communications diploma program to expand on her Multimedia Web Design Certificate from Red Deer College. “I learned a lot about website coding in college, but I really like the design side of things and SAIT teaches both the design and print aspects of Digital Graphics.”

Painful hip treatments didn’t get in the way of Johnson’s drive. As well as completing her studies, she used her skills to create a non-profit organization that benefitted cancer patients in her home town of Red Deer. “I designed and edited a cookbook – The All Love Cook Book – with profits from sales going to local cancer patients who can’t afford transportation to their appointments. The patients receive gift cards they can use for gas,” says Johnson.

Johnson’s selfless attitude and dedication to helping others earned her two scholarships: the government-funded Dr. Gary McPherson award for individuals with outstanding leadership qualities related to improving the lives of others and SAIT Polytechnic’s Alberta Blue Cross 50th Anniversary award. “Winning the scholarships has helped tremendously, I feel truly blessed. The awards have helped pay my tuition, my rent in residence and my books without having to rely heavily on my parents and student loans.”

Johnson’s future goals are to open her own home-based print company while still volunteering her time at a cancer centre in Red Deer.

IRFAN AND UTHMAN ALIMOHAMED
NAVIGATING THE SKY

Irfan and Uthman Alimohamed are brothers who share a passion for airplanes. They each received their commercial pilot’s license in their native Kenya. The two decided to come to Canada to expand their skills in the aviation industry. They came to SAIT to study aircraft structures.

“In today’s world you need something to fall back on. Pilots worry about their health. If you get sick or injured it could become a big factor in your career. If something happens to put an end to flying, it’s good to have other skills. That’s why we decided to get into the Aircraft Structures Technician program and to study Aircraft Maintenance Engineers Technology. They are related to planes and that’s what we love,” says Irfan.

Because they studied two programs at SAIT, the brothers encountered some serious economic challenges resulting from the international student fees. Fortunately Irfan and Uthman were able to ease their financial burden with help from family, by working part time and by applying for student awards.

“We studied at the Aero Centre and there were lots of notices about various scholarships on bulletin boards. We also attended an orientation for international students that featured a guest speaker encouraging students to apply for SAIT awards,” says Irfan.

Irfan received one award, the Alberta “75” Foundation (Gliding) award. Uthman received two, the A.A. Peebles Memorial and the DC Fleming/SAIT’s Alive awards.

The brothers say their awards will reduce their financial burden and will ease their transition into the work force.

“We’ve been putting money aside for flying and we are building a reserve. It was a good boost to our savings.” say Uthman.

With new SAIT credentials under their wings, Irfan and Uthman say they are feeling more secure about their future. Ultimately they aim to fly for Air Canada or WestJet.

STUDENTS TODAY—ALUMNI FOREVER

SAIT Alumni and Development is committed to your success from classroom to career. You come to SAIT to complete your program and you’re here for just a short time. However, when you graduate you become a member of the SAIT Alumni family.

You will join 180,000 SAIT alumni who are creating, helping and innovating in 55 countries around the world.

Our alumni are CEOs and city councillors, documentary producers and master chefs. They build homes, lead oil and gas companies and volunteer in developing countries.

SAIT graduates win Emmy Awards, the Nobel Prize and receive the Order of Canada.

Good luck with your studies and we can’t wait to celebrate your success.
