Blackwoods Paykels sponsored Porsche GT3 driven by Jono Lester finished the Porsche GT3 Cup championship in 4th place. Over the weekend of March 14/15 the final round of the Porsche GT3 Cup was held at Pukekohe and was one of mixed fortunes for the Blackwoods Paykels car. Jono managed a 3rd a DNF and a 5th which was not quite enough to get him onto the podium for the championship. The last race meeting for the Blackwoods Paykels Porsche GT3 is at the Hamilton V8s over the weekend of April 18/19.

YOU CAN JUDGE A HOSE BY ITS COVER

Washdown hose covers can be a breeding ground for bacteria, especially in the food processing industry. That’s why you need the defence of Fortress™ Washdown hose with Microban® Product Protection*. To bacteria, the cover of a Fortress Hose is a very hostile place. Microban Product Protection is an antimicrobial agent that’s effective against bacteria, mould and fungi that cause odours, stains and product degradation of the hose cover. Microban Product Protection inhibits the growth of the micro-organisms by utilising an electrochemical mode of action to penetrate and disrupt the cell walls. Upon cell wall penetration leakage of essential metabolites occurs, and other key cell functions are disrupted. These cells are the unable to reproduce, virtually eliminating the growth of undesirable micro-organisms.

*Microban Product Protection does not protect the user against food-borne illnesses and is not a substitute for good sanitary practices. Microban and the Microban symbol are registered trademarks of the Microban products Company, Huntersville, NC.

TSUBAKI CORROSION RESISTANT CHAIN

Tsubaki DP and NEP chain employs an innovative metal coating process that allows a carbon steel chain to be used in watertight conditions without corroding. The multilayer metal coating process is modified for different components of the chain balancing corrosion protection with water resistance to outperform alternative solutions many times over.

- Resistant to salt water spray for more than 500 hours
- Usable outdoors
- Coating does not reduce chain strength
- Does not use chromium, environmentally friendly.
- Sold per foot
