MKUKUTA II KEY PRIORITY RESULT AREAS

Ministry of Finance and Economic Affairs

January 25, 2010
Introduction
This document presents MKUKUTA II key priority results areas as currently conceived based on information gathered from several processes and consultations, beginning with MKUKUTA Reviews, consultations on issues for Review, and National Consultative Workshop, literature review (e.g. MAIRs, PHDRs, MDGR, Sector Reviews) conducted by the MKUKUTA II drafting team, and recently the MKUKUTA Review study reports. As such, what is presented is the earlier thinking that extends MKUKUTA II Annotated outline. It is an attempt to indicate gaols as well as envisaged operational targets under each goal.

The objective of the document is to instigate assessment and start building coherent and consistent vision of interventions needed to achieve results. Thus, by not mean, the proposed contents should not be considered final. The contents will continue to evolve with the Annotated Outline as drafting process gets enriched with outputs of review studies and consultations it. It is hoped that consultations on this document will improve this document and provide effective bridge from the Annotated Outline to the drafting MKUKUTA II.

CLUSTER I:
GROWTH FOR REDUCTION OF INCOME POVERTY

Broad outcome
1. Inclusive and accelerated growth achieved and sustained
2. Employment opportunities for all, including women and youth
3. Good economic governance enhanced and ensured

NB: More emphasis will be on agriculture, where the targets have been elevated in order to have discernible impact in poverty reduction. Also, recognizing the robust link between growth and reduction of poverty is through employment, more emphasis will on addressing the issue of unemployment and under-employment. Explicit issues of climate change will be limited to those related to food security in order to remain focused.

Achievement of the broad outcomes will be made possible through interventions coordinated under the following goals:

Goal 1: Pursuing sound macroeconomic management

Operational target will be:
- Macroeconomic stability maintained
