NOTICE OF COMPLETION AND AVAILABILITY OF FINAL ENVIRONMENTAL IMPACT REPORT
CITY CASE NO. ENV-2013-0911-EIR
RELATED CASE NO. CPC-2013-0910-GPA-SP-CA-MSC
STATE CLEARINGHOUSE NO. 2013041012

TO: Affected Agencies, Organizations, and Interested Parties

PROJECT NAME: City of Los Angeles Mobility Plan 2035 (MP 2035)

PROJECT LOCATION: City of Los Angeles

COMMUNITY PLANNING AREA AND COUNCIL DISTRICTS: All

The City of Los Angeles Department of City Planning (DCP) has prepared this Final EIR in compliance with Section 15121(a) of the State Guidelines and the City of Los Angeles Guidelines for the implementation of the California Environmental Quality Act (CEQA) California Code of Regulations (CCR), Title 14, Division 6 in order to inform the general public, the local community, and responsible and interested public agencies of the nature of the proposed projects, their possible environmental effects, possible measures to mitigate those effects, and alternatives to the proposed projects. Comments from interested parties are requested as to the content of the environmental information that is pertinent to each agency’s statutory responsibilities in connection with the proposed project.

PROJECT DESCRIPTION: The Mobility Plan 2035 (MP 2035) is a comprehensive revision of the adopted 1999 City of Los Angeles Transportation Element of the General Plan that will guide mobility decisions in the City through year 2035, coupled with supporting documents and discretionary actions to further align the City’s street standards, processes and procedures with the goals of the MP 2035. Proposed components of MP 2035 include: (1) Policies – that support identified goals and objectives; (2) Citywide General Plan Circulation System Maps (Highways and Freeways map) including information about Scenic Highways; and (3) Action Plan – that identifies programs that support implementation of the Plan’s goals and policies and aids the City in achieving its objectives (implementation of all or a portion of the Action Plan is incumbent upon staffing capacity and future funding). The Action Plan includes the Network Concept Maps that identify potential roadways for pedestrian, bicycle, transit, or vehicle enhancements as well as depicts existing freight movement facilities. The Networks take into consideration proposed and programmed projects from a variety of sources. MP 2035 is further supported by a Complete Streets Design Guide, an update to the Complete Street Standards (Standard Plan S-470-1) and a Five-Year Implementation Strategy.
The project does not authorize specific right-of-way improvements. Physical changes to the enhanced network system cannot occur without additional community engagement, design development and environmental review.

**DOCUMENT REVIEW:** If you wish to review a copy of the Final Environmental Impact Report (FEIR) or the documents referenced in the FEIR, you may do so by appointment during our office hours of 8am to 4pm, in Room 667, City Hall, 200 N. Spring Street, Los Angeles CA 90012. Copies of the FEIR are also at the following **Library Branches:**
