Master’s in Education

Your next step is here
You believe that teaching is more than a career. It’s a calling. You love what you do and you’re ready to do more because you believe that teachers can change the world.

Since we first opened our doors more than 80 years ago, DeVry University has been dedicated to helping people take the next step toward reaching their goals. At DeVry, you get more than an education. You get a partner who will help guide you on your journey, from choosing your first classes, to graduation and beyond.

Whether you’re just finishing your undergraduate degree program or have worked in education for years, a Master’s degree from DeVry University’s School of Education can help ensure that nothing stands in the way of building new skills, new knowledge and the confidence that you can do more and go further than you ever thought possible.

“Going to DeVry was the best decision I ever made.”
- Amanda Tameling, Alumnus

The world of education is changing.

Taking you in new directions.

And you’re ready
to go further.

As education funding continues to be a challenge and demands on educators increase, you are constantly working to do more with less. Graduate education can give you the tools to make the most of the resources you have within your school or district, and can help you make a difference for your students, fellow educators and even your community. When you graduate from DeVry University, you can have more than a degree — you can have:

• Training and credentials that empower K-12 educators to take on greater leadership roles within a school or district
• A degree that may result in greater compensation
• Skills and training that can support a variety of career directions within the K-12 setting

The state of education has changed dramatically over the past few years. State and local funding can be unpredictable, and some states are transitioning to a performance-based culture. This means there is more demand than ever for educators to stay at the top of their game. Today’s leaders in education must have the skills, training, and management and business acumen to adapt to a constantly changing environment. Here are just a few examples:

**Performance and accountability** – K–12 administrators increasingly have oversight of many business-oriented aspects of managing a school district, such as human resources, finance, organizational structure and public policy.

**Licensing** – K–12 teachers, administrators and educational technologists all require one or more state licenses to practice, although requirements vary by state.

**Technology** – At least $900 million in funding is designated for numerous educational technology initiatives through the American Recovery and Reinvestment Act as outlined by the Department of Education.

Investing in your education can be one of the most effective steps you can take to compete and thrive in today’s schools. DeVry University can help you discover new career opportunities, learn the skills to fit those opportunities and position yourself to reach your goals.

> "I was at a job fair and showed four employers my DeVry credentials. All of them had the same question: When can you start?" - Kris Braddock, Alumnus

Education designed for real life.

The DeVry Master’s degree program in Education is offered through our School of Education, which is part of the College of Liberal Arts and Sciences. Our Master’s Degree program in Education consists of graduate courses, as well as three specific areas of concentration. Concentrations include courses focused on the area of study. In addition, the School of Education offers three graduate certificate options.

Our Master’s degree program in Education focuses on grades K–12, and provides a broad understanding of management, instructional leadership, policy, research and technology within educational environments.

Concentrations

The Master’s degree program requires 36 credit hours for completion and is available with one of three concentrations:

• Curriculum Leadership
• Educational Leadership
• Educational Technology Leadership

*all courses are worth 3 semester-credit-hours each

School of Education

• Master’s in Education with a Curriculum Leadership Concentration
• Master’s in Education with an Educational Leadership Concentration
• Master’s in Education with an Educational Technology Leadership Concentration
• Master’s in Educational Technology
• Graduate Certificate in Curriculum Leadership
• Graduate Certificate in Educational Leadership
• Graduate Certificate in Educational Technology Leadership
• Graduate Certificate in Educational Technology

“I wanted in and out of college so I could move on to bigger and better things. DeVry pushes you to stay focused so you can do that.”

- Alexander Hales, Alumnus
Your journey continues here
