CertainTeed is the acknowledged leader in vinyl siding, setting the standard for the industry. As such, we take seriously our commitment to continue to provide innovative, quality products from a company of proven trust.

**First In Brand Use**
CertainTeed Siding has been rated #1 every year since 1997 in Brand Use by remodelers, builders and architects.

**First In Color With Lifetime Fade Protection**
CertainTeed offers an industry-leading spectrum of colors including unique, darker shades and semi-transparent stained blends for virtually unlimited design possibilities. Utilizing the PermaColor™ System – a blend of our own Certavin™ resin, superior micro-ingredients and state-of-the-art pigment chemistry – CertainTeed guarantees Lifetime Fade Protection on our vinyl siding, as well as impact resistance and durability. With CertainTeed siding, you’ll never need to paint and you can rest assured that your home will stay beautiful for years to come.

**First In Style**
CertainTeed siding is available in a wide choice of styles that complements any architectural design. Each has a unique look based on designs common to diverse geographic areas, or historical periods.

First In Performance
CertainTeed siding was the first designed to perform under high wind conditions through proprietary RigidForm™ technology. The concept is based on a rolled-over nail hem design that creates a reinforcing spine.

And Millennium siding offers the first patented Nail-Tight Flexible Hem with the only Won’t Blow-Off warranty in the industry.

First In Installation Innovation
CertainTeed is the only siding engineered to include an integral installation guide on each panel. The patented* STUDfinder™ Installation System is designed to help ensure a precise installation for optimum siding performance.

Protection Against Hidden Dangers
Precise installation contributes to wind load performance, and helps avoid nailing into anything located between the studs, like plumbing or wiring that could create a number of dangers.

Accuracy and Quality
STUDfinder is engineered to align nail slots precisely with construction standards of 16" and 24" on center, with indicator letters centered under each nail slot to make it easy to locate studs and help ensure accuracy.

* Patent numbers: 6,625,939; 6,679,011; 6,715,240
Siding: Cedar Impressions Triple 5" Perfection Shingles in buckskin.
THE NATURAL LOOK OF CEDAR SHINGLES
The Ultimate in Beauty and Performance

- Four classic styles:
  Double 7" Perfection Shingles
  Triple 5" Perfection Shingles
  Double 6-1/4" Half-Round Shingles
  Double 9" Rough-Split Shakes

- Natural cedar grain texture with a low gloss finish.
- Designed and tested to withstand hurricane force winds.
- Made of injection molded, durable polypropylene.
- Molded Perimeter Lock™ helps create a virtually seamless appearance.
- Up to 19 shingle colors with a wide variety of coordinating trim.
- 3/4" panel projection for D7", T5" and D6-1/4" 1" panel projection for D9".
- Virtually maintenance free, never needs painting.
- Lifetime limited warranty.

Designed for whole house applications or accents, Cedar Impressions® offers natural looking cedar shingle siding without the expense and heavy maintenance of wood.

Double 7" Perfection Shingles and Perfection Mitered Cornerposts in granite gray.

Matching Mitered Cornerposts  
Add a beautiful finishing touch to match your Shingle siding.
Molded Perimeter Lock™ creates a seamless look and holds panels securely together.

Ribs on the back of the panels add structural stability for extra protection against warping, cupping and distortion.

Extra-thick, durable polypropylene.

Reinforced nail slots assure secure installation.

The patent-pending Panel-Thermometer™ and temperature lines are designed to ensure precise installation.

Engineered for Performance

Extra-thick, durable polypropylene.
Siding: Double 7" Perfection Shingles in sterling gray.
Trim: 3-1/2" Lineals and Crown Molding in colonial white around windows.
Siding: CedarBoards Single 7” in natural clay.
Trim: Beaded SuperCorner in colonial white with colonial white inserts.
THE PERFECT BALANCE OF BEAUTY AND PERFORMANCE.
Four traditional styles:
Double 6” Rough Cedar Clapboard
Single 7” Rough Cedar Clapboard
Double 4” Select Cedar Clapboard
Double 4-1/2” Select Cedar Dutchlap

TrueComfort® custom contoured foam provides strength and rigidity for outstanding impact resistance.

Thick rigid foam backing increases R-value up to 22%.

Prevents air infiltration to inhibit drafts.
Absorbs sound for reduced exterior noise infiltration.
Compensates for minor wall imperfections.
Resists mold growth.
Insulation treated with fire retardant and insect repellent – contains no ozone-depleting chemicals.
Designed and tested to withstand hurricane force winds.
Low-gloss, cedar finish.
.044” premium thick vinyl.
Patented STUDfinder™ is designed for accurate and secure installation.
DuraLock™ post-formed lock design.
12 siding colors with a wide variety of coordinating trim.
3/4” panel projection for D6” and S7”.
5/8” panel projection for D4” and D4-1/2” Dutchlap.
Virtually maintenance free, never needs painting.
Lifetime limited warranty.

Accessories
A full line of accessories specially designed for use with CedarBoards siding include:

- Traditional SuperCorner™
- Standard corner
- 3-1/2” lineal
- Inside corner
- J-channel
- Starter strip
- Foam shims for standard accessories
CedarBoards Siding Features:

Natural cedar texture molded from real cedar boards

- **Straight Even Face**
  - with a flat surface for the look of wide board wood siding.

- **Deep 3/4” Straight-Edge Panel Projection**
  - for the clean look of newly-sawn wood.

- **TrueComfort® Custom Contoured Foam**
  - increases R-value and provides added strength and rigidity for a solid look and feel. Insulated vinyl siding resists impact up to 5 times better than traditional hollow vinyl siding.

The insulated core of CedarBoards siding can help meet the performance guidelines of an ENERGY STAR® qualified new home.
Siding: Millennium double 4" in colonial white.
Trim: Beaded SuperCorners in colonial white with colonial white inserts.
CHANGING THE FACE OF SIDING
Millennium’s innovative, technological features promise beauty, performance and durability.

- SMARTWALL TECHNOLOGY
  Patented nail-tight flexible hem and PermaFlex™ Suspension Cables allow panels to adjust to temperature changes and lay straighter on the wall.
- “Won’t Blow-Off” warranty – an industry exclusive.
- Two Classic Styles:
  - Double 4” Clapboard
  - Double 4-1/2” Dutchlap
- Low-gloss, select cedar finish.
- StudNailing™ indicators every 16”.
- DuraLock™ post-formed lock design.
- 14 siding colors with a wide variety of coordinating trim.
- 5/8” panel projection.
- .044” thickness.
- Virtually maintenance free, never needs painting.
- Class 1(A) fire rating.

CASE STUDY:
Hurricane Floyd Put Millennium to the Test

Nearby, a home sided with Millennium weathered the storm. Millennium siding is ideal in high-wind areas of the country. And if it ever blows off a wall, it will be replaced.
Exclusive SMARTWALL TECHNOLOGY

Millennium will adjust to the seasonal cycles of expansion and contraction – the leading cause of wavy walls. The incredibly strong, yet flexible PermaFlex™ Suspension Cables allow Millennium to adjust as the temperature changes and float over minor imperfections in the wall for a beautiful, flat appearance.

Patented Nail-Tight Flexible Hem
Nails securely to the wall.

With ordinary siding, laps can open up or “fish-mouth” over time.

With SMARTWALL TECHNOLOGY, laps stay tighter because panels can move as the wall moves.

Siding that is restricted in its expansion and contraction on your walls will become wavy and stay that way. This unsightly condition is called “oilcanning.”

Millennium panels with SMARTWALL TECHNOLOGY features lay straight and will allow your walls to adjust as temperature changes.

The incredible strength, yet flexible PermaFlex™ Suspension Cables are made of extremely tough and strong synthetic fibers so Millennium won’t rip off the wall!
Siding: Monogram Double 4” in flagstone.
THE NATURAL LOOK
OF PAINTED OR
STAINED CEDAR
Monogram’s industry leading color palette and coordinating trim colors offer a wide range of design possibilities.

- Widest color selection in the industry:
  23 solid colors
  8 wood-tone blends
  31 coordinating trim colors

- Four Classic Styles:
  Double 4” Rough Cedar Clapboard
  Double 4” Brushed Clapboard
  Double 5” Rough Cedar Clapboard
  Double 5” Rough Cedar Dutchlap

- Low-gloss, rough cedar or brushed finish.
- Patented STUDfinder™ is designed for accurate and secure installation.
- RigidForm™ 180 technology has been tested to withstand wind load pressures up to 180 mph.
- CertiLock™ self-aligning, post-formed positive lock.
- 3/4” panel projection.
- .044” thickness.
- Virtually maintenance free, never needs painting.
- Class 1(A) fire rating.
- Lifetime limited warranty.
- Works with Monogram 46L longer length siding.

Designability

Using the same color for siding and trim will simplify and unify a home.

Subtle contrasting siding trim colors adds interest to a home’s design.
The STUDfinder™ Installation System

STUDfinder is engineered with an integral installation guide on each panel, designed to help ensure precise installation for optimum siding performance.

RigidForm™ 180 Technology

This double thick .088" rolled-over nail hem design increases wind resistance and stiffens the panel. This design has been tested* to withstand wind load pressures up to 180 mph.

*CertiLock™

The exclusive CertiLock locking system features self-aligning multiple bends that snap together with an audible “click” to ensure a secure fit and more consistent installation.

Premium Thickness

Monogram panels feature a true .044" thickness for outstanding strength and durability.

3/4" Panel Projection

A 3/4" panel projection provides excellent rigidity for straighter-on-the-wall performance.

Strong contrast and a bold color scheme make architectural details stand out and can enhance the character of a home.
Siding: Monogram double 5" dutchlap in desert tan.
EXTRA LONG, EXTRA THICK SIDING

Longer Length Monogram 46L has the same great benefits as traditional Monogram, plus it reduces seams.

Extra Long - 16 Feet 8 Inches

Traditional Siding Panel - 12 Feet 6 Inches

- Two Classic Styles:
  16’ 8” Double 4” rough cedar clapboard
  16’ Double 5” rough cedar dutchlap
- Heavy-Duty .046” Thickness.
- Low-gloss, rough cedar finish.
- Patented STUDfinder™ is designed for accurate and secure installation.
- RigidForm™ 180 technology has been tested to withstand wind load pressures up to 180 mph.
- CertiLock™ self-aligning, post-formed positive lock.
- 12 siding colors with a wide variety of coordinating trim.
- 3/4” panel projection.
- Virtually maintenance free, never needs painting.
- Class 1(A) fire rating.
- Lifetime limited warranty.
- Works with traditional length Monogram siding.

The Difference is Seamlessly Clear

Long on Looks

With traditional 12’ siding panels, seams appear every two to three feet. The panel’s longer length significantly reduces seams – by at least 33%.

PermaCOLOR LIFETIME PAINT PROTECTION
Siding: Board & Batten in snow.
THE TRADITIONAL LOOK
OF ALTERNATING WIDE AND
NARROW CEDAR BOARDS

- Ideal for whole house or accent applications.
- 6-1/2" board with a 1-1/2" batten creates an
  8" wide panel with the widest vinyl board span.
- Flat face board design results in a straight,
  even surface.
- Straight-edged battens for a sharp, carpentered look.
- 1/2" batten height.
- 12'6" panels are 2'6" longer than competitive panels,
  offering installation and aesthetic advantages.
- Rough Cedar finish provides the look of
  saw-textured wood.
- 12 siding colors with a wide variety of
  coordinating trim.
- .048" premium thickness.
- Virtually maintenance free, never needs painting.
- Class 1(A) fire rating.
- Lifetime limited warranty.

Board & Batten vertical siding recreates the historic charm and
rustic cedar look of a centuries-old siding style originally applied
to log-built homes, barns and other early American structures.

**Sharp Batten Edge**
The straight-edged design of the batten creates a finely crafted,
real-wood look.

**Premium .048" Thickness**
Board and Batten panels have a thickness of .048" for the ultimate
in strength and durability.

**Rough Cedar Finish**
CertainTeed was the first to utilize a
direct transfer system from real cedar boards
creating a natural woodgrain texture.

**Flat Face, 6-1/2" Board**
CertainTeed's 6-1/2" board span is the
industry's widest, and is designed to have
a straight, even face with a flat surface
for a true cedar board appearance.

Trim: Beaded SuperCorners in colonial white with colonial white inserts.
Soffit: Triple 3-1/3" InvisiVent in colonial white.
Soffit Vents (intake)
The Air Balance System
Experts agree that the most effective system is a balance of air intake and exhaust that creates a uniform flow of air through the attic. This system creates a condition in which the roof temperature is equalized from top to bottom, supplying a uniform air flow along the entire underside of the roof deck.

Proper Ventilation is Vital
Protection against damage to the roofing materials and structure increase comfort inside the home and energy savings.

The Air Balance System
Experts agree that the most effective system is a balance of air intake and exhaust that creates a uniform flow of air through the attic. This system creates a condition in which the roof temperature is equalized from top to bottom, supplying a uniform air flow along the entire underside of the roof deck.

Hidden vents provide a smooth, flat non-perforated surface versus most vented soffits with unsightly perforations.

Solid Triple 3-1/3" panels are the ideal solution for accent areas where a vented panel is not necessary. The flat face design creates a straighter panel with the look of smooth, painted wood. Deep dovetails between panel faces contribute extra rigidity, while forming a clear, sharp edge that is pleasing to the eye.
Beaded Triple 2"
- Triple 2" wainscot style in solid and invisibly vented.†
- Designed for vertical siding, porch ceiling and soffit applications.
- Low-gloss, smooth finish of professionally applied paint.
- Extra-long slip-lock design helps provide secure installation.
- 6 select colors.
- .039" thickness.

Triple 3-1/3"
- Triple 3-1/3" style InvisiVent and solid.†
- The only vinyl soffit to provide more than 10 inches of net-free air intake.
- Concealed intake vents provide a smooth appearance.
- Low gloss, matte finish looks like freshly painted wood.
- Deep 3/4" panel projection creates sharp definition.
- Heavy-duty .044" thickness for rigidity.
- Available in 12 popular colors.

Ironmax™ Double 5"
- Double 5" style in solid and fully vented.†
- Extra-thick .046" construction for optimum strength and flat face appearance.
- Designed for vertical siding, porch ceiling and soffit applications.
- Unique post-formed lock design helps ensure secure installation.
- 23 low-gloss woodgrain colors with a wide variety of coordinating trim.

Universal Triple 4"
- Triple 4" style in solid, fully vented and center vented.†
- Designed for vertical siding, porch ceiling and soffit applications.
- Low-gloss, matte finish.
- Post-formed lock design helps provide secure installation.
- 25 color choices.
- .040" thickness.
