The 7 Habits of Highly Effective People® for Law Enforcement

Meet the Challenge of Policing in the 21st Century
You know the story: increased expectations and reduced resources. You and your personnel are committed to providing the highest level of service to your community, and you’re looking for ways to create partnerships that will meet the needs of citizens and other stakeholders. At the same time, you face new struggles with trust from the people you serve and stress within your organization.

Obviously these challenges exact a heavy price on you and your agency. But it doesn’t have to be this way. Not with The 7 Habits of Highly Effective People® for Law Enforcement workshop.

Franklin Covey has partnered with police professionals to design, tailor, and deliver this workshop to meet the specific needs of law enforcement. Based on the principles found in the No. 1 best-selling business book The 7 Habits of Highly Effective People by Stephen R. Covey, The 7 Habits® for Law Enforcement provides the most comprehensive foundation for fostering change and developing trust and teamwork within your organization.

Build the Character of Your People and Your Organization
True organizational change starts from the inside—from within each individual. When officers act on principle, rather than emotional impulses, they make the right decision, even in highly-charged situations. Implementing the principles of The 7 Habits for Law Enforcement helps you:

• Define yourself from within to be a more influential leader
• Increase productivity and enhance motivation at all levels
• Develop and communicate your organization’s mission, vision, and values
• Increase trust and teamwork in the community and within your agency
• Serve your community more effectively through a clearer understanding of citizen and stakeholder needs
• Balance all aspects of life by achieving and maintaining physical, emotional, and intellectual well-being
• Enhance the overall effectiveness and quality of your performance

Turn Three Days into 7 Lifelong Habits
Effective people are your agency’s most important asset. Healthy, long-term relationships rely on trust-filled interactions among law enforcement personnel and between citizens and agency personnel. The 7 Habits for Law Enforcement workshop is an inspiring three-day experience where you interact with other law enforcement professionals seeking to improve their personal lives and job performance by applying The 7 Habits. The knowledge and skills learned in this workshop are immediately applicable for line personnel, supervisors, and executives.

As you apply each of The 7 Habits, you will become a more effective leader while influencing the success and effectiveness of your agency or organization.
The 7 Habits for Law Enforcement

Implementing each of The 7 Habits helps develop leadership skills among law enforcement professionals and improves the success and effectiveness of your agency or organization.

1. **Be Proactive®**
   Promotes courage to accept responsibility and improve accountability in order to achieve goals and effectively solve problems.

2. **Begin with the End in Mind®**
   Provides common purpose and direction for police personnel. Focuses all police actions on sound principles of democratic policing.

3. **Put First Things First®**
   Emphasizes prioritization and individual action in accomplishing the most important things first.

4. **Think Win-Win®**
   Enhances problem resolution through the pursuit of mutually beneficial outcomes and develops effective partnerships within your organization as well as the community.

5. **Seek First to Understand, Then to Be Understood®**
   Fosters deeper understanding and communication through listening skills, resulting in heightened trust and timely solution of problems.

6. **Synergize®**
   Encourages greater buy-in from agency personnel and citizens, and takes advantage of diverse perspectives and ideas to discover new options.

7. **Sharpen the Saw®**
   Promotes life-long health, balance, and growth through social, emotional, physical, and intellectual renewal while preventing the negative effects of stress.
