Welcome to Hofstra Summer Camps

Hofstra University Summer Camps is proud to be in business for over 30 years. Our camp has provided three decades of campers with a supportive community that encourages the development of friendships and experiences that last a lifetime. It is a place where campers can enrich their physical, social and academic development.

**Hofstra Specialty and Learning Institute Camps** offer a wide range of cultural, athletic and academic programs to meet the needs of every camper. There are over 40 program areas to choose from that offer various registration options. Campers spend half the day in their chosen Specialty or Learning Institute program, and the other half of the day is spent in recreation and Red Cross instructional swim program.

If a camper would like to spend a full day immersed in athletics we offer our popular **Sports Academy Camps**. These camps, staffed by our Division I coaching staff and players, are a great way for young athletes from 2nd through 12th grade to improve their skills and passion for the game. Programs are offered in one-week or two-week sessions, and include basketball, soccer, softball, lacrosse, wrestling, volleyball, cheer and dance. In addition to the Sports Academy Camps, we are proud to have the nationally known **New York Baseball Academy (NYBA)** call Hofstra its home. The NYBA is considered one of the best teaching baseball camps in the country.

Hofstra Summer Camps is pleased to continue its partnership with Nassau BOCES in offering exclusive and stimulating programs for youth grades 6-11. Young people in these programs examine and experience future careers in culinary arts, veterinary science, graphic design, aviation, criminal justice, and more! If you have a camper that has aged out of our camp programs you may want to take a look at our **Precollegiate Discovery Programs**. It’s a great way to explore their interests and gain fundamental knowledge in a desired area.

Hofstra's knowledgeable and reputable staff focuses on teaching self-respect, courage and responsibility, while building campers’ self-esteem, self-confidence and character. Our camps offer far more than typical child care; we help campers discover their special talents and identify their goals and dreams. Additionally, campers have access to excellent indoor and outdoor athletic and cultural facilities on Hofstra’s beautiful 240-acre campus.

We invite you to learn more about our American Camp Association-accredited summer camps, tour the facilities, and meet our dedicated staff. We look forward to meeting you and satisfying your family's summer camp needs.

If you have any questions, please call us at **516-463-CAMP**.

For more information on Hofstra Summer Camps, general information, transportation and lunch, visit [hofstra.edu/camp](http://hofstra.edu/camp).

New York state law requires that each parent be aware of the following:

1. It is mandatory for all camps to receive an operating permit from the New York State Department of Health each year.
2. Camps are required to be inspected twice a year.
3. Inspection reports are filed at the Nassau County Department of Health at 200 County Seat Drive, Mineola, NY 11501.
4. Inquiries can be made to the Nassau County Department of Health, Monday-Friday, 9 a.m.-4:45 p.m.

Hofstra Summer Camps’ American Camp Association and Board of Health certifications are on display in the Camp Office.
Adventure Education
Grades 2-9 as of September 2016.
(half day of Adventure Education – half day of Recreation, including swim)

How do you learn to overcome obstacles? Our Adventure Education program is a great way! Modeled after the popular Project Adventure and Outward Bound programs, this camp will teach participants to face mental, physical and emotional challenges safely and confidently. Personal and social responsibility, trust, effective communication, problem solving, teamwork and cooperation are emphasized as campers sequentially work through ground-level, low-level and high-climbing challenges such as climbing walls and catwalks. With the resulting sense of accomplishment and a newfound recognition that seemingly impossible situations can indeed be overcome, successful adventurers feel like they’re on top of the world!

Program Co-Directors: Alyssa Parker and Stefanie Rude

Basketball
Grades 2-9 as of September 2016.
(half day of Basketball – half day of Recreation, including swim)

Great basketball teams are composed of great individual players who understand the game, their role in it, and their own strengths and challenges. Our coeducational basketball camp, staffed by knowledgeable high school and college-level players and coaches, helps players of all levels improve their basketball skills. Age-appropriate foundational drills help players with dribbling, shooting, passing, and offensive and defensive strategies. The first week of the camp emphasizes individual skills, while in the second week, players hone their teamwork and sportsmanship skills. This fun, competitive camp culminates in a full-court, five-on-five basketball tournament for those who wish to showcase their new skills. This camp is a slam-dunk for lovers of the game!

Program Director: Brian Maini

Bowling – SESSION 3 ONLY
Grades 2-9 as of September 2016.
(half day of Bowling – half day of Recreation, including swim)

From beginning bowlers to the more advanced, this bowling program is for you. Campers will learn about proper ball grip, pin movement, understanding the lanes, and tips and tricks to being a better bowler. Campers will strengthen both their physical and mental knowledge of the game while bowling four or five games per day. Don’t hit the gutters this summer and miss your chance to strike up new friendships. Join us in an air-conditioned facility and spend your time this summer becoming a King Pin!

Program Director: David Radtke

Cheerleading – SESSIONS 2 AND 3 ONLY
Grades 2-9 as of September 2016.
(half day of Cheerleading – half day of Recreation, including swim)

Three cheers for Hofstra’s Cheerleading Summer Camp! Young athletes will learn all the essential skills to lead the crowd and support the home team. Instructors work with students individually and in groups to help campers hone their cheerleading strengths, skills and ability to work well in groups in a safe and fun environment. Age-specific games, fundamentals training, jumps, dances and exercises will really get participants moving in the direction of their goals. The session concludes with a brief choreographed performance for friends and family to see.

Program Director: Jaclyn Ruggiero
Counselor Apprentice Program (CAP)
Grades 10-11 as of September 2016.
(Six weeks – Full day in the CAP program)

The CAP program is designed to teach you about how to build meaningful relationships with your peers and campers. You will also learn about the challenges and rewards of working with children with special needs, how to properly give CPR, and a comprehensive understanding of what it means to be a great counselor here at Hofstra. Our classes will supply you with all of the hands-on knowledge you’ll need and answer any questions you may have about being the best counselor you can be. In addition, there will be physical conditioning, athletic games and competitions, not to mention opportunities for socializing and team building with your peers. Of course the highlight will be when you choose from a variety of specialties and interact directly with the campers and counselors in a specialty, recreation or swim program. There are many options both athletically and academically to choose from. This program allows you to request the specialties that best fit your talents and interests. Your placement during the six-week program depends upon availability. At the beginning of the summer you will be given an opportunity to select your top three choices for placement, and we will do our best to place you in one or more during the summer.

The Counselor Apprentice Program takes you from learning the basics to actual leadership roles, where campers can look up to you for guidance, assistance and fun! After completion of this program, 15- and 16-year-olds can apply for a position at Hofstra Summer Camps the following summer. Please note that this will be based on availability and the written evaluation that you received during this program.

Program Co-Directors: Jeff Moss and Gerald Mastriocovo

Cub Camp
Kindergarten or grade 1 as of September 2016.

The Cub Camp is designed to offer a summer of fun and learning in an enjoyable and nurturing atmosphere. Your camper will engage in activities such as physical play, outdoor activities, academic skills, swim, arts and crafts, story time and field trips. Along with this, there will be an ongoing focus on the development of social skills and the opportunity to build friendships. As a special bonus, Cub campers will get the opportunity to explore many of the specialty camps that Hofstra offers. These specialty camps are available to your child in their future years as a Hofstra camper. The Cub camp is an ideal opportunity to introduce the young child to an amazing camp experience here at Hofstra.

Program Co-Directors: Mary McKay and Tom Livingston

Dance – SESSIONS 1 AND 2 ONLY
Grades 2-9 as of September 2016.
(half day of Dance – half day of Recreation, including swim)

Dance offers one of the most joyful ways to express yourself! This camp gives participants many options to do so, teaching a wide range of dance styles, including ballet, jazz, theater, hip-hop and lyrical. Skills development, fun and individual attention are emphasized in small classes. Campers have many opportunities to show off their moves, plus have the chance to be involved in every aspect of the final dance production, including selecting the music, developing the choreography, and making staging decisions. Participants will leave this camp with a wide repertoire of skills and knowledge that will help them flourish in the world of dance.

Program Director: Diana Quijano-Graham

Flag Football – SESSION 1 ONLY
Grades 2-9 as of September 2016.
(half day of Flag Football – half day of Recreation, including swim)

Learning about football should be as much fun as playing the game! Our knowledgeable coaches emphasize good sportsmanship, teamwork and fair play as participants learn the fundamentals of football, from first downs to touchdowns, in a safe and encouraging environment. Non-contact drills, games and scrimmages improve participants’ skills and knowledge, while helping them move from the bleachers to the field. The championship game will be held in one of Hofstra’s premier stadiums.

Program Director: Staff
Golf – SESSION 1 ONLY  
Grades 2-9 as of September 2016.  
(half day of Golf – half day of Recreation, including swim)  
Fore! That’s right – head’s up, pay attention, and don’t miss your opportunity to improve your golf game. From the U.S. Open champion to the PGA tour, all the golfers have one thing in common – they all began by practicing and learning new skills. Whether you’re swinging a club for the first time or trying to improve your skills before getting back out on the course, our summer golf camp is for you. Campers will improve their skills while participating in golf games and skill sessions. Campers will learn not only fundamental golf skills, but also proper etiquette, sportsmanship and rules. This specialty is a hole in one, so don’t miss out this summer with Hofstra Summer Camps Golf program.  
Program Director: David Radtke

Hofstra Art Experience  
Grades 2-9 as of September 2016.  
(half day of Art – half day of Recreation, including swim)  
Paint yourself a picture of a summer camp filled with fine art. This camp teaches age-specific art techniques, styles, and mediums using individual and small-group instruction. Whether you’re a beginning artist or already familiar with different techniques, this camp will offer you new and exciting ways to express your artistic vision.  
Program Director: Roberta Melnick

Ice Skating – SESSIONS 2 AND 4 ONLY  
Grades 2-9 as of September 2016.  
(half day of Ice Skating – half day of Recreation, including swim)  
Learn to skate with the pros! Twin Rinks Ice Center at Eisenhower Park, Long Island’s premier ice skating facility, is excited to partner with Hofstra Summer Camps. This program boasts a comprehensive lesson and evaluation system that helps campers maximize their development and enhance learning in a safe environment. All these elements — combined with the brand-new, top-of-the-line facility at Twin Rinks — make this a program not to be missed. Whether for ice hockey or figure skating or just skating for fun, this program has it all! No prior skating experience is required.  
Program Director: David Radtke

Improv Workshop – SESSION 1 ONLY  
Grades 2-9 as of September 2016.  
(half day of Improv Workshop – half day of Recreation, including swim)  
New actors and experienced actors can join the fun in this Improv Workshop. The goal of this workshop is to allow campers to develop the skills and confidence to help their individual creativity grow after the completion of camp. This workshop will teach campers how to take chances on stage, and to think quickly on their feet. We will teach the campers what it means to be a supportive cast member (both on and off stage). Campers will also learn acting technique through the use of stage games and creative acting exercises. Campers will work on scene building and character development while building self-confidence in an exciting and judgement-free environment.  
Program Director: Jaclyn Ruggiero

Marine Biology – SESSION 2 ONLY  
Grades 2-9 as of September 2016.  
(half day of Marine Biology – half day of Recreation, including swim)  
Did you ever wonder if someone really lives in a pineapple under the sea? Did you ever wonder what was really taking place down deep under the water? Campers will be introduced to being a marine biologist and the world down below in this hands-on program both on our campus and at some off-site facilities. They will learn about various marine plants and animals, the environments, take part in anatomy dissections, learn about coastal and marine conservation, and participate in many other exciting hands-on activities. Guest speakers will also talk about various careers opportunities within the marine biology field. Don’t miss your chance to dive into the world of marine biology this summer.  
Program Director: Chelsee Hudson
Musical Theater
Grades 2-9 as of September 2016.
(half day of Musical Theater – half day of Recreation, including swim)
Campers entering grades 6-9 must register for at least four weeks (sessions 2 and 3) 
Our exciting musical theater specialty gets campers moving with dance and warm-up activities and fun vocalizations. Campers gain valuable theater experience singing, dancing and acting on stage. To hone their skills, including proper breathing, phrasing, and how to use a microphone, students participate in “audition” performances. Positive feedback helps instill confidence so beginners feel just as comfortable as experienced thespians. Campers have the chance to be highlighted in solo or group musical numbers and to shine on stage in the fun and eclectic final performance.
Program Director: Philip Iconis

Science Education – SESSIONS 1 AND 3 ONLY
Grades 2-9 as of September 2016.
(half day of Science – half day of Recreation, including swim)
Someone once said, “Never trust an atom, they make up everything.” In its simplest form science is the idea of solving a problem or answering a question. In science camp children will have the opportunity to do exactly that. Campers will engage in fun hands-on experiments and will be exposed to many areas of science, including physics, chemistry, biology and more. This interactive camp program will challenge students to think, learn and grow. Students will develop scientific skills and self-confidence all while building friendships that can last forever.
Program Director: Chelsee Hudson

Soccer – SESSIONS 2 (FOR GRADES 2-5) AND 3 ONLY
Grades 2-9 as of September 2016.
(half day of Soccer – half day of Recreation, including swim)
Gooaaaalll! Hofstra Summer Camps is proud to offer our specialty soccer program. This program is designed to give players a chance to learn, practice and enhance their soccer skills. Participants develop fundamental techniques for passing, heading, shooting, trapping, dribbling and goal keeping, plus learn the strategies and rules of the game. Whether you are a new player or a more seasoned one, don’t miss your shot at reaching your goal of being a better soccer player, and come be a part of our soccer camp this summer.
Program Director: Staff

Tennis
Grades 2-9 as of September 2016.
(half day of Tennis – half day of Recreation, including swim)
Forehand, backhand and volley. These are the basic strokes of tennis. They’re easy to learn, but tough to master. This program offers a fun way to improve your tennis skills, whether you’ve never held a racket before or you are an advanced player.
For young novices, we start with the “10 and Under Tennis” (Quick Start) program, so the balls are less inflated and bounce lower and more slowly. This allows newer players to get to the ball and practice swing patterns successfully. As players progress, they’re introduced to more advanced material. The basic strokes eventually lead up to overheads, serves, approach shots, topspin, slices, etc. Players also learn scoring, strategy and mental toughness as they advance.
Each day closes with skill level-appropriate, fun, positive competitions. Campers must provide their own racquet.
Program Co-Directors: Sunny Fishkind and Edward Fishkind

Writing Arts Studio – SESSIONS 2 AND 3 ONLY
Grades 2-9 as of September 2016.
(half day of Writing Arts Studio – half day of Recreation, including swim)
In this program campers will be able to explore their interests and show off their writing talent. Campers are involved in an entire creative arts studio experience, from writing, collaborating and editing, to designing, publishing and publicizing. Each camper will learn what it is like to be a newspaper or magazine writer. Each session participants put out a publication that showcases a diverse variety of genres such as interviews, feature articles, photo collages, cartoons, poems and puzzles.
Program Director: Caitlin Jensen
3DM: 3D Printing and Animation

Grades 2-9 as of September 2016.

NEW FOR 2016!

(half day of 3D Printing and Animation – half day of Recreation, including swim)

This specialty course will have campers diving head first into the exciting world of 3D modeling and animation, and new for this year, 3D printing! Campers will have an incredibly fun time creating their own 3D art, including 3D characters, environments and animations – with no prior drawing or art experience required – and will bring their creations into the real world using cutting edge 3D printers! Whether you’ve seen it in video games, at the movies, or on TV, 3D animation is everywhere, and campers will be breaking into the industry using state-of-the-art software, MAXON’s Cinema 4D – the same software used by professionals to create many of the animated films you see in the movies! By the end of the course, each camper will have created a multitude of digital 3D models and animations complete with textures, lighting and other effects, as well as one to two 3D printed models to bring home for friends and family to see. Also, upon completion of the course, each camper gets the opportunity to take home an exclusive student copy of the powerful Cinema 4D software for free!

Aerodynamics and Design – SESSION 2 ONLY

Grades 6-10 as of September 2016.

(half day of Aerodynamics and Design – half day of Recreation, including swim)

This thrilling camp teaches participants entering grades 6 through 10 the principles of aerodynamic design in the most fun way possible. Campers enjoy hands-on learning using Hofstra’s subatomic wind tunnels, supersonic wing tunnel, and flow visualization water table to understand aerodynamic concepts such as what happens when fluids interact with objects; how the lift force causing airplanes to fly is generated by airflow over wings; why streamlining is beneficial to the performance of an automobile; and why the design of tall buildings needs to take into account the forces created by wind and the importance of velocity, pressure and friction. Campers also learn to measure flows using equipment like Pitot-Static tubes, hot wire anemometry systems, and force balance systems. Software will allow them to do real-time calculations to display results.

Program Director: Hofstra Associate Professor David M. Rooney

Bioengineering and Forensic Science – SESSION 1 ONLY

Grades 6-10 as of September 2016.

(half day of Bioengineering and Forensic Science – half day of Recreation, including swim)

Bioengineering is the field in which damaged or absent parts of the body (such as missing limbs or bad hearts) are replaced or supported with artificial substitutes (like prosthetics or pacemakers). Forensic science is the collection and scientific analysis of evidence after an event often leading to the solving of crimes.

Participants in this exciting camp learn the fundamentals of both topics hands-on, exploring stem cells, tissue engineering, heart dissection, cardiac mechanics, vertebrate histology, blood typing, hair and fiber analysis, fingerprinting, blood spatter analysis, paper chromatography analysis of ink, crash scene investigation and more. There’s no better way to learn how to help the world and have fun doing it!

Program Director: Hofstra Professor Sina Y. Rabbany

DNA: Jurassic Camp

Grades 2-5 as of September 2016.

UPDATED FOR 2016!

(half day of Jurassic Camp – half day of Recreation, including swim)

Dinosaurs are alive at Hofstra Summer Camps! In this exciting course, young campers are immersed into the fantastic prehistoric world of dinosaurs. Discovering and learning together as a class, our campers will travel through time, exploring the multitude of incredible creatures that roamed the earth from the Triassic, Jurassic and Cretaceous periods. Each day, campers will take part in exciting projects and challenges as honorary junior paleontologists, recording all of their discoveries in their dino-journals. They will participate in tons of fun science, art and technology projects, including dinosaur digs, visits to a paleontology lab, designing their own virtual dinosaur parks, and so much more, all while learning together and having fun doing what they love. Our Jurassic campers will see their science, math, technology, writing, creative and social skills soar this summer at Hofstra Summer Camps!
FDT: Fashion Design Tech  NEW FOR 2016!
Grades 4-9 as of September 2016.
(half day of Fashion Design Tech – half day of Recreation, including swim)
Are you a budding fashion designer looking for the newest ways to have fun with color, style and pattern while also learning the skills to create an exciting, personalized fashion collection?
In this high-tech course, our summer “fashionistas” will work on a number of fun projects designed to teach them about the rise of technology in the fashion industry, as well as the timeless fun of making handmade creations. Using cutting-edge 3D printers, drawing tablets and professional art software, our campers will create a multitude of garment designs and other projects, and will even manufacture their very own jewelry and accessories as they come to life from their own unique designs. A great emphasis is placed on working together as a design team, encouraging each other, and sharing ideas and suggestions throughout the design process. Campers gain a wonderful insight into the fashion industry, and of course, have tons of fun doing what they love!
TAKE IT AGAIN! You can take Fashion Design Tech all summer long! Both newcomers and veterans alike will have tons of fun creating new pieces for their fashion collection every time they take it!

Gifted Program
Grades K-7 as of September 2016. (Full day of the Gifted program)
Hofstra’s Gifted program is a full-day academic program designed to serve the educational needs of gifted girls and boys entering kindergarten through grade 7. This enrichment program employs inquiry-based learning techniques, experimentation, independent study, group projects and various other hands-on activities, making the experience different from a typical school curriculum. Throughout this program, campers will receive enrichment in various academic areas that will make their learning experience exciting and fulfilling.

While campers are grouped based on age, classes are designed so each camper can reach his/her full potential. Children who demonstrate intellectual abilities above chronological age expectations benefit greatly academically, socially and emotionally when they are grouped with their intellectual peers and exposed to challenging and enriching curricula. Campers may participate in the Gifted program for two, four or six weeks each summer.

Campers attending the Gifted program participate in four 50-minute classes per day. Two classes are taught in the morning, and two classes are taught after lunch. There is a recreational period held outdoors, during which campers are free to use this time however they choose, with the participation and suggestions of counselors and teachers. Each camper receives instruction in the humanities (which may include foreign language, creative writing and history), the sciences and mathematics. Each course is taught by a teacher who is New York state-certified in that content area. Courses run for two weeks and are coordinated with the regular camp sessions. Course topics are not repeated from session to session. Assessments of student performance are an integral part of the program.
Program Director: Danielle Sansone

Introduction to Programming: Python –  SESSION 1 ONLY
Grades 4-9 as of September 2016.
(half day of Introduction to Programming – half day of Recreation, including swim)
This course is designed for students to learn Python programming and basics of coding. Students will gain an understanding of what programming is; how to create, test and build upon their own programs; and see how they can use coding to help them in everyday life! Python is widely used in industry by companies such as Google and is a great language to learn programming and developing Web applications.
No Prerequisites Required.
Students are encouraged to bring a pen/pencil as well as a notebook to the program.

Introduction to Object-Oriented Programming –  SESSION 2 ONLY
Grades 4-9 as of September 2016.  NEW FOR 2016!
(half day of Introduction to Object-Oriented Programming – half day of Recreation, including swim)
This course will concentrate on a programming style known as Object-Oriented Programming where everything is an object. Students will build a number of different programs using the widely known programming language Java. Java is a key programming language for students looking into mobile app development. In addition, OOP helps to promote systematic and critical thinking while providing comprehensive solutions to real-world issues. The material covered in this course will provide the key building blocks for students to continue coding.
Prerequisites: Computer programming experience in Python, Java, C++, or C#.
Students are encouraged to bring a pen/pencil as well as a notebook to the program.
Math Skills – SESSION 3 ONLY
Grades 2-9 as of September 2016.
(half day of Math Skills – half day of Recreation, including swim)

In this exciting camp, our certified teachers review and reinforce the concepts students need to approach the next school year's math challenges with greater confidence. We apply math skills to real-world situations, such as shopping trips, preparing dinner, and going on vacation, and show campers how they can use those everyday interactions to keep their math skills sharp. Whether participants are straight-A students, struggling to keep up, or somewhere in between, they are sure to benefit from this fun and comfortable learning environment.

Program Director: Suzanne Juan

MIN: Minecraft Builders Club
Grades 2-5 as of September 2016.
(half day of Minecraft Builders Club – half day of Recreation, including swim)

It’s Minecraft Mania at Hofstra Summer Camps! In this fun, creative course, young campers use the ever-popular Minecraft video game to build their own worlds, solve puzzles, and create together! Campers work both individually and together in large teams to take on each day's exciting new challenges and events, such as various building and crafting challenges, team games and competitions, and much more. Campers will also start to see great connections between their Minecraft worlds and the real world around them as they take part and collaborate in fun class projects and discussions. While building and playing, campers will gain a great appreciation for math and science, and will see their creativity and social skills soar. Both newcomers and experienced Minecraft players are invited to have fun and learn together this summer!

MIN: Minecraft Modding Club
Grades 6-9 as of September 2016.
(half day of Minecraft Modding Club – half day of Recreation, including swim)

It's Minecraft Mania at Hofstra Summer Camps! This advanced course for older Minecraft players puts campers in the driver's seat, as they will be using the ever-popular Minecraft video game to work on a multitude of virtual building projects using advanced creative tools, as well as modify and hack into Minecraft itself to add custom features and edits. Each camper will have the opportunity to work both individually and in groups to construct complex structures, contraptions and entities; design original mini-games; and even modify Minecraft with original graphics, texture packs, and much more! While building, modifying, discussing and playing, campers will gain a great appreciation for math and science, and will see their creativity and social skills soar. Both newcomers and experienced Minecraft players are invited to have fun and learn together this summer!

Minecraft & Animation Flix – SESSION 1 ONLY
Grades 2-9 as of September 2016.
(half day of Minecraft & Animation Flix – half day of Recreation, including swim)

Everyone loves Minecraft! Let your imagination be your guide as you turn the popular video game into an exciting Minecraft world made out of paper. In this fast-paced camp, students will create up to five stop-motion animated flix! Each day you’ll use a new style of stop-motion animation, combining the favorites of past years with some completely new styles, making this camp new each year for everyone to enjoy! It’s the ultimate video animation camp where campers create, direct and film their movies in age-appropriate groups.

Flix downloadable within a month after camp ends.
Mobile App Development – SESSION 3 ONLY
Grades 4-9 as of September 2016.
(half day of Mobile App Development – half day of Recreation, including swim)
This course will bring students into the world of mobile application development. As Android usage continues to grow by leaps and bounds, both across smartphones and other devices, it is quickly becoming the go-to operating system for computers.
By the end of this course, students will understand the tools, philosophies and configurations that are at the base of all Android development. They’ll understand the challenges that accompany developing for the mobile environment and how to overcome these in order to build a terrific experience for their Android users.
The skills students will learn in this course will help them build amazing apps for smartphones and tablets and boost them toward exhilarating new opportunities in the future!
*Prerequisites: Introduction to Object-Oriented Programming.*
*Students are encouraged to bring a pen/pencil as well as a notebook to the program.*

**REACH**
Grades K-9 as of September 2016.
The REACH program is an exciting opportunity for campers with special needs to experience Hofstra Summer Camps with peers. The REACH program provides a safe and positive setting for campers with disabilities to be included in camp activities, and enjoy peer interactions, with supports and/or modifications when necessary (not applicable to Sports Academy Camps). The REACH program provides a perfect setting for ongoing interventions during the summer break. Campers have ample opportunities to socialize and enhance social and daily living skills.
*Program Director: Julie Duenges*

**REACH for Teens**
Grades 10-12 as of September 2016.
Transitioning from teenager to adult is challenging for everyone, and individuals with autism or other special needs may struggle more with this already difficult transition. The focus of the Hofstra Summer Camps REACH Program for Teens is on helping individuals with special needs become increasingly independent, develop better social skills, and improve daily living skills. Campers gain knowledge and confidence by taking field trips to local establishments such as the post office and the bank, and by participating in structured social activities. In the first year, participants explore various job fields and learn about general job and social skills, like writing resumes and practicing for job interviews. The second and third year of the program focuses on more specific job exploration in a field of interest to the participant and gives campers the opportunity to work on and off campus. Throughout the program, our Hofstra Summer Camp staff assesses how well students work in a group, and their interest in and comprehension of various tasks. Each camper is also assigned a knowledgeable coach/mentor dedicated to the camper’s happiness and success.
*Program Co-Directors: Erin Zanfardino and Marisa Moscato*

**Reading/Writing Learning Clinic**
Grades 2-9 as of September 2016.
(half day of Reading/Writing Learning Clinic – half day of Recreation, including swim)
In this specialty program, New York state-certified literacy specialists at Hofstra’s Reading/Writing Learning Clinic provide daily small-group instruction in literacy in a relaxed and engaging environment. The two-hour literacy block creates opportunities for author study, literature circles, and strategic reading and writing instruction to develop a set of flexible strategies to use while reading or composing texts. Students enjoy the wide range of fiction and nonfiction literature available in our children’s and young adult library collection and may make use of our digital technology to enhance their literacy experience. Whether you are looking to support literacy growth in a struggling reader or nurture the love of the written word through a literacy enrichment program, the Reading/Writing Learning Clinic offers something for everyone.
*Program Director: Michele A. Marx*
ROB: LEGO Robotics – SESSION 1 ONLY
ROB: Sphero Robotics – SESSION 2 ONLY
ROB: LabVIEW Robotics – SESSION 3 ONLY

Grades 2-9 as of September 2016.
(half day of Robotics – half day of Recreation, including swim)
Build and program real working robots! In this course, our camper engineers will learn the fundamentals of robot engineering as they program their robots to move, spin, throw, react, and compete before their very eyes. In Session 1, campers will use the renowned LEGO Mindstorms robotics kits to build and program their robots. Campers will work in small teams of two to four, strengthening their teamwork and cooperation skills. Together, they will program their robots to see, hear and perceive their surroundings using the light, touch and ultrasonic sensors. Campers will put their newly acquired skills to work in exciting class challenges, including obstacle courses, races, and much more. Expand your Robotics skills further in Sessions 2 and 3, and even earn a professional, personalized Robotics portfolio for completing all three Robotics courses over the summer!

Video Game Design Courses
In addition to many other subjects, GBA provides a wide array of Video Game Design courses for all ages and skill levels. While developing their games, campers apply and strengthen their math, logic, communication, concentration and critical thinking skills, as well as gain a great deal of self-confidence! By the end of every course, each camper acquires a fantastic working knowledge of the technical and artistic concepts necessary in designing video games, and will receive their own finished game to bring home for friends and family to play!

New for 2016, campers interested in mastery in Video Game Design will earn a special video game designer certificate and business card for completing three video game courses over the summer!

VG1: Video Game App Design: Legend of Adventure
SESSION 1 ONLY

VG1: Video Game App Design: Super Platformer Bros.
SESSION 2 ONLY

VG1: Video Game App Design: Click and Touch
SESSION 3 ONLY

Grades 2-9 as of September 2016.
(half day of Video Game App Design– half day of Recreation, including swim)
Design your very own mobile video game apps! In this course, campers will learn the fundamentals of video game development and app design as they design and program a fully functional video game from start to finish, complete with unique characters, levels, backgrounds, and able to be tested and played on a real mobile device! In Session 1, learn how to create a top-down action/adventure game, similar to games like the Legend of Zelda and Halo: Spartan Strike. In Session 2, learn how to create a side-scrolling platformer game, similar to games like Super Mario Bros. and Sonic the Hedgehog. In Session 3, learn how to create a mouse and touch screen-based game, similar to games like Fruit Ninja and Flappy Bird.

WHAT’S NEXT? Campers can repeat VG1 all summer as projects change each session, or they can move on to the 3D Game Design or Video Game Design Studio courses!
Structural Engineering – SESSION 3 ONLY

Grades 6-10 as of September 2016.
(half day of Structural Engineering – half day of Recreation, including swim)

If you love to build, whether it’s with blocks, LEGOs, or K’NEX, then you are an aspiring structural engineer!

This camp will connect your interest in construction with the bridges and buildings that surround us. Structural engineers are the individuals who design these bridges and buildings. Participants in this camp will learn how to analyze great works such as the George Washington Bridge and the Eiffel Tower through hands-on activities. Students will also develop an appreciation for the social and symbolic aspects of these works. Finally, students will build! In a set of workshops, students will build models of long-spanning roof structures and learn how physical models are important tools for a structural engineer.

Program Director: Hofstra Professor Edward M. Segal

VGS: Video Game Design Studio – SESSION 3 ONLY

Prerequisites: VG1 • Grades 6-9 as of September 2016.
(half day of Video Game Design Studio – half day of Recreation, including swim)

Make the game of your dreams! In this all-star course, campers who have honed their skills in previous video game development courses can take their creativity to a whole new level by taking on the role of director! This time, you get to decide exactly what kind of game you want to make from start to finish! The classroom becomes the camper’s own personal studio, where he or she can develop games using their own original ideas. Group discussions on game design take place every day, as we discuss and analyze games like Mario, Sonic, Pokémon and Minecraft to see what we can learn from them. Campers get plenty of time to work on their games, along with special one-on-one time with GBA’s highly skilled and experienced teachers who will guide them in planning out and developing their games. Campers who are ready to publish will even get to put their game up for sale on a real online game store!

TAKE IT AGAIN! Returning Video Game Design Studio campers are welcome to return this year to continue to build upon one of their existing games, or start a brand new one!

V3D: 3D Game Design featuring Oculus Rift

Grades 6-9 as of September 2016.
(half day of 3D Game Design – half day of Recreation, including swim)

For the first time ever at Hofstra Summer Camps, create fully 3D video games with Unity software and learn to code your games like the pros! In this advanced course, campers will see their game programming skills skyrocket as they learn to program their own 3D games using real, authentic coding. Campers will learn the same concepts and techniques that professional game programmers in the industry use every day, and will take their skills into a new dimension with all of the amazing new features that 3D brings to the table. This specialty course is a fantastic introduction to the world of computer science and professional game development!

VGA: Art and Sound for Video Games – SESSIONS 1 AND 2 ONLY

Grades 6-9 as of September 2016.
(half day of Art and Sound for Video Games – half day of Recreation, including swim)

Ever find yourself doodling your favorite video game characters like Mario, Pikachu and Kirby? Ever wonder how your favorite video game music and sound effects are created? If you’re interested in learning more about how the art and sound from your favorite games are made, or about drawing and music in general, this is the place for you! This exciting new course teaches campers the skills and techniques to create all forms of art and sound designed for video games, from minimalistic pixel art with 8-bit sounds, all the way to modern high-definition graphics and soundtracks. Working with high-tech drawing tablets and software, each camper will create a multitude of animated characters, worlds and special effects. Then, campers will create their own sound effects and original soundtracks with professional music creation software. Finally, each camper will see their work come to life when implemented into multiple finished video game projects. Campers of all experience levels are encouraged to learn and have fun together in this exciting course!
Aquatic Camp
Grades 2-9 as of September 2016.
If you love the water, this is definitely the camp for you! This fun and active camp will get you moving with activities like diving and swim instruction, personal water safety, team sports, water basketball, water polo, relays, and other games. Our certified water safety instructor tailors all activities toward the age and skills of the campers so that everyone is sure to have fun in a safe and supportive environment. The afternoon will consist of fun indoor and outdoor camp activities, like movies, karaoke, ice cream sundaes and scavenger hunts, just to name a few.

Cartooning Workshop
Grades 5-9 as of September 2016.
Bang! Zap! Pow! Creating cartoons is seriously fun business, and there’s a lot that goes into it – successful cartoons have succinct, punchy writing; great pencil lines; and excellent inking. This fun and interesting camp teaches participants the complete cartooning process, from creation to publication. Campers create their own characters, write and draw their own stories, and create color comics for the Web. Regardless of experience, campers will learn valuable skills and techniques in this workshop. The final project, a class comic book, lets campers show off their new cartooning skills. This program is a full day of cartooning.

Cub Camp
Grades Kindergarten-grade 1 as of September 2016.
This fun and nurturing camp is dedicated to the happiness and well-being of its campers. Youngsters enjoy activities such as arts and crafts, creative writing, music, science, and lead-up sports and activities, all tailored to help develop their thinking, exploring, reading and writing skills; physical well-being; and ability to make friends. And they visit and observe many specialty camps and receive instruction from the specialty counselors, which helps them explore their interests for the future. This program is an ideal opportunity for Cub campers to explore the camp experience and have the most fun that can possibly be packed into one week! The afternoon will consist of fun indoor and outdoor camp activities, like movies, karaoke, ice cream sundaes and scavenger hunts, just to name a few.

Earthquakes and Structures Camp
Grades 6-10 as of September 2016.
Have you ever been inside a building during a strong earthquake? If so, you would be amazed at how a building can hold up during such intense shaking. People who design buildings to resist strong seismic shaking are called structural engineers, and their designs are rooted in basic principles of earthquake engineering and structural dynamics. Participants in this exciting camp will learn the fundamentals of both of these topics in a fun, hands-on environment. Students will explore topics such as seismology, free and forced vibrations of structures, seismic ground motions, seismic-resistant structures, seismic shake-table testing, and much more. The afternoon will consist of fun indoor and outdoor camp activities, like movies, karaoke, ice cream sundaes and scavenger hunts, just to name a few.

Ice Skating
Grades 2-9 as of September 2016.
Improve your skating skills or learn to skate at the beautiful Twin Rinks Ice Center at Eisenhower Park, Long Island’s premier ice skating facility. Their professional coaching staff is led by former NHL and international players. The program boasts a comprehensive lesson and evaluation system that helps campers maximize their development and enhance learning in a safe environment. All these elements – combined with Twin Rinks’ top-of-the-line facility – make this a program not to be missed. Whether for ice hockey or figure skating or just skating for fun, this program has it all! No prior skating experience is required. The afternoon will consist of fun indoor and outdoor camp activities, like movies, karaoke, ice cream sundaes and scavenger hunts, just to name a few.

Note: Skate rental is included. All players must provide and wear their own helmets.

Live Action and LEGO Flix
Grades 2-9 as of September 2016.
Are you the next star director? Actor? Writer? Cameraman? You get to do it all in these live action flix! Make visions come true in these movies where campers act, write, direct, and more. We know you love LEGO’s and that you can create incredible worlds. Now it’s time to bring those worlds to life!
Minecraft Builders Club
Grades 4-9 as of September 2016.
In this fun, creative course, campers use the ever-popular Minecraft video game to build worlds, solve puzzles, and create together! Campers work both individually and together in large teams to take on each day’s exciting new challenges and events, such as various building and crafting challenges, team games and competitions, and much more! Campers will also start to see great connections between their Minecraft worlds and the real world around them as they take part and collaborate in fun class projects and discussions. While building and playing, campers will gain a great appreciation for math and science, and will see their creativity and social skills soar! Both newcomers and experienced Minecraft players are invited to have fun and learn together this summer.

Overnight Camp
Grades 4-9 as of September 2016.
When the camp day ends, the fun can continue, with our popular Overnight Camp. All campers in grades 4 through 9 who enroll in a Session 4 program can experience the fun of staying overnight in our residence halls. Campers enjoy an extended experience, and have the opportunity to make even more new friends, while creating lifelong memories in a safe and nurturing environment.
Note: Campers must register for a Session 4 program to be eligible for this exciting experience.

Raspberry Pi DIY
Grades 4-9 as of September 2016.
This one-week course focuses on hands-on projects where students construct a number of gadgets using the newest Raspberry Pi. This low-cost, credit card-sized computer is revolutionizing the programming world! It is a capable little device that enables people of all ages to explore PC hardware and software, all while learning how to integrate the two in a fun and exciting way. In this course we will be using the Raspberry Pi to interact with the outside world and for a wide array of digital maker projects. Examples of projects that have been done include creating your own Internet radio, a private VPN router, and a home arcade system!

Recreation Camp
Grades 2-9 as of September 2016.
Summer camp offers so many exciting choices – how do you choose just one? With this camp, you don’t have to. Campers enjoy an exciting week of diverse activities, including swimming, sports, arts and crafts, and special events. As always, participants can expect top-notch instructors and a safe and supportive environment for all activities. A wide range of adventures and fun are waiting for you! The afternoon will consist of fun indoor and outdoor camp activities, like movies, karaoke, ice cream sundaes and scavenger hunts, just to name a few.

STEM Marine Exploration Technology:
Design it! Build it! Drive it!
Grades 6-11 as of September 2016.
You will learn all about the history of marine exploration and underwater archaeology. You and your teammates will design and build an underwater remotely operated vehicle (ROV), test your design in Hofstra’s pool, and master a series of challenges for the final day’s competition. You will also participate in an antique “helmet dive!”

Travel Camp
Grades 2-9 as of September 2016.
Each day the Hofstra bus will leave to explore a different exciting destination in the New York Metropolitan area. Trips have included such great locations as Country Fair Amusements, Atlantis Marine World, NY Hall of Science, Fire Island, Boomers Amusement Park, Dave and Busters, fishing, and Adventureland. Experienced camp directors and staff guide the trips, and the tuition includes all admission fees, materials, lunch and round-trip transportation from Hofstra.

Travel Plus
Grades 6-9 as of September 2016.
Are you ready for bigger and better? With Travel Plus Camp we stretch the boundaries of trips and of fun and imagination. With early drop-offs and late returns, campers in grades 6 through 9 can explore new places farther away from campus. In the past, trips have included locations such as Medieval Times, Madame Tussauds, Liberty Science Center, Six Flags Great Adventure, Bronx Zoo, Statue of Liberty and a Major League Baseball game. Experienced camp directors and staff guide the trips, and the tuition includes all admission fees, materials, lunch and round-trip transportation from Hofstra.
Christine A. Nowierski Cheer Camp – SESSIONS 1 AND 4 ONLY
(All one-week camps have an option for transportation)
Grades 2-12 as of September 2016.
Cheerleading is extremely fun, but it’s also very demanding and competitive. This summer, novice and experienced cheerleaders have the opportunity to train with Christine A. Nowierski, head coach of Hofstra Cheerleading, and her coaching staff. Campers learn and practice the dances, jumps, stunts, pyramid building and gymnastics that winning cheerleaders need in their skill set while having a lot of fun in a supportive team environment.
This camp is open to any and all entrants (limited only by number, age, grade level and/or gender).

Dennis Papadatos Boys Wrestling Camp
This one-week camp is ONLY offered July 18-22
(All one-week camps have an option for transportation)
Grades 2-12 as of September 2016.
The Dennis Papadatos Boys Wrestling Camp is geared toward wrestlers who strive to learn the fundamentals of the sport. We teach and practice essential drills and techniques for beginning and advanced wrestlers. We also utilize wrestling videos and guest speakers as part of the learning experience, and campers interact with great coaches throughout this week. Instructors are current coaches and wrestlers at Hofstra University, a national power in wrestling.
This camp is open to any and all entrants (limited only by number, age, grade level and/or gender).

Emily Mansur Volleyball Camp – SESSION 2 ONLY
Grades 2-12 as of September 2016.
Maximum ball contact is the best way to get better at volleyball, and this all-day camp will let you get plenty of it! Campers will improve their age-specific fundamental volleyball skills, such as passing, setting, attacking, serving, defense and blocking through games and competition under the direction of Hofstra’s Volleyball head coach, Emily Mansur. Participants receive individual and team instruction to help them build a strong foundation of volleyball skills and techniques while having fun and making friends in a positive, healthy atmosphere.
This camp is open to any and all entrants (limited only by number, age, grade level and/or gender).

Hofstra University Softball Camp – SESSION 3 ONLY
Grades 2-12 as of September 2016.
The Hofstra University Softball Camp, under the direction of Hofstra’s assistant softball coach, Julie Meyer, along with other world-class players and coaches, will help players enhance their softball skills. Campers learn age-appropriate techniques for hitting, fielding, throwing, catching, base running and team play while having fun and improving their self-confidence in a friendly team environment. Campers come away with a solid foundation of tried-and-true softball techniques to bring to the field.
This camp is open to any and all entrants (limited only by number, age, grade level and/or gender).

Joe Mihalich Elite Boys Basketball Camp – SESSIONS 1, 2, 3 AND 4
Grades 3-7 as of September 2016. (Sessions 1, 2 and 3)
Grades 3-12 as of September 2016. (Session 4 ONLY)
(All one-week camps have an option for transportation)
It’s hoop time! This elite basketball camp is excellent preparation for basketball season, getting players in shape and improving their competitive skills. Our skill-of-the-day program allows players to better understand each fundamental technique and work to improve that particular skill throughout the day. Campers focus on skills like defense, dribbling and ball handling, reading screens, passing, shooting, moving without the ball, one-on-one-jab series, and developing a routine. Daily competitions let you put new techniques to work. Designed to be the ultimate off-season player preparation program, this camp is a must for any basketball player who really wants to get his game on.
This camp is open to any and all entrants (limited only by number, age, grade level and/or gender).

Kelly Olsen Dance Academy – SESSIONS 3 AND 4 ONLY
Grades 2-12 as of September 2016.
(All one-week camps have an option for transportation)
Kelly Olsen Dance Academy is structured to meet the needs of dancers who desire exposure to a variety of dance styles, including jazz, hip-hop and kick, with an emphasis on style, technical execution, flexibility, jumps, turns and performance. All dancers are evaluated by the staff and assigned to a level based on experience and skill. Kelly Olsen and her team work hard to meet each camper’s individual needs. The Hofstra Dance Team is a nationally recognized program with UDA College National Championship Titles in 2006, 2012 and 2013, and a top-three finish for the past two years.
This camp is open to any and all entrants (limited only by number, age, grade level and/or gender).
Krista Kilburn-Steveskey Girls Basketball Camp
SESSION 2 AND JULY 25-29 ONLY
(All one-week camps have an option for transportation)
Grades 3-9 as of September 2016.
Krista Kilburn-Steveskey Girls Basketball Camp is a perfect summer camp experience for an aspiring athlete who is looking to develop and refine her fundamental basketball skills. The camp features expert instruction, shooting techniques, agilities, games, fundamental stations, contests, and individual and team awards. The camp is designed to focus on skills that cover every aspect of the game. Players are grouped according to level of ability, and receive personalized instruction with an emphasis on enhancing a combination of individual and team skills and play. Fundamentals of the game are taught, demonstrated and drilled every day. Campers learn and hone their skills through hands-on instruction from the very best instructors Long Island has to offer. The Hofstra University Women's Basketball team will demonstrate techniques; develop campers’ skills in a fun, positive, championship-like environment; and encourage players of all abilities to be successful at the next level.
This camp is open to any and all entrants (limited only by number, age, grade level and/or gender).

Seth Tierney Boys Lacrosse Camp
This one-week camp is ONLY offered July 11-15 and/or July 18-22
(All one-week camps have an option for transportation)
Grades 3-12 as of September 2016.
An emphasis on instruction is the goal of Seth Tierney Boys Lacrosse Camp. Each one-week session is geared to boys who desire a full day of lacrosse training. The goal is to teach the fundamentals of individual, group and team lacrosse skills – stressing the importance of sportsmanship, teamwork and a strong work ethic – while offering a balanced, fun-filled experience for players trying to improve their game. Campers are placed on teams based on age and ability, but will be adjusted according to size, maturity and skill level following a full evaluation by the coaches. The day is divided into four periods: two practice sessions, lunch and an educational lecture and/or film, and the opportunity twice a week to swim. Players learn the fundamental aspects of dodging, passing, catching, shooting, individual defense, goalie play and face-off technique. In addition, players learn team skills such as team offense, team defense, riding, clearing and transition play.
This camp is open to any and all entrants (limited only by number, age, grade level and/or gender).

Shannon Smith Girls Lacrosse Camp
This one week camp is ONLY offered July 25-29 and/or August 1-5
(All one-week camps have an option for transportation)
Grades 2-12 as of September 2016.
We love lacrosse! This exciting lacrosse camp will help players improve their fundamental lacrosse skills with individual instruction, team practice and games. Hofstra's Women's Lacrosse Head Coach Shannon Smith, Associate Head Coach Katie Mollot, Assistant Coach Michael Bedford and Hofstra Women's Lacrosse players work with the campers to improve their catching, throwing, stick handling, dodging, shooting, draws, goal keeping, transition, groundballs, defensive and offensive strategies, and other techniques in a challenging, but fun and positive environment.
This camp is open to any and all entrants (limited only by number, age, grade level and/or gender).

Richard Nuttall and Simon Riddiough Soccer Camp
Grades 2-12 as of September 2016. (Sessions 1, 2 and 3)
Grades 7-12 as of September 2016. (Session 4 ONLY)*
(All one-week camps have an option for transportation)
No matter how far you advance in soccer, your footwork, passing, trapping, heading and shooting can always be refined, and every improvement can make a big difference on the field. This challenging camp will help players understand the fundamentals of soccer using a vast array of game situations. Campers train with not only Richard Nuttall and Simon Riddiough but also many of Hofstra's Division I players will be on hand. The training doesn’t stop there; many expert coaches from all over the United States and Europe are on-hand as well. These coaches believe that the emphasis on development is by doing, encouraging soccer instincts through enjoyable small-sided games and game-related learning in a positive environment.
*Session 4 is a one-week speed and agility jump start for players’ school/travel team tryouts. We will work on increasing psychological game preparation skills along with highlighting ball-related fitness with small-sided game play. Players will be challenged both technically and tactically in order to reach their full potential.
This camp is open to any and all entrants (limited only by number, age, grade level and/or gender).
New York Baseball Academy

Bob Hirschfield, Director • John Russo, Director

Players Ages 7-15
Monday-Friday, July 5-August 12, 2016
July 5-8; July 11-15; July 18-22; July 25-29; Aug 1-5; Aug 8-12
(One through six weeks of ability-level instruction)
9 a.m. to 4 p.m. Daily
Hofstra University’s Baseball Complex, North Campus

New York Baseball Academy is proud to call Hofstra University its summer home!

Hofstra Summer Camps is excited to partner with New York Baseball Academy, now in its 41st year and ranked by Baseball America as one of the top 5 baseball schools in the country. The academy’s summer program is one of the finest baseball instructional programs on the East Coast. Players will take full advantage of Hofstra’s beautiful 240-acre campus, including the recently updated turf baseball field and the spacious indoor practice bubble. There are a multitude of batting cages, teaching stations, and practice areas in one central location, and a coach-to-player ratio of 1-to-6, which ensures personal attention. Guest instructors from collegiate and professional ranks provide daily clinics and intensive workouts. Players are initially grouped by age, evaluated by the staff, and then regrouped based on their ability. Daily instruction stresses the fundamentals of hitting, throwing, fielding, base-stealing, speed development and reaction training. Players select and take part in a daily position workshop (pitching, catching and infield). Students also participate in daily instructional games. Emphasis is placed on defensive and offensive play and, most important, team effort. This camp is open to any and all entrants (limited only by number, age, grade level and/or gender).

PERSONAL EVALUATION PROGRAM (PEP)
Designed for the college-bound athlete • Ages 15-18 • July 8-10, 2016
For more information, call 516-463-CAMP.
Two one-week* sessions offered:
- Monday-Friday, March 28-April 1, 2016
- Monday-Friday, April 25-29, 2016

Gain knowledge and skills, make new friends from throughout Long Island, and get a taste of college life!

*Writing Enrichment and American Sign Language courses run Tuesday-Thursday.

**COURSE OFFERINGS FOR MARCH SESSION:**
- Monday-Friday, March 28-April 1, 9 a.m.-4 p.m.
  - Sportscasting 101 for Teens (Grades 6-12)
  - STEM: Raspberry Pi DIY (Grades 6-10)
  - Remotely Operated Vehicles (ROV)/Underwater Archaeology Program (Grades 5-10)
- Tuesday-Thursday, March 29-31, 9 a.m.-4 p.m.
  - Writing Enrichment Workshop (Grades 9-12)

**COURSE OFFERINGS FOR APRIL SESSION:**
- Monday-Friday, April 25-29, 9 a.m.-4 p.m.
  - Sportscasting 101 for Teens (Grades 6-12)
  - Commercial Voice Acting Workshop for Teens (Grades 7-12)
  - STEM: Raspberry Pi DIY (Grades 6-10)
  - Video Game Design Fusion Studio (Grades 4-12)
  - Minecraft Adventure Week (Grades 4-12)
  - STEAM Outdoors! (Grades 6-11)
- Tuesday-Thursday, April 26-28, 9 a.m.-noon
  - Introduction to American Sign Language for Teens (Grades 8-12)

To register or for more information, visit ce.hofstra.edu/springbreak or call 516-463-7676.

Gain knowledge and skills, make new friends from throughout Long Island, and get a taste of college life!

*Writing Enrichment and American Sign Language courses run Tuesday-Thursday.

**STEM (Science, Technology, Engineering and Math) is evolving into STEAM (STEM + Art and Design) because today’s K-12 students need to be prepared for the workforce of the future, and arts education teaches young people many of the integral skills needed to thrive in the 21st century workplace. Hofstra Summer Camps and Saturday Classes for Young People are proud to support the STEM/STEAM movement, and we’ve created many fun and innovative new programs.**

**Join us for a STEM/STEAM FAIR**

for students grades 2-12 and parents

Saturday, March 12
Noon to 1:30 p.m.
Breslin Hall, South Campus

Meet the STEM/STEAM instructors, enjoy hands-on demonstrations, and learn about the many different programs available to students in grades 2-12. With dozens of STEM/STEAM courses in video game design, coding, engineering, computer animation, robotics, mobile app development, aerodynamics and design, marine exploration technology and more, there’s something for every interest and age group!

To RSVP or for more information, visit ce.hofstra.edu/STEM-STEAM or call 516-463-CAMP.

**Spend Your Summer Wisely**

Register for our exciting precollegiate courses!

Hofstra Continuing Education and Hofstra Summer Camps offer a comprehensive selection of one- and two-week courses for students entering grades 7-12. Held on the beautiful Hofstra campus or at Nassau BOCES’ state-of-the-art Barry Tech facility, our courses will intrigue, inform, enrich and challenge you.

We offer dozens of courses in these areas:
- Aviation Academy
- Business and Law
- Culinary Arts
- Health Professions
- Photography, Graphic Design and Video Production
- Sports Journalism
- STEM/STEAM
- Test Prep
- Veterinary Skills
- Writing

To register and for a full list of courses, visit ce.hofstra.edu/precollege, call 516-463-7676 or email ce-precollegiate@hofstra.edu.

Students in grades K-12 can experience quality academic, personal enrichment and recreational programs at Hofstra University’s Saturday Classes for Young People.

To view the complete list of courses and to register, visit ce.hofstra.edu/youth or call 516-463-7400.
A Field Study in Marine Biology – SESSION 3 ONLY
Grades 6-11 as of September 2016.
You will explore diverse marine habitats with daily observation and data and specimen collection. Activities include canoeing, seine netting, saltmarsh exploration, snorkeling, studying horseshoe crabs and plankton.

Athletic Conditioning, Nutrition, Sports Medicine & CPR – SESSION 2 ONLY
Grades 6-11 as of September 2016.
Learn the latest strength and conditioning methods, nutrition and injury prevention information. Students are introduced to basic anatomy, physiology, nutrition and sports medicine while integrating classroom work with practical skill training. Campers have the opportunity to be trained and certified in CPR/AED and First Aid from the American Heart Association.

Aviation Academy – SESSION 1 ONLY
Grades 6-11 as of September 2016.
Soar into the exciting field of aviation. Practice flying in our state-of-the-art flight simulator. Learn about weather data, flight planning, and air traffic control, as well as employment opportunities.

Careers in Veterinary Medicine: Introduction
SESSIONS 1 AND 2
Grades 7-11 as of September 2016.
Discover the wild world of animals, identify and explore the various types of animal species, and discover available career paths. Learn about health and nutritional needs, as well as how to groom, handle and monitor behaviors of animals, including chinchillas, rabbits, dogs, cats, reptiles and birds.

Careers in Veterinary Medicine: Intermediate
SESSIONS 1 AND 2
Grades 7-11 as of September 2016.
This more advanced course teaches students the proper handling and medical care of exotic animals, while continuing to teach about proper health, handling and nutrition of domestic animals. Students also learn about advanced grooming techniques as well as anatomy and physiology.
Prerequisite: Careers in Veterinary Medicine: Introduction

Careers in Veterinary Medicine: Advanced
SESSIONS 1 AND 2
Grades 7-11 as of September 2016.
In this course, campers will build upon their previous knowledge from the introductory and intermediate veterinary programs to study large animal care and husbandry. Campers will demonstrate practical knowledge and husbandry skills on a variety of animals, including, but not limited to, horses, cows, pigs, goats, sheep and fowl. Campers will visit off-site facilities and farms in order to ensure a broad-based learning environment.
Prerequisite: Careers in Veterinary Medicine: Introduction and Intermediate

Construction Trades Academy – SESSION 1 ONLY
Grades 7-11 as of September 2016.
Campers will experience a variety of trades in the construction field. Campers will learn the basics of carpentry, plumbing, electrical and masonry. Campers will create hands-on projects while learning the basic skills necessary for the construction professions.

Criminal Justice Academy – SESSION 2 ONLY
Grades 6-11 as of September 2016.
In Criminal Justice Academy, campers will learn how to explain and demonstrate the most important components of crime scene investigations. From processing the crime scene, police sketching, blood typing and ballistics, each day campers will be exposed to the wide variety of duties that professional investigators carry out during a crime scene investigation.
Culinary Arts Academy: Introduction – SECTIONS 1 AND 2  
Grades 7-11 as of September 2016.  
Explore culinary cuisine from around the world while learning proper cooking techniques, including safety, knife skills and food preparation. Practice chocolatiering and pastry arts with professional pastry chefs.

Culinary Arts Academy: Intermediate – SECTIONS 1 AND 2  
Grades 7-11 as of September 2016.  
Build on the basics you learned in the introductory class to advance your culinary techniques and baking talents. Students learn how to bake yeast breads, muffins, pies, biscuits, cakes and more. 
**Prerequisite:** Culinary Arts Academy: Introduction

Culinary Arts Academy: Advanced – SECTIONS 1 AND 2  
Grades 7-11 as of September 2016.  
This baking class will satisfy your sweet tooth. An advanced class for campers who have completed the introductory and intermediate culinary programs, this camp will teach various mixing methods, accurate measuring, baking science, yeast dough and artisan bread baking, breakfast pastries, various fillings and icings, and more.

**Prerequisite:** Culinary Arts Academy: Introduction and Intermediate

Graphic Design – SESSION 1 ONLY  
Grades 6-11 as of September 2016.  
Design logos, children’s books, business cards, T-shirts and more using Macs and Adobe Creative Suites software. Discover the career options available in the graphics and advertising industry.

Mechanical and Automotive Institute: Introduction – SESSION 1 ONLY  
Grades 6-11 as of September 2016.  
Do you love cars? Do you love working with your hands? Or do you want to understand how your car’s engine works? Using Nassau BOCES’ state-of-the-art automotive facilities, campers learn the safe and proper use of equipment and maintenance techniques, including tire repair, brake maintenance and inspections. The Mechanical Engineering and Automotive Technology Institute will help you jump into the fast-paced world of automotive repair.

Mechanical and Automotive Institute: Intermediate – SESSION 2 ONLY  
Grades 6-11 as of September 2016.  
In this “do-it-yourself” style course, campers will learn vehicle responsibility and basic maintenance, including oil changes, fluid flush, and accessory drive belt service. Hands-on activities include spare tire installation; fuse, air pressure and fluid checks; and wiper blade replacement. This course will give new drivers the confidence to perform routine maintenance and light repairs on their first vehicle.

**Prerequisite:** Mechanical and Automotive Institute: Introduction

Mechanical and Automotive Institute: Small Engine Repair  
SESSION 1 ONLY  
Grades 6-11 as of September 2016.  
NEW FOR 2016!  
During this two-week course, students will learn to perform basic diagnostic repair and preventative maintenance services of lawn mowers and snow blowers. These services include oil changes, blade sharpening, pull cord replacement, and spark plug testing and gapping. Students will also learn how to maintain the carburetor, which is the most common cause of small engines not operating properly. Students will have the opportunity to repair their own personal lawn mowers, weed whackers and snow blowers with parental permission.

STEM Marine Exploration Technology:  
Design it! Build it! Drive it! – SESSION 4 ONLY  
Grades 6-11 as of September 2016.  
You will learn all about the history of marine exploration and underwater archaeology. You and your teammates will design and build an underwater remotely operated vehicle (ROV), test your design in Hofstra’s pool, and master a series of challenges for the final day’s competition. You will also participate in an antique “helmet dive!”

Video Production – SESSION 1 ONLY  
Grades 6-11 as of September 2016.  
Students learn the basics of television control room operations by working as part of a team to create a game show and talk show. They also work in teams to complete a short non-dialogue film using digital video cameras and the aesthetics of postproduction editing using Final Cut Studio.
How to Register

All correspondence will be communicated via email, so when registering, please be sure to include an email address.

If you are registering multiple children for Hofstra Summer Camps, you must create separate student accounts and submit different registration requests. If your child already has a Hofstra Continuing Education Student Portal account (i.e., from Saturday Classes for Young People registration), there is no need to create another account. After your child’s account is created, please print his or her user ID and password and retain for your records. For future registrations, kindly utilize the same account information. If you create multiple student accounts, you will have a user ID and password for each account.

With your new student login ID and password you can now:
- Register for camps
- Add camp sessions
- Access your current balance due
- Make tuition payments
- View your child’s schedules
- View completed programs
- View and print your camper’s record and payment history
- Update your profile (i.e., contact information)
- Print a paid in full receipt

When registering via mail or in person, a user ID and password will be emailed to you once your registration is processed. You may update your password after you receive the instructions via email. Want to add a session after your initial registration? No problem! There is no need to fill out all of your camper's information again; simply log in to your child’s account and register for the session you wish to add.

You can make additional online payments at any time. Please note that full payment is required for registrations after May 16, 2016.

Tuition for any of our two-week camps includes transportation, lunch, the American Red Cross instructional swim program (American Red Cross instructional swim program not included in Sports Academy Camps), and insurance.

- Deposit: A check/credit card payment of $250 per session nonrefundable deposit must accompany this registration form.
- Payment in full is due by May 16, 2016.
- Full payment is required on all registrations received after May 16, 2016.
- We accept MasterCard, Visa and American Express.
- Cash is not accepted.
- Please make checks payable to Hofstra University, and include your child’s name on check.

Discounts
- Does not apply to any one-week camp or BOCES.
- Only one discount per camper may be applied.
- Discounts may not be combined.
- Group/Team Discount (five or more campers): $75 discount per camper/per session at the applicable tuition rate for Sports Academy Camps only.
- Sibling Discount: $50 off each additional child (enrolled from same family) per two-week session; not applicable for Early Tuition rate.
- Hofstra Full-Time Employee Discount: 15 percent. (Employee must be parent/guardian of camper – Does not apply to NYBA. Must be parent/guardian of camper.) – Does not apply to NYBA.
- Hofstra Alumni Discount: 15 percent for Specialty Camps and Learning Institute; 10 percent for Sports Academy Camps. (Alumnus must be parent/guardian of camper.) – Does not apply to NYBA.
- Union Discount: 15 percent for Specialty Camps and Learning Institute; 10 percent for Sports Academy Camps. (Registration must be accompanied by a copy of a current company photo ID card. Union member must be parent/guardian of camper.)

Note: The Counselor Apprentice Program is available for six-week enrollment ONLY. Tuition for the full program is $2,999, plus the $50 application fee; no discounts apply.

To register by mail or in person: Return the completed registration form and Medical History Form (found on pages 21-25) along with the nonrefundable deposit to: Hofstra Summer Camps, 250 Hofstra University, Hempstead, NY 11549-2500, or drop it off at the Hofstra Camp Office, Room 108 University College Hall, North Campus.

To register online: Visit hofstra.edu/camp.

Refund Policy
- Tuition is refundable prior to May 16, 2016, less the deposit and application fee.
- No refunds after May 16, 2016, for any reason, including illness, injury, personal, missed days, transportation delays, etc.
- No refunds for surcharges after May 16, 2016.
- Any cancellations must be received in writing.
- It is understood that no credit will be given for camp closings, absences, family vacations, transportation delays or withdrawals.
- We reserve the right to cancel any registration if fees are not paid in full by May 16, 2016.

*You may select ONLY one program per session. Shaded boxes indicate that program is not available during that session.*
Summer Camp Registration Agreement

Camper’s Name: ____________________________

By registering my child(ren) to attend Hofstra Summer Camps 2016 (“Camp”), I agree to the following terms and conditions:

- I am the parent or legal guardian of the child(ren) being registered.
- A nonrefundable deposit of $250 per session, paid by check or credit card, must accompany this registration form.
- We accept Visa, MasterCard, American Express, bank check, or money order. No personal checks accepted after June 16, 2016. **Cash is never accepted.**
- Payment in full for all camp sessions is due by May 16, 2016. Any registrations received after May 15, 2016, must be immediately paid in full.
- Any cancellations for a camp session **MUST** be received in writing.
- Any tuition paid before May 16, 2016, will be refundable less a $250 deposit per session for all programs except New York Baseball Academy, which will be a $150 deposit per week.
- No refunds after May 16, 2016, for any reason, including illness, injury, personal, missed days, transportation delays, etc.
- Hofstra University reserves the right to cancel any registrations if tuition is not paid in full by May 16, 2016.
- I give permission for my child to participate in off-campus trips and activities, including any that involve swimming and water activities. I understand that scheduled off-campus trip destinations may change due to weather conditions or administrative needs.
- Enrollment in Hofstra Camps establishes permission for a child to engage in all programs (including instructional/recreational swim) except as noted by the examining physician on the child’s Physical Examination Form submitted to the Camp Infirmary.
- I hereby acknowledge that I, on behalf of my child, myself and my family, understand that risks are involved in Camp and assume all risks incurred from my child’s participation in Camp.
- I understand and agree that my child will comply with the University’s rules, standards and instructions. I understand that the University and its agents and employees have the right to enforce its standards and may at any time terminate my child’s participation in Camp for failure to maintain these standards or for any conduct which the University or its agents consider to be incompatible with the interest and welfare of my child, the other Campers or the University.
- I understand that I am solely responsible for any and all expenses related to injuries and/or loss or damage of personal property incurred in connection with my child’s participation in Camp.
- In consideration of my child being allowed to participate in Camp, on behalf of my child, myself and my family, I hereby release and agree to hold Hofstra University, its trustees, directors, officers, employees, servants, representatives and agents harmless from and against any and all claims, losses, damages, expenses (including attorneys’ fees, and all court and litigation costs) and liability (including statutory liability), resulting from injury and/or death of any person or damage to or loss of any property arising out of or in any way connected with the Camp and my child’s participation therein.
- I agree that photographs, whether still or action, videos, film and/or motion pictures (hereinafter “Pictures”), and/or audio recordings (“Recordings”), may be taken of my child by or on behalf of Hofstra University and in connection with Camp, and, without any compensation or further notification or approval by me or my child, grant to Hofstra University, its agents, employees, others working on Hofstra University’s behalf (“Hofstra”) the unlimited, perpetual, worldwide, unconditional and irrevocable right and license to use, distribute, publish, exhibit, digitize, broadcast, display, reproduce, make commercial use of and otherwise use directly or indirectly the Pictures, Recordings and/or my child’s image, voice, likeness and/or video footage in any form, format or media (“Media”), for any purpose, including, but not limited to, advertising or trade or University-related activity in promoting or providing information about the University and its educational and summer camp services and agree that all rights therein shall irrevocably, exclusively, unconditionally and perpetually belong to Hofstra University.
- I hereby agree on behalf of myself and on behalf of my child, to release and discharge Hofstra University, its officers, representatives, employees, agents, licensees, successors and assigns from any and all claims, demands or causes of action that I or my child may now have or may hereafter have for libel, defamation, invasion of privacy or right of publicity, infringement of copyright or violation of any other right arising out of or relating to any utilization of the Pictures, Recordings, or Media.

I have read and agree to the above:

X

**REGISTRATION WILL NOT BE PROCESSED WITHOUT A SIGNATURE.**
MEDICAL HISTORY FORM

This form is to be filled out by the parent/guardian of the camper. This medical history MUST be completely filled out and returned with your child’s registration.

Camper’s Name ____________________________________________
Birth Date ____/____/_______ Male □ Female □
Home Address ____________________________________________
City ________________ State ___ ZIP ______

Pertinent Family History: __________________________________________________________

Name of Camper’s Physician: ______________________________ Phone: _______________________

Do you carry family medical/hospital insurance? □ Yes □ No

If yes, indicate carrier: __________________________________________ Policy or group number _______________________

**IMPORTANT - PARENT/GUARDIAN MUST SIGN**

I hereby give permission for camp medical staff to provide routine treatment to my child. I understand that I am responsible for my child’s medical or medication needs and further agree that in an emergency and/or if I cannot be reached, the University, through its agents and employees, may take whatever action is deemed necessary with respect to my child’s health and safety. I authorize the University, its agents and employees, to place my child, at their discretion and without my further consent, in a hospital or in the care of a medical professional for medical services and treatment, and to arrange necessary related transportation for me and/or my child. I understand that I will be fully responsible for any fees and expenses for any service and/or treatment. This completed form may be photocopied for off-campus trips.
