**Technologies for your digital future.**

**Tech up @ HANNOVER MESSE 2016!**

Only in Hannover can you find five leading international trade fairs taking place at the same time under one roof. All key technologies and core areas of industry – from research and development, industrial automation, IT, industrial supply, production technologies and services to energy and mobility technologies – can be found in Hannover from 25 to 29 April. Take advantage of all the synergies that HANNOVER MESSE has to offer. Welcome to the industry’s global hotspot!

**Integrated Industry – Discover Solutions!**

Industrie 4.0 is no longer just a vision. It controls production, while electricity grids become smart grids. If you want to stand out from the competition, you need to fully utilize the potential of digitization. Find out how to do so at HANNOVER MESSE 2016, where more than 100 specific Industrie 4.0 applications will be shown in action. This is unique world-wide!

**Partner Country USA**

The leading IT nation at the world’s most important industrial show – this promises exciting things. A top-class producer of competitive high-quality products, the Partner Country of HANNOVER MESSE 2016 is also an attractive investment location. The US presentation will focus on energy efficiency and production, education and training, state-of-the-art manufacturing technology, and technologies for the industrial Internet of Things. The clear message: Select USA!
