SECTION 3. HAZARDS IDENTIFICATION

NOTE: Please refer to Section 11 for detailed toxicological information.

Emergency Overview
Caution! Moderate eye irritation. Avoid contact with skin, eyes and clothing. Harmful if inhaled. Avoid breathing spray mist. Remove and wash contaminated clothing before re-use. Wash thoroughly with soap and water after handling.

Physical State
liquid opaque

Appearance
off-white

Routes of Exposure
Eye contact, Skin contact, Inhalation

Immediate Effects

Eye
Moderate eye irritation. Avoid contact with eyes.

Skin
May cause slight irritation. Avoid contact with skin and clothing.
Inhalation  Harmful if inhaled. Avoid breathing spray mist.

SECTION 4. FIRST AID MEASURES

General  When possible, have the product container or label with you when calling a poison control center or doctor or going for treatment.

Eye  In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a physician or poison control center immediately.

Skin  Wash off immediately with plenty of water for at least 15 minutes. Take off contaminated clothing and shoes immediately. Call a physician or poison control center immediately.

If symptoms persist, call a physician. Wash off immediately with soap and plenty of water. Take off contaminated clothing and shoes immediately.

Ingestion  Rinse out mouth and give water in small sips to drink. If symptoms persist, call a physician. Do not induce vomiting.

Do not induce vomiting or give anything by mouth to an unconscious person. Call a physician or poison control center immediately.

Inhalation  Move to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a physician or poison control center immediately.

Notes to Physician

Signs and Symptoms  Local: irritation

Hazards  May pose an aspiration pneumonia hazard.

Treatment  There is no specific antidote. Appropriate supportive and symptomatic treatment as indicated by the patient's condition is recommended.

SECTION 5. FIRE FIGHTING MEASURES

Flash Point  > 100 °C / > 212 °F

Autoignition Temperature  510 °C / 950 °F
Explosiveness
Not explosive

Fire and Explosion Hazards
In the event of fire the following can be released:
sulphur dioxide (SO2)
nitrous gases (NOx)
carbon monoxide (CO)

Heating or fire can release toxic gas.

Suitable Extinguishing Media
foam, carbon dioxide (CO2), dry powder, water spray

water spray, dry powder, carbon dioxide (CO2), foam

Fire Fighting Instructions
Do not allow run-off from fire fighting to enter drains or water courses. The product in case of warehouse fires does not add to the spreading of it.

Keep out of smoke. Fight fire from upwind position. Cool closed containers exposed to fire with water spray. Do not allow run-off from fire fighting to enter drains or water courses. Equipment or materials involved in pesticide fires may become contaminated.

Wear self-contained breathing apparatus and protective suit.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions
Use personal protective equipment. Evacuate personnel to safe areas.

Methods for Cleaning Up
Take up with absorbent material (e.g. sand, diatomaceous earth or a proprietary absorbent material). For disposal, pack in tightly closed containers.

Keep unauthorized people away. Isolate hazard area. Avoid contact with spilled product or contaminated surfaces. Take all necessary action to prevent and to remedy the effects of the spill.

Additional Advice
Information regarding waste disposal, see section 13. Information regarding personal protective equipment, see section 8. Information regarding safe handling, see section 7.

Recover the product by pumping, suction or absorption using a dry and inert absorbent clay. Dispose of as hazardous waste.

Scrub contaminated area with soap and water. Rinse with water. Use dry absorbent material such as clay granules to absorb and collect wash solution for proper disposal.
Contaminated soil may have to be removed and disposed. Do not allow product to enter streams, sewers or other waterways. Do not allow product to contact vegetation.

SECTION 7. HANDLING AND STORAGE

Handling Procedures
Handle and open container in a manner as to prevent spillage.

Storing Procedures
Keep containers tightly closed in a dry, cool and well-ventilated place. Store in original container. Keep away from direct sunlight. Protect against frost.

Do not contaminate water, food, or feed by storage or disposal.

Work/Hygienic Procedures
Wash hands and face before breaks and immediately after handling the product. When using, do not eat, drink or smoke.

Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, using the toilet or applying cosmetics.

Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift.

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

General Protection
Avoid contact with eyes. Avoid contact with skin.

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and warm/tepid water. Keep and wash PPE separately from other laundry.

Train employees in safe use of the product. Follow all label instructions.

Engineering Controls
Maintain exposure levels below the exposure limit through the use of general and local exhaust ventilation.

Eye/Face Protection
Safety glasses / face shield

Hand Protection
Chemical-resistant gloves made of waterproof material such as neoprene, butyl rubber, barrier laminate or nitrile rubber

Body Protection
Wear long-sleeved shirt and long pants and shoes plus socks.

Respiratory Protection
Ensure adequate ventilation.
If not adequate, use a chemical cartridge-type respirator approved by the National Institute of Occupational Health and Safety.
Exposure Limits

This product contains material which are Trade Secret and may have Occupational Exposure Limits. If more information is required, call the product information number listed in Section 1.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

SECTION 11. TOXICOLOGICAL INFORMATION

Only acute toxicity studies have been performed on this product as formulated. The non-acute information pertains to the active ingredient, fenamidone technical.

<table>
<thead>
<tr>
<th>Toxicity Type</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Acute Oral Toxicity</td>
<td>male/female rat: LD50: &gt; 5,000 mg/kg</td>
</tr>
<tr>
<td>Acute Dermal Toxicity</td>
<td>male/female rat: LD50: &gt; 5,000 mg/kg</td>
</tr>
</tbody>
</table>
Acute Inhalation Toxicity
male/female rat: LC50: 0.9 mg/l
Exposure time: 4 h (actual)
Maximum attainable concentration.
No deaths
Determined in the form of liquid aerosol.

male/female rat: LC50: > 3.6 mg/l
Exposure time: 1 h (actual)
Determined in the form of liquid aerosol.
Extrapolated from the 4 hr LC50.

Skin Irritation
rabbit: Slight irritation.

Eye Irritation
rabbit: Mild eye irritation.

Sensitization
guinea pig: Non-sensitizing.

Subchronic Toxicity
Fenamidone caused no systemic or local effects at the limit dose (1000 mg/kg/day) in a 28-day dermal toxicity study in rats.

Chronic Toxicity
The principal organs affected in rats and dogs from long-term exposure to fenamidone included the liver and/or thyroids.

Assessment Carcinogenicity
Fenamidone was not carcinogenic in oncogenicity studies in rats and mice.

ACGIH
None.

NTP
None.

IARC
None.

OSHA
None.

Reproductive & Developmental Toxicity
REPRODUCTION: Fenamidone was not a reproductive toxicant in a two-generation study in rats.

DEVELOPMENTAL TOXICITY: Fenamidone was not a primary developmental toxicant in rats and rabbits. Developmental effects (e.g., delayed ossifications) were observed in rats but were considered secondary to maternal toxicity.

Neurotoxicity
Fenamidone was not a neurotoxicant in acute and subchronic neurotoxicity screening studies in rats.

Mutagenicity
The overall weight of evidence indicates fenamidone is not mutagenic or genotoxic based on a battery of in vitro and in vivo mutagenicity studies.
## SECTION 12. ECOLOGICAL INFORMATION

Bobwhite quail
> 5,200 ppm
Exposure time: 5 d

Short Term Dietary
Mallard duck
LC50: > 5,000 ppm
Exposure time: 5 d

Environmental Precautions
Toxic to fish, shrimp and oysters. Toxic to aquatic invertebrates. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Drift and runoff from treated areas may be hazardous to fish/aquatic organisms in adjacent sites. Do not contaminate surface or ground water by cleaning equipment or disposal of wastes, including equipment wash water. Apply this product only as specified on the label.

Ecological Information
The ecological data given are those of the active ingredient.

SECTION 13. DISPOSAL CONSIDERATIONS

General Disposal Guidance
Pesticide, spray mixture or rinse water that cannot be used according to label instructions may be disposed of at an approved waste facility.

Container Disposal
Triple rinse containers. Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill or incineration, or if allowed by State and Local authorities, by burning. If burned, stay out of smoke.

SECTION 14. TRANSPORT INFORMATION

DOT CLASSIFICATION:
Not Regulated for Domestic Surface Transportation

FREIGHT CLASSIFICATION:
Compounds, Tree or WeedKilling, N.O.I., other than poison; Having a density of greater than 20 LBS. per cubic foot

TDG (Canada):
Not regulated.

SECTION 15. REGULATORY INFORMATION

EPA Registration No.
264-695
US Federal Regulations

TSCA list
None.

US. Toxic Substances Control Act (TSCA) Section 12(b) Export Notification (40 CFR 707, Subpt D)
None.

SARA Title III - Section 302 - Notification and Information
None.

SARA Title III - Section 313 - Toxic Chemical Release Reporting
None.

US States Regulatory Reporting

CA Prop65
This product does not contain any substances known to the State of California to cause cancer.

This product does not contain any substances known to the State of California to cause reproductive harm.

US State Right-To-Know Ingredients
None.

Canadian Regulations

Canadian Domestic Substance List
None.
