PREFACE

I welcome you to the new edition of Turkish Partnership for Peace Training Center course catalogue. The Turkish Partnership for Peace Training Center was inaugurated on 29 June 1998 and has the honor of being the first recognized (recognized in 1999) partnership training center by NATO.

In its 16 years of history, PTC TUR has provided an extensive support to NATO partnership initiatives and further has contributed significantly to the enhancement of partnership spirit and military cooperation efforts in accordance with the Turkish General Staff and NATO principals and priorities.

PTC TUR continues to be a meeting point for NATO, NATO Partners and other UN members. We have reached up to a total of 14,983 military and civilian participants from 92 different countries through the successful conduct of 404 resident courses, 14 seminars and 67 mobile training activities so far.

As a justification of our quality approach PTC TUR has been awarded with “NATO Quality Assurance Unconditional Accreditation Certificate” as of 17 January 2014 which is effective until 17 January 2020. With the awarded Quality Assurance Accreditation, it has been assured that PTC TUR’s organizational process and procedures meet the education and training quality assurance standards developed by NATO.

Feedbacks from participants showed us, the increasing interest respected to our center in the recent years, which leads to the creation of new cooperations, has been a challenge but an organizational pride as well. As the customer satisfaction is of highest priority for our organization, we are working closely with our national and international partners in order to meet the demands at the greatest extent. In this respect, we have planned 20 resident courses, four of them will be conducted for the first time in this year, and 3 mobile training activities for 2016. PTC-TUR also provides instructor support by sending individual instructors to national and international training centers.

The staff of the PTC TUR are dedicated to provide our participants qualitative training and education with a team of highly qualified experts, lecturers, instructors and prominent guest speakers from national and international military/civilian organizations and universities. Our participants will also find the opportunity of taking part in field trainings at different military units in Turkey. There will be visits to military and governmental organizations at some courses. As a result of good cooperation, some of the civil universities send students to our center as a part of their master’s programme.

Besides the education and training activities, our participants will be offered to participate in special tours to unique historical and cultural places.

I believe that activities planned for 2016 will help enhancing NATO’s partnership spirit and contribute to the regional and global peace.

I would like to express my appreciation for your interest and look forward to seeing you in Turkish Partnership for Peace Training Center.

Colonel
Commandant, PTC-TUR
History

As a follow-up of “1994 NATO Brussels Summit” Turkey decided to establish a “PfP Training Center” and declared its decision at the Euro Atlantic Partnership Council (EAPC) meeting in Sintra/Portugal on 30 May 1997. Turkish PfP Training Center was inaugurated on 29 June 1998 with an international opening ceremony and has the honour of being the first recognized partnership training center by NATO on 12 February 1999.

We were also the first Partnership Training Center to introduce Mobile Training Programs in 2002. We continue to conduct these mobile training activities with partner nation military institutions in order to share Turkish peace support operations experiences, also to enhance interoperability with our partners and to support bilateral military relations.

Since its establishment PfP Training Center has been actively contributing to Partnership initiatives by conducting courses, mobile training activities and seminars for the members of NATO, PfP, Mediterranean Dialogue (MD), Istanbul Cooperation Initiative (ICI), Partners across the Globe (PaTG) and countries that Turkey has bilateral relationship.

PfP Training Center has been awarded with “NATO Quality Assurance Unconditional Accreditation Certificate” as of 17 January 2014 which is effective until 17 January 2020.
Vision :

To be one of the leading institutions on Partnership training within NATO Education & Training Community and on multinational operational training in Turkey.

Mission :

To provide training and education support to NATO, Partner Nations, National Personnel and when required other countries in order to contribute for the attainment of interoperability objectives and to enhance military cooperation in accordance with NATO and Turkish General Staff (TGS) policy and principles.

Courses

Being the first PfP Training Center, since 1998, with 404 resident courses, PTC-TUR has reached 92 countries and around 15,000 personnel from NATO, PfP, ICI, PatG MD and other UN countries.

Mobile Training Teams (MTT)

PTC-TUR spans the globe with mobile training teams that bring education to other nations to meet their individual training needs. Since 2002, 19 countries and more than 2,400 personnel have benefited from our group of experts in 67 MTT activities.

Advanced Distributed Learning

In addition to its resident courses, PTC-TUR contributes NATO’s ADL efforts with its online “The Law Of Armed Conflict Course”.

Seminars/Workshops

Since 2000, PTC-TUR hosted 14 seminars with the participation of 1,082 distinguished guests forming a global platform to exchange views on partnership initiatives and Global Peace.
