YOUR ULTIMATE STUDY PARTNER IN 2016

2016 DVD Academic Support Programme

for UNISA CTA LEVEL 1 & 2 students
FEATURES

Gain a good grasp of the theory
Offering high quality, comprehensive coverage of the syllabus, this range of just over thirty DVDs all share a common aim: to accelerate students’ understanding of the topics.

Get direct assistance from our lecturers
The on-line NSOA Student Zone provides valuable additional resources to assist you with your studies. These resources include gaining direct access to our lecture team through our discussion forums; receiving weekly guidance via email from our lecturers regarding each upcoming study week and how best to approach it; and access to a wealth of additional material, including past tests and exams.

Be tested every week
You can choose to get tested on your studies almost every week! Our lecture team set twenty (unseen) control tests for you to write at the end of each study week. These tests can then be scanned through to us for marking and are then returned to you with feedback on how you did and what, if anything, you could do to improve.

Enhance your ability to answer questions
Choose to subscribe to the weekly tutorial webinars and you will be able to sit in on a live webinar with our lecturers taking you through how best to approach / answer assignment questions within each study week. If you miss the live session, you will be able to access the recorded version at a later point and watch the session at your convenience. This option is currently only available to CTA 2 students.

Get help preparing for the final exams
Should you choose to subscribe to the year-end revision webinars, you will receive live guidance from our lecture team through a series of 15 webinars from mid-August to mid-September regarding final exam preparation for each subject. Our lecturers will focus on core topics and these sessions will serve as a valuable springboard into your final revision efforts.

Please note:
Prices stated above include VAT and delivery.
DVD sets can also be ordered for individual subjects. Contact us for a quote.
To ensure the most up-to-date information, delivery is expected to be at 3 stages during the year, with the first delivery in late January / early February. Subsequent deliveries will aim to ensure that you have your DVDs in time for the relevant study weeks when you will need them.
Weekly practice test questions are written on the Sunday / Monday following a study week and are sent to students in the week before they need to be written. Students can scan and email their attempts to NSOA for marking and feedback.
These DVDs are not a substitute for UNISA’s prescribed literature (but letters and text books) nor for the need for you to put in the necessary study hours.
