Structural Pallet Rack is manufactured from heavy-duty hot rolled structural steel to withstand the most rigorous of applications.

The S Series is available in various sizes and capacities to meet stringent requirements.

Features:

- Heavy-Duty Bolted Connections
- Low Maintenance
- 1” Beam Clip Adjustability
- Impact Resistant
- High Quality Powder Coat Finish
Roll-Formed Selective Pallet Rack is the most flexible and extensively used pallet rack in the material handling industry. We offer a wide variety of styles, sizes and gauges to meet most capacity and seismic requirements.

Features:
- Fast Clip Beam Attachment
- Compatible with Most Brands
- Welded Frame Design
- Cost Effective
- Flexible Applications
- High Quality Powder Coat Finish

(866) 513-1200 • www.hannibalindustries.com
Hybrid Systems combine the strength and durability of structural frames with the flexibility and cost effectiveness of roll-formed beams.

Features:
• Cost Effectiveness
• Impact Resistance
• Bolted Connection
• 1” Beam Clip Adjustability
• High Quality Powder Coat Finish
Cantilever Racks are ideal for storage of long, bulky products such as carpet rolls, lumber, pipe, tubing and other similar products.

Hannibal cantilever racks are available in a heavy-duty structural or medium duty roll-formed design.

Features:
- Strong, Safe, Economical
- Wide Variety of Options Available
- High Quality Powder Coat Finish
Hannibal Pushback Systems are manufactured using heavy duty structural tube support rails combined with encapsulated flanged wheeled carts.

Features:
• Up to 3000 lb Capacity
• 2 – 6 Deep Systems
• Flanged Wheel Design with Tube Rails
• Maximizes Storage Capacity
• High Quality Powder Coat Finish

Low Profile Design
Pallet and Case Flow Systems

Hannibal’s integrated solutions of pallet flow and case flow provide a combination of durability and flexibility.

Our engineering team and OEM partners help recommend the best overall solution for your application.

Steel and polycarbonate wheels are available for meeting your storage needs.
Hannibal’s Drive-In Systems allow a significant increase in pallet storage density for high volume SKU’s.

Features:
- Maximizes Storage Capacity
- Space Saver Arm Design
- Roll-Formed or Structural Systems
- Heavy-Duty Saddle Connection
- High Quality Powder Coated
Accessory and Specialty Products

The Hannibal accessory and specialty products line provide multiple solutions to storage and rack protection needs.

Products:
- Dock and Pallet Storage Systems
- Stacking Steel Pallets for Bulk Handling
- End Row Protection
- Fire Flue Stops
- Wire Decking
Hannibal Industries, Inc. has grown to become the largest U.S. manufacturer of steel pallet rack west of the Mississippi.

A diverse and evolving product line has enabled us to provide turnkey storage systems to some of the largest big box retailers, archive storage and food and beverage operations in the world.

Our dealers, distributors and manufacturing representatives work in concert to ensure each project receives the best overall expertise and project management.

Engineering and Design Services:
- System Design
- Seismic Engineering
- Permit Administration
- Custom Fabrication
Hannibal storage systems are made to meet or exceed the requirements of the Rack Manufactures Institute (RMI).

We hold a City of Los Angeles Fabricators License, one of the most stringent manufacturing certifications in the U.S.

All company welders are certified by the American Welding Society through an accredited AWS testing facility.

Hannibal racking systems are made in the U.S.

All systems receive the finest powder coat paint finish in the industry.
