Please note that some standards have particular time limits associated with them. If this applies to your situation, you may later become eligible and apply once those time limits have lapsed.

IMPORTANT LEGAL DEFINITIONS

CONVICTION, PLEA OF GUILTY, DEFERRED JUDGMENT/SENTENCE: Throughout this booklet the phrase “conviction of, plea of guilty or no contest to, or deferred judgment/sentence for,” or any part thereof, applies to:

a. Any adult criminal offense;
b. Any juvenile offense when the juvenile was charged as an adult;
c. Any juvenile offense adjudicated in a juvenile court when the offense would be classified as a felony or misdemeanor if committed by an adult.

JUVENILE RECORD OR ADULT CRIMINAL RECORD: If you are unsure of the formal legal status of any items in your juvenile record or your adult criminal record, you are urged to obtain a copy of your criminal history. If after reviewing your juvenile or criminal history you still have questions, you should obtain legal advice prior to submitting your application. Civil Service Commission staff cannot provide you with legal advice in these matters.

SEALED OR EXPUNGED RECORDS: Juvenile records are not automatically “expunged” and adult criminal records are not “sealed” without obtaining an “order of the court”. If a criminal record has been “sealed”, or if a juvenile record has been “expunged”, by an “order of the court”, or if a criminal conviction has been “pardoned”, it may have an effect on how you answer certain questions in the application process.

EXAMINATION AND SCREENING PHASES

- **PHASE I – COMPUTERIZED APPLICATION**  
  Qualified/Not Qualified

  In order to secure a reserved test appointment, an application must be completed on-line at www.denvergov.org/civilservice. However, if an on-line application is not completed in advance, an application must be completed at the time of written test. In order to test, applicants **must** meet the minimum qualifications noted in this booklet.

- **PHASE II – COMPUTERIZED WRITTEN TEST**  
  Pass/Fail and Ranking

  A written test will be administered to all applicants via a computer at the Civil Service Commission office at times and dates individually scheduled on-line by applicants or as noted on the Commission’s Test Calendar located on our website at www.denvergov.org/civilservice. A **Firefighter Study Guide** is available through our Website at www.denvergov.org/civilservice. Applicants will be given a brief orientation about the computerized test process prior to the written test and will review their completed on-line application. Applications will be reviewed for minimum qualifications such as age, citizenship, education, felony and misdemeanor convictions, drug use, and DUI/DWAI’s. Immediately following the orientation, if the application is accepted, the applicant will proceed with the written test.

  **CONFIDENTIALITY AGREEMENT:** The contents of the Civil Service Commission tests are considered **highly confidential** and may not be divulged in any manner to anyone. Applicants who test are required to maintain the integrity of the tests and will be required to sign a confidentiality agreement at the time of the written test. Additionally, applicants who are processed will be subject to questions during the polygraph regarding maintenance of the confidentiality agreement.

  **WRITTEN TEST SCORE:** The Written Test is comprised of four components: Practical Skills, Interpersonal Skills, Emotional Outlook and Basic Educational Skills. These four components, combined are scored on a **strictly pass/fail basis.** The passing score for the Written Test is 81.5%. Applicants will be given a total of three and one half hours (3½ hours) to complete the entire Written Test. Further details regarding the Written Test can be found in the **Firefighter Study Guide** located on our website at www.denvergov.org/civilservice.

  **FAILING THE WRITTEN TEST:** Applicants who **fail** the Written Test will be required to wait until the next Firefighter registration period to re-apply, unless otherwise provided by Commission Rule.

  **RANKING – FINAL EXAMINATION SCORE - EXAMINATION LIST:** Applicants who pass the Written Test will be ranked based on the sum of their scores on two of the four components of the test: Emotional Outlook and Interpersonal Skills. The sum of the test scores on these two components is the “Composite Written Test Score.” An applicant’s Final Examination Score is the Composite Written Test Score plus any Military Veteran Preference Points and/or any Special Skill Preference Points for Language Proficiency, as applicable.
The Final Examination Score is the score used to rank applicants on an examination list for selection for additional testing and screening. Ties shall be broken randomly.

Applicants who pass the Written Test but who are not called for further testing and screening phases, or who are disqualified during any additional phase of the examination process, in most cases will be required to wait until the next Firefighter registration period to re-apply, unless otherwise provided by Commission Rule. If you have questions regarding when you are eligible to re-apply and re-test, call the Commission office at (720) 913-3371.

PREFERENCE POINTS

MILITARY VETERAN PREFERENCE POINTS: Military veteran preference points shall be awarded in accordance with Article 12, Section 15 of the Constitution of the State of Colorado. A total of either five (5) or ten (10) Veteran preference points (no more than a total of ten points) shall be added to the Composite Written Test Score of any applicant who qualifies. Further details regarding the awarding of Veteran Preference Points are provided on page 19.

SPECIAL SKILL PREFERENCE POINTS FOR LANGUAGE PROFICIENCY: An applicant who has successfully passed the Entry-Level Firefighter written test and who (at the time of application) identifies that they possess “Intermediate” or “Advanced” oral communication skills in a targeted foreign language, or communication skills in sign language, may be provided an opportunity to take a supplemental test to determine their proficiency. If the supplemental testing results in the applicant being rated as “proficient”, they will receive five (5) special skill preference points to be added to their Composite Written Test Score. A maximum of five (5) points may be awarded, even if language proficiency is demonstrated in more than one target language. Once awarded, preference points for language proficiency remain in effect for five (5) years. Further details regarding the awarding of Special Skill Preference Points are provided on page 21.

- PHASE III - COMPLETION OF A BEHAVIORAL QUESTIONNAIRE
  For Commission Review

  Applicants will be required to complete a detailed questionnaire regarding their past behavior to include but not limited to: illegal drug use, driving record, criminal behavior, arrests, job performance, and employment separations. This information will be used to guide the background investigation process and to assist the individuals conducting the suitability interview and the polygraph examination. The information must be complete and honest. Omissions or falsification of information will not be tolerated, and may be grounds for disqualification.

THE FOLLOWING PHASES ARE REQUIRED ONLY IF APPLICANTS ARE SELECTED FOR FURTHER SCREENING/PROCESSING:

- PHASE IV – COMPLETION OF SUPPLEMENTAL APPLICATION & BACKGROUND HISTORY FORM
  For Commission Review

SUPPLEMENTAL APPLICATION: Applicants selected for further screening/processing are required to complete a supplemental application detailing, but not limited to, general personal information; education and training; military service; and employment, experience
and volunteer history. The information provided must be complete and honest. Omissions or falsification of information may be grounds for disqualification.

**BACKGROUND HISTORY FORM:** Applicants selected for further screening/processing are required to complete a background history form detailing, but not limited to, motor vehicle record; drug use; alcohol use; legal information; references and financial information. The information provided must be complete and honest. Omissions or falsification of information may be grounds for disqualification.

- **PHASE V - CANDIDATE PHYSICAL ABILITY TEST (CPAT) Pass/Fail**

  Applicants must successfully complete the Candidate Physical Ability Test (CPAT) to be placed on the eligible register. This is a pass/fail test. The test consists of eight (8) physical tasks that are representative of actions typically performed by firefighters. Each applicant must successfully complete the CPAT in 10 minutes and 20 seconds or less. Please refer to the Candidate Physical Ability Test (CPAT) section on page 24. A video showing the complete test can be viewed on our website at www.denvergov.org/civilservice.

- **PHASE VI - WRITTEN SUITABILITY ASSESSMENT For Commission Review**

  This phase consists of a battery of non-medical written tests specifically designed to assess behavior and character traits to determine if an individual is suitable for employment as a Police Officer or Firefighter. The written suitability tests are not pass/fail however, a Commission designated psychologist utilizes the assessment as one tool in their review to determine if an applicant is rated as “suitable” or “unsuitable” to continue in the screening process.

- **PHASE VII – POLYGRAPH For Commission Review**

  All applicants shall take a polygraph examination. The polygraph is used in review of an applicant’s qualifications and suitability.

  **“No Show” Policy for Polygraph Appointment:** Applicants unable to attend their scheduled appointment are required to cancel their appointment by contacting the Commission and the provider at least 24 hours in advance. Applicants who are a “no-call/no-show” for their appointment will be assessed a fee of up to $200.00. The applicant will also be prohibited from further processing and/or re-applying until this assessed fee is paid.

- **PHASE VIII - SUITABILITY ASSESSMENT/INTERVIEW Suitable or Unsuitable**

  Applicants will be interviewed by a licensed psychologist retained by the Commission. The application documents and Background History Form, along with the results of the Written Suitability Assessment, the Polygraph, and the Suitability interview, are all used by the psychologist to assign a rating to each applicant. Applicants must have an acceptable rating to continue in the examination process. The psychologist’s review of the written suitability tests, and his/her interview of the applicant, are both non-medical in nature and are used in an assessment of an applicant’s behavior and character traits to determine if an individual is at significant risk for employment problems as a Firefighter.
“No Show” Policy for Suitability Interview: Applicants unable to attend their scheduled appointment are required to cancel their appointment by contacting the Commission and the provider at least 24 hours in advance. Applicants who are a “no-call/no-show” for their appointment will be assessed a fee of up to $200.00. The applicant will also be prohibited from further processing and/or re-applying until this assessed fee is paid.

- **PHASE IX - PRELIMINARY FILE REVIEW**  
  Pass/Fail

  At various times during the examination and screening process an applicant’s file will be reviewed by the Executive Director and/or designated Commission staff to determine qualifications and suitability for hire. An applicant will be subject to immediate disqualification at any time for failure to meet the minimum qualifications and standards established by the Commission. In addition, any falsification, omission of information, or material misrepresentation of fact by an applicant may also be grounds for disqualification. Applicant files may also be reviewed by the Commissioners for suitability.

- **PHASE X - BACKGROUND INVESTIGATION**  
  For Commission Review

  Applicants shall be investigated as to character, conduct, driving record, employment, criminal history, and references. The background investigator will also use the results of the polygraph exam and the suitability assessment when conducting the background investigation. The results of the background investigation will be reviewed by the Civil Service Commission and are considered confidential.

- **PHASE XI – COMMISSION BACKGROUND REVIEW**  
  Pass/Fail

  The results of the background investigation, polygraph and suitability assessment, along with information contained in the applicant’s file related to qualifications and suitability will be reviewed by the Commissioners. An applicant must meet the minimum standards related to qualification and suitability to the satisfaction of a majority of the Commission, to be approved for placement on the eligible register.

**THE ORDER OF TEST PHASES:** The Commission reserves the right to change the order of test phases as required. Applicants who fail to show for further testing when notified in writing may be disqualified. Failing any portion of the examination shall disqualify the applicant from any further participation in the examination process until the next registration period for testing unless otherwise allowed by Commission rule.

**APPLICANT RESPONSIBILITY FOR ADDITIONAL TEST PHASES**

If an applicant anticipates the need to miss any scheduled test or appointment, an alternate schedule must be requested in writing from the Civil Service Commission. All requests will be evaluated on a case-by-case basis. Rescheduling will occur only if an available time slot exists. If no alternate time exists, and the applicant cannot attend the originally scheduled time, the applicant will be disqualified from further testing.

Applicants who fail to show for further phases when notified in writing may be assessed a fee, stricken from the examination list and disqualified from further phases. **Failure to appear on**
time for any part of the examination as set forth herein or for any other scheduled appointment may also result in a fee being assessed and potential disqualification from further testing.

**ELIGIBLE REGISTER**

Eligible register(s) shall be established and maintained to accommodate anticipated personnel needs of the Department of Safety. An eligible register shall contain a rank order listing of the names of approved applicants from the corresponding examination list. Applicants who pass all above mentioned Commission test phases may be placed on an eligible register for original appointment. The Commission may maintain separate eligible registers as provided in Rule 7§2.

**CERTIFICATION**

Upon receiving a requisition for an academy class from the Manager of Safety, applicants shall be certified from the respective Eligible Register in rank order to the Manager of Safety for review. From the certification list received, the Manager of Safety shall select which applicants, in consideration of an appointment, are to receive a conditional offer of employment.

**FIRE DEPARTMENT PANEL INTERVIEW:** Applicants who have been certified for consideration for original appointment may be subject to an interview by a panel of members from the Denver Fire Department.

**CONDITIONAL OFFER OF EMPLOYMENT**

The Manager of Safety retains the authority to extend a conditional offer of employment or to rescind a conditional offer based on the provisions of the City and County of Denver Charter, the Denver Civil Service Commission Rules, and other relevant legal authority (including the Americans with Disabilities Act).

A conditional offer of employment may be revoked if an applicant is unable to perform the essential functions of the job (with or without reasonable accommodation); poses a direct threat to the health and safety of themselves or others; is unable to comply with the post-conditional offer appointment schedule; or is unable to begin work with the Denver Fire Department when scheduled. The conditional offer may also be revoked should an applicant have his/her name removed from the Eligible Register, or be determined that he/she does not meet the qualifications for original appointment.

Applicants receiving a conditional offer of employment from the Manager of Safety are subject to the following:

**MEDICAL EVALUATION:** Applicants shall be required to successfully undergo a medical evaluation at the City’s expense. The medical evaluation includes, but is not limited to, a medical examination, a vision and hearing test, a psychological test, a post-job offer questionnaire, a psychological evaluation, and a drug screen. In order to be hired, each applicant must be able to perform the essential functions of the job (with or without reasonable accommodation, as appropriate). Further, the applicant shall not pose a direct threat to the health and safety of themselves or others, as determined by a medical evaluation conducted by the approved medical examiner and psychologist, consistent with the Americans with Disabilities Act. Applicants shall
be provided individual consideration in the assessment of any disability-related physical or mental limitations and the ability to provide reasonable accommodation for those limitations.

**DRUG SCREEN:** As part of the drug screen, drug use will be evaluated first against the Minimum Qualifications, and as appropriate on a case-by-case basis, and may be grounds for disqualification. If the drug screen (hair follicle analysis) shows the use of a controlled substance, that fact may be cause for disqualification. Where use of a prescription drug is detected, applicants may be required to offer proof that the drug has been prescribed by a physician for the applicant. If the applicant is unable to provide such proof, employment may be denied. Employment may also be denied where future or continued use of a prescribed drug poses a threat to safety or would impair job performance. The question of future or continued use of a prescribed drug shall be referred to the medical examiner for an evaluation and recommendation under the Civil Service rules and other applicable legal authority.

**FINAL JOB OFFER**

Contingent on the number of available positions, final job offers will be made to certified applicants who have successfully completed all conditional offer testing/screening and who are able to perform the essential functions of the job (with or without reasonable accommodation) and who don’t otherwise pose a direct threat to the health and safety of themselves or others.

**MILITARY SERVICE and VETERAN PREFERENCE POINTS**

Every applicant for original appointment who is a Veteran, regardless of eligibility for Veteran preference points, is required to submit a copy of his/her DD214 (Member-4 or Service-2 copy), as part of the background investigation, for verification of the nature and character of military service.

To be considered for an award of Veteran preference points, please provide the copy of your DD-214 (Member-4 or Service-2 copy) to the Commission at the time of the Written Test. If you are unable to provide proof at that time, the Commission will add Veteran preference points to an eligible applicant’s Composite Written Test Score upon receipt of proof of eligibility. Preference points shall be awarded only when proof is provided. An applicant currently serving on active duty is not a Veteran, unless he/she has previously separated from the Armed Forces of the United States.

As provided by the Constitution of the State of Colorado, Article 12, Section 15, Veteran preference points shall be awarded to each applicant who has served, other than for training purposes, in any branch of the Armed Forces of the United States, who is separated under honorable conditions, and who has met the requirements of service or disability. Veteran preference points shall also be awarded to a surviving spouse of any such Veteran. [See below for more specific information on preference points.]

A total of either five (5) or ten (10) Veteran preference points (no more than a total of ten points) shall be added to the Composite Written Test Score of any applicant who qualifies. A pertinent summary of those who may be eligible for Veteran preference points is provided below:
1) **Five (5) preference points** may be awarded to:

A. Any Veteran with an honorable or general discharge who served on active duty (other than for training purposes) in the Army, Navy, Air Force, Marine Corps, or Coast Guard during the following **periods of undeclared war or armed hostilities**:

   a. For more than 180 consecutive days, any part of which occurred after January 31, 1955, and before October 15, 1976;

   b. During the Gulf War period beginning August 2, 1990, and ending January 2, 1992; or

   c. For more than 180 consecutive days, any part of which occurred during the period beginning September 11, 2001, and ending on the date prescribed by Presidential proclamation or by law as the last day of Operation Iraqi Freedom.

B. Any Veteran with an honorable or general discharge who served on active duty (other than for training purposes) in the Army, Navy, Air Force, Marine Corps, or Coast Guard in any campaign or expedition for which a **campaign or expeditionary medal has been authorized**, such as El Salvador, Lebanon, Granada, Panama, Southwest Asia, Somalia, Haiti, Afghanistan and Iraq. (See the following for examples of medals that do and do not qualify.)

**Examples of Campaign and Expeditionary Medals that Qualify for Veteran Preference:**

- Armed Forces Expeditionary Medal
- Navy Expeditionary Medal
- Marine Corps Medal for various operations
- Southwest Asia Service Medal
- Vietnam Service Medal
- Kuwait Liberation Medal
- Global War on Terrorism Expeditionary Medal
- Kosovo Campaign Medal

**Examples of Non-combat Medals that Do Not Qualify for Veteran Preference:**

- The Medal of Merit
- The Medal of Freedom
- The Antarctica Service Medal
- The National Defense Service Medal
- The Armed Forces Reserve Medal
- The Armed Forces Service Medal
- The Global War on Terrorism Service Medal

C. The **surviving spouse** of any Veteran who was or would have been entitled to Veteran preference points under paragraph 1(A) or 1(B) above or, of any person who died during such service or as a result of service connected cause while on active duty in any such branch, other than for training purposes.

For a surviving spouse to receive Veteran preference points, the surviving spouse must submit to the Commission a letter from the Veterans Administration verifying the marital relationship and documentary proof to establish that 1) the deceased Veteran would have qualified under paragraph 1(A) or 1(B) above, or 2) the deceased Veteran died either during such service or as a result of service connected cause while on active duty in any such branch, other than for training purposes.
2. **Ten (10) preference points** may be awarded to (certain disabled Veterans):

   A. Any Veteran with an honorable or general discharge who served on active duty (other than for training purposes) in the Army, Navy, Air Force, Marine Corps, or Coast Guard, as provided in paragraph 1(A) or 1(B) above, **AND**

   B. Who, because of disability incurred in the line of duty (service connected disability), is receiving monetary disability compensation or disability retirement benefits by reason of public laws administered by the Department of Defense or the Veterans Administration.

   A letter from the Veterans Administration, dated within the prior six (6) months, stating that the applicant is receiving monetary compensation or disability retirement benefits because of a 10% or greater disability incurred in the line of duty shall constitute proof of a service-connected disability.

**SPECIAL SKILL PREFERENCE POINTS - LANGUAGE PROFICIENCY**

Special Skill Preference Points for Language Proficiency may be added to an applicant’s Composite Written Test Score based on particular foreign language oral proficiency or sign language proficiency. In order to receive such special skill preference points, an applicant must successfully pass the Entry-Level Firefighter test and then successfully pass a supplemental test (to be administered at a later date/time) that measures an applicant’s level of foreign language oral proficiency or sign language proficiency. The Commission will determine which foreign languages will be eligible for preference points dependent on the needs of the Police and Fire Departments and contingent on the reasonable availability of foreign language assessment tests.

Any Civil Service Commission test for oral foreign language or sign language proficiency is for the purpose of awarding Special Skill Preference Points only. The awarding of Special Skill Preference Points is separate from any department skill tests or pay considerations offered by/through the Department of Public Safety or any collective bargaining agreement(s). The Commission currently conducts oral tests in the following languages for Special Skill Preference Points:

<table>
<thead>
<tr>
<th>Language</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Japanese</td>
<td>Sign Language</td>
</tr>
<tr>
<td>Korean</td>
<td>Spanish</td>
</tr>
<tr>
<td>Russian</td>
<td>Vietnamese</td>
</tr>
</tbody>
</table>

An applicant who passes the Entry-Level Firefighter test and who is rated “proficient” in the supplemental testing will receive five (5) Special Skill Preference Points to be added to the Composite Written Test Score. A maximum of five (5) points would be awarded, even if language proficiency is demonstrated in more than one target language. Once awarded, preference points for language proficiency remain in effect for five (5) years.

The assessment of an applicant’s level of foreign language expertise is based on his/her ability to communicate orally (speech and comprehension) in a particular target language. Individuals should be able to handle, with ease and confidence, a large number of spoken communication tasks. Individuals should be able to follow complex directions and offer or ask for the same in the target language. Individuals should be able to offer complex directions in emergency situations and request medical information for first responders.
An applicant who wants to be awarded Special Skill Preference Points based on language proficiency (to be determined by supplemental testing) should identify oral foreign language or sign language skill level based on the following skill level descriptions:

**Beginner**

*Would not qualify for points. An applicant would not be considered proficient. The skills in speaking and understanding the target language demonstrate; or the sign language skills demonstrate:*

- Somewhat halting; irregular flow
- Strained and tentative; grammatical roughness
- Participation mostly informal; limited amount of formal conversation
- Tendency to grope for language
- Rely on minimal discourse

**Intermediate**

*May qualify for five (5) additional points if the assessment determines an applicant is proficient based upon acceptable foreign language proficiency guidelines. An applicant’s skill in speaking and understanding the target language demonstrate; or, the sign language skills demonstrate:*

- Communicative tasks are handled with ease and confidence
- Adapt flexibly to the demands of the conversation
- Substantial flow in the conversation
- Vocabulary is fairly extensive
- Accuracy, clarity and precision conveyed with intended message

**Advanced**

*Would qualify for five (5) additional points if the assessment determines an applicant is proficient based upon acceptable foreign language proficiency guidelines. An applicant’s skill in speaking and understanding the target language demonstrate; or, the sign language skills demonstrate:*

- Consistently able to explain in detail
- Narrate fully and accurately
- Use of precise vocabulary and intonation to express meaning
- Great fluency and ease of speech

If you are called on for further processing, as appropriate, you may be notified by the Commission when subsequent Special Skill Preference tests will be administered in the identified target language(s).
MEDICAL INQUIRIES

Applicants shall be provided individual consideration in the assessment of any disability-related physical or mental limitations and the ability to provide reasonable accommodation for those limitations. In order to be hired, each applicant must be able to perform the essential functions of the job (with or without reasonable accommodation, as appropriate). Further, the applicant shall not pose a direct threat to the health and safety of themselves or others, as determined by a medical evaluation conducted by the approved medical examiner and psychologist, consistent with the Americans with Disabilities Act.

VISION STANDARDS

Visual acuity must be 20/30 binocular with or without correction.

Uncorrected visual acuity must be 20/100 binocular or better for wearers of hard contacts or glasses.

Firefighters with uncorrected acuity of less than 20/100 in either eye must carry a spare pair of glasses.

Successful long-term soft daily wear contact lens wearers correctable to 20/30 or better are subject to no uncorrected standard on three conditions: 1) “Successful” long-term wearers have worn their lenses six months or more, 2) will replace their lenses every six months to one year or more frequently if the lens becomes uncomfortable or difficult to wear, and 3) will clean the lenses on a regular basis as recommended by the manufacturer. Soft contact lens wear should be considered a condition of continuing employment.

Visual acuity for corrected-refractive surgery, radial keratotomy (RK), or photorefractive keratotomy (PRK) to 20/30 needs individual evaluation. The Denver Civil Service Commission requires a waiting period of six months after soft contact lenses have been dispensed or after corrective surgery has been done, to ensure the success of the procedure and/or stabilization. Vision correction requires various evaluation periods to measure the success of the procedure. Discuss the Essential Firefighting Functions in this booklet with your doctor to ensure that you understand any physical limitations and potential risks involved. It is highly recommended that applicants take an active approach to correct vision problems in order to meet the standards for employment. Failure to do so could impact your selection for an academy.

HEARING STANDARDS

All hearing impaired individuals applying for firefighter positions with critical hearing demands will be carefully evaluated on an individual basis.

Applicants must meet pure tone thresholds in the unaided worst ear not worse than 25dB loss in three of the four frequencies (500 Hz, 1000Hz, 2000Hz and 3000Hz) or no greater than 30dB at any one of the first three frequencies with an average loss of less than 30dB for all four frequencies.
CANDIDATE PHYSICAL ABILITY TEST (CPAT)

Please note, in these events, the candidate wears a 50-pound vest to simulate the weight of self-contained breathing apparatus (SCBA) and firefighter protective clothing. An additional 25 pounds, using two 12.5-pound weights that simulate a high-rise pack (hose bundle) is added to the shoulders for the stair climb event.

Throughout all events, participants must wear long pants, a hard hat with chin strap, work gloves and footwear with no open heel or toe. Watches and loose or restrictive jewelry are not permitted.

The Fire Service Joint Labor Management Wellness/Fitness Initiative Candidate Physical Ability Test © (CPAT) consists of eight separate events. The CPAT is a sequence of events requiring the candidate to progress along a predetermined path from event to event in a continuous manner. This test was developed to allow fire departments a means of obtaining pools of trainable candidates who are physically able to perform essential job tasks at fire scenes.

1. STAIR CLIMB
2. HOSE DRAG
3. EQUIPMENT CARRY
4. LADDER RAISE AND EXTENSION
5. FORCIBLE ENTRY
6. SEARCH
7. RESCUE
8. CEILING BREACH AND PULL

This is a pass/fail test based on a validated total time of 10 minutes and 20 seconds.

Event 1: Stair Climb

Using a StepMill stair-climbing machine, this event is designed to simulate the critical task of climbing stairs in full protective clothing while carrying a high-rise pack (hose bundle) and firefighter equipment. This event challenges aerobic capacity, lower body muscular endurance and balance.

Participants wear a 12.5-pound weight on each shoulder to simulate the weight of a high-rise pack. Immediately following a 20-second warm-up period at a rate of 50 steps per minute, the timed part of the test starts as indicated by a proctor. There is no break in time between the warm-up period and the actual timing of the test. During the warm-up period, dismounting, grasping the rail, or holding the wall to establish balance and cadence is permitted. The timed part of the test lasts three (3) minutes at a stepping rate of 60 steps per minute.

Failure can occur by falling or dismounting three times during the warm-up period, or by falling or dismounting the StepMill after the timed CPAT begins. During the test, the participant is permitted to touch the wall or handrail for balance only momentarily; if that rule is violated more than twice during the test failure will result.
**Event 2: Hose Drag**

This event is designed to simulate the critical tasks of dragging an uncharged hoseline from a fire apparatus to a structure and pulling an uncharged hoseline around obstacles while remaining stationary. This event challenges aerobic capacity, lower body muscular strength and endurance, upper back muscular strength and endurance, grip strength and endurance, and anaerobic endurance. A hoseline nozzle attached to 200 feet of hose is grasped and placed over the shoulder or across the chest. While walking or running, the participant drags the hose 75 feet to a pre-positioned drum, makes a 90º turn, and continues an additional 25 feet. After stopping within the marked box, the candidate drops to at least one knee and pulls the hoseline until the 50-foot mark crosses the finish line.

During the hose drag, failure results if the participant does not go around the drum or goes outside of the marked path. During the hose pull, a warning is given if at least one knee is not kept in contact with the ground or if knees go outside the marked boundary line; a second warning constitutes failure.

**Event 3: Equipment Carry**

This event uses two saws and a tool cabinet replicating a storage cabinet on a fire truck. It simulates the critical tasks of removing power tools from a fire apparatus, carrying them to the emergency scene, and returning the equipment to the fire apparatus. This event challenges aerobic capacity, upper body muscular strength and endurance, lower body muscular endurance, grip endurance, and balance. The candidate must remove the two saws from the tool cabinet, one at a time, and place them on the ground. Then he/she must pick up both saws (one in each hand) and carries them while walking 75 feet around a drum, then back to the starting point. Placing the saw(s) on the ground to adjust a grip is permitted. Upon return to the tool cabinet, the saws are placed on the ground, then picked up one at a time, and replaced in the cabinet.

Dropping either saw on the ground during the carry will result in immediate failure. A warning will be given for running; a second warning constitutes a failure.

**Event 4: Ladder Raise and Extension**

This event, which uses two 24-foot aluminum extension ladders, is designed to simulate the placement of a ground ladder at a fire structure and extending it to the roof or window. This event challenges aerobic capacity, upper body muscular strength, lower body muscular strength, balance, grip strength, and anaerobic endurance. The participant must walk to the top rung of one ladder, lift the unhinged end from the ground, and walk it up hand over hand until it is stationary against the wall. Then he/she immediately proceeds to the other pre-positioned ladder, stands with both feet within the marked box, extends the fly section by pulling the halyard rope hand-over-hand until it hits the stop, then lowers it back to the starting position.

Immediate failure will result if the ladder is allowed to fall to the ground, if control is not maintained in a hand-over-hand manner, or if the rope halyard slips in an uncontrolled manner. Missing any rung during the raise or allowing the feet to be placed outside of the boundary results in a warning; a seconds warning constitutes a failure.
**Event 5: Forcible Entry**

This event uses a mechanized device that measures cumulative force and a 10-pound sledgehammer. It simulates the critical tasks of using force to open a locked door or to breach a wall. This event challenges aerobic capacity, upper body muscular strength and endurance, lower body muscular strength and endurance, balance, grip strength and endurance, and anaerobic endurance. For this event, the candidate uses the sledgehammer to strike a measuring device in a target area until the buzzer activates. Feet must be kept outside the toe-box at all times.

Failure results if the participant does not maintain control of the sledgehammer and releases it from both hands while swinging. A warning is given for stepping inside the toe-box; a second warning constitutes a failure.

**Event 6: Search**

This event uses an enclosed search maze area that has obstacles and narrowed spaces. It simulates the critical task of searching for a fire victim with limited visibility in an unpredictable area. This event challenges aerobic capacity, upper body muscular strength and endurance, agility, balance, anaerobic endurance, and kinesthetic awareness. For this event, the candidate crawls through a tunnel maze that is approximately 3 feet high, 4 feet wide, 64 feet in length, and has two 90º turns and multiple obstacles. In addition, there are two locations where the dimensions of the tunnel are reduced. If at any point the participant chooses to end the event, he/she can call out or rap sharply on the wall or ceiling and will be assisted out of the maze, although doing so will result in failure of the event.

Failure also will occur if the candidate requests assistance that requires the opening of the escape hatch or opening of the entrance/exit covers.

**Event 7: Rescue**

This event uses a weighted mannequin equipped with a shoulder harness to simulate the critical task of removing a victim or injured firefighter from a fire scene. This event challenges aerobic capacity, upper and lower body muscular strength and endurance, grip strength and endurance, and anaerobic endurance. The participant grasps a 165-pound mannequin by the handle(s) on the shoulder(s) of the harness (one or both handles are permitted), drags it 35 feet, makes a 180º turn around a pre-positioned drum, and continues an additional 35 feet to the finish line. Grasping or resting on the drum is not permitted, but the mannequin may touch the drum. The candidate is permitted to drop and release the mannequin to adjust his/her grip. The entire mannequin must be dragged across the finish line. Grasping or resting on the drum at any time results in a warning; a second warning constitutes a failure.
Event 8: Ceiling Breach and Pull

This event uses a mechanized device that measures overhead push and pull forces and a pike pole. The pike pole is a commonly used piece of firefighting equipment that consists of a six-foot long pole with a hook and point attached to one end. This event simulates the critical task of breaching and pulling down a ceiling to check for fire extension. It challenges aerobic capacity, upper and lower body muscular strength and endurance, grip strength and endurance, and anaerobic endurance. After removing the pike pole from the bracket, the participant places the tip of the pole on a 60-pound hinged door in the ceiling and pushes it three times while standing within the established boundary. Then, the pike pole is hooked to a 80-pound ceiling device and pulled five times. Each set consists of three pushes and five pulls; the set is repeated four times. A pause for grip adjustment is allowed. Releasing one’s grip or allowing the pike pole handle to slip does not result in a warning or constitute a failure. The candidate may re-establish his/her grip and resume the event. If a repetition is not successfully completed, the proctor calls out “MISS” and the apparatus must be pushed or pulled again to complete the repetition. This event and the total time ends when the final pull stroke repetition is completed and the proctor calls “TIME”.

A warning is given for dropping the pike pole to the ground or for feet straying outside the boundaries; a second warning of either violation constitutes a failure.

In these events, the candidate wears a 50-pound vest to simulate the weight of self-contained breathing apparatus (SCBA) and firefighter protective clothing. An additional 25 pounds, using two 12.5–pound weights that simulate a high-rise pack (hose bundle) is added to the shoulders for the stair climb event.

Throughout all events, participants must wear long pants, a hard hat with chin strap, work gloves and footwear with no open heel or toe. Watches and loose or restrictive jewelry are not permitted.

All props were designed to obtain the necessary information regarding physical ability. The tools and equipment were chosen to provide the highest level of consistency, safety and validity in measuring the candidate’s physical abilities. A schematic drawing of the CPAT is provided in this orientation material; however, the course layout may vary in order to conform to the fire department’s test area. The events and distances between events are always the same.

The events are placed in a sequence that best simulates fire scene events while allowing an 85-foot walk between events. To ensure the highest level of safety and to prevent exhaustion, no running is allowed between events. This walk allows approximately 20 seconds to recover and regroup before each event.

To ensure scoring accuracy, two stopwatches are used to time the CPAT. One stopwatch is designated as the official test time stopwatch, the second is the backup stopwatch. If mechanical failure occurs, the time on the backup stopwatch is used. The stopwatches are set on the pass/fail time and countdown from 10 minutes and 20 seconds. If time elapses prior to the completion of the test, the test is concluded and the participant fails the test.
Test Preparation

There is a voluntary mentoring and practice program for the CPAT. This voluntary program consists of two phases and commences at least 8 weeks before the actual CPAT test dates.

**Phase 1:** Candidates on a voluntary basis will attend at least two orientation sessions during which they will receive “hands on” familiarity with the actual CPAT equipment. During the sessions, Certified Peer Fitness Trainers, fitness professionals, and/or DFD firefighters will be available to advise all candidates on conditioning regimens and techniques to help them prepare for the CPAT.

**Phase 2:** Within 30 days prior to the actual CPAT test dates, candidates on a voluntary basis will perform a least 2 timed trials, using actual CPAT equipment and completing the entire course. Again, Certified Peer Fitness Trainers, fitness professionals, and/or DFD firefighters will be present to help all candidates understand the test and how they can improve their physical performance and conditioning prior to taking the test.

**Test Forms:** Prior to taking the CPAT, each candidate must present valid identification, sign a number of forms, complete a waiver and release form and a sign-in form. Candidates are provided an opportunity to review a video detailing the CPAT and the failure points. It is the candidate’s responsibility to ask questions if any part of the test events or procedures are not understood. At the conclusion of the CPAT, the candidate must sign the CPAT evaluation form and complete and sign the Rehabilitation Form. Failure to complete and sign any of these forms results in failure of the CPAT.

DENVER FIRE ACADEMY
PHYSICAL FITNESS PROGRAM
PREPARATION GUIDE

To better prepare you for a career in Fire Service, the Fire Academy recommends all applicants be aware of the following physical requirements.

Once in the Fire Academy, every morning starts with a workout. This workout routine includes the following:

✦ Minimum of 100 sit-ups and push-ups each and every day.

✦ Strength training 2 - 3 times per week.

✦ Cardio/muscular circuit training weekly.

✦ Running at least twice a week, starting with 20 minutes per run, at an 8 - 10 minute per mile pace. By the end of the Academy, we will increase to 45 minutes per run at the same or quicker pace.

✦ Wind sprints periodically throughout the Academy.

✦ Dragging hose for leg conditioning periodically throughout the Academy.

✦ Stair climb, up to five flights, 5 - 10 times periodically throughout the Academy.

✦ Stair climb, up to five flights, 5 - 10 times periodically throughout the Academy in full turnout gear with equipment.

In addition to the morning routine, drill ground days include wearing all turnout gear and carrying other equipment all day. This adds approximately 50 pounds of weight to be carried all day.

The Academy staff has seen many recruits enter at less than an ideal fitness level and the difficulty those recruits experience getting into shape. Your time at the Academy will be much more enjoyable and much less painful, if you arrive in good physical condition.
