Dear Educators:

The College Board recognizes the challenges involved in maintaining a culture of college readiness in your schools, and every year we produce a new set of valuable counseling resources that are among the most trusted in the industry. We hope they will prove useful to both you and your students.

The College Board is launching a redesigned SAT® in March 2016, as well as a redesigned PSAT/NMSQT® and PSAT™ 8/9 in October 2015 and PSAT™ 10 (which is the same program as the PSAT/NMSQT) in the spring of 2016. Closely aligned to challenging classroom work, the redesigned assessments will focus on what evidence shows matters most for college and career readiness. To support student practice, an all-new The Official SAT Study Guide™ has been created, including four new practice SAT exams compiled from actual test items selected from the official item pool.

As always, the 2016 editions of our annual college guides, such as the College Handbook and Book of Majors, will help open the doors to your students’ college search; and the newly revised editions of The College Application Essay and Get It Together for College will steer students through the college application process.

We are also pleased to offer aids to help students discover available funding options and explore the possibility of credit through exam, as well as the 7th edition of the College Counseling Sourcebook to help new counselors with support and tips from other college counseling professionals.

We look forward to supporting your efforts in guiding all students along the path to success in college.

Sincerely,
The College Board
