SECTION II  PROPOSAL FORMAT - PART I - TECHNICAL

The proposal must be submitted in the format outlined below. Paginate proposals and ensure that the proposals refer specifically to the project at hand. Proofread proposals for language and mathematical errors. The items shown below are considered in the Ad Hoc Committee proposal review of technical qualifications.

II-1  General Information and Project Team

State the full name, address, and federal I.D. number of the organization and, if applicable, the branch office, consultants or other subordinate elements that will provide or assist in providing the service. Indicate whether you operate as an individual, partnership, or corporation. If a corporation, include the state in which you are incorporated. State whether you are licensed to operate and practice in the State of Michigan.

II-2  Understanding of Project and Tasks

The Professional must understand the project being considered and the professional services needed to achieve the state’s goal. State your understanding of the project requirements and summarize your plan for accomplishing the project. Outline your experience with similar projects, sites, and clients as examples. Explain how your firm or project team is the best suited to provide the services required for this project and would provide the best value to the State of Michigan for this work.
II-3 Personnel

The Professional must be able to staff a project team that has the qualifications and expertise necessary to undertake the project. Include the full names of all personnel by classification that will be employed in the project. Indicate which of these individuals you consider to be "Key Personnel" for the successful completion of the project, identify them by name and position/classification, and provide their resumes. Provide an organization chart outlining authority and communication lines for each professional firm, including Key Personnel, including sub-consultants, client agency, and DTMB.

II-4 Management Summary, Work Plan, and Schedule

The Professional must outline their work plan and methodology so that it is understood what services and deliverables will be provided, and the quality of the services and deliverables as well. Describe in detailed narrative form your plan for accomplishing the project. Describe clearly and concisely each professional task, event, and deliverable required for project completion. Do not simply reiterate language and tasks from the DTMB Professional Services Contract. Describe your constructability review and quality control plan. Include a detailed time sequenced-related but undated schedule, showing each event, task and phase in your work plan. Allow time in the schedule for Owner's review.

II-5 Budget Analysis

Analyze the proposed project budget for adequacy versus the outlined program or project statement. If your professional opinion is that the proposed budget is inadequate provide the basis for your opinion and offer suggestions for managing the issue. This will not adversely affect review of the proposal.

II-6 References

Provide references, with contact information, of previous clients, particularly for similar projects. Outline your experience with similar projects, sites, and clients.

SECTION III PROPOSAL FORMAT - PART II - COST

III-1 Instructions and Information – Billable Rate

The Part II - Cost Proposal shall carefully interface with all phases/tasks of the work plan identified in the Part I - Technical Proposal. The fee requested shall be estimated using billable hourly rates and the hours expected to be necessary by particular staff to complete the phases of work. If sub-consultants are used, their fees shall be provided. A mark-up of the consultants' fees or billing rates will be allowed; indicate the percentage of the mark-up within the tables.

Reimbursable Expenses: The DTMB will reimburse the Professional for the actual cost of printing and reproduction of project deliverables such as survey and/or study report and bidding documents (drawings and specifications). DTMB will also reimburse for U.S. Mail regular shipping or postage, soil borings, site surveys and any required laboratory testing. A mark-up of reimbursable expenses will be allowed; indicate the percentage of the mark-up within the tables.

All other costs, such as fringe benefits, vacations, sick leave, insurance, meals, lodging, travel, all computer time, and clerical/secretarial services (not project related), telephone services, miscellaneous travel, reproduction services for other than bid documents, employees not providing a direct service, other indirect costs, overhead and profit, shall be included in the calculation of the Professional's billing rates.

If the project is further than 100 miles one-way from the Professional firm's office, provide an estimated allowance of reimbursable costs for travel expenses to the project site at the State of Michigan's rates (attached). Other travel expenses are not to be included.

Completeness of Proposal: The design phase services shall cumulatively include any services required for subsequent issuing and processing of bulletins arising from, but not limited to, design errors and/or omissions, code compliance (precipitating either from plan review or on-site/field observations), or modification of existing structures or systems necessary to achieve the intent of the project statement.
The design phase services shall include, either by cumulative allowance or by specific task, the furnishing of all project data and services necessary to legally implement the project. This includes but may not be limited to, code reviews and/or interpretations, project meetings, presentations, hearings, utility allocations requests, and/or connections, easements, or permits.

Any contract issued by the state pursuant to this proposal anticipates that the Professional will provide, but shall not seek compensation for, services necessary to respond to and resolve contractor claims arising wholly or in part from the Professional's design errors or omissions or other aspects of the design or for any aspect of the professional's performance which is inconsistent with the professional or construction contracts. No task or part thereof may include costs for such efforts.

Cost Review: Cost Proposals are reviewed on Interface and Total Fee. Interface refers to how the effort proposed (defined as the numbers of hours per phase, considered with the staff and classification assigned to that phase) relates to the effort the DTMB and the Client Agency expect or estimate to be required in order to deliver the project successfully. Total Fee refers to the total of the prime Professionals’ fee, sub-consultants, travel, and other reimbursable expenses.

III-2 Identification of Personnel and Estimated Compensation

Provide compensation information for the Professional as well as any Sub-consultants. Note that employees of a separate professional firm or consultant, if proposed, should also be included and noted.

A. Primary Professional and Sub-consultant(s) – Position, Classification & Employee Billable Rate Information

Using the format of Form III-2-A (attached), identify the service being provided and the Professional's or Sub-consultant's employee(s) names and position classifications. List their current hourly billable rate range from the beginning to the end of the project, by year, based on the professional's estimated schedule duration. This range of current and anticipated hourly billing rates shall include any anticipated pay increases over the life of the Professional's or consultant's estimated project schedule. Sub-consultant billable rate information is required in case of changes in scope; sub-consultant fees will be included in the contract as not-to-exceed reimbursable amounts, including a reasonable mark-up.

To determine your current billing rates, use the attached guideline page for information regarding the “overhead items used for Professional Firm's billing Rates Calculation,” and the attached “Sample Standard Contract For Professional Services,” Article 2 – Compensation. Consultants providing professional services must submit separate billing rates for services that they will provide. A reasonable mark-up of the consultants billing rates will be allowed. ALL other costs, such as indirect labor, telephones, miscellaneous reproduction, travel, etc. shall be included in the professional's billing rate.

Identify, for each task, the estimated cost. The combination of all phases/tasks shall become the professional's maximum not-to-exceed cost for all services. Compensation for each phase will be in accordance with the attached “Sample Standard Contract for Professional Services,” Article 2 – Compensation.

B. Fee with Anticipated Hours by Phase

Using the format of Form III-2-B, identify for each phase the estimated hours for each employee and include the billable rate for each employee. Provide totals.

C. Reimbursable Expenses

Using the format of Form III-2-C, identify the phase number, firm name and description of sub-consulting services expressed as a not-to-exceed amount. Identify the phase number, firm name, and description of all reimbursable direct expenses expressed as a not-to-exceed amount (travel over 100 miles one-way, printing, tests, etc.). Note the mark-up(s) for handling reimbursable expenses. Provide totals.

D. Total, Summarized by Phase

Using the format of Form III-2-D, provide a total of the fees and reimbursable expenses, by phase, as outlined in items B and C above. The total of all phases shall become the Professional's maximum not-to-exceed contract for
all design services. Compensation for each phase will be in accordance with the attached “Sample Standard Contract for Professional Services.”

Use the attached forms to establish your total compensation and trade contract reimbursables.
The following instructions are to be used by the Professional Services Contractor firm's to determine the hourly billing rate to use on State of Michigan Projects.

The Professional's Consultant must submit a separate hourly billing rate for the professional Consultant services they will provide for State of Michigan Projects. A moderate mark-up of the Professional's Consultant services hourly billing rates will be allowed.

The Department will reimburse the Professional for the actual cost of printing and reproduction of the Contract Bidding Documents, soil borings, surveys and any required laboratory testing services and use of field equipment. **No mark-up of these Project costs will be allowed.**
