5 Welcome to the IMS Online Help

This online help provides information about Inclusion Management System (IMS) functionality including step-by-step instruction for completing tasks.

You can access the online help by selecting any help icon located on many of the screens within Peer Review. You can find most of the icons next to the screen titles. These icons will take you to the help topic specific to the Peer Review screen you came from, but you can always search for other topics and navigate through the entire online help as needed.

Use the following options to navigate the online help:

5.0.1 Contents Tab

The Contents tab displays books and pages that represent the categories of information in the online help. Click a closed book to open it and display sub-books and pages. Click an open book to close it. Click on a page to view it in the right-side pane.
If you'd like to see the topic across the entire screen, you can hide the Contents pane by clicking on the arrow located midway down the right side of the pane.
Unhide it by selecting the arrow again.
5.0.2 Print Button

The Print button enables you to print the topic located in the right-side pane. Any collapsed information within the topic will not be included in the print-out. To include all information, make sure to use the Expand All button before printing.

5.0.3 Expand/Collapse All Button

The Expand/Collapse All button allows you to expand and collapse hidden information (e.g., images) within the current topic.

5.0.4 Navigate Previous Button

The Navigate Previous button allows you to view the previous topic in the list of Contents.

NOTE: Use the Back button on your browser to view the topic you previously viewed.

5.0.5 Navigate Next Button

The Navigate Next button allows you to view the next topic in the list of Contents.

5.0.6 Search Button

The Search button enables you to search for terms and locate topics containing these terms. Once the search is complete, a list of topics appears so you can select a specific topic to view. This search feature retrieves information only from the Inclusion Management System (IMS) online help.
5.0.7 Togglers

Togglers appear in blue text with an arrow and are used to expand or collapse hidden information, such as screen images or additional text within the help topic. Click this toggler to display (expand) or hide (collapse) the information.

---

You've just un toggled this information!

5.0.8 Links

Links appear in blue, underlined text and direct you to related help topics or to online information outside of the online help. Clicking a link displays the information in a new window.

NOTE: After selecting a link for the first time, it will appear as purple, underlined text.

5.0.9 See Also Content

A See Also list of related topics contains individual links to other topics in the online help related to the topic currently being viewed. Select the link of the appropriate topic to view that topic. The selected topic will open in a new window.

---

See Also
- Manage Inclusion Data Records
- Inclusion Data Record (IDR) Tab
- Detailed Enrollment Report
- Enrollment Summary
- Action History
- Transfer Inclusion Data Record(s)
- Viewing IDR(s) via the Grant Folder

See Also
- Route to SO
- Return to PI
- Route to Agency

5.0.10 Contact Us

Links are provided in the footer of every topic to easily contact eRA.

Are you having system issues? Use the link in the footer to access the eRA Service Desk online ticketing system at which you can submit a ticket for support and find other means of contacting eRA Service Desk.
Do you want to provide feedback about the topics found in this online help or its corresponding user guide? Use the eRA Communications department link to contact eRA Communications, the author of this content.
5 Latest Updates

The following new features were implemented in May 2016:

5.0.1 IDR Attributes

_IDR Attributes Screen_

Participant Location field is now called Enrollment Location on all IDR screens.

_Table 1:_
5 Inclusion Management System (IMS)

The purpose of this guide online help is to provide instruction for navigating the Inclusion Management System (IMS) for viewing and maintaining inclusion enrollment data associated with your applications and award(s).

IMS is used to view and maintain inclusion data associated with your grant(s) and can be accessed in one of two ways, both through the eRA Commons system: via the Status module –or– via the RPPR Section G. Special Reporting Requirements. In these instructions, you will find information on accessing IMS via the eRA Commons (Commons), managing Inclusion Data Records (IDRs), including editing planned inclusion data, editing cumulative inclusion data, viewing IDR details and action history, and routing/submitting inclusion data.

**IMPORTANT:** This guide covers how to access IMS via the eRA Commons Status module. It does not cover information regarding submitting your inclusion data with your Research Performance Progress Report (RPPR). The NIH and Other PHS Agency Research Performance Progress Report (RPPR) Instruction Guide provides additional information on filling out Section G as well as all other sections of the progress report. Refer to Chapter 5.2.4 and Chapter 6.7 of the RPPR instruction guide for more information.

5.1 **When to Use the Status Module**

There are a number of reasons why you might need to access inclusion data through Commons Status rather than through your progress report. For example:

- Before award of a competitive application, changes may be necessary to the inclusion data submitted with the application via Grants.gov.
- Post-award, there may be a requirement to provide more frequent updates to inclusion enrollment in addition to any reporting associated with the RPPR.

Inclusion data cannot always be updated using Status. When application is undergoing peer review, the inclusion data is not accessible in the Inclusion Management System. Also, after a grant is awarded, only the View links will be available for the IDRs associated with fiscal year award. The data for a given fiscal year is locked when the award is issued and no further updates can be made. At that point, you can make updates via Status for the record associated with the next fiscal year.

You will also be blocked from using Status to update inclusion data after the progress report for the fiscal year has been initiated and changes to the inclusion data have been submitted and saved in the system via the Inclusion link in the progress report.

5.2 Access via Status Module

This topic covers how to access IMS via Status. It does not cover additional information regarding the Status module. For more information on the Status module, refer to the topics Status for Program Directors/Principal Investigators (PI Role) and Status for Signing Officials (SO) role in the Commons Online Help.

Also, the Commons Status module looks and behaves differently for different users, depending on their Commons role (e.g., PI, SO). Therefore access to IMS via Status also differs depending on whether you are a Principal Investigator (PI) (or delegate) or a Signing Official (SO). See the instructions below for your specific Commons role.

NOTE: Access to IMS from Status may be blocked after a user in your organization makes changes to the inclusion data as part of a Research Progress Performance Report (RPPR) submission.

5.2.1 Access IMS as a PI

As a PI (or delegate), you use the Status Result – List of Applications/Grants screen to access IMS.

To access IMS via the Status Result:

1. Locate the correct application in the results table.
2. Select the Inclusion link from the Action column for the specific application.

The Inclusion–Manage Inclusion Data Records (IDRs) screen displays any existing IDRs for the application. You will use this screen to access the features for submitting new records, viewing existing records, editing planned data, editing cumulative data, routing IDRs, and submitting IDRs (SO or authorized PIs).
**IMPORTANT:** IMS blocks the ability to manage IDRs accessed via the Status screens if the IDRs have already been saved by yourself or another permitted grantee via the progress report (i.e., RPPR). In this event, when accessing the IDRs via Commons Status screens, you will only be able to view the information.

For more information on the *Inclusion–Manage Inclusion Data Records (IDRs)* screen and available actions within, refer to the topic titled *Inclusion - Manage Inclusion Data Records on Page xviii.*

### 5.2.2 Access IMS as an SO

As a Signing Official (SO), you can retrieve and view a list of applications having Inclusion Data Records (IDRs) that require updates or another action. Selecting the **Pending Inclusion Action** link from the main Status page prompts Commons to display grants for which the IDR(s) are in a status of *Grantee Updates in Progress* or *Pending SO*.

![Figure 2: Pending Inclusion Action Link in Status](image)

To view or manage these IDRs, select the **Inclusion** link from the records on the screen. After selecting the link, you will be taken to the *Inclusion–Manage Inclusion Data Records (IDRs)* screen on which IDRs for the application are displayed.

![Figure 3: Inclusion Link in SO's View](image)
This *Pending Inclusion Action* feature in Status provides a quick means viewing only grants with inclusion needs. However, if you perform a specific search using the *Status Results–General Search* screen will find the *Inclusion* link there, in the *Action* column, if inclusion monitoring is required for the grant.
5 Inclusion - Manage Inclusion Data Records

Grantees use the Inclusion–Manage Inclusion Data Records (IDRs) screen to begin the process of submitting new planned enrollment records or to view a list of all IDRs for a given grant application and to manage those individual records where applicable.

The top portion of the screen displays the Grant number, the PI Name, and the SO selected for inclusion-related email notification (if selected). Refer to the topic titled Select SO for Inclusion Emails on Page xliv.

When inclusion data records exist, they display in the hitlist, which displays inclusion record details and links for viewing or editing IDRs as appropriate. The information is displayed by project number in a table. IDRs on the subproject level submitted through the Application Submission System and Interface for Submission Tracking (ASSIST) are displayed on the parent level though they may be associated with a particular subproject.

Some IDRs represent studies in the current funding period for which existing datasets or resources were used to conduct the study (with no planned enrollment) or are from the progress report provided with the most recent competing renewal submission. If IDRs exist matching these criteria, they will display with only the View action link and a message on the top of the screen will indicate the reason (e.g., The application has been awarded, and IDRs cannot be created or edit for that fiscal year.)

NOTE: The Submit New IDR link is the only option you will see when inclusion monitoring is required and no IDRs exist. Select the link to open the Edit IDR Attributes screen to begin the process of submitting a new report. Refer to the topic titled Edit Inclusion Data Record (IDR) Attributes on Page xxiv for more information.

The information provided in the hitlist(s) will vary depending on whether the viewed records are for a single project (or parent) or multi-year funded award.

- Single-project awards and parent applications to multi-project awards: The hitlist displays all IDRs for the application. These IDRs are editable in Commons Status before award, until accessed via RPPR. After submission of the progress report, these IDRs are available for editing via Commons Status again until the award is issued.

- Multi-year funded award: The hitlist displays all IDRs for the award, grouped by fiscal year with the current fiscal year displayed at the top of the list. The IDRs for previous fiscal years display below the current year and can only be viewed. Only IDRs for the current fiscal year are editable. These IDRs are locked once the each budget start date anniversary is passed.

Click here to display sample images.
The information provided in the hitlists is as follows:
• IDR#

The words (Last Budget Period) appear after the IDR number to indicate that the IDR was created in the Last Budget Period IDR and is designated as a Last Budget Period IDR.

• IDR Status

Refer to the topic titled Inclusion Data Record Statuses on Page 1 for a list and definition of all available statuses.

• Study Title

• Last Updated Date

• Action

Use the links in the Action column to perform specific actions against the IDR. Depending on the award type, IDR status, and/or IMS system user's role, the following action links may be available from the Inclusion–Manage Inclusion Data Records (IDRs) Action column. Not all links are available to all users or for all inclusion records.

Possible actions include the following:

View

Select the View link to open a read-only view of the Inclusion Data Record (IDR) Details screen. For more information on this screen, refer to the topic titled Inclusion Data Record Details on Page xxxi.

The View link is available for all IDRs, but is the only available option for the following IDRs:

○ IDRs for a single-project and multi-project for which inclusion data was accessed via the RPPR
○ IDRs for awarded single-project and multi-project
○ IDRs for past years of a multi-year funded award
○ IDRs with only cumulative enrollment data

Edit Attributes

Select the Edit Attributes link to access the Edit Inclusion Data Record (IDR) screen for editing or viewing an IDR's attributes. Refer to the topic titled Edit Inclusion Data Record (IDR) Attributes on Page xxiv for more information.

IMPORTANT: This link is not available if the IDR is marked as Not Funded or Type 2 Progress Report.
**Edit Planned Enrollment**

Select the **Edit Planned Enrollment** link to access the *Edit Enrollment Counts* screen for editing existing planned enrollment data. Refer to the topic titled *Edit Enrollment Counts on Page xxv* for more information.

The **Edit Planned Enrollment** link appears for single- and multi-project awards at all times before award. For multi-year awards, the link is available only for the current year of the IDR.

This link may also appear for Last Budget Period IDRs. Refer to the topic titled *Last Budget Period IDRs on Page xxix* for more details.

**IMPORTANT:** This link is not available if the IDR is marked as Delayed Onset Study, Not Funded, or Type 2 Progress Report.

**Edit Cumulative Enrollment**

Select the **Edit Cumulative Enrollment** link to access the *Edit Enrollment Counts* screen for editing cumulative enrollment data. Refer to the topic titled *Edit Enrollment Counts on Page xxv* for more information.

The **Edit Cumulative Enrollment** link appears for single- and multi-project awards at all times before award. For multi-year awards, the link is available only for the current year of the IDR.

**IMPORTANT:** This link is not available if the IDR is marked as Delayed Onset Study, Not Funded, or Type 2 Progress Report.

**Edit in Last Budget Period**

The **Edit in Last Budget Period** link displays next to an IDR to report enrollment data for research performed during the period of time between the award of the last non-competing support year and the end of the project period. Selecting the link creates a Last Budget Period IDR for this information. The link is removed once a Last Budget Period IDR is created.

Refer to the topic titled *Last Budget Period IDRs on Page xxix* for more details.

**IMPORTANT:** Last Budget Period IDRs on Page xxix

**Delete**

IDRs that were created by a Grantee via Commons Status or RPPR and never submitted to the Agency can be deleted. Use the **Delete** link to delete these inclusion records. When the link is selected, a confirmation message displays: *Are you sure you want to delete this Inclusion Data*
Record? You will lose all related enrollment data. Do you want to Continue?

From this confirmation, select the **Continue** button to complete the process or the **Cancel** button to abort the deletion. Once confirmed, this action cannot be undone.

**Route to SO**

PIs, PI delegates, and AOs use the **Route to SO** link to send the IDR to a Signing Official for review or submission. Refer to the topic titled **Route to SO on Page xliii** for more information.

**Return to PI**

SOs use the **Return to PI** link to send a routed IDR back to the PI. Refer to the topic titled **Return to PI on Page xlvi** for more information.

**Route to Agency**

SOs and PIs delegated with submit authority by the SO use the **Route to Agency** link to submit the IDR to the awarding agency. Refer to the topic titled **Route to Agency on Page xlvi** for more information.

**5.3 Submit New IDR**

PIs can create new IDRs for single- and multi-project awards and for the current year of multi-year awards until the progress report has been submitted and the award issued (or the budget start date anniversary has passed for a multi-year funded award). It may be necessary to submit a new Inclusion Data Record (or update an existing IDR set to Delayed Onset = yes) if a grantee has studies that were not designed prior to competing submission and now are ready to start.

PIs can also submit new planned data for study commencing during the period of time between award of the last non-competing support year and the end of the project period. These IDRs are called Last Budget Period IDRs. Refer to the topic titled **Last Budget Period IDRs on Page xxix** for more information.

To submit new IDRs, select the **Submit New IDR** link on the Inclusion–Manage Inclusion Data Records (IDRs) screen.
Accessing IMS via Commons Status

Figure 7: Sample Submit New Planned Inclusion Record for Single-Project

Figure 8: Sample Submit New Planned Inclusion Record for Multi-Year Award

This link opens the Edit Inclusion Data Records (IDR) Attributes screen. To create an IDR, you must first create the attributes for that IDR. For details on this screen, refer to the topic titled Edit Inclusion Data Record (IDR) Attributes on Page xxiv.

Edit Inclusion Data Record (IDR) Attributes Screen
5.4 Edit Inclusion Data Record (IDR) Attributes

Use the Edit Inclusion Data Record (IDR) Attributes screen to set an IDRs attributes while creating the IDR or to edit the attributes of an existing IDR.

You access the screen by selecting the Submit New IDR link for a new IDR or the Edit Attributes link for an existing IDR, both found on the Inclusion – Manage Inclusion Data Records (IDRs) screen. For more information, refer to the topic titled Inclusion - Manage Inclusion Data Records on Page xviii.

NOTE: Editing IDR attributes may be blocked after a user in your organization makes changes to the inclusion data as part of a Research Progress Performance Report (RPPR) submission.

When creating a new IDR, all attribute fields are editable. When editing existing attributes, the screen displays all previously populated settings.

All attributes are required unless the IDR uses a delayed onset study. If the Delayed Onset Study attribute is set to Yes, the remaining attributes –other than Study Title– become disabled. Study Title is always a required attribute.

NOTE: When editing existing attributes, the Delayed Onset Study setting cannot be changed from No to Yes. If Delayed Onset Study is changed from Yes to No, the remaining attributes become enabled and required.

After saving the attribute settings, IMS creates the IDR with the appropriate record type (Regular vs. Last Budget Period), assigns an IDR ID number, and sets the status to Grantee Updates in Progress. IMS also captures the name of the person who created the IDR and the date/time.

For multi-project applications, the IDR is assigned to the parent application.

Once the attributes are saved you are returned to the Inclusion – Manage Inclusion Data Records (IDRs) screen where you can edit the planned enrollment data (as well as perform other functions). For additional help on editing enrollment data, refer to the topic titled Refer to the section of this document titled Edit Enrollment Counts on Page xxv.
Use the Edit Enrollment Counts screen to edit planned or actual enrollment data for an IDR. The screen is accessed from the Manage Inclusion Data Records screen by selecting either the Edit Planned Enrollment link for editing planned enrollment counts or the Edit Cumulative Enrollment link for updating cumulative enrollment counts.

Refer to the topic titled Manage Inclusion Data Records for more information.

The Edit Enrollment Counts screen is similar for both planned counts and cumulative counts. Any differences are described below.
### Figure 10: Sample Edit Enrollment Counts Screen for Planned Enrollment

- **Racial Categories:** American Indian/Alaska Native, Asian, Black or African American, Native Hawaiian or Other Pacific Islander, White, More Than One Race, Unknown or Not Reported
- **Ethnic Categories:** Net Hispanic or Latino, Hispanic or Latino, Unknown/Not Reported
- **Counts:**
  - **American Indian/Alaska Native:**
    - Female: 10, Male: 10, Unknown/Not Reported: 10, Female: 10, Male: 10
  - **Asian:**
    - Female: 15, Male: 15, Unknown/Not Reported: 0, Female: 0, Male: 0
  - **Black or African American:**
    - Female: 15, Male: 15, Unknown/Not Reported: 10, Female: 10, Male: 10
  - **Native Hawaiian or Other Pacific Islander:**
    - Female: 10, Male: 10, Unknown/Not Reported: 10, Female: 10, Male: 10
  - **White:**
    - Female: 10, Male: 10, Unknown/Not Reported: 10, Female: 10, Male: 10
  - **More Than One Race:**
    - Female: 15, Male: 15, Unknown/Not Reported: 10, Female: 10, Male: 10
  - **Unknown or Not Reported:**
    - Female: 50, Male: 50, Unknown/Not Reported: 50, Female: 0, Male: 0

- **Total Counts:**
  - Net Hispanic or Latino: 10, Male: 10, Unknown/Not Reported: 10
  - Hispanic or Latino: 50, Male: 50
  - Unknown/Not Reported: 0
The *Edit Enrollment Count* screen contains the following information:

**Grant #**

The grant to which the IDR belongs.

**PI Name**

The name of the contact PI on the project record.

**Inclusion Data Record (IDR) #**

Displays the system-generated identification number of the inclusion data record.

The words *(Last Budget Period)* appear after the IDR number to indicate that the IDR was created in the *Last Budget Period IDR* and is designated as a *Last Budget Period IDR*.

**IDR Status**

Shows the status of the record.
Study Title

The study title of the IDR, pre-populated with the existing title.

Enrollment Location

Enrollment Location indicates whether the IDR involves participants from a non-US site (i.e., foreign) or a US site (i.e., domestic).

ESelect one of these values from the drop-down menu:

- **Domestic**
- **Foreign**

Using an Existing Data Study

If there are questions regarding the definition of an existing dataset or resource, please refer to the following FAQ: [http://grants.nih.gov/grants/funding/women_min/datasets_faq.htm](http://grants.nih.gov/grants/funding/women_min/datasets_faq.htm)

Existing Dataset values include:

- **Yes**
- **No**

Clinical Trial

A research study in which one or more human subjects are prospectively assigned to one or more interventions (which may include placebo or other control) to evaluate the effects of those interventions on health-related biomedical or behavioral outcomes.

For more information, refer to the [NIH glossary entry for Clinical Trial](http://grants.nih.gov/grants/guide/appendixes/clinicaltrial.html).

NIH Defined Phase III Clinical Trial

This field indicates whether the IDR is included in a study that is part of a NIH-defined Phase III Clinical Trial.

Y - indicates an NIH-defined phase III clinical trial

N - indicates clinical research, not an NIH-defined phase III clinical trial

Enrollment Type

Displays either Planned or Cumulative as appropriate.

Comments

An optional text field for entering comments for the specific enrollment type (planned or cumulative). If any comments were entered before, this field is pre-populated when editing an existing IDR. If editing existing Planned Enrollment, you should first discuss with the Program
Officer and may want to consider adding a comment here to explain the change.

The enrollment form includes racial categories along the left side of the table and ethnic categories, divided by sex/gender, along the top of the table. The individual enrollment count cells are editable and set to zero by default, when populating a new IDR. When editing an existing form, these values are pre-populated with any other values previously entered. The total fields are calculated by IMS and sum up as rows and columns accordingly. The total values are not editable fields.

**IMPORTANT:** The display of cumulative enrollment counts data includes fields for entering Unknown/Not Reported race, ethnicity, and sex/gender data. These fields are disabled when planned enrollment counts are displayed.

Update the values in the individual enrollment count cells as necessary, and select the **Save** button. To leave the form without saving any changes, select the **Cancel** button instead. Saving and canceling both return you to the *Inclusion–Manage Inclusion Data Records* screen.

**POLICY:** For additional information on racial and ethnic categories or inclusion policy, refer to the PHS Supplemental Instructions for Human Subjects or the OER inclusion web page.

IMS will perform validations to make sure the data can be saved and events may occur while editing the counts which prevent you from saving your information. Pay attention to the warnings or errors on the screen.

### 5.6 Last Budget Period IDRs

Upon award of an application, the status of a regular IDR is changed to *Accepted*, and the data are frozen and unable to be edited for that fiscal year. Grantees who need to report changes in the enrollment data for the research performed during the period of time between award of the last non-competing support year and the end of the project period cannot do so in these *Accepted* IDRs. Instead, Grantees can report this information by creating a Last Budget Period IDR, which is assigned to the last support year of the grant, along with the regular IDR.

To create the Last Budget Period IDR, associated with regular IDR for the same study, select the **Edit in Last Budget Period** link in **Action** column of the *Inclusion–Manage IDRs* screen for the regular IDR. This link will be removed once the Last Budget Period IDR is created.
Figure 12: Edit in Last Budget Period

When the Last Budget period IDR is created, all enrollment data (Planned and Actual) are copied from the regular IDR for this study. The Last Budget Period IDR is displayed on the hitlist below the associated regular IDR. The **Edit in Last Budget Period** link is removed from **Action** column for regular IDR. Editing links (**Edit Planned Enrollment**, **Edit Cumulative Enrollment**, and routing links) are displayed for the Last Budget Period IDR.

As with regular IDRs, Last Budget Period IDRs must be routed from the PI to the Signing Official (SO) and submitted to the Agency by the SO. Agency staff will not see these IDRs until they are submitted to the Agency.

The Last Budget Period IDR and regular IDR – associated with the same study – share the same unique IDR number. The Last Budget Period IDR is distinguished by the label *(Last Budget Period)* located below IDR number wherever the IDR number is displayed.

Click here for a sample image.

![Image](image.png)

Figure 13: Last Budget Period IDR in Manage IDRs

**NOTE:** Grantees can edit both planned and cumulative data for the last budget period using the **Edit Planned Enrollment** and **Edit Cumulative Enrollment** links on the **Inclusion–Manage Inclusion Data Records (IDRs)** screen for the Last Budget Period IDR.

Grantees can create a new IDR during the Last Budget Period should a new study commence during that time period by selecting the **Submit New IDR** link. Grantees then will be provided with blank **Edit Inclusion Data Record (IDR) Attributes** screen followed by access to the **Edit Enrollment Counts** screen, where information for a new study can be entered. After the Last Budget Period IDR for a new study is created, it should be edited and routed to the Agency in the same manner as the regular IDR. On the hitlist such IDRs would not have associated regular IDRs, since the study just started in Last Budget Period.
5 Inclusion Data Record Details

Access the Inclusion Data Record (IDR) Details screen by selecting the View action option from the Inclusion–Manage Inclusion Data Records (IDRs) screen.

You can use this screen to view details of a selected IDR, including including planned and cumulative enrollment reports and history of actions performed on the IDR. The information displayed on the screen is read-only.

The screen provides the ability to switch between all fiscal years and between all existing versions of the requested IDR. Each time edits to an IDR are sent to the agency a version is created so as not to overwrite existing information. It allows you to view the Work in Progress IDR (for IDRs in Grantee Updates in Progress, Pending SO, Requires Updates, or Inclusion Updated status).

Click here to display a sample image.
The header section of the screen displays general project and IDR information. Additional IDR data is displayed on tabs within the screen.

![Inclusion Data Record (IDR) Details Screen](image)

**Figure 14: Inclusion Data Record (IDR) Details Screen**
• **Inclusion Data Record (IDR) tab**

• **Action History tab**

**Header Section**

The header section of *Inclusion Data Record (IDR) Details* displays the appropriate information for the grant application record to which the selected IDR belongs. The following information is included in the header section of the screen:

• **View Reported FY**

IMS allows switching between fiscal years of an application/award (or fiscal year of an IDR for multi-year award) by selecting the appropriate year's link. The screen's default view depends on which record was chosen to view when you accessed the screen. When a fiscal year's IDR is in the current view, the link becomes disabled and is displayed as bold text instead.

![Image](Inclusion Data Record (IDR) Details)

*Figure 15: View Reported FY Links*

• **Grant #**

• **PI Name**

• **Current Inclusion Data|Prior Versions**

To view prior versions of the IDR, select the date link of the prior version you wish to view. To return to the current version, select the **Current Inclusion Data** link. The corresponding link – either the current version or a selected prior version – displays in bold font as a visual indication of the view.
When viewing Inclusion Data Record (IDR) Details for a Last Budget Period IDR, the words (Last Budget Period) display next to the Current Inclusion Data label. On the same line, links to the prior version of the Last Budget Period IDR (if applicable) display next to the title Prior Versions of Last Budget Period. Links to the prior version(s) of the corresponding regular IDR display beneath this information, next to the label Prior Versions; these links do not exist for Last Budget Period IDRs not associated with a regular IDR (i.e., new study).

### 5.7 Enrollment Report – Simple View

The Enrollment Report – Simple View section of the Inclusion Data Record (IDR) Details
screen shows simple tables of enrollment information for planned enrollment and cumulative enrollment for the selected version, where available.

Click here to display a sample image.

In some instances, the data is not available or is available in the previous OMB-approved format. These cases are outlined below.
Data last saved in the previous NIH inclusion data system and migrated to IMS will display in the previous OMB-approved format. In this case, the following notes will appear on the screen:

- Planned Enrollment Report: *NOTE: Planned enrollment comments (if any) will be viewed in the previous OMB-approved layout until a competing submission is received in FY15 or beyond.*
- Cumulative Enrollment Report: *NOTE: Cumulative enrollment and comments (if any) will be viewed in the previous OMB-approved layout for data reported in FY14 and prior years.*
- Migrated data with no planned enrollment: *No Planned Enrollment has been provided for this fiscal year.*
- Migrated data with no cumulative enrollment data: *No cumulative data has been provided for this fiscal year.*

For data received from eSubmission where no planned enrollment data exists, the following message will display: *Cumulative enrollment data was provided with competing application; planned enrollment was not required.*

Click here to display a sample image.
5.8 Action History

The **Action History** tab of the *Inclusion Data Record (IDR) Details* screen provides a list of actions performed against the IDR, including the person who performed the action.

**NOTE:** In the case of viewing a Last Budget Period type IDR, the screen only displays the action history of that IDR. It does not include the history of the associated regular IDR.

Click here to display a sample image.
Accessing IMS via Commons Status

Action History

The information is displayed in a table with the following fields:

- **Action Date/Time**
  Displays the date and time on which the action was performed in the system.

- **Action Performed By**
  Provides the name of the individual who performed the action.

- **Action**
  Displays the type of action performed against the IDR. Below is a list of possible actions and their definitions. Click the arrow next to the action to display its definition.

  - Accepted by Agency\(^1\)
  - Copied from prior year\(^2\)

---

\(^1\): A system-generated status update upon rollover of a multi-year funded award. The user in this event will display as System.

\(^2\): The IDR was created when the next budget period began.

- Created¹

12: The Grantee user has updated the planned enrollment counts after accessing the IDR via RPPR.
- Updated by Internal Staff\textsuperscript{1}
- Updated Via Web Service\textsuperscript{2}

\textsuperscript{1}: Data on the planned or actual enrollment form was updated by agency staff.
\textsuperscript{2}: The IDR was updated via web service.
5 Routing & Submitting IDRs

The routing feature exists in the IMS to allow grantee users (e.g., PIs, PI delegates, SOs) to send IDRs to others for review or submission. Routing refers to the processes of sending an IDR to the Signing Official (SO) for review; sending an IDR back to the PI for editing; and submitting the IDR to Agency.

Routing is performed by selecting the appropriate action link from the Inclusion–Manage Inclusion Data Records (IDRs) screen:

- Route to SO
- Return to PI
- Route to Agency

Refer to the individual routing topics for more information.

5.10 Route to SO

As the PI, you will need to route IDRs (in status of Grantee Updates in Progress – including Last Budget Period IDRs – to a Signing Official (SO) who is responsible for submitting the IDR to the Agency. This function is performed on the Inclusion–Manage Inclusion Data Records (IDRs) screen.

NOTE: PIs who are granted authority in eRA Commons to submit progress reports directly may not need to perform this Route to SO function.

To route the IDR to an SO:

1. Navigate to the Inclusion–Manage Inclusion Data Records (IDRs) screen
2. Verify that an SO name appears in the Select SO for Inclusion Emails field. You must first choose an SO before routing the IDR. For information on selecting an SO, refer to the topic titled Select SO for Inclusion Emails on Page xlv.
3. Locate the IDR to route from the Prospective Studies hitlist.
4. Select the Route to SO link. The link will only display for IDRs in a status of Grantee Updates in Progress.
When routed to the SO, the following actions occur:

- Email notification is sent to the selected SO
- IDR status updates to *Pending SO*
- The action is recorded in the *Action History*

### 5.11 Select SO for Inclusion Emails

Principal Investigators (PI) (and delegates) must select a specific Signing Official (SO) to receive email notifications concerning the inclusion record(s).

**NOTE:** An SO has institutional authority to legally bind the institution in grants administration matters. The individual fulfilling this role may have any number of titles in the grantee organization. The label *Signing Official* is used in conjunction with the NIH eRA Commons. The SO can register the institution and create and modify the institutional profile and user accounts. The SO also can view all grants within the institution, including status and award information. An SO can create additional SO accounts as well as accounts with any other role or combination of roles. For most institutions, the Signing Official (SO) is located in its Office of Sponsored Research or equivalent.

For more information on the SO role, refer to the Commons Online Help. For more information on the SO role, refer to the Commons Online Help at [https://era.nih.gov/erahelp/commons#Commons/roles/SO.htm](https://era.nih.gov/erahelp/commons#Commons/roles/SO.htm).

Follow the steps below to select an SO for inclusion emails.

1. From the *Inclusion – Manage Inclusion Data Records (IDRs)* screen, click the *Select SO* link. This link is located near the top of the screen under the grant and PI information.
2. From the drop-down list presented on the screen, select the appropriate SO name.
3. With the name displayed in the box, click the **Select** button.

![Figure 20: Select SO Link](image)

The screen updates to display the name of the SO next to the title **Selected SO for Inclusion emails**. The **Select SO** button remains available on the screen and can be used to choose a different SO.

![Figure 21: SO Selection Box](image)

![Figure 22: Selected SO for Inclusion Emails](image)
5.12 Return to PI

As the SO, after reviewing the inclusion data routed to you by the PI, you may find it necessary to return the IDR to the PI for further updates. This function is performed on the Inclusion–Manage Inclusion Data Records (IDRs) screen and is available to SO users when the IDR is in a status of Pending SO.

This function is only necessary if the IDR needs to be returned to the PI for purposes specific to your business process. If you need to submit the IDR to Agency, you are not required systemically to return the IDR to the PI. Instead, use the Route to Agency link.

To return the IDR to the PI:

1. Navigate to the Inclusion–Manage Inclusion Data Records (IDRs) screen.
2. Locate the IDR to route from the Prospective Studies hitlist.
3. Select the Return to PI link. The link will only display for IDRs in a status of Pending SO.

Figure 23: Return to PI Link

When returned to the PI, the following actions occur:

- Email notification is sent to the PI
- IDR status updates to Grantee Updates in Progress
- The action is recorded in the Action History

5.13 Route to Agency

SOs and PIs delegated with submit authority in eRA Commons can submit IDRs to Agency from the Inclusion–Manage Inclusion Data Records (IDRs) screen.

NOTE: The process of delegating authority to a PI to submit progress reports on behalf of an institution is performed in eRA Commons Admin module. For information on delegating Progress Report authority to a PI user, please refer to the Commons Online Help topic titled Delegating Progress Report Authority on Behalf of Another User.

To route the IDR to Agency:
1. Navigate to the Inclusion–Manage Inclusion Data Records (IDRs) screen. Refer to the topic titled Access IMS as an SO on Page xvi for details.

2. Only Applicable to PIs Submitting the IDRs: Verify that an SO name appears in the Select SO for Inclusion Emails field.

You must first choose an SO before submitting the IDR; IMS will send an email notification to the selected SO informing him/her that you have submitted the IDR. If an SO is not selected prior to submitting the IDR to Agency, you will see the following error: Please select SO. Routing cannot be completed without selecting SO.

If you're not sure which SO to select, contact your Institution’s grants office. For more information, see Select SO for Inclusion Emails on Page xlv.

3. Locate the IDR to route from the Prospective Studies hitlist.

4. Select the Route to Agency link. The link will only display for IDRs in a status of Grantee Updates in Progress or Pending SO.

When routed to the Agency, the following actions occur:

- Email notification is sent to the Program Official (PO) assigned to the award. In the case of a subproject with no specific PO listed, the email is sent to the PO of the parent application.
- Only When Submitted by the authorized PI: Email notification is sent to the SO
- IDR status updates to Received by Agency
- The action is recorded in the Action History
- New version of IDR is created

5.14 Sample Notifications

Below are sample email notifications generated from IMS when routing occurs.
5.14.1 PI Has Routed an IDR to an SO

The following email notification is sent to the selected Signing Official when a PI (or delegate) has routed an IDR to that SO. PIs must select the appropriate SO from a list before routing can take place.

For information on routing IDRs to an SO, refer to the topic titled Route to SO on Page xliii.

From: eraNotifications@mail.nih.gov
Sent: <Date Time>
To: <SO email>
CC: <>

Subject Line: PI routed Inclusion Data for grant [parent GrantNumber], Inclusion Data Record# [IDR#]

PI routed Inclusion Data for:

• [parent GrantNumber] - [parent ProjectTitle].
• Inclusion Data Record (IDR) # - [IDR#]
• Study Title – [Study Title]

If you have any questions about this email, please contact <parent contact PI Name> at <parent contact pi email>, who initiated this action.

If you incur any problem while using the eRA Commons, please contact the eRA Service Desk at 1-866-504-9552 or commons@od.nih.gov.

*** This is an automated notification - Please do not reply to this message. ***

5.14.2 SO Has Returned an IDR to the PI

The following email notification is sent to the Contact PI when the Signing Official (SO) returns previously routed IDR.

For information on returning routed IDRs to PI, refer to the topic titled Return to PI on Page xlvi.

From: eraNotifications@mail.nih.gov
Sent: <Date Time>
To: <parent contact pi email>
CC: <pi delegate(s) email>

Subject Line: SO returned Inclusion Data for grant [parent GrantNumber]
Dr. [parent Contact PD/PI Name],

SO returned Inclusion Data for:

• [parent GrantNumber] - [parent ProjectTitle].

• Inclusion Data Record (IDR) # - [IDR#]

• Study Title – [Study Title]

If you have any questions about this email, please contact your Program Officer, [PO Name] at [PO Email] or by phone at [PO Phone].

If you incur any problem while using the eRA Commons, please contact the eRA Service Desk at 1-866-504-9552 or commons@od.nih.gov.

5.14.3 A Delegated PI Has Submitted the IDR to Agency

Some PIs are delegated authority in eRA Commons to submit progress reports to the Agency on behalf of the SO and institution. These same delegated eRA Commons users have the ability to submit IDRs to Agency.

The following email is sent to the Signing Official when a delegated PI submits an IDR to Agency.

For information on routing IDRs to Agency, refer to the topic titled Route to Agency on Page xlvi.

From: eraNotifications@mail.nih.gov

Sent: <Date Time>

To: <SO email>

CC: <>

Subject Line: PI routed Inclusion Data to Agency for grant [parent GrantNumber], Inclusion Data Record# [IDR#]

PI routed Inclusion Data to Agency for:

• [parent GrantNumber] - [parent ProjectTitle].

• Inclusion Data Record (IDR) # - [IDR#]

• Study Title – [Study Title]

If you have any questions about this email, please contact <PI Name> at <pi email>, who initiated this action.

If you incur any problem while using the eRA Commons, please contact the eRA Service Desk at 1-866-504-9552 or commons@od.nih.gov.

List of Figures xlix May 17, 2016
5 Inclusion Data Record Statuses

Throughout the process from creation to submission to Agency, an inclusion data record will take on various statuses depending on the action completed against it. These different statuses aid in determining the current point in the work flow, pending needs and requirements, and past actions taken. An IDRs status also determines what action(s) can be performed against it. IDRs requiring updates can be edited, while IDRs accepted by the Agency can only be viewed.

The following list gives an explanation of each status.

**Accepted – Not Rolled Forward:** The IDR is either marked as Not Funded or as Type 2 Progress Report. The project is awarded, but the IDR is not rolled forward into an out year record.

**Accepted:** The IDR has been accepted at award issuance based on what was originally submitted. (Data migrated from the previous data system may also have this status when awarded.)

**Grantee Updates in Progress:** Grantee user has created the IDR; Grantee user has initiated updates on an IDR (Edit Planned or Edit Cumulative); and/or SO has routed an IDR back to the PI

**Inclusion Updated:** Grantee has updated cumulative (actual) enrollment counts via the RPPR module in Commons

**Previous FY Data:** Data from previous fiscal year has been rolled forward into the next project record

**Pending SO:** IDR has been routed to the Signing Official (SO)

**Received by Agency:** IDR form (Planned or Cumulative) has been received as part of the electronic application submission (i.e., Grants.gov/eSub or ASSIST); Grantee user (SO) has routed the IDR via IMS in the Commons Status module to the Agency; Agency user has created a new IDR in IMS; IDR is inserted or updated via web service. This applies to intramural projects and certain contracts.

**Received by Agency – RPPR:** Grantee user submitted IDR to Agency as part of the Research Performance Progress Report (RPPR)
