**APPENDIX (Forms)** ......................................................................... 29
The primary purpose of the Student Activities program is to meet those school-related interests and needs of students that are not provided by the curricular program of the school. The activities program refers to clubs, classes, intramurals, fine arts and interscholastic programs. The following is a list of objectives for the activities for students:

1. Help all students to learn how to constructively use their leisure time.
2. Help all students to increase and productively use their unique talents and skills.
3. Help all students to develop new vocational and recreational interests and skills.
4. Help all students to develop more positive attitudes toward the value of vocational and recreational activities.
5. Help all students to increase their knowledge of and skill in functioning as leaders and/or as members of a group.
6. Help all students to develop a more realistic and positive attitude towards themselves and others.
7. Help all students to develop a more positive attitude toward school as a result of participation in the student activities program.
8. Help all students to understand and participate in the democratic processes of an organization.

All school-sponsored interscholastic activities of member schools are conducted in accordance with ASAA By-Laws, Rules and Policies. Additional standards may be established by the Anchorage School District and each school for its own students.

A sponsor has a great deal of influence on the success of a student group and activity. The following criteria is the responsibility of the sponsor of any Anchorage School District club or activity. The sponsor should:

1. Provide leadership.
2. Promote positive student interest, enthusiasm, and leadership.
3. Obtain approval of the school administration for all activities.
4. Discuss with students pros and cons of all projects.
5. Be present at all meetings and activities for the duration of the event.
6. Sign all purchase order requests and check requests.
7. Follow-up with students to make sure they are fulfilling their responsibilities.
8. Encourage good academic standing and ethical behavior for all members of the organization.
9. Obtain administrative approval for posters and bulletin announcements. Posters, fliers, promotions or displays must not depict alcohol or drugs or their use unless they are a part of an administration-approved drug/alcohol use prevention program.
10. Account for all uniforms, supplies, and equipment used during school year.

There will be an evaluation each year of every individual who is on a contract addendum in the activities area. The evaluation will be performed by the principal or his/her designee and filed in the principal’s office.
Class activities are established by graduation year. They function as a means of communication for students between the administration and faculty concerning activities that lead up to graduation. These organizations function in the same manner as the clubs and may raise money for approved class projects and activities.

In order to be a recognized club or to function as a class, the following criteria must be met:

Clubs may be established to allow students with similar interests and ideas a chance to become involved in those pursuits which fall within the scope of educational or school service purposes.

Unit principals shall permit students to organize clubs within the following criteria:
A. Students may organize extracurricular clubs provided that the club formation and activities are student-initiated and voluntary.
B. Membership in a student-organized extracurricular club is open to all students.
C. A student organized extracurricular club shall have a school monitor who ensures that school policies are not violated, but who does not participate in the club.
D. Non-school persons (i.e., persons who are neither students nor employees of the Anchorage School District) shall not direct, control, conduct, or regularly attend the meetings or activities of student-organized extracurricular clubs.
E. The activities of a student-organized extracurricular club shall take place only during non-instructional time.
F. The school shall not expend public funds to the student-organized extracurricular club beyond the incidental cost of providing the space for meetings.
G. Student-organized extracurricular clubs are expressly prohibited from the following: Interfering with the orderly conduct of the educational purpose and activities of the school; promoting, encouraging, or sanctioning activities that are unlawful; abridging the constitutional rights of any person; or compelling a school agent or employee to attend a meeting that is contrary to the beliefs of that agent or employee.

1. The school principal retains the right to prohibit activities and meetings and to disband clubs which engage in the above-listed conduct.
2. Student-organized extracurricular clubs may appeal to the School Board if a school administrator orders that the club be disbanded.

H. Student-organized extracurricular clubs must have a club purpose statement and constitution which is approved by the school principal prior to initiation of club activities. School administration will provide a standard format, requirements, and advice on production of the purpose statement and constitution. All statements in the constitution must be correct and factual. The statements of purpose and constitution may not:
1. Exclude students from membership.
2. Propose unlawful or violent acts.
3. Propose or otherwise entail a violation of the criteria set forth in School Board Policy 348.1 or any other policy of the Anchorage School District.

I. A student-organized extracurricular club may not raise and expend funds for purposes not endorsed in the club statement of purpose and constitution.

J. The School District does not endorse or sponsor the meeting or activities of student-initiated clubs. Student clubs exist as an expression of individual rights and are the sole responsibility of the membership.

 Clubs and student organizations may be allowed to raise funds to accomplish their objectives. All fund raising projects must be approved by the building principal or his/her designee before the activity begins. Money may be raised for sponsored activities.

In situations where out-of-district travel is sought but district funding is not available to defray the cost of such travel, funds may be raised by the proposed participants and/or supportive groups to underwrite the cost of the travel. The proposed sources of funds and/or manner in which funds are to be raised must be approved by the principal high school division prior to initiating fundraising activities.

In order to gain approval for a fund raising activity, the following criteria must be met:
1. A fund raising activity must be in compliance with School Board Policy (Section 497, attachment a and b) and Alaska state laws.
2. There must be a clearly stated purpose as to why the organization wants to raise money.
3. The organization must determine the means by which it intends to raise money.
4. The organization must agree that no candy or bake sales be held in competition with the school lunch program.
5. The organization must follow correct purchasing and accounting procedures.
6. All fund raising activities that involve sales of food products must comply with the Food Service Policy.

All purchases involving the use of student body funds will be approved by the principal and organization sponsor. Each purchase will be made using a student body purchase order or check so correct accounting procedures can be followed. Receipts must be obtained by the purchaser and returned to the activity office.

**Student Activity Projects**
1. Written approval must be obtained from the principal for any school sponsored group participating in a student activity fund raising activity off the school premises. A copy of such approval should be retained in the files of the activity.
2. All contractual agreements with independent business organizations should be reviewed and signed by the principal(s) of the participating school(s) and the appropriate business establishment.
3. A copy of each executed contract must be forwarded to the district's internal auditor.
4. Sound accounting procedures must be observed for each activity.
   Where a single school is involved, records and documents must be maintained and cash deposited in the student activity fund of that school. Where more than one school is participating, one of the schools should be selected for this purpose.
5. Secondary schools shall be allowed to open a separate checking account to handle all of the transactions involved with student activity raffles.
   a. The regulations, accounting, and reporting requirements outlined by the Department of Commerce must be followed.
   b. The types of district-authorized games of chance shall be limited to raffles. Pull-tabs and Bingo are prohibited.
   c. Raffles will not be permitted unless the school has a current valid permit from the Department of Commerce, Division of Occupational Licensing.

**Agreements**
1. All students, parents, and staff involved in fund raising activities shall agree that all funds raised by the participants shall revert to the club or activity account, should the specific purpose of the fund raising activity, i.e. trip, banquet, etc., fail to materialize for any reason.
2. Participants involved in fund raising activities shall have no claim on the funds raised. Should the intended purpose of the fund raising activity fail to materialize, the funds which have been accumulated may only be used for a different activity by a majority vote of the club or activity members.
3. If the participants of an activity agree to pay a portion of the cost of the activity with the balance to be funded through fund raising, the participant is eligible to withdraw his/her portion at any time if, and only if, unrefundable tickets or other obligations have not been purchased.
4. Individuals who contribute material items for resale by a fund raising activity shall relinquish all claim to the contributed materials and to any subsequent funds gained by the sale of the contributed materials.

Each high school has a student government or council which is established and organized through its respective constitution and by-laws. The delegation of authority and responsibility for each school's government may vary between schools. Each student government may have representatives to the Alaska Association of Student Government, which has an annual conference and workshop. AASG makes recommendations to the State Board of Education and other agencies. Student body officers must meet eligibility requirements for the Alaska School Activities Association and the Anchorage School District.

3. Students dress for the weather. This includes footwear, hats, and gloves, regardless of temperature, during the winter months.

**Dances/Proms**

A maximum of eight (8) dances plus two (2) formal dances may be held during the school year. The dances are open only to students of that school, but a guest (from outside that school) may attend with prior approval of the building’s administration. All dances must end by 11:00 p.m. according to District Procedure, except for proms and balls which must end by 12:00 a.m. Sponsors must be on hand at all times and additional chaperones are required.

1. Have approval of administration.
2. Have sponsor and chaperones in attendance at all times.
3. Establish policy of no re-admittance after student leaves dance area.
4. Identification cards may be required by the principal.

**Yearbook/Newspaper**

The production of a newspaper and yearbook is an integral part of the journalism program in each high school. The sponsors of these activities will meet each year with the principal to discuss the advertising prices and procedures to be followed. Advertising in good taste is permitted in high school newspapers and yearbooks. Advertising of alcoholic beverages, tobacco, night clubs, etc., is not considered suitable for high school publications. Graffiti pages in yearbooks are not allowed. a. Gifts contributed by school organizations must be approved by the Superintendent and the respective principal of the school represented by the organization’s membership.

b. Any real or personal property donated to the District or to a particular school shall be considered as school property. No such gift may be accepted by any individual in the name of the school or in the name of the District without the understanding that the gift is unconditional and that the title for such property remains in the District. Such property may be transferred or used whenever the Superintendent of Schools finds it expedient and may be sold or replaced without obligation to the donor. Appropriate
Travel is permitted under certain restrictions. If an overnight trip is organized by or in the schools, approval must be obtained from the principal and the Secondary Executive Director or designee. Sponsors must accept ASD travel policy (See Appendix, Form J).

APPROVAL OF OUT-OF-DISTRICT TRAVEL
A. Prior to initiating discussions with students and/or parents, requests for out-of-district travel for students at district expense or with district approval must receive written recommendation by the administrator in charge of the program and the principal if the activity involves students from a single unit. All such requests will be approved by the High School Executive Director, or his/her designee.
B. Out-of-district travel which falls within the purview of the Alaska School Activities Association must comply with the requirements of that organization. ASAA activities (athletic and otherwise) shall be limited to participation at the regional level or with the contiguous boroughs except that district students may travel to and participate in statewide ASAA competitions or meets as long as the total expense for this participation does not exceed one-tenth of one percent (.1%) of the total district budget in any year.
C. Approval for programs which involve academic credit (e.g., Credit by Choice, supplementary field trips, etc.) must be obtained prior to the activity taking place.
D. For the purposes of Section 460, “out-of-district” travel is travel by any means outside of Anchorage or the contiguous boroughs (Kenai and Mat-Su). Out-of-district travel also includes travel to a contiguous borough if students will remain away from their normal homes overnight in conjunction with the activity for which travel is undertaken.
E. Adult chaperones must sign and abide by the out-of-district travel form.

FUNDING OUT-OF-DISTRICT STUDENT TRAVEL
A. At its discretion, the district may pay part or all of the costs of out-of-district travel and related expenses for approved activities. Decisions on funding shall not discriminate among students or groups of students on any impermissible basis (i.e., race, sex, religion, etc.)
B. In situations where out-of-district travel is sought but district funding is not available to defray the cost of such travel, funds may be raised by the proposed participants and/or supportive groups to underwrite the cost of the travel. The proposed sources of funds and/or manner in which funds are to be raised must be approved by the principal and the high school division prior to initiating fund-raising activities.

CRITERIA FOR OUT-OF-DISTRICT STUDENT TRAVEL
All decisions relative to approval of out-of-district student travel and the funding for such travel shall be based on the following criteria. The application must document each requirement.
A. Travel must be related to educational or approved activity programs.
B. Travel must provide opportunities that are not available within the district. Priority will be given to those trips that do not interfere with the school calendar. If trips are requested while school is in session, trips related to academics will be limited to five (5) school days per year. Trips related to activities/athletics will be limited to three (3) school days. Absences from trips initiated by an ASD initiated program will be recorded as an activity absence. Absences from trips initiated for academic enrichment will be recorded as a pre-arranged absence.
C. The number of adults participating in the travel to supervise students must be approved by Elementary or Secondary Education. The ratio of adult to students may vary depending on the activity. In general, a ratio of 1 to 10 is required. If the trip is not a part of the ASD educational program, any leave expenses incurred must be covered by fund raising activities, the ASD professional leave bank or LWOP/personal leave opportunities. Any staff member traveling on school or non-school time must secure travel authorization through established ASD leave procedures. Coverage by an administrator or designee is required when the trip is related specifically to an ASD academic or activity program.
D. School programs for students not traveling must continue at the level expected if the trip did not occur. Applications must provide assurances that this will happen. Students...

(continued)

traveling must maintain their overall educational program. It is highly recommended that
students attend school while on these trips, whenever possible.

E. The trip must be safe and adequate security must be provided. There must be assurance
that adequate medical care is available. It is highly recommended that at least one chaper-
one have a current first aid certificate.

F. The proposal must anticipate all possible contingencies including potential liability, emer-
gency situations, and provisions for disciplinary matters. Written parent or guardian per-
mission must be secured.

G. Impact of fund raising activities upon the students, the school, and the community must
be reasonable and possible within the target community. A plan to handle the cancella-
tion of a participant, the trip itself or other factors that might result in financial liability
associated with advance ticket purchase are not the responsibility of the Anchorage
School District.

H. Travel must be approved prior to encumbrance of advance ticket purchases. Trips outside
the State of Alaska must be approved one (1) semester prior to the trip departure. Trips
within the State of Alaska must be approved 30 days prior to departure.

I. Applications must be complete when submitted. Failure to provide all information request-
ed may result in denial of travel.

J. Housing. Students may not be housed in private homes when traveling outside the dis-
trict as a member of an athletic team, cheerleader, or other student group, representing
Anchorage schools. Students may be housed in institutional settings including, but not
necessarily limited to, schools and churches, as deemed appropriate by school administra-
tors. Representatives of the Anchorage schools will not furnish housing in private homes
for students who are visiting Anchorage as members of athletic teams, cheerleaders or
other student groups representing schools outside the district.

Food Service Policy

The Anchorage School District Health Permits issued by the Municipality cover all school
kitchens for school food functions. When a school food function is open to the public, it must
meet the following criteria:

a. Be approved by the school administration (principal).
b. Food and supplies must be secured from an approved source.
c. The food function must comply with the type of kitchen permit, i.e. heat and serve
(satellite) kitchens for elementary schools; preparatory kitchens for middle, junior
and senior high schools.
d. The food function must be supervised by an ASD Food Service employee or an
individual who has an ASD Food Handlers Card.

When these criteria are met, the umbrella policy regarding Health Permits agreed to by the
Municipality and the Anchorage School District shall apply. No additional permit will be neces-
sary.

GUIDELINES:
The following regulations apply only when the activity is open to the public:

1. All food must be from an approved source, not from private homes. Approved
source means that the food has been approved by USDA/FDA and is sold through a
licensed outlet at the local level. Bakery items would not fall under this requirement.
Example: Goods purchased at grocery stores or wholesale outlets that carry products
approved by USDA/FDA.

2. The food function must fit within the limitation of the school kitchen. Most elementary school
kitchens are approved only for heating and warming prepared food from an approved source.
Example: A spaghetti dinner where sauce purchased from an approved source is heated
and the noodles are boiled or a carnival booth selling Chinese egg rolls, purchased at
Carrs, heated in the school kitchen.

3. The food function can be catered. Catering means the caterer, licensed to do
business, brings the prepared food, serves it and cleans up the kitchen or the
catered food from the licensed caterer, is served by and cleaned up by a person
who has a valid food handlers card or by an ASD food service employee.
Example: The King Career Center Culinary Arts program caters a school event.

4. The food function must be supervised by a person who has a valid food han-
dlers card or is an ASD food service employee. Food handlers cards will
be issued by the student nutrition to ASD employees and volunteers
who complete a short training program followed by a test. The require-
ment for a food handlers permit is an ASD administrative policy.
Example: Staff and students operating a concession stand or a PTA member serving at a food event.

The following school activities are considered private and do not fall under the Municipal Health Department licensing or inspection regulations but are the responsibility of the Anchorage School District to monitor:

1. **Potlucks** are considered private when they are held for specific events and not open to the public at large. The participants in the food event are limited to specific groups easily identified as separate from the general public of the school.
   
   Example: An awards potluck for the German Club students and their parents or an author's tea for the fourth grade students and their parents.

2. **Parties** are considered private when they occur in individual classrooms or are held for a specific purpose with a specific limited population.
   
   Example: A Halloween party or an Honor Society Induction reception.

3. **Individual classroom activities** that involve food for teaching purposes, snacks or reward incentives. These types of food activities are within academic freedom and are not the responsibility of the municipal, state or federal health agencies.
   
   Example: An ethnic food project or snacks prior to taking standardized testing.

   These events should be approved by Risk Management and the appropriate school administration officer in each school.

**School Fund Raising Events**

Many school fund raising events are food functions. Schools will review on an annual basis the policy and procedures to be followed for these types of food events.

1. **Bake sales** means an informal sale of candy or baked goods, not filled or covered with a potentially hazardous food, to the public at a fixed location for a period of time not to exceed four periods of 14 consecutive days or less during the calendar year.
   
   Example: Cheerleader’s bake sale after school, or PTA bake sale on back-to-school night. NOTE: Goods such as pumpkin pie, custard or filling goods not allowed.

2. **Fruit/vegetable sales** are acceptable as long as the fruit/vegetable is not cut and the handling and sales are monitored by an individual with a food handlers card. Sale of cut up fruit or vegetables is not allowed unless prepared in the school kitchen under guidelines covered by the food handlers training.
   
   Example: Oranges and grapefruit sold by the case. NOTE: Cut vegetables or fruit prepared at home and brought to school for such activities is not allowed.

3. **Candy sales** of prepackaged approved source goods supervised by an individual with a food handlers card. Example: Band sells chocolate bars.

4. **Donut sales:** Each individual donut needs to be wrapped and goods need to be purchased from an approved source. Location of sale must have a hand washing sink available and individuals selling need a food handlers card.
   
   Example: Student government sells donuts before school.

5. **Concession stand** selling prepacked goods and popcorn. Kitchen license will cover popcorn preparation with the condition that individuals popping, handling and cleaning the equipment have food handler’s card, a hand washing sink is available and access to school’s kitchen for proper sanitation is provided. Machines need to be sanitized as often as needed with a minimum of once a month.
   
   Example: Concessions sold in the gym area at school athletic events. NOTE: Hot dogs, nachos, pizza and similar items need to be pre-approved and have a plan review that indicates areas of concern such as refrigeration, heating, location and adequate hand washing sinks. They are not allowed unless specifically approved with an on-site inspection.

6. **School stores** that sell prepackaged food items must be in compliance with the Municipality and the Anchorage School District agreed upon procedures. A separate permit will not be necessary under the umbrella agreement.

   Adult support groups such as **PTA or Booster Clubs** that are raising money through food sales that involve school events must be in compliance with the municipality and the Anchorage School District agreed upon procedures. Example: Swim team parents selling snacks at a swim meet or a PTA spaghetti feed.

**Third Party Use of School District Facilities**

In order to be in compliance with the municipality and Anchorage School District regulations, third party food event activities must have:

1. Permission from the school administration, Building Rentals, and Risk Management.

2. Permit from the Anchorage Health Department.
3. Notification of the Student Nutrition department.
4. Compliance with School Board Policy 851.5

School Board Policy

851.5 Food Service  If major kitchen equipment or storage facilities are used except for food activities, an approved district food service employee must be on duty. The person or group will be charged for salaries, fringe benefits, and any other out-of-pocket expenses. No food or other items are to be stored in the kitchen except during the hours stated on the Building Use Permit for supervision of the kitchen for school functions not involving use of major equipment or storage facilities (no food service employee required).

The district does not provide to using organizations any expendable supplies (e.g., trays, napkins, etc.) unless previously arranged through Food Service Department. Charges will be assessed for such use.

The using organization is responsible for leaving the kitchen in a clean and acceptable condition whether the group is school or non-school related and/or whether or not a maintenance and operational charge is being made.
Section 2
ATHLETICS

All policies and procedures not mentioned in this handbook must be consistent with Secondary Administrators’ Manual and Board Policy.

Philosophy

An athletic program should contribute to sound educational objectives when properly organized and conducted and should be an integral part of the schools’ programs. The better the athletic programs are organized and conducted, the greater will be their contribution to the educational goals of the District and to the personal needs of the students. The fact that the programs are well organized does not necessarily mean an over-emphasis on sports, but rather an assurance that they are being efficiently administered with maximum benefits accruing to students.

The Department of Physical Education and Athletics must promote strong health, physical education and intramural programs that encompass both boys and girls. Through such programs, the needs of most of the students are met. However, there are still a large number of students who have the talent and desire to go far beyond the daily instructional and intramural programs. These students, as well as other students who are less physically gifted, can obtain added benefits and fulfill additional needs by participating in a well designed athletic program.

Winning is a major objective in athletics as it is in society, and teams or performers should always strive to win within the framework and spirit of the rules of the game and the principles of good sportsmanship. Although winning in sports is a major objective and a tremendous motivating force at the time, it is not considered to be the goal of athletic participation. More important than winning are the changes that take place in the participant, in the nature of becoming a more useful and loyal citizen; in the desire to achieve excellence; in living a more healthful and purposeful life; in the respect for the dignity of others; in the willingness to make a personal sacrifice for the benefit of the team; and in living by a high code of conduct. These, then, become the more lasting benefits of athletic participation for the individual.

Objectives of the Athletic Program

A school’s athletic program serves many purposes and increases advantages for students who participate directly or indirectly. Opportunity for total fitness improvement accrue to the students who participate.

1. Physically—by participating in progressively more difficult conditioning exercises, drills, skills, and contests. The players will be striving for higher levels of development in speed, strength, endurance, balance, agility, coordination, flexibility, timing, and good body aesthetics and mechanics. Safety will always be your first consideration.

2. Mentally—through learning the history of sports and developing an appreciation for sports as a part of our culture; learning the rules of the games and team strategies, assuming leadership, and responsibilities commensurate with one’s age and maturity.

3. Emotionally—through self and team discipline by demonstrating good sportsmanship, learning to give and take on a friendly basis of rivalry. Participating in sports should serve as a motivating force for the students to do better in school work through the development of the qualities of courage, tenacity, alertness, and resourcefulness. Participating also serves as an outlet for a student’s emotional stresses.

4. Socially—through service to school and community by developing respect for the dignity of mankind, respect for the rules of the game, public and private property, by developing social courtesies of the game and loyalty to self, team, school, and community.

It provides opportunity to excel and to strive to win within a framework of good health practices and established rules; it contributes to good school spirit and provides opportunities for wholesome competition; it provides an educational device by which the student body can better appreciate the role of spectators; and it stimulates interest in and support for the entire school program.

These purposes are worthy ones which will challenge the abilities of the best people in the coach-
**Personnel Responsibilities**

**SUPERINTENDENT OF SCHOOLS**

The general responsibility for the high schools’ athletic programs lies with the Superintendent of Schools.

**PRINCIPAL**

The principal of a school is responsible for promoting and conducting the athletic program within his/her school in accordance with ASAA and school district policies. His/her major responsibilities will be primarily concerned with:
1. Student and player eligibility and behavior.
2. Financing the programs.
3. Supervising the coaching staff.
4. Interpreting and enforcing ASAA and the district policies.
5. Filing the necessary reports.
6. Providing the supervision at scheduled games and contests.
7. Hiring and terminating the coaching/activity staff, as required.

8. Anchorage School District administrators will prepare a comprehensive yearly schedule of athletic events for ASD schools, taking into account all other school activities such as musical programs, debates, dances, etc. Scheduling includes changes, cancellations and withdrawal of a team from competition before the end of the contest.
9. Emergency Vehicle Service—Good judgment on the part of the principal will need to prevail when a decision must be made regarding utilization of paramedics to transport a student to the appropriate treatment facility. If doubt exists, request that service. Responsible school personnel must accompany the student if the parent is not at the scene. Parents should always be notified of action of the above nature and informed of the destination of the student. Cost of the service is usually covered by various insurance plans the family may have. In the event there is no family insurance plan, the cost for the emergency vehicle service will be the parents’ responsibility. (Cost and the responsibility for these costs should always be secondary to the safety and welfare of the student.)

**DIRECTOR OF ATHLETICS**

The Director of Athletics shall have general supervisory responsibility of the athletic programs, help correlate and coordinate these programs within the school, and give professional leadership for their improvement.

**COACHES**

**Coach’s Responsibility**

The person who has the greatest influence on the athlete and the stature and success of an athletic program in school is the coach. It is, therefore, of paramount importance that the individual is well trained and versed in the activity and that he or she demonstrates the highest type of behavior, leadership and sportsmanship before the squad, student body, faculty, and community.

**ASAA Guidelines for Coaches**

All coaches are required to have a valid first-aid card. Newly hired coaches must get the card within thirty (30) days after the start of the season. High school coaches are required to successfully complete the Alaska Coaches Education Program. In addition, cheer coaches must receive stunt training and certification through ASAA and be certified through the National Federation of Interscholastic Coaches Education Association. More information on this program is available through the activities assistant principal or through the Alaska School Activities Association.

**Coach’s Code of Ethics**

National Federation of State High School Associations

The function of a coach is to properly educate students through participation in interscholastic competition. The interscholastic program is designed to enhance academic achievement and should never interfere with opportunities for academic success. Each child should be treated as though they were the coaches’ own and their welfare shall be uppermost at all times. In recognition of this, the following guidelines for coaches have been adopted by the NFICA Board of Directors.

The coach must be aware that he or she has a tremendous influence, either good or bad, in the education of the student athlete and, thus, shall never place the value of winning above the value of instilling the highest desirable ideals of character.

The coach must constantly uphold the honor and dignity of the profession. In all personal contact with the student athlete, officials, athletic directors, school administrators, the state high
school athletic association, the media, and the public, the coach shall strive to set an example of the highest ethical and moral conduct.

The coach shall take an active role in the prevention of drug, alcohol and tobacco abuse and under no circumstances should authorize their use.

The coach shall promote the entire interscholastic program of the school and direct his or her program in harmony with the total school program.

The coach shall be thoroughly acquainted with the contest rules and is responsible for their interpretation to team members. The spirit and letter of rules should be regarded as mutual agreements. The coach shall not try to seek an advantage by circumvention of the spirit or letter of the rules.

Coaches shall actively use their influence to enhance sportsmanship by their spectators, working closely with cheerleaders, pep club sponsors, booster clubs, and administrators.

Contest officials shall have the respect and support of the coach. The coach shall not indulge in conduct which will incite players or spectators against the officials. Public criticism of officials or players is unethical.

Before and after contests, rival coaches should meet and exchange friendly greetings to set the correct tone for the event.

A coach shall not exert pressure on faculty members to give student athletes special consideration.

It is unethical for coaches to scout opponents by any means other than those adopted by the league and/or state high school athletic association.

Conflict of Interest

All employees of the school district are prohibited from attempting to sell or enter into a contract to provide any supplies or equipment to the school district or its members. Such a relationship is considered a Conflict of Interest. This prohibition applies to all employees, regardless of the source of funding, and includes coaches who attempt to sell uniforms, trophies, equipment, etc. to student team members. School Board Policy section 725.22 details this Conflict of Interest policy. In some cases, a waiver of conflict of interest may be obtained from the School Board by an employee in accordance with Policy section 725.23 and/or section 725.24, but in no instance may any preparatory action prior to a sale take place without a waiver.

Coaches duties shall include:

1. Selecting and coaching the team's members; looking after their general health and welfare as it pertains to conditioning programs, physical examination, obtaining parental permission, caring for injuries, and checking on player eligibility. 24. Making recommendations to the Athletic Director and the Activities Assistant Principal for improving the administration of the sport.

Coach’s Expectations

1. Consider safety as your top priority.

2. Demonstrate good sportsmanship at all times. You are the leader.

3. Have and show respect for your opponent; treat them as guests.

4. ACCEPT THE OFFICIALS’ DECISION. Good sportsmanship implies the willingness to accept and abide by the decisions of the officials. Public protests can only lead to similar behavior by the players and spectators.

5. Set a good example for others to follow.

6. Refrain from any profanity as it is not an acceptable part of the game for either you or your players.

7. Maintain self-control at all times.

8. Teach the values of honest effort in conforming to the spirit as well as the letter of the rules.

9. Provide opportunities for social interaction among coaches and players of both teams before and after the contest.

10. Let the players play. It’s their game.

11. Be mindful of comments made to the news media, especially following a hard-fought contest.

CAPTAIN’S RESPONSIBILITY

5. Display good conduct. Even though you paid for your admittance, the management has the authority to remove any spectator who does not conduct himself/herself respectfully. Abusive language is to be avoided.
6. Remember that your view of the game could be quite different from that of the official.
7. Recognize the fact that, as a student spectator, you represent the school as do the athletes.
8. Noise makers are prohibited.

The Anchorage School District recognizes the need for parental and community support of athletic programs in the area high schools. The booster club plays an integral role in helping the Anchorage School District provide the best possible program for students. Each Anchorage high school that participates in organized interscholastic contests sanctioned by ASAA is entitled to have an Athletic/Activity Booster Club organization to provide support to those activities in that school.

The following guidelines will help delineate the role of the Athletic/Activity Association and Booster Clubs.

The secondary school principal may organize a High School Athletic/Activity Booster Association, composed of staff, parents and community resources dedicated to:

A. Supporting, encouraging and advancing the athletic program and related activities of the Anchorage School District, thereby cultivating clean, wholesome school spirit, promoting good sportsmanship, and developing high ideals of character.
B. The Association shall promote projects to improve minor capital projects/equipment; promote student recognition and supplement travel funds necessary to provide an adequate athletic program for the school district.
C. Operation of the athletic program of the schools of the District shall be the responsibility of the school officials charged with the responsibility to direct such activities.
D. The Association shall promote the rules of the Alaska State Activities Association (ASAA) and adhere to the criteria of membership of the School District in said athletic association.

E. The Association shall support and comply with the Anchorage School District administrative policies and procedures established for secondary activities and athletics. The Anchorage School District may limit the scope of activities in order to maintain parity between teams and schools.

Secondary Administrative Procedures

Athletic/Activity Booster Clubs

Individual sports may create an organization of parents and interested persons to promote specifically that particular sport. This booster club will be under the sponsorship of the head coach and exists primarily to: 1) promote positive public relations with the coaching staff; 2) raise monies for the end of the season award banquet; 3) provide spirit type T-shirts, shoes, and other like items; 4) raise monies to supplement equipment, facilities and team travel as identified by the school budget process.

The Anchorage School District reserves the right to form a district-wide advisory committee to review Athletic/Activity Booster Association and Club issues as needs and issues are identified.

Relationship With Coaches

Coaches are encouraged to take advantage of every opportunity to work with Athletic/Activity Booster Association and Clubs in their many fund-raising projects during the course of the school year. The more coaches become involved in Booster projects, the more it will strengthen goodwill between the club and the athletic department. In the event a Booster club member asks a coach about specific athletic needs, the coach may go ahead and discuss it in general with the member but needs to remind him/her that the request will be made officially through the athletic department budget procedure.

Relationship With The School Administration

The high school activity principal/athletic director will act as official liaison between the school district and the Booster Clubs with the budget request for the following year as requested by coaches. Athletic/Activity Booster Clubs activities must be reviewed and approved by the school principal to ensure compliance with school and state regulations regarding high school activity programs.

Financial

The Booster Club each year contributes many thousands of dollars to the athletic department for the needs of each sport that otherwise would not be available from the athletic department. Primarily, the monies of the booster club will be expended for 1) capital improvements of the athletic facilities; 2) major purchases of a sport; 3) warm-ups and uniforms; 4) recognition; 5) championship awards; and 6) travel. Any ASD employee, by contract or addendum, should not receive funds from any booster club. Booster Associations or Clubs may not hire or fund additional personnel for any Anchorage School District program.

Each Athletic/Activity Booster Club's sport/activity will have a constitution and by-laws on file with the school principal. The sections of these documents must delineate specifically how the finances of the organization will be administered. Each booster club will have a separate checking account and accounting system. Booster clubs should have non-profit status per section 501(c)(3) of the Internal Revenue code. Fund raising activities must have clear distinction between student raised funds that are deposited in school activity accounts and Athletic/Activity Booster Club raised funds that are deposited in the Booster Club accounts. District guidelines and procedures must be followed in relationship to gambling and controlled substances when students are engaged in fundraising activities for booster clubs. Students represent the school and the district even though the booster club may be a private organization. Booster clubs or coaches may not set quotas and consequences that effect students in relationship to fund-raisers nor shall the participation in such activities influence player participation or other coaching decisions.

A conflict of interest will occur, if a booster club member enters into an exclusive contract with the school to provide a service or product without offering the same terms to other teams or activities. Booster club members with a wholesale or retail business that provide discounts to "their" team should give the same discounts to other teams. Booster clubs may not support only part of the program and not all of the program. For example, booster clubs may not provide funds to support only varsity players at the exclusion of all other players when all other players participate in fund raisers. Fund raising activities conducted by booster clubs may only support the school sponsored program. Funds may not be provided to support school activities that occur outside the ASAA designated season other than end-of-the-season recognition events. Booster clubs may assist students interested in raising funds for summer clinics or training camps as long as the fund raiser is designated specifically for that purpose, no school funds are used, no school uniforms are

The purpose of Region IV shall be to promote and control interscholastic activities and other inter-school contests or programs sanctioned by the members, and to assist in the promotion of such activities and interests as it may from time to time elect.

Region IV activities will be governed by the Region IV Board of Control.

Every effort must be made to ensure that the integrity of the schedule is maintained. Changes will be made only by administrators and will be made only for extenuating circumstances.

Scrimmage—is defined as a controlled practice game against a team other than one which will be played in a scheduled contest. A scrimmage may only occur prior to the first scheduled game of the season. It will not be open or advertised to the public. Officials may be used, provided the scrimmage is used as a workshop for the officials association. All scrimmages must be approved by the principal and no score will be kept. High school teams will not play against junior high teams.

**Volunteers**

Many ASD programs have parents and interested community members willing to volunteer to aid in program development. The philosophy of the ASD encourages parents and community members to be part of the school programs. Volunteers are welcome to assist in a variety of ways. Most of these jobs are identified and delegated by the staff member in charge of the activity, however, those volunteers that are interested in serving as a “Volunteer Coach” must meet the same standards expected of any other ASD coach that assumes major responsibility of supervision of students in the activity program. Volunteer coach is defined as a person who works directly with students on the field or court in practice or game situations. The guidelines for volunteer coaches are as follows:

a. Must be approved by the building principal. Approval must be obtained each year.
b. Must have the same qualifications required of other personnel that serve as a coach.
c. Must be willing to serve without remuneration from any source.
d. Must be under the direct supervision of an ASD coach at all times.
e. May not directly supervise students without an ASD administrator or coach present.
f. Volunteers that are employed by the ASD in another capacity, at a different work site, must give priority to that position. Should coaching responsibilities conflict with the regular ASD job, the following procedures for release time are to be followed:

1. The principal/supervisor of the activity school must request, in writing, the release of the employee from the direct principal/supervisor.
2. The direct principal/supervisor must agree to the release of the employee. Approval must be obtained prior to any commitment related to team travel.
3. The requesting school must provide the funds for substitutes, if required, and all other expenses associated with the release time period.

**Volleyball Jamborees**

This volleyball jamboree policy has been established by the ASAA Board of control:

1. Two games maximum against each team.
2. All players must have 10 separate days of practice prior to the day of the jamboree.
3. Each team may play in no more than one jamboree each season. Jamboree matches do not count against the 22-match limit.

**Junior Varsity and “C” Team Tournaments**

The following J.V. and C team tournament policy has been established by the Anchorage School District:

1. All games for the tournament must occur during the regular season.
2. No post-season tournaments may be held.
3. All tournament games count against the season game limit.

The Anchorage School District has allocated adequate coaching positions to maintain the necessary safety and supervision of the activity program. Schools are expected to adhere to the allocated staff in order to maintain equity between programs and to stay within ASD budget guidelines. However, additional coaches may be necessary based on need.

**Criteria**

a. The number of participants require additional staff for supervision purposes.
b. The environmental conditions such as facility or location require additional staff for safety/supervision purposes.

**Procedures for Hiring Additional Staff**

a. All additional staff allocations must be requested and justified in writing. All requests must be approved by the Executive Director of Secondary Education.
b. All funds to support additional coaching addenda must be from approved ASD funding sources.
c. Established ASD hiring practices will apply to hiring of additional coaches.
d. Established ASD training requirements will apply to any additional staff hired.
e. Additional positions are approved on a year-by-year basis.

**Sharing of Allocated Addenda**

The Anchorage School District has allocated adequate coaching positions to maintain the necessary safety and supervision of the activity program. Schools are expected to adhere to the allocated staff in order to maintain equity between programs and to stay within ASD budget guidelines. However, additional coaches may be necessary based on need.

**Volunteers**

Many ASD programs have parents and interested community members willing to volunteer to aid in program development. The philosophy of the ASD encourages parents and community members to be part of the school programs. Volunteers are welcome to assist in a variety of ways. Most of these jobs are identified and delegated by the staff member in charge of the activity, however, those volunteers that are interested in serving as a “Volunteer Coach” must meet the same standards expected of any other ASD coach that assumes major responsibility of supervision of students in the activity program. Volunteer coach is defined as a person who works directly with students on the field or court in practice or game situations. The guidelines for volunteer coaches are as follows:

a. Must be approved by the building principal. Approval must be obtained each year.
b. Must have the same qualifications required of other personnel that serve as a coach.
c. Must be willing to serve without remuneration from any source.
d. Must be under the direct supervision of an ASD coach at all times.
e. May not directly supervise students without an ASD administrator or coach present.
f. Volunteers that are employed by the ASD in another capacity, at a different work site, must give priority to that position. Should coaching responsibilities conflict with the regular ASD job, the following procedures for release time are to be followed:

1. The principal/supervisor of the activity school must request, in writing, the release of the employee from the direct principal/supervisor.
2. The direct principal/supervisor must agree to the release of the employee. Approval must be obtained prior to any commitment related to team travel.
3. The requesting school must provide the funds for substitutes, if required, and all other expenses associated with the release time period.
A great tradition is not built overnight. It takes the hard work of many people over many years. Through the years, Anchorage teams have won many league, tournament and state championships. Many records have been set by individuals and teams, and further distinction has been earned through district and state competition.

Members of an interscholastic team have a definite responsibility to contribute to that tradition for their school, thereby gaining personal satisfaction.

The role of contributing to a tradition which brings honor to students, school, and community is worthy of the best efforts of all concerned.

The Anchorage School District has instituted an activity fee for all ASAA activities. The established fee is $193 for Tennis, Cross Country Running, Cheerleading, Track and Field, Drama Debate/Forensics. $204 for Flag Football, Volleyball, Cross Country Skiing, Football, Wrestling, Basketball, Rifle, and Soccer. $215 for Gymnastics, Swimming and Diving, and Hockey. There is a family cap of $390 including any combination of middle and high school activities. The following guidelines apply to this fee:

1. Those activities that “pay to play” include all ASAA competitive programs with the exception of Honors, Music, Solo ensemble and World Language Declamation.
2. All fees are to be collected as part of the eligibility process at the beginning of the season for each sport. Any student that is not selected for the team will have the fee returned to them. The final team determination will be made and announced to students within the first five days of the season. No student is allowed to try out for the team without paying the fee or obtaining an approved activity fee waiver.
3. Fees are collected according to standard district accounting procedures since the funds are to be deposited into the general fund account rather than into the school account. Each school determines the procedures for collecting and receipting the funds within the unit, the district is responsible for collection and distribution to the general fund. Any student who is still participating after the date of the first contest in which the student could have competed, is NOT eligible for a refund. Refunds must be requested from the activities office within five school days of that date. Students transferring within the district during a season are given credit at the receiving school for the pay to play fee.
4. Any student with a financial hardship may apply for an activity fee waiver. Students and parents must submit an ASD Activity Fee Waiver Form, and submit documentation of being on public assistance or qualifying for the free/reduced federal lunch program. Activity fee waiver forms will be approved by the building principal or designee.
5. Once students of a single household have paid $390 in any combination of middle and high school activities, the family cap will have been reached.
Enrollment Rules

Participation in high school athletics is a privilege. All students are expected to comply with local, state, and federal laws and the rules and regulations of the Anchorage School District. Students will be subject to denial of the ability to participate if they do not meet eligibility requirements, engage in behavior that is detrimental to the well being of the team or school, are in violation of the tobacco rule, are in violation of the drug and alcohol rule, or commit criminal acts as defined in the ASD Statement of Student Rights and Responsibilities. In all cases the Superintendent or his designee retains the right to review and revise any disciplinary action.

A student is eligible to participate in the interscholastic activities of only one member school per year, except as provided under the Transfer/Residency Rule (Section 9 of ASAA Handbook). That school shall be considered the School of Eligibility. A student who is simultaneously enrolled at more than one member school and who wishes to be eligible to participate in the interscholastic activities of one of those schools, must designate that school as the School of Eligibility. The School of Eligibility must ensure that the student meets all eligibility requirements before being permitted to participate.

A. To be eligible during a school semester for participation in interscholastic activities, a student must:

1. Be properly registered in a 9-12 high school program in the ASD, an ASD charter school, ASD alternative school or program.
   a. A student enrolling in an ASD charter school, alternative school or program during the first semester of ninth grade; and a student transferring from out-of-district who attends an ASD charter school, alternative school or program after the first semester of the ninth grade, must designate a member school within the district as the School of Eligibility.
   b. The School of Eligibility of a student, other than a first semester freshman, who transfers to an ASD charter school, alternative school or program from another school within that district, will be the member school from which the student transferred.
   c. A student who transfers without a bona fide change of residence of parents or guardians, is ineligible for Varsity, State Qualifying and State Championship interscholastic competition for one calendar year, from the date of first attendance in the new school. Students who live with coaches are ineligible. At schools with no sub-varsity teams, the student could ask for a waiver to participate on the varsity team during the regular season, but would not be able to participate at either conference or state tournaments.

2. Have a qualifying G.P.A.:
   a. All first semester freshmen are immediately eligible at the beginning of the school year. At the end of the 1st quarter, they must have a 2.0 GPA to remain eligible for the remainder of the semester.
   b. Second-semester freshmen, all sophomores, all juniors, and all seniors must have an overall 2.0 GPA during the previous semester and end of first and third quarters. Students who do not meet the GPA portion of this requirement may regain eligibility during the current semester by achieving and maintaining an overall 2.0 GPA at the end of the quarter or semester using the grades earned during the nine-week grading period.
   c. Students who did not pass 5 classes the previous semester may regain eligibility by retaking and completing the course failed prior to the next grading period. Grades are checked at the beginning of each fall sports season and at the end of each quarter/semester. For purposes of this section, academic deficiencies may be made up through correspondence courses or summer school. (Correspondence courses must be completed and postmarked prior to the eligibility check. Athletes may begin participation once the final grade is posted.) Grades must be posted by the start of the first (Fall) sports season. The first (Fall) season begins the last Monday in July or the first Monday of August.

3. Be enrolled in the required number of semester classes:
   a. All freshmen, all sophomores, all juniors, as well as seniors who are not on track to graduate must be enrolled in a minimum of five (5) semester classes that lead to granting of credit toward graduation from the school district.
   b. Seniors who are on track to graduate must be enrolled in a minimum of four (4) semester classes in the district. Seniors who have a minimum of 17.5 credits at the beginning of their senior year and who enroll in a minimum of four (4) semester classes the first semester will be eligible during the second semester as long as enrolled in a minimum of four (4) classes and enrolled in enough classes to graduate second semester.
c. For purposes of eligibility, "enrolled" means the student has registered and remains in an approved course requiring regular attendance and/or coursework. College courses may be used to determine the number of courses for enrollment if: 1) the student is currently enrolled in the course, and 2) the course has been approved for ASD credit through Credit By Choice Program. The following units of credit do not qualify for purposes of determining eligibility: high school credit issued for middle school courses; the World Languages Incentive Credit; physical education waiver, and the credit by examination.

d. King Career Center courses will be counted as three(3) semester classes.

B. Student eligibility is checked on the first day of the fall sports season. Eligibility will be checked again the second Monday of each subsequent quarter. Students who were not eligible during a previous quarter/semester may practice, but not play, after school on the last day of the quarter, pending the new findings of eligibility.

C. Students who do not meet the eligibility rules of ASD and ASAA to participate in interscholastic activities due to academic deficiency may have the ability to practice with the team for the remainder of the quarter as long as all of the required paperwork is submitted to the Activities office. The student will be able to practice only, they will not be issued a uniform to play in a contest until the end of the next grading period. After the next grading period, eligibility may be regained.

IN ORDER TO PARTICIPATE:

1. A physician’s clearance to play must be on file at the school. This clearance is good for one year but must not expire during the season of the sport in which the student is participating.

2. A High School Athletic Activity Participation form must be signed and on file, and participation guidelines must be acknowledged.

3. Students and parents must comply with the ASAA pre-participation guidelines.

4. All records must be in order and forms must be on file in the Activity Office before the student is eligible to participate in any athletic programs.

5. Students pay an activity fee per ASAA sport or apply for a fee waiver based on financial hardship through the school activity office.

6. a. All players must have ten (10) separate days of physical practice in the same sport activity prior to the first day of competition.

b. When a student is participating in a recognized high school sport activity that overlaps the beginning of another recognized sport season, the AASA Executive Director may waive up to five (5) practices.

c. If a student has completed the required practices but has not competed for whatever reason for less then two weeks, no additional practices are required before returning to competition with the concurrence of the coach. If a student misses between 2 and 4 weeks of practice and competition, 5 additional days of practice and the concurrence of the coach are required before returning to competition. If more than 4 weeks have been missed, the student must have ten (10) additional days of practice and concurrence of the coach before returning to competition.

d. Member schools permitting a student to participate in interscholastic competition without meeting the practice requirements of this section will be considered to be using an ineligible player and will be subject to penalty under Article 12, Section 1 of the ASAA handbook.

e. ASAA prohibits students from competing as a member of a non-school comp. or junior hockey team beginning with the first day of high school practice until a school team has completed its season. The prohibition on competing on a non-school team will be lifted during Thanksgiving and winter break vacations. Although this rule does not restrict practice on a non-school team during the high school season, no student may participate in a high school game on a day in which he/she has participated in a "comp" practice.

Non-activity sticker holders will be charged $5.00 or full adult price. Activity stickers may also be used for admittance or reduced rates to dramatic, social, cultural events.

2. Activity sticker use shall be standardized on an annual basis.

3. Activity stickers will not be discounted in any way.

4. Refunds for activity stickers of students leaving school will be $10.00 during the first semester only. Stickers may be purchased second semester for $15.00.
The retirement of an athlete’s jersey is one of the highest athletic honors that a school can bestow on a student athlete. The practice of retiring a jersey is a standing tradition designed to pay homage to an athlete’s experience. In addition, the athlete has brought pride and spirit to the school community. The player must have demonstrated his ability and achievements in the sport. Although the honor is based primarily on athletic ability, it also recognizes the student-athlete’s contribution to high academic standards. Such an honor shall reflect athletic performance as well as achievements in the greater community. That is, the recipient has had a positive impact on the hometown and resident community and continues to exemplify excellence in the sport.

The following criteria are not meant to be all inclusive. However, items A and B shall be considered basic requirements for a candidate. Additional criteria could be considered if substantive and appropriate. A nominee may or may not meet every criteria listed, but any limitations in one area shall be counter-balanced by superiority in other areas. The criteria to be considered are:

A. Anchorage high school graduate
B. Possess a positive public image locally and in resident community
C. Recipient of national recognition such as All-American Team, MVP for division, Kodak, Gatorade Player, etc.
D. Hold some type of All-Conference honor for at least two years
E. Be named All-Conference or league “Player of the Year”
F. A statistical leader in a recognized category as maintained by the conference or league
G. A statistical leader in a recognized category as maintained by the college or university in that sport
H. Be a state/regional champion in the sport

A. The coach, based on these guidelines, shall submit in writing with supporting documentation a nomination to the athletic director.
B. The AD shall refer the nomination with a written recommendation to the Athletics Committee. The Athletics Committee shall consist of the activities principal, a teacher, and a community member. The teacher and community member shall be selected by the principal. The principal shall serve as an ad hoc member to the committee. The committee shall have final approval of the nominee.
C. The principal will foreword a nomination to the HS Supervisor to be placed on the Region IV agenda for debate. A recommendation will be sent to the Executive Director.
D. The honor shall be the retirement of the student-athlete’s jersey not his/her number. A coach may choose not to reissue the jersey number, but the retirement of the student-athlete’s jersey would not in and of itself require that the number never be worn again.
E. It is anticipated at the retirement of the student-athlete’s jersey, an award ceremony shall be held and the jersey shall be appropriately displayed with all the student-athlete accolades.

REQUEST FOR OUT-OF-DISTRICT TRAVEL

STUDENT TRAVEL
Any out-of-district travel by students under the auspices of the School District, with the exception of travel to contiguous Boroughs or ASAA State Tournaments and Meets, must receive approval of the Principal and the Secondary Executive Director, or his/her designee as outlined in Section 460 of the School Board Policy Manual. The “Request For Out-of-District Travel” form must be completed and include recommendation plus have the approval of the Secondary Executive Director, or his/her designee. Sponsor must accept ASD travel policy.

460.4 (PM) CRITERIA FOR OUT-OF-DISTRICT STUDENT TRAVEL
All decisions relative to approval of out-of-district student travel and the funding for such travel shall be based on the following criteria. The application must document each requirement.

A. Travel must be related to educational or approved activity programs.

B. Travel must provide opportunities that are not available within the District. Priority will be given to those trips that do not interfere with the school calendar. If trips are requested while school is in session, trips related to academics will be limited to 5 school days per year. Trips related to activities/athletics will be limited to 3 school days per season. Absences during trips generated by an ASD initiated program will be recorded as an activity absence. Absences from trips initiated for academic enrichment will be recorded as a prearranged absence.

C. The number of adults participating in the travel to supervise students must be approved by High School Education. The ratio of adult to students may vary depending on the activity. In general, a ratio of 1 to 10 is required. If the trip is not a part of the ASD educational program, any leave expenses incurred must be covered by fund raising activities, the ASD professional leave bank, or LWOP/personal leave opportunities.

Coverage by an administrator or designee is required when the trip is related specifically to an ASD academic or activity program.

D. School programs for students not traveling must continue at the level expected if the trip did not occur. Applications must provide assurances that this will happen. Students traveling must maintain their overall educational program. It is highly recommended that students attend school while on these trips, whenever possible.

E. The trip must be safe and adequate security must be provided.

There must be assurance that adequate medical care is available. It is highly recommended that at least one chaperone have a current first aid certificate.

F. The proposal must anticipate all possible contingencies including potential liability, emergency situations, and provisions for disciplinary matters. Written parent or guardian permission must be secured.

G. Impact of fund raising activities upon the students, the school, and the community must be reasonable and possible within the target community. A plan to handle the cancellation of a participant, the trip itself or other factors that might result in financial liability associated with advance ticket purchase are not the responsibility of the Anchorage School District.

H. Travel must be approved prior to encumbrance of advance ticket purchases. Trips outside the State of Alaska must be approved 1 semester prior to the trip departure. Trips within the State of Alaska must be approved 30 days prior to departure.

I. Applications must be complete when submitted. Failure to provide all information requested may result in denial of travel.

DISTRICT-SPONSORED TRIPS POLICY FOR TRAVEL WITH STUDENTS

Event and Date

All out-of-district travel is defined by and undertaken in accordance with applicable School Board policy and with the approval of the appropriate division executive director.

All adults who travel with and supervise or assist in the supervision of ASD students on an out-of-district trip agree that their supervisory responsibilities extend to 24 hours each day for the full period of the trip. This is true whether they are acting in the capacity of coaches with direct responsibility for team members, team sponsors for the activity, parents/volunteers who have offered to provide supervision for the trip, or are an administrator or administrative designee acting as the district representative overseeing the trip. The same behavior expectations exist for all adults as well as students:

- The use or possession of alcoholic beverages by any adult or student is prohibited
- No firearm or weapon is to be present in any vehicle or on the person of any adult or student
- All Anchorage School District behavior guidelines, including the Drug and Alcohol Policy, apply to all students
- The Anchorage School District Drug Free Work Place policy which prohibits the possession, use, distribution or sale of illicit drugs, is in effect and extends to all personnel, including volunteers, who have supervisory responsibilities for students
- All adults will be available at all times, 24 hours a day, to assist student or other adults

Any Anchorage School District employee working in the capacity described above, or on approved Civic Leave to work with young people who may or may not be ASD students, who violates this policy will be subject to disciplinary action up to and including the termination of their employment with the Anchorage School District.

As a coach/sponsor/administrator or designee/volunteer, I have read and agree to abide by the Anchorage School District policy governing travel with students

STUDENT TRIP TRANSPORTATION GUIDELINES

Whenever ground transportation is required for 10 or more occupants in a single vehicle, students must be transported in a school bus. Municipal transit buses (People Mover) may also be used for local trips. The ASD Transportation Department must be contacted (742-1200) to schedule all school bus transportation. Trips on the People Mover system are scheduled through Community Resources (742-4146). This applies to all school related activities.

USE OF COMMERCIAL VEHICLES

The Transportation Department will make arrangements for travel with approved school bus companies. Student travel in motor coaches, limousines and other vehicles that do not meet Federal Motor Vehicle Safety Standards for school buses will not be approved.

USE OF VANS

The use of vans or other vehicles with rated capacity of 10 passengers or more is prohibited.

USE OF PRIVATE VEHICLES

The use of private vehicles for student transportation outside the boundaries of the Anchorage School District and overnight activities is prohibited.

PARENT/ADULT TRANSPORTATION OF STUDENTS

The School Board recognized the necessity of utilizing parent and adult transportation of students on an individual or pool basis to some school sponsored programs, i.e., field trips, etc. It shall be the principal’s responsibility when establishing programs utilizing such transportation to ensure:

a. No more than 10 occupants may be transported in a single vehicle regardless of the number of seats and seat belts available.
b. The parent or guardian has given permission for the student to ride in a private vehicle and to participate in the activity.
c. The driver of the private vehicle is a responsible adult, 21 years of age or older, with a valid driver’s license. Principals should use discretion with any driver under the age of 25.
d. The owner has a minimum of $100,000/$300,000 liability insurance on the vehicles being used.
e. It is highly recommended that a seat belt positioning booster seat be used for students under age 8, unless the student has reached 4’9” in height.
f. The vehicle operator is informed that students 12 years of age or younger will not be permitted to ride in the front passenger seat of vehicles equipped with a front passenger side air bag.
g. The driver/owner has completed and signed the District Insurance Confirmation form.

USE OF RENTAL VEHICLES

Note: It is a violation of Federal law for a vendor to sell or lease passenger vans with capacity of 10 or more students to a school district for the purpose of transporting students.

a. Items a, b, c, e, and f above must be followed
b. Additional liability and physical damage insurance, provided by the rental company, must be purchased

This policy applies to District employees as well as parents, guardians and other adults.

If a student misses between 2 and 4 weeks of practice and competition, 5 additional days of practice and the concurrence of the coach are required before returning to competition.
   D. If more than 4 weeks have been missed, the student must have taken (10) additional days of practice and concurrence of the coach before returning to competition.
   E. Members schools permitting a student to participate in interscholastic competition without meeting the practice requirements of this section will be considered to be using an ineligible player and will be subject to penalty under Article 12, Section 7 of the ASDAA handbook.

HIGH SCHOOL
HAZING/HARASSMENT POLICY

_The Anchorage School District maintains a zero tolerance policy toward hazing and harassment of any type._

Hazing is defined by the district as any type of harassment including verbal, sexual, racial, or physical harassment. It includes activities or actions which intimidate or threaten another individual or actions designed to create group affiliation which can cause bodily danger, physical harm, or mental and emotional harm.

All school district employees will support and enforce the zero tolerance policy.

Any and all infraction will result in immediate suspension until an investigation is carried out and consequences determined. Consequence may include school and/or team suspension or expulsion.

Hazing/harassment has no constructive purpose in the evolution of our team or school. It is cruel, demeaning and biased. Please sign the pledge below and let us work as at team to be sure hazing does not become part of our legacy at the school.

_I promise not to be involved in any hazing/harassment incident, no matter how minor it may seem, and to do everything in my power to help my team/school achieve the goal of a hazing/harassment-free year. I understand that I may be suspended or expelled from my team and/or school for any incident in which I have participated or been an idle witness._
