NOTES

- When buying canned products, prioritize those that are BPA-free. Eden Organics is a very trusted brand.

- Whenever possible, prioritize organic and/or non-GMO foods. The Environmental Working Group’s Dirty Dozen and Clean Fifteen list is a great guide for knowing what fruits and vegetables are best purchased organic.

- When choosing breads, purchase ones where the first ingredient is “whole wheat flour”. You want at least 3 grams of fiber per slice, and no more than 2 grams of sugar.

- Depending where you live, some items – like chia seeds and cacao nibs – may be hard to find. If so, Navitas Naturals offers many of these items at affordable prices.

- This meal-plan contains unique breakfast, lunch, dinner and snack ideas. Depending on your family size, you may be preparing meals that have enough leftovers to be used for future lunches or dinners. Feel free to use this meal plan as a guide, estimating how much you’ll need to provide adequate meals and snacks for your family without waste. Maybe you only make two of the lunches and two dinners in bulk to last the week, meaning you can stretch this meal plan into another week. Or perhaps you like the challenge of cooking up a new meal each day.

- The accompanying grocery list assumes you’re stocking your kitchen from scratch. Chances are you already have many of these foods and ingredients on hand already!

- Feel free to mix and match or swap wherever necessary. If you prefer snacking on a juicy orange instead of apples, or prefer tempeh over seitan, that’s perfectly fine.

- Not every meal or snack comes with a specific recipe. This is where we invite you to get creative!
