- We are pulling deep and bringing some of our best with 8Y at the forefront. A favorite of many fellow Kentucky Hereford breeders who have visited and gone through the fall herd and one of my personal favorites as well, 8Y was destined to never leave Elm Tree. However, exceptions are made when a cow like 8Y out produces herself with a daughter in production, sired by Cheyenne, who rivals her in quality. Purchased out of the MSU dispersal sale as a bred heifer, 8Y never disappointed. An easy fleshing, gorgeous uddered, great milking cow who consistently bred back. She is the epitome of what we look for in a polled cow, Dark, deep and broody while placing it in a pretty fronted, moderate package. We are very excited to see what the September Boyd Legacy heifer calf at her side will develop into.
- **Lot 1A**: Heifer calf, calved Sept. 9, 2015, by Boyd Legacy 3001. BW 58 lb., P43627777.
- **Consigned by Elm Tree Farms, Paris, Ky.**

- One of our top picks out of the Star Lake Ranch dispersal sale. Since her arrival at Elm Tree, 155Z has held true to producing topnotch calves for us every year. Her dependability to conceive AI has led us to breed her successfully to Hometown 10Y, 88X and now Boyd Legacy. Her Hometown 10Y heifer calf sold in the 2014 North American Bluegrass Stakes sale to Lowderman Cattle Co. in Illinois. She is a cool fronted, long sided cow that remains impeccable in her lines and brings forth the rib shape and power to produce high quality females. She was a great investment for us and will continue to be for the next owner. A true, all-around, dependable breeding piece that has left her mark on the Elm Tree herd.
- **Bred AI April 12, 2015, to Boyd Legacy 3001. Called safe in calf four months on July 28, 2015.**
- **Consigned by Elm Tree Farms, Paris, Ky.**

- We purchased 9136 as a weaned calf from Grandview CMR based on the progeny we had seen from the L244 and Kim cow families. 9136 has more than lived up to our expectations. She is ideal in size, an easy keeper and always has been one of the healthiest calves at weaning time. Dale Stith selected one of her daughters as the first animal in the ring to sell in last year's Kentucky Sale. Retaining her 2015 bull calf.

- Many generations of top performing individuals are wrapped up in the pedigree of this 2-year-old with the combination of the Beth and May cow families. The daughters of her sire, 2X, are making excellent cows. We have three full sisters to her dam that always produce at the top end of the herd. You'll like the length and depth of body, natural thickness, tight udder, small teats and excellent milk flow, a trademark of 18A and these cow families.
