Frisco ISD Mission Statement

By providing a unique learning environment that maximizes student opportunity and invests in meaningful relationships, the mission of the Frisco Independent School District is to partner with parents and community in developing caring citizens equipped to continue learning and pursue their aspirations.

Belief System

Education is a shared responsibility of students, school, home and community. With that as an essential principle, we believe that:

- Every person can learn.
- Each person is ultimately responsible for his/her own learning.
- Learning is lifelong and unlimited.
- Each person is unique.
- Everyone has equal inherent worth and deserves to be treated with respect and dignity.
- Everyone needs challenge and encouragement.
- Imagination and creativity are vital.
- Integrity is essential.
- A safe and orderly environment is necessary for learning.
- Meaningful relationships have profound lifelong impact.
- There is always room for improvement.

INTRODUCTION

This Academic Guide has been developed to provide important information for students and their parents. It will assist you in making wise, informed decisions concerning programs and course choices throughout your high school years.

The goal of Frisco Independent School District is to prepare students as thoroughly as possible for the next phase of their lives. Whether the student seeks a university degree or immediate employment in the work force, this guide contains important information to help direct the student in making informed decisions throughout high school. Information on grade classifications, graduation plans and class rank are included in this guide.

DISCRIMINATION DISCLAIMER

Frisco Independent School District does not discriminate on the basis of race, religion, color, national origin, sex or disability in providing education or providing access to benefits of education services, activities, and programs, including career and technology programs, in accordance with Title VI of the Civil Rights Act of 1964 as amended; Title IX of the Education Amendments of 1972; Section 504 of the Rehabilitation Act of 1973, as amended; and Title II of the Americans with Disabilities Act.

At the time this document went to print the Texas State Board of Education and Texas Education Agency had not made final decisions on all aspects of STAAR/End of Course (EOC) examination implementation. This document will be updated as more information becomes available.

STUDENT INFORMATION

Classification of Students

The following standards apply to grade classification. Standing is determined at the start of each school year: Classification is for the complete school year.

Core Classes:   English I, II, III, IV
                Math: Algebra I, Geometry, Algebra II and/or 4th math
                Science: Biology, Chemistry, Physics and 4th science credit
                Social Studies: World Geography, World History, U.S. History, Gov’t/Economics

Freshman: A student entering high school for the first time or having fewer than 5 credits.

To Become A Sophomore: A student who has earned a minimum of 5 credits with 3 of the 5 earned in core classes will be classified as a sophomore.

• 5 total credits
• 3 credits earned from any of the following courses:
  English I
  Algebra I or Geometry if Algebra I was earned in middle school
  Biology or other eligible 9th grade course (IPC, Physics)
  World Geography or other required social studies if moved in

To Become A Junior: A student who has earned a minimum of 10 credits with 6 of the 10 earned in core classes will be classified as a junior.

• 10 total credits
• 6 credits from any of the following courses:
  English I, II
  Algebra I, Geometry, or other required math course (Math Models, Algebra II)
  Biology, IPC, Chemistry or Physics or other approved science course
  World Geography, World History, or other required social studies

To Become A Senior: A student who has earned a minimum of 15 credits with 9 of the 15 in core classes and who is enrolled in a program that will allow for graduation will be classified as a senior.

• 15 total credits
• 9 credits from any of the following courses:
  English I, II, III
  Algebra I, Geometry, or other required math course (Math Models, Algebra II)
  Biology, IPC, Chemistry, Physics or other approved science course
  World Geography, World History, U. S. History or other required social studies

Students that are enrolled in the correct number of credits to graduate in the current school year may also be classified as a senior with principal approval.

Class Loads

In order to qualify as a full time student Frisco ISD students must be enrolled in at least the equivalent of 6 credit classes each semester, 5 of which must be state credits. Since FISD high schools have an eight period schedule, early dismissal permits may be granted for 11th and 12th grade students if they are satisfactorily progressing toward graduation. All 9th and 10th grade students must be enrolled in eight class periods.
STAAR End of Course Exams (EOCs) and TAKS

Beginning with the 9th grade class of 2011-12 students will take STAAR End of Course (EOC) Assessments in accordance with state law. The assessments will have a four hour time limit.

A student is permitted to retake an EOC assessment for any reason at any of the scheduled testing administrations.

Courses with STAAR EOC Assessments

• Algebra I, Geometry, Algebra II
• World Geography, World History, US History
• Biology, Chemistry, Physics
• English I, II, III (Reading and Writing are two separate tests administered on two different days)

Students: TAKS or STAAR EOC Assessments

• STAAR EOC Students
  • Students who are first time ninth graders in 2011-12 and students who are in grades 3-8 in 2011-12
• TAKS Students
  • Students who were first time ninth graders in 2010-11 or earlier
• TAKS Exit Level (Senior Class of 2013 and 2014)
  All students must pass the TAKS exit level test before being issued a diploma. Remediation will be offered to those students who fail any portion of the test. If you are retained in the 9th or 10th grades, you will take the TAKS test for that grade level even though you may have taken and passed that test the previous year.

Middle School Students Enrolled in High School STAAR EOC Tested Courses

Middle school students enrolled in high school EOC tested courses will take the STAAR EOC for the course rather than the grade level STAAR for that content area.

Graduation Requirements and EOCs

1. Students must receive credit for all coursework based on state law and FISD Policy.
   (see graduation requirements in the FISD High School Handbook)
2. A student must earn at least the “minimum” score (as defined by TEA) on all End-of-Course STAAR assessments taken.
3. A student must achieve a cumulative score that is greater than or equal to the number of EOC assessments taken multiplied by the satisfactory standard for each subject area (Math, English, Science, and Social Studies).

Performance Labels

• The labels for the performance categories are
  • Level III: Advanced Academic Performance
  • Level II: Satisfactory Academic Performance
  • Level I: Unsatisfactory Academic Performance

The End-of-Course Assessments (EOCs) will have a range of performance

<table>

Minimum Score

* Recommendation
  • RHSP: Must meet Level 2 for Algebra 2 & English 3
  • DAP: Must meet Level 3 for Algebra 2 & English 3

“Minimum” needed to count for Cumulative Score
Grading Guidelines and Course Credit 2012-2013

** Special Note: The Commissioner of Education with the Texas Education Agency waived the 15% rule for 2011-12 only. Guidelines outlining the relationship between EOC assessments and course grades for 2012-13 will be ruled on by The Commissioner of TEA.

Remediation

- Remediation/tutoring will be provided by the district for students failing to meet the Level 2, Satisfactory Standard. For each tested area.
- Parents and students will receive a detailed calendar of specific dates that the tutor/mentoring systems will be in service.

Recovering Course Credit

- Students utilizing the online learning platform may recover course credit by a combination of the following:
  - Successful completion of the diagnostic assessment
  - Successful completion of the learning path
  - Mastery of the material on the post-test, as defined by FISD
- The standard for “mastery” and “successful completion” will be set by FISD.
- Each student will have a teacher of record that will evaluate student work in the online learning platform.

Mandatory Attendance

- Students retaking the EOC in July will be required to attend the retest for any EOC assessment that they have not reached a Level 2 (Satisfactory) scale score.
- A calendar of the specific retest dates in July will be given to all students needing to retest.
- The law and FISD policy in regards to mandatory attendance will be applied for EOC retesting.

Students not passing the July Retest

The Campus Intervention Team along with the parent and student will meet to develop a plan for accelerated instruction during the next school year to ensure the student meets the standards set for each EOC. Students identified as at risk of failing any EOC Assessment may be assigned to required tutorials before or after school or they may be assigned to classes designed to better prepare them for success on EOCs. Students will not be eligible for late arrival/early release as juniors and seniors if they have failed to meet the requirements of the STAAR assessment program.

Special Note: Be advised that the laws for assessment and accountability have changed and will continue to be analyzed and interpreted by the Texas Education Agency (TEA). This document will be updated as new information is provided by TEA. This text is current as of June 6, 2012.
Student academic evaluation is achieved through the use of a grading system. An average grade of 70 is required for successful completion of a course. The grading system of the Frisco Independent School District shall be in accordance with the following scale:

- A: 90-100
- B: 80-89
- C: 70-79
- F: Below 70

One-half credit may be earned in one semester. Students who fail one semester of a course may:

a. Take the semester failed when offered to gain a passing grade.

b. Be permitted to continue the course and by cumulative grade average pass the unit.

c. If the course is not a required course, the student may choose to take another elective.

Each teacher is required to effectively communicate their grading standards to students and parents. Grade reports are distributed each six weeks, usually on the Friday following the end of the grading period. Progress reports to parents are sent out at three-week intervals. All FISD secondary schools participate in the Home Access Center, a web based communications system that allows parents and students to obtain information online regarding the student’s current grades as well as assignment information. Teachers are required to update their information every two weeks. Teachers may also include additional information as they deem appropriate. Students and parents will be given instructions regarding utilization of this system at the beginning of the year.

### RANK IN CLASS POLICY

#### Grading System

The grading system of the Frisco Independent School District shall be in accordance with the following scale:

- A: 90-100
- B: 80-89
- C: 70-79
- F: Below 70

One-half credit may be earned in one semester. Students who fail one semester of a course may:

a. Take the semester failed when offered to gain a passing grade.

b. Be permitted to continue the course and by cumulative grade average pass the unit.

c. If the course is not a required course, the student may choose to take another elective.

Each teacher is required to effectively communicate their grading standards to students and parents. Grade reports are distributed each six weeks, usually on the Friday following the end of the grading period. Progress reports to parents are sent out at three-week intervals. All FISD secondary schools participate in the Home Access Center, a web based communications system that allows parents and students to obtain information online regarding the student’s current grades as well as assignment information. Teachers are required to update their information every two weeks. Teachers may also include additional information as they deem appropriate. Students and parents will be given instructions regarding utilization of this system at the beginning of the year.

#### GPA Exempt Courses (Freshman entering Fall 2006)

- All courses taken during the regular school year shall count toward the GPA, except for the following: aide positions, peer tutoring. SAT-prep classes, high school courses earned in junior high, college credits that are not dual credits, driver’s education, credit by examination credits, correspondence school courses, and summer school courses. No credit or grade points shall be assigned for summer abroad courses such as the People To People program.

- Candidates must be 8 semester graduates and in attendance at the eligible graduate with the highest GPA; the salutatorian shall be the eligible graduate with the highest GPA.

#### Transfer Students

Students transferring to FISD with credit for honors or advanced classes from other high schools shall receive the weighted grade point average for those classes only if a comparable honors or advanced course was available to students at the high school at the same time the transferring student earned the honors or advanced course credit. Students transferring to FISD with credit for honors or advanced classes from other high schools shall receive the weighted grade point average for those classes only if a comparable honors or advanced course was available to students at the high school at the same time the transferring student earned the honors or advanced course credit.

### Weighted Grades

All numeric grades shall be converted to a weighted scale (see chart). No grade points shall be awarded for any grade below a 70.

#### Valedictorian and Salutatorian Requirements

Each district high school shall have a valedictorian and salutatorian. Candidates must be 8 semester graduates and in attendance at the

### Ties

In case of a tie, the tie shall be broken with the following series of tiebreakers: Count the number of AP classes taken (the highest number shall be declared valedictorian). If still tied, add to this count the number of Pre-AP courses taken. If still tied, add to the count this number of honors courses taken. If still tied, average the junior and senior years only.

#### Honor Graduates

Each level of Honor Graduates will be determined by the student’s grade point average at the end of the fifth six-week grading period of the student’s junior year through graduation. The valedictorian shall be the eligible graduate with the highest GPA; the salutatorian shall be the eligible graduate with the second highest GPA.

### Honor Graduates

Each level of Honor Graduates will be determined by the student’s grade point average at the end of the fifth six-week grading period of the student’s junior year through graduation. The valedictorian shall be the eligible graduate with the highest GPA; the salutatorian shall be the eligible graduate with the second highest GPA.

#### Honor Graduates

Each level of Honor Graduates will be determined by the student’s grade point average at the end of the fifth six-week grading period of the student’s junior year through graduation. The valedictorian shall be the eligible graduate with the highest GPA; the salutatorian shall be the eligible graduate with the second highest GPA.

### Transfer Students

Students transferring to FISD with credit for honors or advanced classes from other high schools shall receive the weighted grade point average for those classes only if a comparable honors or advanced course was available to students at the high school at the same time the transferring student earned the honors or advanced course credit.

### Transfer Students

Students transferring to FISD with credit for honors or advanced classes from other high schools shall receive the weighted grade point average for those classes only if a comparable honors or advanced course was available to students at the high school at the same time the transferring student earned the honors or advanced course credit.
GENERAL INFORMATION

**Academic All-Stars**
At the end of the fifth six weeks, students who have been enrolled in at least the minimum number of courses and attained a grade no lower than 90 on any six weeks grade, will be designated an “Academic All-Star.” A medal will be presented to these students at the awards assembly at the end of the school year. The semester grades for college co-enrollment courses will be used and no points will be added for college co-enrollment, honors or AP courses.

**Academic Letter Jackets**
FISD recognizes academic achievement through the awarding of Academic Letter Jackets. Juniors and Seniors in FISD may earn this recognition by meeting the following standards:
- The student must earn a cumulative 4.5 or higher weighted grade average for a minimum of 4 semesters of high school course work. Only juniors and seniors are eligible under this criterion.
- All classes that count for class rank will be considered.
- At least 1 of those four semesters must be completed at an FISD high school.
- Students who have less than a 4.5 weighted grade average after 4 semesters, but whose cumulative grade average Improves to a 4.5 or higher at the end of any subsequent semester may apply for the award at the end of that semester.
- Jackets will be ordered during the same time period as athletic letter jackets. Students attaining the necessary standard at the end of the second semester of any year will order their jacket the following year.
- Students may receive only one letter jacket during their high school career.
- Students who believe they are eligible must complete an Application for Academic Letter through the Registrar’s Office.

**Changing Class Schedules**
Students pre-enroll in the spring semester for the upcoming school year, and the master schedule will be based on that information. Students will be able to see and change their course requests through May 15th 2013, by contacting their counselor. Following this deadline, only program changes will be allowed through the second week of each semester.

Pre AP/AP classes are the only classes that may be dropped at the end of the 1st six weeks grading period of a course or at the end of the semester. This change will occur only if the teacher, student and parent concur on the change. If consensus is not achieved, the issue will be referred to the Campus Intervention Team.

**Community Service Program**
The purpose of the program is to promote volunteer service to the school and community. Students who complete all requirements of the program will be recognized at their graduation ceremony by a colored cord and recognition in the graduation program.

Students wishing to participate should complete 100 hours of service, either individually or as part of a group project. All documented volunteer hours will be accepted including required hours completed for other organizations. The hours must be completed in grades 9-12 (hours completed during the summer following the 8th grade will also be accepted).

Students must complete a documentation form located on Family Connection. Hours should be turned in to the registrar’s or counselor’s office as they are completed but no later than April 1st of the year in which the student intends to graduate. Undocumented hours will not be accepted.

**Community Service Guidelines:**
- Volunteer work done for a non-profit organization geared towards improving the community (Red Cross, American Cancer Society, Frisco Family Services, etc.)
- Volunteer work done as part of a civic, religious, school, charity or community organization geared towards improving the community or school (Rotary Club, NHS, Frisco Family Services, etc.).
- Work performed by a religious organization must be work that could be performed by a non-religious organization.
- Must be completed outside the school day.

**Examples of Non-Community service:**
- Babysitting for a neighbor without being paid.
- Tutoring your little brother (tutoring others may count if arranged through the NHS or the counseling department).
Credit by Exam for Acceleration

High School Credit by Examination - Without Prior Instruction
High school students who wish to earn credit for a course in which they have had no prior formal instruction may test through credit by exam. Examinations for Grade 9-12 are criterion referenced tests from Texas Tech University, University of Texas, or the testing instruments approved by the Superintendent or designee. Student must demonstrate 90% or higher mastery on the exam in order to earn credit. Courses taken for high school credit will not be computed in class rank. Students are encouraged to review the course study guide on the university website.

Texas Tech University  www.depts.ttu.edu/ode/cbereview

University of Texas  www.utexas.edu/cee/dec/k16/index.php?page=credit

Applications are available from the high school counselor and must be returned to the counselor for processing. Parents should be aware that there are no exceptions available for students to test for acceleration and plan accordingly. Students may test at any time during the testing window, but must be registered by the test application deadline. The application deadline and testing window will be determined at the start of each school year and can be found at: http://www.friscoisd.org/departments/Testing/FriscoISDOnlineCreditbyExamination-HighSchool.htm

For students who move to the Frisco community at the start of the school year, every effort will be made to provide an opportunity for the student to test during the second or third week of school, if the course credit is necessary for first semester course scheduling. There is no charge for testing. Students who register for an examination and do not take the examination will be assessed a fine equivalent to the cost of procuring the examination. Exam results will be mailed to the counselor after scoring is completed.

Students who may potentially be candidates for athletic scholarships should be advised that credits earned through credit by exam do not qualify for minimum core course requirements under NCAA guidelines. See the following link for specific information: https://web1.ncaa.org/eligibilitycenter/hs/faq.pdf

Students taking a course that has an EOC exam and earning credit toward graduation must take the corresponding EOC exam.

Credit by Examination- With Prior Instruction
Students under certain circumstances may be able to take Credit by Exam for a course in which they have had prior instruction but did not receive credit. This option must be approved by the campus principal (or designee). This option generally applies to students who have not earned credit due to extenuating circumstances such as a family move, illness, etc. It also may apply to students who were home schooled or attended a non-accredited private school who need state approved credit. Students who attended school in a foreign country which was taught in a language other than English may also qualify to test that language (French, Spanish, German) with prior instruction. Students are encouraged to review the course objectives provided on the university website. Students who may potentially be candidates for athletic scholarships should be advised that credits earned through credit by exam do not qualify for minimum core course requirements under NCAA guidelines. See the following link for specific information.

Texas Tech University  www.depts.ttu.edu/ode/cbereview

University of Texas  www.utexas.edu/cee/dec/k16/index.php?page=credit

Students must demonstrate 70% or higher mastery on the exams. Applications are available from the school counselor. There is a fee of $40-$45 (depending on the exam) for each semester exam. Students may test at any time during the testing window, but must be registered by the test application deadline. The application deadline and testing window will be determined at the start of each school year and can be found at: http://www.friscoisd.org/departments/Testing/FriscoISDOnlineCreditbyExamination-HighSchool.htm

Credit Recovery Guidelines
The goal of the Frisco ISD Credit Recovery Program is to assist students deficient in credits while at the same time preserving the integrity of the FISD diploma. FISD will ensure that every student has the opportunity to acquire the credits necessary to earn a diploma. It is the responsibility of each student to be aware of their progress toward a diploma and to take full advantage of the assistance available. The following guidelines are in place beginning with the 2012-2013 school year. Please contact the individual campus for additional information.

First year students:
First year high school students who fail a course may recover credit through the following options:
1. Correspondence
2. Credit by Examination
3. Summer School
4. On-line courses (with prior approval of principal or designee)
5. Repeating the class during the school day
Second, third, and fourth year students:
Second, third, and fourth year students who fail a course will follow the same guidelines as first year students with the added option of a Credit Recovery class scheduled during the school day. Students must first demonstrate effort to recover credit through options 1-6 listed above before enrollment in a school day program will be considered. An exception will be made only in extenuating circumstances (i.e. extended illness, homelessness, teen parent, students new to FISD) as determined by the Campus Intervention Team and the campus principal.

Fifth year students:
Fifth year students will be evaluated on an individual basis by the Campus Intervention Team and the principal.

The following information pertains to all grade levels:

- Any cost associated with Credit Recovery option outside of the school day will be the responsibility of the student and parent.
- The cost for FISD credit recovery classes offered outside the school day will be $300 for each 1/2 credit course. Course progress will be checked weekly and good attendance and effort must be evident or the student may be dismissed from the credit recovery class with no refund.
- Transportation to and from the Student Opportunity Center for students attending the SOC credit recovery program full time during the school day will be provided by the district. Parents and student will be responsible for transportation for all other credit recovery classes taken at the Student Opportunity Center.
- No student will be allowed to enroll in a school day Credit Recovery class after April 15.
- Seniors planning to participate in graduation must provide proof of credit earned and recorded at least 5 school days before graduation. All other students must provide proof of credit prior to the start of the following school year in order to receive credit that would result in promotion to the next grade level. Reclassification is only done each year prior to the start of the school.
- At least 50 percent of the credits earned toward a diploma must come from the regular school program. Of the remaining credits, no more than eight may come from credit recovery, with school day credit recovery limited to no more than four credits. An exception will be made only in extenuating circumstances (i.e. extended illness, homelessness, teen parent, students new to FISD) as determined by the Campus Intervention Team and the campus principal.
- During the second semester, a fourth year student failing a course required for graduation will be limited to credit recovery outside of the school day only.
- Students must seek prior approval from appropriate campus staff before enrolling in any of the credit recovery options.
- Students should refer to existing guidelines for details regarding correspondence, credit by exam, summer school or on-line courses.
- Final decisions regarding placement in credit recovery rest with the campus principal.

Dual-Credit Courses
Qualified students may be enrolled concurrently with an FISD high school and Collin College. Students in dual credit classes will earn both high school and college credit. Admission requirements include successful completion of the THEA test or proof of exemption from THEA. Students are responsible for paying the tuition, books and fees. Transportation is not provided to or from classes. Student must meet admissions requirements. See counselors for details.

Early Graduation
Student interested in early graduation should see their counselor. All high school students who apply to graduate early must complete the requirement for either the Recommended or Distinguished Achievement High School Program unless the student, the student’s parent/guardian and a school administrator agree in writing that there are extenuating circumstances or extreme hardships. If an agreement is reached then the student will be allowed to graduate under the Minimum High School Program and will adhere to the requirements outlined in Education Code 28.025(b), (b-6).

A declaration of intent to graduate early must be filed after May 1 of the second year of high school but prior to September 1 of the third year. Requests made after May 1 will be considered for approval by the Superintendent or his designee.

Course Enrollment - Grade Level Requirements and Prerequisites
Enrollment is limited by grade levels listed. Students must be classified in the appropriate grade in order to sign up for a course. The prerequisite listed must be met for each course. Please note grade and prerequisites with each course description.
Late Arrival or Early Release
Juniors and seniors who are on track for graduation with regard to both credit and TAKS requirements may sign up for either late arrival or early release. Students who opt for either must have transportation and may not be on campus when they are not scheduled in a class. Any student unable to leave campus immediately after their last class will not be permitted to have early release.

On-Line courses through TxVSN (Texas Virtual School Network)
Beginning with the 9th graders in 2011-12, students may continue attaining high school credit through on-line courses from TxVSN or by taking and passing Credit by Exams (CBE’s). Students will have to take the corresponding End of Course Exam and meet all requirements of the state assessment system.

Official Transcripts
A $1 fee will be charged for each official transcript. If students wish to avoid the $1 fee, they can supply an addressed and stamped envelope. Unofficial transcripts are free and the number is unlimited.

Recommendations for College Preparation
It is highly recommended that students planning to enter college take all math, science, English and social studies courses possible, whether taking the Recommended Program, Distinguished Achievement Program or the regular course of study. Electives should be selected that will best prepare the student for college work.

Residence Requirements for Diploma
Seniors who do not complete the last semester’s work in FISD but desire to receive a diploma from an FISD high school must have prior approval from the Board of Trustees.

Sophomore TAKS policy (Senior classes of 2012, 2013, and 2014)
Any student who does not demonstrate mastery of any part of the Grade 10 Texas Assessment of Knowledge and Skills (TAKS) test shall be required to enroll in a course designated to prepare for success on the TAKS Exit Level test each semester until mastery is achieved. These prescribed courses are designed to strengthen knowledge and skills and to enhance the student's opportunity for satisfactory performance as required by the state for graduation. Remediation classes shall be offered each semester of the academic year and for one summer term at no cost to the student.

EOC policy (Freshman class of 2011-2012 and Beyond)
Any student who fails to perform satisfactorily on an end of course (EOC) assessment shall be provided accelerated instruction. The Campus Intervention Team along with the parent and student will meet to develop a plan for accelerated instruction during the next school year to ensure the student meets the standards set for each EOC. Students identified as at risk of failing any EOC Assessment may be assigned to required tutorials before or after school or they may be assigned to classes designed to better prepare them for success on EOCs. Students will not be eligible for late arrival/early release as juniors and seniors if they have failed to meet the requirements of the STAAR assessment program.

Special Education
Students experiencing difficulties in school may be referred for services in special education. Before a student can receive special education and/or related services for the first time, an initial evaluation must be conducted. Decisions regarding the provision of special education services are made by an Admission, Review, and Dismissal (ARD) committee. If a student is determined to be eligible for services in accordance with the Texas Education Agency guidelines, an individualized education plan is developed. Instruction that is designed to meet a student’s unique educational needs may be provided in a variety of settings. Instructional settings may include (a) general education classroom with accommodations, (b) general education classroom with support, (c) resource classroom, (d) self-contained classroom, or (e) a separate campus. Related services necessary for the student to benefit from special education may also be provided.

Summer School, Correspondence Courses and Credit by Exam (CBE)
Students who have failed one or more classes may make up credits lost by attending summer school, taking correspondence courses, or credit by exam. Correspondence courses and credit by exams must be ordered through the counseling office. Correspondence courses do not require previous instruction. More information regarding Credit by Exams can be found on page 9 of this guide. Students who wish to have more information on any of the above should contact their counselor.

Top 10% Program (Excluding University of Texas at Austin)
Top students are eligible for automatic admission to any public university in Texas. Under House Bill 588 passed by the 75th legislature in 1997, students who are in the top ten percent of their graduating class are eligible for automatic admission to any public university in Texas.*

To be eligible for automatic admission, a student must:

- Graduate in the top 10 percent of his/her class at a public or private high school in Texas on the recommended or distinguished diploma program.**
- Enroll in college no more than two years after graduating from high school; and
- Submit an application to a Texas public university for admission before the institution’s application deadline. Since deadlines vary, please check with the specific university to verify the application deadline. Application deadlines are FIRM deadlines. A student missing a deadline is usually denied admission.
Students deficient in admission requirements MAY be required to take enrichment courses before being admitted

**The law states that class rank shall be based on the end of 11th grade, middle of 12th grade, or at high school graduation, whichever is most recent when the application is completed.

Top 9% and 8% to Receive Automatic Admission (University of Texas at Austin ONLY)
The University of Texas at Austin recently reported to the Texas Education Agency (TEA) that it will automatically admit students in the top 9% of their high school classes to summer/fall 2012 and to spring 2013 and the top 8% of their high school classes of summer/fall 2013 to spring 2014; remaining spaces will be filled through holistic review. Students and parents wanting more information should visit: http://bealonghorn.utexas.edu/freshmen/after-you-apply/automatic-admission.

THEA
THEA is a state mandated placement test for Texas public colleges and universities. Effective in the fall 1998, the Texas Legislature requires that all first-time college students take the THEA test prior to the first day of college classes. THEA is given six to eight times a year and registration bulletins are available in the guidance center or sign up at www.thea.nesinc.com. Students may be exempt from THEA with an:

- ACT composite score of 23 with a minimum of 19 on both the mathematics and English tests or;
- SAT score of 1070 in critical reading and math combined with a minimum of 500 on each of the mathematical and critical reading tests or;
- TAKS Exit-level score of at least 2200 in math and 2200 in ELA, with a score of 3 or higher on the writing test.

TEXAS Grant
The state legislature established the TEXAS (Towards Excellence, Access and Success) Grant to make sure that well-prepared high school graduates with financial need could go to college. For more information: http://collegeforalltexas.com/index.cfm?ObjectID=E81912E0-DF96-53C5-8EE1C469C7298F15.

Who can apply? Students who...

For an initial award

- Are Texas residents
- Have not been convicted of a felony or crime involving a controlled substance
- Show financial need
- Estimated EFC (estimated family contribution) less than or equal to $4,000
- Register for Selective Service or are exempt from this requirement

AND

- Be a graduate of an accredited high school in Texas not earlier than the 1998-99 school year
- Complete the Recommended High School Program or Distinguished Achievement Program in high school
- Enroll in a non-profit public college or university within 16 months of graduation from a public or accredited private high school in Texas and
- Have accumulated no more than 30 semester credit hours, excluding those earned for dual or concurrent courses awarded for credit by examination (AP, IB or CLEP)

Or

- Have earned an associate degree from a public technical, state or community college in Texas and
- Enroll in any public university in Texas no more than 12 months after receiving their associate’s degree.

Students entering the program from high school who continue in college and who meet program academic standards can receive awards for up to 150 semester credit hours, until they receive a bachelor’s degree, or for five years if enrolled in a 4-year degree plan or six years if enrolled in a 5-year degree plan, whichever comes first.

How can you apply?
You apply for the TEXAS Grant when you complete and submit the Free Application for Federal Student Aid (FAFSA) or other application as required by your college’s financial aid office. Funding is limited, so you need to submit your application as soon as possible after January 1 of your senior year. The financial aid office at each college and university will determine if TEXAS Grant is part of the aid package that is offered to you.
ACT and SAT
Registration packets for the SAT® and ACT® are available in the guidance center. Students should see their counselor for help in determining which test to take. Students should plan to take their admissions test in the spring of their junior year. The tentative test dates for the 2012-2013 school year are:

<table>

Cost: SAT $50 ACT with Writing $49.50 / without Writing $34

Register online at: www.collegeboard.com (SAT®) www.act.org (ACT®)

School codes are as follows:
CHS 442-633  FHS 442-635  LHS 445-579  WHS 442-602
HHS 442-488  LHSH 442-638

PSAT/NMSQT
The Preliminary SAT/National Merit Scholarship Qualifying Test is a multiple choice standardized test administered by the College Board and National Merit Scholars Corporation (NMSC). The PSAT will be given on October 17th to all Freshmen, Sophomores, and Juniors.

SAT and ACT Prep:
FISD students (grades 9-12) have access to online tutoring through their Family Connection/Naviance system. Students will receive log in instructions from their campus. With both SAT Method and ACT Method, students can listen to a professional tutor explain the concepts and questions that they are struggling with, without reading through pages of intimidating text. Students get immediate feedback and a complete explanation for every practice question. Each student’s performance is tracked and strengths and weaknesses are clearly indicated. Counselors and parents can see where students need to focus their study time. Since SAT Method and ACT Method are available on-line, students have access from any Web-enabled computer, making it easy for them to study when it’s most convenient.

With SAT Method and/or ACT Method, students can:

- Hear audio explanations of test questions
- Complete full-length practice tests
- Read easy explanations to every question
- Receive valuable test-taking tips
- Access their courses on an unlimited, 24x7 basis, from any Web-enabled computer
- Access strategy guides for each test
- Receive hundreds of practice questions
- Track their strengths on each test
- Take practice quizzes to boost their knowledge

PLAN
The PLAN (ACT’s College Readiness Test for 10th graders) is a comprehensive guidance resource that helps students measure their current academic development, explore career/training options, and make plans for the remaining years of high school and post-graduation years. As a “pre-ACT” test, PLAN is a powerful predictor of success on the ACT. Sophomores are encouraged to sign up for and take the PLAN (practice ACT).

AP Exam Dates
AP exams will be administered May 6, 2013 - May 17, 2013.

PRE-AP and Advanced Placement Program

What is the Pre-AP/AP® Program?
The Pre-AP/AP® Program allows students to participate in college preparatory courses and college level courses while still in high school. Secondary schools and colleges cooperate in this program to give students the opportunity to show mastery in college level courses by taking AP exams in May of each school year. With successful completion of an AP exam, many colleges will issue college credit. If a student scores a 3, 4 or 5, FISD will reimburse up to $50 of the registration fee.
What are the advantages of my student taking Pre-AP/AP courses?
The main advantage of taking a Pre-AP/AP® course is better preparation for college. Students who take AP exams may receive college credit while still in high school, saving both time and money. Because the AP curriculum is standardized across the nation, colleges and universities look favorably on students who have completed this course work, as they understand the depth and breadth of these challenging courses. Selected universities may expect to see AP course work on a transcript. Students planning to apply to highly competitive colleges and universities are encouraged to take full advantage of PreAP and AP course offerings.

Who can enroll in a Pre-AP/AP® course?
Any student can enroll in a Pre-AP or AP®course. Students should consider their grades in prior course work, teacher recommendations and achievement levels on PSAT, PLAN, or other standardized tests when making decisions on the Pre-AP and AP® program. Counselors can help students make informed decisions on the appropriate level course work, but admission is open to any student who chooses to take a Pre-AP or AP® class. Students are cautioned to choose their classes carefully and to pay attention to their overall class load and extra-curricular load.

* Minimum Plan *

**Science--two credits.** The credits must consist of Biology and Integrated Physics and Chemistry (IPC). A student may substitute a chemistry credit (Chemistry, AP Chemistry, or IB Chemistry), or a physics credit (Physics, Principles of Technology, AP Physics, or IB Physics) and then must use the second of these two courses as the academic elective credit.

**Social studies--three credits.** Two of the credits must consist of United States History Studies Since 1877 (one credit), United States Government (one-half credit), and Economics with Emphasis on the Free Enterprise System and Its Benefits (one-half credit). The final credit may be selected from the following courses: (A) World History Studies and (B) World Geography Studies.

**Academic elective--one credit.** The credit must be selected from World History Studies, World Geography Studies, or science course(s) approved by the State Board of Education (SBOE) for science credit as found in Chapter 112 of the Texas Administrative Code. If a student elects to replace IPC with either Chemistry or Physics, the academic elective must be the other of these two science courses. A student may not combine a half credit of either World History Studies or World Geography Studies with a half credit from another academic elective course to satisfy the academic elective credit requirement.

* Minimum Plan =
**Science—two credits.** The credits must consist of Biology and Integrated Physics and Chemistry (IPC). A student may substitute a chemistry credit (Chemistry, AP Chemistry, or IB Chemistry), or a physics credit (Physics, Principles of Technology, AP Physics, or IB Physics) and then must use the second of these two courses as the academic elective credit.

**Social studies—three credits.** Two of the credits must consist of United States History Studies Since 1877 (one credit), United States Government (one-half credit), and Economics with Emphasis on the Free Enterprise System and Its Benefits (one-half credit). The final credit may be selected from the following courses: (A) World History Studies and (B) World Geography Studies.

**Academic elective—one credit.** The credit must be selected from World History Studies, World Geography Studies, or science course(s) approved by the State Board of Education (SBOE) for science credit as found in Chapter 112 of the Texas Administrative Code. If a student elects to replace IPC with either Chemistry or Physics, the academic elective must be the other of these two science courses. A student may not combine a half credit of either World History Studies or World Geography Studies with a half credit from another academic elective course to satisfy the academic elective credit requirement.
Important Information Regarding Graduation Plans:

- Per state requirements, students are required to complete the Recommended Plan or Distinguished Achievement Plan. Students opting for the Minimum Plan will need the permission of their parent, counselor and administrator.
- Algebra I taken in middle school for high school credit will count as one of the four courses required for math.

Minimum High School Program (MHSP)

- A student, the student’s parent or other person standing in parental relation to the student, and a school counselor or school administrator must agree in writing signed by each party that the student should be permitted to take courses under the MHSP. A student must also satisfy one of three criteria in order to opt into the MHSP: be at least 16 years of age; have completed two credits required for graduation in each subject of the foundation curriculum; or have failed to be promoted to Grade 10 one or more times.
- A student who was permitted to take courses under the MHSP prior to the 2009-10 school year may remain in the MHSP.
- If an admission, review, and dismissal committee makes decisions that place a student with a disability on a modified curriculum in a subject area, the student will be automatically placed in the minimum high school program.
- A student who is unable to participate in physical activity due to disability or illness may substitute an academic elective credit (English language arts, mathematics, science, or social studies) for the physical education credit requirement. Your counselor can provide more information on the process for determination regarding a student’s ability to participate in physical activity.

Recommended High School Program (RHSP)

- The phase-out of Integrated Physics and Chemistry (IPC) was removed allowing students on the RHSP to continue to take IPC as one of the science credits if IPC is successfully completed prior to chemistry and physics. Students on the RHSP must complete a biology credit, a chemistry credit, and a physics credit.
- Three of the four math credits must consist of Algebra I, Algebra II, and Geometry. Mathematical Models with Applications can only be used as a fourth math credit if successfully completed prior to Algebra II.
- A student who is unable to comply with all of the requirements for a P.E. course due to a physical limitation certified by a licensed medical practitioner may still earn a RHSP diploma if the student demonstrates proficiency in the relevant knowledge and skills that do not require physical activity as part of a modified P.E. course. Your counselor can provide more information on the process for determination regarding a student’s ability to participate in physical activity.

Distinguished Achievement Program (DAP)

- Students must complete three credits of the same foreign language
- IPC is not an option for science credit
- Three of the four math credits must consist of Algebra I, Algebra II, and Geometry.
- Students must complete any four measures from any combination of the three advanced measures listed below:
  - Original research/project
  - Test performance on A.P. exams or PSAT
  - College course work in which a grade of B or higher is earned, including Tech-Prep courses.
- Complete explanations of each of the advanced measures can be obtained from the guidance office.
- A student who is unable to comply with all of the requirements for a P.E. course due to a physical limitation certified by a licensed medical practitioner may still earn a DAP diploma if the student demonstrates proficiency in the relevant knowledge and skills that do not require physical activity as part of a modified P.E. course. Your counselor can provide more information on the process for determination regarding a student’s ability to participate in physical activity.
**Graduation Requirements**

Beginning with the freshmen class of 2010 and beyond, FISD will require the ½ credit of Health and the 1 credit in a Technology course. Students will obtain 1 credit of Physical Education.

Students who entered high school before 2010 will graduate under the previous requirements of ½ credit of Health, 1 credit of Technology applications, and an additional ½ credit of Physical Education (1.5 total).

Below is a link to correspondence from the Texas Education Agency regarding changes to graduation requirements.

[http://ritter.tea.state.tx.us/taa/stanprog012510.html](http://ritter.tea.state.tx.us/taa/stanprog012510.html)

FISD officials feel that the additional requirements are necessary because the Health and Tech Apps TEKS are not addressed in any other subjects and information important to high school students is contained in both courses. The district also believes it is important to transition any graduation requirement changes with the incoming freshman class rather than changing requirements mid-stream with students who have already entered high school. This is how graduation requirements have been handled in the past.

**TxVSN**

Senate Bill 1788 (2007) established a state virtual network to provide supplemental online courses for Texas students. The Texas Education Agency (TEA) offers state-supported online learning opportunities to students across the state through the Texas Virtual School Network (TxVSN) using a network approach that works in partnership with districts. Students interested in taking a course through TxVSN should contact their home campus counselor for information on steps for enrollment. The cost of a TxVSN courses vary according to the course selection.

Frisco Independent School District

Distinguished Achievement Program

What is DAP?
The Distinguished Achievement Program, or DAP, recognizes outstanding student performance that goes beyond what is typically expected of high school students. In addition to meeting the requirements of the recommended plan and completing a third year of a foreign language, DAP requires that students meet a combination of four advanced measures. These advanced measures allow students to demonstrate performance at the college level or work equivalent to that done by professionals in the arts, sciences, business, industry, or in community service.

The Advanced Measures

The four measures or components of the DAP come from a combination of the following:

- Original Research/Project
- Test Data
- College Courses (Dual Credit or Technical Dual Credit Courses)

Note that no more than two of the measures can be achieved through Original Research Projects. For a college course to be included one must earn at least a grade of an 80 in that course.

Original Research/Project

Independent Study and Mentorship (ISM) taught in FISD provide students with the opportunity to complete this measure.

- Under the direction of a mentor, the student conducts original research/product that is reported to an appropriate audience.
- The research/product is judged by a panel of professionals in the field that is the focus of the project.
- The research/product is related to the required curriculum set forth in the subject area TEKS.

Test Data

- The student receives a score of 3 or above on any advanced placement exam.
- The student earns a PSAT score that qualifies the student for recognition as a commended scholar or higher by the National Merit Scholarship Corporation, as part of the National Hispanic Scholar Program or as part of the National Achievement Scholarship Program for Outstanding Negro students.

AP Course Offerings

- Art History
- Biology
- Calculus AB & BC
- Chemistry
- Computer Science A
- Economics - Macro
- English Language
- English Literature
- Environmental Science
- European History
- French Language
- German Language
- Government-US
- Music Theory
- Physics-B & C
- Psychology
- Spanish Language & Literature
- Statistics
- Studio Art
- US History
- World History

College Courses

The student successfully completes a college dual, concurrent credit course, or technical dual credit course with a grade of B or better, or completes an articulated CTE for articulated credit with a grade of B or better. These courses are subject to change each year. See your counselor for information on which classes count.
