CONFIDENCE IN LIMITED SPACE
STRAUMANN® NARROW NECK CrossFit®

COMMITTED TO
SIMPLY DOING MORE
FOR DENTAL PROFESSIONALS
APPLICATIONS

The Straumann® Narrow Neck CrossFit® Standard Plus Implant System can be placed in the anterior and premolar area for all different types of restorations. No splinting with other implants needed.
1. CONFIDENCE WHEN PLACING SMALL DIAMETER IMPLANTS

- Roxolid® material
- SLActive® surface

Due to the strength of the Roxolid® material, it was possible to design an implant with a narrow prosthetic platform and an internal connection while achieving a high mechanical strength level of 230 N*.

- Straumann® Narrow Neck CrossFit®, 3.3 mm Roxolid®
- Straumann® Titanium Abutment
- Straumann® Bone Level NC, 3.3 mm Roxolid® and Straumann® Anatomic Abutment

2. WIDE RANGE OF TREATMENT OPTIONS

Comprehensive prosthetic options due to narrow 3.5 mm prosthetic platform with internal connection

3. SIMPLICITY IN DAILY USE

- Integrated soft tissue management through machined collar
- Self-guiding CrossFit® connection at soft tissue level
- New Transfer Piece with snap-fit connection to implant

*Fatigue strength according to ISO 14801 internal tests, data on file (B679A/B567A)
2. WIDE RANGE OF TREATMENT OPTIONS

The Straumann® Narrow Neck CrossFit® Standard Plus Implant System offers a wide range of treatment options:
- Single tooth, partially and fully edentulous solutions
- Screw-retained and cement-retained restorations
- It supports the implant-level and abutment-level impression workflow

3. SIMPLICITY IN DAILY USE

The Straumann® Narrow Neck CrossFit® Standard Plus Implant System is a Soft Tissue Level implant designed to save time and increase efficiency in your practice.
- **Lean prosthetic** portfolio supported by the implant design with integrated soft tissue management.
- Take advantage of the **easy accessibility** to the implant by working at soft tissue level.
- Release the **New Transfer Piece** without using the holding key.
