The earliest years of childhood are critical. Experiences during this time literally shape the structure of the brain. Because today’s children are tomorrow’s leaders, parents, and workers, everyone has a stake in making sure that all children have the experiences they need to thrive. Smart Start brings together all the people involved in a young child’s life—families, teachers, doctors, caregivers, social workers and many others—to ensure every child has all they need for healthy growth and development.

This guide is funded primarily by Smart Start. Smart Start is North Carolina’s nationally recognized and award-winning early childhood initiative designed to ensure that young children enter school healthy and ready to succeed.

An Introduction

Our Mission Statement:
Stokes Partnership for Children (SPC) strives to improve those elements of family and community life in Stokes County that promote the learning, development potential, and well-being of young children through a partnership of families, communities and businesses.

SPC is a non-profit organization, 501(c)(3), led by local volunteers, designed to provide programs and services for families and children in Stokes County.

Stokes Partnership for Children

♦ Is primarily known for administering Smart Start & More at Four funds

♦ Has multiple funding streams including private donations and grants

♦ Was designed to work within the existing infrastructure already in place

♦ Was designed to work in collaboration with community support

SPC is a catalyst for bringing different groups together for the sake of young children, educates the community on the critical needs of young children and helps develop solutions.

Since 1999, AMERICORPS AND CHILDREN TOGETHER (ACT), a program of Stokes Partnership for Children, has been “Getting Things Done” for children in North Carolina. ACT combines the AmeriCorps national service program with North Carolina’s Smart Start initiative. ACT serves young children by placing AmeriCorps members in childcare settings as Early Childhood Education Assistants. The ACT program was designed to assist with the need for teacher education and the enhancement of quality childcare, for children birth to five. ACT does this by: 1) training AmeriCorps members in child development and early childhood education; 2) utilizing members as substitute teachers, thereby providing regular teachers/providers with release from the classroom to pursue coursework in early childhood education; and 3) utilizing members as assistant teachers as a means to reduce the high teacher-child ratios and provide additional resources to care providers.

The AmeriCorps members receive a modest living allowance for providing these services, and an Education Award. As well, the program provides tuition for ACT members to enroll in college courses and earn NC Early Childhood Credentials I & II.

Choosing Quality Child Care

If you are a parent who is seeking child care for a young child, choosing quality care is one of the most important decisions you will ever make for your child.

Some questions to consider:

Is the program licensed by the Division of Child Development or Nationally Accredited?

Do they have a Star Rating? 1 star facilities meet minimum licensing requirements. A 2 - 5 star rating means the facility meets higher program standards and higher staff education levels.

Ask about the training, education and experience of staff.

What is the program’s philosophy?

Do they provide a safe and clean environment that ensures the health and safety of the children?

Is the staff interaction nurturing, warm and caring?

What is the staff to child ratio? Is it low enough so that there are enough staff to supervise all of the activities of the children?

Do they provide an age appropriate, fun learning environment that promotes the social, emotional, physical and intellectual development of children?

Is there an “open door” policy that encourages parent and family involvement?

Are there nutritious meals and snacks provided for the children?

Parents can use the NC Division of Child Development’s website to find information about licensed facilities at: www.ncchildcare.net

“We worry about what a child will be tomorrow, yet we forget that he is someone today.”

Because there are no physical scars, children exposed to violence are often forgotten, or even ignored.

Domestic violence happens in families of all social and economic levels.

Domestic violence always gets WORSE, and can result in suicide or homicide.

Children are present in half the homes where police are called because of domestic violence. Some have been abused.

Children in violent homes feel responsible for the abuse, suffer constant anxiety or worry about being abandoned.

They may experience cognitive or language problems, developmental delay, stress-related physical ailments and hearing and speech difficulties.

Boys who witness domestic violence are more likely to batter their female partners as adults than boys raised in non-violent homes.

Approximately 15 states have already passed legislation that presence of physical violence should affect child custody decisions.

Children are either on the scene or directly involved in over 50% of documented domestic violence situations.

Domestic violence hits ONE in THREE families in our country.

Behavioral patterns learned by children in violent home situations affect their daily lives, often the adulthood.

Children who try to prevent a parent from being battered are at a greater risk of being hurt themselves.

Only ONE in TEN acts of domestic violence is ever reported.

The Winston-Salem Children's Developmental Services Agency (CDSA) is part of a state-wide early intervention program that serves children with developmental delays from birth to age 3. Anyone in the community, including parents, may refer a child if he is concerned about a child's developmental skills.

Concerns may include:
- Difficulty learning to sit or crawl
- Toddlers not walking or talking
- Problems with eating
- Medical conditions, including prematurity, that may affect skills
- Concerns about overall development

The Winston-Salem CDSA offers free evaluations and, for those who qualify, service coordination to assist a family with reaching their child's highest potential. The agency also provides service coordination to families whose babies need to remain in the hospital following their birth. If you have questions about your child's development or would like to refer a child for services, please call our intake coordinator, Libby Hendrix, at 336-713-7412.
Head Start serves children ages 3 to 5 years old to prepare them for Kindergarten and works with the family to promote self-sufficiency. Child medical and dental services are included and transportation as feasible. Operational hours are 8:00 to 2:30 Monday through Friday. All services are free and families must meet federal income guidelines to qualify.

A vocational training facility and workshop serving adults with developmental and other disabilities, including mental, physical, and emotional disabilities. Offers compensatory education services through partnership with Forsyth Technical Community College. Participants have the opportunity to build or enhance work skills and develop a plan for employment in the community. Staff work one-on-one to help individuals achieve their employment and personal goals. Offers opportunities to participate in community life, including taking trips to community resources, visiting local and regional attractions, and dining out. Participants who are interested in volunteering are matched with local agencies needing volunteers, and the Center also offers volunteer opportunities for individuals who may wish to volunteer within the Center. Transportation to and from the workshop may be available for a minimal fee. Provides information and referral for other community resources, such as counseling, legal services, financial assistance, and other information for people with disabilities.
