COMPANY PROFILE
Brief Introduction
Econ Contracting LLC an established local company dealing with electro-mechanical works for the residential, commercial and industrial buildings and the related MEP services for the infrastructure related projects.

Econ Contracting LLC is supported by a consolidated team of specialized dedicated engineers and a committed management with a collective experience of over and above fifteen years in this country, in various aspects of engineering procurement and construction.

We have qualified and fully trained technicians with hands on experience in the local construction industry, MEP services in particular.

Our engineers are licensed and approved in Dubai Municipality and other govt. authorities like DEWA, SEWA and MEW.
We believe in keeping our client’s interest on top priority and we extend our commitment in making our client’s views into reality keeping in mind all the finest details involved in the process.

We emphasize our commitment to complete the project within the target dates, in full compliance with the contract requirements. We are also committed to the safety and environmental regulations of UAE, and to implement such policies in our projects.

With a stringent quality policy and consistent drive to provide an excellent service to all our clients, *Econ Contracting LLC* is ready to take up more challenges and consolidate its position as one of the major MEP service contractor in the region.
