WAECO CFX Fridge/freezers
THE NEXT GENERATION PORTABLE FRIDGE

The new WAECO CFX fridge/freezer range is the result of many years of research and product development. We have taken your feedback into account to develop a fridge that is tough enough to endure the harshest Australian environments. We know if it will perform there, it will perform anywhere and in any situation.

WAECO CFX provides extreme cooling performance and energy efficiency. All five models have generous internal capacities, combined with substantial insulation thickness all round - lid, sides and bottom. They are equipped with rugged features like strong latches, hinges, drop down handles, and innovative technology such as the new genuine WAECO compressor and upgraded VMSO (Variable Motor Speed Optimisation).

So whether you use it for 4WDriving, camping, fishing, for extended holidays enjoying this vast country, or just for a day trip or for the daily chores – with WAECO CFX, you can go anywhere!
WACEO CFX range of compressor fridge/freezers for refrigeration or deep-freezing with CFX VMSO2 electronics

Class leading WAECO CFX System
- Fully hermetic WAECO ACV20DC compressor with integrated control electronics
- Low voltage protection adjustable for leisure and starter battery via electronic system
- Electronic fuse/automatic reverse pole protection
- Dynamically ventilated wire tube condenser
- Aluminium rollbond evaporator

Unbeatable range of quality features
- Detachable lid
- Interior light
- CFX VMSO2 electronics with soft start and turbo cooler
- USB port
- 4 point M6 nutserts in base

Energy efficient genuine WAECO compressor with integrated AC electronics

The genuine WAECO compressor is a result of a significant R&D investment. It has been designed with input from Dometic WAECO engineers in order to fulfil performance requirements based on the Australian climate, usage and road conditions. The WAECO electronics via VMSO2 are matched to support the extreme (-22 °C) capability and also contribute to the power efficiency of the WAECO CFX.

VMSO Mk2

Variable Motor Speed Optimisation provides fast and efficient cooling or freezing

The unique VMSO Mk2 technology in the WAECO CFX range ensures optimal compressor speed according to the set temperature. Building on VMSO first deployed in the WAECO CF range, the upgraded VMSO Mk2 provides an even softer start for the compressor. It now takes the compressor turbo speed to higher RPM than before until set temperature is reached, after which the speed drops back to economy mode. For very cold freezer set temperatures, the compressor remains at turbo speed after the soft start. This technology is extremely effective in all weather conditions, especially when hot. Benefits include even faster and more energy efficient cooling with reduced wear and tear on the compressor.

WAECO CoolFreeze CF
LARGE CAPACITY FRIDGE/FREEZERS

By popular demand, a single zone CF-80 model has been added to the CF range. Whilst the CF-80DZ dual zone configuration model is still available, you can now choose from the single fridge or freezer model, or dual zone model that cools and freezes at the same time.

POWERFUL & DURABLE
EVEN AT EXTREME TEMPERATURES

The WAECO CoolFreeze CF-80, CF-80DZ and CF-110 models are designed for Australian conditions, delivering high performance cooling or freezing even in blistering heat, whilst keeping its cool even in areas with high fluctuating temperatures. These models owe their efficiency to the integrated AC and VMSO technology, which is unique to WAECO.

» Lockable digital control thermostat “Set & Forget” - Smart electronics do the work for you
» Built-in battery protection - No flat batteries
» No dual battery required - Suitable for vehicles with a single battery
» Built-in 240 volt - No external adapter needed
» VMSO (Variable Motor Speed Optimisation) - Faster cooling / Efficiently maintains the temperature / Less wear and tear
» Flush mounted evaporator plate - Easy to clean
» Interior LED light - Shuts off when the lid is closed
» Reinforced wire basket with divider - Easy to stack and protects the evaporator plate

COMPRESSOR TECHNOLOGY

Compressor cooling appliances work with a CFC-free refrigerant that changes from liquid to gas as it flows through the evaporator. In the process the evaporator extracts heat from the refrigeration compartment – it’s getting cold. The compressor draws in the gaseous refrigerant, compresses it and passes it on to the condenser. Here, the absorbed heat is released to the atmosphere. The refrigerant changes to the original liquid state and flows back to the evaporator, where the cycle starts again.

» Excellent cooling performance even at extreme outside temperatures
» Refrigeration and deep-freezing
» Minimal power consumption
» Ideal for solar operation

GREAT PACKAGE DEAL
WAECO ACCESSORIES
RANGE OF GENUINE WAECO ACCESSORIES

Does the need for outdoor adventure take you over rough terrain at times? Go ahead, as the insulated protective cover allows your fridge/freezer to take on any challenge. The cover protects from moisture, dust and dirt. It also provides effective insulation, improving the cooling capacity and therefore the energy consumption even further.

WAECO CFX INSULATED PROTECTIVE COVERS

BENEFITS OF PROTECTIVE COVERS

Protects against heat

→ Extra insulation against strong sunshine or extreme outside temperatures
→ Saves battery power, improves overall efficiency

Protects against excessive movement

→ Eyelets for securing your fridge firmly in a vehicle

Practical features

→ Top flap split to suit reversible lid opening on CFX-35, CFX-40, CFX-50, CFX-65, CFX-65DZ
→ Top flap swings open with lid on CFX-35, CFX-40
→ Open panels for handles and connection plugs
→ Protects against dirt, dust & sand. Keeps your fridge like new in harsh Australian conditions
→ Protects against moisture and water splashes For use on yachts, boats or open vehicles

Materials

→ Sides and top made from high quality silver-grey Oxford nylon fabric
→ Bottom and ends made from hard-wearing rubber coated nylon
→ Interior insulation lining of aluminium coated polyester
→ Sturdy zips for easy fitment

Weight

→ 1.5 to 2 kg

Colour

→ Sides: Silver grey. Lid and base: Black

Quality features

→ Detachable lid and base, outside pockets to store small items, four fixing rings to secure safely in the vehicle
WAECO CFX IN-VEHICLE INSTALLATION SOLUTIONS

If you are travelling on corrugated roads, having your fridge restrained with a fixing kit is a safe option and helps the fridge travel with the suspension of the vehicle. The accessories range also features fridge slides, for more convenient access to the fridge in your vehicle.

WAECO CFX Fixing kit
Suits all CFX (Also suits CF-35, CF-40, CF-50, CF-50DZ, CF-60, CF-80, CF-80DZ, & CF-110)

<table>

**WAECO CFX WIRELESS DISPLAY**

The wireless display shows the internal temperature of the fridge from a distance. It also shows the voltage protection level set, and has adjustable alarm limits that enable an audible warning if the temperature rises or the battery gets low.

- **Wireless operation (2.4GHz) - range up to 15 m**
- **Displays:** fridge temperature, fridge power source, battery protection setting, alarm setting
- **Temperature alarm setting - 2 levels, audible & visual alarm**
- **Backlit display (when 12/24 V DC connected)**
- **Dual power source: AAA batteries (included)**
- **1.8 m lead/cigarette & plug 12/24 volt**

**Dimensions (W x H x D)**: 66 x 85 x 23 mm
**Weight**: 0.1 kg

**Product Ref. No**
- WAECO CFX Wireless display: CFX-WD

---

**WAECO CoolFreeze Fridge stand**

Portable fridge stand

**2 height positions**
- H450 x D330 mm & H310 x D450 mm (± 20 mm).

**Quality features**
- Strong aluminium frame, folds up easily and compact, one adjustable foot, supports up to 80 kg, comes with storage bag

**Product Ref. No**
- CoolFreeze Fridge Stand: AC-FridgeStand

---

**WAECO Universal fixing kit**

**Material**: Powder coated metal
**Colour**: Black

**Product Ref. No**

---

**WAECO CoolPower RAPS12R-U2**

12 volt fridge power wiring kit - heavy duty to suit all WAECO compressor fridge/freezers

Highly recommended for replacement of standard vehicle cigarette lighter sockets which are often inadequate to properly run fridges due to thin wiring and associated voltage drops. One kit does all. This truly universal unit is packed with the following features:

- **Compact design for internal mounting in the rear of vehicle**
- **6 metres of heavy duty 6 mm cable**
- **Switchable between constant power for running portable fridge and on/off with engine for battery charging**
- **Even in “constant power” mode, cuts out at very low vehicle battery voltage to protect the battery**
- **Choice of socket-heavy duty hella style and cigarette type both built in**
- **Fuse and installation kit with snap action mounting plate included**

**Product Ref. No**
- CoolPower RAPS12R-U2: RAPS12R-U2
**COOLPOWER BATTERY SOLUTIONS**

**WAECO CoolPower RAPS36**

WAECO battery pack for compressor fridge/freezers

- Heavy duty 12 volt remote power.
- Dimensions: W230 x H245 x D227 mm
- Weight: 13.6 kg
- Genuine deep-cycle AGM battery cells
- Cigarette and hella output sockets
- Digital volts display
- Battery condition LED's/test button

**WAECO CoolPower RAPS72 KIT**

Cradle for two battery packs

- Get twice the convenience of remote battery power with the RAPS 72 KIT. Combines two CoolPower 36 batteries to provide a generous 72 amp hours of power for those longer stays. Ideal for your CF-80 or CF-110 fridge.
- Sturdy powder coated steel cradle
- Positive location lugs
- Connection lead

**WAECO Portable solar PS80 and PS120**

Portable folding solar panel kit - 12 volt, PS80: 80 watt, PS120: 120 watt

WAECO solar panels are an alternative power source you can use to charge your batteries. They have an inbuilt 10 amp heavy duty voltage regulator and have adjustable feet so that you can direct them towards the sun throughout the day and come in 80 and 120 watt sizes.

- High performance monocrystalline silicon
- 12 volt, 10 amp heavy duty regulator
- Battery temperature sensor
- 5 m lead with alligator clips and anderson plug connector
- Adjustable feet - for optimum angle to the sun
- Folds up easily and compact
- Comes with protective carry bag

WAECO COOL-ICE
ROTOMOULDED ICEBOXES

WAECO Cool-Ice iceboxes will keep your ice frozen for days and are perfect for the BBQ, the picnic, around the pool or even on a camping trip. WAECO Cool-Ice iceboxes hold large amounts of ice and frozen goods for long periods and are ideal for continuous exposure to weather, especially on boats. Also for use in trucks, camping areas, BBQs, poolside, sports games and outdoor parties.

- Designed for optimal performance / weight / volume balance
- Strong, ergonomic polyethylene handles (WCI-42 and up)
- Integrated polyethylene feet & large diameter drain plug
- Thick polyurethane refrigeration grade foam insulation
- Strong nylon latches with stainless steel fixing screws
- Fully integrated hinges with stainless steel rods
- Strong, seamless, UV stabilised/food grade polyethylene CFC free construction
- Lightweight, hygienic & easy to clean
- Extremely low heat absorption
- Integrated tie-down points
- Largest service network and 5 year warranty Australia wide

A SIZE FOR EVERYONE

WAECO BORDBAR THERMOELECTRIC COOLERS
LOW-COST, LIGHT-WEIGHT, VERSATILE

Thanks to their light weight, thermoelectric coolers are particularly easy to carry and transport. Their cooling capacity of up to 20 °C below the ambient temperature is sufficient for most purposes, including car journeys, camping or picnics.

WAECO’s range of thermoelectric coolers utilise wear and maintenance free technology and can be used for both cooling and heating. They are cost-efficient, reliable and are the perfect sized portable coolers.

Mobility, performance and convenience – these are the hallmarks of the WAECO CoolPro series. State-of-the-art thermoelectrics make for outstanding cooling results up to 30 °C below the ambient temperature. Add to this all the useful features and functions: 12/24/240 volts DC/AC as standard, individual temperature regulation with LED display and memory function, plus more. At the touch of a button the coolers (+1 °C to +15 °C) can be turned into warmer boxes (+50 °C to +65 °C). WAECO CoolPro – the comfort class of thermoelectric refrigeration.

**Product Benefits of the CoolPro Series**

- **Highly effective insulation** - Outstanding performance efficiency
- **Dynamic interior ventilation** - Significantly improved cooling performance
- **Brushless motor fans** - Long service life
- **Intelligent power-save circuit** - Electronics switch automatically to power-save mode once the desired interior temperature has been reached
- **12/24/240 volts as standard** - With priority circuit for 240 volts
- **Heat exchanger and high-performance Peltier element** - Cooling performance up to 30 °C below ambient temperature
- **Magnetic switch** - Switches the interior fan off when you open the cooler
- **Universal fixing kit** - (optional for TC-14FL and TC-21FL)

**Contents, specifications and availability are subject to change due to the technical improvement.**

3-WAY ABSORPTION COOLERS

COOLING WITH 12 VOLT, 240 VOLTS & LPG

Silent and truly mobile, absorption coolers give camping enthusiasts all the freedom they need. Gas operation in a remote field, convenient 240 volt hook-up at the campsite, power supply from the 12 volt socket in cars or motorhomes – anything is possible! Switch-over from one energy mode to another in a jiffy! Whether LPG, 12 or 240 volts, the refrigeration system adjusts to suit your needs – Cooler and fridge/freezer models available.

HOW ABSORPTION COOLING WORKS

A solution of ammonia and water are heated in the boiler causing the ammonia to be driven off as a vapour. The vapour is condensed to liquid and fed into the evaporator where it combines with hydrogen and evaporates, thereby digesting heat. The mixture of ammonia and hydrogen then passes through the absorber where the ammonia is absorbed back into the water. The re-combined water and ammonia is then returned to the boiler so the process can continue.

Refrigerator & freezer
Enjoy the comforts of home even when you are away with WAECO’s family of 240 volt adapters and inverters.

Ideal for running your 12 volt WAECO fridge on 240 volt mains, laptops and other low power products on 12 volt from your vehicle and batteries.

**WAECO CoolPower EPS-817**

240 volt adapter

**240 volts mains connection, 12 volt 6 amp**

Required for the connection of listed DC compressor driven fridge/freezers. Suitable also for all other 12 volt thermoelectric coolers or as a universal power unit via the integrated cigarette lighter socket. Ideal for use at home, in the hotel, at the campsite, in the weekend home, etc.

**WAECO CoolPower MPS-50**

240 volt adapter

For problem free connection to 110 to 240 volt mains systems. Suitable for all WAECO compressor models.

---

WAECO PerfectPower PP RANGE
Modified sine wave inverters turn 12 volt battery voltage into 240 volt AC.

**Quality features**
- Surge and short-circuit-proof
- Reverse polarity protection by means of replaceable fuse
- Can be activated/deactivated using external switch
- Individually adjustable clip on mounts
- High and low voltage shutdown, polarity protection fuse
- PP 152 with cigarette lighter plug

DOMETIC SANITATION

HOME LIKE COMFORT

Small, but a big performer!
Handy and space saving, the 970 series adds hygienic comfort to your recreational vehicle or when enjoying the outdoors.
Many sensible functions are contained in the smallest possible space to ensure you can enjoy home like comfort when travelling.

DOMETIC 970 Series
Space saving portable toilets with 360° pressurised flush.

- Ingenious disposal system: extra long, pivoting spout and vent openings for clean, splash-free discharge
- 8.7 litre flush water tank – sufficient for 27 flushes
- Useful accessories: spare tanks, fixing kit

→ Safety through overfill protection and tank level indicator
→ Push button control for powerful flushing with less pumping
→ Extra strong 360° pressure flush for effective cleaning
→ Portable toilet in two sizes

THE UNIQUE DOMETIC CARE HYGIENE SYSTEM

FOR YOUR MOBILE TOILET

The Dometic Care product range is synonymous with cleanliness in every micro pore and the result of innovative research. Perfectly compatible products for the removal of stains and toilet odours – as effective as necessary, as gentle on the environment as possible and completely user friendly in the process.

DOMETIC PowerCare
Highly effective additive for the waste holding tank. Breaks down waste and prevents unpleasant odours.

- Packed in soluble film
- Just 1 tab per full tank
- For all portable toilets
- Space-saving packaging
- Content: 16 tabs

Product Ref. No
DOMETIC POWER CARE TABS 9107200149

DOMETIC GreenCare
Highly effective environmentally friendly tab for the waste holding tank. Breaks down waste and prevents unpleasant odours.

- Powerful and environmentally friendly
- Packed in soluble film
- Just 1 tab per full tank
- For all portable toilets
- Space-saving packaging
- Content: 16 tabs

Product Ref. No
DOMETIC GREEN CARE TABS 9107200150

DOMETIC ExtraCare
Fluid additive for the flush water tank. Can be used on its own or in combination with other Dometic sanitation products.

- Cleans and protects
- Protects the rubber seals
- Creates a smoother flush
- Prevents stains and scaling
- Reduces the build-up of scale
- Integrated deodoriser adds a pleasant fragrance
- Micro-thin protective layer facilitates cleaning of the toilet bowl

Product Ref. No
DOMETIC ExtraCare, 1.5 litre 9107200001

DOMETIC PowerCare
Highly effective fluid additive for the waste holding tanks. Breaks down waste into liquid and prevents unpleasant odours.

- Indispensable for winter campers
- Simple dosing with measuring strip
- Remains effective after freezing and thawing
- Breaks down waste to facilitate disposal
- Prevents the emergence of gas and unpleasant odours in the holding tank

Product Ref. No
DOMETIC PowerCare, 1.5 litre 9107200002

DOMETIC SpecialCare
Ecologically compatible fluid additive for the waste holding tanks. Waste can be disposed at almost every campsite.

- Pleasant, fresh scent
- Outstanding odour protection
- Facilitates waste storage and discharge
- Remains effective after freezing and thawing
- Eco-friendly – awarded with ecological hallmark

Product Ref. No
DOMETIC SpecialCare, 1.5 litre 9107200003
WAECO PowerVac PV-100

The handy vacuum cleaner comes complete with integrated battery – no need for an external power supply. It is strong enough to get rid of ground-in dirt. Even liquids are no problem for the combined wet-and-dry cleaner. It doesn’t require much room for storage. Small and compact, the handy gadget slots in to the boot or vehicle interior, the garage or the storeroom.

Features & functions

→ Handy, battery-powered vacuum cleaner for mobile use in cars, motorhomes, caravans, boats and home
→ Maximum mobility with rechargeable 12 volt battery
→ Can be recharged from 12 and 240 volts
→ Easy to clean dust container and fabric filter
→ Cleaning power: 400 mm water column

Motor

12 volts DC, 28,000 rpm

Battery

12 volts DC, 2.6 Ah

Operating time

Approx. 18 min ± 10%

Charging time

10 to 14 h (automatic cut-off)

Capacity

3.8 litres

Power consumption

Approx. 90 watts

Cleaning power

Approx. 400 mm water column (± 10%)

Operating temperature

0 °C to +40 °C

Material

Handle: ABS; Filter: polyester; Dust container: PP

Dimensions (W x H x D)

270 x 320 x 198 mm

Weight

2.15 kg

Scope of delivery

Vacuum cleaner, hose, attachments for upholstery, rugs and narrow gaps, carrying strap, mains adapter, 12 volt charging cable, operating instructions.

Scope of delivery

Fixing kit for wall or desk mounting

Quality features

Robust relay technology, switches off automatically when the boiling temperature has been reached or when there’s no water in the kettle, status indication
DOMETIC VACUUM SEALER
12/240 VOLT

The new lightweight, low profile Dometic Vacuum sealer keeps food fresh up to five times longer than refrigeration alone. It runs on both 12V DC and 240V AC power, ideal for home or on the road.

- 12/240 volt
- Keeps food fresh up to 5 times longer*
- Locks in flavour, colour and nutrition
- Eliminate freezer burn & wasted food
- For outdoor and indoor use
- Maximise fridge & freezer space
- Manual and automatic vacuum sealing
- **W380 x H83 x D152 mm**

* Various factors, including freshness of food prior to vacuum sealing, traces of contaminants, storage temperature and humidity may affect the storage life of food.

DOMETIC ORIGO 5100

This all rounder is not only an effective source of heat but also an excellent stove for cooking. Great for the caravan, boat or camping.

- **Burning time** approx 6 to 8 hours
- **Number of burners** 1
- **Burner capacity** 1500 watts per canister
- **Boiling time** approx. 10 minutes for 1 litre of water
- **Tank capacity** 1.2 litres
- **Dimensions** Ø280 x H290 mm
- **Weight** 3 kg

MILENCO
EUROPE’S LEADING MANUFACTURER OF AWARD WINNING CARAVAN PRODUCTS

Milenco produce a range of quality products specially designed for the caravanning market. Milenco mirrors have been designed to offer superior vision and a vibration free view. Milenco levels are available in different sizes and ideal for soft ground. The Milenco level indicator is designed for fast easy levelling and the new Milenco Ball weight gauge gives you a precise ball weight even after 1000 uses.

MILENCO AERO EXTRA WIDE MIRRORS
The mirror head design (registered design) utilises airflow around your car to stabilise and balance the mirror head at speed. This mirror has been extensively tested at speeds up to 250 km/h (155 m/ph), to ensure that you get the best vision possible. This design also offers superior performance in high winds and the effect of passing large commercial vehicles has been minimised.

MILENCO GRAND AERO EXTRA WIDE MIRRORS
The Grand aero mirror offers all the benefits of the original Aero mirror, plus the maximum view possible, combined with very high stability.

The head is the largest ever used on a caravan towing mirror and has been specifically designed to be extremely stable. The shape enables you to see far past your caravan and cars in all three lanes on the highway.

MILENCO LEVEL INDICATOR GAUGE
Level indicator for Quattro and Triple levels. Use this clever gauge for fast and easy levelling. Simply place on the caravan floor to instantly see which step to use on your Milenco Triple or Quattro level for instant levelling.

## MILENCO LEVELS

### MILENCO TRIPLE LEVEL
This is the tallest (160 mm) 3 step level ever made. The level incorporates lattice, high-grip upper tread surface. They pocket the wheel at every height eliminating the need for chocks. They also have a solid base to stop sinking on soft ground.

### MILENCO QUATTRO LEVEL
We are very proud of the light weight innovative (patent pending) registered design. This gets over all of the problems using conventional levels on soft ground, but more importantly, it’s twice as high as conventional plastic levels, which are never quite high enough.

### MILENCO T1 MINI LEVEL
The Milenco T1 levels are lightweight with an intelligent design, featuring 50% base surface area and 50% top surface area. The Milenco levels are ideal to use on softer grounds or sand. Extra wide and heavy duty, the Milenco level incorporates a lattice and a high-grip upper tread surface, pocketing the wheel at every height.

### MILENCO T2 MIDI LEVEL
The Milenco T2 levels are lightweight with an intelligent design, featuring 50% base surface area and 50% top surface area. The Milenco levels are ideal to use on softer grounds or sand. Extra wide and heavy duty, the Milenco level incorporates a lattice and a high-grip upper tread surface, pocketing the wheel at every height.

### MILENCO BALL WEIGHT GAUGE
Milenco Precision calibrated ball weight gauge has been manufactured using unique materials so its calibration remains accurate even after 1000 uses. The scale goes up to 400 kg enabling you to have a reliable and accurate reading, helping to ensure you travel safely.

Ideal for calculating the ball weight on:
- Single and twin axle caravans
- Camper trailers
- Off road camper vans/trailers
- Trailers
- Horse floats
- Boat trailers

### MILENCO COMPACT WHEEL CLAMP
The Milenco Compact wheel clamp is a unique and innovative design with an integrated locking mechanism and winding handle. Simply turn the winding handle to clamp onto the wheel.

Fits wheels from 12” - 16” up to 225 tyre size in alloy or steel. Comes complete with adaptors to fit wheels with either small or large wheel nuts.

Fitted with superior quality lock and high security key system. A foam backing is on the wheel clamp to protect your alloy wheels.
- Supplied with a carry case
- 2 x high security keys

**2 x high security keys**
NEW! DOMETIC PerfectWall & PerfectRoof Box awnings are compact and lightweight and come in various lengths to suit most RV, vehicle and camper applications. Engineered with extra strong arms and supports for optimal fabric tension and resistance against wind.

Available in manual and optional integrated 12 volt motor (with manual override) on some models.

SUPERIOR QUALITY FABRIC

Designed with UV resistant 3 ply polyester reinforced vinyl fabric with waterproof welded rope seams. The Dometic Box awnings are rot proof and can be put away damp without fear of damaging the fabric. Available in horizon grey and blue fabric colours, with white or anthracite grey casings.

Wall & roof mount manual or 12 volt retractable arms

- 12 volt or manual operation with telescopic crank
- Solid retractable arms to provide optimal tension & resistance against wind
- Fabric is 13 oz. 3-ply polyester reinforced vinyl in horizon blue and grey
- Corrosion resistant powder coated profile in white or anthracite grey

DOMETIC PerfectWall 1000

- Robust wall mounted awning
- Projection 2.5 m
- Plastic end caps
- 3 - 4 m lengths

DOMETIC PerfectRoof 2000

- Lightweight roof mounted awning
- Projection of 2.5 m
- Plastic end caps
- 3 - 4 m lengths

DOMETIC PerfectWall 1500

- Robust wall mounted awning
- Projection of 2 - 2.5 m
- Aluminium end caps
- 2.6 - 6 m lengths

DOMETIC PerfectRoof 2500

- Robust roof mounted awning
- Projection of 2.5 m
- Aluminium end caps
- 3.5 - 5.5 m lengths

COLOURS The colour in this chart should be used as a guide only. For exact fabric colour, see your Dometic dealer.
