ONE HUNDRED AND NINETY-SEVENTH SESSION

FALL 2008

June 23  M  Clerkship year for third-year students begins, 8 a.m.
Aug. 4–15  M–F  Registration for third- through fifth-year students, 9 a.m.–4:30 p.m.
Aug. 26  T  Matriculation for first-year students, 8–11 a.m.
Sept. 2  T  First term begins for first- and second-year students
Sept. 2–12  T–F  Registration for second-year students, 9 a.m.–4:30 p.m.
Nov. 24–30  M–SU  Fall recess for first- and second-year students
Dec. 6  SA  Winter recess begins for third- and fourth-year students
Dec. 20  SA  Winter recess begins for first- and second-year students

SPRING 2009

Jan. 5  M  Winter recess ends, 8 a.m.
        Clerkships begin for third- and fourth-year students
        Second term begins for first- and second-year students, 8:30 a.m.
Jan. 5–16  M–F  Registration for all students, 9 a.m.–4:30 p.m.
Jan. 19  M  Martin Luther King, Jr. Day. No classes
Mar. 13  F  Spring recess begins, 5 p.m. (No recess for students on clinical rotations)
Mar. 23  M  Spring recess ends, 8 a.m.
Apr. 10  F  Good Friday. No classes
Apr. 24  F  Second term ends for second-year students, 5 p.m.
May 22  T  Student Research Day. No afternoon classes for first-year students
May 22  F  Second term ends for fourth-year students, 5 p.m.
May 25  M  University Commencement
        Memorial Day
June 5  F  Second term ends for first-year students, 5 p.m.
June 19  F  Clerkship year for third-year students ends, 5 p.m.
The President and Fellows of Yale University

President
Richard Charles Levin, B.A., B.Litt., Ph.D.

Fellows
Her Excellency the Governor of Connecticut, ex officio
His Honor the Lieutenant Governor of Connecticut, ex officio
George Leonard Baker, Jr., B.A., M.B.A., Palo Alto, California
Edward Perry Bass, B.S., Fort Worth, Texas
Roland Whitney Betts, B.A., J.D., New York, New York
Peter Brendan Dervan, B.S., Ph.D., San Marino, California (June 2014)
Donna Lee Dubinsky, B.A., M.B.A., Portola Valley, California
Mimi Gardner Gates, B.A., M.A., Ph.D., Seattle, Washington (June 2013)
Paul Lewis Joskow, B.A., Ph.D., Locust Valley, New York
Jeffrey Powell Koplan, B.A., M.D., M.P.H., Atlanta, Georgia (June 2009)
Margaret Hilary Marshall, B.A., M.Ed., J.D., Cambridge, Massachusetts (June 2010)
William Irwin Miller, B.A., M.B.A., Columbus, Indiana (June 2011)
Indra Nooyi, B.S., M.B.A., M.P.P.M., Greenwich, Connecticut
Barrington Daniels Parker, B.A., LL.B., Stamford, Connecticut
Fareed Zakaria, B.A., Ph.D., New York, New York
The Officers of Yale University

President
Richard Charles Levin, B.A., B.Litt., Ph.D.

Provost
Andrew David Hamilton, B.Sc., Ph.D., F.R.S.

Vice President and Secretary
Linda Koch Lorimer, B.A., J.D.

Vice President and General Counsel
Dorothy Kathryn Robinson, B.A., J.D.

Vice President for New Haven and State Affairs and Campus Development
Bruce Donald Alexander, B.A., J.D.

Vice President for Development
Ingeborg Theresia Reichenbach, Staatsexamen

Vice President for Finance and Administration
Shauna Ryan King, B.S., M.B.A.
Administration and Faculty

General Administration
As one of the coordinate schools of the University, the general administration of the School of Medicine is conducted in accordance with the bylaws of the Yale Corporation. The affairs of the School are under the direction of the dean and the faculty, subject to the approval of the Corporation.

Board of Permanent Officers
Ex Officio: President Richard C. Levin, Provost Andrew D. Hamilton, Dean Robert J. Alpern, Ms. Marna P. Borgstrom

Administration
Richard C. Levin, B.A., B.Litt., Ph.D., President of the University
Andrew D. Hamilton, Ph.D., Provost of the University
Robert J. Alpern, M.D., Dean of the School of Medicine
Paul D. Cleary, Ph.D., Dean of Public Health
Cynthia L. Walker, M.B.A., CPA, Deputy Dean for Finance and Administration
Richard Belitsky, M.D., Deputy Dean for Education
David J. Leffell, M.D., Deputy Dean for Clinical Affairs
Carolyn W. Slayman, Ph.D., Deputy Dean for Academic and Scientific Affairs
Linda C. Mayes, M.D., Special Adviser to the Dean
Nancy R. Angoff, M.D., M.P.H., M.Ed., Associate Dean for Student Affairs
Linda K. Bockenstedt, M.D., Director, Faculty Development and Equity
Carrie P. Capezzone, M.B.A., Assistant Dean for Finance
James P. Comer, M.D., M.P.H., Associate Dean for Student Progress
Penrhyn E. Cook, M.P.H., Executive Director, Grants and Contracts
Lynn Cooley, Ph.D., Director, Combined Program in the Biological and Biomedical Sciences
Robert Dubrow, M.D., Associate Dean of Public Health for Academic Affairs
Michael H. Ebert, M.D., Associate Dean for Veterans’ Affairs
Rosemarie L. Fisher, M.D., Associate Dean for Graduate Medical Education
John N. Forrest, M.D., Director, Office of Student Research
Jancy L. Houck, M.A., Associate Vice President for University Development and Director of Medical Development and Alumni Affairs
Mary J. Hu, M.B.A., Director of Institutional Planning and Communications
Anna Maria L. Hummerstone, M.H.A., Director of Human Resource Services
James D. Jamieson, M.D., Ph.D., Director, M.D./Ph.D. Program
Brian P. Leaderer, Ph.D., M.P.H., Deputy Dean of Public Health
Forrester A. Lee, M.D., Assistant Dean for Multicultural Affairs
Regina K. Marone, M.L.S., Director, Medical Library
Carolyn M. Mazure, Ph.D., Associate Dean for Faculty Affairs
Laura R. Ment, M.D., Associate Dean for Admissions
Pamela J. Nyiri, M.A., Director, Office of Financial Aid
Anne F. Pistell, M.B.A., Associate Dean for Student Affairs for Epidemiology and Public Health
Sara C. Rockwell, Ph.D., Associate Dean for Scientific Affairs
Richard A. Silverman, Director, Office of Admissions
Terri L. Tolson, Registrar for Student Affairs
Jacqueline L. Tucker, M.B.A., Director, Operations Management
Ronald J. Vender, M.D., Associate Dean for Clinical Affairs
Mary L. Warner, M.M.Sc., P.A.-C., Assistant Dean, Physician Associate Program
Merle Waxman, M.A., Associate Dean and Ombudsperson
Faculty

Gisella Weissbach-Licht, Director, Office of Education
George Zdru, B.Arch., Director, Capital Program

Faculty*

Robert M. Aaronson, M.D., Assistant Clinical Professor of Medicine
Sumaira Z. Aasi, M.D., Assistant Professor of Dermatology
Khalid M. Abbed, M.D., Assistant Professor of Neurosurgery
Nadia Abdala, Ph.D., Associate Research Scientist in Epidemiology (Microbial Diseases)
Sonya A. Abdel-Razeq, M.D., Instructor in Obstetrics, Gynecology, and Reproductive Sciences
George G. Abdelsayed, M.D., Assistant Clinical Professor of Medicine
Vitaly Ablamunits, Ph.D., Associate Research Scientist in Immunobiology
Clara Abraham, M.D., Assistant Professor of Medicine (Digestive Diseases)
I. Willard Abrahams, M.D., Clinical Professor of Ophthalmology and Visual Science (Otolaryngology)
Clara Abraham, M.D., Assistant Professor of Medicine (Digestive Diseases)
Vikki M. Abrahams, Ph.D., Assistant Professor of Obstetrics, Gynecology, and Reproductive Sciences
Ali K. Abu-Alfa, M.D., Associate Professor of Medicine (Nephrology)
Maysa M. Abu-Khalaf, M.B.B.S., Assistant Professor of Medicine (Medical Oncology)
Denise Acampora, M.P.H., Lecturer in Medicine (Geriatrics)
Angelo J. Accomando, M.D., Assistant Clinical Professor of Medicine
Lynn Acton, M.S., Lecturer in Surgery (Otolaryngology)
Edward A. Adelberg, Ph.D., Professor Emeritus of Genetics
Ron A. Adelman, M.D., M.P.H., Associate Professor of Ophthalmology and Visual Science
Abby C. Adis, M.S.W., Assistant Clinical Professor of Psychiatry
Jean Adnopoz, M.P.H., Clinical Professor in the Child Study Center
Stephen E. Adolfsen, M.D., Instructor in Orthopaedics and Rehabilitation
Natalie Adsuar, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Amir A. Afkhami, M.D., Ph.D., Lecturer in Public Health (Global Health)
Hervé F. Agaissie, Ph.D., Assistant Professor of Microbial Pathogenesis
Seema Agarwal, Ph.D., Associate Research Scientist in Pathology
George K. Aghajanian, M.D., Foundations Fund Professor of Psychiatry
Elliot D. Agin, M.D., Assistant Clinical Professor of Medicine
Joseph V. Agostini, M.D., Assistant Professor of Medicine (Geriatrics)
Samuel K. Agulian, Ph.D., Associate Research Scientist in Neurology
Munir Ahmad, Ph.D., Assistant Clinical Professor of Therapeutic Radiology
Ramin Ahmadi, M.D., Assistant Clinical Professor of Medicine and Lecturer in Nursing
Deane Aikins, Ph.D., Assistant Professor of Psychiatry
Olukemi T. Akande, M.B.B.S., Clinical Instructor in Medicine

*The faculty listings reflect appointments as of April 15, 2008.
Maysa Akbar, Ph.D., M.S., Associate Research Scientist in the Child Study Center
Edward W. Akeyson, M.D., Ph.D., Clinical Instructor in Neurosurgery
Shamsuddin Akhtar, M.D., Assistant Professor of Anesthesiology
Serap Aksoy, Ph.D., Professor of Epidemiology (Microbial Diseases)
Latha Alaparthi, M.B.B.S., Lecturer in Medicine
Ronald A. Albright, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
Jonathan Alexander, M.D., Clinical Professor of Medicine
Louis Alexander, Ph.D., Lecturer in Epidemiology (Microbial Diseases)
Macrene R. Alexiades-Armenakas, M.D., Ph.D., Assistant Clinical Professor of Dermatology
Francis D. Alfano, M.D., Assistant Clinical Professor of Medicine
Sandra Alfano, Pharm.D., Associate Research Scientist in Medicine and Assistant Clinical Professor of Nursing
Ronan G. Ali, M.D., Clinical Instructor in Medicine
Oluremi Aliyu, M.D., M.P.H., Clinical Instructor in Medicine (Occupational Medicine)
Harris M. Allen, Ph.D., Lecturer in Public Health (Health Policy)
Henry A. Allen, M.D., Assistant Clinical Professor in the Child Study Center
Jonathan C. Allen, M.D., Clinical Instructor in the Child Study Center
Patrick B. Allen, Ph.D., Assistant Professor of Psychiatry
Joel Allison, Ph.D., Associate Clinical Professor of Psychiatry
Truett Allison, Ph.D., Professor Emeritus of Neurology
Heather G. Allore, Ph.D., Research Scientist in Medicine (Geriatrics)
Ahmad M. Almai, M.D., Assistant Clinical Professor of Psychiatry
Robert J. Alpern, M.D., Ensign Professor of Medicine (Nephrology) and Dean of the School of Medicine
Meenakshi Alreja, Ph.D., Associate Professor of Psychiatry and Neurobiology
Shawnette A. Alston, M.D., Clinical Instructor in Medicine
Jeffrey N. Alter, M.D., Assistant Clinical Professor of Dermatology
Frederick Altice, M.D., Associate Professor of Medicine (AIDS)
Mark P. Altman, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation
Kristy L. Altony-Magee, M.A., Lecturer in Medicine
Victor A. Altshul, M.D., Associate Clinical Professor of Psychiatry
John D. Alvaro, Ph.D., Lecturer in Psychiatry
Ayesha Alvero, M.D., Associate Research Scientist in Obstetrics, Gynecology, and Reproductive Sciences
Patrick M. Alvino, M.D., Clinical Instructor in Pediatrics
Arun P. Amar, M.D., Assistant Clinical Professor of Neurosurgery
Joseph A. Amatruda, Psy.D., M.P.H., Assistant Clinical Professor of Psychiatry
Paul T. Amble, M.D., Assistant Clinical Professor of Psychiatry
Mona M. Amer, Ph.D., Assistant Clinical Professor of Psychiatry
Lirim Ameti, M.D., Clinical Instructor in Medicine
Yaw Amoateng-Adjepong, M.D., Ph.D., M.P.H., Assistant Clinical Professor of Medicine
Elaine Anderson, Lecturer in Public Health
Erin J. Anderson, O.D., Clinical Instructor in Ophthalmology and Visual Science
Frederic P. Anderson, M.D., Associate Clinical Professor of Pediatrics
George M. Anderson, Ph.D., Research Scientist in the Child Study Center and Laboratory Medicine
John F. Anderson, Ph.D., Lecturer in Epidemiology (Microbial Diseases)
Karen S. Anderson, Ph.D., Professor of Pharmacology
Robert J. Anderson, M.D., Assistant Clinical Professor of Pediatrics
Warren A. Andiman, M.D., Professor of Pediatrics (Infectious Disease) and Epidemiology (Microbial Diseases)
Theodore G. Andreadis, Ph.D., Lecturer in Epidemiology (Microbial Diseases)
Liva Andrejeva, M.D., Assistant Professor of Diagnostic Radiology
Raquel C. Andres-Hyman, Ph.D., Assistant Professor of Psychiatry
Norma W. Andrews, Ph.D., Professor of Microbial Pathogenesis and Cell Biology
Vincent A. Andriele, M.D., Professor Emeritus of Medicine (Infectious Diseases)
Luis M. Anez, Psy.D., M.S., Associate Professor of Psychiatry
Gino Ang, M.D., Assistant Professor of Anesthesiology
Steven J. Angelo, M.D., Assistant Clinical Professor of Medicine
Nancy R. Angoff, M.D., M.P.H., Associate Professor of Medicine (General Medicine)
Ronald Angoff, M.D., Clinical Professor of Pediatrics and in the Child Study Center
Greg R. Angstreich, M.D., Clinical Instructor in Medicine (Medical Oncology)
Eduardo Anhalt, M.D., Assistant Clinical Professor of Medicine
Richard J. Antaya, M.D., Associate Professor of Dermatology, Pediatrics, and Nursing
Joseph R. Anthony, M.D., Associate Clinical Professor of Medicine
Danielle E. Antin-Ozerkis, M.D., M.S.C.E., Assistant Professor of Medicine (Pulmonary)
Muhammad Anwar, M.D., Assistant Professor of Anesthesiology
Walter R. Anyan, M.D., Professor Emeritus of Pediatrics
Rima T. Aouad, M.D., Assistant Professor of Anesthesiology
Catherine E. Apaloo, M.B.Ch.B., Assistant Clinical Professor of Medicine
Michael Apkon, M.D., Ph.D., M.B.A., Associate Clinical Professor of Pediatrics and Associate Professor, School of Management
James A. Appiah-Pippim, M.P.H., M.B.Ch.B., Assistant Clinical Professor of Medicine
Laleh Ardeshirpour, M.D., Associate Research Scientist in Pediatrics (Endocrinology)
William H. Arend, M.S., Lecturer in Medicine
Vivian S. Argento, M.D., Clinical Instructor in Medicine
Aydin M. Arici, M.D., Professor of Obstetrics, Gynecology, and Reproductive Sciences
Melih H. Arici, M.D., Assistant Professor of Diagnostic Radiology
Stephan Ariyan, M.D., Clinical Professor of Surgery (Plastic)
Thomas J. Arkins, M.D., Assistant Clinical Professor of Neurosurgery
Martine Y. Armstrong, M.D., M.B.B.S., Professor Emeritus of Epidemiology (Microbial Diseases)
Kenneth A. Arndt, M.D., Clinical Professor of Dermatology
Catharine A. Arnold, M.D., Assistant Clinical Professor of Medicine (Rheumatology)
Linda D. Arnold, M.D., Assistant Professor of Pediatrics (Emergency Medicine)
Amy F. T. Arnsten, Ph.D., Professor of Neurobiology and Psychology
Steven Aronin, M.D., Assistant Clinical Professor of Medicine
Jeffrey A. Arons, M.D., Clinical Instructor in Surgery (Plastic)
Marvin Arons, M.D., Clinical Professor of Surgery (Plastic)
Peter S. Aronson, M.D., C.N.H. Long Professor of Medicine (Nephrology) and Professor of Cellular and Molecular Physiology
Jagriti Arora, M.S., Lecturer in Diagnostic Radiology
Jill F. Arthur, M.D., Assistant Professor of Anesthesiology
John E. Aruny, M.D., Associate Professor of Diagnostic Radiology and Surgery (Vascular)
Antonios Arvelakis, M.D., Assistant Professor of Surgery (Transplant)
Patrick Asiedu, Ph.D., Assistant Clinical Professor of Medicine
Antonio Asis, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Maria C. Asis, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Philip W. Askenase, M.D., Professor of Medicine (Immunology)
Mihaela Aslan, Ph.D., Associate Research Scientist in Medicine (General Medicine)
Harry R. Aslanian, M.D., Assistant Professor of Medicine (Digestive Diseases)
Andrea G. Asnes, M.D., Assistant Professor of Pediatrics (General Pediatrics)
Jeremy D. Asnes, M.D., Assistant Professor of Pediatrics (Cardiology)
Sherif I. Assaad, M.B.B.Ch., Assistant Clinical Professor of Anesthesiology
Michal Assaf, M.D., Assistant Professor (Adjunct) of Psychiatry
Anna Maria D. Assevero, M.D., Clinical Instructor in Medicine
David I. Astrachan, M.D., Assistant Clinical Professor of Surgery (Otolaryngology)
Robert S. Astur, Ph.D., Assistant Professor (Adjunct) of Psychiatry
Charles Atkins, M.D., Lecturer in Psychiatry
Henry H. Atkins, M.D., Clinical Instructor in Medicine
Stephen R. Atkins, M.D., Ph.D., Assistant Clinical Professor of Psychiatry
Stephen A. Atlas, M.D., Associate Clinical Professor of Medicine (General Medicine)
Colin E. Atterbury, M.D., Professor Emeritus of Medicine (Digestive Diseases)
Andrew V. Atton, M.D., Assistant Clinical Professor of Dermatology
Nabil A. Atweh, M.D., Associate Clinical Professor of Surgery (Trauma) and Nursing
Robert D. Auerbach, M.D., Associate Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Susan G. Austin, Sc.D., Lecturer in Epidemiology (Chronic Diseases)
Nikolai Avdievich, Ph.D., M.S., Associate Research Scientist in Neurosurgery
John M. Aversa, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation and of Nursing
Kristen R. Aversa, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Orly Avitzur, M.D., Instructor in Neurology
Abraham Avni-Singer, M.D., Assistant Clinical Professor of Pediatrics and in the Child Study Center
Ravit Avni-Singer, M.S.W., Clinical Instructor in the Child Study Center (Social Work)
Seth R. Axelrod, Ph.D., Assistant Professor of Psychiatry
Alfredo L. Axtmayer, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation
Diane D. Aye, Ph.D., M.P.H., Lecturer in Epidemiology (Environmental Health)
Chakib Ayoub, M.D., Assistant Clinical Professor of Anesthesiology
Masoud Azodi, M.D., Associate Professor of Obstetrics, Gynecology, and Reproductive Sciences
Darron A. Bacal, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Joachim M. Bachring, M.D., Associate Professor of Neurology and Neurosurgery
Mert O. Bahtiyar, M.D., Assistant Professor of Obstetrics, Gynecology, and Reproductive Sciences
Fengwei Bai, Ph.D., M.S., Associate Research Scientist in Medicine (Infectious Diseases)
Jun-Ping Bai, Ph.D., M.S., Associate Research Scientist in Neurology
Elizabeth Bailey, M.D., Clinical Instructor in Pediatrics
Karyn F. Bailey, M.S.W., Lecturer in the Child Study Center
Margaret Bailey, M.S.W., Clinical Instructor in Psychiatry (Social Work)
Scott Bailey, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
Bradley Baker, Ph.D., Associate Research Scientist in Cellular and Molecular Physiology
C. B. Baker, M.D., Assistant Clinical Professor of Psychiatry
Dorothy I. Baker, Ph.D., Research Scientist in Medicine (Geriatrics)
Kenneth E. Baker, M.D., Assistant Professor of Diagnostic Radiology
Suher Baker, D.M.D., Clinical Instructor in Surgery (Dental)
Suganthi Balasubramanian, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
Thomas J. Balcezak, M.D., Assistant Clinical Professor of Medicine (General Medicine) and Lecturer in Public Health (Health Policy)
Allen E. Bale, M.D., Professor of Genetics
Kathleen M. Balestracci, Ph.D., M.S.W., Associate Research Scientist in the Child Study Center
Samuel A. Ball, Ph.D., Associate Professor of Psychiatry
Jennifer Ballew, D.O., Assistant Clinical Professor of Psychiatry
Rosemary M. Balsam, M.B.B.Ch., Associate Clinical Professor of Psychiatry
Andrew L. Balter, M.D., Assistant Clinical Professor of Psychiatry
Robert S. Baltimore, M.D., Professor of Pediatrics (Infectious Disease) and Epidemiology (Microbial Diseases)
Kenneth J. Bansiaiak, M.D., Assistant Professor of Pediatrics (Critical Care)
Jill M. Banatoski, M.D., Assistant Clinical Professor of Medicine (Geriatrics)
Subhashis Banerjee, M.B.B.S., Clinical Instructor in Medicine (General Medicine)
Lakshmi Bangalore, Ph.D., Lecturer in Neurology
Lydia A. Barakat, M.D., Assistant Clinical Professor of Medicine
Madelon Baranoski, Ph.D., M.A., M.S.N., Associate Professor of Psychiatry
Paul G. Barash, M.D., Professor of Anesthesiology
Charles M. Barber, M.F.A., Lecturer in Psychiatry
Leonard G. Barbieri, M.S., Lecturer in the Child Study Center
Paul A. Barcewicz, M.D., Assistant Clinical Professor of Surgery (Gastroenterology)
Bernard J. Barile, Ph.D., Clinical Instructor in the Child Study Center
Mark Barnes, LL.M., J.D., Lecturer in Medicine
Colin J. Barnstable, D.Phil., Professor (Adjunct) of Ophthalmology and Visual Science
Roland Baron, Ph.D., D.D.S., Professor of Orthopaedics and Rehabilitation and Cell Biology
Linda C. Barr, M.D., Assistant Clinical Professor of Psychiatry
Kathleen M. Barrett, M.S.W., Clinical Instructor in the Child Study Center (Social Work)
Peter W. Barrett, M.D., Clinical Instructor in Surgery (Trauma)
Sharon H. Barrett, M.D., Assistant Clinical Professor of Dermatology
Michael V. Barrios, Ph.D., Assistant Clinical Professor of Psychiatry
Colleen L. Barry, Ph.D., Assistant Professor of Public Health (Health Policy)
Declan Barry, Ph.D., Associate Research Scientist in Psychiatry
Lisa C. Barry, Ph.D., Associate Research Scientist in Epidemiology (Chronic Diseases)
Michele Barry, M.D., Professor of Medicine (General Medicine) and Public Health (Global Health)
Richard J. Barse, M.D., Assistant Clinical Professor of Medicine
Linda M. Bartoshuk, Ph.D., Professor Emeritus of Surgery (Otolaryngology)
Carol A. Bascom-Slack, Ph.D., Lecturer in Molecular Biophysics and Biochemistry
Susan J. Baserga, M.D., Ph.D., Professor of Molecular Biophysics and Biochemistry, Therapeutic Radiology, and Genetics
William P. Batsford, M.D., Professor of Medicine (Cardiology)
Carl R. Baum, M.D., Associate Professor of Pediatrics (Emergency Medicine)
Raymond P. Baumann, Ph.D., Associate Research Scientist in Pharmacology
Michael R. Baumgartner, M.D., Professor of Orthopaedics and Rehabilitation
Alexander Baumgarten, Ph.D., M.B.B.S., Professor Emeritus of Laboratory Medicine
Laura A. Bayer, Ph.D., M.S., Assistant Clinical Professor of Psychiatry
Alia Bazzi-Asaad, M.D., Associate Professor of Pediatrics (Respiratory)
Diana Beardsley, M.D., Ph.D., Associate Professor of Pediatrics (Hematology/Oncology) and Medicine (Hematology)
G. Peter Beardsley, M.D., Ph.D., Professor of Pediatrics (Hematology/Oncology)
John E. Beauvais, Ph.D., Assistant Professor of Psychiatry
Kirsten A. Bechtel, M.D., Associate Professor of Pediatrics (Emergency Medicine)
Bonnie R. Becker, Ph.D., Assistant Clinical Professor of Psychiatry
Eileen Becker-Dunn, M.S., Assistant Clinical Professor of Psychiatry (Social Work) and in the Child Study Center (Social Work)
Charles B. Beckman, M.D., Clinical Instructor in Surgery (Cardiac)
Andrew Bedford, M.D., Assistant Clinical Professor of Medicine
Luis E. Bedregal, Ph.D., Assistant Professor of Psychiatry
Robert D. Beech, M.D., Ph.D., Assistant Professor of Psychiatry
Douglas E. Befroy, D.Phil., Associate Research Scientist in Medicine (Endocrinology)
Farzana Begum, M.D., Lecturer in Psychiatry
Kevin L. Behar, Ph.D., Associate Professor of Psychiatry
Rebecca S. Behrends, Ph.D., Assistant Clinical Professor of Psychiatry
Harold R. Behrman, Ph.D., Professor of Obstetrics, Gynecology, and Reproductive Sciences and Pharmacology
Malcolm S. Beinfeld, M.D., Associate Clinical Professor of Surgery (Gastroenterology)
Mark Beitel, Ph.D., Assistant Clinical Professor of Psychiatry
Amenevu M. Bekui, M.D., M.P.H., Assistant Clinical Professor of Medicine
Kathleen Belanger, Ph.D., Research Scientist in Epidemiology (Chronic Diseases)
Richard Belitsky, M.D., Harold W. Jockers Associate Professor of Psychiatry and Deputy Dean for Education
Michele L. Bell, Ph.D., Assistant Professor of Environmental Health and of Epidemiology and Public Health
Morris D. Bell, Ph.D., Professor of Psychiatry
Robert L. Bell, M.D., Assistant Professor of Surgery (Gastroenterology)
Chyrell D. Bellamy, Ph.D., M.S.W., Assistant Clinical Professor of Psychiatry
Stefania Bellone, Ph.D., Associate Research Scientist in Obstetrics, Gynecology, and Reproductive Sciences
Alexia A. Belperron, Ph.D., Associate Research Scientist in Medicine (Rheumatology) and Lecturer in Molecular Biophysics and Biochemistry
Joseph Belsky, M.D., Clinical Professor of Medicine (Endocrinology)
Claudia C. Bemis, M.D., Assistant Clinical Professor of Psychiatry
Jeffrey R. Bender, M.D., Robert I. Levy Professor of Medicine (Cardiology) and Professor of Immunobiology
Morton Bender, M.D., Associate Clinical Professor of Medicine (Digestive Diseases)
Stuart H. Bender, M.D., Assistant Clinical Professor of Dermatology
Susan E. Bender, M.S.W., Assistant Clinical Professor of Psychiatry (Social Work)
Daniel E. Bendor, M.D., Assistant Clinical Professor of Psychiatry
Andrea L. Benin, M.D., Associate Research Scientist in Pediatrics (General Pediatrics)
Anton M. Bennett, Ph.D., Associate Professor of Pharmacology
Michael C. Bennick, M.D., Associate Clinical Professor of Medicine
Kevin L. Bentley, Ph.D., Associate Research Scientist in Epidemiology (Microbial Diseases)
Rudolf K. Beran, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
Richard S. Bereik, M.D., Assistant Professor of Obstetrics, Gynecology, and Reproductive Sciences
David N. Berg, Ph.D., Clinical Professor of Psychiatry
Gerald R. Berg, M.D., Associate Clinical Professor of Diagnostic Radiology
Carole L. Berger, Ph.D., Research Scientist in Dermatology
Eric H. Berger, M.D., Assistant Clinical Professor of Psychiatry (Social Work)
Scott B. Berger, M.D., Assistant Clinical Professor of Diagnostic Radiology
Rachel L. Bergeron, Ph.D., J.D., Assistant Clinical Professor of Psychiatry
Theresa Bergherr, M.D., Assistant Clinical Professor of Psychiatry
Keri T. Bergquist, Psy.D., Associate Research Scientist in Psychiatry
Clifford A. Berken, M.D., Assistant Clinical Professor of Medicine
Miriam Berkman, J.D., M.S.W., Assistant Clinical Professor in the Child Study Center (Social Work)
Turgut Berkmen, M.D., Assistant Clinical Professor of Diagnostic Radiology
Steven J. Berkowitz, M.D., Assistant Professor in the Child Study Center
Kieve M. Berkwits, M.D., Associate Clinical Professor of Pediatrics
Gretchen K. Berland, M.D., Assistant Professor of Medicine (General Medicine)
Lisa Berlin, M.D., Clinical Instructor in Pediatrics
Lewis Berman, M.D., Assistant Clinical Professor of Medicine
Michael R. Berman, M.D., Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
C. Robert Bernardino, M.D., Associate Professor of Ophthalmology and Visual Science
Marc R. Bernbach, D.P.M., Lecturer in Medicine
Richard A. Bernstein, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation
Eleanor A. Berry, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Susan Bers, Ph.D., Assistant Clinical Professor of Psychiatry
Douglas A. Berv, M.D., Lecturer in Psychiatry
Paula M. Bevilacqua, M.D., Assistant Clinical Professor of Dermatology
Sumita Bhaduri-McIntosh, Ph.D., M.B.B.S., Assistant Professor of Pediatrics (Infectious Disease)
Zubin Bhagwagar, M.D., Ph.D., M.B.B.S., Assistant Professor of Psychiatry
Vineet Bhandari, M.B.Ch.B., Assistant Professor of Pediatrics (Neonatology)
Sumit Bhargava, M.B.B.S., Assistant Professor of Pediatrics (Respiratory)
Jitendra Bhawnani, M.S., Lecturer in Diagnostic Radiology
Urmila Bhuvanesh, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Baoyuan Bi, M.D., Ph.D., M.S., Associate Research Scientist in Medicine (Nephrology)
Frank J. Bia, M.D., Professor of Medicine (Infectious Diseases) and Laboratory Medicine
Margaret J. Bia, M.D., Professor of Medicine (Nephrology)
Donald S. Bialos, M.D., Associate Clinical Professor of Psychiatry
Shumin Bian, Ph.D., Associate Research Scientist in Surgery (Otolaryngology)
Mark S. Bianchi, M.D., Clinical Instructor in Surgery (Oncology)
Thomas Biederer, Ph.D., Assistant Professor of Molecular Biophysics and Biochemistry
Daniel C. Biemesderfer, Ph.D., Associate Professor of Medicine (Nephrology)
Carlo Bifulco, M.D., Assistant Professor of Pathology
Kaya Bilguvar, M.D., Associate Research Scientist in Neurosurgery
Douglas L. Biliński, M.D., Assistant Clinical Professor of Dermatology
David F. Bindelglass, M.D., Clinical Instructor in Orthopaedics and Rehabilitation
Henry J. Binder, M.D., Professor of Medicine (Digestive Diseases) and Cellular and Molecular Physiology
Robert M. Biondi, M.D., Associate Clinical Professor of Pediatrics and Assistant Clinical Professor of Nursing
Irwin M. Birnbaum, J.D., Assistant Professor (Adjunct) of Medicine (Clinical Scholars)
Sandra J. Bishop-Josef, Ph.D., Associate Research Scientist in the Child Study Center
Stephen J. Bittner, M.D., Assistant Clinical Professor of Psychiatry
Matthew J. Bizzarro, M.D., Assistant Professor of Pediatrics (Neonatology)
Orpheus J. Bizzozero, M.D., Associate Clinical Professor of Medicine
Joel A. Black, Ph.D., Research Scientist in Neurology
Robert D. Black, M.D., Assistant Clinical Professor of Medicine
Ryan A. Black, Ph.D., Associate Research Scientist in Psychiatry
Gregor Blaha, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
Michael E. Blam, M.D., Clinical Instructor in Medicine
Adriana P. Blanco, M.D., Clinical Instructor in Medicine
Kim M. Blankenship, Ph.D., Associate Research Scientist in Epidemiology
John W. Blanton, M.D., Assistant Clinical Professor of Pediatrics
Sidney J. Blatt, Ph.D., Professor of Psychiatry and Psychology
Chun X. Bleau, Ph.D., Associate Research Scientist in Cellular and Molecular Physiology
Mark L. Blitzer, M.D., Clinical Instructor in Medicine (Cardiology)
Joanna Bloom, M.S., Associate Research Scientist in Molecular Biophysics and Biochemistry
Gary M. Bloomgarden, M.D., Assistant Clinical Professor of Neurosurgery
Howard C. Blue, M.D., Assistant Clinical Professor of Psychiatry
Hilary Blumberg, M.D., Associate Professor of Psychiatry and Diagnostic Radiology
Joel M. Blumberg, M.D., Assistant Clinical Professor of Medicine
Peter A. Blume, D.P.M., Assistant Clinical Professor of Orthopaedics and Rehabilitation and of Anesthesiology
Hal Blumenfeld, M.D., Ph.D., Associate Professor of Neurology, Neurobiology, and Neurosurgery
Alphonse R. Bobowick, M.D., Clinical Instructor in Neurology
Samuel N. Bobrow, M.D., Associate Clinical Professor of Medicine
Krzysztof M. Bochenek, M.D., Assistant Clinical Professor of Diagnostic Radiology
Michael G. Bochenek, J.D., Lecturer in Public Health (Global Health)
Linda K. Bockenstedt, M.D., Harold W. Jockers Professor of Medicine (Rheumatology)
Marc G. Bodman, M.D., Instructor in Ophthalmology and Visual Science
Daniel J. Boffa, M.D., Assistant Professor of Surgery (Thoracic Surgery)
Jonathan S. Bogan, M.D., Assistant Professor of Medicine (Endocrinology) and Cell Biology
Sidney T. Bogardus, M.D., Associate Clinical Professor of Medicine (Digestive Diseases)
Titus Boggon, Ph.D., Assistant Professor of Pharmacology
Mary S. Bogucki, M.D., Ph.D., Associate Professor of Surgery (Emergency Medicine)
Clifford W. Bogue, M.D., Associate Professor of Pediatrics (Critical Care)
Sondra Bogursky, M.D., Clinical Instructor in Pediatrics
Frederic Bois, Ph.D., Associate Research Scientist in Psychiatry
Andrea Lee Boissevain, M.P.H., Lecturer in Epidemiology (Environmental Health)
Syed Bokhari, M.B.B.S., Associate Professor of Diagnostic Radiology
Jean L. Bolognia, M.D., Professor of Dermatology
Debra Boltas, Ph.D., Assistant Clinical Professor of Psychiatry
Sandra Boltax-Stern, M.D., Associate Clinical Professor in the Child Study Center and of Psychiatry
Maria O. Bonarrigo, Ph.D., Assistant Professor of Psychiatry
James E. Bond, Ph.D., Assistant Clinical Professor of Therapeutic Radiology
Philip K. Bondy, M.D., Professor Emeritus of Medicine
Kathryn F. Bonesè, M.D., Assistant Clinical Professor of Psychiatry
Nelson A. Bonheim, M.D., Assistant Clinical Professor of Medicine
Laura Bontempo, M.D., Assistant Professor of Surgery (Emergency Medicine)
Samuel E. Book, M.D., Assistant Clinical Professor of Dermatology
John Booss, M.D., Professor Emeritus of Neurology
Carmen J. Booth, D.V.M., Ph.D., Assistant Professor of Comparative Medicine
Leah L. Booth, M.A., Lecturer in the Child Study Center
Jonathan B. Borak, M.D., Clinical Professor of Epidemiology (Environmental Health) and Associate Clinical Professor of Medicine
Angeliq Bordey, Ph.D., Associate Professor of Neurosurgery and of Cellular and Molecular Physiology
Michael Bordonaro, Ph.D., M.S., Associate Research Scientist in Pharmacology
Marna P. Borgstrom, M.P.H., Lecturer in Public Health (Health Policy)
Harold D. Bornstein, M.D., Associate Clinical Professor of Pediatrics
Erzebet Borok, M.S., Associate Research Scientist in Obstetrics, Gynecology, and Reproductive Sciences
R. S. Borrus, M.D., Assistant Clinical Professor of Medicine (Geriatrics)
Edward A. Bortnichak, Ph.D., Lecturer in Epidemiology (Chronic Diseases)
Veerle Bossuyt, M.D., Assistant Professor of Pathology
Alfred L. M. Bothwell, Ph.D., Professor of Immunobiology
Donald M. Botta, M.D., Assistant Professor of Surgery (Cardiac)
H. Kim Bottomly, Ph.D., Professor Emeritus and Senior Research Scientist in Immunobiology
Emile L. Boulpaep, M.D., Professor of Cellular and Molecular Physiology
Susan Boulware, M.D., Assistant Clinical Professor of Pediatrics (Endocrinology)
Joseph R. Bove, M.D., Professor Emeritus of Laboratory Medicine
Laurine M. Bow, Ph.D., Lecturer in Surgery (Transplant)
Joseph J. Bowen, M.D., Clinical Instructor in Medicine
John M. Boyce, M.D., Clinical Professor of Medicine
Lynn M. Boyden, Ph.D., Associate Research Scientist in Genetics
James L. Boyer, M.D., Ensign Professor of Medicine (Digestive Diseases)
Michael B. Bracken, Ph.D., M.P.H., Susan Dwight Bliss Professor of Epidemiology (Chronic Diseases) and Professor of Obstetrics, Gynecology, and Reproductive Sciences and of Neurology
Hubert B. Bradburn, M.D., Associate Clinical Professor of Orthopaedics and Rehabilitation
Demetrios Braddock, M.D., Ph.D., Assistant Professor of Pathology
Kenneth A. Bradford, M.D., Associate Clinical Professor of Pediatrics
Elizabeth H. Bradley, Ph.D., M.B.A., Professor of Public Health (Health Policy) and Associate Clinical Professor of Nursing
John Bradley, M.B.A., Lecturer in Public Health (Health Policy)
R. Scott Braithwaite, M.D., Assistant Professor of Medicine (General Medicine)
Myron H. Brand, M.D., Clinical Professor of Medicine (Digestive Diseases)
Peter J. Branden, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Janet L. Brandsma, Ph.D., Associate Professor of Comparative Medicine and Pathology
Cynthia A. Brandt, M.D., Associate Professor of Anesthesiology (Medical Informatics)
Douglas E. Brash, Ph.D., Professor of Therapeutic Radiology, Dermatology, and Genetics
Joel B. Braunstein, M.D., M.B.A., Assistant Professor (Adjunct) of Medicine
Ferne R. Braveman, M.D., Professor of Anesthesiology and of Obstetrics, Gynecology, and Reproductive Sciences
Irwin M. Braverman, M.D., Professor of Dermatology
William R. Breg, M.D., Professor Emeritus of Genetics
Joel D. Bregman, M.D., Assistant Clinical Professor in the Child Study Center
Joseph Brennan, M.D., Associate Professor of Medicine (Cardiology)
Lawrence R. Brenner, J.D., Lecturer in Orthopaedics and Rehabilitation
Stephen D. Brenner, M.D., Associate Clinical Professor of Medicine (Geriatrics) and Nursing
Gina R. Brescia, M.D., Assistant Professor of Medicine (General Medicine)
Elizabeth A. Brett, Ph.D., Associate Clinical Professor of Psychiatry
Helena M. Brett-Smith, M.D., Assistant Clinical Professor of Medicine
Christopher K. Breuer, M.D., Assistant Professor of Surgery (Pediatrics) and Pediatrics
Ursula C. Brewster, M.D., Assistant Professor of Medicine (Nephrology)
Laurie Bridger, M.D., Assistant Clinical Professor of Medicine
Samuel L. Bridgers II, M.D., Assistant Clinical Professor of Neurology
Jonathan A. Brier, M.D., Clinical Instructor in Medicine
Harry C. Briggs, M.D., Lecturer in Surgery (Gross Anatomy)
Patricia C. Brines, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
James A. Brink, M.D., Professor of Diagnostic Radiology
Carlos G. Briones, Ph.D., Associate Research Scientist in Microbial Pathogenesis
David Brissette, M.S., Assistant Professor of Medicine (General Medicine)
Dante A. Britts, M.D., Clinical Instructor in Orthopaedics and Rehabilitation
Pia R. Britto, Ph.D., Associate Research Scientist in the Child Study Center
Arthur E. Broadus, M.D., Ph.D., Ensign Professor of Medicine (Endocrinology)
Karen H. Brody, M.D., Assistant Clinical Professor in the Child Study Center
Jason G. Bromer, M.D., Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Richard A. Bronen, M.D., Professor of Diagnostic Radiology and Neurosurgery
Andrew Bronin, M.D., Associate Clinical Professor of Dermatology
Jeanne Q. Brooks, M.D., Clinical Instructor in Ophthalmology and Visual Science
Fay E. Brown, Ph.D., Associate Research Scientist in the Child Study Center
Nancy B. Brown, M.D., Assistant Clinical Professor of Pediatrics
Robert J. Brown, M.D., Lecturer in Molecular Biophysics and Biochemistry
Thomas E. Brown, Ph.D., Assistant Clinical Professor of Psychiatry
Thomas H. Brown, Ph.D., Professor of Psychology and Cellular and Molecular Physiology
Elizabeth Browne, P.A., M.S., Lecturer in Surgery (Emergency Medicine)
Kelly D. Brownell, Ph.D., Professor of Psychology and Epidemiology
Allison Brownlow, Ph.D., M.S.W., Lecturer in Psychiatry
Can Bruce, Psy.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
Charles J. Bruce, Ph.D., Associate Professor of Neurobiology
Robert D. Bruce, M.D., Clinical Instructor in Medicine (AIDS)
Gwendolyn J. Bruch, M.S., Lecturer in Medicine
Gary W. Brudvig, Ph.D., Professor of Chemistry and of Molecular Biophysics and Biochemistry
Martina Brueckner, M.D., Associate Professor of Pediatrics (Cardiology) and Associate Clinical Professor of Nursing
Cristina M. Brunet, M.D., Assistant Clinical Professor of Medicine (Rheumatology)
James A. Brunetti, D.O., Clinical Instructor in Medicine
Daniela Brunner, Ph.D., Assistant Professor (Adjunct) of Psychiatry
Emanuela M. Bruscia, Ph.D., Associate Research Scientist in Pediatrics (Respiratory)
Gary J. Bryson, Psy.D., Assistant Professor of Psychiatry
Richard Bucala, M.D., Ph.D., Professor of Medicine (Rheumatology), Pathology, and Epidemiology (Microbial Diseases)
Alec Buchanan, M.D., Ph.D., M.B.Ch.B., Associate Professor of Psychiatry
Lorraine Budnick, M.S.W., Clinical Instructor in the Child Study Center (Social Work)
Catalin S. Buhimschi, M.D., Assistant Professor of Obstetrics, Gynecology, and Reproductive Sciences
Irina Buhimschi, M.D., Assistant Professor of Obstetrics, Gynecology, and Reproductive Sciences
Gregory K. Buller, M.D., Associate Clinical Professor of Medicine
Carlo Bulletti, M.D., Associate Professor (Adjunct) of Obstetrics, Gynecology, and Reproductive Sciences
George A. Bullwinkel, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Ketan R. Bulsara, M.D., Assistant Professor of Neurosurgery
Richard D. Bungiro, Ph.D., Associate Research Scientist in Pediatrics (Infectious Disease)
Benjamin S. Bunney, M.D., Professor Emeritus of Psychiatry
Alessandra Buonopane, M.D., Assistant Clinical Professor of Psychiatry
Matthew M. Burg, Ph.D., Associate Clinical Professor of Medicine (Cardiology)
Alfred P. Burger, M.D., Clinical Instructor in Medicine
JoAnne Burger, M.D., Assistant Clinical Professor of Pediatrics
Tania S. Burgert, M.D., Assistant Professor of Pediatrics (Endocrinology)
Lucile Burgo-Black, M.D., Assistant Clinical Professor of Medicine (Geriatrics)
Kenneth R. Burke, M.D., Clinical Instructor in Pediatrics
Kevin J. Burns, B.S., Lecturer in Surgery (Emergency Medicine)
Morton I. Burrell, M.D., Professor of Diagnostic Radiology
Gerard N. Burrow, M.D., Professor Emeritus of Medicine
Janet Lynn Burton, Ph.D., Research Scientist in Molecular Biophysics and Biochemistry
Susan H. Busch, Ph.D., Associate Professor of Public Health (Health Policy)
Christine G. Butler, M.D., Assistant Clinical Professor of Pediatrics
James B. Butler, M.D., Assistant Clinical Professor of Neurology
William R. Butler, M.S., Clinical Instructor in Surgery (Plastic)
Henry S. Cabin, M.D., Professor of Medicine (Cardiology)
Joao H. M. Cabral, Ph.D., Associate Professor of Molecular Biophysics and Biochemistry
Adalgisa Caccone, Ph.D., Senior Research Scientist in Ecology and Evolutionary Biology and Lecturer in Epidemiology and Public Health
Michael Cackovic, M.D., Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Arina R. Cadariu, M.D., Assistant Clinical Professor of Medicine and Clinical Instructor in Nursing
Shi-Ying Cai, D.Sc., Associate Research Scientist in Medicine (Digestive Diseases)
Yiqiang Cai, M.D., Ph.D., Associate Research Scientist in Medicine (Nephrology)
Hilary Cain, M.D., Assistant Professor of Medicine (Pulmonary)
Lori V. Calabrese, M.D., Assistant Clinical Professor of Psychiatry
Jose G. Calderon, M.D., Assistant Clinical Professor of Pediatrics
David A. Calderwood, Ph.D., Assistant Professor of Pharmacology
Cary A. Caldwell, M.D., Assistant Clinical Professor of Medicine (Digestive Diseases)
Vince D. Calhoun, Ph.D., M.S., Associate Professor (Adjunct) of Psychiatry
Kerstin E. Calia, M.D., Assistant Clinical Professor of Medicine (Infectious Diseases)
Jennifer L. Callahan, Ph.D., M.S., Lecturer in Psychiatry
Marguerite M. Callaway, M.S., M.B.A., Lecturer in Public Health (Health Policy) and Clinical Instructor in Nursing
Leonard L. Calo, M.D., Clinical Instructor in Medicine
Lisa Calvocoresi, Ph.D., M.S.W., Associate Research Scientist in Public Health (Biostatistics)
Brian C. Cambi, M.D., Instructor in Medicine (Cardiology)
Annette Cameron, M.D., Assistant Clinical Professor of Pediatrics
David S. Caminear, D.P.M., Assistant Clinical Professor of Orthopaedics and Rehabilitation
Anne W. Camp, M.D., Clinical Instructor in Medicine
Robert L. Camp, M.D., Ph.D., Associate Research Scientist in Pathology
Sheldon M. Campbell, M.D., Associate Professor of Laboratory Medicine
Allon Canaan, Ph.D., Associate Research Scientist in Genetics
Michael F. Canarie, M.D., Clinical Instructor in Pediatrics (Critical Care)
Evangelos S. Canellakis, Ph.D., Professor Emeritus of Pharmacology
Cecilia Canessa, M.D., Associate Professor of Cellular and Molecular Physiology and of Medicine (Nephrology)
Christopher Canny, M.D., Associate Clinical Professor of Pediatrics and in the Child Study Center
Priscilla F. Canny, Ph.D., Lecturer in Epidemiology (Environmental Health)
Catalin Cantemir, M.D., Assistant Professor of Anesthesiology
Lloyd G. Cantley, M.D., Professor of Medicine (Nephrology) and Cellular and Molecular Physiology
Pamela Cantor, M.D., Assistant Clinical Professor in the Child Study Center
Michael J. Caplan, M.D., Ph.D., Professor of Cellular and Molecular Physiology and Cell Biology
Gayle L. Capozzalo, M.P.H., Lecturer in Public Health (Health Policy)
Michael Cappello, M.D., Professor of Pediatrics (Infectious Diseases), Epidemiology (Microbial Diseases) and Microbial Pathogenesis
Angela Cappiello, M.D., Ph.D., Assistant Clinical Professor of Psychiatry
Sonia Caprio, M.D., Professor of Pediatrics (Endocrinology)
Annmarie Caracansi, M.D., Clinical Instructor in the Child Study Center
Laurie Cardona, Psy.D., Associate Research Scientist in the Child Study Center
Vincente J. Caride, M.D., Associate Clinical Professor of Diagnostic Radiology
Michelle Carino, M.D., Assistant Clinical Professor of Diagnostic Radiology
David A. Carlson, M.D., Clinical Professor of Psychiatry
Elise M. Carlson, M.D., Clinical Instructor in Medicine (Rheumatology)
Jodi A. Carlson, D.V.M., Associate Research Scientist in Comparative Medicine
Karen Carlson, Ph.D., Lecturer in the Child Study Center
Kristin A. Carmody, M.D., Clinical Instructor in Surgery (Emergency Medicine)
Monica Carmosino, Ph.D., Associate Research Scientist in Cellular and Molecular Physiology
Nicholas Carnevale, M.D., Ph.D., Senior Research Scientist in Neurobiology
Thomas O. Carpenter, M.D., Professor of Pediatrics (Endocrinology) and Clinical Professor of Nursing
Michael Carrithers, M.D., Ph.D., Assistant Professor of Neurology
Carolyn B. Carroll, M.D., Assistant Clinical Professor of Dermatology
Kathleen M. Carroll, Ph.D., Professor of Psychiatry
Richard E. Carroll, M.D., Clinical Instructor in Pediatrics
Stephanie C. Carroll, P.A., Lecturer in Surgery (Emergency Medicine)
Richard E. Carson, Ph.D., Professor of Diagnostic Radiology and Biomedical Engineering
Alexandra J. Carter, M.D., Instructor in Surgery (Emergency Medicine)
Alice S. Carter, Ph.D., Associate Clinical Professor in the Child Study Center
Brenda Cartmel, Ph.D., Research Scientist and Lecturer in Epidemiology (Chronic Diseases)
Matthew L. Cartter, M.D., Associate Clinical Professor of Epidemiology (Microbial Diseases)
Vinneth V. Carvalho, M.D., Clinical Instructor in Psychiatry
Wayne Carver, M.D., Assistant Clinical Professor of Pathology
Deborah L. Casey, M.D., Clinical Instructor in Medicine
Ronald Casey, Ph.D., Assistant Clinical Professor of Psychiatry
Scott E. Casper, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Carl M. Cassin, M.D., Associate Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Frank M. Castiglione, M.D., Associate Clinical Professor of Dermatology
Stacy A. Castner, Ph.D., Assistant Professor of Psychiatry
Stephen B. Castracane, M.D., Clinical Instructor in Ophthalmology and Visual Science
Carla Casulo, M.D., Instructor in Medicine
Tara M. Catanzano, M.D., Assistant Professor of Diagnostic Radiology
Dana A. Cavallo, Ph.D., Associate Research Scientist in Psychiatry
Idil Cavus, M.D., Ph.D., Assistant Professor of Psychiatry and Neurosurgery
Harvey Cedarbaum, D.D.S., Assistant Clinical Professor of Surgery (Dental)
Eda Cengiz, M.D., Associate Research Scientist in Pediatrics (Endocrinology)
Michael Centrella, Ph.D., Professor of Surgery (Plastic)
Jeff Cersovsky, M.D., Clinical Instructor in Pediatrics
Bruce Y. Cha, D.M.D., D.D.S., Assistant Clinical Professor of Surgery (Dental)
Charles H. Cha, M.D., Assistant Professor of Surgery (Gastroenterology and Oncology)
Stephan S. Cha, M.D., Assistant Professor (Adjunct) of Medicine
Shiven B. Chabria, M.B.B.S., Clinical Instructor in Medicine
Leo I. Chaikovsky, M.D., Assistant Clinical Professor of Psychiatry
Ashok K. Chakraborty, Ph.D., Research Scientist in Dermatology
Melanie Champion, M.B.A., Lecturer in Laboratory Medicine
Belinda J. Chan, M.D., Assistant Clinical Professor of Medicine
Owen Chan, Ph.D., Associate Research Scientist in Medicine (Endocrinology)
John P. Chandler, M.D., Assistant Clinical Professor of Medicine
W. K. Chandler, M.D., Professor of Cellular and Molecular Physiology
Sreeganga S. Chandra, Ph.D., Assistant Professor of Neurology
John J. Chang, M.D., Clinical Instructor in Medicine (Nephrology)
Victor A. Chang, M.D., Clinical Instructor in Medicine
Eric H. Chanko, M.D., Clinical Instructor in Medicine (General Medicine)
Herta H. Chao, M.D., Ph.D., Assistant Professor of Medicine (Medical Oncology)
Tara Chaplin, Ph.D., Associate Research Scientist in Psychiatry
Rachel L. Chapman, M.D., Assistant Professor of Pediatrics (Neonatology)
Phillip B. Chappell, M.D., Assistant Clinical Professor in the Child Study Center
James Charney, M.D., Assistant Clinical Professor of Psychiatry
Peter A. Charpentier, M.P.H., Lecturer in Epidemiology (Chronic Diseases)
Timothy Chartier, M.D., Assistant Clinical Professor of Dermatology
Anasuya Chattopadhyay, Ph.D., M.S., Associate Research Scientist in Pathology
Nauman Chaudhry, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Sarwat I. Chaudhry, M.D., Assistant Professor of Medicine (General Medicine)
Katarzyna Chawarska, Ph.D., Assistant Professor in the Child Study Center
Marek C. Chawarski, Ph.D., Assistant Professor of Psychiatry
Joseph R. Check, M.D., Assistant Clinical Professor of Psychiatry
Sharon A. Chekijian, M.D., Clinical Instructor in Surgery (Emergency Medicine)
Sudhangar V. Chelikani, Ph.D., Associate Research Scientist in Diagnostic Radiology
Adina R. Chelouche, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Christine Chen, M.D., Clinical Instructor in Medicine
Hong Chen, Ph.D., M.S., Associate Research Scientist in Pathology
Jersey Chen, M.D., M.P.H., Assistant Professor of Medicine (Cardiology)
Jie-Guang Chen, Ph.D., Associate Research Scientist in Neurobiology
Junjie Chen, Ph.D., Professor of Therapeutic Radiology and Pathology
Lei Chen, M.D., Assistant Professor of Pediatrics (Emergency Medicine)
Leiling Chen, M.D., Ph.D., Associate Research Scientist in Neurosurgery
Wei Chen, M.D., Associate Research Scientist in Immunobiology
Wei R. Chen, Ph.D., Associate Professor of Neurobiology
Xinguo Chen, Ph.D., Associate Research Scientist in Cell Biology
Xuesong Chen, Ph.D., Associate Research Scientist in Medicine (Endocrinology)
Zhe Chen, Ph.D., Associate Professor of Therapeutic Radiology
Aiyang Cheng, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
David W. Cheng, M.D., Ph.D., Associate Professor of Diagnostic Radiology
Yung-Chi Cheng, Ph.D., Henry Bronson Professor of Pharmacology
Lara G. Chepenik, M.D., Ph.D., Instructor in Psychiatry
David P. Cheromcha, M.D., Assistant Clinical Professor of Pediatrics (Neonatology)
Bradford S. Chervin, M.D., Clinical Instructor in Surgery (Otolaryngology)
Cyrus Chess, M.D., Assistant Clinical Professor of Dermatology
David M. Chess, M.D., Assistant Clinical Professor of Medicine
Robert D. Chessin, M.D., Associate Clinical Professor of Pediatrics
David W. Chester, Ph.D., Associate Research Scientist in Cellular and Molecular Physiology
Tian H. Chi, Ph.D., Assistant Professor of Immunobiology
Veronica L. S. Chiang, M.D., Assistant Professor of Neurosurgery
Zeno N. Chicarilli, M.D., D.M.D., Associate Clinical Professor of Surgery (Plastic)
Anna K. Chikova, Ph.D., Associate Research Scientist in Therapeutic Radiology
James E. Childs, Sc.D., Senior Research Scientist and Lecturer in Epidemiology (Microbial Diseases)
Catherine Chiles, M.D., Associate Clinical Professor of Psychiatry
Kevin Y. Ching, M.D., Assistant Professor of Pediatrics (Emergency Medicine)
Joan O. Cho, M.D., Assistant Clinical Professor of Medicine
Judy H. Cho, M.D., Associate Professor of Medicine (Digestive Diseases) and Genetics
Jennifer N. Choi, M.D., Instructor in Dermatology
Jin S. Choi, Ph.D., Associate Research Scientist in Neurology
Jin-Young Choi, Ph.D., Associate Research Scientist in Medicine (Rheumatology)
Young Choi, M.D., Professor of Pathology and Laboratory Medicine
Walter Cholewczynski, M.D., Clinical Instructor in Surgery (Trauma)
Maryann Chomiak, M.P.H., Lecturer in Medicine
Roslyn Chosak, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Lucia M. Chou, M.D., Assistant Clinical Professor of Medicine
Golam M. Chowdhury, Ph.D., Associate Research Scientist in Diagnostic Radiology
Archie Chu, Ph.D., Assistant Clinical Professor of Therapeutic Radiology
Edward Chu, M.D., Professor of Medicine (Medical Oncology) and Pharmacology
Jesse M. Chua-Reyes, M.D., Clinical Instructor in Medicine (Geriatrics)
Chuhan Chung, M.D., Assistant Professor of Medicine (Digestive Diseases)
Gina G. Chung, M.D., Assistant Professor of Medicine (Medical Oncology)
James B. Chung, M.D., Ph.D., Clinical Instructor in Medicine (Rheumatology)
James H. Chung, M.D., Assistant Professor of Anesthesiology
Keun S. Chung, M.D., Associate Clinical Professor of Anesthesiology
Jackie J. Chuong, M.D., Assistant Clinical Professor of Medicine (Digestive Diseases)
Geoffrey L. Chupp, M.D., Associate Professor of Medicine (Pulmonary)
Lydia Chwastiak, M.D., M.P.H., Assistant Professor of Psychiatry and Medicine (General Medicine)
Marc A. Ciampi, M.D., Associate Clinical Professor of Medicine
Carol D. Cianci, Ph.D., Associate Research Scientist in Pathology
David E. Ciancimino, M.D., Assistant Clinical Professor of Psychiatry
James J. Ciarcia, M.D., Associate Clinical Professor of Psychiatry
Thomas E. Ciesielski, M.D., Assistant Clinical Professor of Pathology
Peter R. Cimino, M.D., Clinical Instructor in Medicine
Brett V. Citarella, M.D., Clinical Instructor in Pediatrics (Neonatology)
Elena Citkowitz, M.D., Clinical Professor of Medicine (General Medicine)
Mihai Ciubotaru, M.D., Ph.D., Associate Research Scientist in Immunobiology
Michael R. Clain, M.D., Clinical Instructor in Orthopaedics and Rehabilitation
Jude F. Clancy, M.D., Assistant Professor of Medicine (Cardiology)
Katrina H. Clark, M.P.H., Lecturer in Public Health (Health Policy)
Paul R. Clark, Ph.D., Associate Research Scientist in Immunobiology
Paul K. Clarke, M.D., Assistant Clinical Professor of Medicine
Tracy-Ann M. Clarke, M.D., Clinical Instructor in Medicine
Elizabeth B. Claus, M.D., Ph.D., Professor of Public Health (Biostatistics)
Gina M. Clayton, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
Joseph P. Cleary, M.D., Associate Clinical Professor of Medicine
Paul D. Cleary, Ph.D., M.S., C.-E.A. Winslow Memorial Professor of Epidemiology and Public Health and Dean of Public Health
Michael W. Cleman, M.D., Professor of Medicine (Cardiology)
Gary W. Cline, Ph.D., Associate Professor of Medicine (Endocrinology)
John C. Cline, Ph.D., Assistant Clinical Professor of Psychiatry
Nancy L. Close, Ph.D., Assistant Professor in the Child Study Center
Kathleen F. Clougherty, M.S.W., Clinical Instructor in the Child Study Center (Social Work)
Miguel Coca-Prados, Ph.D., Professor of Ophthalmology and Visual Science
Vally Coggshall, M.S.W., Clinical Instructor in Psychiatry (Social Work)
Gary M. Cohen, M.D., Assistant Clinical Professor of Medicine
Ian M. Cohen, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Ivan S. Cohen, M.D., Associate Clinical Professor of Dermatology
Kenneth A. Cohen, M.D., Assistant Clinical Professor of Dermatology
Kenneth L. Cohen, M.D., Clinical Professor of Medicine (Endocrinology)
Lawrence B. Cohen, Ph.D., Professor of Cellular and Molecular Physiology
Lawrence S. Cohen, M.D., Ebenezer K. Hunt Professor Emeritus of Medicine
  (Cardiology) and Clinical Professor of Nursing
Matthew Cohen, M.D., Assistant Clinical Professor of Medicine (Digestive Diseases)
Phyllis M. Cohen, D.Ed., Associate Clinical Professor in the Child Study Center
Robert M. Cohen, M.D., Clinical Instructor in Medicine
Sandra A. Cohen, B.A., Lecturer in Laboratory Medicine
Frederick L. Cohn, M.D., Clinical Instructor in Obstetrics, Gynecology, and
  Reproductive Sciences
Lauren E. Cohn, M.D., Associate Professor of Medicine (Pulmonary)
Christopher M. Colangelo, Ph.D., Associate Research Scientist in Molecular Biophysics
  and Biochemistry
John W. Colberg, M.D., Associate Professor of Surgery (Urology)
Robert A. Cole, M.H.S.A., Lecturer in Psychiatry
David L. Coleman, M.D., Professor Emeritus of Medicine
Mark Collinge, Ph.D., Associate Research Scientist in Medicine (Cardiology)
J. G. Collins, Ph.D., Professor of Anesthesiology
John T. Collins, Ph.D., Assistant Clinical Professor in the Child Study Center and of
  Psychiatry
Nancy Collins, B.S., Lecturer in Surgery (Plastic)
William F. Collins, M.D., Professor Emeritus of Neurosurgery
Eve R. Colson, M.D., Associate Professor of Pediatrics (General Pediatrics)
Lee Combrinck-Graham, M.D., Associate Clinical Professor in the Child Study Center
Jerome T. Combs, M.D., Assistant Clinical Professor of Pediatrics
James P. Comer, M.D., Maurice Falk Professor in the Child Study Center and Professor
  of Psychiatry
Florence Comite, M.D., Associate Clinical Professor of Medicine
Susan R. Compton, Ph.D., Research Scientist in Comparative Medicine
John P. Concato, M.D., Professor of Medicine (General Medicine)
Nicholas Condulis, M.D., Assistant Clinical Professor of Pediatrics
David C. Cone, M.D., Associate Professor of Surgery (Emergency Medicine) and
  Epidemiology (Environmental Health)
Rong Cong, Ph.D., M.S., Associate Research Scientist in Medicine (Nephrology)
Gerald J. Conlogue, M.H.S., Lecturer in Diagnostic Radiology
Harold O. Conn, M.D., M.S., Professor Emeritus of Medicine
Michael P. Connair, M.D., Assistant Clinical Professor of Orthopaedics and
  Rehabilitation
Christian Connell, Ph.D., Assistant Professor of Psychiatry
Jennifer M. Connell, M.S.W., Clinical Instructor in the Child Study Center (Social
  Work)
Kathleen A. Connell, M.D., Assistant Professor of Obstetrics, Gynecology, and
  Reproductive Sciences
Cynthia A. Connolly, R.N., Ph.D., Assistant Professor of Nursing and the History of
  Medicine
Cynthia Conrad, M.D., Ph.D., Lecturer in Psychiatry
Robert T. Constable, Ph.D., Professor of Diagnostic Radiology, Neurosurgery, and Biomedical Engineering
Charles D. Cook, M.D., Lecturer in Pediatrics
Lynn Cooley, Ph.D., Professor of Genetics, Cell Biology, and Molecular, Cellular, and Developmental Biology
Melvin P. Coolidge, M.D., Clinical Instructor in Dermatology
Elizabeth L. Cooney, M.D., Associate Clinical Professor of Medicine (AIDS)
Leo M. Cooney, M.D., Humana Foundation Professor of Medicine (Geriatrics)
Ned L. Cooney, Ph.D., Associate Professor of Psychiatry
Camille J. Cooper, M.Ed., Lecturer in the Child Study Center
Dennis L. Cooper, M.D., Professor of Medicine (Medical Oncology)
Jack R. Cooper, Ph.D., Professor Emeritus and Senior Research Scientist in Pharmacology
Jane D. Cooper, M.D., Assistant Clinical Professor of Medicine (Rheumatology)
Robert B. Cooper, M.D., Assistant Clinical Professor of Medicine
Joshua A. Copel, M.D., Professor of Obstetrics, Gynecology, and Reproductive Sciences and of Pediatrics
David L. Copen, M.D., Ph.D., Associate Clinical Professor of Medicine (Cardiology)
Paul J. Coppola, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Vladimir Coric, M.D., Associate Clinical Professor of Psychiatry
Eugene A. Cornelius, M.D., Ph.D., Professor Emeritus of Diagnostic Radiology
Daniel Cornfeld, M.D., Assistant Professor of Diagnostic Radiology
Philip F. Corso, M.D., Assistant Clinical Professor of Surgery (Plastic)
Edward T. Cortland, M.D., Clinical Instructor in Anesthesiology
Jo-anne A. Cosgriff, M.D., M.S., Assistant Clinical Professor of Medicine
Kelly P. Cosgrove, Ph.D., Assistant Professor of Psychiatry
D. Jim Coskun, M.D., Assistant Clinical Professor of Neurology
Jose Costa, M.D., Professor of Pathology and Medicine (Medical Oncology)
Susan F. Cotmore, Ph.D., Senior Research Scientist in Laboratory Medicine
Cheryl Cottrol, M.D., Assistant Clinical Professor of Psychiatry
Alanna M. Coughlin, M.D., Clinical Instructor in Pediatrics
Jill K. Countryman, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
Maria B. Courtney, M.H.S., M.S., Lecturer in Medicine
Shawn E. Cowper, M.D., Assistant Professor of Dermatology and Pathology
Elise M. Cozzi, D.M.D., Clinical Instructor in Surgery (Dental)
Henry F. Crabbe, M.D., Ph.D., M.B.A., Lecturer in Psychiatry
Joseph E. Craft, M.D., Professor of Medicine (Rheumatology) and Immunobiology
Michael C. Crair, Ph.D., Associate Professor of Neurobiology
Joyce A. Cramer, B.S., Associate Research Scientist in Psychiatry
William B. Crede, M.D., Associate Clinical Professor of Medicine
Peter Cresswell, Ph.D., Professor of Immunobiology, Dermatology, and Cell Biology
Lori J. Cretella, M.D., Clinical Instructor in Neurology
Craig M. Crews, Ph.D., Associate Professor of Molecular, Cellular, and Developmental Biology and of Pharmacology
Julia Cron, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
David C. Cronin, M.D., Associate Professor of Surgery (Transplant)
Lisa W. Cross, Ph.D., Assistant Clinical Professor of Psychiatry
Donald M. Crothers, Ph.D., Sterling Professor Emeritus of Chemistry and Professor Emeritus of Molecular Biophysics and Biochemistry
Kristina A. Crothers, M.D., Assistant Professor of Medicine (Pulmonary)
John K. Crowe, M.D., Assistant Clinical Professor of Diagnostic Radiology
Susan T. Crowley, M.D., Associate Professor of Medicine (Nephrology)
Cindy A. Crusto, Ph.D., Assistant Professor of Psychiatry
John G. Culhane, J.D., Lecturer in Public Health (Health Policy)
Mark R. Cullen, M.D., Professor of Medicine (Occupational Medicine) and Epidemiology and Public Health
Elizabeth Culler, D.Ed., Associate Research Scientist in the Child Study Center
Jennifer D. Cunningham, M.S.T., Clinical Instructor in the Child Study Center (Social Work)
Mary G. Curnen, M.D., Dr.P.H., Clinical Professor of Epidemiology (Chronic Diseases)
Leslie Curry, Ph.D., M.P.H., Research Scientist and Lecturer in Public Health (Health Policy)
Anne McBride Curtis, M.D., Professor of Diagnostic Radiology
Jeptha P. Curtis, M.D., Assistant Professor of Medicine (Cardiology)
Anthony J. Cusano, M.D., Assistant Clinical Professor of Medicine
William L. Cushing, M.A., Clinical Instructor in Medicine
Louis J. Cuzzone, M.D., Assistant Clinical Professor of Medicine
Ronald A. Cwik, M.D., Associate Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Nancy Czarkowski, M.D., Assistant Clinical Professor of Pediatrics
Jan K. Czyzyk, M.D., Associate Research Scientist in Pathology
Susan Dabu-Bondoc, M.D., Assistant Professor of Anesthesiology
Armand J. Daccache, M.D., Assistant Professor of Ophthalmology and Visual Science
Aditya R. Daftary, M.B.B.S., Assistant Clinical Professor of Diagnostic Radiology
Gaurang Daftary, M.D., Associate Research Scientist in Obstetrics, Gynecology, and Reproductive Sciences
Kirsten Dahl, Ph.D., Harris Associate Clinical Professor in the Child Study Center
Neera K. Dahl, M.D., Ph.D., Assistant Professor of Medicine (Nephrology)
Shengchuan Dai, M.D., Associate Research Scientist in Pathology
John Paul Daigneault, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation
Wayne F. Dailey, Ph.D., Assistant Clinical Professor of Psychiatry
Nicholas Dainiak, M.D., Clinical Professor of Medicine
Shibani Dalal, Ph.D., Associate Research Scientist in Therapeutic Radiology
Martha G. Dale, M.P.H., Lecturer in Public Health (Health Policy)
Mark L. Dam, M.D., Clinical Instructor in Medicine
Lauren A. Daman, M.D., Assistant Clinical Professor of Dermatology
Priscilla S. Dannies, Ph.D., Professor of Pharmacology
Stuart J. Danoff, M.D., Associate Clinical Professor of Pediatrics
Richard D’Aquila, M.P.H., Lecturer in Public Health (Health Policy)
Alan Dardik, M.D., Ph.D., Assistant Professor of Surgery (Vascular)
Amy S. Darefsky, Ph.D., M.P.H., Lecturer in Epidemiology (Chronic Diseases)
Carla A. Da Silva, Ph.D., M.S., Associate Research Scientist in Medicine (Pulmonary)
Ann R. Datunashvili, M.D., Clinical Instructor in Medicine (Geriatrics)
Lycurgus M. Davey, M.D., Clinical Professor of Neurosurgery
Diane M. Davidson, M.D., Associate Clinical Professor of Dermatology
Larry Davidson, Ph.D., Professor of Psychiatry
George H. Davis, Ph.D., Lecturer in Psychiatry
Gustave L. Davis, M.D., Clinical Professor of Pathology
Kimberly A. Davis, M.D., Associate Professor of Surgery (Trauma)
Nigel Daw, Ph.D., Professor Emeritus of Ophthalmology and Visual Science
Sunil B. D’Cunha, M.B.B.S., Clinical Instructor in Medicine
Richard J. Dean, M.D., Assistant Clinical Professor of Surgery (Urology)
Brian M. DeBroff, M.D., Associate Clinical Professor of Ophthalmology and Visual Science
Pietro De Camilli, M.D., Higgins Trust Professor of Cell Biology and Professor of Neurobiology
Roy Decker, M.D., Ph.D., Assistant Professor of Therapeutic Radiology
John De Figueiredo, Sc.D., M.B.B.S., Associate Clinical Professor of Psychiatry
Kathleen Degen, M.D., Lecturer in Psychiatry
Robin de Graaf, Ph.D., Associate Professor of Diagnostic Radiology
Linda C. Degutis, Dr.P.H., M.S.N., Associate Professor of Surgery (Emergency Medicine) and Public Health (Environmental Health) and Associate Clinical Professor of Nursing
Enrique M. De La Cruz, Ph.D., Associate Professor of Molecular Biophysics and Biochemistry
Nihal C. deLanerolle, D.Phil., Professor of Neurosurgery and Neurobiology
Richard C. Delaney, Ph.D., Associate Clinical Professor of Neurology
Ronald H. Delfini, D.D.S., Assistant Clinical Professor of Surgery (Dental)
Miriam E. Delphin, Ph.D., Assistant Professor of Psychiatry
Peter A. DeLuca, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation
Vincent P. de Luise, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Alex R. Demac, M.D., Lecturer in Psychiatry
George J. DeMarco, D.V.M., M.S., Assistant Professor of Comparative Medicine
Joseph D. Demayo, M.D., M.P.H., Clinical Instructor in Medicine
Louise-Marie Dembry, M.D., Associate Professor of Medicine (Infectious Diseases) and Epidemiology and Public Health
Mary A. Demetrius, M.D., Assistant Clinical Professor of Medicine
Peter Demir, M.D., Clinical Instructor in Surgery (Urology)
Marlene B. de-Naclerio, Ph.D., Clinical Instructor in the Child Study Center
Ralph W. DeNatale, M.D., Assistant Clinical Professor of Surgery (Vascular)
Jun Deng, Ph.D., Associate Professor of Therapeutic Radiology
Isabelle Derre, Ph.D., M.S., Associate Research Scientist in Microbial Pathogenesis
Francesco D’Errico, D.Eng., Ph.D., Research Scientist in Diagnostic Radiology
Mayur M. Desai, Ph.D., M.P.H., Assistant Professor of Psychiatry and Epidemiology
(Chronic Diseases)
Rani A. Desai, Ph.D., M.P.H., Associate Professor of Psychiatry and Public Health
(Health Policy)
Paul H. Desan, M.D., Ph.D., Assistant Professor of Psychiatry
Aniruddha M. Deshpande, M.D., Lecturer in Anesthesiology (Medical Informatics)
Hari A. Deshpande, M.D., Assistant Professor of Medicine (Medical Oncology) and
Surgery (Otolaryngology)
Deborah Desir, M.D., Assistant Clinical Professor of Medicine (Rheumatology)
Gary V. Desir, M.D., Professor of Medicine (Nephrology)
Christine E. Desmond, M.D., Lecturer in Psychiatry
Frank C. Detterbeck, M.D., Professor of Surgery (Thoracic Surgery)
Lawrence Deutsch, M.D., Associate Clinical Professor in the Child Study Center and of
Psychiatry
Virginia DeVarennes, M.Sc., Clinical Instructor in the Child Study Center (Social
Work)
Lesley Devine, Ph.D., Associate Research Scientist in Laboratory Medicine
Vincent T. DeVita, Jr., M.D., Amy and Joseph Perella Professor of Medicine
(Oncology) and Professor of Epidemiology (Chronic Diseases)
Michael L. Dewar, M.D., Assistant Clinical Professor of Surgery (Cardiac)
Holley M. Dey, M.D., Assistant Clinical Professor of Diagnostic Radiology
Sudipta Dey, M.D., Clinical Instructor in Medicine
Richard Diana, M.D., Clinical Instructor in Orthopaedics and Rehabilitation
Sabrina Diano, Ph.D., Associate Professor of Obstetrics, Gynecology, and Reproductive
Sciences and of Neurobiology
Sulayman D. Dib-Hajj, Ph.D., Research Scientist in Neurology
Madeline Dick, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive
Sciences
Phillip S. Dickey, M.D., Assistant Clinical Professor of Neurosurgery
Vincent C. Dicola, M.D., Assistant Clinical Professor of Medicine (Cardiology)
Kevin M. Diette, M.D., Assistant Clinical Professor of Dermatology
Stephanie B. Dietz, M.D., Assistant Clinical Professor of Dermatology
Michael P. DiGiovanna, M.D., Ph.D., Associate Professor of Medicine (Medical
Oncology) and Pharmacology
Charles Dike, M.B.Ch.B., Assistant Clinical Professor of Psychiatry
Paul J. Dileo, M.S., Lecturer in Psychiatry
Ralph J. DiLeone, Ph.D., Associate Professor of Psychiatry
Edward J. Dill, M.D., Assistant Clinical Professor of Medicine (General Medicine)
Patricia A. Dillon, M.P.H., Lecturer in Psychiatry
Michelle E. Dilorenzo, D.O., Assistant Clinical Professor of Pediatrics and Clinical
Instructor in Nursing
Daniel C. DiMaio, M.D., Ph.D., Waldemar Von Zedtwitz Professor of Genetics and
Professor of Therapeutic Radiology
Catherine A. Dinauer, M.D., Associate Research Scientist in Pediatrics (Pediatric Developmental Biology & Biophysics)
Bo Ding, M.D., Ph.D., Associate Research Scientist in Immunobiology
Yu-Shin Ding, Ph.D., Professor of Diagnostic Radiology
Anthony T. Dioguardi, D.M.D., Assistant Clinical Professor of Surgery (Dental)
Loretta A. Dipietro, Ph.D., Associate Professor of Epidemiology (Environmental Health)
Charles A. Disabatino, M.D., Associate Clinical Professor of Medicine (Rheumatology)
Maria A. Diuk-Wasser, Ph.D., Assistant Professor of Epidemiology (Microbial Diseases)
John W. Dobbins, M.D., Clinical Professor of Medicine (Digestive Diseases)
Dennis L. Dobkin, M.D., Lecturer in Medicine
Kenneth J. Dobuler, M.D., Associate Clinical Professor of Medicine
Susan W. Dobuler, M.S.W., Clinical Instructor in the Child Study Center (Social Work)
Leahie Doctor, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Indukala Doddamane, M.B.B.S., Assistant Professor of Diagnostic Radiology
Seth D. Dodds, M.D., Assistant Professor of Orthopaedics and Rehabilitation
Diane M. Dodge, M.S.W., Clinical Instructor in the Child Study Center (Social Work)
Cheryl Doebnick, Ph.D., M.S., Assistant Clinical Professor of Psychiatry
Terrence A. Doherty, M.D., Clinical Instructor in Medicine
Thomas F. Dolan, M.D., Professor Emeritus of Pediatrics
Richard K. Donabedian, M.D., Professor Emeritus of Laboratory Medicine
Blaise Dondji, Ph.D., Associate Research Scientist in Pediatrics (Infectious Disease)
Nelson Donegan, Ph.D., Assistant Clinical Professor of Psychiatry and Lecturer in Psychology
Ke Dong, M.D., Associate Research Scientist in Cellular and Molecular Physiology
David F. Donnelly, Ph.D., Associate Professor of Pediatrics (Respiratory)
Lisa M. Donofrio, M.D., Associate Clinical Professor of Dermatology
Gail D’Onofrio, M.D., Professor of Surgery (Emergency Medicine)
Lisa M. Donovan, M.D., Clinical Instructor in the Child Study Center
Benjamin R. Doolittle, M.D., M.Div., Assistant Professor of Medicine (General Medicine) and Pediatrics
Carol L. Dorfman, M.D., Assistant Clinical Professor of Pediatrics
Robert G. Dorr, M.D., Clinical Instructor in Pediatrics
Karen B. Dorsey, M.D., Assistant Professor of Pediatrics (General Pediatrics)
Dianne B. Douglas, Psy.D., Assistant Clinical Professor of Psychiatry
Alan B. Douglass, M.D., Associate Clinical Professor of Medicine
Henry G. Dove, Ph.D., M.B.A., Lecturer in Public Health (Health Policy)
Jeffrey S. Dover, M.D., Associate Clinical Professor of Dermatology
James M. Dowaliby, M.D., Associate Clinical Professor of Surgery (Otolaryngology)
Thomas W. Downey, M.D., Clinical Professor in the Child Study Center
S. Evans Downing, M.D., Professor Emeritus of Pathology
Hester A. Doyle, Ph.D., Associate Research Scientist in Medicine (Rheumatology)
Jonathan A. Dranoff, M.D., Associate Professor of Medicine (Digestive Diseases)
Gillian Draper-Ralls, P.A., Lecturer in Medicine
Victoria M. Dreisbach, D.O., Assistant Clinical Professor of Psychiatry
Natalie Drew, B.S., Lecturer in Laboratory Medicine
David H. Dreyfus, M.D., Assistant Clinical Professor of Pediatrics
Marjorie T. Dreyfus, M.S.W., Assistant Clinical Professor of Psychiatry (Social Work)
Jeffrey T. Dreznick, M.D., Assistant Clinical Professor of Medicine
Margaret A. Drickamer, M.D., Associate Professor of Medicine (Geriatrics)
Naomi R. Driesen, Ph.D., Associate Research Scientist in Psychiatry and Neurology
Mitchell H. Driesman, M.D., Assistant Clinical Professor of Medicine
Allyson Driggers, M.D., Assistant Clinical Professor of Pediatrics
Lisa K. Driscoll, Psy.D., Assistant Clinical Professor of Psychiatry
Elizabeth Drye, M.D., M.S., Associate Research Scientist in Medicine (Cardiology)
Deepak C. D’Souza, M.D., M.B.B.S., Associate Professor of Psychiatry
Seema A. D’Souza, M.B.B.S., Clinical Instructor in Medicine
Fangyong Du, Ph.D., M.S., Associate Research Scientist in Microbial Pathogenesis
Hongling Du, M.D., Ph.D., Associate Research Scientist in Obstetrics, Gynecology, and Reproductive Sciences
Zhao-Peng Du, M.D., Associate Research Scientist in Cellular and Molecular Physiology
Arthur B. Du Bois, M.D., Professor Emeritus of Epidemiology (Environmental Health) and Professor of Cellular and Molecular Physiology
Mufáro Dube, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Karen E. Dubois-Walton, Ph.D., Clinical Instructor in the Child Study Center
Robert Dubrow, M.D., Ph.D., Associate Professor of Epidemiology (Chronic Diseases) and Associate Dean of Academic Affairs, School of Public Health
Robert B. Duckrow, M.D., Associate Professor of Neurology and Neurosurgery
Mary Dudley, R.N., M.S.N., A.P.R.N., Clinical Instructor in Anesthesiology
Stanley J. Dudrick, M.D., Professor of Surgery (Gastroenterology)
Diane Duffey, M.D., Assistant Professor of Surgery (Otolaryngology)
Andrew Duffy, M.D., Assistant Professor of Surgery (Gastroenterology)
Thomas P. Duffy, M.D., Professor of Medicine (Hematology)
Karen S. Dufour, M.D., Assistant Clinical Professor of Medicine (Digestive Diseases)
Daniella Duke, M.D., M.P.H., Assistant Clinical Professor of Dermatology
Antonette T. Dulay, M.D., Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Antoni J. Duleba, M.D., Associate Professor (Adjunct) of Obstetrics, Gynecology, and Reproductive Sciences
Catharine H. Duman, Ph.D., Associate Research Scientist in Psychiatry
Ronald S. Duman, Ph.D., Elizabeth House and Jameson Mears Professor of Psychiatry and Professor of Pharmacology
David H. Dumont, M.D., Clinical Instructor in Medicine
Charles C. Duncan, M.D., Professor of Neurosurgery and Pediatrics
James S. Duncan, Ph.D., Professor of Diagnostic Radiology and Biomedical Engineering
Anita M. Dunn, P.A., M.S., Clinical Instructor in Medicine
Jan D. Dunn, Ph.D., Lecturer in Epidemiology (Environmental Health)
Dana W. Dunne, M.D., Assistant Clinical Professor of Medicine (Infectious Diseases)
Thomas G. Duslinsky, D.D.S., Assistant Clinical Professor of Surgery (Dental)
Alvaro Duque, Ph.D., Associate Research Scientist in Neurobiology
Amanda J. Durante, Ph.D., Lecturer in Public Health (Global Health)
Dennis P. Durante, M.D., Assistant Clinical Professor of Pediatrics
Sasha L. Durso, M.S.N., Associate Research Scientist in the Child Study Center
Israel Dvoretzky, M.D., Clinical Professor of Dermatology
Gregory G. Dworkin, M.D., Assistant Clinical Professor of Pediatrics
Elisabeth M. Dykens, Ph.D., Assistant Clinical Professor in the Child Study Center
James D. Dziura, Ph.D., M.P.H., Research Scientist in Medicine (Endocrinology) and Pediatrics
Caroline J. Easton, Ph.D., Associate Professor of Psychiatry
Michael H. Ebert, M.D., Professor of Psychiatry
Patricia A. Ecker, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Stephen C. Edberg, Ph.D., Professor of Laboratory Medicine and Medicine (Infectious Diseases)
Carl G. Edelen, M.D., Assistant Professor of Psychiatry
John W. Edelglass, M.D., Associate Clinical Professor of Dermatology
Christopher M. Edelmann, M.D., Clinical Instructor in Medicine
Richard L. Edelson, M.D., Professor of Dermatology
Hana Edelson-Costa, M.D., Assistant Clinical Professor in the Child Study Center
Asia Y. Edusa, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Drew J. Edwards, M.D., Clinical Instructor in Medicine
Marie E. Egan, M.D., Associate Professor of Pediatrics (Respiratory) and Cellular and Molecular Physiology
Richard A. Ehrenkranz, M.D., Professor of Pediatrics (Neonatology) and Obstetrics, Gynecology, and Reproductive Sciences
Jan Ehrenwerth, M.D., Professor of Anesthesiology
Barbara E. Ehrlich, Ph.D., Professor of Pharmacology and of Cellular and Molecular Physiology
David J. Eilbott, M.D., Assistant Clinical Professor of Medicine
Roslyn P. Einbinder, M.D., Clinical Instructor in Neurology
Thomas D. Eisen, M.D., Assistant Clinical Professor of Medicine
Judith Eisenberg, M.S.W., Clinical Instructor in the Child Study Center (Social Work)
Jerome M. Eisenstadt, Ph.D., Professor Emeritus of Genetics
John A. Elefteriades, M.D., William W.L. Glenn Professor of Surgery (Cardiac)
Ayman S. El-Guindy, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
Jack A. Elias, M.D., Waldemar Von Zedtwitz Professor of Medicine
James I. Elliott, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
Peter J. Ellis, M.D., M.P.H., Assistant Professor of Medicine (General Medicine)
Matthew S. Ellman, M.D., Assistant Professor of Medicine (General Medicine)
Joseph S. Elman, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
John M. Elser, M.D., Assistant Clinical Professor of Medicine
John D. Elsworth, Ph.D., Senior Research Scientist in Psychiatry
Geoffrey T. Emerick, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Christine Emmons, Ph.D., Associate Research Scientist in the Child Study Center
Sukru H. Emre, M.D., Professor of Surgery (Transplant)
Donald M. Engelman, Ph.D., Eugene Higgins Professor of Molecular Biophysics and Biochemistry
Cynthia N. Epperson, M.D., Associate Professor of Psychiatry and of Obstetrics, Gynecology, and Reproductive Sciences
Andrew J. Epstein, Ph.D., Assistant Professor of Public Health (Health Policy)
Serle M. Epstein, M.D., Assistant Clinical Professor of Medicine and Nursing
Guita E. Epstein-Wilf, M.D., Assistant Clinical Professor in the Child Study Center
Joseph J. Erdos, M.D., Ph.D., Assistant Clinical Professor of Psychiatry
Jon J. Ernsto≠, M.D., Assistant Clinical Professor of Medicine
Paul L. Errera, M.D., Professor Emeritus of Psychiatry
Sandra I. Escalera, M.D., Assistant Clinical Professor of Pediatrics (Gastroenterology) and Nursing
Juan C. Escalon, M.D., Instructor in Surgery (Cardiac)
Americo E. Esquibies, M.D., Associate Research Scientist in Pediatrics (Respiratory)
Dean M. Esserman, J.D., Lecturer in the Child Study Center
Mark Estacion, Ph.D., Associate Research Scientist in Neurology
Juan Estrada, M.D., Clinical Instructor in Medicine
Veraragavan P. Eswarakumar, Ph.D., Assistant Professor of Orthopaedics and Rehabilitation
Thomas Etkin, M.D., Assistant Clinical Professor of Pediatrics
Edward L. Etkind, M.D., Associate Clinical Professor of Medicine
Arthur Evans, Ph.D., Associate Clinical Professor of Psychiatry
Janine Evans, M.D., Associate Professor of Medicine (Rheumatology)
Leigh V. Evans, M.D., Assistant Professor of Surgery (Emergency Medicine)
Robert Evans, M.D., Clinical Professor in the Child Study Center
Elizabeth E. Eynon, Ph.D., Research Scientist in Immunobiology
Thomas Fabian, M.D., Clinical Instructor in Surgery (Thoracic Surgery)
Gerladine M. Faherty, M.S.N., Lecturer in Surgery (Emergency Medicine)
John T. Fahey, M.D., Associate Professor of Pediatrics (Cardiology)
Nasiha Fahmi, M.D., Assistant Clinical Professor of Medicine
Philip M. Falcone, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Roger D. Fallot, Ph.D., M.Div., M.S., Assistant Clinical Professor of Psychiatry
Paul R. Falzer, Ph.D., Assistant Clinical Professor of Psychiatry
Eric Fan, M.D., Assistant Clinical Professor of Medicine (General Medicine)
Yankhua Fan, Ph.D., Assistant Clinical Professor of Therapeutic Radiology
Leonard R. Farber, M.D., Clinical Professor of Medicine (Medical Oncology)
Steven J. Farber, J.D., P.A., Clinical Instructor in Medicine (AIDS)
George W. Farr, Ph.D., Associate Research Scientist in Genetics
Robert C. Fazio, D.M.D., Associate Clinical Professor of Surgery (Dental)
Kathleen A. Fearn, M.D., Assistant Clinical Professor of Pediatrics
John Federico, M.D., Assistant Clinical Professor of Surgery (Cardiac)
Daniel G. Federman, M.D., Professor of Medicine (General Medicine)
Olga A. Fedorova, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
Dwain C. Fehon, Ph.D., Assistant Professor of Psychiatry
Bernard A. Feigenbaum, M.D., Assistant Clinical Professor of Medicine (Immunology)
Dennis L. Feinberg, M.D., Assistant Clinical Professor of Dermatology
Irwin Feintzeig, M.D., Assistant Clinical Professor of Medicine
Richard B. Feldman, D.P.M., Clinical Instructor in Orthopaedics and Rehabilitation
Ada M. Fenick, M.D., Assistant Professor of Pediatrics (General Pediatrics)
John E. Fenn, M.D., Clinical Professor of Surgery (Vascular)
Wayne A. Fenton, Ph.D., Research Scientist in Genetics
David Ferguson, M.Sc., Lecturer in Laboratory Medicine
Julian B. Ferholt, M.D., Associate Clinical Professor in the Child Study Center
Carlos Fernandez-Hernando, Ph.D., Associate Research Scientist in Pharmacology
Jude L. Fernando, Ph.D., Lecturer in Public Health (Global Health)
Surani R. Fernando, M.D., Clinical Instructor in Medicine
Susan S. Ferro-Novick, Ph.D., Professor of Cell Biology
Evan J. Fertig, M.D., Assistant Professor of Neurology, Pediatrics, and Neurosurgery
Seth Feuerstein, M.D., J.D., Assistant Clinical Professor of Psychiatry
Andrew J. Fezza, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Bruce C. Fichandler, P.A., Lecturer in Surgery (Plastic)
Joseph F. Fickes, M.D., Assistant Clinical Professor of Psychiatry
Philip E. Fidler, M.D., Assistant Clinical Professor of Surgery (Trauma)
Paul N. Fiedler, M.D., Associate Clinical Professor of Pathology and Laboratory Medicine
Cheryl Fields, M.P.H., Lecturer in Epidemiology (Environmental Health)
David A. Fiellin, M.D., Associate Professor of Medicine (General Medicine)
Louis B. Fierman, M.D., Associate Clinical Professor of Psychiatry
Erol Fikrig, M.D., Waldemar Von Zedtwitz Professor of Medicine (Infectious Diseases), Microbial Pathogenesis, and Epidemiology
Margaret K. Fikrig, M.D., Assistant Clinical Professor of Medicine
Diane B. Findley, Ph.D., Associate Research Scientist in the Child Study Center
Diane Fine, M.D., Clinical Instructor in Medicine
Emily A. Fine, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Howard D. Fink, M.D., Associate Clinical Professor of Pediatrics
Steven M. Fink, M.D., Assistant Clinical Professor of Medicine (Digestive Diseases)
Fredric O. Finkelstein, M.D., Clinical Professor of Medicine
Susan Finkelstein, M.S.W., Assistant Clinical Professor of Psychiatry (Social Work)
Michael J. Finnegan, M.D., Lecturer in Medicine
Matia Finn-Stevenson, Ph.D., Associate Research Scientist in the Child Study Center
Katrina S. Firlik, M.D., Assistant Clinical Professor of Neurosurgery
Charles A. Fischbein, M.D., Assistant Clinical Professor of Pediatrics
David S. Fischer, M.D., Clinical Professor of Medicine (Medical Oncology)
James J. Fischer, M.D., Ph.D., Professor of Therapeutic Radiology
Tanya Z. Fischer, M.D., Ph.D., Instructor in Neurology
Durland Fish, Ph.D., Professor of Epidemiology (Microbial Diseases)
Gerald Fishbone, M.B.Ch.B., Associate Clinical Professor of Diagnostic Radiology
Ann F. Fisher, M.D., Assistant Clinical Professor of Medicine (AIDS)
Rosemarie L. Fisher, M.D., Professor of Medicine (Digestive Diseases) and Pediatrics (Gastroenterology)
Deborah A. Fisk, M.S.W., Assistant Clinical Professor of Psychiatry (Social Work)
Joanna M. Fiszdon, Ph.D., Assistant Professor of Psychiatry
Stephen V. Flagg, M.D., Assistant Clinical Professor of Surgery (Plastic)
Sean M. Flaherty, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Maryellen B. Flaherty-Hewitt, M.D., Assistant Clinical Professor of Pediatrics
Gerald H. Flamm, M.D., Clinical Professor of Psychiatry
Dawn Flanagan, Ph.D., M.A., Assistant Clinical Professor in the Child Study Center
Elizabeth H. Flanagan, Ph.D., Associate Research Scientist in Psychiatry
Doreen J. Flanigan, M.S.W., Clinical Instructor in Psychiatry (Social Work)
Frederick A. Flatow, M.D., Assistant Clinical Professor of Medicine
Richard A. Flavell, Ph.D., Sterling Professor of Immunobiology
Steven J. Fleischman, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Sarah S. Fleming, M.S.W., Clinical Instructor in the Child Study Center
William P. Fleming, M.D., M.S., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Jason M. Fletcher, Ph.D., M.S., Assistant Professor of Public Health (Health Policy)
Kim C. Fletcher, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Lawrence J. Fliegelman, M.D., Clinical Instructor in Surgery (Otolaryngology)
James F. Flint, M.D., Assistant Clinical Professor of Medicine
Martin H. Floch, M.D., Clinical Professor of Medicine (Digestive Diseases)
P. John Flory, Ph.D., Senior Research Scientist in Genetics
Harald G. Foellmer, Ph.D., Associate Research Scientist in Medicine (Infectious Diseases)
Robert S. Folman, M.D., Assistant Clinical Professor of Medicine
Ewa J. Folta-Stogniew, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
Anne-Marie Foltz, Ph.D., M.P.H., Lecturer in Public Health (Global Health)
Peter Fonagy, Ph.D., Clinical Professor in the Child Study Center
Jack S. Fong, M.D., Associate Clinical Professor of Pediatrics
Benjamin A. Fontes, M.P.H., C.B.S.P., Lecturer in Epidemiology (Microbial Diseases)
Bliss Forbush III, Ph.D., Professor of Cellular and Molecular Physiology
Judith Ford, Ph.D., Professor of Psychiatry
Bernard G. Forget, M.D., Professor of Medicine (Hematology) and Genetics
Howard P. Forman, M.D. Professor of Diagnostic Radiology, Public Health (Health Policy), Economics, and in the School of Management
Richard N. Formica, M.D., Associate Professor of Medicine (Nephrology), Surgery (Transplant), and Nursing
John N. Forrest, Jr., M.D., Professor of Medicine
Susan H. Forster, M.D., Associate Clinical Professor of Ophthalmology and Visual Science
Brian W. Forsyth, M.B.Ch.B., Professor of Pediatrics (General Pediatrics) and in the Child Study Center
Paul L. Fortgang, M.D., Clinical Instructor in Surgery (Otolaryngology)
Auguste H. Fortin, M.D., M.P.H., Associate Professor of Medicine (General Medicine)
Frank G. Fortunati, M.D., Assistant Clinical Professor of Psychiatry
Stephen J. Fortunato, M.D., Associate Professor (Adjunct) of Obstetrics, Gynecology, and Reproductive Sciences
Francine M. Foss, M.D., Professor of Medicine (Medical Oncology) and Dermatology
Harris E. Foster, M.D., Professor of Surgery (Urology)
Patricia A. Fountain, Ph.D., Assistant Clinical Professor of Psychiatry
David P. Fox, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Helen Fox, Ph.D., Associate Research Scientist in Psychiatry
Patrick Fox, M.D., Assistant Clinical Professor of Psychiatry
Gerald J. Foye, M.B.B.Ch., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Liana Fraenkel, M.D., M.P.H., Associate Professor of Medicine (Rheumatology)
Paul D. Fragner, M.D., Clinical Instructor in Orthopaedics and Rehabilitation
Carlos A. Fragoso, M.D., Assistant Professor of Medicine (Geriatrics)
John S. Francis, M.D., Clinical Instructor in Medicine (AIDS)
Michael J. Franco, M.D., Assistant Clinical Professor of Medicine
Edward H. Francois, M.D., Clinical Instructor in Medicine
Robert P. Franks, Ph.D., Assistant Clinical Professor in the Child Study Center (Social Work)
Lisa M. Frantsve, Ph.D., Assistant Professor of Psychiatry
Sandra J. Frawley, Ph.D., Associate Research Scientist in Anesthesiology (Medical Informatics)
Eric R. Frazer, M.Sc., Assistant Clinical Professor of Psychiatry
William G. Frederick, M.D., Clinical Instructor in Pathology
Lisa A. Freed, M.D., Assistant Clinical Professor of Medicine
Richard M. Freedman, M.D., Associate Clinical Professor of Pediatrics
Bruce G. Freeman, M.D., Clinical Instructor in Pediatrics
Teresa A. Freeman, M.S.S.W., Assistant Clinical Professor of Psychiatry (Social Work)
Alyssa R. French, M.D., Assistant Professor of Surgery (Emergency Medicine)
Joshua Freund, M.H.S., Lecturer in Surgery (Emergency Medicine)
David Freyle, M.D., Assistant Professor of Anesthesiology
Deborah Fried, M.D., Assistant Clinical Professor of Psychiatry
Terri R. Fried, M.D., Associate Professor of Medicine (Geriatrics)
Gary E. Friedlaender, M.D., Wayne O. Southwick Professor of Orthopaedics and Rehabilitation and Professor of Pathology
Linda K. Friedlaender, M.S., Lecturer in Dermatology
Gerald Friedland, M.D., Professor of Medicine (AIDS) and Epidemiology (Microbial Diseases) and Clinical Professor of Nursing
Alan H. Friedman, M.D., Professor of Pediatrics (Cardiology) and Associate Clinical Professor of Nursing
Lloyd Friedman, M.D., Clinical Professor of Medicine (Pulmonary)
Stanley I. Friedman, M.D., Assistant Clinical Professor of Surgery (Otolaryngology)
Linda K. Frisman, Ph.D., Lecturer in Psychiatry
J. J. Frost, M.D., Ph.D., Professor of Diagnostic Radiology and Psychiatry
Li-Ying Fu, M.D., Ph.D., Associate Research Scientist in Neurosurgery
Robert K. Fulbright, M.D., Associate Professor of Diagnostic Radiology
John H. Fullerton, M.D., Clinical Instructor in Medicine
Edmund F. Funai, M.D., Associate Professor of Obstetrics, Gynecology, and Reproductive Sciences
Stefano Fusi, M.D., Assistant Clinical Professor of Surgery (Plastic)
Thomas M. Fynan, M.D., Assistant Clinical Professor of Medicine
Dorothy J. Gaal, M.D., Assistant Professor of Anesthesiology and Neurosurgery
Mary Lou Gaeta, M.D., Assistant Clinical Professor of Pediatrics (Critical Care)
Jonathan E. Gage, M.D., Assistant Clinical Professor of Medicine (Cardiology)
Helmuth W. Gahbauer, M.D., Assistant Clinical Professor of Diagnostic Radiology
Magdy W. Galal, M.B.B.Ch., Associate Clinical Professor of Pediatrics (Neonatology)
Anjela Galan, M.D., Instructor in Dermatology and Pathology
Jorge E. Galan, Ph.D., D.V.M., Lucille P. Markey Professor of Microbial Pathogenesis and Professor of Cell Biology
Lorenzo S. Galante, M.D., Assistant Clinical Professor of Medicine
France Galerneau, M.D., Associate Professor of Obstetrics, Gynecology, and Reproductive Sciences
Anna-Rachel Gallagher, Ph.D., Associate Research Scientist in Medicine (Nephrology)
Patrick G. Gallagher, M.D., Associate Professor of Pediatrics (Neonatology)
John A. Gallalee, M.D., Clinical Instructor in the Child Study Center
Jean-Dominique Gallezot, Ph.D., Associate Research Scientist in the Imaging Research Center
Cornelia L. Gallo, M.D., Assistant Clinical Professor in the Child Study Center
William T. Gallo, Ph.D., M.B.A., Research Scientist in Public Health (Health Policy)
Alison P. Galvani, Ph.D., Assistant Professor of Epidemiology (Microbial Diseases)
Robert S. Galvin, M.D., Professor (Adjunct) of Medicine
G. D. Gammon, M.D., Assistant Clinical Professor in the Child Study Center
Basavaraju S. Ganganna, Ph.D., Associate Research Scientist in Diagnostic Radiology
Qian Gao, M.D., Ph.D., Assistant Professor of Comparative Medicine
Wenli Gao, M.D., Ph.D., Associate Research Scientist in Surgery (Gastroenterology)
Xiao-Bing Gao, Ph.D., Assistant Professor of Obstetrics, Gynecology, and Reproductive Sciences
Mark W. Garber, M.D., Clinical Instructor in Medicine
Rina M. Garcia, M.D., Assistant Professor of Medicine (General Medicine)
Guadalupe Garcia-Tsao, M.D., Professor of Medicine (Digestive Diseases)
Benjamin Gardner, M.D., Assistant Clinical Professor of Pediatrics
Alan Garen, Ph.D., Professor of Molecular Biophysics and Biochemistry
Howard B. Garfinkel, M.D., Clinical Instructor in Medicine
Marita Gargiulo, Ph.D., Associate Research Scientist in Psychiatry
Alexandria Garino, P.A., M.S., Assistant Professor of Medicine (General Medicine)
Joel J. Garsten, M.D., Associate Clinical Professor of Medicine
Richard Garvey, M.D., Assistant Clinical Professor of Surgery
Susan Garwood, M.D., Associate Professor of Anesthesiology
Vittoria Gassman, M.D., Assistant Clinical Professor of Medicine
Paul Gaudio, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Valeswara-Rao Gazula, Ph.D., Associate Research Scientist in Pharmacology
Shelley D. Geballe, M.P.H., Lecturer in Public Health (Health Policy) and Law School
J. Bernard Gee, M.D., Professor Emeritus of Medicine
Joel Ge∞n, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
John P. Geibel, M.D., D.Sc., Professor of Surgery (Gastroenterology) and Cellular and Molecular Physiology
Peggy N. Geimer, M.D., Assistant Clinical Professor of Medicine (Occupational Medicine)
Arnar Geirsson, M.D., Assistant Professor of Surgery (Cardiac)
Daniel I. Geisser, M.D., Associate Clinical Professor of Medicine
Joel E. Gelernter, M.D., Professor of Psychiatry, Genetics, and Neurobiology
Robert A. Gelfand, M.D., Associate Clinical Professor of Medicine (Endocrinology)
Nelson A. Gelfman, M.D., Assistant Clinical Professor of Pathology
David S. Geller, M.D., Ph.D., Associate Research Scientist in Medicine (Nephrology)
Jesse Geller, Ph.D., Associate Clinical Professor of Psychiatry
Inginia Genao, M.D., Assistant Professor of Medicine (General Medicine)
Myron Genel, M.D., Professor Emeritus and Senior Research Scientist in Pediatrics (Endocrinology)
Lin Geng, M.D., Ph.D., Associate Research Scientist in Medicine (Nephrology)
Janneane F. Gent, Ph.D., M.S., Associate Research Scientist in Epidemiology (Environmental Health)
Jaime Gerber, M.D., Associate Clinical Professor of Medicine (Cardiology)
Gregory S. Germain, M.D., Associate Clinical Professor of Pediatrics
Peter Gershkovitch, M.D., Associate Research Scientist in Pathology
Mark B. Gerstein, Ph.D., Albert L. Williams Professor of Molecular Biophysics and Biochemistry and Professor of Computer Science
Brett J. Gerstenhaber, M.D., Assistant Clinical Professor of Medicine
Scott N. Gettinger, M.D., Assistant Professor of Medicine (Medical Oncology)
Andre E. Ghantous, M.D., Assistant Clinical Professor of Medicine
Victor E. Ghantous, M.D., Assistant Clinical Professor of Medicine
Sahar Ghassemi, M.D., Instructor in Medicine (Digestive Diseases)
Satish Ghatpande, Ph.D., M.B.A., Associate Research Scientist in Pediatrics (Pediatric Developmental Biology & Biophysics)
Shukrulla Ghofrany, M.D., Lecturer in Surgery (Gross Anatomy)
Zoher Ghogawala, M.D., Assistant Clinical Professor of Neurosurgery
M. Khurram Ghori, M.B.B.S., Assistant Clinical Professor of Anesthesiology
Prabhat K. Ghosh, Ph.D., Associate Research Scientist in Neurosurgery
Sankar Ghosh, Ph.D., Professor of Immunobiology, Molecular Biophysics and Biochemistry, and Molecular, Cellular, and Developmental Biology
Sikha Ghosh, Ph.D., Associate Research Scientist in Ophthalmology and Visual Science
Richard D. Gibbs, M.D., Clinical Instructor in Medicine
David H. Gibson, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation
Robert H. Gifford, M.D., Professor Emeritus of Medicine (General Medicine)
H. C. Giff, M.D., Assistant Clinical Professor of Medicine
Thomas M. Gill, M.D., Professor of Medicine (Geriatrics), Epidemiology (Chronic Diseases), and Investigative Medicine
Earl L. Giller, M.D., Ph.D., Associate Professor (Adjunct) of Psychiatry
William A. Gillespie, M.D., M.B.A., Lecturer in Public Health (Health Policy)
Mary E. Gillette, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Walter S. Gilliam, Ph.D., Assistant Professor in the Child Study Center
Thomas J. Gillon, M.D., Instructor in Orthopaedics and Rehabilitation
Maureen A. Gilmore-Hebert, Ph.D., Associate Research Scientist in Pathology
Evan M. Ginsberg, M.D., Assistant Clinical Professor of Medicine
Gary L. Ginsberg, Ph.D., Lecturer in Epidemiology (Environmental Health)
Philip M. Ginsburg, M.D., Assistant Clinical Professor of Medicine
Frank J. Giordano, M.D., Associate Professor of Medicine (Cardiology)
Antonio J. Giraldez, Ph.D., Assistant Professor of Genetics
Michael Girardi, M.D., Associate Professor of Dermatology
Marshall Gladstone, Ph.D., Assistant Clinical Professor in the Child Study Center
Gilbert H. Glaser, M.D., Professor Emeritus of Neurology
Peter M. Glazer, M.D., Ph.D., Robert E. Hunter Professor of Therapeutic Radiology and Professor of Genetics
Edward H. Gleich, M.D., Assistant Clinical Professor of Pediatrics
Morton G. Glickman, M.D., Professor Emeritus of Diagnostic Radiology
Tsila Glinberg, M.D., Assistant Clinical Professor of Psychiatry
Earl J. Glusac, M.D., Professor of Pathology and Dermatology
Thomas J. Godar, M.D., Associate Clinical Professor of Medicine (Pulmonary)
Linda S. Godleski, M.D., Associate Professor of Psychiatry
Roger L. Goetsche, M.D., Associate Clinical Professor of Psychiatry
Christopher W. Goff, M.D., Associate Clinical Professor of Pediatrics
John A. Goffinet, M.D., Professor Emeritus of Medicine
Mona A. Gohara, M.D., Clinical Instructor in Dermatology
Barry Goldberg, M.D., Assistant Clinical Professor of Dermatology
Carole T. Goldberg, Psy.D., Assistant Clinical Professor of Psychiatry
Karen Y. Goldberg, M.D., Clinical Instructor in Pediatrics
Philip A. Goldberg, M.D., Assistant Clinical Professor of Medicine (Endocrinology)
Marjorie P. Golden, M.D., Associate Clinical Professor of Medicine
Daniel R. Goldstein, M.B.B.S., Associate Professor of Medicine (Cardiology)
Jonathan M. Goldstein, M.D., Associate Professor of Neurology
Leonard I. Goldstein, Psy.D., Assistant Clinical Professor of Psychiatry
Mark J. Goldstein, M.D., Assistant Clinical Professor of Dermatology
Paul Goldstein, M.D., Clinical Professor of Pediatrics (General Pediatrics)
Sonja Goldstein, LL.B., Lecturer in the Child Study Center
Thomas J. Golembeski, M.D., Assistant Professor of Anesthesiology
George M. Golenwsky, M.D., Assistant Clinical Professor of Pathology
Robert T. Golia, D.D.S., Assistant Clinical Professor of Surgery (Dental)
Annmarie Golito, M.D., Assistant Clinical Professor of Pediatrics (Neonatology)
Efim I. Golub, D.Sc., Research Scientist in Genetics
Liang-Wei Gong, Ph.D., M.S., Associate Research Scientist in Cell Biology
Zhaodi Gong, M.D., Ph.D., Associate Research Scientist in Anesthesiology
Kishorchandra Gonsai, M.B.Ch.B., Assistant Clinical Professor of Psychiatry
Caleb Gonzalez, M.D., Professor Emeritus of Ophthalmology and Visual Science
Luis R. Gonzalez, M.D., M.P.H., Assistant Clinical Professor of Psychiatry
Rosana Gonzalez-Colaso, Pharm.D., M.P.H., Assistant Professor of Medicine (General Medicine)
Gerardo Gonzalez-Haddad, M.D., Assistant Clinical Professor of Psychiatry
Thomas R. Goodman, M.B.Ch.B., Associate Professor of Diagnostic Radiology
Isaac Goodrich, M.D., Associate Clinical Professor of Neurosurgery
Susan G. Goodson, M.D., Lecturer in Psychiatry
Edward C. Goodwin, Ph.D., Research Scientist in Genetics
Julie E. Goodwin, M.D., Associate Research Scientist in Pediatrics (Nephrology)
Derrick M. Gordon, Ph.D., Assistant Clinical Professor of Psychiatry
Judith B. Gordon, Ph.D., Lecturer in Psychiatry
Martin Gordon, M.D., Clinical Professor of Medicine (Digestsive Diseases)
Neil A. Gordon, M.D., Clinical Instructor in Surgery (Otorlaryngology)
Robert S. Gordon, M.D., Associate Clinical Professor of Medicine (Cardiology)
Sonia M. Gordon-Dole, M.D., Assistant Clinical Professor of Medicine (Rheumatology)
Gerald A. Gorecki, D.P.M., Assistant Clinical Professor of Orthopaedics and Rehabilitation
Adam B. Gorelick, M.D., Assistant Clinical Professor of Medicine
Fred Gorelick, M.D., Professor of Medicine (Digeetsive Diseases) and Cell Biology
Judith L. Gorelick, M.D., Clinical Instructor in Neurosurgery
A. Semih Gork, M.D., Clinical Instructor in Pediatrics (Neonatology)
Christopher H. Gottschalk, M.D., Assistant Clinical Professor of Psychiatry and Clinical Instructor in Neurology
Joseph L. Goulet, Ph.D., Associate Research Scientist in Medicine (General Medicine)
Michele A. Goyette-Ewing, Ph.D., Associate Research Scientist in the Child Study Center
Katherine Grady, Ph.D., Associate Clinical Professor of Psychiatry
Andrew J. Graham, M.D., Associate Clinical Professor of Surgery (Gastroenterology)
Attilio V. Granata, M.D., Associate Clinical Professor of Medicine (General Medicine)
James M. Grant, M.D., Associate Clinical Professor of Medicine
Carolyn H. Grantham-Millman, M.P.H., Lecturer in Epidemiology (Environmental Health)
Jane M. Grant-Kels, M.D., Clinical Instructor in Dermatology
Gerald W. Grass, M.D., Assistant Professor of Anesthesiology
Lauretta E. Grau, Ph.D., Associate Research Scientist in Epidemiology (Microbial Diseases)
Jonathan N. Grauer, M.D., Associate Professor of Orthopaedics and Rehabilitation, and Assistant Professor of Pediatrics
Leonard E. Grauer, M.D., Associate Clinical Professor of Medicine (Cardiology)
Linda E. Gray, M.D., Clinical Instructor in Pediatrics and Nursing
Stephen R. Gray, M.D., Assistant Clinical Professor of Laboratory Medicine
David I. Grayer, M.D., Assistant Clinical Professor of Medicine
Claude Grazia, M.S.W., Clinical Instructor in Psychiatry (Social Work)
Peter C. Greco, M.D., Clinical Instructor in Medicine
Thomas P. Greco, M.D., Associate Clinical Professor of Medicine
Barry G. Green, Ph.D., Professor of Surgery (Otolaryngology)
Jerry A. Green, M.D., Assistant Clinical Professor of Medicine (Rheumatology)
Michael L. Green, M.D., Associate Professor of Medicine (General Medicine)
Rosalie M. Greenbaum, Ph.D., Assistant Clinical Professor in the Child Study Center
Greg Greenberg, Ph.D., Lecturer in Psychiatry
Donald R. Greene, M.D., Assistant Clinical Professor of Dermatology
David G. Greenfield, M.D., Clinical Professor of Psychiatry
Dorothy Greenfeld, M.S.W., Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Lee H. Greenwood, M.D., Assistant Clinical Professor of Diagnostic Radiology
Charles A. Greer, Ph.D., Professor of Neurosurgery, Neurobiology, and Investigative Medicine
Francis X. Gregory, Ph.D., Assistant Clinical Professor in the Child Study Center (Social Work)
Tamasine C. Greig, Ph.D., Associate Research Scientist in Psychiatry
Mildred C. Grenough, M.S.W., Clinical Instructor in Psychiatry (Social Work)
Dyan L. Griffin, M.D., Assistant Clinical Professor of Pediatrics
Bernice D. Griffith, M.D., Assistant Clinical Professor of Diagnostic Radiology
Brigitte P. Griffith, Ph.D., Clinical Professor of Laboratory Medicine
Ezra H. Griffith, M.D., Professor of Psychiatry and African American Studies
Elena L. Grigorenko, Ph.D., Associate Professor in the Child Study Center and of Epidemiology (Chronic Diseases)
Carlos M. Grilo, Ph.D., Professor of Psychiatry and Psychology
Jennifer L. Grimsley, M.S.W., Clinical Instructor in the Child Study Center (Social Work)
Nigel D. E. Grindley, Ph.D., Professor of Molecular Biophysics and Biochemistry
Nora E. Groce, Ph.D., Associate Professor of Public Health (Global Health) and Anthropology
Mark S. Grogan, M.D., Assistant Clinical Professor of Medicine
Cary P. Gross, M.D., Associate Professor of Medicine (General Medicine)
Ian Gross, M.B.B.Ch., Professor of Pediatrics (Neonatology) and Obstetrics, Gynecology, and Reproductive Sciences
Jeffrey L. Gross, M.D., Clinical Instructor in Neurology
Victoria L. Gross, M.D., Assistant Clinical Professor of Dermatology
Wendy M. Gross, M.A., Lecturer in Laboratory Medicine
Fred Grossman, D.O., Lecturer in Psychiatry
Matthew R. Grossman, M.D., Assistant Professor of Pediatrics
Richard D. Grossman, D.D.S., Assistant Clinical Professor of Surgery (Dental)
Joseph T. Grosso, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Laura M. Grosso, Ph.D., M.P.H., Associate Research Scientist in Epidemiology (Chronic Diseases)
Roberto J. Groszmann, M.D., Professor of Medicine (Digestive Diseases)
Mary E. Groth, M.S., Clinical Instructor in Pediatrics (Immunology) and Nursing
Elizabeth G. Grottole, M.P.H., M.S.W., Assistant Clinical Professor of Psychiatry (Social Work)
C. Scott Grove, M.D., Assistant Clinical Professor of Psychiatry
Baiba J. Grube, M.D., M.S., Associate Professor of Surgery (Oncology)
Eric M. Grubman, M.D., Clinical Instructor in Medicine (Cardiology)
Jeffrey R. Gruen, M.D., Associate Professor of Pediatrics (Neonatology), Investigative Medicine, and Genetics
Janice M. Gruendel, Ph.D., Lecturer in the Child Study Center
Laurie B. Grunebaum, Ph.D., Assistant Clinical Professor of Psychiatry
Frank L. Gruskay, M.D., Associate Clinical Professor of Pediatrics (Immunology)
Jeffrey A. Gruskay, M.D., Assistant Clinical Professor of Pediatrics
Germano A. Guadagnoli, M.D., Clinical Instructor in Medicine (Rheumatology)
Yongtao Guan, Ph.D., Assistant Professor of Public Health (Biostatistics)
Joseph B. Guarnaccia, M.D., Assistant Clinical Professor of Neurology
Douglas J. Guarnieri, Ph.D., Associate Research Scientist in Psychiatry
Ralitza Gueorguieva, Ph.D., Research Scientist in Public Health (Biostatistics)
Antonio H. Guerrero, M.D., Clinical Instructor in Ophthalmology and Visual Science
Marsha K. Guess, M.D., Assistant Professor of Obstetrics, Gynecology, and Reproductive Sciences
Paul C. Guida, M.D., Clinical Instructor in Ophthalmology and Visual Science
Barbara I. Gulanski, M.D., M.P.H., Associate Professor of Medicine (Endocrinology)
Mridu Gulati, M.D., Assistant Professor of Medicine (Pulmonary)
Erol Gulcicek, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
Seth M. Guller, Ph.D., Associate Professor of Obstetrics, Gynecology, and Reproductive Sciences
Caren M. Gundberg, Ph.D., Professor of Orthopaedics and Rehabilitation
Craig G. Gunderson, M.D., Assistant Professor of Medicine (General Medicine)
Handan Gunduz-Bruce, M.D., Assistant Professor of Psychiatry
John H. Gundy, M.D., Associate Clinical Professor of Pediatrics
Murat Gunel, M.D., Associate Professor of Neurosurgery and Neurobiology
Mary Gunsalus, M.S., Lecturer in the Child Study Center
Erik C. Gunther, Ph.D., Associate Research Scientist in Neurology
Fanqing Guo, Ph.D., Assistant Professor of Therapeutic Radiology
Jiankan Guo, Ph.D., Associate Research Scientist in Medicine (Nephrology)
Xiaojia Guo, Ph.D., Associate Research Scientist in Medicine (Cardiology)
Maria S. Guoth, M.D., Assistant Clinical Professor of Medicine (Endocrinology)
Tarun K. Gupta, M.D., Assistant Clinical Professor of Medicine
Werner K. Gurr, Ph.D., Associate Research Scientist in Medicine (Endocrinology)
Richard J. Gusberg, M.D., Professor of Surgery (Vascular) and Diagnostic Radiology
Clara Gyorgyey, M.A.T., Lecturer in Medicine
Ya Ha, Ph.D., Associate Professor of Pharmacology
Ann M. Haberman, Ph.D., Associate Research Scientist in Laboratory Medicine
Ala Sami Haddadin, M.B.B.S., Assistant Professor of Anesthesiology
James L. Hadler, M.D., M.P.H., Associate Clinical Professor of Epidemiology
Kay A. Haedicke, M.D., Assistant Clinical Professor of Medicine
Peter H. Haffner, M.D., Associate Clinical Professor of Ophthalmology and Visual Science
Bruce G. Haffty, M.D., Professor (Adjunct) of Therapeutic Radiology
Hilary Hahn, M.Ed., M.P.H., Associate Research Scientist in the Child Study Center
Samuel S. Hahn, M.D., Clinical Instructor in Medicine
Andrew H. Haims, M.D., Associate Professor of Diagnostic Radiology and of Orthopaedics and Rehabilitation
G. Kenneth Haines, M.D., Associate Professor of Pathology
Bryan C. Hains, Ph.D., Assistant Professor of Neurology
Tibor Hajszan, M.D., Ph.D., Associate Research Scientist in Obstetrics, Gynecology, and Reproductive Sciences
Ruth Halaban, Ph.D., Senior Research Scientist in Dermatology
Thomas M. Halaszynski, M.D., D.M.D., M.B.A., Associate Professor of Anesthesiology
William B. Hale, M.D., Clinical Instructor in Medicine
Stephanie Halene, M.D., Ph.D., Associate Research Scientist in Medicine (Hematology)
Richard B. Halperin, M.D., M.P.H., Assistant Clinical Professor of Pediatrics
Chalmers M. Hamill, M.D., Assistant Clinical Professor of Medicine
Andrew D. Hamilton, Ph.D., Benjamin Silliman Professor of Chemistry, Professor of Molecular Biophysics and Biochemistry, and Provost of the University
Eric J. Hamilton, M.S., Lecturer in Medicine
Jean M. Hammel, M.D., Assistant Professor of Surgery (Emergency Medicine)
Lynwood W. Hammers, D.O., Associate Clinical Professor of Diagnostic Radiology and Medicine (Endocrinology)
Graeme L. Hammond, M.D., Professor Emeritus and Senior Research Scientist in Surgery (Cardiac)
Janet M. Hammond, M.D., Ph.D., Clinical Instructor in Medicine (Infectious Diseases)
Michelle Hampson, Ph.D., Research Scientist in Diagnostic Radiology
Thomas J. Handler, M.D., Lecturer in Anesthesiology (Medical Informatics)
Robert E. Handschumacher, Ph.D., Professor Emeritus of Pharmacology
Douglas J. Hanlon, Ph.D., Associate Research Scientist in Dermatology
Nathan Hansen, Ph.D., Assistant Professor of Psychiatry
Karen E. Hanson, M.S.S.A., Assistant Clinical Professor in the Child Study Center
(Social Work)
Thomas M. Hanson, M.D., Associate Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Joni H. Hansson, M.D., Assistant Clinical Professor of Medicine
Liming Hao, M.D., Associate Professor of Pathology
Martha J. Harding, D.V.M., Ph.D., Associate Research Scientist in Comparative Medicine
Noam Y. Harel, M.D., Ph.D., Instructor in Neurology
Malini Harigopal, B.M., Instructor in Pathology
Laurie L. Harkness, Ph.D., M.S.W., Associate Clinical Professor of Psychiatry
Jonathan C. Harland, M.D., Assistant Clinical Professor of Psychiatry
Michael Harma, M.D., Instructor in Medicine
Ilan Harpaz-Rotem, Ph.D., M.A., Assistant Professor of Psychiatry
Lyndsay N. Harris, M.D., Associate Professor of Medicine (Medical Oncology)
Pamela M. Hartigan, Ph.D., Associate Professor (Adjunct) of Public Health (Biostatistics)
Karl T. Hartmann, M.D., Clinical Instructor in Medicine
Kari A. Hartwig, Dr.P.H., Assistant Clinical Professor of Public Health (Global Health)
Jonathan E. Harwin, M.D., Clinical Instructor in Pediatrics
M. J. Hasbani, M.D., Ph.D., Clinical Instructor in Neurology
Moshe Hasbani, M.D., Assistant Clinical Professor of Neurology
Florence P. Haseltine, M.D., Ph.D., Lecturer in Obstetrics, Gynecology, and Reproductive Sciences
Sabet Hashim, M.D., Associate Professor of Surgery (Cardiac)
Carl Hashimoto, Ph.D., Associate Professor of Cell Biology
Sally G. Haskell, M.D., Associate Professor of Medicine (General Medicine)
Kenneth Haspel, M.D., Associate Professor of Anesthesiology
Hatim A. Hassan, M.D., Ph.D., Clinical Instructor in Neurology
Ryan C. Haug, M.S., Lecturer in Surgery (Emergency Medicine)
Debra P. Hauser, Ph.D., M.S.W., Lecturer in the Child Study Center
Jack Hauser, M.D., Clinical Instructor in Medicine
Daniel Hawiger, M.D., Ph.D., Associate Research Scientist in Immunobiology
Dietra D. Hawkins, Psy.D., Assistant Clinical Professor of Psychiatry
Keith A. Hawkins, M.Phil., Psy.D., Associate Professor of Psychiatry
Seonaid F. Hay, M.D., Assistant Professor of Medicine (General Medicine)
Lisa C. Hayden, Ph.D., Clinical Instructor in the Child Study Center
George M. Hayner, P.A., Lecturer in Surgery (Urology)
Norris M. Haynes, Ph.D., Associate Clinical Professor in the Child Study Center and Associate Professor of Psychology
John P. Hayslett, M.D., Professor of Medicine (Nephrology) and Obstetrics, Gynecology, and Reproductive Sciences
Chuan H. He, Ph.D., M.B.A., Associate Research Scientist in Medicine (Pulmonary)
Yun He, Ph.D., Associate Research Scientist in Pathology
Peter W. Heald, M.D., Professor of Dermatology
Alicia A. Heapy, Ph.D., Associate Research Scientist in Psychiatry
Saylor Heidmann, M.Sc., Lecturer in the Child Study Center
Robert Heimer, Ph.D., Professor of Epidemiology (Microbial Diseases) and Pharmacology
Christiana Heise, M.S.W., Clinical Instructor in the Child Study Center (Social Work)
Lars E. Helgeson, M.D., Assistant Professor of Anesthesiology
Jacob Hen, M.D., Associate Clinical Professor of Pediatrics
Jacqueline K. Henchel, M.D., M.P.H., Assistant Clinical Professor of Medicine (Geriatrics)
Rosa E. G. Hendler, M.D., Research Scientist in Medicine (Endocrinology)
Robert P. Hendrikson, M.D., Clinical Instructor in Orthopaedics and Rehabilitation
Octavian I. Henegariu, M.D., Ph.D., Associate Research Scientist in Immunobiology
George Heninger, M.D., Professor Emeritus and Senior Research Scientist in Psychiatry
Julian Henley, M.D., Assistant Clinical Professor of Surgery (Otolaryngology)
Arnon Henn, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
Hava Henn, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
Janet B. Henrich, M.D., Associate Professor of Medicine (General Medicine) and Obstetrics, Gynecology, and Reproductive Sciences
Glen Henry, M.D., Clinical Instructor in Medicine (Cardiology)
Peter N. Herbert, M.D., Clinical Professor of Medicine (Endocrinology)
Tara M. Herbert, P.A., Lecturer in Surgery (Emergency Medicine)
Peter Herman, M.D., Ph.D., Associate Research Scientist in Diagnostic Radiology
Herbert I. Hermele, M.D., Clinical Instructor in Orthopaedics and Rehabilitation
Keith Hernandez, M.D., Assistant Professor of Anesthesiology
Kevan Herold, M.D., Professor of Immunobiology and Medicine (Endocrinology)
Adriana Herrera, M.D., Assistant Professor of Anesthesiology
Christina A. Herrick, M.D., Ph.D., Associate Professor of Dermatology
Jeffrey Herrin, Ph.D., M.S., Assistant Professor (Adjunct) of Medicine (Cardiology)
David C. Hersh, M.D., Ph.D., Assistant Professor of Pediatrics
Stanley B. Hersh, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Robert A. Herzlinger, M.D., Associate Clinical Professor of Pediatrics
Erica Herzog, M.D., Ph.D., Lecturer in Molecular Biophysics and Biochemistry
Erica L. Herzog, M.D., Ph.D., Assistant Professor of Medicine (Pulmonary and Critical Care) and Lecturer in Molecular Biophysics and Biochemistry
Ann G. Hess, M.D., Ph.D., Assistant Clinical Professor in the Child Study Center
Hoby P. Hetherington, Ph.D., Professor of Neurosurgery and Diagnostic Radiology
Pamela Hetherington, M.D., Clinical Instructor in the Child Study Center
Scott Heysell, M.D., M.P.H., Instructor in Medicine
Walter J. Hierholzer, M.D., Professor Emeritus of Medicine (Infectious Diseases)
Matthew J. Higgins, D.O., Assistant Professor of Anesthesiology
Susan A. Higgins, M.D., Associate Professor of Therapeutic Radiology
David G. Hill, M.D., Assistant Clinical Professor of Medicine
Susan R. Hill, M.S.W., Assistant Clinical Professor of Psychiatry (Social Work)
James J. Hill, III, M.D., Instructor in Medicine (Occupational Medicine)
Marc Hillbrand, Ph.D., Assistant Clinical Professor of Psychiatry
Oscar F. Hills, M.D., Associate Clinical Professor of Psychiatry
Robert L. Hines, M.D., Nicholas M. Greene Professor of Anesthesiology
Ronald H. Hirokawa, M.D., Assistant Clinical Professor of Surgery (Otolaryngology)
Judy C. Hlawitschka, M.D., Clinical Instructor in Medicine
Robert J. Hobbie, M.D., Assistant Clinical Professor of Pediatrics
Richard B. Hochberg, Ph.D., Professor of Obstetrics, Gynecology, and Reproductive Sciences
Mark W. Hochstrasser, Ph.D., Professor of Molecular Biophysics and Biochemistry and of Molecular, Cellular, and Developmental Biology
Kelly L. Hodges, M.D., Instructor in Pediatrics (General Pediatrics)
Eric J. Hodgson, M.D., Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Michael E. Hodsdon, M.D., Ph.D., Assistant Professor of Laboratory Medicine and Pharmacology
Ann M. Hoefer, M.D., Clinical Instructor in Pediatrics
Joseph F. Hoffman, Ph.D., Professor Emeritus and Senior Research Scientist in Cellular and Molecular Physiology
Ralph E. Hoffman, M.D., Professor of Psychiatry
Robert J. Hoffnung, Ph.D., Associate Clinical Professor of Psychiatry
Dirk Hofreuter, Ph.D., Associate Research Scientist in Microbial Pathogenesis
Catherine Hogan, M.S.W., Clinical Instructor in the Child Study Center (Social Work)
Mary Jane S. Hogan, M.D., Clinical Instructor in Pediatrics (Hematology/Oncology)
Michael A. Hoge, Ph.D., Professor of Psychiatry
Josephine J. Hoh, Ph.D., Associate Professor of Epidemiology (Chronic Diseases) and Ophthalmology and Visual Science
Nikki J. Holbrook, Ph.D., Professor (Adjunct) of Medicine (Geriatrics)
Kristin Holdt, M.S.W., Clinical Instructor in the Child Study Center (Social Work)
Theodore R. Holford, Ph.D., Susan D. Bliss Professor of Public Health (Biostatistics) and Professor of Statistics
Charles F. Hollander, M.D., Assistant Clinical Professor of Medicine
Dickerman Hollister, M.D., Assistant Clinical Professor of Medicine
Eric S. Holmboe, M.D., Professor (Adjunct) of Medicine (General Medicine)
Ferrin C. Holmes, M.D., Clinical Instructor in Pediatrics
Elizabeth H. Holt, M.D., Ph.D., Assistant Professor of Medicine (Endocrinology)
Natalie F. Holt, M.D., Assistant Professor of Anesthesiology
Stephen R. Holt, M.D., M.S., Instructor in Medicine
Kevin Holtzman, Ph.D., Assistant Clinical Professor of Psychiatry
Forugh Homayounrooz, M.D., Assistant Clinical Professor of Medicine
Felix R. Homberger, Ph.D., D.V.M., Associate Professor (Adjunct) of Comparative Medicine
Robert J. Homer, M.D., Ph.D., Associate Professor of Pathology and Medicine (Pulmonary)
Xiaoming Hong, M.D., Assistant Clinical Professor of Medicine
Shyoko Honiden, M.D., M.S., Instructor in Medicine (Pulmonary)
Regina J. Hooley, M.D., Assistant Professor of Diagnostic Radiology
Gary E. Horblitt, D.D.S., Assistant Clinical Professor of Surgery (Dental)
Mark C. Horowitz, Ph.D., Professor of Orthopaedics and Rehabilitation
Nina R. Horowitz, M.D., Assistant Clinical Professor of Surgery (Oncology)
Harold L. Horton, D.M.D., Associate Clinical Professor of Surgery (Dental)
Laura J. Horvath, M.D., Assistant Professor of Diagnostic Radiology
Tamás L. Horváth, D.V.M., Ph.D., Professor of Comparative Medicine, of Obstetrics,
Gynecology, and Reproductive Sciences, and of Neurobiology
Arthur L. Horwich, M.D., Sterling Professor of Genetics and Pediatrics
Carla M. Horwitz, D.Ed., Lecturer in the Child Study Center
Leora I. Horwitz, M.D., Assistant Professor of Medicine (General Medicine)
Ralph I. Horwitz, M.D., Professor Emeritus of Medicine (General Medicine)
Sarah M. Horwitz, Ph.D., Associate Professor Emeritus of Public Health (Health
Policy)
Margaret K. Hostetter, M.D., Jean McLean Wallace Professor of Pediatrics
(Immunology) and Professor of Microbial Pathogenesis
Sybil J. Houlding, M.S.W., Assistant Clinical Professor of Psychiatry (Social Work)
Robert K. Houlihan, M.D., Associate Clinical Professor of Surgery (Gastroenterology)
Martha A. Howard, M.D., Clinical Instructor in Ophthalmology and Visual Science
Christine L. Howe, Ph.D., Research Scientist in Pathology
James R. Howe, Ph.D., Professor of Pharmacology
John G. Howe, Ph.D., Assistant Professor of Laboratory Medicine
Christopher J. A. Howes, M.D., Assistant Professor of Medicine (Cardiology)
Allen L. Hsiao, M.D., Assistant Professor of Pediatrics (Emergency Medicine)
Fenghua Hu, Ph.D., Associate Research Scientist in Neurology
Rong Hu, Ph.D., M.S., Associate Research Scientist in Pharmacology
Zhiwei Hu, Ph.D., Research Scientist in Obstetrics, Gynecology, and Reproductive
Sciences
Hao Huang, M.D., M.S., Associate Research Scientist in Neurosurgery
Henry Y. Huang, Ph.D., Associate Professor of Diagnostic Radiology
John J. Huang, M.D., Assistant Professor of Ophthalmology and Visual Science
Lily J. Huang, M.D., Clinical Instructor in Medicine
Quanhua Huang, Ph.D., Associate Research Scientist in Medicine (Cardiology)
Se-Te J. Huang, M.D., Ph.D., Associate Research Scientist in Obstetrics, Gynecology,
and Reproductive Sciences
Yan Huang, M.D., Associate Research Scientist in Immunobiology
Yan Huang, Ph.D., Associate Research Scientist in Medicine (Cardiology)
Yingqun Huang, M.D., Ph.D., Assistant Professor of Obstetrics, Gynecology, and
Reproductive Sciences
Andrew M. Hudson, Ph.D., Associate Research Scientist in Genetics
John S. Hughes, M.D., Professor of Medicine (General Medicine)
Pei Hui, M.D., Ph.D., Associate Professor of Pathology
James W. Huleatt, Ph.D., Lecturer in Immunobiology
Debbie L. Humphries, Ph.D., M.P.H., Clinical Instructor in Public Health (Global
Health)
Christie M. Hunnicutt, M.S.W., L.C.S.W., Clinical Instructor in Psychiatry (Social Work)
Kevin J. Hunt, M.D., Assistant Clinical Professor of Medicine (Immunology)
Richard G. Huntley, M.D., Assistant Clinical Professor of Medicine
Stephen J. Huot, M.D., Ph.D., Professor of Medicine (Nephrology)
Sohail Z. Husain, M.D., Assistant Professor of Pediatrics (Gastroenterology)
Gabor B. Huszar, M.D., Senior Research Scientist in Obstetrics, Gynecology, and Reproductive Sciences
Alex Hasiholan Hutagalung, Ph.D., Associate Research Scientist in Cell Biology
Gordon J. Hutchinson, M.D., Associate Clinical Professor of Medicine (Rheumatology)
Karen A. Hutchinson, M.D., Associate Clinical Professor of Medicine
Craig R. Huttler, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Chau Huynh, Ph.D., Associate Research Scientist in Microbial Pathogenesis
Fahmeed Hyder, Ph.D., Associate Professor of Diagnostic Radiology and Biomedical Engineering
Leslie C. Hyman, M.S.W., Clinical Instructor in Psychiatry (Social Work)
Scott M. Hyman, Ph.D., Associate Research Scientist in Psychiatry
Eric A. Hyson, M.D., Associate Clinical Professor of Diagnostic Radiology
John Iannarone, M.D., Assistant Clinical Professor of Medicine
Rhianon Iassogna, M.S.N., Lecturer in Surgery (Emergency Medicine)
Jeannette R. Ickovics, Ph.D., Professor of Epidemiology (Chronic Diseases) and Psychology
Margaret K. Ikeda, M.D., Assistant Clinical Professor of Pediatrics
Christopher D. Illick, M.D., Assistant Clinical Professor of Medicine (Digestive Diseases)
Jessica L. Illuzzi, M.D., Assistant Professor of Obstetrics, Gynecology, and Reproductive Sciences
Avlin B. Imaeda, M.D., Ph.D., Assistant Professor of Medicine (Digestive Diseases)
Suguru Imaeda, M.D., Assistant Professor of Dermatology
Olutayo T. Imevbore, M.B.Ch.B., Clinical Instructor in Medicine
Bonnie A. Indeck, M.S.W., Clinical Instructor in Medicine (Medical Oncology)
Sharon Inouye, M.D., Professor (Adjunct) of Medicine (General Medicine) and Associate Clinical Professor of Nursing
Karl L. Insogna, M.D., Professor of Medicine (Endocrinology)
Dale M. Intihar, M.D., Clinical Instructor in Medicine
Silvio E. Inzucchi, M.D., Professor of Medicine (Endocrinology)
Sandra Iragorri, M.Agr., Instructor in Pediatrics (Nephrology)
Eliud Irizarry, M.D., Instructor in Neurology
John F. Irving, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation
William D. Irving, M.D., Assistant Clinical Professor of Pediatrics
Melinda L. Irwin, Ph.D., M.P.H., Assistant Professor of Epidemiology (Chronic Diseases)
Shuta Ishibe, M.D., Associate Research Scientist in Medicine (Nephrology)
Kimiko Ishiguro, M.D., Associate Research Scientist in Pharmacology
Gary M. Israel, M.D., Associate Professor of Diagnostic Radiology
Paul C. Ivancic, Ph.D., Associate Research Scientist in Orthopaedics and Rehabilitation
Natalia B. Ivanova, Ph.D., Assistant Professor of Genetics
Yasuko Iwakiri, Ph.D., M.S., Assistant Professor of Medicine (Digestive Diseases)
Akiko Iwaski, Ph.D., Associate Professor of Immunobiology
Bahman Jabbari, M.D., Professor of Neurology
Denis H. Jablonka, M.D., Assistant Professor of Anesthesiology
Jeanne M. Jackson, M.D., Assistant Clinical Professor of Psychiatry
Tamiko V. Jackson, M.D., Assistant Clinical Professor of Pediatrics
Harris Jacobs, M.D., Clinical Professor of Pediatrics (Neonatology)
Selby C. Jacobs, M.D., Professor of Psychiatry and Epidemiology (Chronic Diseases)
Leslie K. Jacobsen, M.D., Associate Professor of Psychiatry and in the Child Study Center
Dolly D. Jacobson, M.S.W., Assistant Clinical Professor of Psychiatry (Social Work)
Robert O. Jacoby, D.V.M., Ph.D., Professor Emeritus and Senior Research Scientist in Comparative Medicine
Steven S. Jacoby, M.D., Assistant Clinical Professor of Medicine
Wendy S. Jacoby, M.D., Assistant Clinical Professor of Dermatology
Farid Jadbabaie, M.D., Assistant Professor of Medicine (Cardiology)
C. Carl Jaffe, M.D., Professor Emeritus of Medicine (Cardiology)
Philip E. Jaffe, M.D., Assistant Clinical Professor of Medicine
Dhanpat Jain, M.D., Associate Professor of Pathology and Medicine (Digestive Diseases)
Priya A. Jamidar, M.B.Ch.B., Associate Professor of Medicine (Digestive Diseases)
James D. Jamieson, M.D., Ph.D., Professor of Cell Biology
Jane S. Jane, Ph.D., Associate Research Scientist in Psychiatry
Henry G. Jarecki, M.D., Professor (Adjunct) of Psychiatry
Robert M. Jarrett, M.D., Associate Clinical Professor of Medicine (Cardiology)
Peter I. Jatlow, M.D., Professor of Laboratory Medicine and Psychiatry
Lata R. Jayanthi, M.B.B.S., Clinical Instructor in Pediatrics
Carine Jean, M.D., Assistant Clinical Professor of Psychiatry
Michel Jean-Baptiste, M.D., Assistant Professor of Psychiatry
James F. Jekel, M.D., Professor Emeritus and Lecturer in Public Health (Global Health)
Peter M. Jenei, M.D., Clinical Instructor in Medicine
Bruce Jennings, M.A., Lecturer in Public Health (Health Policy)
Eileen O. Jennings, M.D., Assistant Clinical Professor in the Child Study Center
Irvin R. Jennings, M.D., Assistant Clinical Professor in the Child Study Center
Grace Y. Jenq, M.D., Assistant Professor of Medicine (Geriatrics)
Weizhen Ji, Ph.D., Associate Research Scientist in Genetics
Yanhong Ji, Ph.D., Associate Research Scientist in Immunobiology
Aimin Jiang, Ph.D., M.S., Associate Research Scientist in Cell Biology
Zhirong Jiang, M.D., Ph.D., Associate Research Scientist in Medicine (Nephrology)
David Johnson, Ph.D., Associate Clinical Professor of Psychiatry
Joshua Johnson, Ph.D., Assistant Professor of Obstetrics, Gynecology, and Reproductive Sciences
Kevin M. Johnson, M.D., Assistant Clinical Professor of Diagnostic Radiology
Marie-Louise T. Johnson, M.D., Ph.D., Clinical Professor of Dermatology
Michele H. Johnson, M.D., Associate Professor of Diagnostic Radiology and Surgery (Otolaryngology)
Peter Jokl, M.D., Professor of Orthopaedics and Rehabilitation
Shelley Jolie, B.S.N., Lecturer in Surgery (Otolaryngology)
Elizabeth A. Jonas, M.D., Assistant Professor of Medicine (Endocrinology)
Beth A. Jones, Ph.D., M.P.H., Associate Professor of Epidemiology (Chronic Diseases)
Russell Jones, Ph.D., M.A., Clinical Instructor in the Child Study Center
Stephen G. Jones, M.D., Associate Clinical Professor of Medicine
Sven-Eric Jordt, Ph.D., Assistant Professor of Pharmacology
Diane K. Jorkasky, M.D., Professor (Adjunct) of Pharmacology
Kavita Joshi, M.B.B.S., Clinical Instructor in Medicine
Vijay Joshi, M.D., Clinical Instructor in Medicine (Endocrinology)
Catherine M. Joyce, D.Phil., Senior Research Scientist in Molecular Biophysics and Biochemistry
Edward T. Joyner, D.Ed., M.A.T., Assistant Clinical Professor in the Child Study Center
Karen J. Jubanyik, M.D., Assistant Professor of Surgery (Emergency Medicine)
Lee Jung, M.D., Assistant Clinical Professor of Medicine
Amy C. Justice, M.D., Ph.D., Associate Professor of Medicine (General Medicine) and Epidemiology and Public Health
Manisha Juthani-Mehta, M.D., Assistant Professor of Medicine (Infectious Diseases)
John C. Kaczmarek, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Leonard K. Kaczmarek, Ph.D., Professor of Pharmacology
Nina Kadan-Lottick, M.D., Assistant Professor of Pediatrics (Hematology/Oncology)
Srinath Kadimi, M.D., Clinical Instructor in Neurology
Susan Kaech, Ph.D., Assistant Professor of Immunobiology
Arie Kaffman, M.D., Assistant Professor of Psychiatry
Sharon L. Kagan, D.Ed., Professor (Adjunct) in the Child Study Center
Ronald S. Kahan, M.D., Associate Clinical Professor of Dermatology
Howard P. Kahn, Ph.D., Assistant Clinical Professor in the Child Study Center
Jeffrey S. Kahn, M.D., Ph.D., Associate Research Scientist in Pediatrics (Infectious Disease) and Lecturer in Molecular Biophysics and Biochemistry
Jeffrey S. Kahn, M.D., Ph.D., Lecturer in Molecular Biophysics and Biochemistry
Zeev Kain, M.D., Professor of Anesthesiology and Pediatrics and in the Child Study Center
Monica A. Kalacznik, M.D., Lecturer in Psychiatry
Amy Kalafa, B.A., Lecturer in Psychiatry
Jessica H. Kalmar, Ph.D., Associate Research Scientist in Psychiatry
Arjun Kalyanpur, M.D., M.B.B.S., Assistant Clinical Professor of Diagnostic Radiology
Masahito Kamanaka, M.D., Ph.D., Associate Research Scientist in Immunobiology
Michael Kaminer, M.D., Assistant Clinical Professor of Dermatology
David M. Kaminsky, M.D., Associate Clinical Professor of Medicine (Cardiology)
Helge Kamphen, Ph.D., Associate Research Scientist in Epidemiology (Microbial Diseases)
Sandhya V. Kanade, M.B.B.S., Clinical Instructor in Medicine (General Medicine)
Carol L. Kandall, M.D., Ph.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Angelica Kaner, Ph.D., Assistant Clinical Professor of Psychiatry
Insoo Kang, M.D., Associate Professor of Medicine (Rheumatology)
Min-Jong Kang, M.D., Ph.D., M.P.H., Associate Research Scientist in Medicine (Pulmonary)
Miyun Kang, M.D., Assistant Clinical Professor of Psychiatry
Fred S. Kantor, M.D., Paul B. Beeson Professor of Medicine (Immunology)
Cyrus R. Kapadia, M.D., Professor of Medicine (Digestive Diseases)
Shanta E. Kapadia, M.B.B.S., Lecturer in Surgery (Gross Anatomy)
Bonnie Kaplan, Ph.D., Lecturer in Anesthesiology (Medical Informatics)
Edward H. Kaplan, Ph.D., William N. and Marie A. Beach Professor of Management Sciences, School of Management, and Professor of Public Health
Harold P. Kaplan, M.D., Assistant Clinical Professor of Medicine
Irina V. Kaplan, Ph.D., Assistant Clinical Professor of Laboratory Medicine
Lewis J. Kaplan, M.D., Associate Professor of Surgery (Trauma)
Michael D. Kaplan, M.D., Assistant Clinical Professor in the Child Study Center
Michael J. Kaplan, M.D., Clinical Instructor in Orthopaedics and Rehabilitation
Norman R. Kaplan, M.D., Clinical Instructor in Orthopaedics and Rehabilitation
Richard B. Kaplan, D.D.S., Assistant Clinical Professor of Surgery (Historical)
Kenneth A. Kaplove, M.D., Assistant Clinical Professor of Medicine
Sujata M. Kar, Ph.D., Associate Research Scientist in Pathology
David E. Karas, M.D., Assistant Clinical Professor of Surgery (Otolaryngology), Pediatrics, and Nursing
Anil K. Karihaloo, Ph.D., M.S., Associate Research Scientist in Medicine (Nephrology)
Emil D. Karlovsky, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Anita Karne, M.D., Assistant Professor of Medicine (General Medicine)
Susan S. Kashaf, M.D., M.P.H., Assistant Professor of Medicine (General Medicine)
Michael Kashgarian, M.D., Professor Emeritus of and Senior Research Scientist in Pathology
Stanislav V. Kasl, Ph.D., Professor of Epidemiology (Chronic Diseases)
Wesley J. Kasprow, Ph.D., M.P.H., Associate Research Scientist in Psychiatry
Mario W. Katigbak, M.D., Instructor in Surgery (Cardiac)
Arkady Katsnelson, M.D., Ph.D., Clinical Instructor in Pathology
Amiram Katz, M.D., Assistant Clinical Professor of Neurology
David Katz, M.D., M.P.H., Associate Professor (Adjunct) of Public Health
Lee D. Katz, M.D., Professor of Diagnostic Radiology and of Orthopaedics and Rehabilitation
Martin E. Katz, M.D., Assistant Clinical Professor of Medicine
Stuart D. Katz, M.D., Associate Professor of Medicine (Cardiology)
Alan S. Kaufman, Ph.D., Clinical Professor in the Child Study Center
Joan Kaufman, Ph.D., Associate Professor of Psychiatry and in the Child Study Center
Joy S. Kaufman, Ph.D., Associate Professor of Psychiatry
Nadeen L. Kaufman, D.Ed., Lecturer in the Child Study Center
Richard E. Kaufman, M.D., Assistant Clinical Professor of Medicine (Immunology)
Randall B. Kaump, M.D., Associate Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Paula B. Kavathas, Ph.D., Professor of Laboratory Medicine, Genetics, and Immunobiology
Ivana Kawikova, M.D., Ph.D., Associate Research Scientist in Immunobiology
Sohail Kayani, M.B.Ch.B., Assistant Clinical Professor of Pediatrics
Umit A. Kayisli, M.Sc., Associate Research Scientist in Obstetrics, Gynecology, and Reproductive Sciences
Richard D. Kayne, M.D., Assistant Clinical Professor of Medicine
Michael A. Kazakoff, M.D., Assistant Clinical Professor of Medicine
Alan E. Kazdin, Ph.D., John M. Musser Professor of Psychology and Professor in the Child Study Center
Barbara I. Kazmierczak, M.D., Ph.D., M.S., Associate Professor of Medicine (Infectious Diseases) and Microbial Pathogenesis
Douglas B. Keck, D.M.D., Assistant Clinical Professor of Surgery (Dental)
Camille Keeler, Ph.D., Associate Research Scientist in Laboratory Medicine
Patricia S. Keenan, Ph.D., M.S., Assistant Professor of Public Health (Health Policy)
Kristaps J. Keggi, M.D., Clinical Professor of Orthopaedics and Rehabilitation
Helen M. Keiser-Pedersen, B.S.N., Lecturer in Surgery (Vascular)
Vaughn F. Keller, M.A., Lecturer in Medicine
John D. Kelley, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation
Thomas A. Kelly, D.M.D., Clinical Instructor in Surgery (Dental)
William Kevin Kelly, D.O., Associate Professor of Medicine (Medical Oncology) and Surgery (Urology)
James E. Kempton, M.D., Instructor in Ophthalmology and Visual Science
Steven Kendell, M.D., Assistant Professor (Adjunct) of Psychiatry
Jay D. Kenkare, M.D., Clinical Instructor in Medicine
Jeannie M. Kenkare, D.O., Assistant Clinical Professor of Medicine
Katherine G. Kennedy, M.D., Assistant Clinical Professor of Psychiatry
Natasha Kennedy, M.S.W., Clinical Instructor in the Child Study Center
Thomas L. Kennedy, M.D., Clinical Professor of Pediatrics
Risa H. Kent, M.D., Assistant Professor of Diagnostic Radiology
Bonnie D. Kerker, Ph.D., Lecturer in Public Health (Health Policy)
Benjamin D. Kerman, Ph.D., Lecturer in the Child Study Center
Walter N. Kernan, M.D., Professor of Medicine (General Medicine)
Robert D. Kerns, Jr., Ph.D., Professor of Psychiatry, Psychology, and Neurology
Trace Kershaw, Ph.D., Assistant Professor of Epidemiology (Chronic Diseases)
Jane E. Kerstetter, Ph.D., M.S., Associate Professor (Adjunct) of Medicine (Endocrinology)
Kevin G. Kett, M.D., Lecturer in Medicine
Daniel J. Kevles, Ph.D., Professor of the History of Medicine
Jonathan J. Key, D.P.M., Clinical Instructor in Orthopaedics and Rehabilitation
Brian A. Keyes, M.D., Clinical Instructor in the Child Study Center
Anwar M. Khan, M.D., Assistant Professor of Therapeutic Radiology
Sarah Khan, M.B.B.S., Assistant Professor of Anesthesiology
Shaukat Khan, M.B.B.S., Assistant Clinical Professor of Psychiatry
Yasmine Khan, M.B.B.S., Clinical Instructor in Medicine
Mustafa K. Khokha, M.D., Assistant Professor of Pediatrics (Critical Care) and Genetics
Kaveh Khoshnood, Ph.D., M.P.H., Assistant Professor of Epidemiology (Microbial Diseases)
Richard G. Kibbey, M.D., Ph.D., Instructor in Medicine (Endocrinology)
Judith R. Kidd, Ph.D., Research Scientist in Genetics
Kenneth K. Kidd, Ph.D., Professor of Genetics and of Ecology and Evolutionary Biology
Mark S. Kidd, Ph.D., Associate Research Scientist in Surgery (Gastroenterology)
Sean Kidd, Ph.D., Assistant Clinical Professor of Psychiatry
Kent A. Kiehl, Ph.D., M.A., Associate Professor (Adjunct) of Psychiatry
E. Leon Kier, M.D., Professor of Diagnostic Radiology
Hyunjin Kim, Ph.D., M.S., Associate Research Scientist in Diagnostic Radiology
Johnny Kim, M.D., Instructor in Medicine
Jung H. Kim, M.D., Professor Emeritus and Senior Research Scientist in Pathology
Kyung Hee Kim, Ph.D., Associate Research Scientist in Medicine (Cardiology)
Philip Kim, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
Richard W. Kim, M.D., Assistant Professor of Surgery (Cardiac)
SunHee Kim, M.D., Assistant Professor of Diagnostic Radiology
Tae Hoon Kim, Ph.D., Assistant Professor of Genetics
Young-Shin Kim, M.D., Ph.D., M.P.H., Assistant Professor in the Child Study Center
Thomas Kimberly, M.S.N., Lecturer in Surgery (Emergency Medicine)
Barbara Kinder, M.D., Professor Emeritus of Surgery (Oncology)
Dennis C. King, M.D., Clinical Instructor in Medicine
Joseph T. King, M.D., M.S.C.E., Associate Professor of Neurosurgery
Robert A. King, M.D., Professor in the Child Study Center
Ruth G. King, M.D., Assistant Clinical Professor in the Child Study Center (Social Work)
Stephen W. Kingsley, M.D., Associate Clinical Professor of Medicine (Digestive Diseases)
Ilan Kinori, M.D., Assistant Clinical Professor of Diagnostic Radiology
Robert Kinstlinger, M.D., Assistant Clinical Professor of Medicine
Harry Kipperman, M.D., Clinical Instructor in Pediatrics
John A. Kirchner, M.D., Professor Emeritus of Surgery (Otolaryngology)
John C. Kirchner, M.D., Assistant Clinical Professor of Surgery (Otolaryngology)
Nancy C. Kirkiles-Smith, Ph.D., Associate Research Scientist in Immunobiology
Barbara M. Kirrane, M.D., Assistant Professor of Surgery (Emergency Medicine)
Jonathan D. Kirsch, M.D., Assistant Professor of Diagnostic Radiology
Lawrence P. Kirschenbaum, M.D., Associate Clinical Professor of Anesthesiology
Paul D. Kirwin, M.D., Associate Professor of Psychiatry
Luke M. Kitahata, M.D., Professor Emeritus of Anesthesiology
Anne S. Klee, Ph.D., Assistant Professor of Psychiatry
Binnie C. Klein, M.S.W., Lecturer in Psychiatry
Jay Klein, M.D., Assistant Clinical Professor of Diagnostic Radiology
Robert H. Klein, Ph.D., Lecturer in Psychiatry
Bethany Kleine, M.S.W., Clinical Instructor in the Child Study Center (Social Work)
Gary E. Kleinman, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
George M. Kleinman, M.D., Clinical Instructor in Pathology
Steven H. Kleinstein, Ph.D., Assistant Professor of Pathology
Kathryn G. Klemic, Ph.D., Associate Research Scientist in Immunobiology
Jason R. Klenoff, M.D., Clinical Instructor in Surgery (Otolaryngology)
Alan S. Kliger, M.D., Clinical Professor of Medicine
Harvey J. Kliman, M.D., Ph.D., Research Scientist in Obstetrics, Gynecology, and Reproductive Sciences
Ami J. Klin, Ph.D., Harris Associate Professor in the Child Study Center and of Psychology
Beth Ann Klink, M.S.W., Assistant Clinical Professor of Psychiatry (Social Work)
Harriet Kluger, M.D., Associate Professor of Medicine (Medical Oncology)
Martin S. Kluger, Ph.D., Research Scientist in Dermatology
Jeffry Klugman, M.D., Lecturer in Psychiatry
Herbert Knight, M.D., Assistant Clinical Professor of Medicine
Jonathan P. S. Knisely, M.D., Associate Professor of Therapeutic Radiology
Jeffrey D. Knispel, M.D., Assistant Clinical Professor of Dermatology
Laurence Knoll, M.D., Clinical Instructor in Medicine
Bruce E. Knox, M.S.W., Assistant Clinical Professor of Psychiatry
Joann M. Knudson, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Christine J. Ko, M.D., Assistant Professor of Dermatology and Pathology
Hetal Kocinsky, M.D., Associate Research Scientist in Pediatrics (Nephrology)
Jeffery D. Kocsis, Ph.D., Professor of Neurology and Neurobiology
Pinar H. Kodaman, M.D., Ph.D., Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Albert C. Koegler, M.D., Clinical Instructor in the Child Study Center
Michael R. Koelle, Ph.D., Associate Professor of Molecular Biophysics and Biochemistry
Kathleen Koenig, M.S.N., Associate Research Scientist in the Child Study Center
Daniel Koenigsberg, M.D., Associate Clinical Professor in the Child Study Center
Fred E. Koerner, Ph.D., Assistant Clinical Professor of Psychiatry
Anita Kohli-Pamnani, M.D., Clinical Instructor in Medicine (Immunology)
Ernest I. Kohorn, M.Chir., M.B.B.Ch., Professor Emeritus of Obstetrics, Gynecology, and Reproductive Sciences
Steven A. Kolenik III, M.D., Assistant Clinical Professor of Dermatology
Anthony J. Koleske, Ph.D., Associate Professor of Molecular Biophysics and Biochemistry and of Neurobiology
Diane M. Komp, M.D., Professor Emeritus of Pediatrics
Yong Kong, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
William H. Konigsberg, Ph.D., Professor of Molecular Biophysics and Biochemistry
Dawn R. W. Kopel, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Gary S. Kopf, M.D., Professor of Surgery (Cardiac)
Elizabeth B. Kopp, Ph.D., Associate Research Scientist in Immunobiology
Charles J. Kopriva, M.D., Professor Emeritus of Anesthesiology
Kurt Koral, D.D.S., Associate Clinical Professor of Surgery (Dental)
Boonsri Kosarussavadi, M.D., Associate Clinical Professor of Anesthesiology
Raymond Koski, Ph.D., Assistant Professor (Adjunct) of Medicine (Rheumatology)
Yanina Kostina-O’Neil, M.D., Clinical Instructor in Ophthalmology and Visual Science
Carolyn C. Kovel, M.D., Associate Clinical Professor of Psychiatry
Diane Kowalski, M.D., Assistant Professor of Pathology and Surgery (Otologyngology)
Michael J. Kozal, M.D., Associate Professor of Medicine (AIDS)
Siegfried J. Kra, M.D., Associate Clinical Professor of Medicine
Adriel A. Kramer, M.D., Clinical Instructor in Medicine
Clifford R. Kramer, M.D., Assistant Clinical Professor of Medicine
Harvey M. Kramer, M.D., Assistant Clinical Professor of Medicine
Kenneth M. Kramer, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation
Ramon N. Kranwinkel, M.D., Assistant Clinical Professor of Pathology
Mark L. Kraus, M.D., Assistant Clinical Professor of Medicine
Diane S. Krause, M.D., Ph.D., Professor of Laboratory Medicine and Pathology
Michael O. Krauthammer, M.D., Ph.D., Assistant Professor of Pathology
Jeffrey D. Kravetz, M.D., Assistant Professor of Medicine (General Medicine)
Allison T. Kravitz, M.S.W., Clinical Instructor in the Child Study Center (Social Work)
Richard E. Kravitz, M.D., Assistant Clinical Professor of Psychiatry
Jo Kremer, M.D., Assistant Clinical Professor of Psychiatry
Elisabeth Kressley, M.D., Clinical Instructor in the Child Study Center
Graciela Krikun, Ph.D., Research Scientist in Obstetrics, Gynecology, and Reproductive Sciences
Suchitra Krishnan-Sarin, Ph.D., Associate Professor of Psychiatry
Paul E. Krochmal, M.D., Assistant Professor of Surgery (Emergency Medicine)
Susan D. Kruger, M.D., Ph.D., Assistant Professor of Psychiatry
Harlan M. Krumholz, M.D., Harold H. Hines, Jr., Professor of Medicine (Cardiology) and Professor of Epidemiology and Public Health and of Investigative Medicine
John H. Krystal, M.D., Robert L. McNeil, Jr., Professor of Psychiatry
Wayne S. Kubal, M.D., Associate Professor of Diagnostic Radiology
Caroline T. Kubiak, M.D., Assistant Clinical Professor of Diagnostic Radiology
Edward Kuczynski, M.A., Lecturer in Obstetrics, Gynecology, and Reproductive Sciences
Lisa C. Kugelman, M.D., Assistant Clinical Professor of Dermatology
Thomas P. Kugelman, M.D., Associate Clinical Professor of Dermatology
Ellen D. Kulaga, M.D., Clinical Instructor in Medicine
Mark E. Kulaga, M.D., Clinical Instructor in Medicine
Raghavendra Kulkarni, M.D., Assistant Professor of Surgery (Emergency Medicine)
Sanjay Kulkarni, M.D., Assistant Professor of Surgery (Transplant)
Thampu Kumarasamy, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Steven H. Kunkes, M.D., Assistant Clinical Professor of Medicine
Phillip H. Kuo, M.D., Assistant Clinical Professor of Diagnostic Radiology
Gary Kupfer, M.D., Associate Professor of Pediatrics (Hematology/Oncology) and Pathology
Joanne Leslie Kurt, M.D., Assistant Clinical Professor of Psychiatry
Matthew M. Kurtz, Ph.D., Assistant Clinical Professor of Psychiatry
Viji J. Kurup, M.D., Assistant Professor of Anesthesiology
Samuel D. Kushlan, M.D., Clinical Professor of Medicine (Digestive Diseases)
John F. Kveton, M.D., Clinical Professor of Surgery (Otolaryngology) and Assistant Clinical Professor of Neurosurgery
Soojung J. Kwon, M.D., M.Phil., Clinical Instructor in Medicine
Youngho Kwon, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
Tassos C. Kyriakides, Ph.D., Associate Research Scientist in Medicine (AIDS)
Themis Kyriakides, Ph.D., Assistant Professor of Pathology
David C. Labaree, Ph.D., Associate Research Scientist in Diagnostic Radiology
Anthony L. Labruzza, M.D., Lecturer in Psychiatry
Robert G. LaCamera, M.D., Clinical Professor of Pediatrics
Jill Lacy, M.D., Associate Professor of Medicine (Medical Oncology)
Suzanne P. Lagarde, M.D., Assistant Clinical Professor of Medicine (Digestive Diseases)
Linda Lager, J.D., Lecturer in Psychiatry
Steven A. Laifer, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Maria D. Lalioti, Ph.D., Assistant Professor of Obstetrics, Gynecology, and Reproductive Sciences
Ping P. Lam, Ph.D., Associate Research Scientist in Medicine (Digestive Diseases)
Si-Hoi Lam, M.D., Assistant Clinical Professor of Medicine
Tukiet T. Lam, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
Wing Lam, Ph.D., Associate Research Scientist in Pharmacology
Philip M. Lamastra, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Ameet Lamba, M.B.B.S., Assistant Clinical Professor of Psychiatry
Carole C. LaMotte, Ph.D., Professor of Neurosurgery
Robert H. LaMotte, Ph.D., Professor of Anesthesiology and Neurobiology
Rachel J. Lampert, M.D., Associate Professor of Medicine (Cardiology)
Gilead I. Lancaster, M.D., Assistant Clinical Professor of Medicine
Jeffrey S. Landau, M.D., Clinical Instructor in the Child Study Center
Arthur B. Landry, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Marie-Louise Landry, M.D., Professor of Laboratory Medicine
Sabine Lang, Ph.D., Associate Research Scientist in Pathology
Robert C. Langdon, M.D., Associate Clinical Professor of Dermatology
Melissa Langhan, M.D., Assistant Professor of Pediatrics (Emergency Medicine)
Helen M. Lankenau, M.D., Assistant Clinical Professor of Psychiatry
Karen Lankford, Ph.D., Associate Research Scientist in Neurology
Donald R. Lannin, M.D., Professor of Surgery (Oncology)
Robert A. Lanzi, M.D., Assistant Clinical Professor of Medicine (Immunology)
Nathaniel Laor, M.D., Clinical Professor in the Child Study Center
Donna M. LaPaglia, Psy.D., Assistant Professor of Psychiatry
Maria D. Lara-Tejero, Ph.D., D.V.M., Associate Research Scientist in Microbial Pathogenesis
Gregory L. Larkin, M.D., M.S., Professor of Surgery (Emergency Medicine)
Elizabeth B. Larned, M.M.S., Lecturer in Surgery (Emergency Medicine)
Wayne I. Larrison, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Laura K. Lasley, M.D., Assistant Clinical Professor of Pediatrics
Usman Latif, M.D., Clinical Instructor in Medicine
Jamshid Latipour, Ph.D., Senior Research Scientist in Surgery (Urology)
Dori Laub, M.D., Clinical Professor of Psychiatry
Mark Laubach, Ph.D., Assistant Professor of Neurobiology
Richard A. Lavely, M.D., J.D., M.P.H., Lecturer in Epidemiology and Public Health
Stanley R. Lavietes, M.D., Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Sylvia J. Lavietes, M.S.W., Assistant Clinical Professor of Pediatrics (Endocrinology)
Jock D. Lawrason, M.D., Associate Clinical Professor of Medicine
Jack P. Lawson, M.B.Ch.B., Professor Emeritus of Diagnostic Radiology
Irix Lax, Ph.D., Associate Professor of Pharmacology
Isaac Lazar, M.D., Clinical Instructor in Pediatrics (Critical Care)
Rossitza Lazova, M.D., Associate Professor of Dermatology and Pathology
Kathleen M. Lazzarini, M.D., Assistant Clinical Professor of Psychiatry
John A. Leach, P.A., Lecturer in Medicine
Brian P. Leaderer, Ph.D., M.P.H., Susan D. Bliss Professor of Epidemiology (Environmental Health) and Environmental Studies, and Deputy Dean of Public Health
David C. Leake, P.A., Lecturer in Medicine
Alan Lebowitz, M.D., Associate Clinical Professor of Medicine (Hematology)
Robert E. Lebson, M.D., Assistant Clinical Professor of Medicine
James F. Leckman, M.D., Neison Harris Professor of Child Psychiatry in the Child Study Center and Professor of Pediatrics and of Psychiatry
Steven B. Leder, Ph.D., Professor of Surgery (Otolaryngology)
Susan E. Lederer, Ph.D., Associate Professor of the History of Medicine, African American Studies, and History
Bandy Lee, M.D., Assistant Clinical Professor of Psychiatry
Chun Geun Lee, M.D., Ph.D., Assistant Professor of Medicine (Pulmonary)
Daeyeol Lee, Ph.D., Associate Professor of Neurobiology
Forrester A. Lee, M.D., Professor of Medicine (Cardiology)
James J. Lee, M.D., Ph.D., Assistant Professor of Medicine (Medical Oncology)
Keat Jin Lee, M.D., Associate Clinical Professor of Surgery (Otolaryngology)
L. Veronica Lee, M.D., Assistant Professor of Medicine (Cardiology)
M. Sung Lee, M.D., Clinical Instructor in Medicine
Mary Alice Lee, Ph.D., M.S.N., Lecturer in Public Health (Health Policy)
Men-Jean Lee, M.D., Associate Professor (Adjunct) of Obstetrics, Gynecology, and Reproductive Sciences
Michael A. Lee, M.D., Assistant Clinical Professor of Pediatrics
Patty Lee, M.D., Associate Professor of Medicine (Pulmonary)
Richard S. Lee, M.D., Instructor in Orthopaedics and Rehabilitation
Sarah Y. Lee, M.D., Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Won-Woo Lee, D.V.M., Ph.D., Associate Research Scientist in Medicine (Rheumatology)
Patricia K. Leebens, M.D., Assistant Clinical Professor in the Child Study Center
Carol H. Lee-French, M.D., Professor of Diagnostic Radiology
Robert F. Leeman, Ph.D., Associate Research Scientist in Psychiatry
David J. Leffell, M.D., Professor of Dermatology and Surgery (Otolaryngology and Plastic)
Nancy E. Legow, Ph.D., Assistant Clinical Professor of Psychiatry
Jerrold C. Lehrman, M.D., Assistant Clinical Professor of Dermatology
Li Lei, M.D., Ph.D., M.S., Associate Research Scientist in Medicine (Cardiology)
Aliza L. Leiser, M.D., Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Richard Lena, M.D., Associate Clinical Professor of Surgery (Urology)
Lin Leng, Ph.D., Research Scientist in Medicine (Rheumatology)
Qiang Leng, Ph.D., Associate Research Scientist in Cellular and Molecular Physiology
Peter Lengyel, Ph.D., Professor Emeritus of Molecular Biophysics and Biochemistry
Ralph B. Lenoci, P.A., Lecturer in Psychiatry
Thomas L. Lentz, M.D., Professor Emeritus and Senior Research Scientist in Cell Biology
Csaba Leranth, M.D., Professor of Obstetrics, Gynecology, and Reproductive Sciences and of Neurobiology
Seth P. Lerner, M.D., Assistant Clinical Professor of Dermatology
Thomas H. Lesnik, M.D., Clinical Instructor in Surgery (Otolaryngology)
Robert L. Lesser, M.D., Clinical Professor of Ophthalmology and Visual Science and of Neurology
Andrew J. Levada, M.D., Associate Clinical Professor of Ophthalmology and Visual Science
John M. Leventhal, M.D., Professor of Pediatrics (General Pediatrics) and in the Child Study Center, and Clinical Professor of Nursing
Robert Leventhal, M.D., Lecturer in Medicine
Marie A. Levett, D.Ed., Associate Research Scientist in the Child Study Center
Lowell S. Levin, D.Ed., M.P.H., Professor Emeritus and Lecturer in Public Health (Global Health)
Robert Aaron Levine, M.D., Clinical Professor of Laboratory Medicine
Robert J. Levine, M.D., Professor of Medicine
Steven B. Levine, M.D., Assistant Clinical Professor of Surgery (Otolaryngology)
Wendy S. Levine, M.D., Clinical Instructor in the Child Study Center
Peter G. Levinson, M.D., Lecturer in Medicine
Howard Levitin, M.D., Professor Emeritus and Senior Research Scientist in Medicine
Becca Levy, Ph.D., Associate Professor of Epidemiology (Chronic Diseases) and Psychology
Lewis L. Levy, M.D., Clinical Professor of Neurology
Sonia W. Levy, M.A., Lecturer in the Child Study Center
Wendy Levy, Psy.D., Clinical Instructor in Psychiatry
Amy B. Lewis, M.D., Assistant Clinical Professor of Dermatology
Dorothy O. Lewis, M.D., Clinical Professor of Psychiatry
Richard C. Lewis, M.D., Assistant Clinical Professor of Psychiatry
Robert J. Lewis, M.D., Assistant Clinical Professor of Medicine
Tene T. Lewis, Ph.D., Assistant Professor of Epidemiology (Chronic Diseases)
Chiang-Shan Li, M.D., Assistant Professor of Epidemiology (Chronic Diseases)
Da-Ming Li, Ph.D., Associate Research Scientist in Genetics
DeWei Li, Ph.D., Lecturer in Epidemiology (Environmental Health)
Guang-Xun Li, Ph.D., M.S., Associate Research Scientist in Medicine (Nephrology)
Guoyong Li, Ph.D., Associate Research Scientist in Medicine (Nephrology)
Hui Li, Ph.D., Associate Research Scientist in Pathology
Jie Hui Li, Ph.D., Associate Research Scientist in Immunobiology
Lei Li, M.D., Ph.D., M.S., Associate Research Scientist in Laboratory Medicine
Li Li, M.D., Associate Research Scientist in Orthopaedics and Rehabilitation
Man Li, Ph.D., Associate Research Scientist in Medicine (Digestive Diseases)
Peining Li, Ph.D., Assistant Professor of Genetics
Qi Li, Ph.D., Associate Research Scientist in Pathology
Tong-Ruei Li, Ph.D., Associate Research Scientist in Genetics
Ying Li, Ph.D., Associate Research Scientist in Neurosurgery
Jin Lian, M.D., Associate Research Scientist in Genetics
Zheng Lian, Ph.D., Associate Research Scientist in Genetics
Theresa H. Liao, M.D., Clinical Instructor in Medicine
Claudia R. Libertin, M.D., Associate Clinical Professor of Medicine (Infectious Diseases)
Judith H. Lichtman, Ph.D., M.P.H., Associate Professor of Epidemiology (Chronic Diseases)
William A. Lieber, M.D., Associate Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Anne Liebling, M.D., Assistant Clinical Professor of Pediatrics and Internal Medicine
Karl-Otto Liebmann, M.D., Associate Clinical Professor of Psychiatry
Jonas V. Lieponis, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation
Richard P. Lifton, M.D., Ph.D., Sterling Professor of Genetics and Professor of Medicine (Nephrology)
Peter E. Liggett, M.D., Clinical Professor of Ophthalmology and Visual Science
Howard M. Likier, M.D., Assistant Clinical Professor of Medicine (Digestive Diseases)
Edward S. Lim, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Jenelyn C. Lim, M.D., Clinical Instructor in Medicine
Joseph K. Lim, M.D., Assistant Professor of Medicine (Digestive Diseases)
Sabina Lim, M.D., M.P.H., Assistant Professor of Psychiatry
David M. Lima, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Haifan Lin, Ph.D., Professor of Cell Biology
Haiqun Lin, M.D., Ph.D., Associate Professor of Public Health (Biostatistics)
Hong J. Lin, M.D., Assistant Clinical Professor of Psychiatry
Jun Lin, Ph.D., M.S., Associate Research Scientist in Ophthalmology and Visual Science
Qun Lin, M.D., Associate Research Scientist in Therapeutic Radiology
Z. Ping Lin, Ph.D., Associate Research Scientist in Pharmacology
Brett Lindenbach, Ph.D., Assistant Professor of Microbial Pathogenesis
Dieter M. Lindskog, M.D., Assistant Professor of Orthopaedics and Rehabilitation
Heather S. Lipkind, M.D., M.S., Assistant Professor of Obstetrics, Gynecology, and Reproductive Sciences
Heather L. Lisitano, M.A., Lecturer in Surgery (Otolaryngology)
David A. Listman, M.D., Clinical Instructor in Pediatrics (Emergency Medicine)
Gilbert J. L’Italien, Sc.D., Assistant Professor (Adjunct) of Medicine
Mark Litchman, M.D., Associate Clinical Professor of Medicine (Immunology)
Edward Littman, M.D., Associate Clinical Professor of Medicine
Emily B. Littman, Ph.D., Assistant Clinical Professor of Psychiatry
Meng Liu, M.D., Ph.D., Associate Research Scientist in Immunobiology
Nengyin Liu, M.D., Ph.D., Associate Research Scientist in Medicine (Rheumatology)
Nian Liu, Ph.D., Associate Research Scientist in Anesthesiology (Medical Informatics)
Qing Liu, M.D., Ph.D., M.S., Associate Research Scientist in Medicine (Occupational Medicine)
Rong-Jian Liu, M.D., Ph.D., Associate Research Scientist in Psychiatry
Tong Liu, Ph.D., Associate Research Scientist in Medicine (Nephrology)
Xiuxin Liu, M.D., Ph.D., Associate Research Scientist in Neurobiology
Yi-Hwa Liu, Ph.D., Associate Professor of Medicine (Cardiology)
Yilun S. Liu, Ph.D., Assistant Professor of Therapeutic Radiology
Paul M. Lizardi, Ph.D., Professor of Pathology
Hector G. Lizcano, M.S.W., Assistant Clinical Professor of Psychiatry (Social Work)
Ana M. Lobo, M.D., M.P.H., Assistant Professor of Anesthesiology
Francis M. Lobo, M.D., M.Phil., Assistant Professor of Medicine (Immunology)
Roberta Lockhart, M.D., Clinical Instructor in Pediatrics
Charles J. Lockwood, M.D., Anita O’Keefe Young Professor of Obstetrics, Gynecology, and Reproductive Sciences
Caroline S. Loeser, M.D., Assistant Professor of Medicine (Digestive Diseases)
Elizabeth L. Loewald, M.D., Associate Clinical Professor in the Child Study Center
Anders Lofqvist, Ph.D., Professor (Adjunct) of Surgery (Otolaryngology)
Elias Lolis, Ph.D., Associate Professor of Pharmacology
Ivan Lomakin, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
Marisa Lomanto, M.D., Assistant Clinical Professor of Anesthesiology
Paul J. Lombroso, M.D., Elizabeth House and Jameson Mears Professor in the Child Study Center and Professor of Psychiatry
Edwin A. Lomotan, M.D., Clinical Instructor in Pediatrics
David B. London, M.D., Assistant Clinical Professor of Psychiatry
Kay M. Long, Ph.D., Associate Clinical Professor of Psychiatry
William S. Long, M.D., Assistant Clinical Professor of Medicine and Nursing
Walter E. Longo, M.D., M.B.A., Professor of Surgery (Gastroenterology)
Matthew F. Lopes, M.P.H., Lecturer in Public Health
Aitziber Lopez-Cortajarena, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
Franklin A. Loria, M.D., Clinical Instructor in Medicine
Christopher P. Loscalzo, M.D., Clinical Instructor in Medicine (Cardiology)
Leslie M. Lothstein, Ph.D., Lecturer in Psychiatry
Angeliki Louvi, Ph.D., Assistant Professor of Neurosurgery
Rachel I. Lovins, M.D., Assistant Clinical Professor of Medicine
K. Brooks Low, Ph.D., Professor (Adjunct) of Research in Therapeutic Radiology
Darcy I. Lowell, M.D., Assistant Clinical Professor of Pediatrics and in the Child Study Center
David M. Lowell, M.D., Clinical Professor of Pathology
Roger A. Lowlicht, D.D.S., Associate Clinical Professor of Surgery (Otolaryngology)
Christine Lozowicz, Psy.D., M.S., Assistant Clinical Professor of Psychiatry
Hadar Lubin, M.D., Assistant Clinical Professor of Psychiatry
Guoyang Luo, M.D., Ph.D., M.S., Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Xingguang Luo, M.D., Assistant Professor of Psychiatry
Andrew S. Lustbader, M.D., Assistant Clinical Professor in the Child Study Center
Michael Lustick, M.D., Assistant Clinical Professor in the Child Study Center
Jeffrey S. Lustman, M.D., Associate Clinical Professor of Psychiatry
Nancy M. Lustman, Ph.D., Assistant Clinical Professor in the Child Study Center
Suniya S. Luthar, Ph.D., Lecturer in Psychiatry
Eileen M. Lydon, P.A., Lecturer in Neurosurgery
James K. Lynch, M.D., Clinical Professor of Orthopaedics and Rehabilitation
Vincent A. Lynch, M.D., Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Robert W. Lyons, M.D., Associate Clinical Professor of Medicine (Infectious Diseases)
Jennifer R. Lytle, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
Bernard Lytton, M.B.B.S., Professor Emeritus of Surgery (Urology)
Bing Ma, M.D., Associate Research Scientist in Medicine (Pulmonary)
Shuangge Ma, Ph.D., M.S., Assistant Professor of Public Health (Biostatistics)
Xian-Yong Ma, Ph.D., Associate Research Scientist in Pathology
Xiaomei Ma, Ph.D., M.S., Assistant Professor of Epidemiology (Chronic Diseases)
Suzanne L. Macari, Ph.D., M.S., Associate Research Scientist in the Child Study Center
Lisa M. Maccarelli, Ph.D., Associate Research Scientist in Psychiatry
Carolyn M. Macica, Ph.D., M.S., Assistant Professor of Medicine (Endocrinology)
Paul K. Maciejewski, Ph.D., Assistant Professor of Psychiatry
John D. MacMicking, Ph.D., Assistant Professor of Microbial Pathogenesis
Donald S. MacMillan, P.A., Lecturer in Surgery (Emergency Medicine)
James D. Macy, D.V.M., Associate Professor of Comparative Medicine
Janet A. Madigan, M.D., Assistant Clinical Professor in the Child Study Center
Steven Madonick, M.D., Assistant Professor (Adjunct) of Psychiatry
Joseph A. Madri, M.D., Ph.D., Professor of Pathology
Maria Rosa Maduro, Ph.D., Associate Research Scientist in Obstetrics, Gynecology, and Reproductive Sciences
Linda L. Maerz, M.D., Assistant Professor of Surgery (Trauma)
John A. Magaldi, M.D., Assistant Clinical Professor of Medicine (Rheumatology)
Urania Magriples, M.D., Associate Professor of Obstetrics, Gynecology, and Reproductive Sciences
Milind C. Mahajan, Ph.D., Associate Research Scientist in Genetics
Rex L. Mahnensmith, M.D., Professor of Medicine (Nephrology)
Maurice J. Mahoney, M.D., J.D., Professor of Genetics, of Pediatrics, and of Obstetrics, Gynecology, and Reproductive Sciences
Nita J. Maihle, Ph.D., Professor of Obstetrics, Gynecology, and Reproductive Sciences, of Pathology, and of Pharmacology
Jonathan Maisel, M.D., Assistant Clinical Professor of Surgery (Emergency Medicine)
Richard B. Makover, M.D., Lecturer in Psychiatry
Robert W. Makuch, Ph.D., Professor of Public Health (Biostatistics) and in the Child Study Center
Stephen E. Malawista, M.D., Professor of Medicine (Rheumatology)
Robert T. Malison, M.D., Associate Professor of Psychiatry
Herbert Malkus, Ph.D., Assistant Clinical Professor of Laboratory Medicine
Beth L. Maloy, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Nicholas Maltby, Ph.D., Assistant Professor (Adjunct) of Psychiatry
Ramanaiah Mamillapalli, Ph.D., Associate Research Scientist in Medicine (Endocrinology)
Mark J. Mamula, Ph.D., M.S., Professor of Medicine (Rheumatology)
Jerold R. Mande, M.P.H., Lecturer in Public Health
Abraham L. Z. Mandel, M.D., Associate Clinical Professor of Anesthesiology
Marshal Mandelkern, M.D., Ph.D., Assistant Clinical Professor of Psychiatry
Shrikant M. Mane, Ph.D., Research Scientist in Molecular Biophysics and Biochemistry
Thomas D. Manes, Ph.D., Associate Research Scientist in Immunobiology
John V. Mangieri, M.D., Clinical Instructor in Orthopaedics and Rehabilitation
Karen A. Mangold, M.D., Instructor in Pediatrics
Arya Mani, M.D., Assistant Professor of Medicine (Cardiology)
Sheida Mani, M.D., Assistant Professor of Therapeutic Radiology
Michael A. Mankus, M.D., Assistant Clinical Professor of Medicine
Cynthia F. Mann, M.D., Assistant Clinical Professor of Pediatrics
Marc E. Mann, M.D., Assistant Clinical Professor of Medicine
Eric S. Manske, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
William Manson, M.D., Clinical Instructor in Surgery (Emergency Medicine)
Constantine A. Manthous, M.D., Associate Clinical Professor of Medicine (Pulmonary)
Laura M. Manuelidis, M.D., Professor of Surgery (Neuropathology)
Jean P. Marachi, M.D., Assistant Clinical Professor in the Child Study Center
Inna Maranets, M.D., Assistant Professor of Anesthesiology
Steven Marans, Ph.D., M.S.W., Harris Professor in the Child Study Center and Professor of Psychiatry
Wendy Marans, M.Sc., Clinical Instructor in the Child Study Center
Linda G. Marc, Sc.D., M.S., M.P.H., Lecturer in Public Health
Vincent T. Marchesi, M.D., Ph.D., Anthony Brady Professor of Pathology and Professor of Cell Biology
Karen E. Marchione, M.A., Associate Research Scientist in Pediatrics (Neurology)
Iacob Marcovici, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Barbara F. Marcus, Ph.D., Assistant Clinical Professor of Psychiatry
Kenneth Marcus, M.D., Lecturer in Psychiatry
Magen D. Marcus, M.D., Clinical Instructor in Medicine
Ruthanne Marcus, M.P.H., Lecturer in Epidemiology (Microbial Diseases)
Michelle C. Marcy, M.D., Instructor in Pediatrics
Ellika P. Mardh, M.D., Associate Clinical Professor of Medicine
Kenneth Marek, M.D., Clinical Professor of Neurology
Luis N. Marenco, M.D., Assistant Professor of Anesthesiology (Medical Informatics)
Michael Margolies, D.M.D., Assistant Clinical Professor of Surgery (Dental)
Arthur Margolin, Ph.D., Research Scientist in Psychiatry
Robert N. Margolis, M.D., Associate Clinical Professor of Orthopaedics and Rehabilitation
Mark A. Marieb, M.D., Assistant Clinical Professor of Medicine and Nursing
Norman J. Marieb, M.D., Clinical Professor of Medicine
A. Michael Marino, M.D., Associate Clinical Professor of Medicine
Saralyn Mark, M.D., Associate Professor (Adjunct) of Medicine and of Obstetrics, Gynecology, and Reproductive Sciences
Eleni A. Markakis, Ph.D., Assistant Professor of Psychiatry
Cathy A. Markle, Ph.D., Assistant Clinical Professor of Psychiatry
Lawrence E. Marks, Ph.D., Professor of Epidemiology (Environmental Health) and Psychology
Peter Marks, M.D., Ph.D., Associate Professor of Medicine (Hematology)
Ellen A. Markstein, M.D., Assistant Clinical Professor of Dermatology
Richard A. Marottoli, M.D., Associate Professor of Medicine (Geriatrics)
Patricia M. Marriott, M.A., Lecturer in Medicine
Katherine E. Marschall, M.D., Assistant Professor of Anesthesiology
Elizabeth R. Marsh, M.D., Assistant Clinical Professor of Dermatology
James S. Marsh, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation and of Nursing
John C. Marsh, M.D., Professor Emeritus of Medicine (Medical Oncology)
Peter S. Marshall, M.D., Assistant Professor of Medicine (Pulmonary)
Bridget A. Martell, M.D., Assistant Clinical Professor of Medicine (General Medicine)
Andres S. Martin, M.D., M.P.H., Professor in the Child Study Center and of Psychiatry
Daniel J. Martin, Ph.D., Associate Research Scientist in Psychiatry
J. Ryan Martin, M.D., Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Victor Martin, M.D., Assistant Clinical Professor of Medicine
Richard A. Martinello, M.D., Assistant Professor of Medicine (Infectious Diseases) and Pediatrics (Infectious Disease)
Philip R. Martinez, M.S.N., Lecturer in Surgery (Emergency Medicine)
Steve Martino, Ph.D., Associate Professor of Psychiatry
James F. Martone, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Robin Masheb, Ph.D., Assistant Professor of Psychiatry
Jan H. Mashman, M.D., Assistant Clinical Professor of Neurology
Paul E. Masi, M.D., Clinical Instructor in Ophthalmology and Visual Science
Urszula Masikiewicz, M.D., Assistant Clinical Professor of Medicine (Endocrinology)
Barbara L. Mason, M.D., Clinical Instructor in the Child Study Center
Graeme F. Mason, Ph.D., Associate Professor of Diagnostic Radiology and Psychiatry
John W. Mason, M.D., Professor Emeritus of Psychiatry
Agnieszka Matczuk, M.D., Clinical Instructor in Pediatrics
Daniel H. Mathalon, M.D., Ph.D., Associate Professor of Psychiatry
Ellen T. Matloff, M.Sc., Research Scientist in Genetics
Jennifer A. Mattera, M.P.H., Lecturer in Public Health (Health Policy)
Richard A. Matthay, M.D., Ingelheim Boeringer Professor of Medicine (Pulmonary)
Michael Matthew, M.D., Assistant Professor of Surgery (Plastic)
Kristin M. Mattocks, Ph.D., M.P.H., Associate Research Scientist in Medicine (General Medicine)
Richard H. Mattson, M.D., Professor Emeritus and Senior Research Scientist in Neurology
Yehuda Matza, Ph.D., Associate Research Scientist in Immunobiology
Howard B. Mayer, M.D., Clinical Instructor in Medicine (Infectious Diseases)
Hylton R. Mayer, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Adam B. Mayerson, M.D., Assistant Clinical Professor of Medicine (Endocrinology)
Linda C. Mayes, M.D., Arnold Gesell Professor of Child Development in the Child Study Center and Professor of Epidemiology and Public Health, Pediatrics, and Psychology
Susan T. Mayne, Ph.D., Professor of Epidemiology (Chronic Diseases)
Donald Mayo, Sc.D., Associate Clinical Professor of Laboratory Medicine
Rowland B. Mayor, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation
James A. Mazer, Ph.D., Assistant Professor of Neurobiology
Eric M. Mazur, M.D., Associate Clinical Professor of Medicine
Carolyn Mazure, Ph.D., Professor of Psychiatry and Psychology
Peter J. McAllister, M.D., Clinical Instructor in Neurology
John R. McArdle, M.D., Assistant Professor of Medicine (Pulmonary)
Karen McArthur, M.D., Clinical Instructor in Medicine
Gail J. McAvay, Ph.D., Associate Research Scientist in Medicine (Geriatrics)
Amanda J. McCabe, M.H.S., Lecturer in Medicine
Megan E. McCabe, M.D., Assistant Professor of Pediatrics (Critical Care)
Stuart W. McCalley, M.D., Assistant Clinical Professor of Medicine
John D. McCallum, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation
Malia A. McCarthy, M.D., Clinical Instructor in the Child Study Center
Paul L. McCarthy, M.D., Professor of Pediatrics (General Pediatrics) and Clinical Professor of Nursing
Shirley M. McCarthy, M.D., Ph.D., Professor of Diagnostic Radiology and of Obstetrics, Gynecology, and Reproductive Sciences
Thomas L. McCarthy, Ph.D., Associate Professor of Surgery (Plastic)
Kathleen M. McCarty, M.P.H., Sc.D., Assistant Professor of Epidemiology (Environmental Health)
Thomas R. McCauley, M.D., Associate Clinical Professor of Diagnostic Radiology
Patricia A. McChesney, Ph.D., Associate Research Scientist in Pediatrics (Hematology/Oncology)
Brenda C. McClain, M.D., Associate Professor of Anesthesiology
Rita W. McCleary, Psy.D., Assistant Clinical Professor of Psychiatry
Bruce L. McClennan, M.D., Professor of Diagnostic Radiology
Gerard F. McCloskey, M.B.B.Ch., Associate Professor of Anesthesiology
Bruce B. McConnell, M.D., Assistant Clinical Professor of Psychiatry
Ruth McCorkle, Ph.D., Florence Schorske Wald Professor of Nursing and Professor of Epidemiology
David A. McCormick, Ph.D., Professor of Neurobiology
Rory J. McCrimmon, M.D., M.B.Ch.B., Assistant Professor of Medicine
  (Endocrinology)
William B. McCullough, M.D., Associate Clinical Professor of Surgery
  (Gastroenterology)
Bruce M. McDonald, M.D., Clinical Professor of Pediatrics
Robert J. McDonald, M.D., Assistant Clinical Professor of Medicine
Bonney McDowell, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and
  Reproductive Sciences
Victoria V. McEvoy, M.P.H., Clinical Instructor in Obstetrics, Gynecology, and
  Reproductive Sciences
Thomas H. McGlashan, M.D., Professor of Psychiatry
John J. McGrade, M.D., Clinical Instructor in Obstetrics, Gynecology, and
  Reproductive Sciences
Brian J. McGrath, M.D., Assistant Clinical Professor of Dermatology
James M. McGrath, M.D., Ph.D., Research Scientist in Comparative Medicine,
  Genetics, and Pediatrics
Peter J. McGreen, Ph.D., Clinical Instructor in the Child Study Center
Braxton McKee, M.D., Associate Clinical Professor of Psychiatry
Milissa A. McKee, M.D., M.P.H., Assistant Professor of Surgery (Pediatrics) and
  Pediatrics
Sherry McKee, Ph.D., Associate Professor of Psychiatry
Alicia A. McKelvey, M.D., M.S., Clinical Instructor in Surgery (Thoracic Surgery)
Katherine C. McKenzie, M.D., Assistant Professor of Medicine
Kristen A. McKiernan, Ph.D., Assistant Professor (Adjunct) of Psychiatry
Robert M. McLean, M.D., Associate Clinical Professor of Medicine (Rheumatology)
Thomas J. McMahon, Ph.D., Associate Professor of Psychiatry and in the Child Study
  Center
Diane McMahon-Pratt, Ph.D., Professor of Epidemiology (Microbial Diseases)
Walter J. McMurray, Ph.D., Research Scientist in Laboratory Medicine
Charles C. L. McNair, Jr., M.D., Assistant Clinical Professor of Medicine
Cynthia F. McNamara, M.D., Assistant Clinical Professor of Medicine (General
  Medicine)
Robert L. McNamara, M.D., M.H.S., Associate Professor of Medicine (Cardiology)
Ewan C. McNay, Ph.D., Assistant Professor of Medicine (Endocrinology) and Lecturer
  in Psychology
Jennifer M. McNiff, M.D., Professor of Dermatology and Pathology
James C. McPartland, Ph.D., Associate Research Scientist in the Child Study Center
Peter McPhedran, M.D., Professor Emeritus of Laboratory Medicine and Senior
  Research Scientist in Medicine (Hematology)
Craig A. McPherson, M.D., Clinical Professor of Medicine (Cardiology)
James C. McVeety, M.D., Associate Clinical Professor of Neurology
Robert S. McWilliam, M.D., Assistant Clinical Professor in the Child Study Center
Alden W. Mead, J.D., Assistant Clinical Professor of Ophthalmology and Visual
  Science
Borislav Meandzija, M.D., Assistant Clinical Professor of Psychiatry (Social Work)
Robert Means, Ph.D., Assistant Professor of Pathology
Michael J. Medvecky, M.D., Assistant Professor of Orthopaedics and Rehabilitation
Ruslan M. Medzhitov, Ph.D., Professor of Immunobiology
Thomas P. Meehan, M.D., Associate Clinical Professor of Medicine
Wajahat Z. Mehal, Ph.D., Assistant Professor of Medicine (Digestive Diseases)
Andrew Meiman, P.A., Lecturer in Surgery (Emergency Medicine)
Andrew W. Meisler, Ph.D., Assistant Clinical Professor of Psychiatry
Jay L. Meizlish, M.D., Clinical Instructor in Medicine
Hilary G. Melcarek, B.S., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
David B. Melchinger, M.D., Associate Clinical Professor of Medicine
Dennis M. Mello, M.D., Assistant Clinical Professor of Surgery (Cardiac)
Nick C. Mellos, M.D., Assistant Clinical Professor of Psychiatry
Donald M. Mender, M.D., Assistant Clinical Professor of Psychiatry
Joseph Mendes, M.S., Lecturer in Surgery (Otolaryngology)
Haiying Meng, M.D., Associate Research Scientist in Pediatrics (Neonatology)
Sunil G. Menon, M.D., Assistant Clinical Professor of Medicine
Laura R. Ment, M.D., Professor of Pediatrics (Neurology) and Neurology
Cheryl Menzies, M.D., Clinical Instructor in Pediatrics
Mark R. Mercurio, M.D., Associate Professor of Pediatrics (Neonatology)
Alan C. Mermans, M.D., Clinical Professor of Pediatrics
Gina M. Merritt, D.O., Instructor in Medicine (Pulmonary)
John A. Merritt, M.D., Assistant Clinical Professor of Medicine
Stephen M. Merz, M.H.A., Lecturer in Public Health (Health Policy)
Stephen A. Messana, D.O., Assistant Clinical Professor of Diagnostic Radiology
Jerome H. Meyer, M.D., Lecturer in Psychiatry
Roslyn M. Meyer, Ph.D., Assistant Clinical Professor of Psychiatry
Alan Meyers, M.D., Assistant Clinical Professor of Pediatrics and Nursing
Judith C. Meyers, Ph.D., Assistant Clinical Professor in the Child Study Center
Alexander P. Miano, M.D., Lecturer in Psychiatry
Elias Michaelides, M.D., Assistant Professor of Surgery (Otolaryngology) and Pediatrics
Tomasz G. Michalewski, M.S.N., Lecturer in Surgery (Emergency Medicine) and Clinical Instructor in Nursing
Karin Michels-Ashwood, M.D., Assistant Clinical Professor of Medicine
Christopher J. Michos, M.D., Clinical Instructor in Medicine
Ira D. Mickenberg, M.D., Associate Clinical Professor of Medicine
Steven P. Mickley, M.D., Assistant Clinical Professor of Medicine
Jeffrey D. Midgley, B.S., Lecturer in Surgery (Emergency Medicine)
Gero Miesenböck, M.D., Associate Professor (Adjunct) of Research in Cell Biology
Christine Migdole, M.S.W., Clinical Instructor in the Child Study Center (Social Work)
Valia T. Mihaylova, Ph.D., Associate Research Scientist in Pediatrics (Hematology/Oncology)
Hosni Mikhail, M.B.B.Ch., Assistant Professor of Anesthesiology
Christa L. Miliaresis, M.D., Clinical Instructor in Pediatrics
Cindy R. Miller, M.D., Associate Professor of Diagnostic Radiology
Debra R. Miller, M.D., Assistant Clinical Professor of Dermatology
Denis J. Miller, M.B.Ch.B., Associate Clinical Professor of Medicine (Digestive Diseases)
Douglas T. Miller, M.D., Assistant Clinical Professor of Medicine
Dwight F. Miller, M.D., Associate Clinical Professor of Pathology
Geoffrey Miller, M.B.Ch.B., M.Phil., Professor of Pediatrics (Neurology) and Neurology
Hannah L. Miller, M.D., Assistant Professor of Medicine (Digestive Diseases)
I. George Miller, M.D., John F. Enders Professor of Pediatrics and Professor of Molecular Biophysics and Biochemistry and of Epidemiology (Microbial Diseases)
John D. Miller, M.D., Clinical Instructor in Medicine
Kenneth D. Miller, M.D., Assistant Professor of Medicine (Medical Oncology)
Matthew A. Miller, M.D., Associate Clinical Professor of Medicine
Perry L. Miller, M.D., Ph.D., Professor of Anesthesiology
Rebecca A. Miller, Ph.D., Associate Research Scientist in Psychiatry
William H. Miller, M.D., Professor Emeritus of Ophthalmology and Visual Science
Saul S. Milles, M.D., Associate Clinical Professor of Medicine (Digestive Diseases)
Ira Mills, Ph.D., Lecturer in Immunobiology
Mark S. Milner, M.D., Associate Clinical Professor of Ophthalmology and Visual Science
Robert M. Milstein, M.D., Ph.D., Assistant Clinical Professor of Psychiatry
Ellen B. Milstone, M.D., Associate Clinical Professor of Dermatology
Leonard M. Milstone, M.D., Professor Emeritus and Research Scientist in Dermatology
Wang Min, Ph.D., Associate Professor of Pathology
Mary Jane Minkin, M.D., Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Elizabeth A. Mirabile-Levens, M.D., Clinical Instructor in Medicine
Andrew D. Miranker, Ph.D., Associate Professor of Molecular Biophysics and Biochemistry
Eugene Mirrer, M.D., Assistant Clinical Professor of Dermatology
Ketu Mishra, Ph.D., Associate Research Scientist in Genetics
Pramod K. Mistry, Ph.D., M.B.B.S., Professor of Pediatrics (Gastroenterology) and Medicine (Digestive Diseases)
Kisha A. Mitchell, M.D., Assistant Professor of Pathology
Martha L. Mitchell, M.S.N., Lecturer in Psychiatry
Martha Mitchell, M.S., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Sanchayeeta Mitra, M.D., Assistant Clinical Professor of Surgery (Otolaryngology)
Craig B. Mittleman, M.D., Clinical Instructor in Medicine
Ben Hur P. Mobo, M.D., M.P.H., Assistant Professor of Medicine (Occupational Medicine)
Raj K. Modak, M.D., Assistant Professor of Anesthesiology
Yorgo E. Modis, Ph.D., Assistant Professor of Molecular Biophysics and Biochemistry
Irvin M. Modlin, M.D., Professor of Surgery (Gastroenterology)
John C. Moench, M.D., Associate Clinical Professor of Neurology
Somaia Mohamed, M.D., Ph.D., Assistant Clinical Professor of Psychiatry
Vahid Mohsenin, M.D., Professor of Medicine (Pulmonary)
Hamid R. Mojibian, M.D., Assistant Professor of Diagnostic Radiology
Annette M. Molinaro, Ph.D., Assistant Professor of Public Health (Biostatistics)
David Moll, M.D., Associate Clinical Professor of Medicine
Linda Monaco, Ph.D., Clinical Instructor in the Child Study Center
Edward P. Monico, M.D., Assistant Professor of Surgery (Emergency Medicine)
Brian T. Montague, D.O., M.S., M.P.H., Clinical Instructor in Medicine
Ruth R. Montgomery, Ph.D., Senior Research Scientist in Medicine (Rheumatology)
Brent A. Moore, Ph.D., Assistant Clinical Professor of Psychiatry
Christopher Moore, M.D., Assistant Professor of Surgery (Emergency Medicine)
Daniel C. Moore, M.D., Lecturer in Psychiatry
Gary S. Moore, Dr.P.H., M.S., Associate Clinical Professor of Public Health
Peter B. Moore, Ph.D., Sterling Professor of Chemistry and Professor of Molecular Biophysics and Biochemistry
Mark S. Mooseker, Ph.D., Ross Granville Harrison Professor of Molecular, Cellular, and Developmental Biology and Professor of Cell Biology
Guilermo G. Mor, M.D., Ph.D., Associate Professor of Obstetrics, Gynecology, and Reproductive Sciences
Pedro Morales, M.D., Clinical Instructor in Medicine
Meena S. Moran, M.D., Assistant Professor of Therapeutic Radiology and Assistant Clinical Professor of Nursing
Thomas Moran, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation
Charles A. Morgan III, M.D., Associate Clinical Professor of Psychiatry
James L. Morgan, M.D., Assistant Clinical Professor of Pediatrics
Peter T. Morgan, M.D., Ph.D., Assistant Professor of Psychiatry
John P. Moriarty, M.D., Assistant Professor of Medicine (General Medicine)
Ernest D. Moritz, M.D., Associate Clinical Professor of Medicine
Yury Morozov, Ph.D., Associate Research Scientist in Neurobiology
Jensia Morris, M.D., Assistant Clinical Professor of Medicine
Thomas A. Morris, P.A., M.S., Lecturer in Surgery (Emergency Medicine)
Victor A. Morris, M.D., Assistant Professor of Medicine (General Medicine)
Carol L. Morrison, M.D., Assistant Clinical Professor of Pediatrics
Murray A. Morrison, M.D., Clinical Instructor in Orthopaedics and Rehabilitation
Robert F. Morrison, M.D., Clinical Instructor in Medicine
Paul M. Morrissey, M.D., Assistant Professor (Adjunct) of Psychiatry
Bret Morrow, Ph.D., Research Scientist in Psychiatry and Associate Clinical Professor of Nursing
Jon S. Morrow, M.D., Ph.D., Raymond Yesner Professor of Pathology and Professor of Molecular, Cellular, and Developmental Biology
Victoria R. Morrow, M.D., Assistant Clinical Professor of Psychiatry
Thomas M. Morse, Ph.D., Associate Research Scientist in Neurobiology
Richard D. Moscarelli, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Harry C. Moscovitz, M.D., Assistant Professor of Surgery (Emergency Medicine) and Assistant Clinical Professor of Nursing
Marvin Moser, M.D., Clinical Professor of Medicine (Cardiology)
Ira Moses, Ph.D., Lecturer in Psychiatry
Stephen J. Moses, M.D., Associate Clinical Professor of Medicine
Jeremy Moss, M.D., Clinical Instructor in Dermatology
Nancy Moss, Ph.D., Assistant Clinical Professor in the Child Study Center
R. Lawrence Moss, M.D., Professor of Surgery (Pediatrics) and Pediatrics
Walther H. Mothes, Ph.D., Associate Professor of Microbial Pathogenesis
Hicham Moukaddam, M.D., Instructor in Diagnostic Radiology
F. Carl Mueller, M.D., Assistant Clinical Professor of Psychiatry
Lloyd M. Mueller, Ph.D., Lecturer in Epidemiology (Chronic Diseases)
Bart E. Muhs, M.D., Assistant Professor of Surgery (Vascular)
Rupa Mukherjee, M.D., Instructor in Medicine
Paul V. Mulinski, M.S.W., Assistant Clinical Professor of Psychiatry (Social Work)
Jewel M. Mullen, M.D., M.P.H., Lecturer in Epidemiology (Chronic Diseases)
Douglas J. Muller, D.D.S., Assistant Clinical Professor of Surgery (Dental)
Richard L. Munich, M.D., Lecturer in Psychiatry
Leonard E. Munstermann, Ph.D., Senior Research Scientist in Epidemiology (Microbial Diseases)
Monica M. Munteanu, M.D., Assistant Clinical Professor of Medicine
James W. Murphy, Ph.D., Associate Research Scientist in Pharmacology
Michael J. Murphy, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation
Terrence E. Murphy, Ph.D., Associate Research Scientist in Medicine (Geriatrics)
Anika S. Murray, M.D., Clinical Instructor in Medicine
Anthony Musto, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
David F. Musto, M.D., Professor in the Child Study Center and of the History of Medicine
Jennifer Myer, M.D., Assistant Clinical Professor of Psychiatry
Nabeel Nabulsi, Ph.D., Associate Research Scientist in Diagnostic Radiology
Jeremy I. Nadelmann, M.D., Assistant Clinical Professor of Medicine (Cardiology)
Yoshio Nagai, M.D., Ph.D., Associate Research Scientist in Medicine (Endocrinology)
Anil B. Nagar, M.D., Associate Professor of Medicine (Digestive Diseases)
Steven F. Nagler, M.S.W., Assistant Clinical Professor in the Child Study Center (Social Work)
Frederick K. Nahm, M.D., Ph.D., Assistant Clinical Professor of Neurology
Ellen Naidorf, M.D., Assistant Clinical Professor of Dermatology
Kesav G. Nair, M.D., Clinical Instructor in Medicine
Angus C. Nairn, Ph.D., Professor of Psychiatry
Sanat K. Nallainathan, M.B.B.S., Associate Clinical Professor of Pediatrics
Guido J. Napolitano, M.D., Clinical Instructor in Medicine
Joan G. Narad, M.D., Associate Clinical Professor in the Child Study Center
Sukanya Narasimhan, Ph.D., Research Scientist in Medicine (Infectious Diseases)
Deepak Narayan, M.D., M.B.B.S., Associate Professor of Surgery (Plastic)
Robert J. Nardino, M.D., Assistant Clinical Professor of Medicine
Esther R. Nash, M.D., Clinical Instructor in Medicine (Occupational Medicine)
Irwin Nash, M.D., Associate Clinical Professor of Laboratory Medicine
Lola B. Nash, M.A., Lecturer in the Child Study Center
Ellen D. Nasper, Ph.D., Assistant Clinical Professor of Psychiatry
Ravinder Nath, Ph.D., Professor of Therapeutic Radiology
Michael H. Nathanson, M.D., Ph.D., Professor of Medicine (Digestive Diseases) and Cell Biology
Christine S. Naungayan, M.D., Lecturer in Psychiatry
Dhasakumar S. Navaratnam, M.D., Ph.D., Assistant Professor of Neurology and Neurobiology
Haq Nawaz, M.D., M.P.H., Assistant Clinical Professor of Medicine
Shah Nawaz, M.D., Clinical Instructor in Medicine
Michael S. Neale, Ph.D., Associate Research Scientist in Psychiatry
Michiro Negishi, Ph.D., Associate Research Scientist in Diagnostic Radiology
Cynthia Negron, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Vladimir Neklesa, M.D., Associate Research Scientist in Diagnostic Radiology
Dael B. Nelson, M.S., B.A., Lecturer in Surgery (Emergency Medicine)
Kelly K. Nelson, M.D., Clinical Instructor in Medicine (Digestive Diseases)
Ingrid M. Nembhard, Ph.D., M.S., Assistant Professor of Public Health (Health Policy) and Management Sciences
Alexander Neumeister, M.D., Associate Professor of Psychiatry
Lisa H. Newton, Ph.D., Lecturer in Medicine
Duc N.T. Nguyen, Ph.D., Associate Research Scientist in Genetics
Ali R. Niakosari, M.D., Assistant Clinical Professor of Diagnostic Radiology
Linda M. Niccolai, Ph.D., Assistant Professor of Epidemiology (Microbial Diseases)
Mary Nicholas, Ph.D., Lecturer in Psychiatry
Sarah S. Nicholls, Ph.D., Associate Research Scientist in the Child Study Center
Connie Nicolosi, M.S.W., Clinical Instructor in Pediatrics (Social Work)
Yongzhan Nie, M.D., Associate Research Scientist in Comparative Medicine
Jennifer Nielsd, M.D., Assistant Clinical Professor of Psychiatry
Daniel E. Nijensohn, M.D., Ph.D., Associate Clinical Professor of Neurosurgery
Laura E. Niklason, M.D., Ph.D., Associate Professor of Anesthesiology and Biomedical Engineering
Roumen N. Nikolov, M.D., Assistant Clinical Professor in the Child Study Center
Yuming Ning, Ph.D., Associate Research Scientist in Medicine (Geriatrics)
Shira Ninio, Ph.D., Associate Research Scientist in Microbial Pathogenesis
Frank J. Ninivaggi, M.D., Assistant Clinical Professor in the Child Study Center and of Psychiatry
Michael N. Nitabach, Ph.D., J.D., Assistant Professor of Cellular and Molecular Physiology
Helena C. Nolasco, M.D., Clinical Instructor in Medicine (Rheumatology)
Emily A. Nolfo, M.D., Assistant Clinical Professor of Medicine (General Medicine)
James Noonan, Ph.D., Assistant Professor of Genetics
Michael P. Noonan, M.D., Assistant Clinical Professor of Dermatology
Barbara Nordhaus, M.Sc., Assistant Clinical Professor in the Child Study Center
   (Social Work)
Michael A. Norko, M.D., Associate Professor of Psychiatry
Errol R. Norwitz, D.Phil., M.B.Ch.B., Associate Professor of Obstetrics, Gynecology, and Reproductive Sciences
William A. Notaro, M.D., Assistant Clinical Professor of Dermatology
Timothy P. Nottoli, Ph.D., Associate Research Scientist in Comparative Medicine
Stuart N. Novack, M.D., Associate Clinical Professor of Medicine
Steven Novella, M.D., Assistant Professor of Neurology
Peter J. Novick, Ph.D., Professor of Cell Biology
David C. Novicki, D.P.M., Assistant Clinical Professor of Orthopaedics and Rehabilitation
Edward J. Novotny, Jr., M.D., Associate Professor of Pediatrics (Pediatric Epilepsy), Neurology, Neurosurgery, and Nursing
Debra O. Nudel, Ph.D., Assistant Clinical Professor of Psychiatry
Ron Nudel, M.D., Assistant Clinical Professor of Medicine (Cardiology)
Sherwin B. Nuland, M.D., Clinical Professor of Surgery (Gastroenterology)
Richard J. Nunes, M.D., Clinical Instructor in the Child Study Center
Diego B. Nunez, M.D., Clinical Professor of Diagnostic Radiology
Marcella Nunez-Smith, M.D., M.H.S., Assistant Professor of Medicine (General Medicine)
Kathryn F. Nuro, Ph.D., Assistant Clinical Professor of Psychiatry
Henry J. Nusbaum, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Paul B. Nussbaum, M.D., Associate Clinical Professor of Medicine
Jose A. Obando, M.D., Assistant Professor of Diagnostic Radiology
Elias Obeid, M.D., Clinical Instructor in Medicine
Ann Marie Oberkirch, M.D., Lecturer in Psychiatry
Erin E. O’Brien, Psy.D., Associate Research Scientist in Psychiatry
John W. O’Brien, M.D., Assistant Clinical Professor of Medicine
Michael K. O’Brien, M.D., Ph.D., Assistant Clinical Professor of Surgery (Gastroenterology)
James J. O’Connell, M.D., Associate Clinical Professor of Medicine
Carolyn J. O’Connor, M.D., Clinical Instructor in Medicine
Patrick G. O’Connor, M.D., Professor of Medicine (General Medicine)
Theresa Z. O’Connor, Ph.D., M.P.H., Associate Research Scientist in Medicine (General Medicine)
David A. Oelberg, M.D., Clinical Instructor in Medicine (Pulmonary)
Mark I. Oestreicher, M.D., Clinical Instructor in Dermatology
Matthew E. Oetgen, M.D., Instructor in Orthopaedics and Rehabilitation
Tae H. Oh, M.D., Professor of Anesthesiology
Mahmoud S. Okasha, M.D., M.B.B.Ch., Associate Clinical Professor of Psychiatry
J. Peter Olausson, Ph.D., Research Scientist in Psychiatry
Garth Oliver, M.D., Assistant Clinical Professor of Medicine
Beatriz R. Olson, M.D., Assistant Clinical Professor of Medicine (Endocrinology)
Cynthia H. Olson, M.Sc., Lecturer in the Child Study Center
Jane J. Olson, M.D., Associate Clinical Professor of Ophthalmology and Visual Science
Nancy D. Olson, M.D., Assistant Clinical Professor of Psychiatry
Stephen P. O’Mahony, M.D., Assistant Clinical Professor of Medicine
Stephanie S. O’Malley, Ph.D., Professor of Psychiatry
Gary Opin, D.M.D., Assistant Clinical Professor of Surgery (Plastic)
Perry M. Opin, D.D.S., Assistant Clinical Professor of Surgery (Plastic)
Charles A. Opsahl, Ph.D., Assistant Clinical Professor of Psychiatry
Pinar Oray-Schrom, M.D., Assistant Clinical Professor of Medicine
Jeffrey A. Orell, M.D., Assistant Clinical Professor of Medicine
Amit G. Oren, Ph.D., Assistant Clinical Professor of Psychiatry
Dan A. Oren, M.D., Associate Professor (Adjunct) of Psychiatry
Jason R. Orlinick, M.D., Ph.D., Clinical Instructor in Medicine
Michael J. Orlosky, M.D., Lecturer in Psychiatry
Michael R. Osborne, M.D., Assistant Professor of Surgery (Emergency Medicine)
Robin G. Oshman, M.D., Assistant Clinical Professor of Dermatology
Denis Ostapenko, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
Adrian Ostfeld, M.D., Professor Emeritus of Epidemiology (Chronic Diseases)
Robert B. Ostroff, M.D., Associate Clinical Professor of Psychiatry
Jason R. Ouellette, M.D., Clinical Instructor in Medicine
Richard M. Ownbey, M.D., Assistant Clinical Professor of Psychiatry
Janelle K. Pacini, M.H.S., Lecturer in Medicine
Shilpa Pai, M.D., Assistant Clinical Professor of Pediatrics (General Pediatrics)
Michael J. Paidas, M.D., Associate Professor of Obstetrics, Gynecology, and Reproductive Sciences
Elijah Paintsil, M.B.Ch.B., Associate Research Scientist in Pediatrics (Infectious Disease) and Pharmacology
Andrew J. Pakstis, Ph.D., Research Scientist in Genetics
Lubna Pal, M.D., Assistant Professor of Obstetrics, Gynecology, and Reproductive Sciences
George E. Palade, M.D., Professor Emeritus of Cell Biology
Eric Palluotto, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Rebekka S. Palmer, Ph.D., Associate Research Scientist in Psychiatry
Philip C. Palmisano, M.D., M.P.H., Assistant Professor of Ophthalmology and Visual Science
A. D. Paltiel, Ph.D., Professor of Public Health (Health Policy) and Management Sciences
Jullie W. Pan, M.D., Ph.D., Associate Professor of Neurosurgery, Diagnostic Radiology, and Neurology
Xinghua Pan, M.D., Ph.D., Associate Research Scientist in Genetics
Manohar M. Panjabi, Ph.D., Professor Emeritus of Orthopaedics and Rehabilitation
Michael V. Pantalon, Ph.D., Assistant Professor of Psychiatry
Wayne T. Panullo, M.D., Assistant Clinical Professor of Medicine
Naomi Panza, M.S.W., Assistant Clinical Professor of Psychiatry
Lisa A. Panzini, M.D., Assistant Clinical Professor of Medicine (Digestive Diseases)
Rose J. Papac, M.D., Professor Emeritus of Medicine (Medical Oncology)
Xenophon Papademetrius, Ph.D., Assistant Professor of Diagnostic Radiology
Rebecca K. Papas, Ph.D., Associate Research Scientist in Medicine (General Medicine)
Wigneswaran W. Paramanathan, M.D., M.S., Clinical Instructor in Medicine
Chirag R. Parikh, M.D., Ph.D., Associate Professor of Medicine (Nephrology)
Manuel Paris, Psy.D., M.S., Assistant Professor of Psychiatry
Michael J. Parisi, M.Sc., Lecturer in Orthopaedics and Rehabilitation
Vinita Parkash, M.B.B.S., Associate Professor of Pathology
David W. Parke, M.D., Associate Clinical Professor of Ophthalmology and Visual Science
Vivek Parwani, M.D., Assistant Professor of Surgery (Emergency Medicine)
Dinesh S. Pashankar, M.D., Associate Professor of Pediatrics (Gastroenterology)
Farzana D. Pashankar, M.D., Assistant Professor of Pediatrics (Hematology/Oncology)
Nicholas M. Passarelli, M.D., Associate Clinical Professor of Surgery (Gastroenterology)
David Passaretti, M.D., Clinical Instructor in Surgery (Plastic)
James J. Pasternack, M.D., Clinical Instructor in Ophthalmology and Visual Science
Jayesh Patel, Ph.D., Associate Research Scientist in Microbial Pathogenesis
Pradip M. Pathare, M.B.B.S., Associate Clinical Professor of Therapeutic Radiology
Pasquale Patrizio, M.D., Professor of Obstetrics, Gynecology, and Reproductive Sciences
Christine L. Patterson, M.D., Instructor in Pediatrics
Curtis L. Patton, Ph.D., Professor Emeritus of Epidemiology (Microbial Diseases)
Huned S. Patwa, M.D., Associate Professor of Neurology
Rhea Paul, Ph.D., Lecturer in the Child Study Center
David L. Pauls, Ph.D., Lecturer in the Child Study Center
Aruna B. Pawashe, Ph.D., Lecturer in Molecular Biophysics and Biochemistry, and Associate Research Scientist in Molecular, Cellular, and Developmental Biology
Puneet Pawha, M.D., Assistant Professor of Diagnostic Radiology
Heather L. Paxton, M.D., Assistant Professor of Psychiatry
Antonio J. Paz, M.D., Clinical Instructor in Medicine (Cardiology)
Godfrey D. Pearlson, M.B.B.S., Professor of Psychiatry
Arnold D. Pearlstone, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
H. Rowland Pearsall, M.D., Associate Clinical Professor of Psychiatry
Charles Woods Pearson, M.S.W., Assistant Clinical Professor of Psychiatry (Social Work)
Howard A. Pearson, M.D., Professor Emeritus of Pediatrics (Hematology/Oncology)
William N. Pearson, M.D., Assistant Clinical Professor of Medicine
Brian Peck, M.D., Assistant Clinical Professor of Medicine (Rheumatology)
Joao Pedra, Ph.D., Associate Research Scientist in Medicine (Infectious Diseases)
Aldo J. Peixoto, M.D., Associate Professor of Medicine (Nephrology)
Richard R. Pelker, M.D., Ph.D., Professor of Orthopaedics and Rehabilitation
Thomas E. Pellechi, M.D., Clinical Instructor in Medicine
Philip G. Penketh, Ph.D., Associate Research Scientist in Pharmacology
Mark A. Perazella, M.D., Associate Professor of Medicine (Nephrology)
Dinesh Perera, M.F.T., Clinical Instructor in the Child Study Center (Social Work)
Michelle M. Perez, M.D., Assistant Clinical Professor of Surgery (Emergency Medicine)
Melissa F. Perkal, M.D., Assistant Professor of Surgery (Trauma)
Jerold M. Perlman, M.D., Clinical Instructor in Orthopaedics and Rehabilitation
James M. Perlotto, M.D., Associate Clinical Professor of Medicine
Ellis A. Perlswig, M.D., Associate Clinical Professor in the Child Study Center and of Psychiatry
Albert C. Perrino, Jr., M.D., Professor of Anesthesiology
Edward B. Perry, M.D., Assistant Professor of Psychiatry
John A. Persing, M.D., Professor of Surgery (Plastic) and Neurosurgery
Mary C. Persinger, M.S.N., Lecturer in Surgery (Emergency Medicine)
Peter E. Pertel, M.D., M.P.H., Assistant Clinical Professor of Medicine (Infectious Diseases)
Richard E. Peschel, M.D., Ph.D., Professor of Therapeutic Radiology
Steven M. Peterec, M.D., Associate Clinical Professor of Pediatrics (Neonatology)
Robert Peters, M.D., Associate Clinical Professor of Psychiatry
Kitt F. Petersen, M.D., Associate Professor of Medicine (Endocrinology)
Andrea A. Peterson, M.D., Clinical Instructor in Medicine
Bradley S. Peterson, M.D., Lecturer in the Child Study Center
Isimne L. Petras, M.D., Associate Professor of Psychiatry
E. Anthony Petrelli, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Richard L. Petrelli, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
William R. Petricone, M.D., J.D., Assistant Clinical Professor of Medicine
Ognen A. C. Petrov, M.D., Associate Professor of Neurology
Anita T. Petruzelli, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Melinda M. Pettigrew, Ph.D., Assistant Professor of Epidemiology (Microbial Diseases)
Christian M. Pettiger, M.D., Assistant Professor of Obstetrics, Gynecology, and Reproductive Sciences
John F. Pezzimenti, M.D., Associate Clinical Professor of Medicine
Steven E. Pfau, M.D., Associate Professor of Medicine (Cardiology)
Kim-Thu C. Pham, M.D., M.P.H., Clinical Instructor in Medicine (General Medicine)
Donna Phanumas, M.D., M.S., Assistant Clinical Professor of Medicine
Daniel M. Philbin, M.D., Lecturer in Medicine (Cardiology)
William M. Philbrick, Ph.D., Senior Research Scientist in Medicine (Endocrinology)
James Phillips, M.D., Associate Clinical Professor of Psychiatry
Lynn J. Phillips, M.D., Clinical Instructor in Medicine
Robert T. Phillips, M.D., Ph.D., Lecturer in Psychiatry
Sidney H. Phillips, M.D., Associate Clinical Professor of Psychiatry
Liane E. Philpotts, M.D., Associate Professor of Diagnostic Radiology
Marina Picciotto, Ph.D., Professor of Psychiatry, Pharmacology, and Neurobiology
Joseph M. Piepmeier, M.D., Nixdorff-German Professor of Neurosurgery
Harrison J. Pierce, M.D., Assistant Clinical Professor of Pediatrics
Vincent A. Pieribone, Ph.D., Associate Professor of Cellular and Molecular Physiology and of Neurobiology
David Pilkey, Ph.D., Assistant Clinical Professor of Psychiatry
Emese Pinter, M.D., Associate Research Scientist in Pediatrics (Neonatology)
Marguerite M. Pinto, M.D., Assistant Professor of Pathology
Margaret A. Pisani, M.D., M.P.H., M.S., Assistant Professor of Medicine (Pulmonary)
James M. Pisciotta, M.S.W., Lecturer in Psychiatry
Christopher Pittenger, M.D., Ph.D., Assistant Professor of Psychiatry
Arman D. Pivazyan, Ph.D., Associate Research Scientist in Pharmacology
Giuseppe Pizzorno, Pharm.D., Associate Professor of Medicine (Medical Oncology), Pediatrics, and Pharmacology
Robert Plant, Ph.D., Clinical Instructor in the Child Study Center
Jody P. Platner, M.Sc., Lecturer in the Child Study Center
Ljiljana Plisic, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Jordan S. Pober, M.D., Ph.D., Professor of Immunobiology, Dermatology, and Pathology
David N. Podell, M.D., Ph.D., Clinical Professor of Medicine
James Poling, Ph.D., Research Scientist in Psychiatry
Joan F. Poll, M.D., Assistant Clinical Professor in the Child Study Center
Jeffrey Pollak, M.D., Professor of Diagnostic Radiology and of Surgery (Vascular)
Thomas D. Pollard, M.D., Eugene Higgins Professor of Molecular, Cellular, and Developmental Biology and Professor of Molecular Biophysics and Biochemistry and of Cell Biology
Allison N. Ponce, Ph.D., M.A., Assistant Professor of Psychiatry
Yann B. Poncin, M.D., Associate Research Scientist in the Child Study Center
Colin Poon, M.D., Assistant Professor (Adjunct) of Diagnostic Radiology
Cynthia K. Pope, Ph.D., Lecturer in Public Health (Global Health)
Wanda C. Popescu, M.D., Assistant Professor of Anesthesiology
Peter T. Porello, M.D., Clinical Instructor in Medicine
Rosaliz Portela, M.D., Instructor in Ophthalmology and Visual Science
George A. Porter, M.D., Assistant Professor of Pediatrics (Cardiology)
Paul P. Possenti, B.S., Lecturer in Surgery (Trauma)
Stanley G. Possick, M.D., Associate Clinical Professor of Psychiatry
Marc N. Potenza, M.D., Ph.D., Associate Professor of Psychiatry and in the Child Study Center
Marie-Helene Pouliot, M.D., Clinical Instructor in Pediatrics
Mehran Pouresmail, M.D., Assistant Clinical Professor of Medicine (General Medicine)
Carol Powell, M.Sc., Lecturer in Surgery (Otolaryngology)
Michael D. Powers, Psy.D., Assistant Clinical Professor in the Child Study Center
Seth M. Powsner, M.D., Professor of Psychiatry and Surgery (Emergency Medicine)
Jana Preiningerova, M.D., Assistant Professor of Neurology
Patricia A. Preisig, Ph.D., M.S., Professor of Medicine (Nephrology) and Cellular and Molecular Physiology
Ernst Prelinger, Ph.D., Clinical Professor of Psychiatry
Martin M. Pressman, D.P.M., Assistant Clinical Professor of Orthopaedics and Rehabilitation
Mary L. Prevey, Ph.D., Assistant Clinical Professor of Psychiatry
Gary J. Price, M.D., Assistant Clinical Professor of Surgery (Plastic)
James W. Prichard, M.D., Professor Emeritus of Neurology
Brian M. Priest, M.D., Assistant Clinical Professor of Medicine
Rebecca Pringle, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Deborah D. Proctor, M.D., Professor of Medicine (Digestive Diseases) and Assistant Clinical Professor of Nursing
Isak Prohovnik, Ph.D., Professor (Adjunct) of Diagnostic Radiology
Edward K. Prokop, M.D., Associate Clinical Professor of Anesthesiology
Paul H. Pronovost, M.D., Assistant Clinical Professor of Medicine
Zenon Protopapas, M.D., Assistant Clinical Professor of Diagnostic Radiology
Marsha K. Pruitt, Ph.D., M.S.L., Lecturer in Psychiatry
William H. Prusoff, Ph.D., Professor Emeritus and Senior Research Scientist in Pharmacology
Diamando Psyrri, M.D., Assistant Professor of Medicine (Medical Oncology)
Kenneth Pugh, Ph.D., Associate Professor of Pediatrics (Adolescent Medicine)
Richard G. Pugliese, M.D., Clinical Instructor in the Child Study Center
Hector R. Pun, M.D., Clinical Instructor in Medicine
Mamatha Punjala, M.D., Assistant Professor of Anesthesiology
Ujwala P. Puranik, M.B.B.S., Assistant Clinical Professor of Pediatrics
Kailasnath Purushothaman, Ph.D., Associate Research Scientist in Diagnostic Radiology
Anna Marie Pyle, Ph.D., William Edward Gilbert Professor of Molecular Biophysics and Biochemistry
Marc Pypaert, Ph.D., Research Scientist in Cell Biology
Hong Qian, M.D., Associate Research Scientist in Obstetrics, Gynecology, and Reproductive Sciences
Hui Qin, Ph.D., Associate Research Scientist in Pharmacology
Caihong Qiu, Ph.D., M.S., Associate Research Scientist in Cell Biology
Maolin Qiu, Ph.D., Associate Research Scientist in Diagnostic Radiology
Vincent J. Quagliarello, M.D., Professor of Medicine (Infectious Diseases)
Timothy E. Quan, M.D., Instructor in Medicine (Rheumatology)
Anthony Quan Hong, M.D., Clinical Instructor in Neurology
Howard L. Quentzel, M.D., Assistant Clinical Professor of Medicine
Donald M. Quinlan, Ph.D., Professor of Psychiatry
Jennifer J. Quinn, Ph.D., Associate Research Scientist in Psychiatry
William P. Quinn, M.P.H., Lecturer in Public Health (Health Policy)
Nicole C. Rabidou, M.D., M.P.H., Clinical Instructor in Medicine (Rheumatology)
Peter M. Rabinovich, Ph.D., M.S., Associate Research Scientist in Genetics
Peter M. Rabinowitz, M.D., Associate Professor of Medicine (Occupational Medicine)
Beth W. Rackow, M.D., Assistant Professor of Obstetrics, Gynecology, and Reproductive Sciences
Gary R. Racusin, Ph.D., Assistant Clinical Professor of Psychiatry and in the Child Study Center
Jeanette Radawich, M.S.W., Clinical Instructor in the Child Study Center (Social Work)
Charles M. Radding, M.D., Professor Emeritus of Genetics
Susanne Radke, M.S., Ph.D., Associate Research Scientist in Medicine (Medical Oncology)
Alan M. Radoff, M.D., Assistant Clinical Professor of Medicine (Cardiology)
Terence D. Rafferty, M.B.B.Ch., Professor of Anesthesiology
Nicholas G. Ragovis, M.D., Clinical Instructor in Medicine
Christoph Rahner, M.D., Associate Research Scientist in Cell Biology
Sina Raissi, M.D., Clinical Instructor in Medicine
Nallakkandi Rajcevan, Ph.D., Associate Research Scientist in Diagnostic Radiology
Jaak Rakfeldt, Ph.D., Assistant Clinical Professor of Psychiatry
Pasko Rakic, M.D., Ph.D., Dorys McConnell Duberg Professor of Neurobiology and Professor of Neurology
Elizabeth Ralevski, Ph.D., Research Scientist in Psychiatry
Nandhini Ramamoorthy, Ph.D., Associate Research Scientist in Medicine (Infectious Diseases)
Ramachandran Ramani, M.D., M.B.B.S., Assistant Professor of Anesthesiology
Carolyn Rambus, M.D., Assistant Clinical Professor of Surgery (Emergency Medicine)
Rey F. Ramos, M.D., Clinical Instructor in Medicine and Pediatrics
Melinda L. Randall, M.D., Assistant Professor of Psychiatry
Christopher Randolph, M.D., Clinical Professor of Pediatrics
Mohini Ranganathan, M.B.B.S., Instructor in Psychiatry
Yan Rao, M.D., Associate Research Scientist in Obstetrics, Gynecology, and Reproductive Sciences
James N. Rascati, M.S.W., Clinical Instructor in Psychiatry (Social Work)
Asghar Rastegar, M.D., Professor of Medicine
Kristina M. Rath, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Isabel S. Rathbone, M.D., Assistant Clinical Professor of Psychiatry
Richard R. Rathbone, M.D., Assistant Clinical Professor of Laboratory Medicine
Sabita J. Rathi, M.D., Clinical Instructor in Psychiatry
Elena Ratni, M.D., Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Douglas R. Rau, Ph.D., M.S., Assistant Clinical Professor of Psychiatry
Carol A. Rauch, M.D., Assistant Clinical Professor of Laboratory Medicine
Pars Ravichandran, M.D., Assistant Professor of Pathology
Tommer Ravid, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
Norman A. Ravski, M.D., Associate Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
John F. Raycroft, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation
John S. Reach, M.D., Assistant Professor of Orthopaedics and Rehabilitation
Christine Reberkenny-Frisketti, M.A.T., Lecturer in the Child Study Center
Carrie Redlich, M.D., Professor of Medicine (Occupational Medicine)
Donald E. Redmond, Jr., M.D., Professor of Psychiatry and Neurosurgery
Lynne J. Regan, Ph.D., Professor of Molecular Biophysics and Biochemistry and of Chemistry
Mark D. Rego, M.D., Lecturer in Psychiatry
Walter N. Reich, M.D., Lecturer in Psychiatry
Gordon V. Reid, M.D., Associate Clinical Professor of Medicine (Endocrinology)
Hugh F. Reilly, M.A., Clinical Instructor in Surgery (Otolaryngology)
Eric Reiner, D.O., Assistant Professor of Diagnostic Radiology
Harald H. Reinhart, M.D., Assistant Clinical Professor of Medicine (Infectious Diseases)
Karin M. Reinisch, Ph.D., Associate Professor of Cell Biology
Valerie Reinke, Ph.D., Associate Professor of Genetics
Anna B. Reisman, M.D., Associate Professor of Medicine (General Medicine)
Jill L. Reiter, Ph.D., Assistant Professor of Obstetrics, Gynecology, and Reproductive Sciences
Michael S. Remetz, M.D., Associate Professor of Medicine (Cardiology)
Joseph L. Renda, M.D., Associate Clinical Professor of Medicine
Nancy J. Rennert, M.D., Associate Clinical Professor of Medicine (Endocrinology)
Thomas S. Renshaw, M.D., Professor Emeritus of Orthopaedics and Rehabilitation and Clinical Professor of Nursing
Anna Resnick, Ph.D., Assistant Clinical Professor of Psychiatry
Sandra G. Resnick, Ph.D., M.S., Assistant Professor of Psychiatry
Charles R. Rethy, M.D., M.S., Assistant Clinical Professor of Medicine
Jon D. Reuter, D.V.M., Associate Professor (Adjunct) of Comparative Medicine
James H. Revkin, M.D., Associate Clinical Professor of Medicine (Cardiology)
Miguel Reyes-Mugica, M.D., Professor of Pathology and Associate Professor of Pediatrics
Alan M. Reznik, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation
Maria C. E. Rhee, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
A. Elizabeth Rhoades, Ph.D., Assistant Professor of Molecular Biophysics and Biochemistry and of Physics
Andrew Rice, D.P.M., Clinical Instructor in Orthopaedics and Rehabilitation
Dara T. Richards, M.D., Clinical Instructor in Pediatrics
Frank F. Richards, M.D., Professor Emeritus of Medicine
Frederic M. Richards, Ph.D., Professor Emeritus of Molecular Biophysics and Biochemistry
Diana Richardson, M.D., Instructor in Neurology
Greer Richardson, M.D., Assistant Clinical Professor of Psychiatry
George B. Richerson, M.D., Ph.D., Professor of Neurology and of Cellular and Molecular Physiology
Susan M. Richman, M.D., Assistant Professor of Obstetrics, Gynecology, and Reproductive Sciences
Barry J. Richter, M.D., Assistant Clinical Professor of Dermatology
Barbara N. Rickler, M.D., Clinical Instructor in the Child Study Center
Priscilla Ridgway, Ph.D., M.S.W., Assistant Professor of Psychiatry
Nitai I. Riegler, M.D., Assistant Clinical Professor of Medicine
Rita A. Rienzo, M.Sc., Assistant Professor of Medicine (General Medicine)
Brian F. Rigney, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
David L. Rimm, M.D., Ph.D., Professor of Pathology
Christine D. Rinder, M.D., Associate Professor of Anesthesiology and Laboratory Medicine
Henry M. Rinder, M.D., Associate Professor of Laboratory Medicine and Medicine (Hematology)
Bjorn Ringstad, M.D., Assistant Clinical Professor of Medicine
Charles E. Riordan, M.D., Clinical Professor of Psychiatry
Carol H. Ripple, Ph.D., Assistant Clinical Professor in the Child Study Center
Harvey A. Risch, M.D., Ph.D., Professor of Epidemiology (Chronic Diseases)
J. Murdoch Ritchie, Ph.D., Professor Emeritus of Pharmacology
Riva A. A. Ritvo, Ph.D., Clinical Instructor in the Child Study Center
Samuel Ritvo, M.D., Clinical Professor in the Child Study Center
Susan Ritvo, Ph.D., Clinical Instructor in the Child Study Center
Alberto Rivetta, Ph.D., Associate Research Scientist in Cellular and Molecular Physiology
Scott A. Rivkees, M.D., Professor of Pediatrics (Pediatric Developmental Biology and Biophysics)
Lawrence J. Rizzolo, Ph.D., Associate Professor of Surgery (Gross Anatomy) and Ophthalmology and Visual Science
Barbara A. Roach, M.D., Assistant Clinical Professor of Medicine (Rheumatology)
Judith P. Robbins, L.C.S.W., J.D., Assistant Clinical Professor of Psychiatry (Social Work)
Michael Robek, Ph.D., Assistant Professor of Pathology
Marie E. Robert, M.D., Associate Professor of Pathology and Medicine (Digestive Diseases)
Marie F. Robert, M.D., Assistant Clinical Professor of Pediatrics
David D. Roberts, M.D., Assistant Clinical Professor of Surgery (Otolaryngology)
Kenneth B. Roberts, M.D., Associate Professor of Therapeutic Radiology
Kurt E. Roberts, M.D., Assistant Professor of Surgery (Gastroenterology)
Jane E. Robinson, Ps.D., Assistant Clinical Professor of Psychiatry
Linda Robinson, M.S.W., Clinical Instructor in the Child Study Center (Social Work)
Carolyn Rochester, M.D., Associate Professor of Medicine (Pulmonery)
Peter B. Rockholz, M.S., Clinical Instructor in the Child Study Center
Donald Rocklin, M.D., Assistant Clinical Professor of Medicine (Cardiology)
Sara C. Rockwell, Ph.D., Professor of Therapeutic Radiology and Pharmacology
Dylan J. Rodner, M.S., Lecturer in Medicine
Shuba H. Rodrigues, M.D., Clinical Instructor in Psychiatry
Alberto J. Rodriguez, M.D., Clinical Instructor in Medicine
Elizabeth Rodriguez-Keyes, M.S.W., Assistant Clinical Professor in the Child Study Center (Social Work)
G. Shirleen Roeder, Ph.D., Eugene Higgins Professor of Molecular, Cellular, and Developmental Biology, and Professor of Genetics
David Roer, M.D., Assistant Clinical Professor of Medicine
Elizabeth A. Roessler, M.M.S., P.A.-C., Lecturer in Surgery (Emergency Medicine)
Faye A. Rogers, Ph.D., Assistant Professor of Therapeutic Radiology
Naomi Rogers, Ph.D., Associate Professor of the History of Medicine and Women’s, Gender, and Sexuality Studies
Peter R. Rogol, M.D., Assistant Clinical Professor of Medicine (Pulmonary)
Robert M. Rohrbaugh, M.D., Associate Professor of Psychiatry
Sanziana A. Roman, M.D., Assistant Professor of Surgery (Endocrine Surgery)
Anthony Romania, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Lisa S. Rome, M.D., Clinical Instructor in Medicine (Medical Oncology)
Robby M. Romero, M.D., Assistant Professor of Anesthesiology
John J. Roney, P.A., Clinical Instructor in Pediatrics (Emergency Medicine)
Seamus A. Rooney, Ph.D., Professor Emeritus of Pediatrics (Neonatology)
Willem Roosen, M.D., Assistant Clinical Professor in the Child Study Center
Jim R. Ropchan, Ph.D., Associate Research Scientist in Diagnostic Radiology
Manuel F. Rosado, M.D., Assistant Professor of Medicine (Medical Oncology)
Maria C. Rosario-Campos, M.D., Clinical Instructor in the Child Study Center
Aron D. Rose, M.D., Associate Clinical Professor of Ophthalmology and Visual Science, and Assistant Clinical Professor of Nursing
John K. Rose, Ph.D., Professor of Pathology and Cell Biology
Michal G. Rose, M.D., Associate Professor of Medicine (Medical Oncology)
Nina F. Rose, Ph.D., Associate Research Scientist in Pathology
O. Tina Rose, M.D., Assistant Clinical Professor of Pediatrics
Patti R. Rose, D.Ed., M.P.H., Lecturer in Public Health
David N. Rosen, LL.B., Lecturer in the Child Study Center and Senior Research Scientist in Law Administration
Joanna L. Rosen, Psy.D., Assistant Clinical Professor of Psychiatry
Marc I. Rosen, M.D., Associate Professor of Psychiatry
Valerie C. Rosen, M.D., Assistant Clinical Professor of Psychiatry
Julie R. Rosenbaum, M.D., Assistant Professor of Medicine (General Medicine)
Stanley H. Rosenbaum, M.D., Professor of Anesthesiology, Medicine, and Surgery (Trauma)
Leon E. Rosenberg, M.D., Professor (Adjunct) of Genetics
Victor A. Rosenberg, M.D., Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Patricia H. Rosenberger, Ph.D., Associate Research Scientist in Psychiatry
William Rosenblatt, M.D., Professor of Anesthesiology and Surgery (Otolaryngology)
David S. Rosenblum, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation
Stephanie E. Rosener, M.D., Clinical Instructor in Medicine
Lynda E. Rosenfeld, M.D., Associate Professor of Medicine (Cardiology) and Pediatrics (Pediatrics-History)
Arthur T. Rosenfield, M.D., Professor Emeritus of Diagnostic Radiology
Robert Rosenheck, M.D., Professor of Psychiatry and Public Health (Health Policy)
Stephen D. Rosenman, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Lawrence Rosenthal, M.D., Instructor in Medicine (Digestive Diseases)
Marjorie S. Rosenthal, M.D., Associate Research Scientist in Pediatrics (General Pediatrics)
Ronnie A. Rosenthal, M.D., Associate Professor of Surgery
Ann M. Ross, Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Douglas A. Ross, M.D., Professor of Surgery (Otolaryngology)
Stephen D. Rossner, M.D., Assistant Clinical Professor of Medicine
David M. Roth, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Robert H. Roth, Jr., Ph.D., Professor of Psychiatry and Pharmacology
Douglas L. Rothman, Ph.D., Professor of Diagnostic Radiology and Biomedical Engineering
Bruce S. Rothschild, M.D., Assistant Clinical Professor of Psychiatry
David M. Rothstein, M.D., Associate Professor of Medicine (Nephrology)
Diane L. Rotnem, Ph.D., Assistant Clinical Professor in the Child Study Center (Social Work)
Bruce J. Rounsaville, M.D., Professor of Psychiatry
Byron P. Rourke, Ph.D., Lecturer in the Child Study Center
Francoise J. Roux, M.D., Ph.D., Assistant Professor of Medicine (Pulmonary)
Michael Rowe, Ph.D., Associate Clinical Professor of Psychiatry
Cecilia T. Rowland, D.Ed., Associate Research Scientist in the Child Study Center
Craig R. Roy, Ph.D., Associate Professor of Microbial Pathogenesis
Melvin P. Roy, Ph.D., Assistant Clinical Professor of Psychiatry
Nance Roy, D.Ed., Assistant Clinical Professor of Psychiatry
Ronald T. Rozett, M.D., M.P.H., Lecturer in Medicine
Joel S. Rozowsky, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
Jia-Peng Ruan, Ph.D., Associate Research Scientist in Medicine (Infectious Diseases)
Harvey L. Ruben, M.D., Clinical Professor of Psychiatry
Stephen R. Rubenstein, M.D., Clinical Instructor in Medicine
Elizabeth B. Rubin, M.S.W., Lecturer in Psychiatry
Philip E. Rubin, Ph.D., Professor (Adjunct) of Surgery (Otolaryngology)
Richard Rubin, M.D., Assistant Clinical Professor of Psychiatry
Ami N. Rubinowitz, M.D., Assistant Professor of Diagnostic Radiology
Michael C. Rubinstein, M.D., Assistant Clinical Professor of Medicine (Digestive Diseases)
Vladislav V. Ruchkin, M.D., Associate Research Scientist in the Child Study Center
Nancy H. Ruddle, Ph.D., John Rodman Paul Professor of Epidemiology (Microbial Diseases) and Professor of Immunobiology
Gary Rudnick, Ph.D., Professor of Pharmacology
Jennifer P. Ruger, Ph.D., Assistant Professor of Public Health (Global Health)
W. Dean Rupp, Ph.D., Professor of Therapeutic Radiology
Christopher B. Ruser, M.D., Assistant Professor of Medicine (General Medicine)
Keith J. Ruskin, M.D., Professor of Anesthesiology and Neurosurgery
David S. Russell, M.D., Ph.D., Assistant Clinical Professor of Psychiatry and Neurology
Debora J. Russell, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Kerry S. Russell, M.D., Ph.D., Associate Professor of Medicine (Cardiology)
Raymond R. Russell, M.D., Ph.D., Associate Professor of Medicine (Cardiology) and Diagnostic Radiology
Mark B. Russi, M.D., Associate Professor of Medicine (Occupational Medicine) and of Epidemiology and Public Health
Alice M. Ruszkowski, M.S.N., Lecturer in Surgery (Emergency Medicine)
Thomas J. Rutherford, M.D., Ph.D., Associate Professor of Obstetrics, Gynecology, and Reproductive Sciences
Edward R. Ryan, Ph.D., Associate Clinical Professor of Psychiatry
Sheryl A. Ryan, M.D., Associate Professor of Pediatrics (Adolescent Medicine)
Haleh Saadat, M.D., Assistant Professor of Anesthesiology
Kert D. Sabbath, M.D., Assistant Clinical Professor of Medicine
Joseph A. Sabbatino, M.D., Assistant Clinical Professor of Psychiatry
James R. Sabetta, M.D., Associate Clinical Professor of Medicine (Infectious Diseases)
Julia B. Sabetta, M.D., Clinical Instructor in Dermatology
James K. Sabshin, M.D., Assistant Clinical Professor of Neurosurgery
Joseph D. Saccio, M.D., Associate Clinical Professor in the Child Study Center
Robert N. S. Sachdev, Ph.D., Associate Research Scientist in Neurobiology
Aristidis Sachpatzidis, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
David M. Sack, M.D., Assistant Clinical Professor of Medicine
Helen L. Sacks, M.S.W., Assistant Clinical Professor in the Child Study Center
Herbert S. Sacks, M.D., Clinical Professor in the Child Study Center
Mehran M. Sadeghi, M.D., Associate Professor of Medicine (Cardiology)
Majid Sadigh, M.D., Associate Professor of Medicine (General Medicine)
Lois Sadler, A.P.R.N., Ph.D., Associate Professor of Nursing and in the Child Study Center
Robert T. Sadock, M.D., Assistant Clinical Professor of Medicine
Paul I. Sadocket, M.D., Clinical Instructor in the Child Study Center
Basmah Safdar, M.D., Assistant Professor of Surgery (Emergency Medicine)
Yair Safriel, M.D., Assistant Clinical Professor of Diagnostic Radiology
Neayka Sahay, M.D., Assistant Clinical Professor of Psychiatry
Nousheh Saidi, M.D., Assistant Professor of Anesthesiology
Muhammad W. Saif, M.B.B.S., Associate Professor of Medicine (Medical Oncology)
Durgadas P. Sakalkale, M.D., Clinical Instructor in Orthopaedics and Rehabilitation
Olga V. Sakharova, M.D., Clinical Instructor in Medicine (Endocrinology)
David K. Sakheim, Ph.D., Assistant Clinical Professor of Psychiatry
Dionisios Sakkas, Ph.D., Associate Professor of Obstetrics, Gynecology, and Reproductive Sciences
Carine J. Sakr, M.D., M.P.H., Assistant Professor (Adjunct) of Medicine (Occupational Medicine)
John R. Saksa, Psy.D., Associate Research Scientist in Psychiatry
Daniel J. Salchow, M.D., Assistant Professor of Ophthalmology and Visual Science
Ronald R. Salem, M.D., Lampman Memorial Professor of Surgery (Oncology)
Veena Salgar, M.D., Assistant Professor of Anesthesiology
Kathy M. Salisbury, D.Ed., Assistant Clinical Professor of Psychiatry
Megan A. Salm, M.H.S., Lecturer in Medicine
Jeffrey C. Salomon, M.D., Assistant Clinical Professor of Surgery (Plastic)
Dana Salom, M.D., Assistant Clinical Professor of Psychiatry
Peter Salovey, Ph.D., Chris Argyris Professor of Psychology and Professor of Epidemiology and Public Health (Chronic Diseases)
W. Mark Saltzman, Ph.D., Goizueta Foundation Professor of Chemical and Biomedical Engineering and of Cellular and Molecular Physiology
Sanjay Saluja, M.D., Assistant Clinical Professor of Diagnostic Radiology
Jose Feliciano A. Salvana, M.D., Assistant Clinical Professor of Medicine
Hamid Sami, M.D., Clinical Instructor in Neurology
Smita Sampath, Ph.D., Assistant Professor of Diagnostic Radiology
James Samuel, M.D., M.S., Clinical Instructor in Medicine
Varman T. Samuel, M.D., Assistant Professor of Medicine (Endocrinology)
Gerard Sanacora, M.D., Ph.D., Associate Professor of Psychiatry
Carol Sanders, M.S.W., Assistant Clinical Professor of Psychiatry (Social Work)
Lisa Sanders, M.D., Assistant Clinical Professor of Medicine
Sunder Sandur, M.B.B.S., Assistant Clinical Professor of Medicine
Louis C. Sanfilippo, M.D., Assistant Clinical Professor of Psychiatry
Theresa E. Sanford, P.A., Lecturer in Surgery (Emergency Medicine)
Charles Sanislow III, Ph.D., Assistant Professor of Psychiatry
James G. Sansing, M.D., Assistant Clinical Professor of Dermatology
Sheila Judge Santacroce, Ph.D., A.P.R.N., Assistant Professor of Nursing and Lecturer in Pediatrics
Joseph Santos-Sacchi, Ph.D., Professor of Surgery (Otolaryngology), Cellular and Molecular Physiology, and Neurobiology
Karen Santucci, M.D., Associate Professor of Pediatrics (Emergency Medicine)
Margaret A. Sanyal, M.D., Assistant Clinical Professor of Pediatrics
Matthew Robert Sarkisian, Ph.D., Associate Research Scientist in Neurobiology
Philip M. Sarrel, M.D., Professor Emeritus of Obstetrics, Gynecology, and Reproductive Sciences
Alan C. Sartorelli, Ph.D., Alfred Gilman Professor of Pharmacology
Clarence T. Sasaki, M.D., Charles W. Ohse Professor of Surgery (Otolaryngology)
Masanori Sasaki, M.D., Ph.D., Associate Research Scientist in Neurology
Peter G. Sasaki, M.B.A., Lecturer in Surgery (Otolaryngology)
Jacqueline R. Satchell-Jones, M.D., Assistant Professor of Medicine (General Medicine)
Sally L. Satel, M.D., Lecturer in Psychiatry
John E. Sather, M.D., Assistant Professor of Surgery (Emergency Medicine)
Samuel N. Sathyanesan, Ph.D., Assistant Professor of Psychiatry
Ayano Satoh, Ph.D., Associate Research Scientist in Cell Biology
Dale H. Saul, Ph.D., Associate Research Scientist in the Child Study Center
Celine A. Saulnier, Ph.D., Associate Research Scientist in the Child Study Center
Steven L. Saunders, M.D., Assistant Clinical Professor of Medicine
Ronald C. Savin, M.D., Clinical Professor of Dermatology
Robert R. Savino, D.O., Assistant Clinical Professor of Medicine
Cynthia Savo, M.A., Lecturer in the Child Study Center
Annita P. Sawyer, Ph.D., Assistant Clinical Professor of Psychiatry
Frederick G. Sayward, Ph.D., Research Scientist in Anesthesiology (Medical Informatics)
Lawrence D. Scanhill, M.P.H., Professor of Nursing and in the Child Study Center
Rebecca Scandrett, M.D., Instructor in Medicine (Cardiology)
Bernard Schachtel, M.D., Lecturer in Epidemiology (Chronic Diseases)
Carol Schaefer, M.S.W., Clinical Instructor in the Child Study Center (Social Work)
Mark Schaefer, Ph.D., Assistant Clinical Professor in the Child Study Center
Andrea Schaffner, M.D., Assistant Clinical Professor of Medicine (Geriatrics)
David G. Schatz, Ph.D., Professor of Immunobiology
Frederick Schatz, Ph.D., Research Scientist in Obstetrics, Gynecology, and Reproductive Sciences
Justin O. Schechter, M.D., Assistant Clinical Professor of Psychiatry
Joseph Schindler, M.D., Lecturer in Neurology
Gary S. Schleiter, M.D., Assistant Clinical Professor of Medicine
Mark J. Schlesinger, Ph.D., Professor of Public Health (Health Policy)
Robert F. Schlessel, M.D., Assistant Clinical Professor of Surgery (Oncology)
Joseph Schlessinger, Ph.D., William H. Prusoff Professor of Pharmacology
John F. Schmidt, M.D., Clinical Instructor in Surgery (Otolaryngology)
Jeffrey A. Schmierer, M.D., Assistant Clinical Professor of Medicine
Gaston L. Schmir, Ph.D., Professor Emeritus of Molecular Biophysics and Biochemistry
John C. Schmitz, Ph.D., Research Scientist in Medicine (Medical Oncology)
Timothy J. Schmutte, Psy.D., Associate Research Scientist in Psychiatry
Karen C. Schneider, M.P.H., Research Scientist in Pediatrics (Neurology)
Katherine A. Schneider, M.D., M.Phil., Clinical Instructor in Medicine
Paul I. Schneiderman, M.D., Associate Clinical Professor of Dermatology
Jerome M. Schnitt, M.D., Associate Clinical Professor of Psychiatry
Steven M. Schnittman, M.D., Assistant Professor (Adjunct) of Medicine (AIDS)
Robert T. Schoen, M.D., Clinical Professor of Medicine (Rheumatology) and Nursing
Mark H. Schoenfeld, M.D., Clinical Professor of Medicine (Cardiology) and Nursing
Renate C. Schoenfelder, M.D., Assistant Professor of Anesthesiology
Jean Schoenleber, M.S.W., Clinical Instructor in the Child Study Center (Social Work)
David J. Schonfeld, M.D., Professor (Adjunct) of Pediatrics (General Pediatrics)
Richard S. Schottenfeld, M.D., Professor of Psychiatry
John E. Schowalter, M.D., Professor Emeritus in the Child Study Center
Mark J. Schpero, D.D.S., Assistant Clinical Professor of Surgery (Dental)
Sanford J. Schreiber, M.D., Associate Clinical Professor of Psychiatry
 Rochelle R. Schreibman, M.D., Assistant Clinical Professor of Psychiatry
 Adrienne Schuessler, Psy.D., Clinical Instructor in the Child Study Center
 John T. Schulz, M.D., Ph.D., Associate Clinical Professor of Surgery (Trauma)
 Robert Schultz, Ph.D., Associate Professor in the Child Study Center and of Diagnostic Radiology
 Robert J. Schulz, Ph.D., M.S., Professor Emeritus of Therapeutic Radiology
 Vincent Schulz, Ph.D., Associate Research Scientist in Pediatrics (Neonatology)
 Kevin M. Schuster, M.D., Assistant Professor of Surgery (Trauma)
 Mary Schwab-Stone, M.D., Associate Professor in the Child Study Center
 A. Herbert Schwartz, M.D., Associate Clinical Professor in the Child Study Center
 Amy R. Schwartz, M.D., Assistant Professor of Medicine (General Medicine)
 Harold M. Schwartz, M.D., Assistant Clinical Professor of Medicine
 Ian Schwartz, M.D., Assistant Professor of Surgery (Emergency Medicine)
 Ilisa R. Schwartz, Ph.D., Professor of Surgery (Otolaryngology) and Neurobiology
 Jeffrey J. Schwartz, M.D., Associate Professor of Anesthesiology
 Jeffrey S. Schwartz, Ph.D., Assistant Clinical Professor of Psychiatry
 Kenneth V. Schwartz, M.D., Associate Clinical Professor of Medicine
 Mark L. Schwartz, M.D., Associate Clinical Professor of Medicine (Rheumatology)
 Michael B. Schwartz, D.O., Clinical Instructor in Medicine
 Michael L. Schwartz, Ph.D., Associate Professor of Neurobiology
 Peter E. Schwartz, M.D., Professor of Obstetrics, Gynecology, and Reproductive Sciences
 Alecia D. Schweinsburg, Ph.D., Associate Research Scientist in Psychiatry
 James L. Scott, M.D., Assistant Clinical Professor of Psychiatry
 Jared M. Scott, M.D., Instructor in Dermatology
 Leslie M. Scoullar, M.D., Professor of Diagnostic Radiology
 Kathryn Scrimanti, Ph.D., Assistant Clinical Professor of Psychiatry
 Marvin L. Sears, M.D., Professor (Adjunct) of Ophthalmology and Visual Science
 John H. Seashore, M.D., Professor Emeritus of Surgery (Pediatrics)
 Margretta R. Seashore, M.D., Professor of Genetics and Pediatrics
 Charles B. Seelig, M.D., Associate Clinical Professor of Medicine
 Seth R. Segall, Ph.D., Assistant Clinical Professor of Psychiatry
 John P. Seibyl, M.D., Assistant Clinical Professor of Diagnostic Radiology
 Victoria R. Seitz, Ph.D., Research Scientist in the Child Study Center and Psychology
 Lynn D. Selemo, Ph.D., Research Scientist in Neurobiology
 Emre U. Seli, M.D., Assistant Professor of Obstetrics, Gynecology, and Reproductive Sciences
 Meltem Seli, M.D., Assistant Clinical Professor of Pediatrics (Neonatology)
 David Seligson, M.D., Sc.D., Professor Emeritus of Laboratory Medicine
 Alan E. Selkin, M.D., Clinical Instructor in Medicine
 Enzo J. Sella, M.D., Associate Clinical Professor of Orthopaedics and Rehabilitation
David J. Sells, Ph.D., Assistant Professor of Psychiatry
Arthur O. Seltzer, M.D., Assistant Clinical Professor of Medicine (Cardiology)
Jeffrey Seltzer, M.D., Assistant Clinical Professor of Medicine (Cardiology)
Lucille Semeraro, M.D., Assistant Clinical Professor of Pediatrics and Nursing
Kanaga N. Sena, M.B.B.S., Associate Clinical Professor of Neurology
Dola Sengupta, Ph.D., Associate Research Scientist in Immunobiology
Helen A. Seow, Ph.D., Associate Research Scientist in Pharmacology
Jerome M. Serling, D.D.S., Associate Clinical Professor of Surgery (Dental)
Michael J. Sernyak, M.D., Professor of Psychiatry
Stuart E. Seropian, M.D., Associate Professor of Medicine (Medical Oncology)
William C. Sessa, Ph.D., Professor of Pharmacology
Nenad Sestan, M.D., Ph.D., Assistant Professor of Neurobiology
John F. Setaro, M.D., Associate Professor of Medicine (Cardiology)
Rajeev K. Seth, M.D., Instructor in Ophthalmology and Visual Science
Kevin A. Sevarino, M.D., Assistant Clinical Professor of Psychiatry
Anna K. Sfakianaki, M.D., Assistant Professor of Obstetrics, Gynecology, and Reproductive Sciences
Daohang Sha, Ph.D., Associate Research Scientist in Orthopaedics and Rehabilitation
Gerald S. Shadel, Ph.D., Associate Professor of Pathology
Laurel B. Shader, M.D., Assistant Clinical Professor of Pediatrics and Nursing
Nelofar Shafi, M.B.B.S., Assistant Clinical Professor of Laboratory Medicine
George Shafranov, M.D., Associate Clinical Professor of Ophthalmology and Visual Science
Nidhi Shah, M.D., M.P.H., Clinical Instructor in Medicine
Subhash Shah, M.D., Assistant Clinical Professor of Surgery (Gastroenterology)
Erik M. Shapiro, Ph.D., M.S., Assistant Professor of Diagnostic Radiology
Eugene D. Shapiro, M.D., Professor of Pediatrics, Epidemiology, and Investigative Medicine
Martin R. Shapiro, M.D., M.B.A., Clinical Instructor in Ophthalmology and Visual Science
Philip E. Shapiro, M.D., Associate Clinical Professor of Dermatology
Sarita Sharma, M.B.B.S., Clinical Instructor in Medicine (Geriatrics)
Albert C. Shaw, M.D., Ph.D., Associate Professor of Medicine (Infectious Diseases)
Coralie Shaw, M.D., Professor of Diagnostic Radiology
Julia A. Shaw, D.M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Richard K. Shaw, M.D., Assistant Clinical Professor of Surgery (Cardiac)
Aryan Shayegani, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Bennett A. Shaywitz, M.D., Professor of Pediatrics (Neurology) and Neurology
Sally E. Shaywitz, M.D., Professor of Pediatrics (Neurology) and in the Child Study Center
Judith F. Shea, M.D., Clinical Instructor in Medicine
Richard J. Shea, M.D., Assistant Clinical Professor of Pediatrics
Michael H. Sheard, M.D., Professor Emeritus of Psychiatry
Shams Sheikh, M.D., Assistant Clinical Professor of Diagnostic Radiology
Kirk H. Shelley, M.D., Ph.D., Associate Professor of Anesthesiology
Richard L. Shelling, M.D., Associate Clinical Professor of Pediatrics
Douglas Shenson, M.D., M.P.H., Assistant Clinical Professor of Epidemiology (Chronic Diseases)
Jane K. Shepard, Psy.D., Assistant Clinical Professor of Psychiatry and Nursing
Benjamin R. Shepherd, Ph.D., Associate Research Scientist in Immunobiology
Gordon M. Shepherd, M.D., D.Phil., Professor of Neurobiology
Michael L. Sher, M.D., Assistant Clinical Professor of Medicine
Nadia K. Sherline, M.D., M.P.H., Assistant Clinical Professor of Dermatology
Bonnie B. Sherman, B.A., Lecturer in the Child Study Center
Carl B. Sherter, M.D., Clinical Professor of Medicine (Pulmonary)
Robert S. Sherwin, M.D., C.N.H. Long Professor of Medicine (Endocrinology)
Julia M. Shi, M.D., Assistant Clinical Professor of Medicine
Gregory P. Shields, M.D., Clinical Instructor in Medicine
M. Bruce Shields, M.D., Marvin L. Sears Professor of Ophthalmology and Visual Science
Richard N. Shiffman, M.D., Professor of Pediatrics (General Pediatrics) and Anesthesiology (Informatics)
Mark A. Shifman, M.D., Ph.D., Associate Research Scientist in Anesthesiology (Medical Informatics)
Winston Y. Shih, M.D., Assistant Clinical Professor of Medicine
David J. Shiling, M.D., Clinical Instructor in Neurology
Virginia M. Shiller, Ph.D., Lecturer in the Child Study Center
Joseph H. Shin, M.D., Associate Professor of Surgery (Plastic)
Myung S. Shin, M.D., Clinical Professor of Diagnostic Radiology
John J. Shine, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation
Toshiharu Shinoka, M.D., Ph.D., Associate Professor of Surgery (Cardiothoracic) and Pediatrics
Pavel Shkarin, Ph.D., Associate Research Scientist in Diagnostic Radiology
Mark J. Shlomchik, M.D., Ph.D., Professor of Laboratory Medicine and Immunobiology
Warren D. Shlomchik, M.D., Associate Professor of Medicine (Oncology, Hematology, and Rheumatology) and Immunobiology
Mark Shlyankevich, M.D., Ph.D., Associate Research Scientist in Comparative Medicine
Alan J. Sholomskas, M.D., Lecturer in Psychiatry
Diane E. Sholomskas, Ph.D., Assistant Clinical Professor of Psychiatry
Douglas P. Shore, M.D., Clinical Instructor in Ophthalmology and Visual Science
Gerald I. Shulman, M.D., Ph.D., Professor of Medicine (Endocrinology) and of Cellular and Molecular Physiology
Robert G. Shulman, Ph.D., Professor Emeritus of Molecular Biophysics and Biochemistry and Senior Research Scientist in Diagnostic Radiology
Krishnamurthy Shyam, Ph.D., Associate Research Scientist in Pharmacology
Laurence A. Sibrack, M.D., Ph.D., Associate Clinical Professor of Dermatology
Carolyn B. Sicher, Psy.D., Associate Research Scientist in the Child Study Center
Alyse B. Sicklick, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation
Uzma Siddiqui, M.D., Assistant Professor of Medicine (Digestive Diseases)
Alan P. Siegal, M.D., Associate Clinical Professor of Psychiatry
Kenneth C. Siegel, M.D., Clinical Instructor in Neurology
Lesley P. Siegel, M.D., Assistant Clinical Professor in the Child Study Center
Mark D. Siegel, M.D., Associate Professor of Medicine (Pulmonary)
Cesar A. Sierra, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Moshe Siev, M.D., Assistant Clinical Professor of Pediatrics
Lorraine D. Siggins, M.B.B.S., Clinical Professor of Psychiatry
Frederick J. Sigworth, Ph.D., Professor of Cellular and Molecular Physiology and of Engineering
Dan-Arin Silasi, M.D., Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Andrea L.M. Silber, M.D., Assistant Clinical Professor of Medicine (Medical Oncology)
Jonathan E. Silbert, M.D., Clinical Instructor in Ophthalmology and Visual Science
Joel S. Silidker, M.D., Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Michelle A. Silva, Ph.D., Associate Research Scientist in Psychiatry
Marc D. Silver, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation
David G. Silverman, M.D., Professor of Anesthesiology
Nira R. Silverman, M.D., Assistant Clinical Professor of Dermatology
Richard S. Silverman, M.D., Assistant Clinical Professor of Medicine
David E. Silverstone, M.D., Clinical Professor of Ophthalmology and Visual Science
Soyeong Sim, Ph.D., Associate Research Scientist in Cell Biology
Arthur A. Simen, M.D., Ph.D., Assistant Professor of Psychiatry
Matthew D. Simmons, M.M.S., Lecturer in Medicine
Michael F. Simms, M.D., Associate Clinical Professor of Medicine
Howard Simon, M.D., Associate Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Simone K. Simon, M.D., Clinical Instructor in Pediatrics
Miljan Simonovic, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
John H. Sinard, M.D., Ph.D., Professor of Pathology and of Ophthalmology and Visual Science
Raymond S. Sinatra, M.D., Ph.D., Professor of Anesthesiology
Jody L. Sindelar, Ph.D., Professor of Public Health (Health Policy)
Jonathan M. Siner, M.D., Assistant Professor of Medicine (Pulmonary)
Cecilia Singh, Ph.D., M.S.W., Associate Research Scientist in the Child Study Center
Dinesh Singh, M.D., Assistant Professor of Surgery (Urology)
Brian K. Singleterary, D.M.D., Assistant Clinical Professor of Surgery (Dental) and Pediatrics
Rajita Sinha, Ph.D., Professor of Psychiatry
Albert J. Sinusas, M.D., Professor of Medicine (Cardiology) and Diagnostic Radiology
Keith S. Sinusas, M.D., Assistant Clinical Professor of Medicine
Gayle H. Sirkin, M.A., Lecturer in Psychiatry
Giorgio Sirugo, M.D., Ph.D., Assistant Professor (Adjunct) of Psychiatry
Martin W. Sklaire, M.D., Clinical Professor of Pediatrics
Craig A. Sklar, M.D., Associate Clinical Professor of Ophthalmology and Visual Science
Jeffrey L. Sklar, M.D., Ph.D., Professor of Pathology and Laboratory Medicine
Myra L. Skluth, M.D., Assistant Clinical Professor of Medicine
Leonard W. Skope, D.D.S., Associate Clinical Professor of Surgery (Dental)
Ann R. Skopek, M.D., Assistant Clinical Professor of Medicine
Beata A. Skudlarska, M.D., Clinical Instructor in Medicine
Pawel Skudlarski, Ph.D., Assistant Professor (Adjunct) of Psychiatry
Arietta Slade, Ph.D., Associate Research Scientist in the Child Study Center
Joseph F. Slade III, M.D., Associate Professor of Orthopaedics and Rehabilitation
Martin D. Slade, M.P.H., Lecturer in Medicine (Occupational Medicine)
Stephanie J. Slattery, M.D., Clinical Instructor in Pediatrics
James D. Slavin, M.D., Clinical Professor of Diagnostic Radiology
Carolyn W. Slayman, Ph.D., Sterling Professor of Genetics and Professor of Cellular and Molecular Physiology
Clifford L. Slayman, Ph.D., Professor of Cellular and Molecular Physiology
William H. Sledge, M.D., George D. and Esther S. Gross Professor of Psychiatry
Piotr Sliz, Ph.D., Associate Research Scientist in Pharmacology
Dana Small, Ph.D., Assistant Professor of Psychiatry
Adrienne G. Smaller, Ph.D., Assistant Clinical Professor in the Child Study Center
Brian G. Smith, M.D., Lecturer in Orthopaedics and Rehabilitation
Brian R. Smith, M.D., Professor and Chairman of Laboratory Medicine and Professor of Medicine (Hematology)
David N. Smith, M.D., Clinical Instructor in Medicine
David S. Smith, M.D., Associate Clinical Professor of Medicine
J. Douglas Smith, M.D., Associate Clinical Professor of Medicine (Nephrology)
Kira L. Smith, B.S., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Michael J. Smith, M.D., Assistant Clinical Professor of Medicine
Peter C. Smith, D.V.M., Assistant Professor of Comparative Medicine
April N. Smoke, M.A., Clinical Instructor in the Child Study Center (Social Work)
Deborah Smolover, J.D., Lecturer in the Child Study Center
David L. Snow, Ph.D., Professor of Psychiatry and of Epidemiology
Frank Snowden, Ph.D., Professor in the History of Medicine
Edward L. Snyder, M.D., Professor of Laboratory Medicine
Elise W. Snyder, M.D., Associate Clinical Professor of Psychiatry
Michael Snyder, Ph.D., Professor of Molecular, Cellular, and Developmental Biology and of Molecular Biophysics and Biochemistry
Andre N. Sofair, M.D., Associate Professor of Medicine (General Medicine) and Epidemiology (Microbial Diseases)
Mehmet Sofuoglu, M.D., Ph.D., Associate Professor of Psychiatry
Joseph Sokol, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Dieter G. Söll, Ph.D., Sterling Professor of Molecular Biophysics and Biochemistry and Professor of Chemistry
James M. Solomon, M.D., Assistant Clinical Professor of Medicine
Lawrence Solomon, M.D., Associate Professor of Medicine (Hematology)
Mark J. Solomon, Ph.D., Professor of Molecular Biophysics and Biochemistry
Scott M. Soloway, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Stefan Somlo, M.D., C.N.H. Long Professor of Medicine (Nephrology) and Professor of Genetics
Yung H. Son, M.D., Professor of Therapeutic Radiology and Surgery (Otolaryngology)
Lei Song, M.D., Associate Research Scientist in Surgery (Otolaryngology)
Carol J. Soroka, Ph.D., Research Scientist in Medicine (Digestive Diseases)
Julie A. Sosa, M.D., Assistant Professor of Surgery (Oncology and Endocrine Surgery)
Raina Sotsky, M.D., Assistant Clinical Professor in the Child Study Center
Robert Soufer, M.D., Professor of Medicine (Cardiology)
Steven M. Southwick, M.D., Professor of Psychiatry and in the Child Study Center
Wayne O. Southwick, M.D., Professor Emeritus of Orthopaedics and Rehabilitation
Marisa N. Spann, M.A., Associate Research Scientist in Neurosurgery
Judith A. Sparer, M.S.C.E., M.A.T., Lecturer in Medicine (Occupational Medicine) and Epidemiology (Environmental Health)
Sara S. Sparrow, Ph.D., Professor Emeritus and Senior Research Scientist in the Child Study Center
Marcelo Spector, M.D., Assistant Professor of Diagnostic Radiology
Juliette Fromm Spelman, M.D., Assistant Professor of Medicine
Christopher B. Spencer, M.D., Assistant Professor of Anesthesiology
Dennis D. Spencer, M.D., Harvey and Kate Cushing Professor of Neurosurgery
Susan S. Spencer, M.D., Professor of Neurology and Neurosurgery
Musa L. Speranza, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Mary F. Sperrazza, B.S., Assistant Clinical Professor of Psychiatry
Sydney Z. Spiesel, M.D., Ph.D., Associate Clinical Professor of Pediatrics and Clinical Professor of Nursing
Carlo Spirli, Ph.D., Associate Research Scientist in Medicine (Digestive Diseases)
Howard M. Spiro, M.D., Professor Emeritus of Medicine
Adam D. Spivack, M.D., Assistant Clinical Professor of Psychiatry
George Spivack, M.D., Clinical Instructor in Medicine
George A. Sprecace, M.D., Associate Clinical Professor of Medicine (Immunology)
Sandra A. Springer, M.D., Clinical Instructor in Medicine (AIDS)
Erin C. Springhorn, M.D., Assistant Clinical Professor of Pediatrics
Sudha Sreenivasan, M.D., Assistant Clinical Professor of Psychiatry
Vinod H. Srihari, M.D., Assistant Professor of Psychiatry
Nina S. Stachenfeld, Ph.D., Associate Professor of Epidemiology (Environmental Health) and Obstetrics, Gynecology, and Reproductive Sciences
Gary E. Stack, M.D., Ph.D., Associate Professor of Laboratory Medicine
Richard S. Stahl, M.D., Clinical Professor of Surgery (Plastic)
Sherin S. Stahl, Ph.D., Associate Research Scientist in the Child Study Center
Lawrence H. Staub, Ph.D., Associate Professor of Diagnostic Radiology and Biomedical Engineering
David C. Stair, M.D., Clinical Instructor in Medicine
Julie K. Staley-Gottschalk, Ph.D., Associate Professor of Psychiatry and Diagnostic Radiology
Michael C. Stanekwich, Ph.D., Associate Research Scientist in Pathology
Andrea J. Stannard, M.P.H., Lecturer in Medicine
Robert A. Stanton, M.D., Clinical Instructor in Orthopaedics and Rehabilitation
Linda A. Starace-Colabella, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Robert M. Stark, M.D., Assistant Clinical Professor of Medicine
Matthew W. State, M.D., Ph.D., Donald J. Cohen Associate Professor in the Child Study Center and Associate Professor of Genetics
David A. Stayner, Ph.D., Assistant Clinical Professor of Psychiatry
Robert G. Steadman, M.D., Assistant Clinical Professor of Anesthesiology
Michael A. Stehney, M.D., M.P.H., Assistant Clinical Professor of Medicine
Jonathan H. R. Stein, M.D., Clinical Instructor in Pediatrics
Stephen A. Stein, M.D., Associate Clinical Professor of Surgery (Gastroenterology)
Howard R. Steinberg, Ph.D., Assistant Professor of Psychiatry
Susanne Steinberg, M.D., M.B.A., M.S.N., Assistant Professor (Adjunct) of Psychiatry
Joan A. Steitz, Ph.D., Sterling Professor of Molecular Biophysics and Biochemistry
Robert E. Stevens, Ph.D., Sterling Professor of Molecular Biophysics and Biochemistry
Jeanne L. Steiner, D.O., Associate Professor of Psychiatry
Rishon H. Stember, M.D., Assistant Clinical Professor of Medicine
David F. Stern, Ph.D., Professor of Pathology
Robert Stern, M.D., Ph.D., Associate Clinical Professor of Psychiatry
Denise E. Stevens, Ph.D., Lecturer in Epidemiology (Chronic Diseases)
Michael C. Stevens, Ph.D., Assistant Clinical Professor of Psychiatry
Robert E. Stevenson, Ph.D., Lecturer in Orthopaedics and Rehabilitation
Sarah T. Stewart, M.D., Clinical Instructor in Diagnostic Radiology
Wendy A. Stewart, Ph.D., Assistant Clinical Professor of Psychiatry
William B. Stewart, Ph.D., Associate Professor of Surgery (Gross Anatomy)
Robert J. Stiller, M.D., Associate Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Michael Stitelman, M.D., Assistant Clinical Professor of Psychiatry
John T. Stitt, Ph.D., Professor Emeritus and Lecturer in Epidemiology (Environmental Health)
Douglas A. Stitz, M.S., Lecturer in Medicine
Carlos O. Stocco, Ph.D., Assistant Professor of Obstetrics, Gynecology, and Reproductive Sciences
Susan D. Stocker Giles, M.D., Assistant Clinical Professor of Medicine (Rheumatology)
Jonathan Stoehr, M.D., Instructor in Medicine
Kathleen M. Stoessel, M.D., Associate Professor of Ophthalmology and Visual Science
Meri E. Stoklosa, M.Sc., Lecturer in Medicine
Jan A. Stolwijk, Ph.D., Professor Emeritus and Lecturer in Epidemiology
  (Environmental Health)
Elsa L. Stone, M.D., Associate Clinical Professor of Pediatrics
Shepard B. Stone, P.A., Associate Clinical Professor of Anesthesiology
Jeanette Stoneman, Psy.D., Lecturer in the Child Study Center
Shari M. Storeygard, M.D., Clinical Instructor in Pediatrics (General Pediatrics)
Alexei Stortchevoi, Ph.D., Associate Research Scientist in Pathology
Robert G. Stout, M.D., Assistant Professor of Anesthesiology
Peter B. Stovell, M.D., Clinical Instructor in Orthopaedics and Rehabilitation
Carla S. Stover, Ph.D., Associate Research Scientist in the Child Study Center
Meredith H. Stowe, Ph.D., Associate Research Scientist in Medicine (Occupational Medicine) and Lecturer in Epidemiology (Environmental Health)
Martin J. Stransky, M.D., Assistant Clinical Professor of Neurology
Bruno J. Strasser, Ph.D., Assistant Professor of the History of Medicine and History
Maria I. Straub, M.D., Assistant Clinical Professor of Diagnostic Radiology
John S. Strauss, M.D., Professor Emeritus of Psychiatry
Mario Strazzabosco, M.D., Ph.D., Professor of Medicine (Digestive Diseases)
Stephen M. Strittmatter, M.D., Ph.D., Vincent Coates Professor of Neurology and Professor of Neurobiology
Scott A. Strobel, Ph.D., Professor of Molecular Biophysics and Biochemistry and of Chemistry
Ann Strong, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Maria T. Strong, P.A., M.S., Lecturer in Surgery (Emergency Medicine)
Matthew P. Strout, M.D., Lecturer in Molecular Biophysics and Biochemistry
Matthew P. Strout, M.D., Ph.D., M.S., Associate Research Scientist in Medicine (Hematology) and Lecturer in Molecular Biophysics and Biochemistry
John G. Strugar, M.D., Assistant Clinical Professor of Neurosurgery
Frederick A. Struve, Ph.D., Associate Research Scientist in Medicine (Pulmonary)
Dorothy Stubbe, M.D., Ph.D., Associate Professor in the Child Study Center
Gail E. Sturges, Ph.D., Assistant Clinical Professor of Psychiatry
Thomas H. Styron, Ph.D., M.S., Associate Professor of Psychiatry
Bing Su, Ph.D., M.P.H., Associate Professor of Immunobiology
Antonio Subtil, M.D., M.B.A., Assistant Professor of Dermatology and Pathology
Nancy E. Suchman, Ph.D., Assistant Professor of Psychiatry and in the Child Study Center
Herbert I. Suesserman, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Denis Sukhodolsky, Ph.D., Associate Research Scientist in the Child Study Center
James F. Sullivan, M.D., Associate Clinical Professor of Medicine (Rheumatology)
Lynn E. Sullivan, M.D., Assistant Professor of Medicine (General Medicine)
Scott J. Sullivan, M.D., Assistant Clinical Professor of Diagnostic Radiology
Tami P. Sullivan, Ph.D., Assistant Professor of Psychiatry
Craig P. Summers, M.D., Assistant Clinical Professor of Pediatrics and Nursing
William C. Summers, M.D., Ph.D., Professor of Therapeutic Radiology, Molecular Biophysics and Biochemistry, and History
Jeffrey M. Sumner, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation
Bauer Sumpio, M.D., Ph.D., Professor of Surgery (Vascular) and Diagnostic Radiology
Ben-Hua Sun, M.D., M.S., Associate Research Scientist in Medicine (Endocrinology)
Ning Sun, Ph.D., M.S., Research Scientist in Public Health (Biostatistics)
Ying Sun, M.D., Associate Research Scientist in Comparative Medicine
Zhaoxia Sun, Ph.D., Assistant Professor of Genetics
Patrick Sung, D.Phil., Professor of Molecular Biophysics and Biochemistry and of Therapeutic Radiology
Uhna Sung, Ph.D., Associate Research Scientist in Pharmacology
Jonathan H. Sunshine, Ph.D., Professor (Adjunct) of Diagnostic Radiology
David J. Suscovich, Psy.D., Clinical Instructor in Psychiatry
Lisa G. Suter, M.D., Assistant Professor of Medicine (Rheumatology)
Karen M. Sutton, M.D., Instructor in Orthopaedics and Rehabilitation
James E. Swain, M.D., Ph.D., Assistant Professor in the Child Study Center
Karena L. Swan, M.D., Associate Research Scientist in Pediatrics (Endocrinology)
Keith P. Swan, M.D., Clinical Instructor in Medicine
Joann B. Sweasy, Ph.D., Professor of Therapeutic Radiology and Genetics
Thomas F. Sweeney, M.D., Assistant Clinical Professor of Surgery (Vascular)
Eugene S. Swenson, M.D., Ph.D., Assistant Professor of Medicine (Digestive Diseases)
Carrie R. Swigart, M.D., Assistant Professor of Orthopaedics and Rehabilitation
Brian C. Swirsky, M.D., Assistant Clinical Professor of Medicine
Kati S. Sylvester, M.M.S., P.A., Lecturer in Surgery (Emergency Medicine)
Athanasia D. Syrengelas, M.D., Assistant Clinical Professor of Dermatology
Gordon Sze, M.D., Professor of Diagnostic Radiology
Anna M. Szekely, M.D., Associate Research Scientist in Genetics and Neurology
Mario Sznol, M.D., Associate Professor of Medicine (Medical Oncology)
Tamar H. Taddei, M.D., Assistant Professor of Medicine (Digestive Diseases)
Hemant D. Tagare, Ph.D., Associate Professor of Diagnostic Radiology and Electrical Engineering
Blake Taggart, M.D., Clinical Instructor in the Child Study Center
Joseph J. Tagliarini, D.M.D., Clinical Instructor in Surgery (Dental)
Ningwen Tai, Ph.D., M.S., Associate Research Scientist in Medicine (Medical Oncology)
Oyebode A. Taiwo, M.B.B.S., M.P.H., Assistant Professor of Medicine (Occupational Medicine)
Peter A. Takizawa, Ph.D., Assistant Professor of Cell Biology
Michael G. Tal, M.D., Associate Professor of Diagnostic Radiology
Catherine A. Talbot, M.A., Lecturer in the Child Study Center
Norman S. Tahner, M.D., Professor Emeritus of Pediatrics
Jaideep Talwalkar, M.D., Assistant Clinical Professor of Pediatrics
Gilles D. Tamagnan, Ph.D., Associate Professor (Adjunct) of Psychiatry
William V. Tamborlane, M.D., Professor of Pediatrics (Endocrinology)
Rajesh R. Tampi, M.B.B.S., Assistant Professor of Psychiatry
J. L. Tanenbaum, D.D.S., M.P.H., Assistant Clinical Professor of Surgery (Dental)
Lie-Qi Tang, M.D., Associate Research Scientist in Cellular and Molecular Physiology
Lynn Tanoue, M.D., Professor of Medicine (Pulmonary)
Gary F. Tansino, M.D., Clinical Instructor in Medicine (Medical Oncology)
Hossam E. Tantawy, M.B.Ch.B., Assistant Professor of Anesthesiology and Surgery (Trauma)
Jian Tao, Ph.D., Associate Research Scientist in Medicine (Rheumatology)
Zhen Tao, Ph.D., M.S., Associate Research Scientist in Pharmacology
Asim F. Tarabar, M.D., Assistant Professor of Surgery (Emergency Medicine)
Mary Target, Ph.D., Associate Clinical Professor in the Child Study Center
Vanessa A. Tarud, O.D., Clinical Instructor in Ophthalmology and Visual Science
Robert R. Tash, M.D., Assistant Clinical Professor of Diagnostic Radiology
David C. Tate, Ph.D., Assistant Clinical Professor of Psychiatry
Peter J. Tattersall, Ph.D., Professor of Laboratory Medicine and Genetics
Howard L. Taubin, M.D., Associate Clinical Professor of Medicine (Digestive Diseases)
Fattaneh A. Tavassoli, M.D., Professor of Pathology and of Obstetrics, Gynecology, and Reproductive Sciences
Caroline R. Taylor, M.D., Associate Professor of Diagnostic Radiology
Hugh S. Taylor, M.D., Professor of Obstetrics, Gynecology, and Reproductive Sciences and Associate Professor of Molecular, Cellular, and Developmental Biology
Jane R. Taylor, Ph.D., Associate Professor of Psychiatry
Marc J. Taylor, M.D., Associate Clinical Professor of Medicine
Mark B. Taylor, M.D., Lecturer in Medicine
Terry Taylor, M.D., Assistant Clinical Professor of Medicine (Endocrinology)
Jacob K. Tebes, Ph.D., Associate Professor of Psychiatry, of Epidemiology (Chronic Diseases), and in the Child Study Center
Mohamedtaki Tejani, M.D., Instructor in Medicine
Cenk Tek, M.D., Assistant Professor of Psychiatry
Ece S. Tek, M.D., Assistant Professor of Psychiatry
George Tellides, M.D., Associate Professor of Surgery (Cardiac)
Stewart J. Tepper, M.D., Associate Clinical Professor of Neurology
Aaron N. Tessler, M.D., Assistant Clinical Professor of Psychiatry
Francine M. Testa, M.D., Clinical Professor of Pediatrics and Neurology
John A. Testa, M.D., Clinical Instructor in Medicine
Jeanette M. Tetrault, M.D., Instructor in Medicine (General Medicine)
Constantine Theoharis, M.D., Assistant Professor of Pathology
Armin P. Thies, Ph.D., Associate Clinical Professor in the Child Study Center
Byron S. Thomas, M.D., Assistant Clinical Professor of Medicine
Paul F. Thomas, J.D., Lecturer in Psychiatry
Prakash K. Thomas, M.D., Lecturer in the Child Study Center
Prem G. Thomas, M.D., Lecturer in Anesthesiology (Medical Informatics)
Venetta Thomas, Ph.D., Associate Research Scientist in Medicine (Infectious Diseases)
J. G. Thomson, M.D., Associate Professor of Surgery (Plastic)
R. Brent Thomson, Ph.D., Associate Research Scientist in Medicine (Nephrology)
Steven C. Thornquist, M.D., Clinical Instructor in Ophthalmology and Visual Science
Scott C. Thornton, M.D., Assistant Clinical Professor of Surgery (Gastroenterology)
Edwin C. Thrower, Ph.D., Lecturer in Molecular Biophysics and Biochemistry
Edwin C. Thrower, Ph.D., Associate Research Scientist in Medicine (Gastroenterology)
Arlyne K. Thung, M.D., Assistant Professor of Anesthesiology
Stephen F. Thung, M.D., Assistant Professor of Obstetrics, Gynecology, and Reproductive Sciences
Ning Tian, M.D., Ph.D., Associate Professor of Ophthalmology and Visual Science and Neurobiology
Xin Tian, M.D., Associate Research Scientist in Medicine (Nephrology)
Douglas E. Tichy, P.A., Lecturer in Surgery (Emergency Medicine)
Robert E. Tigelaar, M.D., Professor of Dermatology and Immunobiology
Mae K. Tighe, M.D., Clinical Instructor in Medicine
Gregory H. Tignor, D.Sc., Professor Emeritus of Epidemiology (Microbial Diseases)
Mary E. Tinetti, M.D., Gladys Phillips Crofoot Professor of Medicine (Geriatrics) and Professor of Epidemiology (Chronic Diseases) and of Investigative Medicine
Thomas Tinghitella, Ph.D., Associate Clinical Professor of Laboratory Medicine
Anna L. Tirado, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Neil W. Tishkoff, M.D., Assistant Clinical Professor of Diagnostic Radiology
David Z. Tkeshelashvili, M.D., Assistant Clinical Professor of Neurology and Neurosurgery
Brian Tobin, M.D., Assistant Clinical Professor of Psychiatry
Daniel G. Tobin, M.D., Assistant Professor of Medicine (General Medicine)
Irena Tocino, M.D., Professor of Diagnostic Radiology
Fuyuze Tokoglu, M.S., Lecturer in Diagnostic Radiology
John Toksoy, M.D., Assistant Clinical Professor of Medicine
Hajime Tokuno, M.D., Assistant Professor of Neurology
David F. Tolin, Ph.D., M.A., Associate Professor (Adjunct) of Psychiatry
Benjamin A. Toll, Ph.D., M.S., Assistant Professor of Psychiatry
David Tom, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Sandra L. Tomak, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation
Joseph Tomanelli, M.D., Assistant Clinical Professor of Medicine
Andrei J. Tomashevski, Ph.D., Associate Research Scientist in Pediatrics (Hematology/Oncology)
Anthony Tomassoni, M.D., Assistant Professor of Surgery (Emergency Medicine)
Mary M. Tomayko, M.D., Assistant Professor of Dermatology
Susumu Tomita, Ph.D., Assistant Professor of Cellular and Molecular Physiology
Janis L. Tondora, Psy.D., Assistant Clinical Professor of Psychiatry
Elif O. Tongul, M.A., Clinical Instructor in the Child Study Center
Denise Tonzola, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Derek K. Toomre, Ph.D., M.S., Assistant Professor of Cell Biology
Jeffrey E. Topal, M.D., Assistant Clinical Professor of Medicine (Infectious Diseases)
Ernest A. Topran, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Dawn C. Torres, M.D., Clinical Instructor in Pediatrics
Richard Torres, M.D., Assistant Clinical Professor of Medicine
Richard Torres, M.D., Lecturer in Molecular Biophysics and Biochemistry
Carlos G. Torres-Viera, M.D., M.P.H., Clinical Instructor in Medicine (Infectious Diseases)
Peter C. Tortora, M.D., M.P.H., Clinical Instructor in Medicine
Robert J. Touloukian, M.D., Professor of Surgery (Pediatrics) and Pediatrics
Hoanh Tran, Ph.D., Associate Research Scientist in Pharmacology
Michael C. Trager, M.D., Clinical Instructor in Medicine
Gary E. Tratt, M.D., Clinical Instructor in Medicine
Helen B. Trelloar, Ph.D., Assistant Professor of Neurosurgery
Sharon E. Tressel, Psy.D., Assistant Clinical Professor of Psychiatry
Louis A. Trevisan, M.D., Assistant Clinical Professor of Psychiatry
Elizabeth W. Triche, Ph.D., Research Scientist in Epidemiology (Chronic Diseases)
David H. Trock, M.D., Assistant Clinical Professor of Medicine (Rheumatology)
Frank J. Troncale, M.D., Associate Clinical Professor of Medicine (Digestive Diseases)
Robert Tross, M.D., Assistant Clinical Professor of Surgery (Plastic)
Terence K. Trow, M.D., Assistant Professor of Medicine (Pulmonary)
Kevin Trueblood, M.D., Assistant Clinical Professor of Psychiatry
James C. Tsai, M.D., M.B.A., Robert R. Young Professor and Chairman of Ophthalmology and Visual Science
Semeon Tsalbins, M.D., Assistant Clinical Professor of Pediatrics
Katherine D. Tsatsanis, D.Phil., Associate Research Scientist in the Child Study Center
Christian Tschudi, Ph.D., Associate Professor of Epidemiology (Microbial Diseases)
Mary M. Tse, M.D., Clinical Instructor in Obstetrics, Gynecology, and Reproductive Sciences
David P. Tuck, M.D., Assistant Professor of Pathology
Maria Tupper, M.S.W., Assistant Clinical Professor of Psychiatry (Social Work)
Benjamin E. Turk, Ph.D., Assistant Professor of Pharmacology
Kevin J. Twohig, M.D., Assistant Clinical Professor of Medicine (Pulmonary)
Kazimierz Tycowski, Ph.D., Research Scientist in Molecular Biophysics and Biochemistry
James G. Uberti, M.D., Assistant Clinical Professor of Medicine
Edward M. Uchio, M.D., Assistant Professor of Surgery (Urology)
Robert Udelsman, M.D., M.B.A., M.S.B., William H. Carmalt Professor of Surgery
Howard D. Uderman, M.D., Assistant Clinical Professor of Medicine
Marianne E. Ulcickas Yood, D.Sc., M.P.H., Associate Research Scientist in Epidemiology (Chronic Diseases)
Elisabetta Ullu, Ph.D., Professor of Medicine (Infectious Diseases) and Cell Biology
Renuka Umashanker, M.D., Assistant Clinical Professor of Medicine
Vinzenz M. Unger, Ph.D., Associate Professor of Molecular Biophysics and Biochemistry
Shyam Unniraman, Ph.D., Associate Research Scientist in Immunobiology
Anupama Upadya, M.B.B.S., Clinical Instructor in Medicine
Stephen C. Updegrove, M.D., Associate Clinical Professor of Pediatrics
John S. Urbanetti, M.D., Assistant Clinical Professor of Medicine
Flora M. Vaccarino, M.D., Associate Professor in the Child Study Center and of Neurobiology
Nalini Vadivelu, M.B.B.S., Associate Professor of Anesthesiology
Ali Vaezy, M.D., Assistant Clinical Professor of Pediatrics
Chetan Vaid, M.D., Clinical Instructor in Medicine
Chirag K. Vaidya, M.B.B.S., Clinical Instructor in Medicine
Irena Vaitkeviciute, M.D., Assistant Professor of Anesthesiology
Gerald W. Valentine, M.D., Associate Research Scientist in Psychiatry
Anthony N. Van den Pol, Ph.D., Professor of Neurosurgery
Jeffrey J. Vanderploeg, Ph.D., Associate Research Scientist in Psychiatry
Christopher H. van Dyck, M.D., Professor of Psychiatry
Carin M. Van Gelder, M.D., Assistant Professor of Surgery (Emergency Medicine)
Joshua N. Van Houten, Ph.D., Associate Research Scientist in Medicine (Endocrinology)
Peter H. Van Ness, Ph.D., Associate Research Scientist in Medicine (Geriatrics) and Lecturer in Epidemiology (Chronic Diseases)
Dorothyann J. Van Rhijn, M.D., Clinical Instructor in Medicine
Pieter Joost Van Wattum, M.D., Assistant Clinical Professor in the Child Study Center and of Psychiatry
Susann Varano, M.D., Clinical Instructor in Medicine (Geriatrics)
Gian S. Varbaro, M.D., Assistant Clinical Professor of Medicine
Pradeep Varma, M.D., Assistant Professor of Diagnostic Radiology
Aseem Vashist, M.B.B.S., Assistant Professor of Medicine (Cardiology)
Ipshita Vashist, M.B.B.S., Clinical Instructor in Medicine
Luz S. Vasquez, M.D., Assistant Professor of Medicine (General Medicine)
Douglas W. Vaughn, M.D., Assistant Professor of Anesthesiology
Marietta Vazquez, M.D., Assistant Professor of Pediatrics (General Pediatrics)
Heino Velazquez, Ph.D., Research Scientist in Medicine (Nephrology)
Mark Velleca, M.D., Assistant Clinical Professor of Laboratory Medicine
Ronald J. Vender, M.D., Clinical Professor of Medicine (Digestive Diseases)
Raul Vera, M.D., Lecturer in Therapeutic Radiology
Romeo A. Vidone, M.D., Associate Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Agnes M. Vignery, D.D.S., Ph.D., Associate Professor of Orthopaedics and Rehabilitation
Merceditas S. Villanueva, M.D., Assistant Clinical Professor of Medicine (Infectious Diseases)
Ouida J. Vincent, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Eugenia M. Vining, M.D., Clinical Instructor in Surgery (Otolaryngology)
Michael D. Virata, M.D., Assistant Clinical Professor of Medicine
Catherine M. Viscoli, Ph.D., Research Scientist in Medicine (General Medicine)
Danielle Vitiello, M.D., Ph.D., Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Lawrence A. Vitulano, Ph.D., Associate Clinical Professor in the Child Study Center
Kenneth P. Vives, M.D., Associate Professor of Neurosurgery
Dolores Vojvoda, M.D., Assistant Professor of Psychiatry
Fred R. Volkmar, M.D., Irving B. Harris Professor in the Child Study Center and
Professor of Psychiatry, Pediatrics, and Psychology
Maria V. Volkova, Ph.D., M.S., Associate Research Scientist in Medicine (Cardiology)
Michael B. Vollmar, M.D., Clinical Instructor in Psychiatry
Laura Volpincelli-Daley, Ph.D., Associate Research Scientist in Cell Biology
Evan Vosburgh, M.D., Associate Clinical Professor of Medicine (Medical Oncology)
John J. Votto, D.O., Associate Clinical Professor of Medicine (Pulmonary)
Jeffery T. Wack, Ph.D., M.S., Lecturer in Public Health (Global Health)
Frans J. Wackers, M.D., Ph.D., Professor of Diagnostic Radiology and Medicine (Cardiology)
Jeffrey A. Wagner, M.D., M.B.A., Assistant Clinical Professor of Anesthesiology
Krystn Wagner, M.D., Ph.D., Assistant Professor of Medicine (AIDS)
Stephanie L. Wain, M.D., Clinical Instructor in Pathology
Jill S. Waldman, M.D., Clinical Instructor in Medicine
Linda A. Waldman, M.D., Clinical Instructor in Pediatrics
Lisa M. Walke, M.D., Assistant Professor of Medicine (Geriatrics)
Carrie D. Walker, M.P.A.S., Lecturer in Surgery (Emergency Medicine)
Charles N. Walker, M.D., Assistant Professor of Surgery (Urology)
Dale J. Wallington, M.D., Assistant Clinical Professor of Psychiatry
Susan A. Walsh, M.D., Clinical Instructor in Pediatrics (Emergency Medicine)
Thomas J. Walsh, M.D., Clinical Professor of Ophthalmology and Visual Science.
Zenta Walther, M.D., Ph.D., Assistant Professor of Pathology
La-Xiang Wan, Ph.D., Associate Research Scientist in Medicine (Nephrology)
Minghong M. Wan, M.D., Ph.D., Associate Research Scientist in Immunobiology
Gary R. Wanerka, M.D., Assistant Clinical Professor of Pediatrics
Chuan-Jen Wang, Ph.D., Associate Research Scientist in Pharmacology
Fei Wang, Ph.D., Associate Research Scientist in Psychiatry
Hong Wang, M.D., Ph.D., Assistant Professor of Public Health (Global Health)
Jiming Wang, Ph.D., Research Scientist in Molecular Biophysics and Biochemistry
Jinghua Wang, Ph.D., Research Scientist in Diagnostic Radiology
Lansheng Wang, M.D., Ph.D., Assistant Clinical Professor of Anesthesiology
Min Wang, Ph.D., Associate Research Scientist in Neurobiology
Peili Wang, M.D., Associate Research Scientist in Medicine (Nephrology)
Shu-Ming Wang, M.D., Associate Professor of Anesthesiology
Tong Wang, M.D., Professor of Cellular and Molecular Physiology
Xiao-Jing Wang, Ph.D., Professor of Neurobiology
Xingxing Wang, M.D., Associate Research Scientist in Neurology
Xiuyuan Wang, Ph.D., Associate Research Scientist in Immunobiology
Ying Wang, M.D., Associate Research Scientist in Medicine (Nephrology)
Yongfei Wang, M.S., Lecturer in Medicine (Cardiology)
Zhu Wang, Ph.D., Associate Research Scientist in Medicine
Henry Ward, M.D., Assistant Clinical Professor of Medicine
Nadia Ward, Ph.D., Assistant Professor of Psychiatry
Stephen C. Wardlaw, M.D., Clinical Professor of Laboratory Medicine
John H. Warner, Ph.D., Avalon Professor of the History of Medicine and Professor of American Studies and History
Mary L. Warner, M.S., Assistant Professor of Medicine (General Medicine)
Wayne S. Warren, M.D., Assistant Clinical Professor of Medicine
Lawrence J. Wartel, M.D., Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Dennis Wasson, M.B.B.Ch., Assistant Clinical Professor of Surgery (Gastroenterology)
John M. Watkins-Pitchford, M.B.B.S., Assistant Professor of Anesthesiology
Kalman L. Watsky, M.D., Clinical Professor of Dermatology
Kelley T. Watson, M.D., Assistant Clinical Professor of Anesthesiology
June Qiongye Watzl, Ph.D., Associate Research Scientist in Diagnostic Radiology
Stephen G. Waxman, M.D., Ph.D., Bridget Marie Flaherty Professor of Neurology, Neurobiology, and Pharmacology
Stephen D. Wayne, Jr., M.S.W., Assistant Clinical Professor of Psychiatry (Social Work)
Pamela A. Wearsch, Ph.D., Associate Research Scientist in Immunobiology
Scott Donald Weatherbee, Ph.D., Assistant Professor of Genetics
Jonathan M. Weber, P.A., Assistant Professor of Medicine (General Medicine)
Bevin P. Weeks, M.D., Assistant Professor of Pediatrics (Cardiology)
V. Robin Weersing, Ph.D., Assistant Professor (Adjunct) in the Child Study Center
Mark Wehrum, D.O., Instructor in Obstetrics, Gynecology, and Reproductive Sciences
Joanne B. Weidhaas, M.D., Ph.D., Assistant Professor of Therapeutic Radiology
Weiguo Cui, M.D., Associate Research Scientist in Immunobiology
Ulrich H. Weil, M.D., Clinical Professor of Orthopaedics and Rehabilitation
Richard B. Wein, M.D., M.S., Assistant Clinical Professor of Medicine
John C. Weinberg, M.B.B.Ch., Assistant Clinical Professor of Anesthesiology
Andrea H. Weinberger, Ph.D., Associate Research Scientist in Psychiatry
Jay J. Weiner, M.D., Assistant Clinical Professor of Medicine
Scott A. Weiner, M.D., Assistant Clinical Professor of Pediatrics (Neonatology)
Jeffrey C. Weinreb, M.D., Professor of Diagnostic Radiology
David A. Weinsheil, M.D., Assistant Clinical Professor of Medicine
Eric S. Weinstein, M.D., Clinical Instructor in Surgery (Emergency Medicine)
Mark H. Weinstein, M.D., Assistant Clinical Professor of Surgery (Plastic)
Alan D. Weinstock, M.D., Associate Clinical Professor of Anesthesiology
Stuart A. Weinzimer, M.D., Associate Professor of Pediatrics (Endocrinology) and Assistant Clinical Professor of Nursing
Lawrence D. Weis, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation
Otto G. Weis, M.D., Clinical Instructor in Medicine
Bertrand S. Weisbart, D.D.S., Associate Clinical Professor of Surgery (Dental)
Erica Weiss, M.D., Clinical Instructor in Psychiatry
Gordon Weiss, M.D., Clinical Instructor in the Child Study Center
Pnina G. Weiss, M.D., Assistant Professor of Pediatrics (Respiratory)
Robert M. Weiss, M.D., Donald Guthrie Professor of Surgery (Urology)
Sharon B. Weissman, M.D., Assistant Clinical Professor of Medicine (Infectious Diseases) and Nursing
Sherman M. Weissman, M.D., Sterling Professor of Genetics and Professor of Medicine
James M. Weisz, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Carol C. Weitzman, M.D., Associate Professor of Pediatrics (General Pediatrics) and in the Child Study Center
Marc L. Weitzman, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Andrew C. Wells, M.D., Assistant Clinical Professor of Medicine
Carolyn K. Wells, M.P.H., Lecturer in Medicine (General Medicine)
Li Wen, M.D., Ph.D., Senior Research Scientist in Medicine (Endocrinology)
Detlef Wencker, M.D., Sc.D., Assistant Professor (Adjunct) of Medicine (Cardiology)
Christopher C. Wendler, Ph.D., Associate Research Scientist in Pediatrics (Pediatric Developmental Biology & Biophysics)
Sherill Werblood, Ph.D., Assistant Clinical Professor in the Child Study Center
Norman S. Werdiger, M.D., Associate Clinical Professor of Neurology
Michael J. Werdmann, M.D., Assistant Clinical Professor of Surgery (Emergency Medicine)
Jeffrey C. West, M.D., Assistant Clinical Professor of Laboratory Medicine
Michael Westerveld, Ph.D., Associate Professor of Neurosurgery and Pediatrics and in the Child Study Center
Ruth K. Westheimer, M.Ed., Lecturer in Psychiatry
Harriet S. Wetstone, Ph.D., Assistant Clinical Professor in the Child Study Center
Bruce E. Wexler, M.D., Professor of Psychiatry
Joan M. Wexler, M.S.W., Assistant Clinical Professor of Psychiatry (Social Work)
Peter G. Whang, M.D., Assistant Professor of Orthopaedics and Rehabilitation
Richard F. Whelan, M.D., Assistant Clinical Professor of Pediatrics
Cay White, M.D., Clinical Instructor in the Child Study Center
Colin White, M.B.B.S., Professor Emeritus and Lecturer in Public Health (Biostatistics)
Kathleen P. White, M.D., Assistant Clinical Professor of Medicine
Marney A. White, Ph.D., Assistant Professor of Psychiatry
Robert I. White, M.D., Professor of Diagnostic Radiology
Robert S. White, M.D., Assistant Clinical Professor of Psychiatry
Laura M. Whitman, M.D., Assistant Professor of Medicine (General Medicine)
Stephen C. Widman, M.D., Clinical Instructor in Medicine
Elizabeth Wiesner, M.D., Assistant Clinical Professor of Pediatrics
Dorothea Wild, M.D., Lecturer in Public Health (Health Policy)
Jason Wilder, D.O., Clinical Instructor in Dermatology
C. P. Wiles, M.D., Assistant Clinical Professor in the Child Study Center
Arthur E. Wilk, D.S.S., Assistant Clinical Professor of Surgery (Dental)
Harold S. Wilkes, M.D., Assistant Clinical Professor of Medicine
Kirsten M. Wilkins, M.D., Assistant Professor of Psychiatry
David C. Willhite, Ph.D., Associate Research Scientist in Neurobiology
Graham V. Williams, Ph.D., Assistant Professor of Psychiatry
James E. Williams, M.D., Clinical Instructor in Medicine (Pulmonary)
James O. Williams, P.A., Lecturer in Surgery (Otolaryngology)
Keith P. Williams, M.D., Clinical Professor of Obstetrics, Gynecology, and
Reproductive Sciences
Kenneth R. Williams, Ph.D., Professor (Adjunct) of Research in Molecular Biophysics
and Biochemistry
Vincent J. Williams, M.D., Clinical Instructor in Orthopaedics and Rehabilitation
Wendol A. Williams, M.D., Assistant Professor of Psychiatry
Anne Williamson, Ph.D., Associate Professor of Neurosurgery
Lynn D. Wilson, M.D., Professor of Therapeutic Radiology and Dermatology
Steven R. Wilson, V.M.D., Associate Research Scientist in Comparative Medicine
Donna M. Windish, M.D., M.P.H., Assistant Professor of Medicine (General Medicine)
Robert D. Windom, M.D., Assistant Clinical Professor of Pediatrics
Goldie O. Winn, M.S.W., Clinical Instructor in the Child Study Center (Social Work)
Stephen M. Winter, M.D., Clinical Professor of Medicine (Pulmonary)
Charles R. Wira, M.D., Assistant Professor of Surgery (Emergency Medicine)
Matthew J. Wise, M.D., Clinical Instructor in Obstetrics, Gynecology, and
Reproductive Sciences
Claire V. Wiseman, Ph.D., Assistant Clinical Professor of Psychiatry
Adam V. Wisnewski, Ph.D., Associate Professor of Medicine (Occupational Medicine)
David H. Witt, M.D., Clinical Instructor in Medicine
Robert A. Wiznia, M.D., Associate Clinical Professor of Ophthalmology and Visual
Science
David Wohl, D.D.S., Clinical Instructor in Surgery (Dental)
Julie M. Wolf, Ph.D., Associate Research Scientist in the Child Study Center
Emanuel C. Wolff, M.D., Lecturer in the Child Study Center
Erin F. Wolff, M.D., Associate Research Scientist in Obstetrics, Gynecology, and
Reproductive Sciences
David M. Wolfsohn, M.D., Assistant Clinical Professor of Medicine (Digestive Diseases)
Steven Wolfsen, M.D., Associate Clinical Professor of Medicine (Cardiology)
Sandra L. Wolin, M.D., Ph.D., Professor of Cell Biology and of Molecular Biophysics
and Biochemistry
Robert M. Wolk, M.D., D.Sc., Ph.D., Assistant Professor (Adjunct) of Medicine
(Pulmonary)
Guido Wollmann, M.D., Associate Research Scientist in Neurosurgery
Chester C. Wood, M.D., Associate Clinical Professor of Pediatrics
Scott W. Woods, M.D., Professor of Psychiatry
Joseph Woolston, M.D., Albert J. Solnit Professor of Child Psychiatry in the Child
Study Center and Professor of Pediatrics
Andrew Wormser, M.D., Assistant Clinical Professor of Medicine
Fred S. Wright, M.D., Professor of Medicine (Nephrology) and Cellular and
Molecular Physiology
Jill Wruble, D.O., Assistant Clinical Professor of Diagnostic Radiology
Barry J. Wu, M.D., Clinical Professor of Medicine and Associate Clinical Professor of Nursing
Dianqing Wu, Ph.D., Professor of Pharmacology
Joseph Wu, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation
Kun Wu, M.D., Ph.D., Associate Research Scientist in Neurosurgery
Min Wu, Ph.D., Associate Research Scientist in Psychiatry
Yan Yun Wu, M.D., Ph.D., Assistant Professor of Laboratory Medicine
Yanling Wu, M.D., Ph.D., Associate Research Scientist in Medicine (Nephrology)
Yuan-Ming Wu, M.D., Associate Research Scientist in Neurology
Yue Wu, Ph.D., Associate Research Scientist in Pathology
Joanna Wynne, M.D., Assistant Clinical Professor of Pediatrics
John J. Wysolmerski, M.D., Associate Professor of Medicine (Endocrinology)
Ying Xia, M.D., Ph.D., Associate Professor of Pediatrics (Respiratory)
Wenhui Xiong, Ph.D., Associate Research Scientist in Neurobiology
Yong Xiong, Ph.D., M.S., Assistant Professor of Molecular Biophysics and Biochemistry
Hong-Ping Xu, Ph.D., Associate Research Scientist in Neurobiology
Jianchao Xu, M.D., Ph.D., Assistant Professor of Medicine (Nephrology)
Jiansong Xu, M.D., Ph.D., Associate Research Scientist in Psychiatry
Tian Xu, Ph.D., Professor of Genetics
Xiangru Xu, Ph.D., Associate Research Scientist in Anesthesiology
Xuming Xu, Ph.D., Associate Research Scientist in Ophthalmology and Visual Science
Lei Xue, Ph.D., Associate Research Scientist in Genetics
Henry K. Yaggi, M.D., Assistant Professor of Medicine (Pulmonary)
Qingshang Yan, Ph.D., Associate Research Scientist in Cellular and Molecular Physiology
Eiji Yanagisawa, M.D., Clinical Professor of Surgery (Otolaryngology)
Ken Yanagisawa, M.D., Assistant Clinical Professor of Surgery (Otolaryngology)
Bao-Zhu Yang, Ph.D., M.S., Associate Research Scientist in Psychiatry
Guangwei Yang, Ph.D., Associate Research Scientist in Pharmacology
Kai H. Yang, M.D., Assistant Clinical Professor of Medicine (Endocrinology)
Mei-Ling Yang, Ph.D., Associate Research Scientist in Medicine (Rheumatology)
Youshan Yang, Ph.D., Associate Research Scientist in Cellular and Molecular Physiology
Gang-Qing Yao, M.D., Research Scientist in Comparative Medicine
Timur Yarovinsky, Ph.D., Associate Research Scientist in Immunobiology
Yukio Yasukochi, M.D., Ph.D., Associate Research Scientist in Genetics
Bogdan Yatsula, Ph.D., Associate Research Scientist in Pathology
M. Yanki Yazgan, M.D., Clinical Instructor in the Child Study Center
Jianjiang Ye, Ph.D., Associate Research Scientist in Molecular Biophysics and Biochemistry
Zhi-Jia Ye, M.D., Ph.D., Associate Research Scientist in Genetics
Catherine W. Yeckel, Ph.D., M.S., Assistant Professor of Epidemiology (Environmental Health)
Mark F. Yeckel, Ph.D., Associate Professor of Neurobiology
Arthur Yee, M.D., Assistant Clinical Professor of Medicine
Raymond Yesner, M.D., Professor Emeritus and Senior Research Scientist in Pathology
Paul Yeung, M.D., Assistant Clinical Professor in the Child Study Center
Fang Yi, Ph.D., M.S., Associate Research Scientist in Molecular Biophysics and Biochemistry
Tai Yi, M.D., Associate Research Scientist in Immunobiology
Jeremiah Yim, M.D., Clinical Instructor in Neurology
Zhinan Yin, M.D., Ph.D., M.S., Associate Professor (Adjunct) of Medicine (Rheumatology)
Chunxiao Ying, Ph.D., M.S., Associate Research Scientist in Pharmacology
Kimberly A. Yonkers, M.D., Associate Professor of Psychiatry, of Obstetrics, Gynecology, and Reproductive Sciences, and of Epidemiology
Yun You, Ph.D., Associate Research Scientist in Genetics
Christopher M. Young, M.D., Assistant Clinical Professor of Psychiatry
Jennifer L. Young, M.D., Clinical Instructor in Pediatrics
John L. Young, M.D., Clinical Professor of Psychiatry
Lawrence H. Young, M.D., Professor of Medicine (Cardiology) and Cellular and Molecular Physiology
Nwanmegha Young, M.D., Assistant Professor of Surgery (Otolaryngology)
Richard S. Young, M.D., Associate Clinical Professor of Pediatrics
Herbert Yu, M.D., Ph.D., Associate Professor of Epidemiology (Chronic Diseases)
Jin Yu, M.D., Associate Research Scientist in Medicine (Digestive Diseases)
Joseph Yu, M.D., Clinical Instructor in Medicine (Digestive Diseases)
Jun Yu, M.D., Associate Research Scientist in Pharmacology
Kuan-Ping Yu, Ph.D., M.S., Associate Research Scientist in Medicine (Endocrinology)
Zhiheng Yu, M.D., Associate Research Scientist in Medicine (Nephrology)
Weiming Yuan, Ph.D., Associate Research Scientist in Immunobiology
James J. Yue, M.D., Associate Professor of Orthopaedics and Rehabilitation
Richard J. Yun, M.D., Assistant Clinical Professor of Psychiatry
Zhong M. Yun, Ph.D., Assistant Professor of Therapeutic Radiology
Joseph A. Zaccagnino, M.P.H., Lecturer in Public Health (Health Policy)
Dario M. Zagar, M.D., Clinical Instructor in Neurology
Mona Zain, M.D., M.S., Assistant Clinical Professor of Medicine (General Medicine)
Craig S. Zalis, M.D., Assistant Clinical Professor of Medicine
Alicia Zalka, M.D., Assistant Clinical Professor of Dermatology
Eduardo V. Zambrano, M.D., Assistant Professor of Pathology
Leonard H. Zanmore, M.D., Associate Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
Theodore Zanker, M.D., Associate Clinical Professor in the Child Study Center
Barry L. Zaret, M.D., Robert W. Berliner Professor of Medicine (Cardiology) and Professor of Diagnostic Radiology
Joel S. Zaretzyk, M.D., Assistant Clinical Professor of Medicine
Stuart W. Zarich, M.D., Associate Clinical Professor of Medicine (Cardiology)
Hitten P. Zaveri, Ph.D., Associate Research Scientist in Neurology
Dejan P. Zecevic, Ph.D., Research Scientist in Cellular and Molecular Physiology
Caroline J. Zeiss, B.V.Sc., Ph.D., Associate Professor of Comparative Medicine and of Ophthalmology and Visual Science
Richard A. Zell, M.D., Assistant Clinical Professor of Orthopaedics and Rehabilitation
Joseph H. Zelson, M.D., Clinical Professor of Pediatrics
Daniel Zelterman, Ph.D., Professor of Public Health (Biostatistics)
Boris Zemelman, Ph.D., Associate Research Scientist in Cell Biology
David Zenisek, Ph.D., Assistant Professor of Cellular and Molecular Physiology
John S. Zesk, M.D., Assistant Clinical Professor of Medicine
Hai Feng Zhang, Ph.D., Associate Research Scientist in Pathology
Heping Zhang, Ph.D., Professor of Public Health (Biostatistics), of Statistics, and in the Child Study Center
Hui Z. Zhang, M.D., Ph.D., Associate Research Scientist in Genetics and Pediatrics
Huiping Zhang, Ph.D., Associate Research Scientist in Psychiatry
Jiasheng Zhang, M.D., Associate Research Scientist in Medicine (Cardiology)
Junhui Zhang, M.D., Associate Research Scientist in Medicine (Nephrology)
Ping Zhang, Ph.D., M.S., Associate Research Scientist in Medicine (Endocrinology)
Wei Zhang, Ph.D., M.S., Associate Research Scientist in Pharmacology
Xian-Man Zhang, Ph.D., Associate Research Scientist in Medicine (Endocrinology)
Yalan Zhang, Ph.D., Associate Research Scientist in Pharmacology
Yawei Zhang, M.D., Ph.D., M.P.H., Assistant Professor of Epidemiology (Environmental Health)
Yuan-Wei Zhang, Ph.D., Associate Research Scientist in Pharmacology
Feng Zhao, M.D., Ph.D., Lecturer in Public Health (Global Health)
Hongyu Zhao, Ph.D., Ira V. Hiscock Professor of Public Health (Biostatistics) and Professor of Genetics
Peng Zhao, Ph.D., Associate Research Scientist in Neurology
Tongzhang Zheng, D.Sc., Professor of Epidemiology (Environmental Health)
Yufeng Zhou, Ph.D., Assistant Professor of Cellular and Molecular Physiology
Qingbing Zhu, M.D., Assistant Professor of Anesthesiology
Yong Zhu, Ph.D., Assistant Professor of Epidemiology (Environmental Health)
Yong-Lian Zhu, M.D., Associate Research Scientist in Pharmacology
Erio Ziglio, Ph.D., Lecturer in Public Health (Global Health)
Paula Zimbrenan, M.D., Assistant Professor of Psychiatry
Lynne D. Zimmerman, Ph.D., Assistant Clinical Professor in the Child Study Center
Susan O. Zimmerman, M.S.W., Assistant Clinical Professor of Psychiatry (Social Work)
Zoran Zimolo, M.D., Ph.D., Assistant Professor of Psychiatry
Jonathan R. Zirn, M.D., Assistant Clinical Professor of Dermatology
Wayne Zito, Psy.D., Associate Research Scientist in Psychiatry
Ronald A. Zlotoff, M.D., Clinical Instructor in Medicine and Pediatrics
Howard V. Zonana, M.D., Professor of Psychiatry and Professor (Adjunct) of Law Administration
Tony Zreik, M.D., Assistant Clinical Professor of Obstetrics, Gynecology, and Reproductive Sciences
I. George Zubal, Ph.D., Associate Clinical Professor of Diagnostic Radiology
Bella Zubkov, M.D., Clinical Instructor in Dermatology
Bernard D. Zuckerman, M.D., Assistant Clinical Professor of Ophthalmology and Visual Science
Kaye Zuckerman, M.D., Assistant Clinical Professor of Surgery (Gastroenterology)
Lingjun Zuo, Ph.D., Associate Research Scientist in Psychiatry
Felice R. Zwas, M.D., Assistant Clinical Professor of Medicine
History and Facilities

HISTORY

The School of Medicine was established by passage of a bill in the Connecticut General Assembly in 1810 granting a charter for “The Medical Institution of Yale College,” to be conducted under the joint supervision of the college and the Connecticut State Medical Society. The institution was formally opened in 1813, and the first degrees were conferred the following year. In 1884, with the approval of the Medical Society, the original charter was amended to place the School definitely in the control of the College as the Medical School of Yale College. The name Yale College was changed to Yale University in 1887, and the name of the Medical School was automatically changed. The present name was adopted in 1918.

Shortly after the establishment of the School, members of its faculty and physicians in the state joined with other citizens in raising funds for a hospital in New Haven to provide, among other services, clinical facilities for the instruction of medical students. The outcome of these efforts was the incorporation of the General Hospital Society of Connecticut in 1826, and the opening of the New Haven Hospital in 1832. The New Haven Dispensary was founded in 1872 and later became a division of the New Haven Hospital. Instruction in clinical medicine has been conducted in the hospital continuously since its establishment.

A merger was effected in 1945 between the New Haven Hospital and Grace Hospital to form the Grace-New Haven Community Hospital. The affiliation agreement between the hospital and University was revised in 1965 and the name of the institution changed to Yale-New Haven Hospital (YNHH). In 1999, a separate affiliation agreement was adopted by the University and the Yale New Haven Health System.

Members of the professional staffs of the VA Connecticut Healthcare System, West Haven, and the Connecticut Mental Health Center, 34 Park Street, hold appointments in Yale University.

FACILITIES

Located southwest of the New Haven Green and Yale’s Old Campus, Yale-New Haven Medical Center includes the School of Medicine and School of Public Health, School of Nursing, Yale-New Haven Hospital (YNHH), Yale Cancer Center, Connecticut Mental Health Center, and the John B. Pierce Laboratory.

The School of Medicine’s Sterling Hall of Medicine, 333 Cedar Street, is the central building. This handsome limestone structure with domed roof includes administrative offices, the 450-seat Mary S. Harkness Auditorium, the Child Study Center, the departments of Cellular and Molecular Physiology, Pharmacology, Molecular Biophysics and Biochemistry, Genetics, Cell Biology, and Neurobiology, and History of Medicine.

The Harvey Cushing/John Hay Whitney Medical Library, also located in Sterling Hall of Medicine, houses over 444,400 volumes, subscribes to more than 2,300 print journals, and offers electronic access to resources to facilitate the use of the international biomedical literature.
Connected to the south end of Sterling Hall is the Jane Ellen Hope Building, a teaching facility of conference rooms and lecture halls. At Sterling’s north end is the Nathan Smith Building, which spans Cedar Street, joining the School of Medicine and YNHH patient-care facilities, including the Hunter Building. The Yale-New Haven Children’s Hospital is connected to two other hospital pavilions by a three-story atrium. The Nathan Smith Building contains offices and laboratories of Yale Cancer Center and the department of Genetics. Entrance to the Hope and Nathan Smith buildings is at 333 Cedar Street.

Yale-New Haven Hospital, 20 York Street, is a 944-bed facility with 92 bassinets. The Yale-New Haven Psychiatric Hospital is located nearby at 184 Liberty Street. School of Medicine faculty are attending physicians at YNHH, the School’s primary teaching hospital. All medical and surgical specialties are represented at the hospital, which discharged 50,369 inpatients during the year ending September 30, 2006. During that period, ambulatory services treated 503,656 outpatients and emergency services had 113,921 visits. The hospital also houses the clinical component of Yale Cancer Center, a joint program of YNHH and the School of Medicine. Yale-New Haven has started construction of a new cancer hospital on Park Street, expected to open in late 2009 or early 2010.

The Children’s Hospital provides inpatient and outpatient pediatric services, and also includes a rooftop helipad, high-risk maternity and newborn units, and labor, delivery, and postpartum services.

YNHH is the flagship hospital of the Yale New Haven Health System, an integrated delivery system that includes Bridgeport Hospital, Greenwich Hospital, and their affiliated organizations. Yale New Haven Health, Connecticut’s largest health system, also extends into Rhode Island through its relationship with the Westerly Hospital.

The Laboratory of Epidemiology and Public Health is the School’s other major teaching facility and is home to the medical school’s Department of Epidemiology and Public Health, which also functions as the nationally accredited Yale School of Public Health. The nine-story building at 60 College Street contains classrooms, laboratories, an auditorium, and administrative offices (except the Office of the Dean of Public Health, which moved in 2007 to 135 College Street). It also is the site of a World Health Organization Collaborating Center, focusing on health promotion policy and research. The building at 47 College Street houses the School of Public Health library and various administrative offices.

Laboratories and offices for the School’s clinical departments are located in contiguous buildings across Cedar Street from Sterling Hall. The Anthony N. Brady Memorial Laboratory and Lauder Hall provide offices and laboratories for the departments of Surgery, Pathology, Anesthesiology, and Diagnostic Radiology. The Boardman Building houses offices for the departments of Surgery and Internal Medicine. Farnam Memorial Building (FMB) and the Laboratory of Surgery, Obstetrics and Gynecology (LSOG) provide facilities for the departments of Pathology, Surgery, Orthopaedics and Rehabilitation, Obstetrics, Gynecology, and Reproductive Sciences, and Comparative Medicine.

The YNHH Clinic Building connects Farnam with the Laboratory for Medicine and Pediatrics (LMP). Adjacent to the Clinic Building are Tompkins Memorial Pavilion (TMP) and Fitkin Memorial Pavilion (FMP), facilities shared by the hospital and the
School. They contain the departments of Anesthesiology, Neurosurgery, and Orthopaedics and Rehabilitation; sections of Nephrology and Cardiology; and laboratories and offices for the Department of Pediatrics. On the other side of the Clinic Building are Fitkin Amphitheater, the LMP, and the Lippard Laboratory for Clinical Investigation (LLCI), where research is conducted in the departments of Dermatology, Internal Medicine, Neurology, Pediatrics, and Therapeutic Radiology.

Laboratories of the Department of Ophthalmology and Visual Science and laboratories and offices of the Department of Psychiatry are located at 300 George Street. Many of the Psychiatry department’s teaching, research, and patient-care activities are conducted at the Connecticut Mental Health Center and the Yale-New Haven Psychiatric Hospital.

The Yale Physicians Building (YPB), a four-story structure on the southwest corner of Howard and Davenport avenues, contains outpatient specialty and consultative services, X-ray, laboratories, and a pharmacy. It also houses academic offices for orthopaedics and rehabilitation, urology, and otorhinolaryngology. Ophthalmology clinical services and offices moved in 2007 to 40 Temple Street.

The Magnetic Resonance (MR) Center, on the corner of Davenport and Howard avenues, operated by the Department of Diagnostic Radiology, maintains three MR imaging systems for clinical examination. A new Positron Emission Tomography (PET) Center, also operated by the Department of Diagnostic Radiology, maintains a cyclotron radioisotope system for imaging research.

The Boyer Center for Molecular Medicine, at the intersection of Congress Avenue and College Street, houses multidisciplinary programs in Molecular Genetics, Cell Biology, Microbial Pathogenesis, and the interdepartmental Program in Cellular Neuroscience, Neurodegeneration, and Repair.

College Place, a series of buildings at 37–55 College Street, houses the offices of the Dean of Public Health, the Child Study Center, and a number of School of Medicine administrative offices.

The medical school’s newest research building, at 10 Amistad Street, is home to three interdisciplinary groups: the Interdepartmental Program in Vascular Biology and Therapeutics, the Human and Translational Immunology Program, and the Yale Stem Cell Center.

The Anlyan Center for Medical Research and Education is not only the medical school’s largest major state-of-the-art research and educational facility, it is the largest on the entire Yale campus. Completed in November 2002, this outstanding facility is located on the corner of Cedar Street and Congress Avenue and encompasses a full city block. The new building includes six floors of laboratories for disease-based research, core facilities for genomics and magnetic resonance imaging, and state-of-the-art teaching space for anatomy and histology. This facility provides laboratories and offices for the departments of Internal Medicine, Genetics, Immunobiology, and Diagnostic Radiology.

Edward S. Harkness Memorial Hall, 367 Cedar Street, is a student dormitory with the Nicholas P. R. Spinelli student lounge, the Class of 1958 Fitness Center, dining facilities, and the Phyllis Bodel Childcare Center. The School of Medicine offices of admissions, student affairs, financial aid, and international health and student programs are located
on the second floor. The offices of education, student research, M.D./Ph.D. Program, and multicultural affairs are located on the third floor.

A number of other spaces in the vicinity of the School are leased rather than owned by Yale University.

The VA Connecticut Healthcare System, West Haven, a major teaching affiliate of the School of Medicine, is the site of the Paralyzed Veterans of America/EPVA Center for Neuroscience and Regeneration Research of Yale University.
The Cushing/Whitney Medical Library serves the Yale-New Haven Medical Center and the health information needs of Yale University. The library is a comprehensive resource for research, patient care, and education materials. The library's Web site is the gateway to the virtual library of electronic books and journals, databases, clinical reference tools, and evidence-based practice resources in support of programs in medicine, nursing, public health, and the basic sciences. Our Web site lists over 6,500 biomedical electronic journals and over 3,500 electronic books, an extensive collection of medical education software, clinical synthesis products, and PDA resources.

The Medical Library is a dynamic and busy place. We are committed to providing students with a supportive place for study and learning, and providing faculty and staff with seamless access to information resources in the library and on the desktop.

The Medical Library has computing clusters in the Information Room and the Computer Resource Laboratory (CRL). The workstations provide access to electronic
resources, e-mail, word processing, the Internet, and printing; in addition, the CRL contains a digital imaging center.

All Yale University students have access to electronic resources including electronic books, journals, and databases from any off-campus computer. Wireless access is available throughout the Medical Library. The library also lends laptops to Medical Center students.

Medical librarians provide reference assistance and in-depth consultation, conduct tours, teach classes, acquire and organize the collection, lend materials, and provide a photocopy and document delivery service. Librarians work to create seamless access to full-text electronic resources. Using YaleLinks, students can go from database to the full article with just a click of a button. We also develop self-help tools such as online tutorials for quick help at the student’s computer. To provide the highest level of service to library users, staff also provides an outreach service to each medical school department. The Library Liaison Program promotes communication between the library and the departments to ensure that the library is meeting the educational and research needs of busy clinicians and researchers.

The Medical Library offers a rich program designed to build competency in information management skills—skills that are increasingly important as a foundation for effective research and practice in health sciences. Our goal for this program is to foster lifelong information management skills by providing medical students a solid foundation throughout their four years of medical school.

During their orientation week, first-year students are introduced to the library, the Personal Librarian Program, and their “personal librarian.” Librarians become personal librarians for approximately twenty students and maintain contact with the same students throughout their four years in medical school. A personal librarian is able to recommend resources best suited for individual research needs, provide instruction in new technologies and resources, and guide students to specific resources as their research and learning needs change.

As the second-year students begin research for their thesis project, the library offers seminars on information management, including the use of bibliographic database management programs. At the end of the second year and just before the clinical years begin students attend a “Find it Fast” session. This session is designed to prepare students to find the answer to a clinical question efficiently and effectively.

Third- and fourth-year students participate in a variety of seminars, mostly focusing on evidence-based practice and advanced database searching techniques. Fourth-year students attend a series of “out-the-door” seminars as part of the Integrative Clinical Medicine course. These seminars are designed to refresh information management skills and to introduce new applications and technology.

Emerging trends and rapidly changing technology in academic medical curricula provide opportunities for faculty and librarians to work together using the Web and other electronic resources as teaching tools to enhance students’ educational experience at Yale.

The Historical Library contains one of the world’s best collections of rare medical books, journals, prints, and photographs, as well as current works in the history of medicine. There are 325 medical incunabula, over 75 manuscript volumes from the
twelfth through sixteenth century, and one of the best study collections of weights and measures in the world. Its holdings also include Yale medical theses to 1900, catalogues, yearbooks, photographs, and other publications and ephemera related to the Yale School of Medicine.

The Epidemiology and Public Health Library is associated with the Medical Library and contains over 25,000 volumes and 350 current journal subscriptions as well as information in electronic format on biostatistics, epidemiology, health policy and administration, environmental health, and global health.

Nursing library services are provided to Yale School of Nursing (YSN) faculty, students, and staff through the Medical Library. The Medical Library provides YSN with a rich collection of both print and electronic materials. The print collection for the School of Nursing Library is housed in the Medical Library. The Nursing Library Web site gives the YSN community quick electronic access to important biomedical online resources, as well as other library electronic resources.

Sterling Memorial Library, Yale's main library and the largest library on campus, houses more than four million volumes and serves as the center of the library system. Twenty-two libraries are included in the Yale University Library system, including Kline Science Library, the Law Library, and the Seeley G. Mudd Library, which houses the government documents collection. EliExpress (Yale Library's document delivery service) couriers transport library books daily among these and the other library units on campus.

ASSOCIATES OF THE YALE MEDICAL LIBRARY

Gerard Burrow, M.D., Chair
Toby A. Appel, Secretary
Telephone: 785.4354

The associates were formed in 1948 to assist in augmenting the library's services and collections. Membership information is available on the associates Web page, www.med.yale.edu/library/associates.
Degree Programs

Students at the School of Medicine may be candidates for the degrees of Doctor of Medicine (M.D.) or Master of Public Health (M.P.H.). The School of Medicine, jointly with the Graduate School, administers two combined programs: one leading to the degrees of Doctor of Medicine (M.D.) and Doctor of Philosophy (Ph.D.), and another combined program leading to the degrees of Doctor of Medicine (M.D.) and Master of Health Science (M.H.S.). The School of Medicine administers a combined program leading to the Doctor of Medicine (M.D.) and Master of Public Health (M.P.H.) degrees. Special arrangements may be made with the appropriate associate deans to receive the combined Doctor of Medicine (M.D.) and Doctor of Jurisprudence (J.D.) degrees, the combined Doctor of Medicine (M.D.) and Master of Divinity (M.Div.) degrees, and the combined Doctor of Medicine (M.D.) and Master of Business Administration (M.B.A.) degrees. The School of Medicine also offers a program leading to a Physician Associate certificate combined with a Master in Medical Science degree.

DOCTOR OF MEDICINE

The degree of Doctor of Medicine is conferred upon students who have satisfactorily completed the requirements stated below.

1. Pass all of the required basic science courses.
2. Pass all of the required clinical clerkships.
3. Pass the examinations of the United States Medical Licensing Examination (USMLE), Steps I and II.
4. Submit an approved dissertation by mid-March of the year of graduation.
5. Meet all of the requirements of the Progress Committee and Board of Permanent Officers concerning academic standing, moral and ethical character, emotional stability, and professional conduct.

Because of the heavy demands in terms of time and energy required for the study of medicine, the Yale School of Medicine discourages students from assuming extracurricular activities that may prove burdensome. Such extracurricular work and/or professional activity will not justify inadequate academic performance. Any student wishing to work or pursue a professional activity other than medicine that would consume a significant amount of time must have the permission of the associate dean for student affairs.

Admissions

The Yale University School of Medicine seeks to provide an education in the scholarly and humane aspects of medicine and to foster the development of leaders who will advance medical practice and knowledge. The Committee on Admissions, in general, seeks to admit students who seem best suited for the educational programs and aims of the School. In particular, the committee looks for intelligent, mature, and highly motivated students who show the greatest promise for becoming leaders and contributors in medicine. The Committee on Admissions also considers very carefully personal qualities necessary for the successful study and practice of medicine. These include maturity,
integrity, common sense, personal stability, dedication to the ideal of service, and the ability to inspire and maintain confidence.

School of Medicine graduates must have the knowledge and skills to function in a broad variety of clinical situations and to render a wide spectrum of patient care. In addition to scholastic accomplishments and potential, applicants must have the physical capacities and personal characteristics to meet the full requirements of the School’s curriculum and to graduate as skilled and effective practitioners of medicine. The policy of the School of Medicine regarding nonacademic considerations in the admissions process is available upon request from the Office of Admissions.

The School also attempts to ensure adequate representation of women and all minority groups and a diversity of interests and backgrounds. All applications to the Yale University School of Medicine are given careful consideration without regard to sex, race, age, religion, national origin, sexual orientation, or financial status. In evaluating candidates, the committee takes into consideration many factors including academic record, MCAT scores, record of activities and accomplishments, recommendations from premedical committees and individual science teachers, and personal interviews.

It is recommended that students enter medical school after four years of study in a college of arts and sciences. Students holding advanced degrees in science or other fields are also considered. International students (other than Canadians) must have completed at least one year of study in an American college prior to application. Students who have been refused admission on three prior occasions are ineligible to apply for admission to the first-year class.

The minimum requirements for admission to the first-year class are:
1. Attendance for three academic years, or the equivalent, at an accredited college of arts and sciences or institute of technology.
2. Satisfactory completion of the following courses including laboratory work:
   General Biology or Zoology
   General Chemistry
   Organic Chemistry
   General Physics

   (Acceptable courses in these subjects usually extend over one year and are given six to eight term hours credit.) These courses should be completed in a U.S. or Canadian college or university. Advanced courses may be substituted for introductory-level courses in each of these subjects.

The Committee on Admissions has no preference as to a major field for undergraduate study and leaves this decision to students, with the advice that they advance beyond the elementary level in the field of their choice rather than pursue an undirected program. A liberal education is the supporting structure for graduate study and must encompass understanding of the humanities, arts, and society as well as the scientific foundations of technology and civilization. The student of medicine enters a profession closely allied to the natural sciences and must be prepared to cope with chemistry and biology at the graduate level. Students entering college with a strong background in the sciences, as demonstrated by advanced placement, are encouraged to substitute advanced science courses for the basic requirements listed above.
Application Process

The Yale University School of Medicine participates in the “common” application process of the American Medical College Application Service (AMCAS). Applicants must first submit their AMCAS application, on which they indicate that they wish to apply to the Yale School of Medicine. After submitting the AMCAS application, applicants must complete the Yale Supplemental Application, which must be submitted online (see below for details).

Inquiries regarding AMCAS should be addressed to the American Medical College Application Service, 2501 M Street NW, Lobby 26, Washington dc 20037-1300. AMCAS can also be reached by telephone at 202.828.0600 or by e-mail at amcas@aamc.org. Extensive information can also be obtained at the AMCAS Web site: www.aamc.org.

Inquiries to the Yale School of Medicine regarding the degree of Doctor of Medicine should be addressed to the Office of Admissions, Yale University School of Medicine, Edward S. Harkness Hall, 367 Cedar Street, New Haven CT 06510. The e-mail address of the admissions office is medical.admissions@yale.edu. Information and a link to the Yale Supplemental Application can also be obtained online at http://info.med.yale.edu/education/admissions. Inquiries are welcome at any time.

AMCAS applications must be submitted no later than October 15 of the year prior to the fall in which enrollment is sought. Yale Supplemental Applications must be submitted online no later than November 15. Applicants seeking admission under the Early Decision Plan must submit the AMCAS application by August 1 and the Yale Supplemental Application by August 31. The number of students admitted each year for studies leading to the M.D. degree is approximately 100.

A complete application consists of the following components:

1. AMCAS application and all required components of the application (see 2 and 5 below).
2. Complete official transcripts from all colleges attended. Transcripts should be sent from the colleges directly to AMCAS.
3. Yale Supplemental Application submitted online no later than November 15. The Supplemental Application may be found at http://info.med.yale.edu/education/admissions.
4. An evaluation from the applicant’s Premedical Advisory Committee, or individual letters from three of the applicant’s teachers, two of whom should be in science fields. These evaluations must be sent directly to Yale.
5. Scores from the Medical College Admission Test (MCAT) must be submitted in conjunction with the AMCAS application. For information on the MCAT, applicants should communicate directly with the MCAT Program Office, PO Box 4056, Iowa City IA 52243. Information on the MCAT can also be obtained online at www.aamc.org. Scores of tests taken earlier than three years prior to submitting an application will not be accepted.
6. A fee of $85 or an AMCAS fee waiver must accompany the Yale supplemental application. The fee is not refundable.

During the course of the admissions process, selected applicants will be invited for personal interviews with members of the Committee on Admissions at Yale. Regional interviews can be arranged when necessary.
Early Decision Plan

The Yale School of Medicine offers an Early Decision Plan (EDP). Under this plan, a student may make a single early application to the school of his or her first choice and is guaranteed a prompt decision by the school. AMCAS applications for the EDP program must be submitted by August 1. Yale Supplemental Applications must be submitted by August 31. EDP applicants will be notified of the decision of the Committee on Admissions no later than October 1.

Admission to Advanced Standing (Transfer Admissions)

Because of a limited number of available positions, the Yale University School of Medicine does not routinely consider requests for transfer with advanced standing. The only exception to this policy is that the School will consider applications into the second-year or third-year class from students who are enrolled in LCME-accredited medical schools in the United States or Canada and who have a compelling personal need to be at Yale.

The following three circumstances constitute “compelling personal need” under this policy:

1. The applicant's spouse, or partner in a same-sex marriage or civil union, holds, or has been accepted for, a position in the Yale-New Haven Medical Center community as a student, a member of the house staff at Yale-New Haven Hospital, a postdoctoral fellow, or a faculty member.

2. There is a serious illness in the immediate family of the applicant, requiring the ill person to be in New Haven for treatment and the applicant to be in New Haven as the primary supportive member of the family during the time of the illness.

3. In collaboration with a faculty member of the Yale School of Medicine, the applicant has completed exceptional biomedical research, which both the applicant and the faculty member wish to continue. Completing medical studies at Yale would enable the applicant to pursue this collaborative research and achieve important and unique educational and scientific objectives that would not be possible at the original medical school.

The distance of the applicant from New Haven will also be taken into consideration. Regardless of other factors, students attending medical school in New York City, Connecticut, or Rhode Island will not normally be eligible to apply for advanced standing.

Transfer into the second-year class is possible only from medical schools with a basic science curriculum compatible with that at Yale. Transfer into the third-year class is contingent upon passing Step I of the United States Medical Licensing Examination (USMLE). An applicant who fails USMLE Step I will not be considered for admission under any circumstances. Transfer into either the second- or third-year class is also contingent upon successful completion of courses being taken at the current medical school and upon the availability of space at Yale.

Eligible applicants will be evaluated competitively by the School’s Committee on Admissions, with decisions based on academic credentials, supporting material, interviews, and the urgency of the personal need to transfer. Overall qualifications are expected to be comparable to those of Yale students admitted through the regular admissions process.
All accepted applicants must matriculate in the year accepted. Applicants whose eligibility is established by marriage must be married at the time of matriculation, and the applicant’s spouse must be in residence in New Haven and holding a position in the Yale-New Haven Medical Center community. Transfer students must complete all required clinical clerkships (including the fourth-year Primary Care Clerkship and the Integrative Clinical Medicine Clerkship) and the thesis requirement at the Yale University School of Medicine. If a transfer student wishes to spend an extra (fifth) year at Yale, one-half of the tuition for that year will be waived.

Completed transfer applications consist of Yale School of Medicine application forms, letters of recommendation, MCAT scores, college transcripts, a transcript from the current medical school, and a letter from the dean of students (or comparable official) at the current medical school. Inquiries regarding transfer applications should be addressed to the Office of Admissions, Yale University School of Medicine, 367 Cedar Street, New Haven CT 06510 or medical.admissions@yale.edu. Transfer applications, including all supporting credentials, must be submitted by April 1 of the year the student wishes to enter Yale.

Educational Objective

The mission of Yale University School of Medicine is to educate and inspire scholars and future leaders who will advance the practice of medicine and the biomedical sciences. The educational program is designed to develop physicians who are highly competent and compassionate practitioners of the medical arts, schooled in the current state of knowledge of both medical biology and patient care. It is hoped that Yale-trained physicians will establish a lifelong process of learning the medical, behavioral, and social sciences by independent study. The aim is also to produce physicians who will be among the leaders in their chosen field, whether it be in the basic medical sciences, academic clinical medicine, or medical practice in the community. Belief in the maturity and responsibility of students is emphasized by creating a flexible program through anonymous examinations and the elimination of grades in pre-clinical courses, and by encouraging independent study and research.

Educational Philosophy: The Yale System

The Yale System of Medical Education remains unique among medical schools. It has been an important part of life at the Yale School of Medicine since 1931. Although it has undergone minor modifications in the intervening years, its essential spirit has remained intact, and it is a major reason why many students choose to come to Yale for their medical education.

The fundamental element of the system is the concept that Yale medical students are mature individuals, strongly motivated to learn, requiring guidance and stimulation rather than compulsion or competition for relative standing in a group. The corollary of this concept is that students must assume more than usual responsibility for their education. Students should be considered adults in a graduate school and be permitted to enjoy as much freedom as is consistent with the fulfillment of requirements for the degree of Doctor of Medicine. Memorization of facts should be far less important than a well-rounded education in fundamental principles, training in methods of investigation, and the acquisition of the scientific habit of mind.
During the pre-clinical years, the students acquire knowledge and develop clinical skills. Attendance in basic science courses is not taken, lectures are held to a minimum, and much instruction occurs in small-group seminars or conferences. Students evaluate themselves through anonymous examinations. Their performance is assessed by the faculty through participation in seminars, by an anonymous qualifying examination at the end of each course, and by passing of the United States Medical Licensing Examinations. Student attendance is expected in all skill-building sessions, and competency in performing a complete history and physical examination is assessed at the end of the second year, utilizing standardized patients.

In the first two years there are no grades, and there is no class ranking throughout medical school. While grades are not given and rank order not established, evaluation of students is an important part of the educational process. The faculty considers small-group teaching with interchange between faculty and students to be the most effective means of teaching and evaluation. Students should expect direct questioning at seminars and labs as an important adjunct to the evaluation process. The final decision of acceptable performance for a given course or clerkship will remain with the course/clerkship director of each course or clerkship. Freed from the usual anxieties provoked by examinations, students tend to learn for their future rather than for tests. Competition for grades is eliminated and students are eager to help one another. Class spirit is remarkably high year after year. Upon completing a course, all students are strongly encouraged to submit an evaluation so that course directors can make changes based on student feedback, which is taken very seriously.

Finally, the Yale System requires each student to engage in a form of research activity, designed to foster development of a lifelong commitment to learning (see Required Thesis, pages 129–30).

**Curriculum Management**

**EDUCATIONAL POLICY COMMITTEE (EPC)**

The EPC advises the deputy dean for education on policy issues of school-wide importance, including matters related to admissions, graduation requirements, progress of students, joint-degree programs, student research and thesis, and multicultural affairs. The deliberations and recommendations of the EPC are guided by the school’s Educational Mission and School-Wide Objectives as well as the principles embodied in the Yale System of Education. For example, the EPC might examine and advise the deputy dean for education about the impact of curriculum proposals and other medical school issues that:

- affect, modify, or change school policy regarding education
- fundamentally change or potentially disrupt the current curriculum's structure, schedule, content, or allocation of time
- potentially impact, challenge, or change the School’s fundamental principles and core values as embodied in the Yale System of Education, the School-Wide Educational Objectives, or the Educational Mission Statement

**CURRICULUM COMMITTEE (CC)**

The CC provides careful and thorough oversight of the curriculum review process. The CC considers recommendations for curriculum change made by its review committees
as well as suggestions from students, faculty, and departments. The CC might also form ad hoc working groups to study and promote integration within related areas of learning and across various disciplines and time periods in the curriculum. The CC improves the curriculum by considering new ideas, developing specific proposals, and implementing changes that promote:

- integration and coordination across and throughout the curriculum
- a curriculum designed to achieve the school-wide educational objectives
- assessment of the curriculum based on analysis of reliable outcome measures
- improvement in the quality of education based on new teaching approaches and modern methods of pedagogy
- adherence to existing and new accreditation standards

CURRICULUM REVIEW COMMITTEES

Courses Review Committee
Modules Review Committee
Clerkships and Electives Review Committee

The Curriculum Review Committees work collaboratively with department-based course, module, clerkship, and electives directors to review and improve individual courses, modules, and clerkships/electives. This includes gathering information, reviewing and analyzing data, and making recommendations that promote:

- course, module, and clerkship/elective content based on specific learning objectives
- congruence of course, module, and clerkship/elective objectives with overall School-Wide Objectives
- use of the most effective teaching methods to achieve the learning objectives
- effective use of formative, summative, and self-assessment methods
- use of student evaluations and performance outcome data to improve the curriculum
- use of reliable outcome measures to evaluate student achievement of the learning objectives

The Review Committees, through their chairs, will report on their activities to the CC on a regular basis. Recommendations of the Curriculum Review Committees for changes in the content or teaching methodology within a course, module, clerkship, or elective based on these reviews can be directly implemented by the course, module, clerkship, or elective director. However, changes that have broader impact across the curriculum must be brought to the CC for consideration and implementation.

THESIS COMMITTEE

The Thesis Committee provides oversight of and recommends policy for all aspects of the medical student thesis program. This includes:

- setting rules and regulations for the thesis requirement
- establishing thesis deadlines
- determining the guidelines and processes for the awarding of thesis honors and graduation prizes, and choosing the recipients
- determining the selection of oral presentations given on Student Research Day
The Thesis Committee regularly reviews the curriculum to assure that there is adequate time available for thesis research, evaluates the participation and effectiveness of faculty mentors, assesses the quality of the student’s research experience, and makes stipend-supported research fellowships available.

A more detailed description of these committees including the membership is available on the Office of Education Web site.

**Pre-Clinical Curriculum**

The first two years of the curriculum at Yale School of Medicine focus on providing students with a foundation in the science and art of medical practice. In the first year, the science of normal human biology is explored in four major areas. The structure of the human body is taught in Principles of Human Anatomy and Development, via dissections, and in Diagnostic Imaging. The normal function of the human body is taught in the Molecules to Systems Integrated Curriculum, which includes three departmental courses: Molecular Foundations of Medicine, Cell Biology and Histology, and Medical Physiology. The structure and function of the brain and nervous system are taught in the Neurobiology and Biological Basis of Behavior courses. Teaching of the art of medicine begins with the first day of school, which is devoted to the discussion of the importance of understanding the patient’s and physician’s culture in practicing medicine. The Pre-Clinical Clerkship (PC) introduces students to the principles and skills of medical interviewing and physical examination. PC course sessions and tutorials meet weekly and provide opportunity for students to observe and develop clinical skills. In addition to didactic sessions, this course provides weekly opportunities throughout the first two years for students to see patients and practice skills under the observation of a Clinical Tutor. During clinical tutorials, groups of four students work closely with a clinician to practice performing clinical histories and physical exams. Further understanding of the patient is achieved in Aspects of Child and Adolescent Development in the Practice of Medicine, which presents a developmental approach to human behavior. The Professional Responsibility course is an opportunity to discuss the attitudes and behaviors of caring and ethical physicians who practice in this complex era of managed care. Integrating the art and science in medical practice requires problem-solving skills, which are developed in the Medicine-Based Evidence course. A major focus of this effort is discussing how to assess the value of information in the medical literature by understanding and applying the basic principles of biostatistics. Throughout the year, students can hear various talks on the History of Medicine, which add depth and texture to the curriculum as well as provide some insight into the time continuum within which the practice of medicine exists.

The first year ends with a focus on the mechanisms of disease: Pathology, Genetics, and Immunobiology. The second year emphasizes abnormal human biology. During the fall term the major courses are Microbiology and Pharmacology; Epidemiology and Public Health is scheduled for the spring term. Beginning in September and continuing throughout the year, students participate in The Modules, a large interdisciplinary course. Content traditionally taught in the separate disciplines of pathology, pathophysiology, pharmacology, clinical examination, laboratory medicine, and diagnostic radiology is organized according to organs or systems. The individual modules are: Blood, Car-
diovascular, Clinical Neurosciences, Clinical Sciences of Psychiatry, Endocrine System, Digestive, Respiratory, Musculo-skeletal, Oncology, Renal and Urinary Tract, Reproduction, Ophthalmology, and Skin. Teaching the art of medicine continues throughout the year in the Pre-Clinical Clerkship, which emphasizes developing greater skills in history taking and physical examination. Students continue to meet in small groups with their Clinical Tutors. In the second year, students are given the opportunity to assess their acquired clinical skills in the Standardized Patient Program at the University of Connecticut School of Medicine.

Pre-Third Year Requirements

In order to proceed to the third year, a student must satisfy the following requisites:
1. Pass the mandatory qualifying examinations for all first- and second-year courses.
2. Pass the Pre-Clinical Clerkship course.
3. Achieve clinical competence (as ascertained by the clinical tutors).
4. Have a minimum of five commentaries from different required basic science courses in his/her evaluation folder.
5. Comply with all immunization requirements.

In addition, students are strongly encouraged to evaluate all of the basic science required courses.

The Third Year

CLINICAL CLERKSHIPS

The third year is devoted almost entirely to clinical clerkships. They include:

- Internal Medicine  8 weeks
- Ambulatory Medicine  4 weeks
- Surgery  8 weeks
- Emergency Medicine  2 weeks
- Anesthesiology  2 weeks
- Pediatrics  8 weeks
- Clinical Neuroscience  4 weeks
- Obstetrics and Gynecology  6 weeks
- Psychiatry  6 weeks

Clerkship scheduling will be arranged through the Office of Student Affairs. There is no required order for taking clerkships, and there is no advantage to any particular order. It is to the student’s advantage to complete as many required clerkships as possible during the third year. In order to change a clerkship schedule after it is assigned, students must (1) fill out a clerkship/elective change form giving reasons for the change and (2) meet with the registrar. Changes are not guaranteed, and no change except in the case of a legitimate emergency will be considered less than four weeks before the start of the scheduled clerkship. Students may receive a lower priority for rescheduling these postponed clerkships in their fourth year than new third-year students. All changes must be approved by the associate dean for student affairs.
USMLE STEP I

All students are required to sit for Step I of the United States Medical Licensing Examination for the first time by the end of December of the third year in medical school (even if the third year is an extended study year), but students are strongly encouraged to take it before starting clinical clerkships. The United States Medical Licensing Examination (USMLE) Steps I, II Clinical Knowledge, and III are computer-administered at Prometric Testing Centers. This system has given students considerable flexibility over choice of test time and place. Students should consult the USMLE Web site for more information (www.usmle.org).

The Office of Student Affairs holds an informational session in February. Applications may be downloaded from the NBME (National Board of Medical Examiners) Web site at www.nbme.org. Students should return their completed applications for Step I to the Office of Student Affairs, which will certify and mail them directly to the NBME for processing. The application form must be accompanied by one passport photo and payment, by check made out to the NBME or by credit card, in the amount of $455. The student must also indicate one of the three-month periods during which he or she wishes to sit for the exam. Within two weeks, the student will receive a scheduling permit in the mail with a student identification number. The student can then call any Prometric test site in the world to schedule a specific test day.

FAILURE OF USMLE STEP I

If a student fails Step I, he or she may reschedule it at any time before May of the third year. Three failures of Step I will require consultation with the Progress Committee, and only in extraordinary circumstances will the student receive permission to take it a fourth time. In the absence of that permission, the student will be dismissed from the School of Medicine. In some cases where a student may be having other academic problems, failing Step I once or twice will be enough to require consultation with the Progress Committee. In some unusual cases, students will not be allowed multiple retakes, for example, if the student is unable to progress satisfactorily in the clerkships or behaves in repeatedly or egregiously unprofessional ways. (See Progress Committee, pages 168–69.) If Step I is failed more than once, the student may be asked to discontinue clinical rotations until he or she takes and passes the exam.

The Fourth Year

The fourth-year curriculum includes a required clerkship and course as follows:

- Primary Care 4 weeks
- Integrative Clinical Medicine 3 weeks

The Office of Student Affairs holds a meeting in the spring of the third year to discuss the fourth year. The meeting is focused on the National Residency Matching Program, residency applications, and the Medical Student Performance Evaluation (MSPE), also known as the dean’s letter, but issues of scheduling subinternships, electives, and the thesis requirement are also addressed.

Graduating students are required to submit a thesis plan to the Office of Student Research prior to fall registration of the final year. Students must provide a tentative thesis title as well as identify their thesis adviser.
A required Primary Care Clerkship is generally completed during the fourth year. This four-week clerkship provides students with an opportunity to experience primary care in an outpatient or office setting. Many students also take a number of clinical electives, including a subinternship in some clinical discipline. The residency application process and completion of the thesis are also major activities of the fourth year.

In the spring, students attend one final required course, entitled Integrative Clinical Medicine: The Biological, Social, and Behavioral Bases of Clinical Medicine. This three-week course provides an opportunity for graduating students to come together one last time before leaving for internships and residencies, and serves to integrate basic and clinical science knowledge with the social and behavioral sciences. The course devotes one week to each of two clinical case studies, the complexity of which gradually unfolds as the week progresses. The third week includes daily workshops on the occurrence of mistakes in medicine, working with difficult patients, genomics, and professionalism. The course employs small-group and large-group formats, and independent research with group decision making and consensus. It runs concurrently with a course led by the Emergency Medicine section, which focuses on preparatory skills for internship. This course also includes advanced training in sexuality issues, social and ethical problems in medicine, and the latest medical informatics.

USMLE STEP II

Passing USMLE Step I and both parts of Step II is required for graduation from Yale School of Medicine.

The written Step II exam is now called Step II Clinical Knowledge (Step II CK). Step II CK must be taken by December 31 of the final year, and it is strongly recommended that students take it early in the fourth year immediately after completing the clinical clerkships, when the information is fresh.

A clinical skills exam became part of the USMLE in mid-2004, starting with students who graduated in 2005. This new exam, Step II Clinical Skills (Step II CS), is a separate, required component of Step II and must be taken by December 31 of the final year as well; but again, it is to the student’s advantage to take it as soon as possible after completing the clinical clerkships. Utilizing standardized patients, this exam is administered at regionally located centers operating year-round. Test sites include Philadelphia, Atlanta, Los Angeles, Chicago, and Houston.

The cost of Step II CK is $455. Step II CS costs $975, but students who may have to travel a distance and stay in a hotel the night before the exam may incur increased expenses. Students who feel that lack of money is preventing them from taking the exam should speak with the associate dean for student affairs as early as possible. Students will go to the University of Connecticut early in their fourth year to complete a standardized patient exercise similar to USMLE Step II CS. They will receive feedback on their performance, and remediation will be offered if necessary. This exercise may be completed prior to Step II CS as a way of ensuring readiness to take the exam.

FAILURE OF USMLE STEP II

The reason that USMLE Step II must be taken before December 31 of the fourth year is to give anyone who fails the opportunity to retake the exam and get a passing score in time to graduate. In order to be certain that students have taken it or have plans to take
it before that date, proof in the form of a score or a ticket will be required before the dean's letter is sent out on November 1. Disregarding this requirement is considered an unprofessional response and may be considered by the Progress Committee in deciding whether a student has satisfactorily completed the requirements to graduate.

The names of any students who subsequently postpone their date to after December 31 will be sent to the dean. Students may have three attempts to pass Step II before being dismissed from the School of Medicine.

**Course Schedules**

**FIRST YEAR**
- Biological Basis of Behavior
- Cell Biology and Histology (component of Molecules to Systems Integrated Curriculum)
- Child and Adolescent Development in the Practice of Medicine
- History of Medicine is incorporated into relevant courses during the first two years
- Human Anatomy and Development including Diagnostic Imaging
- Human Genetics
- Immunobiology
- Medical Physiology (component of Molecules to Systems Integrated Curriculum)
- Medicine-Based Evidence
- Molecular Foundations of Medicine (component of Molecules to Systems Integrated Curriculum)
- Neurobiology
- Pathology
- Pre-Clinical Clerkship
- Professional Responsibility
- Basic Life Support

**SECOND YEAR**
- Epidemiology and Public Health
- Medical Microbiology
- Pathology: Tutorials
- Pre-Clinical Clerkship
- Pharmacology: Mechanisms of Drug Action
- Advanced Cardiac Life Support
- Universal Precautions
- The Modules*
  - Blood/Hematology
  - Cardiovascular System
  - Clinical Neurosciences
  - Clinical Science of Psychiatry
  - Digestive Diseases
  - Endocrine Systems

*Including Clinical Examination, Diagnostic Radiology, Laboratory Medicine, Pathology, Pathophysiology, and Pharmacology.
Musculo-Skeletal System
Oncology
Ophthalmology
Renal/Urinary Tract (including Male Reproductive System)
Reproduction
Respiratory Diseases
Skin

THIRD YEAR

Internal Medicine
  Inpatient 8 weeks
  Ambulatory 4 weeks
Surgery 8 weeks
Emergency Medicine 2 weeks
Anesthesiology 2 weeks
Pediatrics
  Inpatient 4 weeks
  Ambulatory 4 weeks
Clinical Neuroscience 4 weeks
Obstetrics, Gynecology, and Reproductive Sciences 6 weeks
Psychiatry 6 weeks

FOURTH YEAR

Primary Care 4 weeks
Integrative Clinical Medicine 3 weeks
Electives
Research
Thesis

Required Thesis

Yale is the only medical school with a long tradition requiring a dissertation based on original research. The M.D. thesis, a requirement since 1839, is an essential part of the curriculum, designed to develop critical judgment, habits of self-education, and application of the scientific method to medicine. The thesis requirement gives students the opportunity to work closely with faculty who are distinguished scientists, clinicians, and scholars. The investigation may have its origins in basic science or in clinical, laboratory, or environmental medicine. A hypothesis must be defined, experimental methods developed, and data gathered to prove or disprove the hypothesis. Stipends are provided for summer and all other short-term research periods (four deadlines throughout the year). In addition there are many national (Howard Hughes Medical Institute, National Institutes of Health, Doris Duke Charitable Foundation, Sarnoff Foundation, American Heart Association) and Yale-sponsored one-year research fellowships available. Conduct of the research is continued during free periods in the third and fourth years and often over summer vacations. A significant percentage of students (currently 50 percent of Yale medical students) elect to take an additional year of medical school to pursue their
research projects in greater depth, but this is not a requirement. These students are eligible for a joint M.D.–Master of Health Science (M.H.S.) if all requirements for the joint degree are fulfilled.

A doctoral dissertation in the biological sciences that has previously been accepted as a part of the requirements for the Ph.D. degree may be submitted in lieu of a School of Medicine dissertation at the discretion of the director of the Office of Student Research and the Thesis Committee. Information about the thesis and research opportunities may be obtained from the Office of Student Research, 203.785.6633.

JOINT ACADEMIC PROGRAMS

Students from the Yale School of Medicine accepted into another Yale degree program will be considered to be participating in a “Joint-Degree Program” and will receive the benefit of sharing tuition between the medical school and the other program’s school so that each program gives up a half-year of tuition. For example, a student accepted to the M.D./J.D. Program will pay three and one-half years’ tuition to the School of Medicine and two and one-half years’ tuition to the Law School, completing seven years of school in six. This arrangement holds for Yale schools only. A student wishing to create such an arrangement at a school outside of Yale must receive permission from the associate dean for student affairs at the School of Medicine and, of course, must have the consent of the other school.

School of Medicine students enrolled in a joint-degree program or in a program to obtain a degree at another school must complete three years in the School of Medicine and pass Steps I and II of the USMLE before beginning in the other program.

M.D./Ph.D. Program

A limited number of highly qualified students will be admitted into the M.D./Ph.D. Program each year. Students accepted into this program have an excellent academic record and a strong motivation toward a career in academic medicine and the biomedical sciences, and will have had previous research experiences of a high caliber.

The goal of the M.D./Ph.D. Program at Yale University School of Medicine is to train physician-scientists and provide them with a broad exposure to human biology and medicine and to an in-depth and rigorous training in one of the scholarly disciplines relevant to medicine. It is expected that these individuals will develop into academic physicians capable of assuming faculty positions in either basic science or clinical departments of schools of medicine, and in these positions will provide leadership in academic medicine and in research related to medicine and human welfare.

The joint-degree program is intended for students who wish to obtain a research degree in an established Ph.D. program. Participating in the M.D./Ph.D. Program are the School of Public Health and the departments of Biomedical Engineering; Cell Biology; Cellular and Molecular Physiology; Chemistry; Experimental Pathology; Genetics; Immunobiology; Microbiology; Molecular Biophysics and Biochemistry; Molecular, Cellular, and Developmental Biology; Neurobiology; Neuroscience; and Pharmacology. Students interested in taking the joint degree in another department may do so, provided they can work out, in advance, a program that is approved by the department concerned,
the director of the M.D./Ph.D. Program, the dean of the School of Medicine, and the dean of the Graduate School.

Applicants to the M.D./Ph.D. Program must be U.S. citizens or permanent residents. All applicants selected for admission currently receive support from the program for stipend, tuition, and health fees for a maximum of six years. Funding is provided largely by the Medical Scientist Training Program (MSTP), a grant provided from the National Institute of General Medical Sciences. Continuing in the program is contingent on satisfactory progress in both the School of Medicine and the Graduate School. The average length of time students spend completing the requirements for the M.D./Ph.D. Program is seven and one-half to eight years.

REQUIREMENTS OF THE M.D./PH.D. PROGRAM

Students may apply to the M.D./Ph.D. Program at the time of admission to the School of Medicine or no later than mid-November of their second year of study in the M.D. program. Applications for admission are reviewed by a special committee composed of faculty members from both schools.

Candidates for M.D./Ph.D. degrees will normally begin their thesis research after completing the first four and one-half terms of the School of Medicine curriculum. For example, students usually complete a series of clinical rotations at the end of the second year of medical school which will enable them to participate in longitudinal clinical experiences during their Ph.D. years; students following this schedule are expected to affiliate with a graduate program by the beginning of the third year of the program. During the first and second years of medical school, the majority of M.D./Ph.D. students take, for credit, graduate-level courses primarily designed for them. These courses supplement the core medical school curriculum and can be applied toward the course requirements of the student’s chosen Ph.D. program. The summer between the first and second years is spent in lab rotation(s), the purpose of which is to orient students in the selection of a thesis mentor and research area. However, students must request affiliation with a particular department in the Graduate School by the middle of their third year of study in the joint-degree program. Any exceptions must be approved by the director of the M.D./Ph.D. Program and the dean of the Graduate School.

A student admitted to the combined-degree program must satisfy the Graduate School Honors requirement by the end of the second year of study and must complete all remaining predissertation requirements within four terms of affiliation with the Ph.D. department. These include course requirements, teaching requirements if applicable, a departmental qualifying examination, and the submission of an approved prospectus. At that point, the student is then admitted to candidacy. Students in the M.D./Ph.D. Program must be admitted to candidacy one full year before they expect to be awarded the Ph.D. degree. An average of three to four years is spent completing the Ph.D. requirements.

The remainder of the program encompasses clinical clerkships and electives. This advanced clinical work is best incorporated in the first six months of the student’s third year and the last year of the program, after the doctoral dissertation has been submitted. Only under unusual circumstances will students be allowed to take more than six months of clerkships prior to the beginning of their Ph.D. work. Students are encouraged to
take at least the eight-week Internal Medicine Clerkship and one other clerkship prior to beginning their research, which will enable them to participate in outpatient clinical activities during their dissertation work.

The Ph.D. dissertation will be accepted as the thesis requirement for the School of Medicine, providing the Ph.D. degree is received before or at the same time as the M.D. degree. If the M.D. degree is to be awarded before the Ph.D., an approved thesis must be submitted to the Office of Student Research at the School of Medicine by May 1 in order to meet the School of Medicine thesis requirement for graduation. Students will be eligible for the M.D. and Ph.D. degrees providing the degree requirements for both the School of Medicine and the Graduate School have been fulfilled, usually at the end of seven years. If requirements have not been completed, additional time will be required.

**Joint M.D./Master of Health Science (M.D./M.H.S.)**

Yale School of Medicine has established a joint degree, the M.D./Master of Health Science (M.D./M.H.S.) for students completing a competitively funded full fifth year of research and other requirements. This program was approved by the Yale Corporation in January 2006.

There are two pathways to the M.D./M.H.S. degree for medical students: a clinical research pathway and a laboratory/translational research pathway. The M.D./M.H.S. degree is centered around a fifth-year pull-out supported by a fully funded one-year medical student research fellowship at Yale (currently funded by the Doris Duke Charitable Foundation, the Howard Hughes Medical Institute-Yale Program, Yale NIH T32 grant, NIH-NIDDK fellowships, and Yale Endowment Fellowships).

The independent research project in the fifth year is the centerpiece of the M.D./M.H.S. degree program. In addition the following requirements apply:

1. The project mentor and a three-person thesis committee must be approved by the Office of Student Research and the M.D.-Master of Health Science Advisory Committee.

2. Additional course work is required:
   a. Clinical research pathway – Courses: Principles of Clinical Research; Introduction to Biostatistics; Organization and Leadership; Ethical and Practical Issues in Clinical Investigation (during master’s year)
   b. Laboratory/translational research pathway—Courses: Intensive Pedagogical Experience in Techniques and Strategies for Laboratory Research or Functional Genomics in Translational Research; Organization and Leadership; Ethical and Practical Issues in Clinical Investigation (during master’s year)

   These courses can be taken prior to the research year or during the research year except the Ethical and Practical Issues in Clinical Investigation course and monthly seminars, which must be taken during the master’s year.

3. Participation in monthly seminars, journal clubs, Leadership in Biomedicine Lecture Series and dinners, and other announced activities throughout the master’s research year. Further information is available in the Office of Student Research.

**M.D./M.P.H. Program**

Students enrolled for the M.D. degree at the Yale School of Medicine may apply to the Yale School of Public Health for admission to a combined program leading to the degrees
of Doctor of Medicine and Master of Public Health. This program is designed for students with special interest in aspects of medicine dealing with biostatistics, epidemiology of acute or chronic disease, organization and management of health services, or aspects of preventive medicine and public health.

Normally the combined program requires five years of study. One thesis satisfies both degree requirements provided it is approved and carried out under the supervision of a faculty member of the School of Public Health and is in an appropriate subject area.

A medical student may carry out research and write a thesis under the supervision of faculty of the YSPH without being a candidate for the combined degree.

Applications for this combined degree program are available at the School of Public Health Office of Admissions and should be filed by January 15 of the calendar year for which admission is sought. Medical students interested in the joint-degree program should learn about the requirements of the joint program during their first year in the School of Medicine. Detailed information may be obtained from the associate dean for student affairs in the School of Public Health, from the director of medical studies at YSPH, or from the associate dean for student affairs at the School of Medicine. Students in the M.D./M.P.H Program follow the curriculum of the Advanced Professional M.P.H. Program.

See YSPH Web site for details.

M.D./M.Div. Program

Students who have been admitted to the Yale School of Medicine and are enrolled for the M.D. degree may apply to the Divinity School for admission to a combined program leading to the award of the degrees of Doctor of Medicine and Master of Divinity. Students who apply to the joint M.D./M.Div. Program are expected to do so at the same time that they apply to the School of Medicine or by the end of their second year at the School of Medicine in order to qualify for the special tuition arrangement. Students enrolled in the program pay three and one-half years’ tuition to the School of Medicine and two and one-half years’ tuition to the Divinity School.

The joint program is tailored to the individual interests and needs of those students seeking professional education and training in a theological understanding of the self, society, and work; in bioethics; in international health and missions; in relating a ministry of healing to hospice or similar patient-care facilities; in a biblical understanding of person; or in academic work in teaching, counseling, and chaplaincy.

Six years are required for the combined M.D./M.Div. Program.

M.D./J.D. Program

The Yale School of Medicine has a formal relationship with the Law School to allow students to seek degrees from both schools. This can be done in six years instead of seven, as would be the case if these disciplines were studied separately. Students pay three and one-half years’ tuition to the School of Medicine and two and one-half years’ tuition to the Law School. Students interested in this program must confer early with the associate deans at both schools to plan curriculum and find out if they qualify for the special tuition arrangement.

Students who apply to the joint M.D./J.D. Program are expected to do so at the same time that they apply to the School of Medicine or by the end of their second year at the
School of Medicine in order to qualify for the special tuition arrangement. Students must be found acceptable by both admissions committees. It is suggested that the student state on each application that he or she is applying to both schools in order to pursue the combined degree program.

**M.D./M.B.A. Program**

The purpose of the joint-degree program in medicine and management is to develop clinician-managers capable of pursuing careers that balance delivery of patient care with sound management in a changing health-care environment. The joint-degree program normally requires five years of study and simultaneous award of the degrees of Doctor of Medicine and Master of Business Administration at the conclusion of the five-year period. A joint-degree student pays three and one-half years’ tuition to the School of Medicine and one and one-half years’ tuition to the School of Management, in a pattern determined in advance by the two schools. Students interested in this program must discuss their intentions with the associate deans of student affairs at both schools and with Howard P. Forman, M.D., M.B.A., director of this joint-degree program.

**SCHOOL OF PUBLIC HEALTH**

The School of Public Health (YSPH) is an accredited school of public health where students may earn the Master of Public Health (M.P.H.) degree, and the Doctor of Philosophy (Ph.D.) and Master of Science (M.S.) degrees through the Graduate School of Arts and Sciences.

**M.P.H. Program**

The M.P.H. program is a two-year, twenty-course program of study. The program consists of a required core curriculum, required curricula within divisions, and electives. The purpose of the core curriculum is to ensure that students master the skills and knowledge that are fundamental to the practice of public health. The divisions admitting master’s students are Biostatistics, Chronic Disease Epidemiology, Social and Behavioral Sciences, Environmental Health Sciences, Epidemiology of Microbial Diseases, Health Policy, and Health Management.

The YSPH core curriculum consists of a one-year sequence in statistical thinking and four other term courses, an internship, and a thesis or capstone course. The core courses are designed to provide skills in statistical methodology and data analysis as well as to introduce students to the breadth of the public health profession. This program ensures a solid grounding in the basic and applied sciences, and also provides students with learning experiences in the field or the laboratory. The final requirement is the thesis, except in the Health Policy and Health Management divisions, where the thesis is optional and the capstone course is a requirement.

Each of the divisions has its own required curriculum. Students are encouraged to take electives in divisions other than the one in which they are entered.

Four terms in residence are required.
**Advanced Professional M.P.H. Program**

The Advanced Professional M.P.H. Program provides rigorous public health training to individuals with a doctoral-level degree in a field related to public health (e.g., M.D., D.V.M., D.D.S., or Ph.D. in the biological, behavioral, or social sciences) and to medical students who have completed their third year in an accredited medical school in the United States. The program is designed for mature individuals with clear goals in public health. A student can enter the program to gain skills in clinical research methodology or to prepare to be the director of a community health center, a leader in a state or local health department, or a medical officer at the Centers for Disease Control and Prevention, among other goals. Physicians in preventive medicine or occupational medicine residency programs can enter the program to complete their M.P.H. degree requirement.

The Advanced Professional M.P.H. Program begins in early July with an intensive seven-week summer session, followed by two terms of full-time study. Students concentrate in one of three tracks: Applied Biostatistics and Epidemiology, Social and Behavioral Sciences, or Health Policy and Administration.

Admission to the Advanced Professional M.P.H. Program is highly competitive, as the number of seats offered is limited. Applicants are encouraged to apply early. Individuals who are interested in the program must indicate this preference, along with their preferred track, at the time of application.

Applications for the M.P.H. programs are available online at www.sophas.org. Completed applications must be submitted no later than January 15 of the calendar year for which admission is sought. YSPH requires the submission of all official undergraduate and graduate transcripts, MCAT scores, three letters of recommendation, a résumé or CV, and a personal statement as part of the application for admission.

**Doctoral Program**

The degree of Doctor of Philosophy (Ph.D.) is offered through the Graduate School of Arts and Sciences. There are five divisions in EPH in which doctoral students may choose a specialty: Biostatistics, Chronic Disease Epidemiology, Environmental Health Sciences, Epidemiology of Microbial Diseases, and Health Policy and Administration. Four or five academic years are usually needed to complete the Ph.D. degree. All doctoral candidates must pass comprehensive examinations and design and successfully execute a dissertation prospectus, approved by a dissertation advisory committee, before being admitted to candidacy. Each candidate is required to conduct research and write a dissertation that makes an original contribution to the field. The research protocol must be approved by the doctoral committee of the department and by the Human Investigation Committee if the research uses data derived from individual human subjects or individual records. Specific guidelines and statements of academic policies are distributed to all doctoral candidates.

Preliminary inquiries should be addressed to the Director of Graduate Studies, PO Box 208034, New Haven CT 06520–8034. Application should be made to the Graduate School of Arts and Sciences, Yale University. Applications should be filed by the first working day in January specifying interest in Epidemiology and Public Health. Admission is normally only in the fall. The GRE is required. The TOEFL is also required of foreign applicants whose native language is not English. Students may enter the program
with a baccalaureate. Knowledge of a foreign language is not required for admission, although it may be needed in the course of study.

**M.D./M.P.H. Program**

For information on the combined M.D./M.P.H. Program, see pages 132–33.

**School of Public Health 2008–2009 Academic Calendar**

**SUMMER TERM 2008**

- **July 7**  
  Classes begin for AP M.P.H. Summer Session
- **Aug. 22**  
  Classes end for AP M.P.H Summer Session

**FALL TERM 2008**

- **Sept. 3**  
  Fall term classes begin
- **Sept. 3–10**  
  One-week course “shopping period”
- **Sept. 10**  
  Course registration deadline (late fee $50)
- **Oct. 24**  
  Last day to withdraw from a fall-term course without the course appearing on the transcript
- **Nov. 21**  
  Fall recess begins at 6 p.m.
- **Dec. 1**  
  Classes resume at 8:30 a.m.
- **Dec. 5**  
  Last day to withdraw from a fall-term course
- **Dec. 8–12**  
  Reading period*
- **Dec. 15–19**  
  Final examination period

**SPRING TERM 2009**

- **Jan. 12**  
  Spring term classes begin
- **Jan. 19**  
  Martin Luther King Day—no classes
- **Jan. 12–19**  
  One-week course “shopping period”
- **Jan. 19**  
  Course registration deadline (late fee $50)
- **Mar. 6**  
  Last day to withdraw from a spring-term course without the course appearing on the transcript
- **Mar. 6**  
  Spring recess begins at 6 p.m.
- **Mar. 23**  
  Classes resume at 8:30 a.m.
- **Apr. 25**  
  Last day to withdraw from a spring-term course
- **Apr. 27–May 1**  
  Reading period*
- **May 4–8**  
  Final examination period
- **May 25**  
  University Commencement

**Grading Calendar**

- **Aug. 29**  
  Final grades due for AP M.P.H. Summer Session
- **Jan. 5**  
  Final grades due for all students
- **May 1**  
  Final thesis grades due to registrar
- **May 15**  
  Final grades due for all graduating students
- **May 29**  
  Grades due for all continuing students

*Some classes may meet during the Reading period.
THE YALE PHYSICIAN ASSOCIATE PROGRAM

The concept of a physician assistant (or Physician Associate) was first developed in 1965. Today the Physician Associate is a highly valued member of the health-care team. Physician Associates are distinguished from other advanced health-care practitioners by the extent to which they are given decision-making authority regarding patient care, diagnosis, and treatment. The twenty-seven-month Yale program, established in 1970, is committed to educating students for generalist medical practice. As of September 2006, the Yale Physician Associate Program has graduated 850 Physician Associates who are employed in a variety of settings throughout the nation. Graduates practice in rural as well as urban areas, in emergency rooms, health maintenance organizations, clinics, and solo and private practices. They possess a variety of skills, which enable them to take a medical history; perform a physical examination; diagnose illness and formulate patient treatment plans; counsel patients; perform medical procedures; and assist in surgery.

Mission of the Yale Physician Associate Program

The mission of the Yale School of Medicine Physician Associate Program is to educate individuals to become outstanding clinicians and to foster leaders who will serve their communities and advance the PA profession.

Curriculum Structure and Goals of the Yale Physician Associate Program

The program is divided into a didactic phase of twelve months and a clinical phase of fifteen months. The rigor of the studies often precludes student employment. As a result, students are encouraged to find alternate financial resources during their course of study. Tuition for the 2008–2009 academic year is $28,090; fees and other expenses are similar to those estimated for medical students. A Master of Medical Science degree is awarded upon completion of the program.

THE DIDACTIC PHASE

The first calendar year is devoted to course work in basic and clinical sciences. Courses are listed below.

- Anatomy (lecture and laboratory)
- Clinical Genetics
- Clinical Laboratory Medicine
- Clinical Practicum
- Diagnostic Imaging
- History-Taking and Physical Examination
- Human Sexuality
- Introduction to Research
- Introduction to Surgical Skills

Medical Ethics
Medicine and Surgery
(includes all specialty modules)
Medicine and the Law
Microbiology
Pathology
Pharmacology
Physiology
Preventive Medicine
THE CLINICAL PHASE
Each student completes fourteen four-week rotations, in a variety of medical specialties, in order to acquire broad experiences in primary, emergency, and surgical care. Two additional four-week blocks during the clinical phase are reserved as research/thesis months. Ten rotations are mandatory: Internal Medicine I, Internal Medicine II, General Surgery, Primary Care I, Primary Care II, Psychiatry, Pediatrics, Obstetrics and Gynecology, Geriatrics, and Emergency Medicine. The remaining four clerkships are reserved for subspecialty electives.

Although many rotations are in the New Haven area, the experience of the student is expanded by exposure to rotations in other geographic settings. Consequently, students entering the program should expect to spend at least four weeks in areas such as New York, Kentucky, Maine, or Massachusetts. Students should be prepared to provide their own transportation and housing for all rotations away from New Haven. Students may also choose to broaden their experience by selecting rotations abroad. In the past, students have chosen clerkships in Thailand, Uganda, Costa Rica, Tanzania, and England.

In order to graduate from the program, a student must successfully complete all rotations, summative evaluation using standardized patients, and a thesis proposal. The thesis must present a rationale for the topic of study, a comprehensive literature review, and a detailed description of the methodology to be used. A Yale School of Medicine faculty adviser serves as a thesis mentor to each student.

MANDATORY ROTATIONS
Emergency Medicine  Obstetrics and Gynecology
General Surgery  Primary Care I
Geriatrics  Primary Care II
Internal Medicine I  Pediatrics
Internal Medicine II  Psychiatry

ELECTIVE ROTATIONS
Ambulatory Medicine  Neonatology
Anesthesiology  Neurology
Cardiology  Neurosurgery
Cardiothoracic Surgery  Ophthalmology
Gastroenterology  Orthopaedics
Hematology/Oncology  Otolaryngology
Hospice  Pediatric Cardiology
Industrial and Occupational Medicine  Plastic Surgery
Infectious Disease  Rehabilitative Medicine
Intensive Care  Rheumatology
International Medicine  Sports Medicine
Interventional Radiology  Trauma Surgery

Admission to the Yale Physician Associate Program
The admissions process is highly selective and the competition each year is keen. Selection is based on three fundamental criteria: academic history, patient care experience,
and interpersonal effectiveness. For additional information regarding admissions, please view our Web site at www.paprogram.yale.edu.

ACADEMIC

Students must have a baccalaureate degree prior to commencing the program. The Admissions Committee closely examines applicant records for evidence that individuals are capable of successfully completing graduate-level science work. An undergraduate science major is not required, but two semesters of biology or zoology with lab, two upper-level biology courses (one of which should be human or animal physiology), one semester of general chemistry with lab, and one semester of organic or biochemistry are prerequisites. A cumulative science grade point average of 3.0 is required. The program considers Graduate Record Exam (GRE) scores and performance in science courses as indicators of academic ability in light of applicants’ past records.

EXPERIENCE

Applicants must have some awareness of the intricacies of medical care delivery as it exists today and demonstrate their commitment to a profession that helps the sick and injured. The majority of the program’s students have had one year of direct patient contact experience in a variety of health-care roles such as orderly, nurses’ aide, military corpsman, nurse, surgical technician, or emergency medical technician. Experience need not be in a hospital setting.

INTERPERSONAL

The program values ability to work skillfully, thoughtfully, responsibly, and constructively with people. The Admissions Committee screens applicants to determine their career commitment, interpersonal skills, and willingness to work with the supervision of a physician.

In addition to scholastic potential and interpersonal skills, applicants must have the physical capacities and personal characteristics necessary to meet the full requirements of the program’s curriculum and to graduate as skilled and effective physician assistants. Policy on nonacademic considerations is outlined in our Technical Standards, which are available on the Web site.

The application deadline for the class entering in 2009 is September 1, 2008. Program information, in lieu of a printed catalogue, may be accessed on our Web site, www.paprogram.yale.edu. Applications for admission may be obtained by contacting the Centralized Application Service for Physician Assistants (CASPA) at www.caspaonline.org. The program currently does not require a supplemental application.
Expenses and Financial Aid

TUITION AND SPECIAL FEES

Tuition for candidates for the M.D. degree (per academic year) $42,350
Yale Health Plan Hospitalization coverage $1,617*

Examination fees for candidates for the M.D. degree,
United States Medical Licensing Examination:
Step I $470
Step II – Clinical Knowledge $470
Step II – Clinical Skills $1,005

Student accounts, billing, and related services are administered through the Office of Student Financial Services, which is located at 246 Church Street. The telephone number is 203.432.2700.

Students must pay four full years of tuition. Students who spend five years in medical school at Yale without receiving a joint degree are billed full tuition for the first four years and a registration fee thereafter.†

Students who take a leave of absence pay a registration fee for the year(s) on leave. They pay full tuition for the four years they are in residence. If a student decides to begin his or her leave of absence in the middle of any year, he or she pays full tuition for that year and a registration fee for the following year.‡

The following tuition arrangements for joint-degree programs apply only if the student is enrolled at Yale University for both degrees. It is strongly suggested that students interested in any joint program make an appointment to speak with the director of financial aid and the registrar at each school to discuss the tuition payment schedule.

Students who spend five years in the School of Medicine in order to receive an M.D./M.P.H. joint degree pay four years of full tuition to the School of Medicine. In addition, they pay half of the School of Medicine tuition to the School of Public Health during the year in which they are enrolled in YSPH.

M.D./Ph.D. students pay three and one-half years’ tuition to the School of Medicine and two and one-half years’ tuition to the Graduate School of Arts and Sciences. If a student is in the program after six years, he or she pays a minimal registration fee to the school he or she is attending.‡

Students who apply to one of the joint M.D./J.D., M.D./M.B.A., or M.D./M.Div. programs at Yale are expected to do so at the same time that they apply to the School of Medicine or by the end of their second year at the School of Medicine in order to qualify for the special tuition arrangements. Students in the M.D./J.D. Program pay three and one-half years’ tuition to the School of Medicine and two and one-half years’ tuition to the Law School. Students enrolled in the M.D./M.Div. Program pay three and one-half years’ tuition to the School of Medicine and two and one-half years’ tuition to the Divinity School. Students in the M.D./M.B.A. Program pay three and one-half years’

*Includes prescription coverage of $453 (fall term, $205; spring term, $246).
‡The student is responsible for his or her own health insurance at a cost of $4,064 for a single student (fall term, $1,847; spring term, $2,217).
tuition to the School of Medicine and one and one-half years’ tuition to the School of Management.

If a student is asked to repeat one or more years of course work because of academic failure in curriculum requirements, he or she pays full tuition for each additional year of study.

Enrollment in courses in other schools at the University may subject the student to additional fees.

First-year students should anticipate a minimum cost of $62,010, including tuition, for necessary expenses in an academic year. Married students and/or students with dependents have a federally established standard maintenance allowance deducted from their income.

First-year students may wish to purchase some of their equipment, such as an ophthalmoscope, which costs approximately $980. Each medical student must have special equipment for individual courses.

All students are required to pay a $400 Activity Fee. If a student is enrolled beyond the fourth year, a $200 Activity Fee is charged.

Upperclassmen are reminded that they should anticipate the expenses of travel for interviews related to internship applications and also the cost of typing and binding their theses.

**STUDENT ACCOUNTS AND BILLS**

Student accounts, billing, and related services are administered through the Office of Student Financial Services, which is located at 246 Church Street. The telephone number is 203.432.2700.

**Bills**

Yale University’s official means of communicating monthly financial account statements is electronically through the University’s Internet-based system for electronic billing and payment, Yale University eBill-ePay.

Student account statements are prepared and made available twelve times a year at the beginning of each month. Payment is due in full by 4 p.m. Eastern Standard Time on the first business day of the following month. E-mail notifications that the account statement is available on the University eBill-ePay Web site (www.yale.edu/sis/ebep) are sent to all students who have activated their official Yale e-mail accounts and to all student-designated authorized payers. It is imperative that all students activate and monitor their Yale e-mail accounts on an ongoing basis.

Bills for tuition, room, and board are available to the student during the first week of July, due and payable by August 1 for the fall term; and during the first week of November, due and payable by December 1 for the spring term. The Office of Student Financial Services will impose a late charge if any part of the term bill, less Yale-administered loans and scholarships that have been applied for on a timely basis, is not paid when due. The late charge will be imposed as follows:
**If fall-term payment in full is not received**

<table>
<thead>
<tr>
<th>Due Date</th>
<th>Late Charge</th>
</tr>
</thead>
<tbody>
<tr>
<td>August 1</td>
<td>$110</td>
</tr>
<tr>
<td>September 1</td>
<td>$220</td>
</tr>
<tr>
<td>October 1</td>
<td>$330</td>
</tr>
</tbody>
</table>

**If spring-term payment in full is not received**

<table>
<thead>
<tr>
<th>Due Date</th>
<th>Late Charge</th>
</tr>
</thead>
<tbody>
<tr>
<td>December 1</td>
<td>$110</td>
</tr>
<tr>
<td>January 2</td>
<td>$220</td>
</tr>
<tr>
<td>February 1</td>
<td>$330</td>
</tr>
</tbody>
</table>

Nonpayment of bills and failure to complete and submit financial aid application packages on a timely basis may result in the student’s involuntary withdrawal from the University.

No degrees will be conferred and no transcripts will be furnished until all bills due the University are paid in full. In addition, transcripts will not be furnished to any student or former student who is in default on the payment of a student loan.

The University may withhold registration and certain University privileges from students who have not paid their term bills or made satisfactory payment arrangements by the day of registration. To avoid delay at registration, students must ensure that payments reach Student Financial Services by the due dates.

**Charge for Rejected Payments**

A processing charge of $25 will be assessed for payments rejected for any reason by the bank on which they were drawn. In addition, the following penalties may apply if a payment is rejected:

1. If the payment was for a term bill, a $110 late fee will be charged for the period the bill was unpaid.
2. If the payment was for a term bill to permit registration, the student’s registration may be revoked.
3. If the payment was given to settle an unpaid balance in order to receive a diploma, the University may refer the account to an attorney for collection.

**Yale University eBill-ePay**

There are a variety of options offered for making payments. Yale University eBill-ePay is the preferred means for payment of bills. It can be found at www.yale.edu/sis/ebep. Electronic payments are easy and convenient—no checks to write, no stamps, no envelopes, no hassle. Payments are immediately posted to the student’s account. There is no charge to use this service. Bank information is password protected and secure, and there is a printable confirmation receipt. Payments can be made twenty-four hours a day, seven days a week, up to 4 p.m. Eastern Standard Time on the due date to avoid late fees. (The eBill-ePay system will not be available when the system is undergoing upgrade, maintenance, or repair.) Students can authorize up to three authorized payers to make payments electronically from their own computers to the student’s account using Yale’s system.

Use of the student’s own bank payment service is not authorized by the University because it has no direct link to the student’s Yale account. Payments made through such services arrive without proper account identification and always require manual pro-
cessing that results in delayed crediting of the student’s account, late fees, and anxiety. Students should use Yale eBill-ePay to pay online. For those who choose to pay by check, remittance advice with mailing instructions is available on the Web site.

Yale Payment Plan
The Yale Payment Plan is a payment service that allows students and their families to pay tuition, room, and board in ten equal monthly installments throughout the year based on individual family budget requirements. It is administered by the University’s Office of Student Financial Services. The cost to enroll in the YPP is $100 per contract. The deadline for enrollment is June 20. For additional information, please contact Student Financial Services at 203.432.2700 and select “Press 3” from the Main Menu. The enrollment form can be found online in the Yale Payment Plan section of the Student Accounts Web site: www.yale.edu/sfas/financial/accounts.html#payment.

FINANCIAL AID
Yale University recognizes the increasing cost of acquiring a medical education and wants students to pursue their medical studies at Yale as free of financial concerns as possible. Therefore, since the amount of funds available to the School is limited, and in order to meet the financial needs of students in a fair and equitable manner, the method for determining the financial aid for individual students is as follows.

In the spring of each year the budgets for students are established. These budgets include all projected expenses, including tuition, books and other educational supplies, microscope rental, and living expenses.

They do not include the cost of purchasing, maintaining, or insuring an automobile.

The Federal Selective Service law was amended in 1982 to provide that no student receive Title IV funds (Stafford [Subsidized and Unsubsidized]) unless he or she has executed a Statement of Registration Compliance (SRC) that either confirms that the individual has registered for Selective Service or states the reason why he or she is not required to do so. Because most of the school’s financial aid awards include funds from at least one Title IV program, failure to execute a Statement of Registration Compliance will render students ineligible for that portion of the financial aid award that would normally be provided through these programs. Students for whom this law presents special problems, and who are subject to Selective Service, should consult the financial aid officer.

All student financial assistance is need based.

The amount of the budget considered the student’s responsibility is determined using the Free Application for Federal Student Aid (FAFSA) and the Need Access Application, and includes money from the student’s own resources (assets, salaries, etc.), from the spouse’s income, when applicable, and from a parental contribution. The difference between the amount for which the student is responsible and the basic budget constitutes the financial support for which each student is eligible.

The availability of financial aid is dependent on a student’s status.

(a) Full-Time. An individual who has matriculated at this school and is pursuing a full course of studies as outlined in this catalogue is a full-time student. This includes
the required basic science courses in the first and second years and the required clinical clerkship in the third year. In addition, during the fourth year the student works on and completes a required thesis, and completes an adviser-approved schedule of electives. This student is charged full tuition, and financial aid is available if the student completes all the necessary forms and a need for aid has been determined.

(b) Leave of Absence. No financial aid is available to students not attending classes or working toward the requirements of the M.D. degree at Yale or elsewhere. This student is charged a registration fee. If a student is studying at another Yale graduate or professional school, that student is charged tuition by the school he or she is attending.

(c) Extended Study. A student who is not taking a full course load but is attending at least one class at Yale, or elsewhere, and/or is doing research toward the thesis requirement. This student is charged a registration fee and is eligible for financial aid only in the form of a Stafford Student Loan. Students on leave of absence or extended study programs may have this option for only one year unless there are exceptional circumstances. Students must be back in school full time at the end of one year.

(d) Satisfactory Academic Progress. In order to be considered eligible for any type of financial assistance, a student must be in good academic standing and making satisfactory progress. At appropriate evaluation intervals, the student must be approved for continued enrollment by the Progress Committee of the School of Medicine. It is this committee’s responsibility to require a student to finish incomplete work and/or complete any required remedial study prior to advancement to the next academic year. If the student fails to finish incomplete work and/or remedial study within one year, the student is not considered in good standing and is ineligible for any type of financial aid. Students are expected to complete the requirements of the M.D. degree within four years. With the approval of the Progress Committee of the School of Medicine or the Office of Student Affairs, a student may remain up to six years.

When a student is no longer in residence and has failed to complete required course work needed to receive the M.D. degree, the student’s enrollment status is in absentia to submit. Failure to complete requirements includes not completing the dissertation, not passing the USMLE Step I or Step II, or not satisfactorily completing a required clerkship. The student is not charged a tuition fee and is not eligible for any financial assistance, University services, and/or loan deferments. Once the student has completed all of the requirements for graduation, his or her name is presented to the Board of Permanent Officers and to the Yale Corporation for the awarding of the M.D. degree.

Consistent with student status, satisfactory academic progress, and available funds, the need for financial aid is met by: (1) loans, made up of monies from various loan sources, and (2) scholarship, when eligibility for financial aid is determined using a parental contribution index. This includes scholarship money supplied directly to the student from non-Yale sources. The maximum scholarship awarded to a married student never exceeds the amount calculated for a single student with no resources. The total scholarship support for all students is, of course, limited by the availability of funds. Should scholarship need exceed the supply of funds, additional loans are made available.

It is the policy of the School of Medicine to abide by the FAFSA and Need Access calculation of the student’s contribution and parental contribution index.
Additional financial support in the form of loans, scholarships, or employment must be made known to the student financial aid officer and may result in a proportionate reduction of School support. If a student does not report changes, his or her financial aid file is subject to review by a Disciplinary Committee and all financial aid may be canceled and the incident reported.

Copies of all schedules of both student and parental income tax and W-2 forms or a statement of earnings for the previous fiscal year are required for all students on aid. Copies of social security benefits, unemployment compensation, and retirement benefits of both student and parents are required for all students on aid. All information is verified in accordance with federal regulations.

All information in individual student financial aid folders is strictly confidential and is used only for the purpose of determining and administering the student’s aid.

It is understood that allocations of financial aid are held as binding commitments only insofar as the original data on which these allocations were based are correct.

For 2008–2009 all students who have a calculated loan need and who are U.S. citizens or permanent residents of the United States may borrow up to $40,500 through the Stafford (Subsidized and Unsubsidized) Loan program. They may also receive a Yale Medical School loan. The combination of these loans will cover a part of their educational expenses. These loans are normally repaid over a ten-year period beginning six months after borrowers complete their education.

Students can obtain these Stafford loans from Yale University, a local bank, or other participating agencies. Perkins loans are provided to students through Yale University.

Additional information concerning educational loans available to students of the School of Medicine may be obtained from the Student Financial Aid Office, Room 202, Edward S. Harkness Memorial Hall, 367 Cedar Street, or from our Web site at www.medfinaid.yale.edu.

**TUITION REBATE AND REFUND POLICY**

On the basis of the federal regulations governing the return of federal student aid (Title IV) funds for withdrawn students, the following rules apply to the rebate and refund of tuition.

1. For purposes of determining the refund of federal student aid funds, any student who withdraws from the School of Medicine for any reason during the first 60% of the term will be subject to a pro rata schedule which will be used to determine the amount of Title IV funds a student has earned at the time of withdrawal. A student who withdraws after the 60% point has earned 100% of the Title IV funds. In 2008-09, the last days for refunding federal student aid funds will be October 31, 2008 (Years 1 & 2), October 22, 2008 (Years 3 & 4) in the fall term, and April 9, 2009 (Year 1), May 21, 2009 (Year 2), May 17, 2009 (Year 3), March 22, 2009 (Year 4) in the spring term.

2. For purposes of determining the refund of institutional aid funds and for students who have not received financial aid:

   a. 100% of tuition will be rebated for withdrawals which occur on or before the end of the first 10% of the term September 11, 2008 (Years 1 & 2), August 27, 2008 (Years 3 & 4) in the fall term and January 18, 2009 (Year 1), January 25, 2009 (Year 2), January 27, 2009 (Year 3), January 17, 2009 (Year 4) in the spring term.
b. A rebate of one-half (50%) of tuition will be granted for withdrawals which occur after the first 10% but on or before the last day of the first quarter of the term September 26, 2008 (Years 1 & 2), September 12, 2008 (Years 3 & 4) in the fall term and February 9, 2009 (Year 1), February 26, 2009 (Year 2), March 1, 2009 (Year 3), February 5, 2009 (Year 4) in the spring term.

c. A rebate of one-quarter (25%) of tuition will be granted for withdrawals which occur after the first quarter of a term but on or before the day of Midterm October 21, 2008 (Years 1 & 2), October 11, 2008 (Years 3 & 4) in the fall term and March 26, 2009 (Year 1), April 30, 2009 (Year 2), April 25, 2009 (Year 3) or March 9, 2009 (Year 4) in the spring term.

d. Students who withdraw for any reason after Midterm will not receive a rebate of any portion of tuition.

3. The death of a student shall cancel charges for tuition as of the date of death and the Bursar will adjust the tuition on a pro rata basis.

4. If the student has received student loans or other forms of financial aid, rebates will be refunded in the order prescribed by federal regulations; namely, first to the Unsubsidized Federal Stafford and/or Subsidized Federal Stafford loans, if any; next to Federal Perkins loan; FFEL/Graduate PLUS loans; then to Health loans (HPSL, LDS and Primary Care); finally to any other Federal, State, private or institutional scholarships and loans; and, finally, any remaining balance to the student.

5. Loan recipients (Stafford, Perkins or YSL) who withdraw are required to have an Exit Interview before leaving Yale, and should expect a mailing from Student Financial Services with instructions regarding this process.

This schedule applies only to the School of Medicine. Contact the School of Public Health and the Physician Associate Program for their schedules and policies.

SCHOLARSHIPS

All scholarships listed below are administered by the Financial Aid Office and are awarded to students based on need and interests. Students who apply for financial aid are automatically applying for these scholarships.

Robert Campbell Adams and Claire Adams Scholarship Fund  Established in 1981 by bequest from the Estate of Estelle B. Spinney in memory of her sister and brother-in-law, who graduated from Yale University with the Class of 1899. Preference given to students who plan to practice in rural areas.

The Ludwig Adler Scholarship Fund  Established in 1981 by bequest from Hedwig (Mrs. Ludwig) Adler in memory of her husband. To be used for scholarships to needy men and women medical students.

The Arthur N. Alling Scholarship Fund  Established in 1986 by bequest from Helen F. Alling in memory of her father, Arthur N. Alling. To be used for scholarships for women medical students.

The Edward Ames Scholarship Fund  Established in 1940 by bequest from Edward Ames, M.D. 1874.
The Waldo Avery Scholarship Fund  Established in 1979 by Waldo Avery, B.A. 1936.

The John Kenly Bacon Fund  Established in 1994 by the Estate of Elsie L. Bacon in memory of her husband, John Kenly Bacon, Yale College Class of 1925, to provide scholarship assistance for worthy students attending the Yale University School of Medicine.

The Muriel Frances Hanley Bagshaw, M.D., Scholarship  Established in 2000 by Malcolm A. Bagshaw, M.D. 1950, in memory of his wife, to assist one or more women students enrolled in the Yale University School of Medicine.

The Judson Bardwell, 1891 M.D., Memorial Scholarship  Established in 1935 from a gift made in 1927 by Harry J. Bardwell, B.A. 1890, in memory of his brother.

The Horace D. Bellis Scholarship Fund  Established in 1966 by bequest from Horace D. Bellis, M.D. 1907. Income to be used for scholarships to worthy students in the School of Medicine.

The Bigwood Memorial Fund  Established in 2002 by bequest from the estate of Gertrude L. Bigwood, M.A. 1932, for student scholarships and/or loans to young students planning careers in the health care profession.

The Eugene M. Blake Fund  Established in 1984 in a bequest by Eugene Maurice Blake, M.D. 1906, M.S. 1929. To provide scholarship funds for the benefit of a medical student.

M. Grant Blakeslee Memorial Scholarship  Established in 1966 by bequest from Catherine Woodruff Blakeslee in memory of her husband, M. Grant Blakeslee, Ph.B. 1912. To be used for scholarships for worthy students in the School of Medicine.

The Sanfurd G. Bluestein, M.D. 1946, Scholarship  Established in 1996 on the occasion of his fiftieth reunion from Yale School of Medicine, to support upstanding medical students who are in need of financial aid.

The Brace Ogilvie Financial Assistance Fund  Established in 1997 by Donna Brace Ogilvie in honor of her husband John B. Ogilvie, B.S. 1931, M.D. 1934. The Fund supports scholarships for Yale School of Medicine students.

The David L. Brook, Class of 1945S, M.D. 1947, Memorial Scholarship Fund  Established in 1995 through a gift of his family upon his death. Income to be used to assist worthy medical students who are in need of financial assistance.

The Victor Joseph Burner Scholarship in Medicine  Established in 2003 by bequest from Victor Joseph Burner, B.A. 1959, M.D. 1965, to be awarded to any qualified students attending the Yale School of Medicine who meet the requirements for need-based financial aid.
The Edward Thomas Calhoun Scholarship  Established in 1928 by Lida T. Calhoun in memory of her son, Edward Thomas Calhoun, M.D. post-obit 1927. For work in pathology.

The Robert E. Carroll, M.D., ’38 B.A., ’42 M.D. Yale School of Medicine Scholarship  Established in 2007 with a gift from Robert E. Carroll, M.D., ’38 B.A., ’42 M.D., to provide scholarship assistance to a student, with preference given to a graduate of Yale University.

The Ettore Ciampolini Medical Scholarship Fund  Established in 1968 by bequest from the Estate of Helen A. Ciampolini in memory of her late husband, Ettore Ciampolini, M.D., Ph.D. 1923. Income from the fund to be awarded to a deserving male student who is in need of funds to help pay his tuition.

The Class of 1944 Medical Student Scholarship Fund  Established in celebration of the 50th reunion of the Class of 1944 Medicine, by all the members of the Class of 1944 Medicine. To provide scholarship assistance for the benefit of medical students.

The Class of 1948 Scholarship  Established by members of the Class of 1948 Medicine, in honor of their 50th reunion, to provide financial aid to outstanding medical students who demonstrate need for support.

The Class of 1950 Endowed Scholarship Fund  Established in 2001 by members of the Class of 1950 Medicine to provide scholarships to medical students.

The Class of 1954 Scholarship Fund  Established in 2004 by members of the Class of 1954 Medicine in honor of their fiftieth reunion to provide support for medical students.

The Class of 1956 Scholarship  Established in 2006 by members of the Class of 1956 Medicine in honor of their fiftieth reunion, for students with demonstrated need for financial aid in the M.D. program.

The Class of 1957 Scholarship  Established in 2007 by members of Yale School of Medicine’s Class of 1957, in honor of their fiftieth reunion, to provide financial aid to outstanding medical students who demonstrate need for support.

The Class of 1959 Scholarship Fund  Established by members of the Class of 1959 Medicine to provide financial aid to outstanding medical students who demonstrate need for support.

The Class of 1961 Medical School Scholarship  Established in 2002 by members of the Class of 1961 Medicine to support medical students.

The Class of 1967 Memorial Scholarship  Established in 2002 by members of the Class of 1967 Medicine, in memory of their classmates.

The Thomas J. Coleman III, M.D. and Bebette Gualano Coleman Scholarship  Established in 2000 by Dr. and Mrs. Thomas J. Coleman III in support of scholarships for Yale medical students who plan a practice that will prohibit abortion and euthanasia.

The Julian Czamanski Scholarship  Established in 2002 by bequest from Julian Czamanski of Hamden, Connecticut, to be used for scholarships for students with financial need.
The Lycurgus M. Davey Scholarship Fund  This endowed fellowship was established in 1986 as a gift from Lycurgus M. Davey, M.D. 1943. To be used for financial aid to gifted and needy medical students.

Edwin P. and Eleanor H. Dawson Scholarship Fund  Established in 1971 to be used for the benefit of medical students who are in need of financial assistance.

The Donabedian Family Term Scholarship  Established in 2003 by Richard Kaspar Donabedian, M.D., in honor of his parents, Rose and Martin Donabedian, to support an incoming student of outstanding merit who will personify both scholarly achievement and other qualities of strong character and leadership potential.

Franklin M. Doolittle and Frances C. Doolittle Scholarship Fund  Established in 1959 by a gift from Franklin M. Doolittle, Ph.D. 1915. To be used to provide financial assistance to one or more needy and deserving students enrolled in the School of Medicine.

Thomas H. and Mary Jones Drews Scholarship  Established in 2003 by John A. Drews, M.D. 1967, in honor of his parents, to provide financial assistance each year to medical students.

The John Sinclair Dye Memorial Scholarship  Established in 1971 by a gift from Lucy Wade Dye in memory of her husband, Dr. John Sinclair Dye. Income to be used for scholarships to worthy students in the School of Medicine.

The Freshwater-Class of 1972 Scholarship Fund  Established in 1997 by a gift from M. Felix Freshwater, M.D. 1972, in honor of Donald D. Wright, B.A. 1930, Ph.D. 1933 (Chemistry), and the Class of 1972, in celebration of its twenty-fifth reunion. To provide financial aid to medical students with a preference to a graduate of Brooklyn College or a graduate of any college part of the City University of New York system.

The Alvin E. Friedman-Kien M.D. 1960 Scholarship  Established in 2006 by a gift from Alvin E. Friedman-Kien, M.D. 1960, to support outstanding students in the M.D. and/or M.D./Ph.D. program.

The Carl Gade Fund  Established in 1955 by bequest from Carl Gade, M.D. 1910. To be used to provide assistance for needy and deserving students at the Yale University School of Medicine.

The J. Roswell Gallagher Scholarship  Established by J. Roswell Gallagher, Yale College Class of 1925 and Yale School of Medicine Class of 1930, to provide scholarship assistance to medical students in need.

The John Currier Gallagher Memorial Scholarship  Established in memory of John Currier Gallagher, Yale College Class of 1954 and Yale School of Medicine Class of 1958, by his parents and friends, to provide scholarship assistance to medical students in need.

The Anne G. K. Garland Memorial Scholarship  Established in 1930 by gift from William J. Garland in memory of his wife. Awarded to students in the graduate and professional schools of the university who are chosen because of their ability, character, and promise of future usefulness and the quality of their work.
The **Robert H. Gifford, M.D., Medical Scholarship**  Established in 2006 by students, colleagues, and friends of Dr. Robert H. Gifford, in honor of his retirement and to provide financial aid for outstanding medical students with the greatest need for support.

The **Maurice H. Givens Scholarship Fund**  Established in 1974 by bequest from the Estate of Maurice H. Givens, Ph.D. 1909. Income to be used to provide scholarships for financially needy second-year medical students who have excelled in biochemistry.

The **Gladys Godfried Scholarship**  Established in 2006 by bequest of Milton S. Godfried, B.A. 1934, M.D. 1936, in memory of his wife, Gladys Godfried, to provide financial assistance to medical students in good standing entering the third and fourth years.

The **James Raymond Goodrich Memorial Scholarship**  Scholarships are available in the School of Medicine from the income of a university scholarship fund established in 1923 by gift from Charles Stillman, B.A. 1882, in memory of his uncle, James Raymond Goodrich, B.A. 1853.

The **Jack Peter Green, M.D. ’57, Ph.D. ’52, and Arlyne Frank Green Scholarship**  Established in 2007 from the estate of Jack Peter Green, ’52 Ph.D., ’57 M.D., and his wife to support promising M.D./Ph.D. students at Yale School of Medicine.

The **George D. Gross, M.D., Scholarship**  Established in 2004 by the Esther S. Gross Trust to support medical students interested in internal or family medicine.

The **Esther S. Gross, M.D., Scholarship**  Established in 2004 by the Esther S. Gross Trust to support medical students interested in pursuing a career in pediatrics.

The **GTE Corporation Scholarship Fund**  Established in 1986 by the GTE Corporation on behalf of GTE operating companies throughout the United States. To be used for scholarships for minority medical students.

The **Dixon Hall Scholarship Fund**  Established in 1965 by bequest of John Dixon Hall, B.A. 1881, in memory of his father, Dixon Hall, M.D. 1850. Income to be used for assistance to students or in investigation of diseases.

The **Winfred Morgan Hartshorn Memorial Scholarship Fund**  Established in 1992 by the Estate of Edith H. Woodruff in honor of her father, Winfred Morgan Hartshorn, M.D., Yale College Class of 1898, to provide scholarship assistance to medical students in need.

The **Abner Hendee Scholarship Fund**  Established in 1949 by bequest from Nellie E. Hendee in memory of her husband, Abner Hendee.

The **Muriel Hirshfield Memorial Scholarship**  Established in 1964 by a gift of Jack Hirshfield in memory of his wife. Income from this fund to be used to assist needy medical students who are residents of the state of Connecticut, with preference given to students who are residents of the greater New Haven area.

The **John A. Hoober Memorial Fund**  Established in 1952 by Sarah A. K. Hoober. Income to be used for a scholarship for a student living in the vicinity of York County, Pennsylvania. Selection of recipient is based on need, character, integrity, personality, and general ability.
The Howey Fund  Established in 1945 by bequest from Ennes G. Howey of New Haven. Income awarded to needy and deserving students of good standing and of high moral character.

The Marion E. Hyde Fund   Established in 1974 by bequest of Marion E. Hyde in memory of Charles E. Hyde, M.D. 1910. To be used for scholarships for worthy students in the Yale School of Medicine.

The Harold W. and Helen M. Jockers Fund for Medical School Financial Aid  Established in 1999 by Mrs. Harold Jockers in support of scholarships for Yale School of Medicine students.

The Thomas J. Keenan, M.D., Scholarship Fund  Established in 1997 by the bequest of Thomas J. Keenan, M.D., to provide financial aid to outstanding medical students who demonstrate the need for support.

The Hans A. and Elizabeth R. Klagsbrunn Scholarship and Loan Fund  Established by a bequest from Elizabeth Ramsey, M.D. 1932, and her husband, Hans A. Klagsbrunn, LL.B. 1932, for promising medical students who need financial assistance.

The Marguerite Rush Lerner Award Fund  Established in memory of his wife by Dr. Aaron B. Lerner, to be directed toward financial aid and awarded to a deserving student in the School of Medicine.

The Professor Lafayette B. Mendel Scholarship Fund  Established in 1974 by bequest from the Estate of Maurice H. Givens, Ph.D. 1909, as a memorial to Professor Mendel, whom Mr. Givens continuously admired throughout the years. Income to be used to provide scholarships for financially needy first-year medical students who have demonstrated, at the time of matriculation, a proficiency and interest in biochemistry or physiological chemistry.

The Howard A. Minners, M.D. 1957, and Family Scholarship  Established in December 2003 by Howard A. Minners, M.D. 1957, for students attending Yale School of Medicine.

The Professor Ernest Mylon and Hildegard Mylon Scholarship Fund  Established in 1984 by bequest from Peter Mylon in honor of his parents, Professor Ernest Mylon, M.D., and Hildegard Mylon. To be used for scholarships for medical students.

The Leona R. M. Normandie Scholarship Fund  Established in 1994 by the Estate of Leona R. M. Normandie to provide scholarship assistance to medical students.

Julian J. Obermann Fund  Established in 1959 by bequest from Julian J. Obermann, honorary M.A. 1935. To be used and applied, from time to time, to defray the costs of tuition and expenses of needy and deserving students in the School of Medicine and those studying in the fields of Oriental, Epigraphic, and Arabic studies in the Graduate and Divinity schools.

The John and Jessie Ogilvie Memorial Scholarship  Established in 1968 by gifts from John B. Ogilvie, B.S. 1931, M.D. 1934, in memory of his parents. Awarded to a medical student in the third- or fourth-year class who shows ability, character, and promise for a career in surgery.
The Ogilvie Family (John B., B.S. 1931, M.D. 1934; John G., B.A. 1964; Donald G., B.A. 1965; Jennifer B., B.A. 1991; and Adam, B.A. 1993) Financial Aid Fund Established in 1989 by a gift from John B. Ogilvie. The income is to be used to assist worthy students who are in need of financial help.

The David V. Pecora, M.D. ’41, and Dorothy E. Pecora, R.N., Scholarship Created in 2007 from their gifts, the fund is to support students at the Yale School of Medicine.

The Frank Elmer Phillips, M.D. 1901, Scholarship Fund Established in 1992 by his daughter, Anne P. Whistler, to benefit medical students in need of financial assistance.

The Carrie T. B. Purinton Scholarship Fund Established in 1965 by bequest from Carrie T. B. Purinton. Income to be used for scholarship purposes in the School of Medicine.

The Puzak-Kurtz Student Scholarship Fund Established in 1962 as a gift from Michael Puzak, M.D. 1942, and Mrs. Puzak (Elizabeth Kurtz, M.N. 1941).

The Henry and Dorothea Riedel Scholarship Established in 2003 from the trust of Henry A. Riedel, M.D. 1943, and his wife Dorothea Riedel to benefit promising medical students.

The Nathan E. and Hilda M. Ross Scholarship Established in 2002 from the trust of Nathan E. Ross, B.S. 1925, M.D. 1928, and his wife Hilda M. Ross to benefit needy medical students.

The Dr. Salvatore Sannella and Dr. Lee Sannella Endowment Fellowship Fund Established in 1991 in memory of Salvatore Sannella and in honor of his son, Lee Sannella, M.D. 1940, to benefit needy medical students with preference given to those with an interest in the physiological, psychological, and spiritual qualities of the human being as described by Dr. Lee Sannella in his book The Kundalini Experience.

Scholarships for Disadvantaged Students Established by the university to provide financial assistance to needy medical students.

The Robert S. Sherwin, M.D., Term Scholarship Established in 2007 by anonymous donors in honor of and appreciation to Dr. Robert S. Sherwin, in order to provide financial aid for a deserving medical student.

The C. V. Starr Scholarship Fund Established in 1991 by the Starr Foundation to provide financial assistance to medical students.

The Ruth and Milton Steinbach Scholarship Fund Established in 1991 through a trust by Milton Steinbach, Class of 1924S. This fund to be used to benefit needy men and women in the Epidemiology and Public Health, Medicine, and Physician Associate programs.

The Reuben E. Thalberg Scholarship Awarded annually by the Reuben E. Thalberg Foundation of Southington, Connecticut, in memory of Dr. Reuben E. Thalberg, to a
medical student in need of financial aid while attending the Yale University School of Medicine.

**The Charles Henry Thomas Scholarship** Established in 1940 by Georgine H. Thomas in memory of Dr. Charles Henry Thomas, Class of 1873.

**The Lois E. and Franklin H. Top, Jr., M.D. 1961, Scholarship** Established in 2001 by Dr. and Mrs. Top to be awarded each year to one or more medical students.

**The Joseph Hendley Townsend Scholarship** Established in 1928 by bequest from Emily Allison Townsend in memory of her brother, Joseph Hendley Townsend, B.A. 1885, M.D. 1887, the income to be used for the payment of tuition and other expenses of a New Haven resident.

**The Myra Tyler Student Financial Aid Fund** Established in 1998 by the bequest of Myra D. Tyler, Class of 1950, in support of scholarships for Yale School of Medicine students.

**The Flora Adler Ullman Memorial Fund** Founded in 1927 by gifts from Joseph C. Johnson and other friends of Flora Adler Ullman, for scholarship aid. The fund was increased in 1935 by bequest from her husband, Isaac M. Ullman.

**The Rosa Verdi Scholarship** Established in 1927 by gift from William F. Verdi, M.D. 1894, in memory of his mother.

**The Alfred Eastman Walker Scholarship** Established in 1951 by bequest from Frances E. Walker in memory of her brother, Alfred Eastman Walker, B.A. 1864, M.D. 1867. Income awarded to that student in the second year who has made the most satisfactory progress during the first year.

**The Bernice L. Walker Scholarship** Established in 2005 from the Estate of Bernice L. Walker to provide support for medical students.

**The Arthur Watson Scholarship Fund** Established in 1984 by bequest from Arthur Watson, M.D. 1942. To be used for scholarships for medical students.

**Andrew Judson White Scholarship** Established in 1951 by Margaret White (Mrs. Chauncey S.) Truax in memory of her grandfather, Andrew Judson White, M.D. 1846, honorary M.A. 1894. Tuition aid for a student whose character, personality, and record give promise of fine professional service, and who otherwise would be unable to acquire a medical education. May be held by the same student for four years if the student remains eligible.

**The William M. Wiepert and Lucille Reed Wiepert Scholarship Fund** Established in 1974 by a gift from an anonymous donor in honor of William M. Wiepert, B.A. 1933, M.D. 1937, and Lucille Reed Wiepert, Ph.D. 1930, M.D. 1937. Income to be used to provide scholarship aid for a financially needy student who has demonstrated scholastic achievement.

**The Dr. Amy Hunter Wilson Scholarship** Established in 1990 by Amy Hunter Wilson, M.D. 1930, Dr.P.H. 1934, and Frederick C. Wilson to provide financial assistance to needy medical and public health students.
**The Louise Farnam Wilson Memorial Scholarship**  Established in 1955, by a gift from Mrs. Samuel Clark Harvey in memory of her sister, Louise Farnam Wilson, Ph.D. 1916. Income to be used to provide scholarship aid for a financially needy student who has demonstrated scholarship. Preference is given to a woman student.

**The Yale Club of Central New Jersey Scholarship Fund**

Armed Forces Scholarships are available upon application.

**LOAN FUNDS**

All loans listed below are administered by the Financial Aid Office and are awarded to students based on need and interests. Students who apply for financial aid are automatically applying for these loans.

**The Alumni Revolving Loan Fund**  Established in 1981 by gifts from alumni.

**Katharine C. Angell Revolving Loan Fund**  Established in 1982 to honor Katharine C. Angell to help recognize her contributions to the School of Medicine.

**The Jack R. Aron Loan Fund**  Established by gift in 1980 from Jack R. Aron, B.A. 1928. To be used to provide financial aid to minority students in the School of Medicine.

**The Harry J. Bardwell Loan Fund**  Established 1928 by gift from Harry J. Bardwell, B.S. 1890.

**The Leona Baumgartner Student Revolving Loan Fund**  Established in 1981 by a gift from Leona Baumgartner Langmuir, M.D. This loan is in honor of a distinguished Yale alumna, Leona Baumgartner, Ph.D. 1931, M.D. 1934.

**The William C. and Grace W. Beckert Loan Fund**  Established in 1983 by Grace W. Beckert to be used for loans to students in medicine.

**The David Challinor Student Loan Fund**  Established in 1973 by Mr. and Mrs. David Challinor to be used for student loans at the discretion of the director of student aid.

**The Class of 1922 Medical Student Loan Fund**  Established in 1922 by gifts from the Class of 1922 Medicine.

**The Class of 1923 Medical Student Loan Fund**  Established in 1923 by gifts from the Class of 1923 Medicine.

**The John Duberg Loan Fund**  Established in 1980 by gift from H. P. J. Duberg, B.A. 1930.

**Harry Gray Memorial Loan Fund**  Established in 1982 by a gift from Jesse G. Rubin, M.D. 1957, and Mrs. Rubin.

**C.S.M.S. David A. Grendon Memorial Student Loan Fund**  Established in 1972 to provide supplementary loans up to the amount of $500. Financial need of recipient will be established in accordance with the criteria that the School of Medicine uses for determining the financial resources and needs of its students.
Health Professions Student Loan Fund  Established in 1964 by the Department of Health, Education, and Welfare under the Health Professions Educational Assistance Act of 1963 (as amended).

The Howard Heinze Student Educational Fund  Established in 1927. Income to be used to aid deserving students at the Yale School of Medicine.

The Kaiser Loan Fund  Established in 1980 to be used for student loans at the discretion of the director of student aid.

The Wood Kalb Foundation Loan Fund  Established in 1970 as a gift from the Wood Kalb Foundation to provide loans to students of the School of Medicine.

The Bernard L. Kartin Memorial Loan Fund  Established in 1968 by friends and associates of Bernard L. Kartin, M.D., for loans to students in medicine.

The W. K. Kellogg Foundation Loan Fund  Established in 1942 by grants from the foundation, for loans to students in medicine and public health.

The Eli Lilly Loan Fund  Established in 1980. To be used as a revolving loan fund for the benefit of the senior medical students.

Loans for Disadvantaged Students  Established by the university to provide financial assistance to needy medical students.

The George W. Merck Memorial Loan Fund  Established in 1959 by the Merck Company Foundation in memory of George W. Merck, for loans to medical students.

The Harry G. Moss Memorial Loan Fund  Established in 1972 in memory of Dr. Harry G. Moss by his friends and colleagues to provide financial assistance for students in the School of Medicine, thus enabling the needy among them to complete their medical education.

The William Herbert Ordway Memorial Fund  Established in 1956 by Mrs. Ordway in memory of her husband, William Herbert Ordway, M.D. 1912.

The Primary Care Loan  Established in 1993 by the Department of Health and Human Services under the Health Professions Educational Assistance Act of 1993. To be used as a revolving loan fund to assist needy medical students interested in Primary Care Medicine.

The Marion Leonard Robbins Loan Fund  Established in 1962 by bequest from Marion Leonard Robbins, M.S. 1929, M.D. 1931, for loans to students in the School of Medicine.

The Frederick W. Roberts Loan Fund  Established in 1961 in memory of Dr. Frederick W. Roberts, Ph.D. 1920, to provide loans to needy and deserving members of the residency staff of affiliated hospitals.
The School of Medicine Loan Fund  A limited amount of money is available for aiding deserving students during their medical course.

The Anson Frederick Smolowe Memorial Student Loan Fund  Established in 1976 by Mr. and Mrs. Philip Smolowe for medical students in need of financial aid while attending the Yale University School of Medicine, in memory of their son, Anson Frederick Smolowe, B.S. 1964.

The Wayne O. Southwick Resident Loan Fund  Established in 1965 by gifts from an anonymous donor to provide loans to medical students in need of financial aid.

The Phebe Vail Tate Memorial Student Loan Fund  Established in 1956 by Dale S. Tate, B.A. 1897, in memory of his wife, Phebe Vail Tate.

The Reuben E. Thalberg Foundation Loan Fund  Established in 1972 by the Reuben E. Thalberg Foundation for medical students in need of financial aid while attending the Yale University School of Medicine.

The Woods Student Loan Fund  Established in 1955 by a grant from the Woods Charitable Fund, Inc.

The Yale Men in Medicine Fund  Contributions have been made since 1931 for loans to meritorious students.

FELLOWSHIPS

The James Hudson Brown Memorial Fund  Established in 1944 by bequest of Marie B. C. Brown in memory of her husband. The income provides for research fellowships. The latter are open to promising investigators for pursuit of research in the medical sciences, including clinical medicine and public health. Open to holders of the M.D. or Ph.D. degree who have demonstrated their fitness to carry on original research of high order.

The Alexander Brown Coxe Memorial Fellowships in the Biological Sciences  Established in 1927 by a gift from the family of the late Alexander Brown Coxe, B.A. 1887. The income may be awarded annually to an investigator of promise in the comprehensive field of the biological sciences. Preference is given to university graduates who have already obtained the M.D. or Ph.D. degree and who have demonstrated their fitness to carry on original research of a high order.

The William Harvey Cushing Memorial Fellowship  Established in 1928 by Dr. Harvey Cushing, B.A. 1891, as a memorial to his son, William Harvey Cushing, of the Class of 1927, Yale College, for research in surgery.

The Wilbur G. Downs, M.D., International Health Travel Fellowship  The Committee on International Health was established by the Department of Epidemiology and Public Health in 1965. In 1984, this fellowship was named in honor of Wilbur G. Downs, M.D., M.P.H., an eminent medical scholar, renowned for his work in international health. The Committee on International Health selects students studying diseases such as malaria;
the fund provides travel fare and a small stipend to students, who are asked to report on their research and experiences upon their return.

The Mitchel Edson, M.D. 1956, International Clinical Rotation Fund Established in honor of his fiftieth reunion to support the travel for an international clinical rotation of a highly motivated medical student in an underdeveloped country or a country where there is a pressing health care need.

The John F. and Carolyn B. Enders Research Fund Established in 1986 by bequest from the estate of John F. Enders, Yale Class of 1919, Ph.D. and Nobel Laureate in Medicine, to support fellowships for medical research.

The William U. Gardner Memorial Research Fund Established by Katherine H. Gardner in memory of her husband William U. Gardner, Ph.D., Ebenezer K. Hunt Professor of Anatomy and Professor Emeritus of Anatomy at Yale, to support research projects related to endocrinological aspects of cancer.

The Richard K. Gershon, M.D., Student Research Fellowship Established in 1986 by the faculty and friends in honor of Richard K. Gershon, M.D. 1959, to support a medical student for a fifth year of medical school in order to be able to carry out research in immunology or a related discipline.

The Gilbert H. Glaser, M.D., Postdoctoral Fellowship Fund Established in 1989 by the Department of Neurology, colleagues, family, and friends in honor of Gilbert Glaser, M.D., Sc.D., to support the initial year of a postdoctoral fellowship in the study of epilepsy at Yale.

The Samuel Jordan Graham Fellowship Established in 1961 in memory of Judge and Mrs. Samuel Jordan Graham by the Estate of E. Norma P. (Mrs. S. J.) Graham. To be used to assist students who are pursuing postgraduate study or research in the School of Medicine, preferably those specializing in surgery.

The James G. Hirsch, M.D., Endowed Medical Student Research Fellowship Established in 1988 by the Josiah Macy, Jr. Foundation as a tribute to its late president and member of the Yale Corporation, James G. Hirsch, Class of 1943S, M.D., to support medical students extending their course of study to pursue research projects from four to five years.

The Richard Alan Hirshfield Memorial Fellowship Established in 1961 by Mr. and Mrs. Jack Hirshfield in memory of their son. To be awarded to a student doing research in ulcerative colitis or related diseases or other research projects.

The G.-D. Hsiung, Ph.D., Student Research Fellowship Fund Established in 1989 by colleagues and friends to honor Gueh-Djen Edith Hsiung, Ph.D., Professor Emeritus of Laboratory Medicine, and to provide medical students who are promising scientists with research fellowships in clinical virology and related projects in viral pathogenesis.

The Charles Linnaeus Ives Fellowship Founded in 1924 by bequest from the widow of Charles Linnaeus Ives, B.A. 1852, for research in pathology.
The Eric P. Kindwall, M.D. 1960 International Clinical Rotation Fund  Established to support the travel for an international clinical rotation of a highly motivated medical student in an underdeveloped country or a country where there is a pressing health-care need.

The Francis G. Kingsley Memorial Fellowships  Established in 1986 by friends and family to honor Francis G. Kingsley, a special friend to the Yale School of Medicine. To be awarded for one to three years to young investigators at Yale whose research shows great promise.

The Paul H. Lavietes, M.D., Summer Research Fellowship Fund  Established in 1991 in honor of Paul H. Lavietes, B.S. 1927, M.D. 1930, former Clinical Professor of Medicine and Public Health at the Yale School of Medicine and Medical Director of Community Health Care Plan, by his friends and family. To provide significant support for summer research fellowships for promising medical students.

The Vernon W. Lippard, M.D., Student Summer Research Fellowship in Pediatrics  Established in 1985 by the William T. Grant Foundation to honor former dean of the Yale School of Medicine, Vernon William Lippard, M.D., Sc.D., Dean Emeritus and Professor Emeritus of Pediatrics. To be awarded annually to students working in the area of children’s behavior within the Department of Pediatrics or the Child Study Center.

Howard A. Pearson Fellowship in Pediatric Hematology/Oncology  Established in 2000 to support fellows in pediatrics.

George G. Posener Endowed Fellowship for Education and Training and Stem Cell Research in Trauma and Surgical Critical Care  Established in 2002 by George G. Posener as a memorial to his beloved wife, parents, four sisters, brother (Morris, Yale Class of 1938), and his two precious sons, and to honor Dr. Reuven Rabinovici of the Trauma and Surgical Critical Care Section of the Department of Surgery at the Yale School of Medicine. The fund is to educate and train residents and fellows and to support stem cell research at the Yale School of Medicine in the Trauma and Surgical Critical Care Section of the Department of Surgery.

The George G. and Leah E. Posener Memorial Fellowship in Hematology and Stem Cell Research  Established in 1995 by the generosity of George G. Posener in memory of his beloved wife Leah E. Posener and his brother Morris M. Posener (Yale Class of 1938) who received care at Yale-New Haven Hospital. To be awarded annually to assist financially a young physician/scientist whose research focuses on polycythemia vera and related blood diseases and also to support stem cell research.

Bertran Roberts Memorial Fund  Originally established in 1955 by family members, friends, and colleagues, as an annual lecture in the field of psychiatry. In 1973 the family decided to use these funds not only for lectures, but also to assign summer stipends to medical students interested in field study or other projects in the field of social psychiatry.

Leon Rosenberg Medical Student Research Fund in Genetics  Established in 2004 by Leon E. Rosenberg, M.D., former Dean of Yale School of Medicine, to be awarded to one
medical student who elects to spend a fifth year at Yale School of Medicine engaged full time in research in the Department of Genetics.

**Robert Shapiro, M.D., Memorial Fellowship in Diagnostic Radiology** Established in 2000 to provide research support in all diagnostic interventional procedures for postdoctoral fellows in diagnostic radiology.

**The Daniel B. Stryer, M.D. 1990, Class of 1990 International Clinical Rotation Fund** Established in memory of Daniel Stryer to support the travel for an international clinical rotation of a highly motivated medical student in an underdeveloped country or a country where there is a pressing health care need.

**The Thudichum Post-Doctoral Research Fellowship in Neuro-oncology** Established in 2005 by Irene M. Voynick in honor of the nineteenth-century German medical practitioner and surgeon Johann Ludwig Wilhelm Thudichum (1828–1901), who characterized the chemical composition of the brain and is regarded as the pioneer of neurochemistry. This postdoctoral fellowship supports a Ph.D. or M.D./Ph.D. student for the study of brain tumors utilizing such areas as cell biology, neurochemistry, and adult stem cell research.

**The Michael S. Voynick Fellowship in Neuro-oncology** Established in 1997 for an annual award in recognition of distinguished contributions in the field of neuro-oncology, to be presented during a symposium to promote education in such areas as oncogenesis, novel and effective therapies, and neuroscience.

**The Voynick Visiting Fellowship in Neuro-oncology** Established in 2001 to support a visiting fellow who will engage in such investigative areas as tumor excisions and innovative therapies based on tumor cell biology and genetics.

**The Jane Danowski Weiss Family Foundation Fellowship** Established in 2000 in memory of Dr. Thaddeus S. Danowski ’36, Mr. Edwin F. Danowski (Yale studies interrupted by World War II, killed in action in 1941), and Pelagia V. Danowski Sellers. To support medical students in a fifth year of research investigations in the areas of diabetes, stroke, and heart disease.

**Susan Wolf, M.D. 1997, and William Greene, M.D., International Clinical Rotation Fund** Established to support the travel for an international clinical rotation of a highly motivated medical student in an underdeveloped country or a country where there is a pressing health care need.
Honors and Prizes

COMMENCEMENT AWARDS, MAY 2008

Cum laude  The degree of Doctor of Medicine cum laude will be conferred on students whose academic performance shows unusual merit. Soledad Tarka Ayres, Tina Dasgupta, Jennifer Margaret Giltnane, Jason W. Griffith, Carolyn Graeber Jahn, Kristin Elizabeth Hoffmann, Kimberly Lauren Johung, Ryan Karl Kaple, Amy Lynn Meadows, Jason David Roh, Margaret Emily Samuels-Kalow, Maulik Shah

ACP-ASIM Internal Medicine Award  Awarded to a graduating student who will be entering a categorical or primary care internal medicine residency in Connecticut and has demonstrated outstanding academic achievement and community service. Rachel Esther Laff

Norma Bailey Berniker Prize  Established in 1970 by bequest of John H. Bailey, B.A. 1900, M.D. 1903. To be awarded to members of the graduating class who, in the judgment of the faculty, give promise of best exemplifying the disciplines and precepts of the Oath of Hippocrates and Maimonides’s Prayer. M. Allison Arwady, Misaki M. Kiguchi, Greg Nelson, Margaret Emily Samuels-Kalow, Kristina Frances Victoria Zdanys

The Campbell Prize  Founded in 1900 by bequest from James Campbell, honorary M.A. 1891, Professor of Obstetrics and Gynecology 1886 to 1899. Awarded to the graduating students who secure the highest rank on Step Two of the National Board examinations. Roger A. Goldberg, Karl Robert Laskowski

Connecticut Academy of Family Physicians Award  Established in 1994 to recognize outstanding students entering a career in Family Practice. Soledad Tarka Ayres

Connecticut Chapter of American College of Surgeons Prize  Awarded to graduating students for excellence in the surgical sciences. Misaki M. Kiguchi, Jessica Hoffman Beard

The Cortlandt Van Rensselaer Creed Award  Established in 1999 in honor of Cortlandt Van Rensselaer Creed, M.D. 1857, the first African American graduate of Yale University School of Medicine. Awarded through peer nomination to a graduating, underrepresented, minority student in medicine and public health who has demonstrated outstanding academic achievement, exemplary leadership, and a significant commitment to the community at large. Claudia Patricia Castiblanco Muñoz

Miriam Kathleen Dasey Award  Established in 1950 in honor of Miriam Kathleen Dasey, Registrar from 1921 to 1950. To be presented annually to students who by strength of character, personal integrity, and academic achievement give promise of fulfilling the ideal of the compassionate physician. Alexander Diaz de Villalvilla, Jennifer Estrella Dominguez, Rachel Friedman, Kiera Surelle Levine, Jeannine Alberts Ruby, Lori Ann Spoozak

The Dean’s Prize for Community Service  This annual award recognizes the graduating students who, by leadership and service, have made major contributions to the School
of Medicine, to the New Haven community, or to the community at large. Claudia Patricia Castiblanco Muñoz, Ryan Matthew Hebert, Margaret Emily Samuels-Kalow, Andrew K. Simpson

**Selma and Karl Folkers Prize in Biomedical Research**  This prize is awarded to graduating M.D./Ph.D. students whose thesis research has demonstrated excellence in basic cell and molecular biology. Tina Dasgupta, Kimberly Lauren Johung

**The Peter A. T. Grannum Prize**  Established in 1990. Awarded to outstanding African American graduates. This annual award is supported by the Shirley, Maggie and Hugh Comer Fund. Louvonia Rose Boone, Greg Nelson

**M.D./Ph.D. Award**  This prize is awarded to outstanding members of the graduating M.D./Ph.D. class who have shown excellence in both research and clinical activities. Jennifer Margaret Giltnane, Keith Gipson

**M.D./Ph.D. Alumni Award**  Awarded to graduating M.D./Ph.D. students for outstanding academic achievements, leadership, and service. Jason W. Griffith, Alison Holt Norris

**New England Pediatric Society Prize**  Awarded to that member of the graduating class entering pediatrics who in the opinion of peers and faculty best exemplifies those qualities one looks for in a pediatrician. “A competent, caring, good humored person who I would want to take care of my children.” Kelvin C. Lau, Tamara Porter Miller

**The Parker Prize**  Established in 1914 by bequest from Frank J. Parker, Ph.D. 1895, M.D. 1898. Awarded annually to the graduating students who, during the course, have shown the best qualifications for a successful physician. Candace Hillary Feldman, Sean Matthew McBride

**The Perkins Prize**  Awarded to the student who achieves the highest rank on Step One of the National Board examinations. Ellen Margaret House

**The Dr. David and Arthur Schuman Award of Excellence in Family Practice**  Awarded annually to recognize a student or resident in the State of Connecticut for his or her academic excellence and contributions to the Connecticut Academy of Family Physicians and other organizations that promote understanding of the specialty of family medicine. Liza Elenia Goldman Huertas

**The Society for Academic Emergency Medicine Award**  Awarded to the student who has demonstrated excellence in the specialty of emergency medicine. Maggie Hatcher

**The Leonard Tow Humanism in Medicine Award Presented by The Arnold P. Gold Foundation**  Established to honor a graduating student who demonstrates the highest standard of compassion and sensitivity in his or her interaction with patients. Alexander Diaz de Villalvilla

**Lauren Weinstein Award**  Established in 1992 in memory of Lauren Weinstein (Yale medical student 1988–1989). Given to a student who displays courage, perseverance, and compassion and has dared to reach for the best in herself or himself. James Adam Troy
The Milton C. Winternitz Prize in Pathology  Established in 1950 in honor of Milton Charles Winternitz, honorary M.A. 1917, Professor of Pathology and Bacteriology 1917–1925, Anthony N. Brady Professor of Pathology 1925–1950. Anne Lenore Ackerman

THESIS PRIZES, MAY 2008

The American Cancer Society Prize  Given by the Connecticut Chapter of the American Cancer Society and awarded to a graduating student for an outstanding thesis in the area of cancer. Kristin Elizabeth Ho

The Association for Academic Surgery–Novartis Research Award  Awarded to the senior medical student entering a surgical field, who has done outstanding research during medical school. Greg Nelson

The Peter F. Curran Prize  Established in 1976. To be presented to a graduating medical student for an outstanding thesis. Peter F. Curran was Professor of Physiology at Yale, 1967 to 1974. Margaret Emily Samuels-Kalow

Wilber G. Downs, M.D., M.P.H., Prize for the Outstanding Thesis in International Health  Established in 1988 for the best thesis in the area of international health. Carolyn Graeber Jahn

The Ferris Prize  Established in 1934 and endowed in 1937 by anonymous donors in honor of Harry Burr Ferris, A.A. 1887, M.D. 1890. Awarded to a graduating student for an outstanding thesis. Tamara Porter Miller

The William U. Gardner Thesis Prize  Established in 1989 by Dr. Gardner’s widow and awarded to the graduating student with the most outstanding thesis in the graduating class. Jason David Roh

The Nicholas J. Giarman Prize  Established in 1976. Nicholas Giarman was Professor of Pharmacology, 1949 to 1968. To be presented to a student for an outstanding thesis. Maulik Shah

The Keese Prize  Established in 1880 by bequest from Mary M. Keese in memory of her son, Hobart Keese, M.D. 1855. Awarded annually to a student who presents an outstanding thesis. Soledad Tarka Ayres

The Laboratory Medicine Award  Established in 1988 for the best thesis in the area of laboratory medicine. Sponsored by the Department of Laboratory Medicine. James Adam Troy

The Dr. Harold H. Lamport Biomedical Research Prize  Established in 1976. To be presented to a student for an outstanding thesis reporting original biomedical research. Ayrgo Pericles Caminis

The Lidz Prize in Psychiatry  Awarded to a graduating student for an outstanding thesis in the field of psychiatry. Amy Lynn Meadows

The M.D./Ph.D. Thesis Prize  Awarded to the graduating M.D./Ph.D. student with the most outstanding dissertation. Nandakumar Narayanan
The Dr. Marvin Moser Prize  Established in 2007 by Dr. Marvin Moser for a prize-winning thesis in preventative cardiology, lipid disorders, or hypertension. Elizabeth Rachel Wahl

The Dr. Louis H. Nahum Prize  Founded in 1973 by bequest from Louis H. Nahum, M.D. 1916. Awarded annually to a member of the senior class of the School of Medicine, who merits such award by virtue of the excellence of the thesis which the student has written as required for the medical degree. Lu Anne Velayo Dinglasan

The John P. Peters Prize  Established in 1976. To be presented to a student for an outstanding thesis in the area of internal medicine. John P. Peters was Professor of Medicine at Yale, 1927 to 1955. Andrew K. Simpson

The Louis G. Welt Prize  Established in 1976. To be presented to a student for an outstanding thesis. Louis Welt was Chairman and Professor of Medicine, 1972 to 1974. Ryan Karl Kaple

STUDENT RESEARCH DAY ORAL PRESENTATIONS, MAY 6, 2008

Lu Anne Dinglasan. The Role of Matrix Metalloproteinases in Axon Guidance and Neurite Outgrowth (Dr. Charles A. Greer, Neurosurgery)

Jason Roh. The Chemokine MCP-1 Is an Essential Mediator in Tissue Engineered Blood Vessel Development (Dr. Christopher K. Breuer, Surgery)

Andrew Simpson. The Utility of Plain Radiography in the Evaluation of Degenerative Spine Disease (Dr. Jonathan N. Grauer, Orthopaedics and Rehabilitation)

Ryan Kaple. The Axial Distribution of Lesion-Site Atherosclerotic Plaque Components: An In Vivo Volumetric Intravascular Ultrasound Radiofrequency Analysis (Dr. Raymond R. Russell, Internal Medicine)

Nandakumar Narayanan. While They Wait: Rodent Frontal Cortex and Delayed Response Performance (Dr. Mark Laubach, Neurobiology)

AWARDS TO FACULTY AND HOUSE STAFF, MAY 2008

The Francis Gilman Blake Award  Established in 1952 by Nu Sigma Nu. Endowed by Dr. Robert C. Kirk, B.S. 1930, as a memorial to his twin brother, Dr. Gilman D. Kirk, B.S. 1930. Awarded annually to that member of the faculty of the School of Medicine designated by the senior class as the most outstanding teacher of the medical sciences. Lynn D. Wilson, M.D., M.P.H., Professor of Therapeutic Radiology and Dermatology

Bohm Falk Prizes  Established in 1989 under the terms of the Alice Bohmfalk Charitable Trust. Prestigious teaching prizes will be awarded annually to individuals who have made outstanding contributions to the teaching program, one in the basic sciences and one in the clinical sciences, as judged by the faculty and students. Basic Science: Aldo J. Peixoto, M.D., Associate Professor of Medicine (Nephrology). Clinical Sciences: Leigh V. Evans, M.D., Assistant Professor of Surgery (Emergency Medicine)
The Alvan R. Feinstein Award  Presented to a Yale University School of Medicine faculty member chosen as the outstanding teacher of the year of clinical skills by chairs of the clinical departments, associate chairs, faculty, and students. Eve R. Colson, M.D., FAAP, Associate Professor of Pediatrics (General Pediatrics)

The Leah M. Lowenstein Award  Presented annually by the Office for Women in Medicine to members of the faculty who most clearly represent the highest degree of excellence in the promotion of humane and egalitarian medical education. Andres S. Martin, M.D., M.P.H., Professor in the Child Study Center and of Psychiatry, and Nina R. Horowitz, M.D., Assistant Clinical Professor of Surgery (Oncology)

The Leonard Tow Humanism in Medicine Award Presented by The Arnold P. Gold Foundation  Established in 1998 to honor the faculty member who demonstrates the highest standard of compassion and sensitivity in his or her interaction with patients. Thomas P. Duffy, M.D., Professor of Medicine (Hematology)

The Betsy Winters House Staff Award  Established in 1972 by the Fourth-Year Class and presented annually to that member of the House Staff of the Yale-New Haven Medical Center, designated by the graduating class, who has made the most significant contribution to the education of medical students. Vikram Reddy, M.D.
General Information

HUMAN RELATIONS CODE OF CONDUCT

Yale University School of Medicine is committed to the promotion of personal and professional development of all individuals in its community, and encourages dialogue that will foster the growth, well-being, and dignity of all its members. In pursuit of these goals, the School is dedicated to maintaining an environment which places the highest priority on collegial relationships, mutual respect, and sensitivity among its students, faculty, staff, and patients. An educational community functions best when there is civility and respect for the dignity and worth of each individual. It must be ensured that the School is free from discrimination and acts of intolerance such as those based on race, gender, sexual orientation, religion, national origin, ancestry, age, or physical handicap. This commitment remains consonant with the obligation to protect open and wide-ranging public discourse. The principle of freedom of expression that might otherwise protect even the most offensive public speech does not protect, nor does it even encompass, a right to threaten the dignity and privacy of an individual. Such personally directed behavior will not be tolerated; it is antithetical to academic values, debilitates its victims, compromises the offenders, and undermines the University’s fundamental commitment to individual freedom and respect for all its members. Furthermore, acts of intolerance may destroy the very atmosphere wherein freedom of expression is otherwise tolerated and cherished.

GRIEVANCE PROCEDURES

The expectation at Yale School of Medicine is that all members of the community will conduct themselves professionally and respectfully. The following statement has been issued by the Association of American Medical Colleges (AAMC) regarding institutional standards of behavior in the learning environment:

The medical learning environment is expected to facilitate students’ acquisition of the professional and collegial attitudes necessary for effective, caring, and compassionate health care. The development and nurturing of these attitudes is enhanced and, indeed, based on the presence of mutual respect between teacher and learner. Characteristic of this respect is the expectation that all participants in the educational program assume their responsibilities in a manner that enriches the quality of the learning process.

While these goals are primary to a school’s educational mission, it must be acknowledged that the social and behavioral diversity of students, faculty, residents, and staff, combined with the intensity of the interactions between them, will, from time to time, lead to alleged, perceived, or real incidents of inappropriate behavior or mistreatment of individuals.

At Yale, there are several mechanisms in place to deal with such incidents, as follows.
Sexual Harassment

Sexual harassment is not tolerated at Yale Medical School. During orientation in the first year and again early in the third year before starting clinical rotations, students have mandatory training sessions in sexual harassment and assault.

**THE SEXUAL HARASSMENT AND ASSAULT RESOURCES AND EDUCATION (SHARE) CENTER**

The SHARE Center is located at the Yale Health Services Center and has a director on staff to deal with problems around sexual assault. There is a sexual assault response line (432.6653) available twenty-four hours a day, seven days a week in the event of a crisis or the need for information on how to proceed in the event of an assault. Students who are the victims of sexual harassment or assault may feel stunned, afraid, disoriented or stigmatized and will need help and advice about making decisions. That help is available at all times. Web site: www.yale.edu/yuhs (under Information, link to SHARE Center). The Web site provides additional, detailed information about sexual assault, how to get help, possible steps to take, availability of medical, legal and psychological care, additional resources, as well as basic information and facts, definitions, and beliefs about sexual assault.

**DEAN’S BOARD ON SEXUAL HARASSMENT**

The “grievance procedures for complaints of sexual harassment brought by Faculty, Students, and Postdoctoral Fellows at Yale University School of Medicine” define sexual harassment, include a formal policy statement condemning it, provide for the appointment of a Dean’s Board on Sexual Harassment, urge mediation and conciliation, stress confidentiality, describe informal and formal methods of dealing with complaints, list possible sanctions, consider protection from retaliation, and note alternative channels for redress. Copies of these procedures and the names of the members (including student representation) of the Dean’s Board on Sexual Harassment are listed on the Web site: www.info.med.yale.edu/owm (click on Sexual Harassment Policy). Medical students may consult any of the members of the board informally, or may opt to bring a formal complaint.

**SEXUAL ASSAULT**

Sexual assault is defined as any undesired physical contact of a sexual nature perpetrated against another person. While associated with rape, sexual assault is much broader. According to the U.S. Department of Health and Human Services, sexual assault is any type of sexual activity that you do not agree to, including:

- Inappropriate touching
- Vaginal, anal, or oral penetration
- Rape/sexual intercourse that you say “no” to
- Rape
- Attempted rape
- Child molestation

Sexual assault and rape can be perpetrated by a date, a friend, an acquaintance, a family member, someone in authority, or a stranger. Sexual assault happens to both men and women regardless of race, class, religion, sexual orientation, age, and ability. Perpetra-
tors of sexual assault can also be a man or woman from any race, class, religion, sexual orientation, age, and ability.

The above information is taken from materials put together by SHARE, Sexual Harassment and Assault Resources and Education. SHARE, which runs out of the Yale Health Plan, can be contacted twenty-four hours a day. Weekdays between the hours of 8:30 a.m. and 5 p.m., calls to 203.432.6653 will be answered by mental health professionals. After hours, between 5 p.m. and 8:30 a.m. and on weekends, calls to that number will be connected to the sexual assault crisis line. If you have been sexually assaulted, you should call that number as soon as possible and follow instructions about what to do next. The Web site is www.yale.edu/yuhs (under Information, link to SHARE Center).

Racial and Ethnic Harassment

The Committee on Multicultural Affairs chaired by the assistant dean for multicultural affairs was created to combat racial and ethnic insensitivity and harassment throughout the School of Medicine. Vigorous steps are taken to investigate any allegation, to counsel the offender, and to recommend disciplinary action, if necessary. In addition, any student, employee, or applicant for programs or employment at Yale who is concerned about affirmative action, equal opportunity, sexual harassment, racial harassment, or fairness in admissions or employment at Yale, either in a general sense or with respect to his or her own situation, is encouraged to contact the Office for Equal Opportunity Programs. The Web site is www.yale.edu/equalopportunity. A student who believes that he or she has been harasssed on the basis of race, religion, or ethnic origin by any member of the Yale community can file a complaint with one of the University’s human relations counselors, who will investigate the complaint. If a resolution has not been achieved and the student wishes to pursue the complaint further, he or she may request the President’s Committee on Racial and Ethnic Harassment to consider the matter.

Student Mistreatment, Abuse, and Harassment Peer Advocates

In addition to the above mechanisms for addressing harassment, there is a peer-advocate program. Two Peer Advocates are named by students in the second year, third year, fourth year, and fifth year; one Peer Advocate is named from the M.D./Ph.D. program, and one from the Physician Associate program. Peer Advocates’ names and beeper numbers are distributed to the student body on laminated cards that can be carried in the student’s ID sheath and be consulted at all times. Students are encouraged to consult any of the Peer Advocates regarding issues of mistreatment, abuse, and harassment or to reality-check about incidents that they find disturbing or concerning. The Peer Advocates, who can be accessed anonymously if desired, are trained each year in a session with the director of mental health services for the Yale Health Plan. Those problems that need a higher level of attention are brought to the advisory committee, which is made up of all the Peer Advocates as well as the director of mental health services, the assistant dean for multicultural affairs, the ombudsperson, the associate dean for graduate medical education, several respected faculty, and the associate dean for student affairs. Confidentiality is assured to the extent covered by law. Peer Advocates are available for thinking through options and helping the student decide on different levels of attention to a problem. Action can range from merely noting the problem to taking it to the department chair and
the dean of the medical school. It is important to note that Peer Advocates are not mental health counselors, but they are trained in how to get help to a student who needs mental health services. Any members of the advisory committee may be contacted directly by a student.

Power Day
Issues of abuse of power as experienced by students at all levels are made the topic of discussion at Power Day I, before the students in the third year start their clinical rotations, and again at Power Day II near the end of the third year. These discussions are held throughout the clinical year in the departments of Internal Medicine, Pediatrics, Obstetrics and Gynecology, and Surgery.

Provost’s Procedure for Students’ Complaints
This procedure governs any case in which a student has a complaint including but not limited to a complaint of sexual harassment or a complaint of discrimination on the basis of race, sex, color, religion, national or ethnic origin, or handicap against a faculty member who is not a member of the faculty of the complainant’s school, or against an employee who is not an administrator of the student’s school or who is not subject to discipline by the student’s dean. This procedure is to be used for all complaints of discrimination on the basis of handicap where structural modifications of University facilities is the remedy sought.

Progress Committee
The Progress Committee is made up of approximately twelve highly respected faculty members from different departments. The registrar and deputy dean for education are ex-officio members, and the committee is chaired by the associate dean for student affairs. These faculty members are thoughtful and fair individuals who have a deep interest in the well-being of students. The committee has monthly scheduled meetings to review the progress of students, to decide whether each student should progress into the next year, and to consider special situations and disciplinary actions, but special and emergency meetings throughout the year may be called as well. Each student’s record is reviewed for academic standing, moral and ethical character, professional behavior, good judgment, a sense of responsibility, sensitivity and compassion for individual needs, the ability to synthesize and apply knowledge, and emotional stability, demonstrating that the student is capable of becoming a safe and effective physician. The committee may take into account the academic record of the student, performance on board exams, letters and reports regarding incidents of unprofessional behavior, and personal testimony.

If, in the opinion of the Progress Committee, a student should repeat a course or a year, take a year’s leave of absence for special study, be suspended or be dismissed, the student will be notified in writing of the decision. A student who is put on academic probation or suspension will be advised in writing what must be done to get off academic probation or suspension or the consequences of not progressing satisfactorily over a specified timeline. A student may also be suspended for behavior deemed unprofessional or unethical. The student will be notified in writing of the reason for the suspension, what must be accomplished during the suspension, and when and on what conditions
the suspension will terminate. A student having academic or professional problems being considered by the Progress Committee, may be asked to choose or be assigned a neutral faculty advocate who has no responsibility for evaluating or promoting that student. The role of this person is to be available to the student for advice and to keep the student on track. Language regarding disciplinary action taken regarding a student may appear in the student’s dean’s letter. If a student protests the decision of the Progress Committee, he or she may petition a hearing of the committee and may appear alone, with a member or members of the faculty, or with legal counsel. Legal counsel at these meetings is for the purpose of support only. Final decisions of the Progress Committee may be appealed directly to the dean of the School of Medicine.

When a question arises which cannot wait for the next full meeting of the Progress Committee, an emergency meeting may be called, a subcommittee may be convened, or members of the Progress Committee may be polled for their opinions by phone or e-mail.

Students requesting to take more than five years to complete medical school (more than six years for a joint-degree student in business or public health, more than seven years for a joint-degree student in law), must petition the Progress Committee in writing.

RESIDENCE AND DINING FACILITIES

Edward S. Harkness Memorial Hall

Harkness Hall, located only steps away from the School of Medicine and Yale-New Haven Hospital, houses students from the School of Medicine, the School of Nursing, the School of Public Health, and the Physician Associate program. Residents of Harkness Hall live in a secure building with recently renovated single rooms, and they have access to many amenities including computer network access in all units. Yale administrative offices occupy the first through third floors of the building. The great advantages of living in Harkness Hall are its close proximity to classes, and the opportunity it provides in bringing together students from the various medical-related fields in a relaxed social setting.

Accommodations include single rooms with sinks, a limited number of two-room suites, a popular dining hall, television lounges, kitchenettes, and other recreational rooms. All dormitory rooms are furnished, and all rooms must be single occupancy. Dormitory room rental rates are $4,800 to $6,680 during the 2008–2009 academic year (August 22, 2008 to May 31, 2009). All rents include Ethernet hook-up, cable television, and all utilities except telephone. A Marigolds meal plan is mandatory for all residents of Harkness Hall.

The first floor houses a dining and lounge area, known as Marigolds, which is open to the Yale community and provides both intimate and large gathering spaces for socializing, reading, watching television, and other activities. A Steinway baby-grand piano is also available for residents. The building contains limited resident storage including a bike storage area, an exercise/weight room, a billiard room, and a laundry room. The Class of 1958 Fitness Center, which opened during the 1999–2000 school year, contains a wide assortment of cardiovascular and weight training equipment. All residents of Harkness dorm as well as medical, public health, physician associate, and nursing students
are welcome to use this Center, where student ID card scanners provide access. There is no fee for Harkness residents. All medical center program students can use the gym on a fee basis. All users are required to register for gym membership.

For information about Edward S. Harkness Memorial Hall, contact the Graduate Housing Office at 203.432.2167; or the Web site, www.yale.edu/gradhousing/Dorms/harkness.html. For information about other Yale graduate residences, consult the Graduate Housing Office’s Web site at www.yale.edu/gradhousing.

**Dining Services**

Marigolds, located at the School of Medicine, is the popular student dining area and gathering place in Edward S. Harkness Hall. Marigolds, which is open from 7:30 a.m. until 7 p.m., Monday through Friday, offers continental breakfast, lunch, and dinner. A late-night coffee bar is slated to open in the fall. Dining hours are shortened during summer and vacation periods. Faculty members, students, and staff are welcome to dine at the dining hall on an à la carte basis.

Students living in Harkness dormitory are required to participate in a meal plan. The rate for the 2008–2009 academic year is $2,694 per year for dormitory residents. The meal plan is a debit-balance system allowing students to spend their board points anytime that the dining room is open. Students on this plan can transfer a meal into any Yale University Dining Services location, seven days a week. Pricing is à la carte.

All first- and second-year medical students living off campus will be assessed a mandatory off-campus board fee of $538 per year. This dining charge was initiated to encourage all medical students to socialize in the Harkness Student Center, regardless of whether they live in the dormitory.

**Health Services for Students**

Yale University Health Services (YUHS) is located on campus at 17 Hillhouse Avenue. YUHS offers a wide variety of health care services for students and other members of the Yale community. Services include student medicine, gynecology, mental health, pediatrics, pharmacy, laboratory, radiology, a twenty-three-bed inpatient care facility (ICF), a round-the-clock urgent care clinic, and such specialty services as allergy, dermatology, orthopedics, and a travel clinic. YUHS also includes the Yale Health Plan (YHP), a health coverage option that coordinates and provides payment for the services outlined above, as well as for emergency treatment, off-site specialty services, inpatient hospital care, and other ancillary services. YUHS’s services are detailed in the YHP Student Handbook, available through the YHP Member Services Department, 203.432.0246, or on the YHP Web site at www.yale.edu/yhp.

**Eligibility for Services**

All full-time Yale degree-candidate students who are paying at least half tuition are enrolled automatically for YHP Basic Coverage. YHP Basic Coverage is offered at no charge and includes preventive health and medical services in the departments of Student Medicine, Internal Medicine, Gynecology, Health Education, and Mental Health & Counseling. In addition, treatment for urgent medical problems can be obtained twenty-four hours a day through Urgent Care.
Students on leave of absence or on extended study and paying less than half tuition are not eligible for YHP Basic Coverage but may enroll in YHP Student Affiliate Coverage. Students enrolled in the Division of Special Registration as nondegree special students or visiting scholars are not eligible for YHP Basic Coverage but may enroll in the YHP Billed Associates Plan and pay a monthly premium. Associates must register for a minimum of one term within the first thirty days of affiliation with the University.

Students not eligible for YHP Basic Coverage may also use the services on a fee-for-service basis. Students who wish to be seen fee-for-service must register with the YHP Member Services Department. Enrollment applications for the YHP Student Affiliate Coverage, Billed Associates Plan, or Fee-for-Service Program are available from the YHP Member Services Department.

All students are welcome to use specialty and ancillary services at YUHS. Upon referral, YHP will cover the cost of these services if the student is a member of YHP Hospitalization/Specialty Coverage (see below). If the student has an alternate insurance plan, YHP will assist in submitting the claims for specialty and ancillary services to the other plan and will bill through the Office of Student Financial Services for noncovered charges and services.

**Health Coverage Enrollment**

The University also requires all students eligible for YHP Basic Coverage to have adequate hospital insurance coverage. Students may choose YHP Hospitalization/Specialty Coverage or elect to waive the plan if they have other hospitalization coverage, such as coverage through a spouse or parent. The waiver must be renewed annually, and it is the student’s responsibility to confirm receipt of the waiver form by the University’s deadlines noted below.

**YHP Hospitalization/Specialty Coverage**

For a detailed explanation of this plan, see the YHP Student Handbook, which is available online at www.yale.edu/yhp/pdf/studenthb.pdf.

Students are automatically enrolled and charged a fee each term on their Student Financial Services bill for YHP Hospitalization/Specialty Coverage. Students with no break in coverage who are enrolled during both the fall and spring terms are billed each term and are covered from September 1 through August 31. For students entering Yale for the first time, readmitted students, and students returning from a leave of absence who have not been covered during their leave, YHP Hospitalization/Specialty Coverage begins on the day the dormitories officially open. A student who is enrolled for the fall term only is covered for services through January 31; a student enrolled for the spring term only is covered for services through August 31.

**Waiving the YHP Hospitalization/Specialty Coverage** Students are permitted to waive YHP Hospitalization/Specialty Coverage by completing a waiver form that demonstrates proof of alternate coverage. Waiver forms are available from the YHP Member Services Department. It is the student’s responsibility to report any changes in alternate insurance coverage to the YHP Member Services Department. Students are encouraged to review their present coverage and compare its benefits to those available under the YHP. The waiver form must be filed annually and must be received by September 15 for the full year or fall term or by January 31 for the spring term only.
Revoking the waiver  Students who waive YHP Hospitalization/Specialty Coverage but later wish to be covered must complete and send a form voiding their waiver to the YHP Member Services Department by September 15 for the full year or fall term, or by January 31 for the spring term only. Students who wish to revoke their waiver during the term may do so, provided they show proof of loss of the alternate insurance plan and enroll within thirty days of the loss of this coverage. YHP premiums will not be prorated.

YHP Student Two-Person and Family Plans

A student may enroll his or her lawfully married spouse or same-gender domestic partner and/or legally dependent child(ren) under the age of nineteen in one of two student dependent plans: the Two-Person Plan or the Student Family Plan. These plans include services described in both the YHP Basic Coverage and the YHP Hospitalization/Specialty Coverage. YHP Prescription Plus Coverage may be added at an additional cost. Coverage is not automatic and enrollment is by application. Applications are available from the YHP Member Services Department or can be downloaded from the YUHS Web site (www.yale.edu/yhp) and must be renewed annually. Applications must be received by September 15 for full-year or fall-term coverage, or by January 31 for spring-term coverage only.

YHP Student Affiliate Coverage

Students on leave of absence or extended study, students paying less than half tuition, or students enrolled in the Eli Whitney Program prior to September 2007 may enroll in YHP Student Affiliate Coverage, which includes services described in both the YHP Basic and the YHP Hospitalization/Specialty Coverage. Prescription Plus Coverage may also be added for an additional cost. Applications are available from the YHP Member Services Department or can be downloaded from the YUHS Web site (www.yale.edu/yhp) and must be received by September 15 for full-year or fall-term coverage, or by January 31 for spring-term coverage only.

YHP Prescription Plus Coverage

This plan has been designed for Yale students who purchase YHP Hospitalization/Specialty Coverage and student dependents who are enrolled in either the Two-Person Plan, the Student Family Plan, or Student Affiliate Coverage. YHP Prescription Plus Coverage provides protection for some types of medical expenses not covered under YHP Hospitalization/Specialty Coverage. Students are billed for this plan and may waive this coverage. The waiver form must be filed annually and must be received by September 15 for the full year or fall term or by January 31 for the spring term only. For a detailed explanation, please refer to the YHP Student Handbook.

Eligibility Changes

Withdrawal  A student who withdraws from the University during the first ten days of the term will be refunded the premium paid for YHP Hospitalization/Specialty Coverage and/or YHP Prescription Plus Coverage. The student will not be eligible for any YHP benefits, and the student’s YHP membership will be terminated retroactive to the beginning of the term. The medical record will be reviewed, and any services rendered and/or claims paid will be billed to the student on a fee-for-service basis. At all other times,
a student who withdraws from the University will be covered by YHP for thirty days following the date of withdrawal or to the last day of the term, whichever comes first. Premiums will not be prorated or refunded. Students who withdraw are not eligible to enroll in YHP Student Affiliate Coverage.

**Leaves of absence** Students who are granted a leave of absence are eligible to purchase YHP Student Affiliate Coverage during the term(s) of the leave. If the leave occurs during the term, YHP Hospitalization/Specialty Coverage will end on the date the leave is granted and students may enroll in YHP Student Affiliate Coverage. Students must enroll in Affiliate Coverage prior to the beginning of the term during which the leave is taken or within thirty days of the start of the leave. Premiums paid for YHP Hospitalization/Specialty Coverage will be applied toward the cost of Affiliate Coverage. Coverage is not automatic and enrollment forms are available at the YHP Member Services Department or can be downloaded from the YUHS Web site (www.yale.edu/yhp). Premiums will not be prorated or refunded.

**Extended study or reduced tuition** Students who are granted extended study status or pay less than half tuition are not eligible for YHP Hospitalization/Specialty Coverage and YHP Prescription Plus Coverage. They may purchase YHP Student Affiliate Coverage during the term(s) of extended study. This plan includes services described in both the YHP Basic and the YHP Hospitalization/Specialty Coverage. Coverage is not automatic and enrollment forms are available at the YHP Member Services Department or can be downloaded from the YUHS Web site (www.yale.edu/yhp). Students must complete an enrollment application for the plan prior to September 15 for the full year or fall term, or by January 31 for the spring term only.

For a full description of the services and benefits provided by YHP, please refer to the **YHP Student Handbook**, available from the YHP Member Services Department, 203.432.0246, 17 Hillhouse Avenue, PO Box 208237, New Haven CT 06520-8237.

**Required Immunizations**

**Measles (rubeola) and German measles (rubella)** All students who were born after December 31, 1956, are required to provide proof of immunization against measles (rubeola) and German measles (rubella). Connecticut state law requires two doses of measles vaccine. The first dose must have been given after January 1, 1969, *and* after the student’s first birthday. The second dose must have been given after January 1, 1980. These doses must be at least 30 days apart. Connecticut state law requires proof of one dose of rubella vaccine administered after January 1, 1969, *and* after the student’s first birthday. The law applies to all students unless they present (a) a certificate from a physician stating that such immunization is contraindicated, (b) a statement that such immunization would be contrary to the student’s religious beliefs, or (c) documentation of a positive blood titer for measles and rubella.

**Meningococcus (meningitis)** All students living in on-campus housing must be vaccinated against meningococcal disease. The vaccine must have been received after January 1, 2001. Students who are not compliant with this law will not be permitted to register for classes or move into the dormitories for the fall term, 2008. Please note that the State of Connecticut does not require this vaccine for students who intend to reside off campus.
In addition to University requirements, all School of Medicine students must also meet immunization requirements of the various hospitals in which they will work. Yale-New Haven Hospital requires that, before beginning any clinical work, all students with negative serology be successfully vaccinated against hepatitis B and must ascertain that students are immune to polio, mumps, rubella, rubella, and varicella. Those refusing the hepatitis B vaccine must do so in writing at the time of matriculation. Students must show evidence that they have received a tetanus toxoid or tetanus-diphtheria booster within the past ten years. They must also show evidence of a PPD within the past year, or a chest X-ray for individuals known to be PPD positive.

Note: Students who have not met these requirements prior to arrival at Yale University must receive the immunizations from YHP and will be charged accordingly.

Any students who will be traveling abroad should make an appointment in the Travel Clinic at YUHS at least six to eight weeks prior to departure. In addition, those who are working in areas where they might encounter blood or fluid exposure must contact the Student Medicine Department (203.432.0312) at YHP. Such students will be given a seven-day supply of antiretroviral medication at no charge. They will also receive instructions about how to handle possible exposure.

DISABILITY INSURANCE

Yale University School of Medicine provides a long-term disability program for each active medical student starting in the first year. (A student may not be on a leave of absence, suspended, or In Absentia to Submit.) Coverage applies regardless of any prior medical condition. During medical school, premiums are paid in full by the School. The policy provides options for expanding coverage after leaving the School of Medicine, but premiums then become the responsibility of the insured. Sign-up takes place during orientation in the first week of the first year. Representatives from the insurance company are present to explain and answer questions about the policy. They also make themselves available for an exit interview before graduation to discuss continuation of coverage after leaving medical school.

MEDICAL CENTER SECURITY

Yale University has its own police force, and at least one officer patrols the Medical Center twenty-four hours a day. At strategic times, two officers patrol a wider area. The officers are in police uniform, are armed, and have full police powers similar to New Haven police officers. The Yale University Security Programs Department is located at 100 Church Street South. The Central Alarm Station at that location monitors all alarms and cameras in the School of Medicine area. Security personnel have radio and telephone communications with all area police and fire departments. Security officers in the Yale department provide a variety of services including checking IDs; parking enforcement; building patrol; monitoring closed circuit television (CCTV) and alarm systems; providing escorts; providing “lock-out” service for individuals locked out of their room, lab, or office; and offering general assistance to Medical Center personnel and the general public.

The Security Department provides walking and vehicle escorts twenty-four hours a day, seven days a week for the School of Medicine area and central campus. Uniformed
security officers radio the Security Central Alarm Station at the beginning and end of each escort and communicate any problems/unusual situations that may occur.

There are over one hundred security officers employed by the University Security Department. Their role is to provide high visibility, and to observe and report potential problems to the security dispatcher and Yale University Police.

University security officers carry two-way radios for communication. Security personnel respond to a variety of situations on campus and notify the proper police agency when necessary. The officers currently wear a white uniform shirt with a Yale security patch on each shoulder, dark blue trousers, and a dark blue tie. Each security officer wears a numbered shield over his or her left breast pocket. The University Security Department can be reached twenty-four hours a day at 785.5555.

Yale-New Haven Hospital also has a security force. They check IDs at hospital entry points, patrol the interior and exterior of hospital property, and provide contractual security services at the Air Rights Garage and the Yale School of Nursing.

There are emergency telephones in the Medical Center. Yale emergency telephones are designated by a blue light above the telephone and are for use by anyone to get quick police assistance. All outside doors are locked or attended at all times.

**THE YALE JOURNAL OF BIOLOGY AND MEDICINE**

The *Yale Journal of Biology and Medicine* publishes original contributions in all fields of medicine, the fields of biology that are related to medicine, and the history and teaching of these subjects. Four issues a year are published electronically under the editorial direction of a board of students and faculty members. The *Yale Journal of Biology and Medicine* is the oldest scientific journal in the country that has medical and graduate students on its editorial board. Student editors are chosen each year from the students of the School of Medicine and the Combined Program in the Biological and Biomedical Sciences. It affords students the opportunity to review and edit scientific articles for publication. Manuscripts on a wide variety of topics in basic and clinical sciences are received from authors around the world.

**SPECIAL SUPPORT SERVICES**

*Office for Women in Medicine*

The Office for Women in Medicine (OWM) serves as a focal point for a variety of concerns, both general and specific, within the School and the University. The OWM provides women students, house staff, and faculty access to advisers and mentors and facilitates access by students to professional women in an informal setting. Throughout the year, the office sponsors workshops and seminars on professional development and career opportunities for women in medicine and the sciences that address the broader concerns of women and men in the medical community. These programs are designed to provide an area for interchange, to increase the visibility of women in medicine, to introduce women at Yale School of Medicine to a spectrum of role models, to provide access to notable speakers, and to serve as a forum for relevant issues. The very existence of OWM demonstrates Yale’s strong commitment to women and to the creation of a milieu where women at all levels (from beginning students to senior staff and faculty) can develop to full potential. For additional information please visit www.med.yale.edu/owm.
Office of the Ombudsperson

The Office of the Ombudsperson is an independent, confidential, neutral and informal resource to which persons can bring issues with which they are concerned. The ombudsperson serves as a neutral complaint-handler who attempts to insure that people are treated fairly and equitably. Any matter in the Yale School of Medicine community may be discussed with the ombudsperson. Discussions are not limited in scope and all are held in strict confidence. The ombudsperson has broad powers of inquiry to resolve conflicts and solve problems through mediation, informal third-party intervention, and shuttle diplomacy. The Office of the Ombudsperson supplements, but does not replace, the existing resources for conflict resolution and fair practice available at the Yale School of Medicine. The ombudsperson follows no prescribed sequence of steps and does not participate in any formal grievance process; the function is to listen, advise, suggest options, make recommendations, and investigate informally with the goal of conflict resolution; to consider all sides of an issue; to remain neutral and impartial; and to protect confidentiality. The only exception to this privilege of confidentiality is where there appears to be imminent risk of serious harm. Discussions with the ombudsperson do not constitute formal notice to the School or University. The contact person is Merle Waxman and the office is located at Sterling Hall of Medicine (SHM L-202), 333 Cedar Street, New Haven, CT 06520; Confidential line 203.737.4100.

Office of Multicultural Affairs

The Office of Multicultural Affairs (OMCA) organizes and administers programs and initiatives designed to serve and advance the professional, social, and academic goals of students and faculty underrepresented in medicine. The office is actively involved in the recruitment and retention of students, house staff, fellows, and faculty. Through a number of educational programs, the OMCA works to increase sensitivity to and awareness of issues important to equitable health care in our multicultural society. The OMCA provides outreach support to assist the New Haven school system in educating high school students for future careers in science and health care. The OMCA also administers yearly summer academic enrichment and research programs for college students. The OMCA works in conjunction with such medical student groups as the Student National Medical Association (SNMA), Boricua/Latino Health Organization (BLHO), Asian Pacific American Health Students Association (APAHSA), Native Americans@ Yale Med, and Lambda Health Alliance. Assistant Dean Forrester A. Lee, M.D., heads the office. The contact person is the assistant director, Linda V. Jackson, 367 Cedar Street, Suite 320, New Haven CT 06511; telephone, 203.785.7545; fax, 203.737.5507; e-mail, omca@yale.edu; Web site, http://info.med.yale.edu/omca.

Computing at the School of Medicine

Students who need help with computing resources may contact the ITS Help Desk Monday–Friday from 7 a.m. to 9 p.m. (785.3200, helpdesk@yale.edu) or visit the Computing and Media Center Monday–Friday from 9 a.m. to 5 p.m. (in IE 90 SHM).

The Medical Library offers seventy-one public computers for use in the Information Room and the Computer Resources Laboratory (CRL) (http://info.med.yale.edu/library/technology/computers.html). Both facilities contain Windows and Macintosh
computers. All computers have access to the Internet and many have access to productivity software such as Microsoft Office and EndNote and other tools including desktop publishing software, statistical software (SAS, SPSS and EPI Info), database management software, programming languages, common browser plug-ins and medical education software. All run Symantec Antivirus.

All computers are equipped with CD burners and DVD-ROMs. Select computers have DVD burners. All computers have USB ports for personal USB portable storage devices.

The Medical Library offers two scanning stations at the CRL Digital Imaging Center. One scanner is attached to a Windows computer and the other is attached to a Macintosh.

Access to these “productivity” workstations requires a Medical Center NetID. The CRL is open for use twenty-four hours a day (with a Yale ID after library hours); the reference area computers are available during library hours.

The Yale Wireless network is available throughout the Medical Library to registered wireless devices. Library patrons may bring their own laptops to the library and may connect to the the Yale network via wired Ethernet laptop stations or via the Yale Wireless network. Full details are available at www.med.yale.edu/library/technology/laptopsinlibrary.html.

The Circulation Desk lends a variety of electronic devices, such as external USB Zip drives, wireless network pc cards, two digital cameras, and a digital video camera. This equipment may be lent to anyone with a valid Yale ID. The Medical Library offers a laptop computer loaner program for Medical Center students.

Computer facilities at the Anlyan Center include five teaching laboratories, each equipped with eight iMac computers for students and one for instructors. This facility allows small-group teaching and interactive use of online resources such as the virtual microscope. The gross anatomy laboratory in the Anlyan Center is also equipped with forty computers to provide online anatomy reference resources to complement traditional dissection.

All students can use their own personal computers at a variety of public, library, or teaching space locations that are equipped with wireless network access. Wireless coverage maps are available at www.yale.edu/its/network/wireless/wirelessmap/medical-campus.html. Students in Harkness Dormitory can use their personal computers in the dorm, which is fully networked.

Yale has negotiated agreements with computer vendors enabling students to buy computers (IBM, Dell, or Apple), supplies, and software at discounted prices. The University provides online ordering through its e-portal, www.yale.edu/eportal. Students who are interested in buying a personal computer, or who simply want advice and information on personal computers or software packages and how to order them, can consult the staff of the Computing and Media Center in IE90 Sterling Hall of Medicine. Hours are Monday through Friday from 9 a.m. until 5 p.m.

For more information on student computing resources, see www.yale.edu/its/students/med_students.html.
ID Policy

A picture ID is issued when a student registers for the first year. Twice a year a student is asked to reregister in the Office of Student Affairs where he or she receives an updated sticker for the ID card for the fall and spring/summer terms. Should the ID be lost, a replacement fee is required and another picture may be taken at the Office of Security and Parking, in SHM CE1B, and another ID processed. This ID should be worn visibly at all times while in the Medical Center.

Card Key Access Policy

Each student receives a picture ID card which opens all perimeter doors to the School of Medicine, as well as some interior connector doors, when he or she registers for the first year. Students in their third year and beyond completing clinical rotations are given ID card access to the Yale-New Haven Hospital card readers. Malfunctioning or accidentally damaged cards are replaced at no charge. Lost, stolen, or deliberately damaged cards are replaced at a fee of $20 for cards with gate and building access capability and $5 for other cards.

Parking

Bicycle parking is available in secured bicycle cages, and keys are available from Yale-New Haven Hospital security. Limited automobile permit parking is available to all Yale faculty, staff, and students in two garages. Off-peak parking (nights and weekends) is also available in designated lots to Yale personnel by application to the Office of Security and Parking.

Shuttle Bus Service

For personnel with a Yale ID, free shuttle bus service is provided on weekdays around the University on a fixed route, to the railroad station, and to various parking lots. In addition, a free shuttle service runs between the VA Connecticut Healthcare System, West Haven, and the School of Medicine on weekdays. There is also a free minibus/night shuttle within designated areas of New Haven seven nights a week from 6 p.m. until 7 a.m.

UNIVERSITY RESOURCES

Two sources of information about the broad range of events at the University are the Yale Bulletin & Calendar (YB&C), a newspaper printed weekly during the academic year, and the Yale Calendar of Events, an interactive calendar that can be found online at http://events.yale.edu/opa. The YB&C, which also features news about Yale people and programs, is available without charge at many locations throughout the campus and is sent via U.S. mail to subscribers; for more information, call 203.432.1316. The paper is also available online at www.yale.edu/opa/yb&c.

The Yale Peabody Museum of Natural History contains collections in anthropology, mineralogy, oceanography, paleontology, and some aspects of geology.
The Yale University Art Gallery is known worldwide for its collections of American art, the Jarves Collection of early Italian paintings, the finds excavated at the ancient Roman city of Dura-Europos, the Société Anonyme Collection of early-twentieth-century European and American art, and most recently the Charles B. Benenson Collection of African art. The gallery is both a collecting and an educational institution, and all activities are aimed at providing an invaluable resource and experience for the Yale and New Haven communities. Admission is free, and the gallery is open to the public six days a week.

The Yale Center for British Art houses an extraordinary collection of British paintings, sculpture, drawings, and books given to the University by the late Paul Mellon, Yale Class of 1929.

There are more than eighty endowed lecture series held at Yale each year on subjects ranging from anatomy to theology, and including virtually all disciplines.

More than four hundred musical events take place at the University during the academic year. These include concerts presented by students and faculty of the School of Music, the Department of Music, the Yale Concert and Jazz bands, the Yale Glee Club, the Yale Symphony Orchestra, and other undergraduate singing and instrumental groups. In addition to graduate recitals and ensemble performances, the School of Music features the Philharmonia Orchestra of Yale, the Chamber Music Society at Yale, the Duke Ellington Series, the Horowitz Piano Series, New Music New Haven, Yale Opera performances and public master classes, and the Faculty Artist Series. The Institute of Sacred Music sponsors Great Organ Music at Yale, the Yale Camerata, the Yale Schola Cantorum, and numerous special events.

For theatergoers, Yale and New Haven offer a wide range of dramatic productions at the University Theatre, Yale Repertory Theatre, Yale Cabaret, Long Wharf Theatre, Palace Theater, and Shubert Performing Arts Center.

The religious and spiritual resources of Yale University serve all students, faculty, and staff. These resources are coordinated and/or supported through the University Chaplaincy (located on the lower level of Bingham Hall on Old Campus); the Yale University Church at Battell Chapel, an open and affirming church; and Yale Religious Ministry, the on-campus association of clergy and nonordained representatives of various religious faiths. The ministry includes the Chapel of St. Thomas More, the parish church for all Roman Catholic students at the University; the Joseph Slifka Center for Jewish Life at Yale, a religious and cultural center for students of the Jewish faith; Indigo Blue: A Center for Buddhist Life at Yale; several Protestant denominational ministries and nondenominational ministries; and student religious groups such as the Baha’i Association, the Yale Hindu Council, and the Muslim Student Association. Hours for the Chaplain’s Office during the academic term are Monday through Friday, 8:30 a.m. to 5 p.m., as well as evenings Sunday through Thursday, 5 to 11. Additional information is available at www.yale.edu/chaplain.

The Payne Whitney Gymnasium is one of the most elaborate and extensive indoor athletic facilities in the world. This complex includes the 3,100-seat John J. Lee Amphitheater, the site for many indoor varsity sports contests; the Robert J. H. Kiphuth Exhibition Pool; the Brady Squash Center, a world-class facility with fifteen international-style
courts; the Adrian C. Israel Fitness Center, a state-of-the-art exercise and weight-training complex; the Brooks-Dwyer Varsity Strength and Conditioning Center; the Colonel William K. Lanman, Jr. Center, a 30,000-square-foot space for recreational/intramural play and varsity team practice; the Greenberg Brothers Track, an eighth-mile indoor jogging track; and other rooms devoted to fencing, gymnastics, rowing, wrestling, martial arts, general exercise, and dance. Numerous physical education classes in dance (ballet, jazz, modern, and ballroom), martial arts, yoga and pilates, aerobic exercise, and sport skills are offered throughout the year. Yale undergraduates and graduate and professional school students may use the gym at no charge throughout the year. Academic term and summer memberships at reasonable fees are available for faculty, employees, postdoctoral and visiting fellows, alumni, and student spouses.

During the year various recreational opportunities are available at the David S. Ingalls Rink, the McNay Family Sailing Center in Branford, the Yale Outdoor Education Center in East Lyme, the Yale Tennis Complex, the Yale Polo and Equestrian Center, and the Golf Course at Yale. Students, faculty, employees, students’ spouses, and guests of the University may participate at each of these venues for a modest fee. Up-to-date information on hours and specific costs at all these recreational facilities can be obtained from the Sport and Recreation Office (203.432.1431). Please check the Yale Athletics Web site (http://yalebulldogs.collegesports.com) for more information concerning any of these recreational facilities and programs.

Approximately fifty-five club sports and outdoor activities come under the jurisdiction of the Office of Outdoor Education and Club Sports. Many of these activities are open to graduate and professional school students. Yale faculty, staff, and alumni, and nonaffiliated groups may use the Yale Outdoor Education Center (OEC). The center consists of two thousand acres in East Lyme, Connecticut, and includes overnight cabins and campsites, a pavilion and dining hall, and a waterfront area with a supervised swimming area, rowboats, canoes, and kayaks. Adjacent to the lake, a shaded picnic grove and gazebo are available to visitors. In another area of the property, hiking trails surround a wildlife marsh. The OEC season extends from the third weekend in June through Labor Day and September weekends. For more information, telephone 203.432.2492 or visit the Web page at http://yalebulldogs.collegesports.com (click on Sports Rec, then on Outdoor Education).

Throughout the year, Yale University graduate and professional school students have the opportunity to participate in numerous intramural sports activities. These seasonal, team-oriented activities include volleyball, soccer, and softball in the fall; basketball and volleyball in the winter; softball, soccer, and volleyball in the spring; and softball in the summer. With few exceptions, all academic-year graduate-professional student sports activities are scheduled on weekends, and most sports activities are open to competitive, recreational, and coeducational teams. More information is available from the Intramurals Office in Payne Whitney Gymnasium, 203.432.2487, or online at http://yalebulldogs.collegesports.com.

A GLOBAL UNIVERSITY

In a speech entitled “The Global University,” Yale President Richard C. Levin declared that as Yale enters its fourth century, its goal is to become a truly global university—
educating leaders and advancing the frontiers of knowledge not simply for the United States, but for the entire world:

The globalization of the University is in part an evolutionary development. Yale has drawn students from outside the United States for nearly two centuries, and international issues have been represented in its curriculum for the past hundred years and more. But creating the global university is also a revolutionary development—signaling distinct changes in the substance of teaching and research, the demographic characteristics of students, the scope and breadth of external collaborations, and the engagement of the University with new audiences.

Yale University’s goals and strategies for internationalization are described in a report entitled “The Internationalization of Yale: The Emerging Framework,” which is available online at www.world.yale.edu/pdf/Internationalization_of_Yale.pdf.

International activity is coordinated by several University-wide organizations in addition to the efforts within the individual schools and programs.

Launched in 2003–2004, the Office of International Affairs supports the international activities of all schools, departments, offices, centers, and organizations at Yale; promotes Yale and its faculty to international audiences; and works to increase the visibility of Yale’s international activities around the globe. (www.yale.edu/oia)

The Office of International Students and Scholars is a resource on immigration matters and hosts orientation programs and social activities for the University’s international community. See below and www.oiss.yale.edu.

The Whitney and Betty MacMillan Center for International and Area Studies is the University’s principal agency for encouraging and coordinating teaching and research on international affairs, societies, and cultures. (www.yale.edu/macmillan)

The Yale Center for the Study of Globalization draws on the intellectual resources of the Yale community, scholars from other universities, and experts from around the world to support teaching and research on the many facets of globalization, and to enrich debate through workshops, conferences, and public programs. (www.ycsg.yale.edu)

The Yale World Fellows Program hosts eighteen emerging leaders from outside the United States each year for an intensive semester of individualized research, weekly seminars, leadership training, and regular interactions with the Yale community. (www.yale.edu/worldfellows)

For additional information, the “Yale and the World” Web site offers a compilation of resources for international students, scholars, and other Yale affiliates interested in the University’s global initiatives. (www.world.yale.edu)

OFFICE OF INTERNATIONAL STUDENTS AND SCHOLARS

The Office of International Students and Scholars (OISS) coordinates services and support to Yale’s international students, faculty, staff, and their dependents. OISS assists members of the Yale international community with all matters of special concern to them and serves as a source of referral to other university offices and departments. OISS staff provide assistance with employment, immigration, personal and cultural adjustment, and family and financial matters, as well as serve as a source of general information
about living at Yale and in New Haven. In addition, as Yale University’s representative for immigration concerns, OISS provides information and assistance to students, staff, and faculty on how to obtain and maintain legal status in the United States, issues the visa documents needed to request entry into the U.S. under Yale’s immigration sponsorship, and processes requests for extensions of authorized periods of stay, school transfers, and employment authorization. All international students and scholars must register with OISS as soon as they arrive at Yale, at which time OISS will provide information about orientation activities for newly arrived students, scholars, and family members. OISS programs, like the international coffee hours, Community Friends hosting program, daily English conversation groups and conversation partners program, U.S. culture workshops, and receptions for newly arrived graduate students, postdocs, and visiting scholars, provide an opportunity to meet members of Yale’s international community and become acquainted with the many resources of Yale University and New Haven. OISS welcomes volunteers from the Yale community to serve as hosts and as English conversation partners. Interested individuals should contact OISS at 203.432.2305.

OISS maintains an extensive Web site (www.oiss.yale.edu) with useful information for students and scholars prior to and upon arrival in New Haven. As U.S. immigration regulations are complex and change rather frequently, we urge international students and scholars to visit the office and check the Web site for the most recent updates.

International students, scholars, and their families and partners can connect with OISS and the international community at Yale by subscribing to the following e-mail lists. OISS-L is the OISS electronic newsletter for Yale’s international community. YaleInternational E-Group is an interactive list through which over 3,000 international students and scholars connect to find roommates, rent apartments, sell cars and household goods, find companions, and keep each other informed about events in the area. Spouses and partners of international students and scholars will want to get involved with the organization called International Spouses and Partners at Yale (ISPY), which organizes a variety of programs for the spouse and partner community. The ISPY E-Group is an interactive list of over 300 members to connect spouses, partners, and families at Yale. To subscribe to any list, send a message to oiss@yale.edu.

Housed in the International Center for Yale Students and Scholars at 421 Temple Street, the Office of International Students and Scholars is open Monday through Friday from 8:30 a.m. to 5 p.m., except Tuesday, when the office is open from 10 a.m. to 5 p.m.; tel. 203.432.2305.

INTERNATIONAL CENTER FOR YALE STUDENTS AND SCHOLARS

The International Center for Yale Students and Scholars, located at 421 Temple Street, across the street from Helen Hadley Hall, offers a central location for programs that both support the international community and promote cross-cultural understanding on campus. The center, home to OISS, provides a welcoming venue for students and scholars who want to peruse resource materials, check their e-mail, and meet up with a friend or colleague. Open until 9 p.m. on weekdays, the center also provides office and meeting space for student groups, and a space for events organized by both student groups and University departments. In addition, the center has nine library carrels that
can be reserved by academic departments for short-term international visitors. For more information about the International Center, call 432.2305 or visit the center at 421 Temple Street.

RESOURCES OFFICE ON DISABILITIES

The Resource Office on Disabilities facilitates accommodations for undergraduate and graduate and professional school students with disabilities who register with and have appropriate documentation on file in the Resource Office. Early planning is critical. Documentation may be submitted to the Resource Office even though a specific accommodation request is not anticipated at the time of registration. It is recommended that matriculating students in need of disability-related accommodations at Yale University contact the Resource Office by June 30. Special requests for University housing need to be made in the housing application. Returning students must contact the Resource Office at the beginning of each term to arrange for course and exam accommodations.

The Resource Office also provides assistance to students with temporary disabilities. General informational inquiries are welcome from students and members of the Yale community and from the public. The mailing address is Resource Office on Disabilities, Yale University, PO Box 208305, New Haven CT 06520-8305. The Resource Office is located in William L. Harkness Hall (WLH), Rooms 102 and 103. Access to the Resource Office is through the Cross Campus entrance to WLH. Office hours are Monday through Friday, 8:30 a.m. to 4:30 p.m. Voice callers may reach staff at 203.432.2324; TTY/TDD callers at 203.432.8250. The Resource Office may also be reached by e-mail (judith.york@yale.edu) or through its Web site (www.yale.edu/rod).
Departments and Sections

This section provides information for all departments and some sections in the School of Medicine. Each listing provides a roster of faculty, fellows, and associates, as well as descriptions of courses.

Courses designated a meet in the fall term only. Courses designated b meet in the spring term only. Courses enclosed in brackets are not offered in the current academic year.
ANATOMY AND EXPERIMENTAL SURGERY

(Section of the Department of Surgery)
Office: TAC N322B, 785.2814

Associate Professors  L. J. Rizzolo (Director of Medical Studies), W. B. Stewart (Section Chief)

Lecturers  H. Briggs, S. Ghofrany, S. E. Kapadia

Anatomy 103, Principles of Human Anatomy and Development  This course, designed specifically for first-year medical students, provides an opportunity to dissect or observe all structures of the human body. Lectures, conferences, models, radiology, and Web-based curriculum materials are included. Four students are assigned to each cadaver; students work on different regions simultaneously. W. B. Stewart and staff

Anatomy 104a/b, Special Dissections in Anatomy  A laboratory designed to meet the needs of individual students. Any part of the cadaver may be dissected. Each student is assigned an anatomist and/or clinical specialist to act as consultant(s). Prerequisite: Anatomy 103. Staff
ANESTHESIOLOGY

Office: TMP 3, 785.2802

Instructors M. Anwar, W. C. Popescu

Research Scientist F. G. Sayward (Medical Informatics)

Associate Research Scientists S. J. Frawley (Medical Informatics), Z. Gong, N. Liu (Medical Informatics), C. Ma, M. A. Shifman (Medical Informatics), X. Xu

Clinical Instructors E. T. Cortland, M. Dudley

Lecturers A. M. Deshpande (Medical Informatics), T. J. Handler (Medical Informatics), B. Kaplan (Medical Informatics), P. G. Thomas

Anesthesiology 103, Clinical Clerkship Full-time clinical clerkship for students. Students are assigned throughout the year to Yale-New Haven Hospital for introduction to clinical anesthesiology, including preoperative evaluation of patients, selection of anesthetic technique, and administration of anesthetics under supervision. Perioperative medicine, airway management, monitoring techniques, clinical pharmacology, and physiology are emphasized. J. Schwartz, S. Akhtar, V. Kurup

Anesthesiology 104, Advanced Clinical Clerkship Four-week elective, full-time clinical clerkship throughout the year (except July and August) for two students. Individualized
program of instruction in anesthesia subspecialties, including cardiovascular, neurosurgical, obstetrical, and pediatric anesthesia. J. Schwartz, S. Akhtar, V. Kurup

**Anesthesiology 141, Clinical Research** One or two students—hours arranged. Participation in ongoing research by departmental faculty involving clinical responses to drugs affecting cardiopulmonary and central nervous systems. The development of individual research projects is also encouraged. D. Silverman et al.

**Anesthesiology 142, Basic Research within Anesthesiology** One or two students—hours arranged. Focuses on cardiovascular tissue engineering and on mechanical characteristics of native and engineered vascular structures. General research projects involve the culturing of implantable engineered arteries and the development of microvasculature in vitro. L. Niklason
CELL BIOLOGY

Office: SHM C207, 785.4320

Professors  N. W. Andrews (Microbial Pathogenesis), R. Baron (Orthopaedics and Rehabilitation), M. J. Caplan (Cellular and Molecular Physiology), L. Cooley (Genetics), P. Cresswell (Immunobiology), P. De Camilli, S. S. Ferro-Novick, J. E. Galan (Microbial Pathogenesis), F. Gorelick (Medicine), J. D. Jamieson (Acting Chair), T. L. Lentz (Emeritus), H. Lin, V. T. Marchesi (Pathology), M. S. Mooseker (Molecular, Cellular, and Developmental Biology), M. H. Nathanson (Medicine), P. J. Novick, G. E. Palade (Emeritus), T. D. Pollard (Molecular, Cellular, and Developmental Biology), J. K. Rose (Pathology), E. Ullu (Medicine), S. L. Wolin

Associate Professors  C. Hashimoto, G. Miesenboeck, K. M. Reinisch

Assistant Professors  J. S. Bogan (Medicine), P. A. Takizawa, D. K. Toomre

Senior Research Scientist  T. L. Lentz

Research Scientist  M. Pypaert

Associate Research Scientists  X. Chen, L. Gong, A. H. Hutagalung, A. Jiang, C. Qiu, C. Rahner, A. Satoh, S. Sim, L. Volpicelli-Daley, B. Zemelman

CBIO 502a/b, Molecules to Systems  This full-year course is designed to provide medical students with a current and comprehensive review of biologic structure and function at the cellular, tissue, and organ system levels. Areas covered include replication and transcription of the genome; regulation of the cell cycle and mitosis; protein biosynthesis and membrane targeting; cell motility and the cytoskeleton; signal transduction; nerve and muscle function; and endocrine and reproductive cell biology. Clinical correlation sessions, which illustrate the contributions of cell biology to specific medical problems, are interspersed in the lecture schedule. Histophysiology laboratories provide practical experience with the light microscope for exploring cell and tissue structure. This course is offered only to M.D. and M.D./Ph.D. students. This course runs from September to mid-May and is equivalent to three graduate credits. J. Jamieson, T. Lentz, F. Gorelick, and sta

CBIO 601a/b, Molecular and Cellular Basis of Human Disease  This course emphasizes the connections between diseases and basic science using a lecture and seminar format. It is designed for students who are committed to a career in medical research, those who are considering such a career, or students who wish to explore scientific topics in depth. The course is organized in four- to five-week blocks that topically parallel CBIO 502a/b. Examples of blocks from past years include “Diseases of protein folding” and “Diseases of ion channels.” Each topic is introduced with a lecture given by the faculty. The lecture is followed by sessions in which students review relevant manuscripts under the supervision of a faculty mentor. Several special sessions are dedicated to technological advances. In addition, three sessions are devoted to academic careers and cover subjects such as obtaining an academic position, promotions, and grant writing. The course is open to M.D. and M.D./Ph.D. students who are taking or have taken Cell Biology 502a/b. Student evaluations are based on attendance, participation in group discussions, formal pre-
sentations, and a written review of an NIH proposal. This course runs from September to mid-May and is equivalent to three graduate credits. F. Gorelick, J. Jamieson, and staff

**CBIO 602a/MB&B 602a/MCDB 602a, Molecular Cell Biology**  A comprehensive introduction to the molecular and mechanistic aspects of cell biology for graduate students in all programs. Emphasizes fundamental issues of cellular organization, regulation, biogenesis, and function at the molecular level. S. Wolin, T. Pollard, C. Crews, and faculty

**CBIO 603a/MCDB 603a, Seminar in Molecular Cell Biology**  A graduate-level seminar course in modern cell biology. The class is devoted to the reading and critical evaluation of classical and current papers. The topics are coordinated with the CBIO 602a lecture schedule. Thus, concurrent or previous enrollment in CBIO 602a is required. S. Wolin, T. Pollard, C. Crews, and faculty

**CBIO 604b, Systems Cell Biology**  Introduction to the organization and function of cells within complex multicellular systems as encountered in the human body. Covers major tissues and organs as well as the cardiovascular, immune, and nervous systems, with special emphasis on the molecular and cellular bases of developmental processes and human diseases. Lectures supplemented by electronic-based tutorials on the histology of tissues and organs. C. Hashimoto and faculty

**CBIO 606b, Advanced Seminars in Cell Biology**  This seminar course meets once a week and covers topics suggested by faculty and second-year Cell Biology students. It focuses on subjects not considered in prior courses and anticipates areas of future impact. Each topic is spread over three to four sessions, starting with an introductory overview and followed by a detailed analysis of key papers. P. Takizawa and faculty

**CBIO 701b, Illuminating Cellular Function**  Introduction to the principles and practical methods of live cell imaging. Covers principles of fluorescent microscopy (including genetically encoded probes and physiological indicators), image formation, image detection, and image analysis. Includes hands-on demonstrations of state-of-the-art instrumentation, such as video-rate confocal and multi-photon microscopes. D. Toomre and faculty

**CBIO 900a and 901b/GENE 900a and 901b/MCDB 900a and 901b, First-Year Introduction to Research**  Lab rotations, grant writing, and ethics for Molecular Cell Biology, Genetics, and Development track students. C. Hashimoto, C. Radding, F. Slack, and faculty
CELLULAR AND MOLECULAR PHYSIOLOGY

Office: SHM B147, 785.2989

**Associate Professors**  A. Bordey (*Neurosurgery*), C. Canessa, M. E. Egan (*Pediatrics*), G. Miesenboeck (*Cell Biology*), V. A. Pieribone

**Assistant Professors**  M. N. Nitabach, S. Tomita, D. Zenisek, Y. Zhou

**Senior Research Scientists**  G. H. Giebisch, J. F. Hoffman

**Research Scientist**  D. P. Zecevic

**C&MP 520a, Current Perspectives in Physiology**  This seminar explores a diverse range of current topics in physiology, emphasizing readings and discussions of recent primary literature. A variety of expert physiologists present topics such as structural biology, membrane transport, signal transduction, sensory systems, and neurophysiology. Instructors guide the discussion regarding the background, the experiments, the methods, and most importantly the impact of relevant research papers. The aim of the course is to understand how physiological approaches integrate the study of organismal function from genes, to systems, to behavior and disease. D. Zenisek

**C&MP 550a/ENAS 550a^U/MCDB 550a^U, Physiological Systems**  The course develops a foundation in human physiology by examining the homeostasis of vital parameters within the body, and the biophysical properties of cells, tissues, and organs. Basic concepts in cell and membrane physiology are synthesized through exploring the function of skeletal, smooth, and cardiac muscle. The physical basis of blood flow, mechanisms of vascular exchange, cardiac performance, and regulation of overall circulatory function are discussed. Respiratory physiology explores the mechanics of ventilation, gas diffusion, and acid-base balance. Renal physiology examines the formation and composition of urine and the regulation of electrolyte, fluid, and acid-base balance. Organs of the digestive system are discussed from the perspective of substrate metabolism and energy balance. Hormonal regulation is applied to metabolic control and to calcium, water, and electrolyte balance. The biology of nerve cells is addressed with emphasis on synaptic transmission and simple neuronal circuits within the central nervous system. The special senses are considered in the framework of sensory transduction. Weekly discussion sections provide a forum for in-depth exploration of topics. Graduate students evaluate
research findings through literature review and weekly meetings with the instructor. W. Saltzman, E. Boulpaep

C&MP 560b/ENAS 570b/MCDB 560b, Cell and Molecular Physiology: Molecular Machines in Human Disease This course focuses on understanding the processes that transfer molecules across membranes at the cellular, molecular, biophysical, and physiological levels. Students learn about the different classes of molecular machines that mediate membrane transport, generate electrical currents, or perform mechanical displacement. Emphasis is placed upon the relationship between the molecular structures of membrane proteins, their normal function, and abnormal function in human disease. The interactions among transport proteins in determining the physiological behaviors of cells and tissues are also stressed. Molecular motors are introduced and their mechanical relationship to cell function is explored. Students read papers from the scientific literature that establish the connections between mutations in genes encoding membrane proteins and a wide variety of human genetic diseases. E. Boulpaep, F. Sigworth

C&MP 610, Medical Research Scholars Program: Mentored Clinical Experience The goals of this course are to introduce MRSP students to aspects of clinically important human diseases. Students explore each disease over three half-hour sessions led by a clinician-scientist who is an expert in the relevant organ system. Students explore two disease processes per term. The first of the three sessions is devoted to a discussion of the clinical presentation, natural history, pathology, epidemiology, treatment, and prognosis of the disease process. During this session students have the opportunity to view gross or microscopic specimens of diseased tissue in association with members of the Pathology faculty. Students are assigned readings in pathology, pathophysiology, and clinical texts to prepare for the first class session. The second session focuses on translational aspects of the disease process. Students read and present papers relevant to the molecular basis of the disease and cutting-edge approaches to its therapy. In the third session students meet with patients who have experienced the disease and/or visit and explore facilities associated with diagnosis and treatment of the disease process. Prior to the third session students receive guidance as to what they will observe and how to approach the experience and, at the end of the session, the group discusses its thoughts and impressions. Students are expected to prepare for sessions, to participate actively, and to be scrupulously respectful of patients and patient facilities. F. Gorelick and staff

C&MP 710b/MB&B 710b4, Electron Cryo-Microscopy for Protein Structure Determination Understanding cellular function requires structural and biochemical studies at an ever-increasing level of complexity. The course is an introduction into the concepts and applications of high-resolution electron cryo-microscopy. This rapidly emerging new technique is the only tool known to date that allows biological macromolecules to be studied at all levels of resolution ranging from their cellular organization to near-atomic detail. F. Sigworth, V. Unger
CHILD STUDY CENTER

Office: NIHB 208, 785.2513

Assistant Professors  S. J. Berkowitz, K. Chawarska, N. L. Close, W. S. Gilliam, Y. Kim, N. E. Suchman (Psychiatry), J. E. Swain, V. Weersing (Adjunct)

Senior Research Scientist  S. S. Sparrow

Research Scientists  G. M. Anderson, E. L. Grigorenko, M. K. Pruett (Psychiatry), V. R. Seitz

The Child Study Center is a multidisciplinary academic department of the School of Medicine for the study and care of children from birth through adolescence and their families. Child psychiatrists, psychologists, pediatricians, social workers, psychoanalysts, biomedical scientists, nurses, and other professionals collaboratively engage in research and treatment programs on various aspects of children’s growth and development, both normal and deviant. Research programs include child development, psychiatric disorders, social systems and schools, mental retardation, psychosomatic conditions, crisis and trauma, and treatment. Clinical services are provided in general and specialized outpatient clinics, in the Child Psychiatry Inpatient Service in the Children’s Hospital of Yale-New Haven, and in the Child and Adolescent Psychiatry Consultation-Liaison Service. The center provides courses and other academic opportunities for undergraduates and graduate students in various disciplines concerned with children and families, as well as specialized training in child psychiatry, psychology, social work, and clinical research.

CHLD 122b, Aspects of Child and Adolescent Development in the Practice of Medicine  CAD explicitly deals with normal development, and specifically emphasizes social, cognitive, and emotional aspects of this lifelong process. It seeks to heighten the student’s awareness of how different phases of development intersect with the clinical practice of medicine. It covers different schools of thought and approaches to developmental processes, leading to a better understanding of (among others) cognitive, language, motor, social, sexual, and interpersonal milestones, from birth through senescence. Since it can be challenging to understand the importance of these normative processes in a clinical vacuum, the course complements the lectures given in the first hour (11 a.m. to noon) with clinical applications and extensive videotaped examples of that developmental phase in the second (noon to 1 p.m.). This approach provides the main “formula” for the course. First year, spring term, 16 hours. A. Martin and faculty
**CHLD 222, Childhood Psychopathology**  Students are offered lectures, workshops, and videotapes of children with major or common psychiatric disorders usually first evident during infancy, childhood, and adolescence, including autism, mental retardation, attention deficit hyperactivity disorder, school phobia, learning disabilities, Tourette’s Syndrome, obsessive-compulsive disorder, and adolescent disorders. Second year. R. A. King and faculty

**CHLD 322, Developmental, Psychiatric, and Psychological Assessment of Infants, Children, and Adolescents**  A series of lectures on developmental assessment (DA), psychological testing (P), and the Mental Status Examination (MSE) of children is offered to all students on the Pediatric Clerkship. Students may have the opportunity to observe such evaluations while on the Pediatric Clerkship. Further opportunities to observe DA and P, and to perform mental status examinations of children, are provided during the Child Psychiatry track of the Psychiatry Clerkship. L. Mayes, N. Close, M. Kaplan, and faculty

**CHLD 323, The Child Psychiatry Track of the Psychiatry Core Requirement**  This track is offered to four students per six-week rotation (three at the Children’s Psychiatric Inpatient Service (CPIS) of Yale-New Haven Hospital, one at the Consultation-Liaison (CL) track of the pediatrics wards at YNHH). The CPIS and CL rotations meet the requirements for the “patient in crisis” and “interface with medicine” requirements of the core psychiatric clerkship of the third year. Both rotations provide extensive opportunities to observe and practice the process used to evaluate, diagnose, and plan the treatment of the child and his or her family. The rotations additionally provide for interview and write-up tutoring experiences, with both child and adult psychiatric patients. The track has three components: (a) a set of core experiences and lectures, (b) a group of optional selective experiences (such as visits to a therapeutic school), and (c) practica and directed readings. The practicum includes interviewing, working up, and writing reports on inpatients under the supervision of a child psychiatry tutor. In addition, each student prepares a written presentation related to an area of interest in child psychiatry. A. Martin, D. Stubbe, Y. Poncin, L. Cardona, and faculty

**CHLD 324, Electives in Research**  Medical students join with faculty and postdoctoral research fellows in participating in patient-oriented or laboratory-based research projects. Students participate in weekly research seminars and multidisciplinary work groups as well as being directly engaged in some aspect of a new or ongoing research project with a faculty mentor. The elective is full time and has a minimum duration of three months. As of 2006, there is one available slot for a year-long research rotation for fifth-year medical students. J. Leckman, A. Martin, and faculty

**CHLD 325/Psychiatry 325, Child Psychiatry Elective, Yale Child Study Center**  The aim of this elective is to provide the student with an intensive experience in infant, child, and adolescent psychiatry. The curriculum includes assessments of normal development and psychopathology in childhood, treatment methods, and research in major disorders of childhood. The elective takes advantage of the wide range of ongoing seminars, conferences, and clinical services in place at the Child Study Center and at Riverview Hospital in Middletown, Connecticut. Teaching methods include seminars, conferences, field
observations, ward rounds, and practica selected by the student following consultation with the director of medical studies. Open to fourth-year students throughout the year. A. Martin, D. Stubbe, L. Siegel, and faculty. To enroll in this advanced clinical elective, please contact Dr. Martin directly.
COMPARATIVE MEDICINE

Office: 375 Congress Avenue, LSOG 117, 785.2525

Professors  T. Horvath (Chair), R. O. Jacoby (Emeritus)

Associate Professors  J. L. Brandsma, F. R. Homberger (Adjunct), J. D. Macy, J. D. Reuter (Adjunct), C. J. Zeiss

Assistant Professors  C. J. Booth, G. J. DeMarco, Q. Gao, P. C. Smith

Senior Research Scientist  R. O. Jacoby

Research Scientists  S. R. Compton, J. M. McGrath, G. Yao

Associate Research Scientists  J. A. Carlson, M. J. Harding, Y. Nie, T. P. Nottoli, M. Shlyankevich, Y. Sun, S. R. Wilson
DERMATOLOGY

Office: LCI 501, 785.4092

Professors J. L. Bologna, D. E. Brash (Therapeutic Radiology), I. M. Braverman, P. Cresswell (Immunobiology), R. L. Edelson (Chair), F. M. Foss (Medicine), E. J. Glusac (Pathology), P. W. Heald, D. J. Leffell, J. M. McNiff, L. M. Milstone (Emeritus), J. S. Pober (Immunobiology), R. E. Tigelaar, L. D. Wilson (Therapeutic Radiology)

Associate Professors R. J. Antaya, M. Girardi, C. A. Herrick, R. Lazova

Assistant Professors S. Z. Aasi, S. E. Cowper, S. Imaeda, C. J. Ko, A. Subtil, M. M. Tomayko

Instructors J. N. Choi, A. Galan, J. M. Scott

Senior Research Scientist R. Halaban

Research Scientists C. L. Berger, A. K. Chakraborty, M. S. Kluger, L. M. Milstone

Associate Research Scientist D. J. Hanlon

Clinical Professors K. A. Arndt, I. Dvoretzky, M. T. Johnson, R. C. Savin, K. L. Watsky

Clinical Instructors M. P. Coolidge, M. A. Gohara, J. M. Grant-Kels, J. Moss, M. I. Oestreich, J. B. Sabetta, J. Wilder, B. Zubkov

Lecturer L. K. Friedlaender

Dermatology 120 Instruction in the evaluation and management of patients with dermatologic problems in both outpatient and inpatient settings. Emphasis is on common dermatologic problems and cutaneous pathophysiology. Ambulatory patients are seen in the 2 Church St. South, Yale-New Haven Hospital Primary Care Center and at the VA Connecticut Healthcare System, West Haven. Inpatient rounds are made at Yale-New Haven Hospital. Grand rounds and weekly lectures are also an important feature of the elective. Course is offered for four four-week sessions. S. Aasi, R. Antaya, J. Bologna, I. M. Braverman, J. Choi, S. Cowper, R. L. Edelson, A. Galan, M. Girardi, E. Glusac, C. Herrick, S. Imaeda, C. Ko, R. Lazova, D. Leffell, J. McNiff, L. Milstone, A. Subtil, R. E. Tigelaar, M. Tomayko
DIAGNOSTIC RADIOLOGY

Office: TE-2, 785.6938

Instructor  H. Moukaddam

Senior Research Scientist  R. G. Shulman (Molecular Biophysics and Biochemistry)

Research Scientists  F. D’Errico, M. Hampson, J. Wang

Associate Research Scientists  S. V. Chelikani, G. M. Chowdhury, B.S. Ganganna, P. Herman, H. Kim, D. C. Labaree, N. Nabulsi, M. Negishi, V. Neklesa, K. Purushothaman, M. Qiu, N. Rajeevan, J. R. Ropchan, J. Watzl

Clinical Professors  D. B. Nunez, M. S. Shin, J. D. Slavin

Clinical Instructors  C. T. Kubiak, J. A. Obando, S. T. Stewart

Lecturers  J. Arora, J. Bhawnani, G. J. Conlogue, F. Tokoglu
Diagnostic Radiology 121, Diagnostic Radiology Clerkship The four-week clerkship introduces the student to the basic principles of all forms of radiologic interpretation. Each day the students rotate through a section of the department of diagnostic imaging, including gastrointestinal, genitourinary, chest, musculoskeletal, neuroradiology, pediatrics, computed tomography, magnetic resonance, nuclear medicine, ultrasound, vascular and interventional radiology, and emergency radiology. Five days of elective time may be spent in a subspecialty area of the students’ choice. In addition to participating in the daily film reading with residents and staff, the students receive an introduction to the role of that section in the diagnosis and management of disease. Self-teaching materials are available in the radiology library. The students attend the department resident conferences twice daily as well as specific student seminars. Clerkships are offered at Yale-New Haven Hospital. A two-week diagnostic radiology elective is not offered. Prerequisites: None. Full-time: No on-call responsibilities. Limited to six students every four weeks.

J. Abrahams, A. Haims, and staff

Diagnostic Radiology 134, Clinical Internship in Vascular and Interventional Radiology This elective is designed as an introduction to vascular and interventional radiology: the use of radiological imaging to guide procedures in various organ systems of the body and the evaluation and management of patients who are candidates for these. In the vascular system, this includes arterial and venous angiography, angioplasty, stenting, embolization for bleeding, tumors (such as uterine fibroids), and vascular malformations, venous reflux management, inferior vena cava filter placement, hemodialysis access management, and placement of a variety of venous access devices. Nonvascular experience includes percutaneous approaches to biliary and urinary track pathology, drainage of abscesses and other fluid collections, and tumor ablation. Students also participate in the interventional radiology clinic and admitting service. Electives last two to four weeks, but additional time can be arranged. This rotation is limited to one student at a time. J. Pollak, J. Aruny, and staff

Diagnostic Radiology 135, Clinical Clerkship in Pediatric Diagnostic Radiology Introduction to the clinical care of infants, children, and adolescents through the use of integrated diagnostic imaging. Students participate through review of imaging studies with residents and attendings; observation of fluoroscopic, ultrasound, computed tomography (CT), and MRI procedures; and attendance at daily clinical conferences. Students are encouraged to use the teaching file and also to add an interesting case. Elective periods of two to four weeks are possible, times to be arranged, limited to one student per period.

R. Goodman and staff

Diagnostic Radiology 137, Clinical Clerkship in Neuroradiology This rotation is designed as an introduction to neuroradiology. The student becomes an integral part of the neuroradiology team which consists of the resident, fellow, and attending physician. A number of teaching conferences are offered including a daily case review session. The student is exposed to the various subsections of neuroradiology including neuro CT, neuro MR, and neuro special procedures, e.g., angiography, myelography, CT biopsy, interventional angiography. J. Abrahams, G. Sze, and staff
Section of Education

Office of Education: ESH 305, 737.4190
Office of Student Research: ESH 308, 785.6633

Sect Ed 101, Intensive Pedagogical Experience in Laboratory Research Techniques
Intensive one-week summer course in biomedical research protocols and techniques is open to first-year medical students at Mount Desert Island Biological Laboratory in Bar Harbor, Maine. Four biomedical research topics are the focus of each course: (1) physiological studies of chloride transport in an intact epithelial organ from Squalus acanthias; (2) ion channel gene expression in a heterologous expression system (Xenopus oocytes); (3) studies in isolated tubule preparations, including immunocytochemistry of phosphorylated vs. non-phosphorylated co-transporters, tissue processing, confocal microscopy, Western blots, and antibody design; molecular biology of membrane proteins and transporters in shark salt gland, including methods in RNA, cDNA, PCR, cloning, and sequencing. J. Forrest, D. Forbush, N. Aaronson, and staff

Sect Ed 102, Organization and Leadership
This course is an introduction to topics in the field of organizational behavior. It is designed to offer participants an opportunity to explore a variety of concepts that relate to the effective and humane management of organizations. Though medicine was once a profession made up primarily of individual practitioners, it is increasingly true that medical professionals, both clinicians and researchers, are now involved in collective endeavors that require coordinated efforts to produce meaningful results. This is the domain of organizational behavior and the subject matter of this course. D. Berg

Sect Ed 103, Applied Principles of Clinical Research (First-Year Seminars) — Office of Student Research
The purpose of this intensive two-week course is to provide an overview of the objectives, research strategies, and methods of conducting patient-oriented research. Topics include research designs, how to ask a research question, data collection, how to write a protocol, bias in studies, qualitative methods, etc. Emphasis is placed on applying concepts to students’ actual research projects. Sessions are workshops that combine didactics and use students’ projects to illuminate concepts. Students must have declared interest in conducting patient-oriented research by May. Consent of instructor required. Two weeks in summer to be announced. Staff

Sect Ed 104, Applied Principles of Clinical Research (Fifth-Year Seminars) — Office of Student Research
The purpose of this intensive two-week course is to provide an overview of the objectives, research strategies, and methods of conducting patient-oriented designs, how to ask a research question, data collection, how to write a protocol, bias in studies, qualitative methods, etc. Emphasis is placed on applying concepts to students’ actual research projects. Sessions are workshops that combine didactics and use students’ projects to illuminate concepts. Students must be funded for one year of research. Consent of instructor required. Two weeks in summer to be announced. Staff

Sect Ed 105, Pre-Clinical Clerkship
This course, extending throughout the first two years, is intended to teach medical students skills in communication, medical history taking, and physical examination, as well as end-of-life care. The format of the course
involves several large group sessions for the purpose of demonstrating or modeling interview techniques and many small group sessions in which students get a chance to observe and practice specific skills. An integral part of the Pre-Clinical Clerkship is the tutorial program in which groups of four students meet with their tutor(s) weekly over a two-year period to practice their newly learned skills on patients in the hospital or clinic.

In the first year, students learn the basics of interviewing patients in formal sessions and the clinical tutorials. Emphasis is placed on a patient-centered approach utilizing standardized patients. Students also learn how to perform a complete physical examination in structured, supervised sessions in which they examine one another. Other activities include practicing their observation skills in an art museum, understanding the skills needed in the care of children, and understanding how to assess geriatric patients, as well as end-of-life care.

During their second year, students are learning more sophisticated skills in obtaining a medical history, the components of a proper patient write-up, and the elements of oral patient presentations. Standardized patients are used again for teaching interviewing skills, but also for breast, pelvic, scrotal, and rectal examinations. At the beginning of their second term, students are evaluated on their ability to perform a complete history and physical examination at the Clinical Skills Assessment Program at UConn utilizing their standardized patients.

Students pass the Pre-Clinical Clerkship by attending all the skill-building sessions; demonstrating the ability to perform a complete history and physical exam from memory (at UConn); and having acquired the skills needed on the wards according to their tutor(s). Limited to medical students. M. Bia

Sect Ed 106, Mechanisms of Disease: Systems/Organs The purpose of this course is to bridge the preclinical and clinical years and to teach students to use preclinical data in a clinical context. It introduces the pathologic variation of the normal physiologic mechanisms that the students have already learned. This required course is offered in a continuum from September through March for second-year medical students. It consists of 13 integrated discrete modules that present disease processes from various disciplinary perspectives. The components include pathology, laboratory medicine, diagnostic radiology, preventive medicine, geriatrics, pharmacology, clinical medicine, pediatrics, and surgery.

For each module, representatives from each discipline meet and create a course that presents a comprehensive overview of the organ/system, progressing and building information in a way that allows students to form a basis on which to add knowledge throughout their careers.

Material is taught in lecture format; small group workshops which discuss patient cases and laboratories. The modules are Blood/Hematology; Cardiovascular System; Clinical Neuroscience; Psychiatry; Endocrine Systems; Reproductive System; Gastrointestinal System; Musculoskeletal System; Renal System; Respiratory System; Ophthalmology; Oncology; and Skin. Each module has a faculty coordinator. These modules provide excellent preparation for clinical work on the wards as well as preparation for second-year USMLE boards, the questions of which use a clinical paradigm. Course is limited to second-year medical students. M. DiGiovanna
Sect Ed 107b, Professional Responsibility Through a series of lectures and small group case discussions, this course examines physicians’ responsibilities to their patients, their colleagues, their communities, and to society at large. The course examines the nature of the physician-patient relationship and its ethical underpinnings, as well as the legal, social, and economic contexts in which it operates. It focuses on the physician's obligations in several areas, including care for the underserved and vulnerable, respect for patients’ privacy and confidentiality, obtaining informed consent for treatment, respecting the right to refuse treatment, respecting reproductive choices, and dealing with issues at the end of life. Finally, the course examines the flaws and strengths of the U.S. health care system, and the personal and social consequences of recent changes in the way health care is organized and financed in this country. J. S. Hughes

Sect Ed 108, Integrative Clinical Medicine This three-work course is required of fourth-year students in the spring term immediately prior to the internship match. In the first two weeks the morning sessions, using an intensive small-group format under the supervision of experienced clinical faculty, examine the evolution of two complex cases that present important clinical, social, and behavioral issues. The course involves significant student research and peer presentations that address the salient issues that present themselves as the cases unfold. The small group sessions are followed by a final grand round that includes considerable patient participation and student interaction. In the third week, each day offers a separate grand-rounds-style presentation focusing on important aspects of medical practice, that is, Medical Informatics, Genomics, The Difficult Patient, and Mistakes in Medicine. The afternoon sessions include an emergency medicine lecture series conducted by faculty in that discipline in preparation for internship, and several sessions covering current social and ethical issues. Director: J. S. Hughes

Sect Ed 158, Primary Care Clerkship The Primary Care Clerkship provides students with an opportunity to acquire knowledge and develop clinical and interpersonal skills applicable to outpatient primary care practice. Students are assigned to an office or clinic where they care for patients under supervision by either a family practitioner, internist, or pediatrician on Mondays, Wednesdays, and Fridays for one month. On Tuesdays and Thursdays students attend a case-based Workshop Program based upon common disorders and core skills relevant to primary care practice. Students may also obtain their clinical experience at an “away site” in the United States or abroad and complete the Workshop Program on campus during another rotation. Director: F. Haeseler; with a faculty comprised of physician educators who share a commitment to practice-based teaching

Sect Ed 158-1, Primary Care Wednesday Evening Clinic This longitudinal outpatient clerkship in the Primary Care Center provides experience in the longitudinal care of adults. Students are directly responsible for care of medical problems and preventive care as well as coordination of specialty care for their own patient panel for a minimum of one calendar year. There are weekly pre-clinic conferences which include Journal Club and primary care case-centered topics presented by students or specialty attendings. Students also become acquainted with the administration of outpatient clinic medicine. The clinic is held every Wednesday evening, 5–9 p.m, except the day before Thanksgiv-
ing and between Christmas and New Year’s. It is open to a limited number of fourth-year students and fulfills the primary care requirement. Students must have completed Hospital Medicine I and II of the Core Medicine Clerkship and three other third-year Clerkships, preferably Ambulatory Medicine, Psychiatry, and Obstetrics, Gynecology, and Reproductive Sciences. Director: K. P. White; staffed by M. Dillard and rotating attending physicians
EPIDEMIOLOGY AND PUBLIC HEALTH

Office: LEPH 210, 785.2867

**Associate Professors**  S. H. Busch, M. Cappello (Pediatrics), D. C. Cone (Surgery), L. C. Degutis (Surgery), L. Dembry (Medicine), R. A. Desai (Psychiatry), L. A. Dipietro, R. Dubrow (Epidemiology), E. L. Grigorenko (Child Study Center), N. E. Groe (Public Health), P. M. Hartigan (Adjunct), J. J. Hoh (Epidemiology), B. A. Jones, A. C. Justice (Medicine), D. Katz (Adjunct), B. Levy (Epidemiology), J. H. Lichtman, H. Lin, M. B. Russi (Medicine), A. N. Sofair (Medicine), N. S. Stachenfeld (Epidemiology), J. K. Tebes (Psychiatry), C. Tschudi, H. Yu

**Senior Research Scientists**  J. E. Childs (Epidemiology), L. E. Munsternmann

**Research Scientists**  K. Belanger (Epidemiology), B. Cartmel (Epidemiology), L. Curry (Public Health), W. T. Gallo, R. Gueorguieva, N. Sun, E. W. Triche

**Clinical Professors**  J. B. Borak (Epidemiology), M. G. Curnen

**Associate Clinical Professor**  D. L. Humphries
Assistant Clinical Professors  K. A. Hartwig, D. Shenson

Clinical Instructor  D. L. Humphries

The Department of Epidemiology and Public Health, which also functions as the nationally accredited Yale School of Public Health, offers a wide variety of courses across several divisions. Many of these are also available for medical student enrollment. The course catalogue and registration procedures may be obtained by contacting the YSPH Registrar’s Office.
GENETICS

Office: SHM 1308, 785.2649

Associate Professors J. H. Cho (Medicine), J. R. Gruen (Pediatrics), V. Reinke, M. W. State (Child Study Center)

Assistant Professors A. J. Giraldez, N. B. Ivanova, M. K. Khokha (Adjunct), T. Kim, P. Li, J. Noonan, Z. Sun, S. D. Weatherbee

Senior Research Scientist P. J. Flory

GENE 500b, Principles of Human Genetics  A genetics course taught jointly for graduate students and medical students covering current knowledge in human genetics as applied to the genetic foundations of health and disease. A. Bale

GENE 603b/IBIO 603b, Teaching in the Science Education Outreach Program (SEOP) TAs, along with volunteers, teach three projects in Genetics to seventh-graders in two or three New Haven schools. In addition TAs take a short course on teaching and serve as science judges. For more details visit www.seop.yale.edu. P. Kavathas, at 785.6223

GENE 625a/MB&B 625a/MCDB 625a, Basic Concepts of Genetic Analysis  The universal principles of genetic analysis in eukaryotes are discussed in lectures. Students also read a small selection of primary papers illustrating the very best of genetic analysis and dissect them in detail in the discussion sections. While other Yale graduate molecular genetics courses emphasize molecular biology, this course focuses on the concepts and logic underlying modern genetic analysis. T. Xu, A. Giraldez, T.H. Kim, M. Koelle, R. Lifton, S. Roeder

[GENE 631a/BIS 531a, Genetic Epidemiology]
GENE 642a/EMD 642a/MB&B 642a/MBIO 642a/MCDB 642a, Roles of Microorganisms in the Living World  A topical course exploring the biology of microorganisms. Emphasis on mechanisms underlying microbial adaptations and how they influence biological systems. L. N. Ornston, D. McMahon-Pratt, D. Söll

GENE 675, Graduate Student Seminar  Students gain experience in preparing and delivering seminars and in discussing presentations by other students. A variety of topics in molecular, cellular, developmental, and population genetics are covered. Required for all second-year students in Genetics. Graded Sat/Unsat. J. Noonan and staff

GENE 743b/MB&B 743b/MCDB 743b, Advanced Eukaryotic Molecular Genetics  Selected topics in regulation of gene expression, genome structure and evolution, signal transduction, and cellular physiology, development, and carcinogenesis. Prerequisite: biochemistry or permission of the instructor. A. Koleske, M. Hochstrasser, P. Sung

GENE 749a/MB&B 749aU, Medical Impact of Basic Science  Consideration of examples of recent discoveries in basic science that have elucidated the molecular origins of disease or that have suggested new therapies for disease. Emphasis is placed on the fundamental principles on which these advances rely. Reading is from the primary scientific and medical literature, with emphasis on developing the ability to read this literature critically. Aimed at undergraduates. Prerequisite: MB&B 600a/601b or permission of the instructor. J. Steitz, E. De La Cruz, M. Hochstrasser, A. Miranker, L. Regan, P. Sung

GENE 777b/MCDB 677b, Mechanisms of Development  This is an advanced course on mechanisms of animal development focusing on the genetic specification of cell organization and identity during embryogenesis and somatic differentiation. The use of evolutionarily conserved signaling pathways to carry out developmental decisions in a range of animals is highlighted. Course work includes student participation in critical analysis of primary literature, and a final research proposal term paper. V. Reinke, L. Cooley, X.-W. Deng, S. Holley, A. Monteiro, F. Slack, Z. Sun

GENE 840a,b, Medical Genetics  Clinic Rotation. A clinical rotation offering medical and graduate students the opportunity to participate in the Genetic Consultation Clinic, genetic rounds, consultation rounds, and genetic analysis of clinical diagnostic problems. By arrangement with instructor. M. R. Seashore

GENE 900a and 901b/MBIO 900a and 901b/MCDB 900a and 901b, First-Year Introduction to Research  Laboratory rotations, topic-based seminars for Molecular Cell Biology, Genetics, and Development (MCGD) track students. F. Slack

GENE 921a/b, Reading Course in Genetics and Molecular Biology  Directed reading with faculty. Term paper required. Permission of Genetics DGS is required.
HISTORY OF MEDICINE

Office: SHM L132, 785.4338

Professors  D. Kevles (History), D. F. Musto (Child Study Center), F. Snowden (History), J. H. Warner (Chair)

Associate Professors  C. A. Connolly (Nursing), S. E. Lederer, N. Rogers

Assistant Professor  B. J. Strasser

Yale College and Graduate School courses open to medical students:

HSHM 215a/HIST 140a, Public Health in America, 1793–2000  A survey of public health in America from the yellow fever epidemic of 1793 to AIDS and breast cancer activism at the end of the past century. Focusing on medicine and the state, topics include quarantines, medical and social welfare failures and successes, the experiences of healers and patients, and organized medicine and its critics. N. Rogers

HSHM 235b/HIST 234b, Epidemics and Society in the West since 1600  A study of the impact of epidemic diseases such as bubonic plague, cholera, malaria, and AIDS on society, public health, and the medical profession in comparative and international perspective. Topics include popular culture and mass hysteria, the mortality revolution, urban renewal and rebuilding, sanitation, the germ theory of disease, the emergence of scientific medicine, and debates over the biomedical model of disease. F. Snowden

HSHM 239a/HIST 123a, Cultures and Histories of Mind  The development of the mind sciences in Europe and America in the nineteenth and twentieth centuries, from the invention of psychoanalysis and the creation of experimental psychology to a scientific discipline to recent developments in evolutionary psychology, psychopharmacology, and cognitive neuroscience. J. Cohen-Cole

HSHM 240b/HIST 121b, Curiosity and Natural Inquiry  The origins of Western scientific culture and its connections with curiosity, ingenuity, and artisanal knowledge. Key topics in the historiography of early modern science, including the scientific revolution and the trial of Galileo. P. Bertucci

HSHM 321b/HIST 937b, The Cultures of Western Medicine: A Historical Introduction  A survey of medical thought, practice, institutions, and practitioners from classical antiquity through the present. Changing concepts of health and disease in Europe and America explored in their social, cultural, economic, scientific, technological, and ethical contexts. J. H. Warner

HSHM 328a,b, Methods and Literature in the History of Science and Medicine  Introduction to recent literature in the history of science, medicine, and public health, to historiographic issues, and to methods used in historical research and writing. Members of the faculty in the Program in the History of Science and Medicine visit on a rotating basis to introduce the variety of approaches to the field. B. Strasser [F], O. Molvig [Sp]

HSHM 413b/HIST 145Jb, X-Ray Visions: Medical Imaging since 1895  The development of X rays, CT, MRI, ultrasound, and nuclear medicine. Their impact on diagnos-
tic medicine, the legal system, and culture (high and low). Topics include the nature of invention—how new technologies appear; the economics of medicine in relation to technology; the role of warfare in invention; and the impact of these technologies on the arts. B. Kevles

HSHM 450a, Children’s Health in the United States, 1800–2000  The history of children’s health care, broadly defined to include not just physical and emotional health but also cognitive and social development, in the United States. Topics include differences between children’s and adults’ health; governmental responsibility; portrayals of illness in film; variables of race, gender, social class, and geographic region; child abuse; and subspecialties such as neonatology and adolescent health care. C. Connolly

HSHM 470a, 471b, Directed Reading  Readings directed by members of the faculty in selected topics in the history of science or the history of medicine. Subjects depend on the interests of students and faculty. Weekly conferences; required papers. S. Lederer, O. Molvig

HSHM 631b/HIST 937b, The Cultures of Western Medicine: A Historical Introduction  A survey of medical thought, practice, institutions, and practitioners from classical antiquity to the present. Changing concepts of health and disease in Europe and America explored in their social, cultural, economic, scientific, technological, and ethical contexts. J. H. Warner

HSHM 640a/HIST 933a, Molecules, Life, and Disease in the Twentieth Century  This course explores the transformation of the life sciences in the twentieth century. It focuses on the rise of molecular biology and its understanding of life and disease. It shows how and why the molecular vision on life has achieved such a high level of scientific authority and social legitimacy. It emphasizes the relationship of this transformation to broader intellectual, social, cultural, and political change. B. Strasser

HSHM 641b/HIST 923b, Computers and Cybernetics  This discussion course examines the development of cybernetics, information theory, and computer science. By examining how the cybernetic and computer sciences linked the academy, society, and politics, we explore Cold War culture and the ecology of knowledge production in this period. Originating as technologies of wars hot and cold, these fields of study have been central to the structural evolution of the academic-military-industrial complex. These new fields were central to the developments in the physical, biological, and social sciences. J. C. Cole

HSHM 701a/HIST 930a, Introduction to the History of Medicine and Public Health  An examination of the variety of approaches to the social and cultural history of medicine and public health. Readings are drawn from recent literature in the field, sampling writings on health care, illness experiences, and medical cultures in Europe, the Americas, Africa, and Asia from antiquity to the twentieth century. Topics include the role of gender,
class, ethnicity, race, region, and religion in the experience of health care and sickness; the intersection of lay and professional understandings of the body; and the role of the marketplace in shaping professional identities and patient expectations. S. Lederer

**HSHM 702b/HIST 931b, Introduction to the History of Science** Study of secondary literature, recent and older, in the history of the physical and life sciences from the Renaissance to the early twentieth century. Students acquire familiarity with the development of science in general and of its major branches, including its content, instruments and methods, and social-institutional settings, and an acquaintance with various approaches that historians have followed in interpreting these events. O. Molvig

**HSHM 706a/HIST 922a, Collecting Nature** This course focuses on the role of collections and collectors in the production of natural knowledge between the sixteenth century and the present. From wonder cabinets to electronic databases, collections of natural objects and facts of nature have been crucial to the development of science, medicine, and the state. The course explores court patronage and colonial power, amateur collections and national museums, gift exchange and commodity trade, individual property and collective authorship, secrecy regimes and public disclosures. B. Strasser

**HSHM 715a/HIST 920a, Science and Travel: Collections, Explorations, and Networks** This course explores the role of travel in the making of scientific knowledge from the Renaissance to the Enlightenment. It focuses on museums and cabinets of curiosities; voyages of explorations and scientific journeys; correspondence networks, espionage, and colonialism; scientific imagery and fictional travels. P. Bertucci

**HSHM 736b/HIST 943b/WGSS 730b, Health Politics, Body Politics** A reading seminar on struggles to control, pathologize, and normalize human bodies, with a particular focus on science, medicine, and the state, both in North America and in a broader global health context. Topics include colonialism and prostitution; repression and regulation of birth control; the teaching of sex education; the public celebration and denial of sexual difference; politics of sexually transmitted diseases, including HIV/AIDS; public health and legal efforts to define and restrict abortion; the pathologizing and identity politics of trans-gendered people; and the development and regulation of artificial insemination and other methods of reproductive technology. N. Rogers

**HSHM 740a/AMST 884a/HIST 925a, The Cultures of American Medicine since 1800** Reading and discussion of recent scholarly literature on medicine in the nineteenth- and twentieth-century U.S. Themes include the moral, social, political, aesthetic, and epistemological grounding of orthodox and alternative cultural authority; the role of the marketplace in shaping professional identities and patient expectations; gender, ethnicity, race, religion, class, and region in the construction and management of illness and in the production and circulation of medical beliefs; interplay between lay and professional understandings of the body; nationalism, citizenship, and colonialism; and representations of medical institutions, practitioners, and practices in visual media, including film. May be taken as a research seminar with permission of the instructor. J. H. Warner
In addition to formal course offerings and tutorials offered in the School of Medicine, Yale College, and the Graduate School, section activities in the History of Medicine are supplemented by a number of related historical medical programs. Colloquia in the History of Science and Medicine are held fortnightly and are open to the School of Medicine community. The section sponsors an annual Frederic L. Holmes Lecture, and the Department of Surgery sponsors the annual Samuel Clark Harvey Memorial Lecture. The Nathan Smith Club, which annually awards the John F. Fulton Memorial Award, is composed of medical students interested in medical history who assemble monthly in the homes of various faculty. The Beaumont Medical Club, founded at Yale in 1920, sponsors six lectures in the History of Medicine during the academic year and annually selects a Beaumont Lecturer and a George Rosen Lecturer in the History of Medicine. Section faculty are available for M.D. thesis supervision.

The section faculty work with the Department of History to offer a Ph.D. program in the History of Science and Medicine. In addition, there is an M.A. program designed particularly for those who plan to combine teaching or scholarship in these fields with a professional career in medicine or the life sciences. For further information concerning admissions and the program itself, consult the Graduate School bulletin.
IMMUNO BIOLOGY

Office: TAC S531, 785-3857

Professors J. R. Bender (Medicine), A. Bothwell, H. K. Bottomly (Emeritus), J. E. Craft (Medicine), P. Cresswell, R. A. Flavell (Chair), S. Ghosh, K. Herold, P. B. Kavathas (Laboratory Medicine), R. M. Medzhitov, I. S. Mellman (Cell Biology), J. S. Pober, N. H. Ruddle (Epidemiology), D. G. Schatz, M. J. Shlomchik (Laboratory Medicine), R. E. Tigelaar (Dermatology)

Associate Professors A. Iwasaki, W. D. Shlomchik (Medicine), B. Su

Assistant Professors T. H. Chi, S. Kaech

Senior Research Scientist H. K. Bottomly

Research Scientist E. E. Eynon

Lecturers J. W. Huleatt, I. Mills

For a complete listing of BBS courses, see http://info.med.yale.edu/bbs/

IBIO 100a, Immunology for Students of Medicine Immunology and its application to clinical situations. 12 hours lecture, 8 hours tutorials

IBIO 530a/MCDB 530a, Biology of the Immune System The development of the immune system. Cellular and molecular mechanisms of immune recognition. Effector responses against pathogens; autoimmunity. A. Iwasaki

IBIO 531b, Advanced Immunology The historical development and central paradigms of key areas in immunology. The course attempts to develop a clear understanding of how these paradigms were established experimentally. Landmark studies are discussed to determine how the conclusions were obtained and why they were important at the time they were done. Lecture and discussion format; readings of primary research papers and review articles. Prerequisite: Immunobiology 530a or equivalent. Enrollment limited to 15. T. Chi and staff

IBIO 536b, Advanced Immunology Seminar: Host Defense of Pathogens P. Cresswell, P. Kavathas, C. Roy

IBIO 537b, Advanced Immunology Seminar Topic and faculty to be announced. Faculty

IBIO 600a, Introduction to Research Introduction to the research interests of the faculty. Required for all first-year BBS Immunology Track students. Pass/Fail. A. Bothwell and staff
IBIO 603a/GENE 603a, Teaching in the Science Education Outreach Program (SEOP) TAs, along with volunteers, teach three projects in Genetics to seventh-graders in two or three New Haven schools. In addition, TAs take a short course on teaching and serve as science judges. Dates and times to be determined. For more details visit www.seop.yale.edu. BBS teaching credit. P. Kavathas
INTERNAL MEDICINE
Office: LMP 1072, 785.4119

Assistant Clinical Professors

**Internal Medicine 103, Core Medicine Clerkship** The Internal Medicine Clerkship comprises three one-month rotations: Hospital Medicine I, Hospital Medicine II, and Ambulatory Medicine. Students are assigned to complete these rotations in a specific order determined by the clerkship directors. During the Hospital Medicine clerkships, students serve as clinical clerks at participating hospitals. Students interview and examine patients, write admission and progress notes, and work with medical teams in the care of patients. Between Hospital Medicine I and Hospital Medicine II, students receive graduated responsibility for patient care. Conferences and teaching rounds are held daily. During the Ambulatory Medicine component of the clerkship, students complete a curriculum including general medicine practice, subspecialty practice, and classroom instruction. Clinical preceptors enable students to have an active part in patient evaluation and treatment commensurate with each student’s experience and capability. Students interview and examine patients, develop differential diagnoses, present to preceptors, discuss treatment with patients, and write visit notes. At all clinical sites, students routinely telephone patients in follow-up. The overall course director is V. J. Quagliarello. The director for the ambulatory component is W. N. Kernan, Jr. Clinical precepting and classroom teaching involves over 100 physicians in the Department of Medicine.

**Internal Medicine 122, Endocrine Clerkship** The student participates as an active member of the endocrine training program, making daily rounds with the endocrine fellows, residents, and attending physicians. Inpatient consultation, a variety of endocrine clinics, and regularly scheduled metabolism–endocrine conferences are part of the rotation. Full time for three weeks. Offered during elective time. Limited to two students at a time throughout the year. J. Bogan, A. E. Broadus, B. Gulanski, R. G. Hendler, E. H. Holt, K. L. Insogna, S. Inzucchi, R. S. Sherwin, G. I. Shulman, J. Wysołomski

**Internal Medicine 123, Renal Clerkship** This clerkship in clinical nephrology offers the student an opportunity for in-depth learning regarding problems in fluid and electrolyte disturbances, acute renal failure, chronic renal failure, and hypertension. Emphasis is placed on problem recognition, pathophysiologic diagnosis, evidence-based clinical judgment, and management based on pathophysiologic principles. The primary activity involves the inpatient consultation service in which the student works up and follows several patients per week, and participates in daily rounds with the attending physicians, postdoctoral fellows, and residents on service. Students participate in the weekly renal conferences. An introduction to hemodialysis, peritoneal dialysis, renal transplantation, and renal biopsy histology is also provided. Students have the opportunity to visit patients on rounds in the hemodialysis units. Students are encouraged to review renal pathology slides as appropriate and can extend their learning by working through a collection of case studies. The clerkship is limited to two students per hospital; full-time participation is expected. Students should have completed the Internal Medicine clerkship. Rotations can be three- to six-weeks’ duration, although, to derive benefit, at least four weeks is recommended. The elective is offered at both Yale-New Haven Hospital and the VA Connecticut Healthcare System, West Haven. A. Abu-Alfa, P. S. Aronson, M. J. Bia, U. Brewster (supervisor), L. Cantley, S. Crowley, G. V. Desir, R. Formica, J. Forrest, A. Peixoto, J. P. Hayslett, S. Huot, R. Mahnensmith, M. Perazella, A. Rastegar, S. Somlo
Internal Medicine 136, Digestive Disease Conference  Each Friday afternoon from 2 to 3:30 p.m., current patients with gastrointestinal and liver problems of medical, surgical, pediatric, pathologic, or radiologic interest are presented and discussed. This is a practical series of discussions intended to interest anyone from a second-year student to a practitioner. Active participation by all who come is encouraged. Meets in Fitkin. J. Dranoff and Digestive Disease faculty

Internal Medicine 137, Clinical Gastroenterology Clerkship  The student participates in the daily activities of the Gastroenterology Service. The student is an integral part of the GI team and should plan to spend full time on the elective at Yale-New Haven Hospital or the VA Connecticut Healthcare System, West Haven. Activities include rounds, consultations, conferences at both hospitals, and special procedures, including gastrointestinal endoscopy. Students also participate in outpatient clinics held by the various physicians of the section. This is an opportunity to see a wide variety of gastrointestinal problems and patients, with discussion and review. Offered to one student each at Yale-New Haven Hospital and VA Connecticut Healthcare System. Rotations should be four weeks in duration. Students should have completed the Internal Medicine clerkship. Digestive Disease faculty

Internal Medicine 141, Cardiology Clerkship  The student participates in the daily activities of the Cardiology Consultation Service, including rounds, consultations, seminars, and conferences dealing with clinical cardiology, nuclear cardiology, echocardiography, cardiac catheterization, and other special procedures. This is a full-time elective requiring a full day’s activities but no night call. The training experience emphasizes the physiologic basis for clinical manifestations of cardiovascular diseases, and their therapy. The elective is limited to three students at Yale-New Haven Hospital and two students at the VA Connecticut Healthcare System, West Haven. The elective lasts a minimum of three weeks; six weeks is recommended if possible. Students must have completed basic Internal Medicine clerkships prior to clerkship. Following an initial Cardiology Clerkship, individual electives can be designed for specific cardiology laboratories or activities such as the coronary care unit, cardiac catheterization laboratory service, echocardiography, nuclear cardiology, electrophysiology, etc. W. P. Batsford, J. R. Bender, J. J. Brennan, M. Burg, H. S. Cabin, B. Cambi, J. Clancy, M. W. Cleman, L. S. Cohen, J. Curtis, F. Giordano, D. Goldstein, H. Haronian, C. Howes, F. Jadababaie, S. Katz, H. M. Krumholz, R. Lampert, F. A. Lee, L. V. Lee, A. Mani, R. McNamara, S. E. Pfau, M. Remetz, L. Rosenfeld, K. Russell, R. Russell, M. Sadeghi, J. F. Setaro, R. Scandrett, A. J. Sinusas, R. Soufer, A. Vashist, F. J. Wackers, L. H. Young, B. L. Zaret. The individual supervisor is selected from the above participating faculty on a monthly basis.

Internal Medicine 142, Infectious Diseases  The goal of this clerkship is to broaden a student’s experience and diagnostic skills in infectious diseases. Students participate as active members of the consultation service and training program in infectious diseases (Yale-New Haven and VA Connecticut Healthcare System, West Haven, hospitals). This requires a full-time daily commitment of four weeks although shorter clerkships are possible when justified. Activities include daily rounds with both fellows and attending physicians, attendance at all weekly subspecialty conferences, workup of several new consultations each week, formal case presentations, directed reading and library research,
and case write-ups for review by the fellow and/or attending physician. Students are encouraged to work closely with fellows and to present cases. Training in clinical microbiology, including bacteriology, virology, and parasitic and fungal infections is conducted daily. Limited to a maximum of two students for each four-week period throughout the year. Outside students accepted through the Office of the Assistant Dean. Completion of all basic clinical clerkships is preferred, though only the basic clinical clerkship in Internal Medicine is required. R. Altice, L. Dembry, E. Fikrig, G. J. Francis, H. Friedland, M. Juthani-Mehta, B. Kazmierczak, M. Kozał, R. Martinello, V. J. Quagliarello, M. Rigsby, A. Shaw, S. Springer, J. Topal, K. Wagner

**Internal Medicine 143, Externship in HIV/AIDS** Students desiring an intensive, more advanced experience with the care of HIV-infected persons may spend one month as a subintern on the Donaldson Firm. The Donaldson Firm offers a combined general internal medicine/HIV ward experience. Previously, Donaldson admitted only HIV-infected persons. However, with the advent of highly active antiretroviral therapy and effective opportunistic infection (OI) prophylaxis, the HIV inpatient census has decreased and both HIV-infected and general medical patients are cared for. The firm practices a multidisciplinary HIV care approach. There are two firms that admit HIV-infected patients. Each is comprised of an attending, one resident, two interns, and one third-year medical student. On average, approximately 50 percent of the patients are HIV-infected. Students who elect an externship on Donaldson function as an integral member of one of the two HIV teams. The subintern assumes primary responsibility for his/her patient under the direct supervision of the medical resident. Activities include supervised initial evaluation and daily management of patients with HIV disease; daily rounds with the team; case presentations to the attending physician; and attendance of tri-weekly attending rounds, during which various HIV-related infections and noninfectious problems are discussed. In addition, the student works closely with members from social work, nursing, pastoral care, and discharge planning to better appreciate the multidisciplinary nature of HIV care. Students can arrange to attend one outpatient HIV clinic per week in the Nathan Smith Clinic in order to supplement their inpatient experience with the ambulatory aspects of HIV disease. This elective accommodates one student per month and offers a unique opportunity to participate in comprehensive HIV care in the AIDS Care Program, preferably upon completion of all basic clinical clerkships. A previous medical or surgical subinternship is useful preparation. Outside students are accepted through the Office of the Assistant Dean. Supervising faculty include: F. L. Altice, N. Angoff, D. Bruce, J. Francis, M. Juthani-Mehta, G. H. Friedland, B. Kazmierczak, V. Quagliarello, A. Shaw, S. Springer, J. Topal, K. Wagner

**Internal Medicine 146, Hematology Clerkship** This clerkship provides intensive exposure to clinical hematology by direct participation in the activities of a busy clinical hematology service. Students work up new patients and consultations (at least two patients per week), and attend outpatient clinic on Tuesday mornings, where they may be assigned to see one new patient or two follow-up patients. Students also attend daily hematology ward rounds, bone marrow readings, weekly inpatient and outpatient clinical review, and clinical teaching conferences. Students may limit participation to include only attendance at daily conferences, bone marrow readings, and hematology clinic or consultation

Internal Medicine 151/Environmental Health Sciences 575a,b, Introduction to Occupational and Environmental Medicine  Geared toward those interested in full-time specialty careers in occupational or preventive medicine, material covers clinical toxicology, industrial hygiene and techniques for evaluation of clinical and workplace problems. This didactic course meets two hours weekly throughout the year, beginning in September. Enrollment limited to ten. M. R. Cullen, M. Russi, and Occupational Medicine faculty

Internal Medicine 152, Occupational and Environmental Medicine  This full-time clinical elective emphasizes recognition, management, and prevention of occupational diseases. Approximately five half-days are spent in outpatient clinics, the remainder of the time in on-site plant evaluation, clinical follow-up, and didactic teaching sessions. This course is full time, limited to two students per rotation, scheduling year-round. M. R. Cullen, P. Rabinowitz, C. A. Redlich, M. Russi, J. Sparer, O. Taiwo, J. Mobo and J. Hill

Internal Medicine 155, Advanced Clinical Clerkships (“Sub Internship”): Students serve as advanced clinical clerks on the floors of one of the following hospitals: Yale-New Haven Hospital; VA Connecticut Healthcare System, West Haven; and Waterbury Hospital, Waterbury. The students function in a role that provides a high degree of involvement in patient care decisions. Students function either as a pair in place of or with first-year residents, admitting patients to the medical service under the close supervision of an upper-level resident in charge of the service and the attending physician. In addition to daily work rounds and teaching-attending rounds, students are expected to participate in departmental conferences concerning their patients. The purpose of the course is to provide advanced undergraduate education in the broad field of internal medicine above that received in the third-year clerkship. It provides the opportunity for students to increase their overall knowledge of, and experience with, a wide variety of disease processes. In addition, it provides practical experience in the process of gathering clinical data, making appropriate formulations, and basing decisions and priorities upon those formulations. By following a larger number of patients more closely, students increase their clinical acumen, improve their technical skills, and develop an appropriate level of clinical confidence. The setting allows the development of an increased sense of patient care responsibility, from admission to discharge of the patient. Offered throughout the year for periods of four weeks each, to students who have completed their required medical clerkships. C. R. Kapadia (program director)

Internal Medicine 156, Clerkship in Liver Disease  The student becomes integrated into the team of physicians involved in inpatient and outpatient clinical hepatology. This team normally consists of a faculty attending, one to two postdoctoral fellows in liver disease, and one medical student. The student is expected to see inpatient consultations, discuss the findings with the fellow, and ultimately present the patient to the attending. Additionally, the student sees patients in the Liver Outpatient Clinic three mornings per week. Attendance is expected at weekly liver biopsy, clinical and research conferences, and students may also attend the Liver Transplantation Clinic. This elective represents
an intensive experience in hepatology, and during the rotation period the student is introduced to problems in the clinical management of liver disease and also gains a growing appreciation of the role of the liver in systemic disease. This elective is offered at Yale-New Haven Hospital (Drs. Boyer, Drano≠, Garcia-Tsao, Lim, Mehal, Nathanson, Schilsky, Strazzabosco, Swenson, and Taddei) or the VA Connecticut Healthcare System (Drs. Chung, Garcia-Tsao, and Groszmann). Three or six weeks, full time

**Internal Medicine 157, Gastroenterology** Clinical rounds and clinics with local and Yale affiliated gastroenterologists based at Bridgeport Hospital; conferences on gastrointestinal problems with emphasis on physiologic, radiologic, and pathologic correlation; gastrointestinal radiology conferences; demonstrations of endoscopy (including fiberoptic visualization of the esophagus, stomach, duodenum, colon); other procedures, such as biopsy (liver, esophagus, stomach, small intestine, colon, and rectum), cytology (esophagus, stomach, pancreaticobiliary, and colon), polypectomy, laser, bicap, ERCP, sphincterotomy, sclerotherapy, and PEG. Emphasis on diagnosis and clinical management of gastrointestinal disease of all types. Available to fourth-year students throughout the year at Bridgeport Hospital. G. Abdelsayed

**Internal Medicine 159, Lung Diseases** Students work closely with faculty and staff of the pulmonary group and participate in daily consulting and intensive care rounds. Students assist in the examination and treatment of patients with various cardiopulmonary diseases, including tuberculosis, chronic obstructive airways disease, asthma, lung cancer, interstitial lung diseases, respiratory lung infection, and other diagnostic problems. They receive practical instruction in lung function tests and their interpretation, in clinical and laboratory methods used for diagnosis and management (including intensive respiratory care), and in fiberoptic bronchoscopy. Didactic lectures are given at the weekly Yale State Chest conference. H. Cain, G. Chupp, L. Cohn, R. Enelow, M. Gulati, P. Lee, R. Matthay, J. McArdle, V. Mohsenin, D. Morris, P. Noble, M. Pisani, C. Redlich, C. Rochester, F. Roux, M. Siegel, L. Tanoue, T. Trow

**Internal Medicine 180, Rheumatology** Students participate in the inpatient Rheumatology consult service at Yale-New Haven Hospital and the VA Connecticut Healthcare System, West Haven. Students attend two general arthritis clinics at the VA Connecticut Healthcare System, one general arthritis clinic in the Dana 3 clinic at Yale-New Haven, and spend one or two afternoons per week with an attending rheumatologist in a private practice setting on Dana 3. They complete a core curriculum in Rheumatology and fill out pre- and post-rotation evaluation forms. Formal conferences include Rheumatology Grand Rounds, which are held each Wednesday at 8 a.m., and a Case Conference at 9 a.m. Optional conferences include a Rheumatology research-in-progress meeting held Friday mornings at 9 a.m. If interested, students may opt to combine Rheumatology and Allergy and Clinical Immunology. Rotation limited to two students for each period of four to six weeks throughout the year. L. Bockenstedt, R. Bucala, J. Craft, J. Evans, L. Fraenkel, I. Kang, S. Malawista, M. Mamula, R. Montgomery, L. Suter and selected members of the part-time community faculty

**Internal Medicine 181, Medical Oncology Clerkship** An intensive exposure to medical oncology including diagnosis, staging, evaluation and combined modality therapy, supportive care, and management of problems associated with cancer. Students work
under the direct supervision of the attending staff and participate in the care and management of patients on the inpatient service and in the outpatient clinic. They join oncology morning rounds and present patients at the Clinical Oncology Conference. Limited to two students for two to six weeks throughout the calendar year. D. L. Cooper, Program Director

**Internal Medicine 182/Psychiatry 209, Addictions Medicine Clerkship** Offered jointly by the departments of Internal Medicine and Psychiatry. The Yale University School of Medicine offers an elective clinical training experience in Addictions Medicine for interested third- and fourth-year medical students. The primary training sites are the inpatient psychiatric service for dual diagnosis patients at the Connecticut Mental Health Center, the outpatient substance abuse treatment services at the Connecticut Mental Health Center, the APT Foundation Central Medical Unit, and the Primary Care Center at Yale-New Haven Hospital. H. R. Pearsall, P. G. O’Connor. The Addictions Medicine Clerkship is an elective that is scheduled for four weeks. (Slightly longer or shorter training experiences are available by contacting H. R. Pearsall.) Students participate as medical student clerks on the Dual Diagnosis Unit at Connecticut Mental Health Center. This experience is an intensive one, and involves working closely with addicted patients with chronic mental illness. In addition to the inpatient experience, students participate in outpatient treatment under the supervision of clinicians at the Substance Abuse Treatment Unit and the Central Medical Unit, and in the substance abuse assessment and referral services of the Primary Care Center. Students are also invited to participate in the Substance Abuse Research Seminar as well as other educational activities of the Inpatient Division and the Substance Abuse Treatment Unit. For students desiring an intensive focus in one of the three areas of teaching (inpatient dual diagnosis, outpatient substance abuse treatment, or substance treatment in a primary care setting), a schedule can be tailored to provide more time in the setting of interest. H. R. Pearsall, P. G. O’Connor

**Internal Medicine 184, Medical Informatics** We explore topics in informatics, such as the definition and scope of the specialty, software engineering, networking and networks, database management systems, information retrieval, the electronic medical record, clinical decision support, and medical decision science. By arrangement with the instructor. R. N. Shiffman

**Internal Medicine 187, Infectious Disease** The elective emphasizes clinical diagnosis and treatment of patients with infectious diseases, hospitalized at the Hospital of Saint Raphael. Students make rounds with infectious disease fellows and with the infectious disease attending physician. Rounds include discussions of many common infectious diseases problems and of approaches to appropriate use of antibiotics. Students are expected to follow critically ill patients diligently, and may be asked to review articles regarding infections affecting patients followed by the infectious diseases service. J. M. Boyce, S. Weissman, M. Virata, M. Golden, A. Fisher

**Internal Medicine 188, Renal** The elective is supervised by the Renal Service at the Hospital of St. Raphael. Discussions are held concerning glomerular, tubulo-interstitial, acid-base, and electrolyte disorders. The student participates by performing initial consultations on four or five new inpatients per week, as well as actively participating in the follow-up care of interesting renal, electrolyte, and acid-base problems being followed in
the hospital. Student participation in the weekly outpatient Renal Clinic is encouraged. Participation in the outpatient hemodialysis unit and outpatient continuous ambulatory peritoneal dialysis facility is an optional feature of the elective. Formal attending/teaching rounds are held daily for renal fellows, residents, and students participating in the elective. Conferences include biweekly renal conference at the Hospital of St. Raphael, weekly renal conference at Yale-New Haven Hospital, and weekly hemodialysis and continuous ambulatory peritoneal dialysis conferences. The renal fellows at the Hospital of St. Raphael help in the supervision of the students. H. Carey, T. Eisen, F. O. Finkelstein, J. Hansson, M. Hotchkiss, D. Simon, D. Smith

**Internal Medicine 189, Pulmonary Critical Care** Supervised clinical rotation in the Medical Intensive Care Unit of the Hospital of St. Raphael. In a multidisciplinary environment, the student shares responsibility for a variety of critically ill patients. Ample opportunity to develop experience and skills in the management of acute respiratory failure, mechanical ventilation, and different forms of hemodynamic shock. A working understanding of cardiopulmonary physiology, arterial blood gases, and acid-base abnormalities in the assessment and management of respiratory disorders is obtained with the direct supervision of the full time pulmonary/critical care attending (Drs H. Knight and R. Elias) as well as fellowship trainees from the Yale Pulmonary/critical care training program.

**Internal Medicine 193, Subinternship in Medicine, Hospital of St. Raphael** This subinternship allows the senior student the opportunity to assume more responsibility for patients and continuity of care. Working as a member of the team, the subintern has major responsibilities in initial assessment, plan formulation, and ongoing inpatient management, and will have the opportunity to provide outpatient hospital follow-up. Full-time medical directors provide supervision, feedback, and training. B. Wu, R. Nardino, and colleagues

**Internal Medicine 195, Medical Intensive Care Unit Elective** This rotation exposes highly qualified fourth-year students to the broad spectrum of medical critical care. Students are on call every fourth night with an intern and resident pair, assisting them in the admission of patients. Students follow patients in the MICU and assist in their care with their intern and resident. It provides the opportunity for participating in the acute management of common life-threatening Illnesses such as sepsis, pulmonary edema, DKA, GI bleeding, acute respiratory failure, acute kidney injury, coma, drug overdoses, metabolic acidosis, and hypertensive emergencies. Students are expected to learn about the pathophysiology and treatment of these disorders in this non-subinternship setting. Basic cardiac life support training is expected. All students should be able to demonstrate satisfactory completion of a Medicine II clerkship before taking this elective. Director: M. Siegel

**Internal Medicine 500, Methods of Clinical Research** This composite course begins with an intensive set of summer events during July and the first two weeks of August. The course resumes in September and continues throughout the remainder of the academic year, ending in early June. The overall curriculum integrates several distinct components. The summer term contains sessions on statistics, epidemiology, and clinical and health
services research methods and community-based participatory research. The fall term contains more advance statistics and research methods, as well as several sessions on health policy, social and behavioral influences on health, and community-based research. The spring term contains remaining topics in research methods and several sessions on health management. Summer sessions are held four times a week (ten hours); fall sessions are held three times a week (six and one-half hours); spring sessions are held two times a week (five hours). Permission of instructor required. Directors: H. Krumholz, E. Bradley

Internal Medicine 501, Medical Publishing  The *Yale Journal of Biology and Medicine* (YJBM) provides an educational opportunity for students in medicine, public health, nursing, and the biological sciences to gain experience in all aspects of academic publishing. Alongside participating faculty members, students review scientific articles submitted to the *Journal*, select manuscripts for publication, and correspond with authors. Students also have the opportunity to review books and write articles showcasing their research or sharing clinical experiences from Yale and abroad. Students who wish to continue participating in the *Journal’s* production beyond the semester are selected on a competitive basis for positions on the Editorial Board. The editorial staff meets monthly. J. Bender, faculty adviser

Internal Medicine 502, Clinical Clerkship, The Connecticut Hospice, Branford, Connecticut  This fifty-two-bed inpatient program at the nation’s first hospice provides intensive palliative care for patients with terminal illnesses. The medical, psychosocial, and spiritual needs of these patients and their families are met through the coordinated efforts of an interdisciplinary team of physicians, nurses, social workers, pharmacists, and clergy. When cure is no longer realistic, the goal of therapy becomes symptom control to enable the patient to carry on an alert and pain-free existence. To achieve this goal, a careful physical assessment and noninvasive diagnostic studies can permit the use of focused therapeutic approaches, carefully selected to meet the needs of the individual patient. The specialized hospice care program emphasizes control of pain and other symptoms with a wide spectrum of both pharmacologic and nonpharmacologic modalities. Students participate in the care and management of hospice inpatients, potentially serving as primary physician for selected patients, under the close supervision of the hospice staff physicians and/or medical director. They participate in morning rounds, family conferences, and weekly Interdisciplinary Team Conferences. A two- or four-week rotation is offered. The four-week rotation includes time spent in the home care program, attending team conferences, and making home visits. The home care program encompasses eighty-nine cities and towns throughout Connecticut. Contact Louis Gonzalez at 203.315.7502

Internal Medicine 504, Bone Marrow Transplantation  A one-month rotation on the adult bone marrow transplantation unit. Daily inpatient rounds are held. Students are involved in the care of the patients, including the performance of procedures, and attend a daily bone marrow transplant clinic for patient follow up. Weekly clinical conferences are also attended. A suggested reading program is provided. Students are required to present a short discussion about a topic of their choice. D. Cooper
**Humanities in Medicine**

The courses listed below are offered through the Program for Humanities in Medicine for 2008–2009. Further information is available from Dr. Thomas Duffy or Clara Gyorgyey at 203.785.6102. Schedules of courses are flexible. Students who are interested in any (or all) of the following courses, or have other interests that could be addressed through this program, are asked to indicate this on the sign-up sheet. No obligation even if students sign up.

**Internal Medicine 505, Poetry and Medicine**  Hope, courage, devotion, anguish, pain, illness, and death — the substance of all great literature is also fundamental to medicine. Poetry and Medicine, a bi-monthly seminar elective, introduces students to works of poetry, illuminating the ethical, moral, and psychological issues continually confronting their profession. The course helps students develop an understanding of the ways in which interpreting literature enhances their interactions with patients and clarifies some dimensions of their work. Course schedule: Bi-monthly meetings at a mutually determined time. P. Kirwin, T. Duffy

**Internal Medicine 509b, Pregnancy and Neonatal Loss**  For first-year students. This elective centers around what a physician feels when his/her patient dies and how he/she can come to a resolution with regard to this loss. In particular, focus on the expression of feelings through letter writing, poetry, and face-to-face encounters with family members. Introduction to “case histories” based upon the lecturer’s experiences. Course schedule: six meetings at a mutually determined time. Please contact the instructor by e-mail: berman@hygeia.org. M. R. Berman
INVESTIGATIVE MEDICINE

Office: Edward S. Harkness Building (ESH), basement 18–19, 785.6842

Professors H. M. Krumholz (Medicine), E. D. Shapiro (Pediatrics), M. E. Tinetti (Medicine)

Associate Professors T. M. Gill (Medicine), J. R. Gruen (Pediatrics)

IMED 615a, Functional Genomics in Translational Research In this two-week course, students learn how to access and interpret the vast amounts of genetic and genomic data that are rapidly being accumulated from genome sequencing projects. This course takes an integrated approach exploring how genomes are mapped and sequenced, how various computational methods convert this raw data into biologically relevant information, and how this information can then be utilized to design experimental approaches to gene function. Lectures are supplemented with computer laboratory sessions to reinforce ideas and to provide practical experience. The course provides practical training in bioinformatics methods, including accessing the major public sequence databases, use of the BLAST tools to find and compare sequences, analysis of protein and nucleic acid sequence motifs, gene structure and promoter analysis, sequence alignment and comparative genomics. Experimental approaches covered include informatics relevant for PCR, real-time quantitative PCR, primer design, microarray, inhibitory RNA, and the design of transgenic and knockout mouse models. While there is no formal prerequisite for this course, students need a solid understanding of the molecular biology of the gene, including DNA and RNA structure, transcription, splicing, translation, the genetic code, and the regulation of gene expression. Consent of instructor required. Two weeks, August 11–August 22. J. Craft

IMED 625a, Principles of Clinical Research The purpose of this intensive two-week course is to provide an overview of the objectives, research strategies, and methods of conducting patient-oriented research. Topics include competing objectives of clinical research, principles of observational studies, principles of clinical trials, principles of meta-analysis, interpretation of diagnostic tests, prognostic studies, causal inference, qualitative research methods, and decision analysis. Sessions generally combine a lecture on the topic with discussion of articles that are distributed in advance of the sessions. Consent of instructor required. Two weeks, July 28–August 8. E. Shapiro

IMED 630a, Ethical and Practical Issues in Clinical Investigation This term-long course addresses topics that are central to the conduct of clinical investigation, including ethics of clinical investigation, scientific fraud, technology transfer, and interfacing with the pharmaceutical industry. Practical sessions include scientific presentations and teaching, NIH peer review process, journal peer review process, and career development models of academia. This course provides guidelines and a framework for the clinical investigator to obtain funding for, conduct, and present a clinical study. Format consists of didactic presentation followed by discussion. Consent of instructor required. H. Binder

IMED 635a or b, Directed Reading in Investigative Medicine An independent study course for first-year students in the Investigative Medicine program. Topics are chosen by the student, and reading lists are provided by faculty for weekly meetings to discuss
articles. Six sessions are required; dates/times by arrangement. Consent of instructor required. J. Craft

**IMED 645a, Introduction to Biostatistics in Clinical Investigation**  This course provides an introduction to statistical concepts and techniques commonly encountered in medical research. Previous course work in statistics or experience with statistical packages is not a requirement. Topics to be discussed include study design, probability, comparing sample means and proportions, survival analysis, and sample size/power calculations. The computer lab incorporates lecture content into practical application by introducing the statistical software package SPSS to describe and analyze data. Consent of instructor required. Two weeks, July 14–25. H. Binder

**IMED 650a, Seminars in Clinical Investigation**  In this term-long seminar course a range of topics is covered in the format of an interactive seminar. Topics including detailed evaluation of study designs (cohort studies, case-control studies, and clinical trials), development and validation of indices, review of approaches to methodology and issues related to implementation of the methodology (assuring quality of the data, qualitative research methods, estimation of sample size and statistical power), and introduction to finding sources to fund grant proposals. The format for most of the seminars consists of a didactic presentation followed by intensive discussion of research articles and research protocols. Students lead the discussion in the critical analysis and evaluation of the articles. Attendance and active participation are required. Consent of instructor required. E. Shapiro

**IMED 655b, Writing Your First Big Grant**  In this term-long course, students gain intensive, practical experience in evaluating and preparing grants, including introduction to NIH study section format. The course gives new clinical investigators the essential tools to design and to initiate their own proposals for obtaining grants to do research and to develop their own careers. The course is limited to students who plan to submit grant proposals (usually for either a K-23 or a K-08 grant). Attendance and active participation are required. Consent of instructor required. E. Shapiro

**IMED 660a, Methods in Clinical Research, Part I**  E. Shapiro

**IMED 661a, Methods in Clinical Research, Part II**  E. Shapiro

**IMED 662b, Methods in Clinical Research, Part III**  This yearlong course, presented by the Robert Wood Johnson Clinical Scholars Program, presents in depth the methodologies used in patient-oriented research, including methods in biostatistics, clinical epidemiology, health services research, community-based research, and health policy. Consent of instructor required. E. Shapiro

**IMED 680b, Topics in Human Investigation**  This course teaches students about the process through which novel therapeutics are designed, clinically tested, and approved for human use. It is divided into two main components, with the first devoted to moving a chemical agent from the bench to the clinic, and the second to outlining the objectives and methods of conducting clinical trials. The latter section also includes a discussion of the FDA approval process. Consent of instructor required. J. Craft, K. Anderson
LABORATORY MEDICINE

Office: CB 407, 688.2446

Associate Professors  S. M. Campbell, M. E. Hodsdon, C. D. Rinder (Anesthesiology), H. M. Rinder, G. E. Stack

Assistant Professors  J. G. Howe, Y. Wu

Senior Research Scientist  S. F. Cotmore

Research Scientists  G. M. Anderson (Child Study Center), W. J. McMurray

Associate Research Scientists  L. Devine, A. M. Haberman, C. Keeler, L. Li

Clinical Professors  B. P. Griffith, R. A. Levine, S. C. Wardlaw

Associate Clinical Professors  P. N. Fiedler (Pathology), D. R. Mayo, I. Nash, T. J. Tinghitella

Assistant Clinical Professors  S. R. Gray, I. V. Kaplan, H. Malkus, R. R. Rathbone, C. A. Rauch, N. Shafi, M. Velleca, J. C. West

Lecturers  M. Champion, S. A. Cohen, N. Drew, D. Ferguson, W. M. Gross

Laboratory Medicine 102b  This lecture, laboratory, and seminar course deals with scientific use of clinical laboratories (hematology, clinical chemistry, immunology, blood banking) as a basis for the understanding, diagnosis, and treatment of disease. Emphasis is on the selection and interpretation of laboratory tests used in the practice of medicine as well as on acquiring some understanding of the technology used in the clinical laboratories. Lectures and laboratories are integrated into the new organ-based modular system of clinical instruction for second-year medical students. Second-year course. M. L. Landry and associates

Laboratory Medicine 123a, Medical Microbiology  This course focuses on both basic microbial pathophysiology and medical microbiology. The course is divided into four sections, consisting of microbial physiology and genetics, bacteriology and mycology, virology, and parasitology. Microbial pathogenesis is taught as it relates to human infectious disease on the cellular and molecular levels. The unique structures, lifestyles, and roles in producing disease of medically important microbes are taught in lecture, laboratory, and small group settings. Laboratory sessions employ a case-based approach to teach the effective use of laboratory testing in the diagnosis and management of infectious diseases. Microscopy, culture and biochemical, immunological, and molecular techniques are demonstrated and discussed, and simple tests such as Gram stain and rapid antigen tests are performed. Problem-based learning sessions in clinical infectious disease are
offered in the last half of the course to provide a bridge from the science of the microbe to the management of infected patients. Second-year course. S. Campbell, F. Bia, S. Edberg, M. L. Landry, T. Tinghitella, and associates

**Laboratory Medicine Elective 131** The Department of Laboratory Medicine offers a two- or four-week elective with rotations through the clinical laboratories, including Blood Bank, Therapeutic Apheresis, Clinical Chemistry, Toxicology, Hematology and Coagulation, Flow Cytometry, Immunology, Molecular Diagnostics, Microbiology, and Virology. The student works closely with residents, fellows, attendings, and laboratory staff; works up clinical cases under supervision; and attends morning report, case conference, journal club, clinical rounds, and didactic sessions. The student also has the opportunity to work with the resident on call for at least one weekend day during the elective. The student can rotate through all laboratories, or focus on specific laboratories of interest. The goals of the elective are to learn appropriate usage and interpretation of laboratory tests, and to gain a better understanding of the theoretical, technological, and clinical underpinnings of Laboratory Medicine. This elective is appropriate for students considering a career in Laboratory Medicine or combined Laboratory Medicine and Pathology, but also for all students who will use clinical laboratory testing in their careers. Electives are for two weeks or four weeks, and are limited to one student per session. M. L. Landry and associates

**Laboratory Medicine and Surgical Pathology Elective** The Departments of Laboratory Medicine and Pathology offer a four-week elective that combines two weeks of Laboratory Medicine and two weeks of Surgical Pathology. In Laboratory Medicine, students rotate through the clinical laboratories, including Blood Bank, Therapeutic Apheresis, Clinical Chemistry, Toxicology, Hematology and Coagulation, Flow Cytometry, Immunology, Molecular Diagnostics, Microbiology, and Virology. The student works closely with residents, fellows, attendings, and laboratory staff; works up clinical cases under supervision; and attends conferences and didactic sessions. The goals are to learn appropriate usage and interpretation of laboratory tests, and to gain a better understanding of the theoretical, technological, and clinical underpinnings of Laboratory Medicine.

In Surgical Pathology, students rotate through specialty and general anatomic surgical pathology, frozen section, hematopathology, renal and electron microscopy, molecular diagnostics, cytology, and autopsy. The students work with residents, fellows, attendings, and laboratory staff, participate in work up of clinical cases under supervision, attend tumor boards and other clinical conferences and didactic sessions. The goals are to understand the basic principles of diagnostic anatomic pathology and its role in clinical medicine. This elective is appropriate for students considering a career in Laboratory Medicine and/or Pathology, but also for all students who will use laboratory and pathology tests in their careers.

Electives are for 4 weeks, and are limited to one to two students per session. M. L. Landry and D. Rimm

**Laboratory Medicine Teaching Sessions for Third-Year Medical Students** The purpose of the Laboratory Medicine Teaching Sessions is to introduce third-year students on their clinical rotations to basic concepts of laboratory diagnosis. On the first afternoon of their Internal Medicine rotations at Yale-New Haven Hospital, students visit four
laboratories: Blood Bank, Hematology, Chemistry, and Microbiology/Virology. In each laboratory the faculty use clinical cases together with relevant slides, culture plates, or other test data to illustrate the use and interpretation, as well as pitfalls, of laboratory tests. These teaching sessions should also serve to encourage and facilitate communication with the laboratories after the students return to the wards. Third-year course. M.L. Landry and associates
MICROBIAL PATHOGENESIS

Office: 295 Congress Avenue, Room 336B, 737.2404

Professors  N. W. Andrews, M. Cappello (Pediatrics), E. Fikrig (Medicine), J. E. Galan (Chair), M. K. Hostetter (Pediatrics)

Associate Professors  W. Mothes, C. R. Roy

Assistant Professors  H. F. Agaisse, B. I. Kazmierczak (Medicine), B. Lindenbach, J. D. MacMicking

Associate Research Scientists  C. G. Briones, I. Derre, F. Du, D. Hofreuter, C. Huynh, M. D. Lara-Tejero, S. Ninio, J. Patel

The following courses in the Graduate School of Arts and Sciences are open to medical students with permission of the DGS.

MBIO 642a/EMD 642a/GENE 642a/MB&B 642a/MCDB 642a, Roles of Microorganisms in the Living World  A topical course exploring the biology of microorganisms. Emphasis on mechanisms underlying microbial adaptations and how they influence biological systems. Prerequisites: biology, chemistry, and biochemistry. N. Ornston, D. Söll, D. McMahon-Pratt

MBIO 670a,b, Laboratory Rotation  Rotation in three laboratories. Required for all first-year graduate students. J. Sweasy

MBIO 684b, Advanced Topics in Molecular Parasitology  An advanced graduate-level seminar course in modern parasitology. The class is focused on the reading and critical evaluation of papers from the current literature selected by the students in cellular and molecular mechanisms of parasitism. Prerequisites: EMD 680a is highly recommended; permission of the instructor. D. McMahon-Pratt, C. Tschudi

MBIO 685b, Molecular Mechanisms of Microbial Pathogenesis  This course focuses on current topics related to host pathogen interactions. Each week a lecture is given on the topic, followed by student presentations of seminal papers in the field. All participants are required to present a paper. J. Galán, N. Andrews, C. Roy, W. Mothes, J. MacMicking, H. Agaisse, B. Lindenbach

MBIO 700a, Seminal Papers on the Foundations of Modern Microbiology  A required course for Microbiology first- and second-year students; not for credit. The course is offered every second year, alternating with MBIO 703a, so that it can be taken once during each student’s tenure in the program. Students present and discuss papers describing fundamental discoveries in areas related to microbiology. The goal is to familiarize students with the process of scientific discovery and with the history of major developments in the field. Topics include important discoveries involving major human pathogens, fundamental processes in molecular biology, and the development of technology that has a major impact on current biomedical research. Offered every other year. P. Tattersall

MBIO 701a,b, Research in Progress  All students, beginning in their third year, are required to present their research once a year at the Graduate Student Research-in-
Progress. These presentations are intended to give each student practice in presenting his or her own work before a sympathetic but critical audience and to familiarize the faculty with the research. J. Sweasy

**MBIO 702a,b, Microbiology Seminar Series** All students are required to attend all Microbiology seminars scheduled throughout the academic year. Microbiologists from around the world are invited to describe their research. J. Sweasy

**MBIO 703a, Evasion of Host Defenses by Viruses, Bacteria, and Eukaryotic Parasites** A required course for Microbiology first- and second-year students; not for credit. The course is offered every second year, alternating with MBIO 700a, so that it can be taken once during each student’s tenure in the program. Students present and discuss papers on the strategies employed by microbial organisms to evade either cell-intrinsic defenses, such as the induction of programmed cell death, or response operating at the level of the organism, such as adaptive immunity. P. Tattersall

**MBIO 734a/GENE 734a, Molecular Biology of Animal Viruses** Lecture course with emphasis on mechanisms of viral replication, oncogenic transformation, and virus-host cell interactions. D. DiMaio, G. Miller, P. Tattersall, W. Mothes, J. Rose, R. Means, M. Robek
MOLECULAR BIOPHYSICS AND BIOCHEMISTRY

Offices: JWG 304, 432.2077; SHM C106, 785.4246

Professor (Adjunct) of Research K. R. Williams

Associate Professors J. H. Cabral, E. M. De La Cruz, M. R. Koelle, A. J. Koleske, A. D. Miranker, V. M. Unger

Assistant Professors T. Biederer, Y. E. Modis, A. E. Rhoades, Y. Xiong

Senior Research Scientists C. M. Joyce, F. M. Richards

Research Scientists J. L. Burton, P. Flory (Genetics), S. M. Mane, K. Tykowski, J. Wang

Lecturers C. A. Bascom-Slack, A. A. Belperron (Medicine), R. J. Brown, E. L. Herzog (Medicine), J. S. Kain (Pediatrics), A. B. Pawashe, M. P. Strout (Medicine), E. C. Thrower (Medicine), R. Torres

[MB&B 523a, Biological Physics]

MB&B 545b, Methods and Logic in Molecular Biology An examination of fundamental concepts in molecular biology through analysis of landmark papers. Development of skills in reading the primary scientific literature and in critical thinking. Open only to MB&B students pursuing the B.S./M.S. degree. A. Koleske, L. Regan, P. Sung

MB&B 600a, Principles of Biochemistry I Discussion of the physical, structural, and functional properties of proteins, lipids, and carbohydrates, three major classes of molecules in living organisms. Energy metabolism, hormone signaling, and muscle contraction as examples of complex biological processes whose underlying mechanisms can be
understood by identifying and analyzing the molecules responsible for these phenomena. M. Koelle, T. Biederer

MB&B 601b, Principles of Biochemistry II A continuation of MB&B 600a that considers the chemistry and metabolism of nucleic acids, the mechanism and regulation of protein and nucleic acid synthesis, and selected topics in macromolecular biochemistry. J. Steitz, S. Strobel

MB&B 602a/CBIO 602a/MCDB 602a, Molecular Cell Biology A comprehensive introduction to the molecular and mechanistic aspects of cell biology for graduate students in all programs. Emphasizes fundamental issues of cellular organization, regulation, biogenesis, and function at the molecular level. S. Wolin, and staff

MB&B 625a/GENE 625a/MCDB 625a, Basic Concepts of Genetic Analysis The universal principles of genetic analysis in eukaryotes are discussed in lectures. Students also read a small selection of primary papers illustrating the very best of genetic analysis and dissect them in detail in the discussion sections. While other Yale graduate molecular genetics courses emphasize molecular biology, this course focuses on the concepts and logic underlying modern genetic analysis. T. Xu, M. Koelle, and staff

MB&B 630b/MCDB 630b, Biochemical and Biophysical Approaches in Molecular and Cellular Biology This graduate course introduces the theory and application of biochemical and biophysical methods to study the structure and function of biological macromolecules. The course considers the basic physical chemistry required in cellular and molecular biology but does not require a previous course in physical chemistry. One class per week is a lecture introducing a topic. The second class is a discussion of one or two research papers utilizing those methods. Does not count for graduate course credit for MB&B graduate students. T. Pollard, A. Miranker, and staff

[MB&B 635a1, Mathematical Methods in Biophysics]

MB&B 650, Laboratory Rotation for First-Year Students Required for all MB&B first-year graduate students. Credit for full year only. M. Solomon

MB&B 676b, Responsible Conduct of Research Designed for students who are beginning to do scientific research. The course seeks to describe some of the basic features of life in contemporary research and some of the personal and professional issues that researchers encounter in their work. Approximately six sessions, run in a seminar/discussion format. Required for all first-year MB&B graduate students. T. Biederer and staff

MB&B 705a/GENE 705a/MCDB 505a, Molecular Genetics of Prokaryotes Molecular aspects of the storage, replication, evolution, and expression of genetic material in prokaryotes. Prerequisites: previous or concurrent introductory courses in genetics and biochemistry. N. Grindley and staff

MB&B 710b4/C&MP 710b, Electron Cryo-Microscopy for Protein Structure Determination Understanding cellular function requires structural and biochemical studies at an ever-increasing level of complexity. The course is an introduction to the concepts and
applications of high-resolution electron cryo-microscopy. This rapidly emerging new technique is the only method that allows biological macromolecules to be studied at all levels of resolution from cellular organization to near atomic detail. Counts as 0.5 credits toward MB&B graduate course requirements. F. Sigworth, V. Unger

**MB&B 720a, Macromolecular Structure and Biophysical Analysis**  An in-depth analysis of macromolecular structure and its elucidation using modern methods of structural biology and biochemistry. Topics include architectural arrangements of proteins, RNA, and DNA; practical methods in structural analysis; and an introduction to diffraction and NMR. Prerequisites: physical chemistry (may be taken concurrently) and biochemistry. A. Miranker, L. Regan, Y. Xiong

**MB&B 721b, Macromolecular Interactions and Dynamic Properties**  This course examines dynamic properties of macromolecules, their interactions, catalytic activities, and methods for analyzing their behavior. Topics include macromolecular folding, binding interfaces, ligand interactions, and the properties of membrane proteins, enzymes, ribozymes, and molecular motors. These areas are presented together with modern methods for analysis of macromolecular associations and dynamic properties. Prerequisites: biochemistry, physical chemistry, and MB&B 720a or permission of the instructor. D. Engelman, E. Rhoades, Y. Xiong

**MB&B 730a, Methods and Logic in Molecular Biology**  This course examines fundamental concepts in molecular biology through intense critical analysis of the primary literature. The objective is to develop primary literature reading and critical thinking skills. Required of and open only to first-year graduate students in MB&B. M. Solomon, N. Grindley, A. Koleske, L. Regan

**MB&B 743b/Gene 743b/MCDB 743b, Advanced Eukaryotic Molecular Biology**  Selected topics in transcriptional control, regulation of chromatin structure, mRNA processing, mRNA stability, RNA interference, translation, protein degradation, DNA replication, DNA repair, site-specific DNA recombination, somatic hypermutation. Prerequisite: biochemistry or permission of the instructor. M. Hochstrasser, A. Koleske, P. Sung

**MB&B 749a/Gene 749a, Medical Impact of Basic Science**  Consideration of examples of recent discoveries in basic science that have elucidated the molecular origins of disease or that have suggested new therapies for disease. Emphasis is placed on the fundamental principles on which these advances rely. Reading is from the primary scientific and medical literature, with emphasis on developing the ability to read this literature critically. Aimed primarily at undergraduates. Prerequisite: biochemistry or permission of the instructor. May not be taken by MB&B B.S./MS. students for graduate course credit. J. Steitz, M. Hochstrasser, A. Miranker, T. Steitz, L. Regan, P. Sung

**MB&B 750a, Biological Membranes**  Biological membranes and their resident proteins are essential for cellular function; yet comparatively little is known about their structure and dynamics. This class provides an introduction to the biochemistry and biophysics of lipids, lipid bilayers, and lipid-derived second messengers. In addition, structural as well as functional aspects of the different classes of membrane proteins are discussed.
along with an outline of experimental approaches used to achieve an understanding of membrane protein structure and function at a molecular level. Counts as 0.5 credits toward MB&B graduate course requirements. Prerequisite: biochemistry. T. Biederer, D. Engelman

MB&B 752b/CB&B 752b/CPSC 752b/MCDB 752b, Genomics and Bioinformatics Genomics describes the determination of the nucleotide sequence and many further analyses to discover functional and structural information on all the genes of an organism. Topics include the methods and results of functional and structural gene analysis on a genome-wide scale as well as a discussion of the implications of this research. Bioinformatics describes the computational analysis of genomes and macromolecular structures on a large scale. Topics include sequence alignment, biological database design, comparative genomics, geometric analysis of protein structure, and macromolecular simulation. Prerequisite: EEB 122b and MATH 115, or permission of the instructor. M. Gerstein, M. Snyder, and staff

MB&B 760b3, Principles of Macromolecular Crystallography Rigorous introduction to the principles of macromolecular crystallography, aimed at students who are planning to carry out structural studies involving X-ray crystallography or who want to obtain in-depth knowledge for critical analysis of published crystal structures. Counts as 0.5 credits toward MB&B graduate course requirements. Prerequisites: physical chemistry and biochemistry. T. Steitz

MB&B 761b4, X-Ray Crystallography Workshop This laboratory course provides hands-on training in the practical aspects of macromolecular structure determination by X-ray crystallography. Topics include data collection, data reduction, phasing by multiwavelength anomalous diffraction and molecular replacement, solvent flattening, non-crystallographic symmetry averaging, electron density interpretation, model building, structure refinement, and structure validation. The course includes training in the use of computer programs used to perform these calculations. Counts as 0.5 credits toward MB&B graduate course requirements. Prerequisites: MB&B 760b3 and a working exposure to the Unix operating system. Y. Xiong, Y. Modis, and staff

[MB&B 765b, Enzyme Mechanisms]

MB&B 800a, Advanced Topics in Molecular Medicine This seminar course, which covers topics in the molecular mechanisms of disease, illustrates timely issues in areas such as protein chemistry and enzymology, intermediary metabolism, nucleic acid biochemistry, gene expression, and virology. M.D. and M.D./Ph.D. students only. Prerequisite: biochemistry (may be taken concurrently). S. J. Baserga, W. Konigsberg, and staff

MB&B 900a or 901b, Reading Course in Biophysics Directed reading course in biophysics. Term paper required. By arrangement with faculty. Open only to graduate students in MB&B. M. Solomon

MB&B 902a or 903b, Reading Course in Molecular Genetics Directed reading course in molecular genetics. Term paper required. By arrangement with faculty. Open only to graduate students in MB&B. M. Solomon
MB&B 904a or 905b, Reading Course in Biochemistry  Directed reading course in biochemistry. Term paper required. By arrangement with faculty. Open only to graduate students in MB&B. M. Solomon

NBIO 500b/NSCI 510b, Structural and Functional Organization of the Human Nervous System  An integrative overview of the structure and function of the human brain as it pertains to major neurological and psychiatric disorders. Neuroanatomy, neurophysiology, and clinical correlations are interrelated to provide essential background in the neurosciences. Lectures in neurocytology and neuroanatomy survey neuronal organization in the human brain, with emphasis on long fiber tracts related to clinical neurology. Weekly three-hour laboratory sessions devoted to neuroanatomy in which students dissect the human brain and examine histological sections in close collaboration with faculty members. Lectures in neurophysiology cover various aspects of neural function at the cellular level, with a strong emphasis on the mammalian nervous system. Clinical correlations consist of five sessions given by one or two faculty members representing both basic and clinical sciences. These sessions relate neurological symptoms to cellular processes in various diseases of the brain. Variable class schedule; contact course instructors. M. Schwartz, P. Rakic, and staff

NBIO 501a/NSCI 501a, Principles of Neuroscience  General neuroscience seminar: lectures, readings, and discussion of selected topics in neuroscience. Emphasis is on how approaches at the molecular, cellular, physiological, and organismal levels can lead to understanding of neuronal and brain function. M. Picciotto, M. Yeckel
NBIO 502a, Structure and Function of Neocortex  This course covers anatomical, biochemical, and physiological organization of selected sensory, motor, and association regions of cortex. Sample topics discussed include development, evolution of multiple representations, columnar organization, and plasticity of neocortex. Permission of instructor required.

NBIO 507b/NSCI 507b, Cellular and Molecular Mechanisms of Neurologic Disease  Focuses on those diseases (Alzheimer’s, Parkinson’s, ALS, and other neurodegenerative diseases, Triplet Repeat induced diseases, multiple sclerosis, epilepsy, etc.) in which modern neuroscience has advanced mechanistic explanations for clinical conditions. The course highlights recent molecular, electrophysiological, and imaging experiments in parsing disease mechanisms. The application of pathophysiologic understanding to therapeutics is considered. Web casts of the lectures and Internet-based interactive tutorials are also available. The course extends a twelve-lecture course, Neurobiologic Mechanisms of Disease, offered in the spring of 2007. The course can be taken for credit or audited. Those wishing credit will be graded on a 30-minute Internet-based final exam and a term paper. D. Navaratnam, S. Strittmatter, S. Waxman

NBIO 509b/NSCI 539b, Synaptic Organization of the Nervous System  An integrative introduction to the principles underlying the organization of neural systems. The focus is on the best-understood systems, including spinal cord, olfactory bulb, retina, cerebellum, thalamus, basal ganglia, and cerebral cortex. Students integrate experimental findings from anatomy, electrophysiology, and neuropharmacology with computational models at the cellular and circuit level to understand the neural basis of behavior. G. Shepherd, A. Williamson, M. Hines

NBIO 510a, Introduction to Methods in Cellular and Molecular Neurobiology  Firsthand insight into various techniques and approaches used in neuroscience. Light microscopic techniques include various metallic impregnation methods, autoradiography, anterograde and retrograde axonal transport methods, hybridoma and recombinant DNA technology, deoxyglucose metabolic method, fluorescent and immunocytochemical methods. Electron microscopy encompasses transmission, electronmicroscopic autoradiography, and immuno-peroxidase methodology. Choice of techniques and hours to be arranged with individual faculty or staff members of the Department of Neurobiology.

NBIO 511, Introduction to Techniques Used in Electrophysiological Analysis at the Cellular Level  Includes practical training in in vivo and in vitro nervous system preparations, extracellular and intracellular recordings, sensory stimulation, dye injections, and selected neuropharmacological procedures. Choice of techniques and hours to be arranged with individual faculty of the Department of Neurobiology. Neurobiology faculty

[NBO 524b/NSCI 514b, Neurodevelopment and Neuropsychiatric Disorders]

NBIO 535b/NSCI 535b, History of Modern Neuroscience  Survey of classical papers that have been the foundation for the rise of modern neuroscience. Areas covered range from genes and proteins through cells and systems to behavior. Classes combine overviews of different areas with discussions of selected classical papers. Emphasis is on how a convergence of techniques, concepts, and personalities has been the basis for major advances.
The course shows how current studies in neuroscience build on the early pioneering work. G. Shepherd

[NBIO 570a/NSCI 570a, Cellular and Network Dynamics of Sensory and Motor Functions]

[NBIO 590a/NSCI 590a, Sensory Neuroethology: Bats and Owls, Electric Fish and Beyond]

NBIO 602, Topics in Cortical Development and Evolution This advanced tutorial course involves extensive reading, discussion, and pilot experiments on the topic. P. Rakic

NBIO 610b, Fundamentals in Neurophysiology This course is designed for students who wish to gain a theoretical and practical knowledge of modern neurophysiology. Graduate students specializing in neurophysiology and non-neurophysiology are encouraged to attend, as the course begins at a very basic level and progresses to more complicated topics. Topics include properties of ion channels, firing properties of neurons, synaptic transmission, and neurophysiology methodology. V. Pieribone, F. Sigworth

NBIO 720a/MCDB 720a/NSCI 720a, Neurobiology Examination of the excitability of the nerve cell membrane provides a starting point for the study of molecular, cellular, and intracellular mechanisms underlying the generation and control of behavior. H. Keshishian, P. Forscher

Lecturer  L. Bangalore

Neurology 102, Clinical Neuroscience Core Clerkship  The primary goal of this four-week clinical clerkship is to provide students with a fundamental approach to the nervous system. Specifically, this means the history, examination, diagnostic imaging, and treatment in the context of specific patients. Additionally, there is a series of lectures covering the broad range of conditions students are likely to encounter, such as trauma, stroke, infections, tumors, dementias, and seizures. Students take call with neurology residents once a week at Yale-New Haven Hospital; students assigned to neurosurgery take call with the residents on that service. After having given input on their preferences, students
are placed on one of the following services for their clerkships: adult inpatient neurology, adult neurology consultation service, pediatric neurology, neurosurgery. All rotations are done at YNHH, the VA Connecticut Healthcare System, West Haven, or St. Raphael’s Hospital. H. Patwa, L. Ment, C. Duncan, H. Blumenfeld

**Neurology 103, Clinical Neurology Elective** Assignments for the clinical neurology elective are to the YNHH neurology consultation service, a rotation consisting of all outpatient clinics; or to the YNHH Inpatient Neurology Service. Four-week blocks coinciding with clerkship dates are preferred, but scheduling of electives is somewhat flexible. Students are able to request a choice, but assignment is made to assure that there is a balanced distribution between students in the required Neuroscience Clerkship and those doing electives, in order to allow an optimal learning experience for all students. Students work directly with attending faculty, chief residents, and junior residents as well as other medical students, rotators, and support staff. In addition to in-hospital patient evaluation and care, students on a consultation service are assigned to outpatient clinics. The students participate in departmental conferences and seminars. In addition, participation in most of the activities of the required Neuroscience Clerkship (e.g., didactic lectures) is encouraged (see Neurology 102 for description of clerkship details). The department is receptive to other specially tailored programs in areas such as epilepsy, stroke, movement disorders, neuroimmunology, etc., as well as clinical neurophysiology and research methods. H. Patwa and associates

**Neurology 104, Clinical Neurology Subinternship** Under appropriate supervision, students directly examine, diagnose, and manage patients on the neurology services at Yale-New Haven Hospital and attend daily teaching rounds and conferences. Hours to be arranged. Four-week rotations are recommended; alternative services are possible. Limited to two students each period. H. Patwa and associates

**Neurology 106b, Clinical Neurophysiology** Seminars and demonstrations in clinical applications of neurophysiology: electromyography and electroencephalography. Basic electronics are taught along with standard practice of recording and interpreting neurophysiology studies. J. M. Goldstein, H. Patwa, S. P. Novella

**Neurology 108b/NSCI 507b, Cellular and Molecular Mechanisms of Neurological Disease** Focuses on those diseases (Alzheimer’s, Parkinson’s, ALS and other neurodegenerative diseases, triplet repeat induced diseases, multiple sclerosis, epilepsy, etc.) in which modern neuroscience has advanced mechanistic explanations for clinical conditions. The course highlights recent molecular, electrophysiological, and imaging experiments in parsing disease mechanisms. The application of pathophysiologic understanding to therapeutics is considered. D. Navaratnam, S. Strittmatter, S. Waxman

**Neurology 112b, Neuro-Oncology** Neurological complications occur in approximately 20 percent of hospitalized oncology patients. The neurological complications of systemic cancer, as well as of primary CNS tumors, are discussed in depth. Issues regarding diagnosis and management of metastatic disease involving the nervous system as well as treatment-related complications are reviewed. In addition, metabolic and vascular disturbances and infections unique to the oncology patient that involve the nervous system are discussed. Specific cases are presented and arrangements are made to see specific patients
during the elective period. This course is offered every three weeks with two lectures each week and is limited to three or four students per session. J. Bachring

**Neurology 114b, Physiology of the Mammalian Nervous System**  The overall objective of this laboratory course is to introduce the student by hands-on experience to a variety of cellular electrophysiological techniques used in the study of the mammalian nervous system. Students set up a small electrophysiology laboratory and carry out experiments with the supervision of faculty. Laboratories include sucrose gap in whole nerve, single microelectrode current and voltage clamp recording of sensory neurons, field potential studies in rat hippocampal slice, and patch clamp analysis of cultured neurons. This course is limited to six to eight students. Permission of instructor is required for enrollment, 203.937.3802. J. D. Kocsis
**NEUROSURGERY**

Office: TMP 4, 785.2805

**Associate Research Scientists**  N. Avdievich, K. Bilguvar, L. Chen, L. Fu, P. K. Ghosh, H. Huang, Y. Li, M. N. Spann, G. Wollmann, K. Wu

**Clinical Professor**  L. M. Davey

**Associate Clinical Professors**  F. C. Brown, I. Goodrich, D. E. Nijensohn, M. Westerveld

**Clinical Instructors**  E. W. Akeyson, J. L. Gorelick

**Lecturer**  E. M. Lydon

**Neurosurgery 101, Neurological Surgery**  This is an externship in which the student is involved in inpatient evaluation, outpatient visits, supervised emergency, and inpatient consultations. The student attends the operating room, follows patients, and is expected to correlate the clinical experience with basic neuroscience. K. M. Abbed, J. Baehring, K. R. Bulsara, V. Chiang, R. B. Duckrow, C. C. Duncan, M. Gunel, J. King, J. M. Piepmeier, D. D. Spencer, K. P. Vives

**Neurosurgery 102, Investigational Neuroscience**  Typically taken during completion of the thesis requirement. Specific projects are by agreement with faculty members. Ongoing laboratory research includes the molecular neuroanatomical assessment of the epileptic focus (N. C. deLanerolle); ultrastructural assessment of organization and plasticity in local synaptic networks (C. A. Greer); the distribution and specificity of membrane-bound proteins directing neuronal growth (A. Van den Pol); glial cell function at synapses; intercellular communication promoting neurogenesis (A. Bordey); human and animal slice electrophysiology (A. Williamson, A. Bordey); human and animal intracerebral microdialysis (D. Spencer, I. Cavus, T. Eid); image-guided neurosurgical robotics and biophysical studies of brain imaging (D. Spencer, J. Duncan, K. Vives); stimulation of the brain for chronic neurological diseases (K. Vives, R. B. Duckrow, D. Spencer);
molecular genetics of neurological disease (M. Gunel); angiogenesis and neurogenesis, skull base anatomy, bypass techniques, and endovascular technology development (K. Bulsara); characterization of ensheathing cells in promoting axonal elongation (C. A. Greer). Clinical research includes neurotrauma (V. Chiang), neuropsychological studies (F. Brown, M. Spann, S. Winstanley), spine disease and clinical trials (K. Abbed, Z. Ghogawala), epilepsy surgery (D. Spencer, K. Vives), pediatric neurosurgery outcomes (C. Duncan), neurooncology (J. Piepmeier, J. Baehring), basic mechanisms in CNS lymphoma (J. Baehring), and stereotactic radiosurgery (V. Chiang, K. Vives). Available throughout the year. Arrangements made with C. A. Greer
OBSTETRICS, GYNECOLOGY, AND REPRODUCTIVE SCIENCES

Research Scientists  Z. Hu, H. J. Kliman, G. Krikun, F. Schatz

Obstetrics, Gynecology, and Reproductive Sciences 103, Core Clerkship  This core clerkship is a six-week rotation in which students serve as clinical clerks on the following services: obstetrics (two weeks), gynecology (two weeks), and ambulatory/antenatal (two weeks). Yale-New Haven Hospital and Bridgeport Hospital serve as the main clinical sites for this rotation. During the first week of the six-week clerkship, all students attend an in-depth evening teaching session with the Gynecologic Teaching Associates (GTA). At this session, they are carefully taught pelvic and breast examination techniques, and practice these techniques with the GTA. These practice sessions prepare students to adeptly handle actual patient examinations, review techniques and instruments, as well as understand how to manage patient encounters. During the Obstetrics portion of the rotation (one week Day Float and one week Night Float), the clinical clerk is assigned to the Labor and Delivery Unit and is expected to actively participate in patient care commensurate with his or her experience. Students are expected to work up and follow patients during the labor and delivery process, write notes during the intrapartum period, participate in vaginal deliveries, scrub in and assist in Cesarean deliveries, and participate in the patient’s postpartum care. Students on the Gynecology services become familiar with the common disorders encountered in gynecological practice. They scrub for both major and minor surgeries, including those performed for gynecologic malignancy. The rotation offers an opportunity for the student to learn preoperative and postoperative management of gynecologic patients and to review pelvic and abdominal anatomy. There is one Saturday (day) call during the Gynecology segment. The students spend two weeks in the ambulatory OB/GYN setting where they actively participate in antenatal care of pregnant patients as well as preventative and urgent healthcare visits for non-pregnant women. Students are supervised by attendings, physician associates, midwives, and residents as they learn to take histories, perform pelvic and breast exams, and gain experience in conducting normal obstetrical visits and routine gynecological care. The student is expected to gain experience in topics such as contraceptive counseling, family planning, menopause management, and other common patient complaints. Throughout the rotation, a didactic curriculum is delivered to cover the core topics in Obstetrics and Gynecology, which includes seminars, lectures, clinical reasoning workshops, and student presentations. Evaluation of the student is based on clinical performance and knowledge, professionalism and attendance, participation at rounds and didactics, student presentations, and submitted write-ups for the student portfolio. The recommended text for this elective is Obstetrics and Gynecology at a Glance by Errol Norwitz and John Schorge. Clerkship director: J. Illuzzi

Obstetrics, Gynecology, and Reproductive Sciences 107, Perinatal Elective  The Maternal Fetal Medicine Division of the Department of Obstetrics, Gynecology, and Reproductive Sciences offers a four-week High-Risk Obstetrics elective for fourth-year medical students. The student functions as a Sub-Intern and team member in the care of high-risk obstetrical patients at Yale-New Haven Hospital. In addition to inpatient duties, the
student attends the outpatient clinic once a week. Students also participate in prenatal ultrasound sessions as well as labor and delivery activities. Students are expected to take overnight call each Wednesday and two Sundays of the rotation. Numerous didactic conferences are held during the rotation. It is recommended that students use the text Williams Obstetrics (Cunningham) to prepare for this experience and for research during the rotation. Evaluation of the student is based on clinical performance, participation at rounds, and the student’s presentation of one evidence-based case review to members of the MFM Division. Prerequisite: Obstetrics, Gynecology, and Reproductive Sciences 103, Core Clerkship or equivalent. Faculty coordinator: F. Galerneau

**Obstetrics, Gynecology, and Reproductive Sciences 108, Reproductive Endocrinology and Infertility Elective** The Reproductive Endocrine and Infertility division offers a four-week sub-internship to students. In addition to gaining knowledge of human reproductive endocrine function, students are introduced to disruptions in physiology and function leading to endocrinological and infertility problems. Typical clinical scenarios include androgen excess syndromes, hyperprolactinemia, anovulatory syndromes, endometriosis, and genetic abnormalities associated with menstrual anomalies and/or infertility. Exposure to Advanced Reproductive Technologies (ART) is integrated into this elective. In addition to the outpatient clinic/surgery and the in-patient service, students have the opportunity to attend division-specific conferences. Evaluation of the student is based on clinical performance, participation at rounds, and presentation of a case-based review of the literature. Prerequisite: Obstetrics, Gynecology, and Reproductive Sciences 103, Core Clerkship or equivalent. It should be noted that it is necessary to travel to the Long Wharf Medical Center, 150 Sargent Drive, New Haven, for this sub-internship program. There is no Night Call on this elective. Faculty coordinator: B. Rackow

**Obstetrics, Gynecology, and Reproductive Sciences 109, GYN-Oncology Elective** The Gynecology Oncology Division offers a four-week oncology elective to enhance the student’s knowledge of the diagnosis and management of women’s gynecologic malignancies. The student is exposed to all modalities of treatment for gynecologic malignancies including radical gynecological surgery, chemotherapy, and radiation therapy. The student is expected to be an integral part of the team in the management of the patients admitted to the service. The student admits patients and takes part in their care throughout the elective period. The student is assigned to the operating room, especially to assist the patient whom he or she has evaluated. In addition to operating room exposure, extensive experience is gained in the postoperative management of these patients. The student attends one-day surgical procedures to observe the placement of brachytherapy and other procedures, e.g., cystoscopy, proctoscopy examination under anesthesia with biopsy. On a weekly basis, students attend divisional teaching sessions as well as the multidisciplinary tumor conference. There is no Night Call on this elective. The recommended text is Clinical Gynecologic Oncology (DiSaia). Prerequisite: Obstetrics, Gynecology, and Reproductive Sciences 103, Core Clerkship or equivalent. Faculty coordinator: T. Rutherford

**Obstetrics, Gynecology, and Reproductive Sciences 110, Gallup Indian Medical Center (New Mexico) Elective** The general OB/GYN department of the Gallup Indian Medical Center (GIMC) in New Mexico offers a subinternship in Obstetrics and Gynecology to
fourth-year Yale medical students. This center provides OB/GYN health care to a growing underserved population. There are no residents at GIMC and, therefore, the student gains first-assistant experience during this rotation. The center has 20,000 outpatient visits, 750 deliveries, and 400 surgical cases per year. Bedside rounds, hands-on teaching, formal and informal lectures, and weekly conferences (High-Risk OB, GYN M&M, C-Section review) are integrated into this extramural elective. Students also experience an immersion in the Navajo culture. Evaluation of students is based on clinical performance, participation at rounds, and a final case-based presentation. Night Call is approximately every 4–5 nights. The recommended text for this elective is Danforth's Obstetrics & Gynecology. Prerequisite: Obstetrics, Gynecology, and Reproductive Sciences 103, Core Clerkship or equivalent. Students are responsible for the cost of travel, lodging, and miscellaneous expenses. Faculty coordinator: G. Lynch (on site at GIMC, New Mexico)

**Obstetrics, Gynecology, and Reproductive Sciences 111, Ambulatory Care OB/GYN Elective** The goal of this four-week elective is to provide a broad exposure to outpatient gynecologic issues, such as contraception, family planning, menstrual abnormalities, pelvic pain, sexually transmitted disease, infertility, disorders of urinary continence, screening for gynecologic malignancies, and management of menopausal symptoms that are commonly encountered in the ambulatory setting. The student also has the opportunity to participate in the prenatal care of pregnant women, in order to gain a deeper understanding of the changes in maternal physiology throughout gestation, prenatal diagnosis, genetic counseling, and the outpatient management of the pregnant woman and her fetus. This elective gives the student opportunities to work in the Yale-New Haven Hospital Women's Center, the Yale Urogynecology practice, the Yale Gynecologic Oncology Clinic, the Yale Maternal-Fetal Medicine practice, and the private community office setting. The recommended text for this elective is Obstetrics and Gynecology at a Glance by Errol Norwitz and John Schorge. Prerequisite: Obstetrics, Gynecology, and Reproductive Sciences 103, Core Clerkship or equivalent. It should be noted that it is necessary to travel to the Long Wharf Medical Center, 150 Sargent Drive, New Haven, and other private community offices for this subinternship program. There are no Yale shuttle services to some of these off-site facilities. There is no Night Call on this elective. Faculty coordinator: J. Illuzzi

Ophthalmology and Visual Science 120, Elective in Clinical Ophthalmology  
This intensive two-to-four-week elective consists of twenty half-day or forty half-day sessions during which the students observe in subspecialty clinics, evaluate patients in general ophthalmology clinics, observe ophthalmic surgery, participate in department conferences, and review independent study material provided by the department. A short presentation on a specific topic provides an opportunity to explore one aspect of ophthalmology in depth. Subspecialty experiences include corneal and external eye diseases, glaucoma, neuro-ophthalmology, oculoplastics, and retinal diseases. Each two-week elective is limited to two fourth-year students. Offered all year. S. Forster, faculty, and resident staff

Ophthalmology and Visual Science 126, Preceptorial in Ophthalmology  
In this elective the student has intensive exposure to one ophthalmic subspecialty under the direct supervision of one or two faculty members. Generally, the experience includes observing in a subspecialty clinic and the operating room, and may include completion of a minor
research project. Prior to starting this elective, the student must have outlined a plan of study and obtained the approval of the supervising faculty members. Faculty members in corneal and external diseases, glaucoma, oculoplastics, and retina participate. A list is available from the director of medical studies. Limited to fourth-year students. One to four weeks. Offered all year. Faculty

Office: YPB 133, 785.2579

Professors  R. Baron, M. R. Baumgaertner, G. E. Friedlaender (Chair), C. M. Gundberg, M. C. Horowitz, P. Jokl, L. D. Katz (Diagnostic Radiology), M. M. Panjabi (Emeritus), R. R. Pelker, T. S. Renshaw (Emeritus), W. O. Southwick (Emeritus)

Associate Professors  J. N. Grauer, J. F. Slade, A. M. Vignery, J. J. Yue

Assistant Professors  S. D. Dodds, V. P. Eswarakumar, A. H. Haims (Diagnostic Radiology), D. M. Lindskog, M. J. Medvecky, J. S. Reach, P. G. Whang

Instructors  S. E. Adolfsen, T. J. Gillon, R. S. Lee, M. E. Oetgen, K. M. Sutton

Associate Research Scientists  P. C. Ivancic, L. Li, S. Lotinun, D. Sha

Clinical Professors  K. J. Keggi, J. K. Lynch, U. H. Weil

Associate Clinical Professors  H. B. Bradburn, R. N. Margolis, E. J. Sella

Lecturers  L. R. Brenner, G. A. Gorecki, M. J. Parisi, B. G. Smith, R. E. Stevenson

Orthopaedics and Rehabilitation 102, Surgical Clerkship  Twelve weeks total. Students in the first clinical year spend six weeks on the general surgical service of one of the following: Yale-New Haven Hospital, VA Connecticut Healthcare System, West Haven, or Hospital of St. Raphael. Each student is integrated into the clinical team and assigned to specific patients. Responsibilities include taking histories and performing physical examinations on their patients, participating in the evaluation and management of these patients, following patients’ progress, and participating as assistants in the surgical operations performed upon their assigned cases. In addition, the students are expected to participate in the evaluation and care of the critically ill patient in the intensive care unit and the injured patient in the emergency room. Emphasis is placed on involving students in the process of clinical problem solving with the guidance of the residents and the attending preceptors. Conferences, case study groups, and rounds are held emphasizing this problem-oriented approach. Staff
The remaining six-week period is spent as a clinical clerk in the surgical specialties. Seven specialties are offered: cardiothoracic, otolaryngology, neurosurgery, orthopedics, pediatric, plastic and reconstructive, and urology. Each student elects three of these specialties and spends two weeks on each. While on the specialty of choice, the student is assigned patients in rotation and carries out complete histories, physical examinations, and certain procedures on these patients. While on the orthopaedic service, the student is assigned to one of the subspecialty teams, which include pediatric orthopaedics, spine, joint reconstruction, trauma, oncology, foot and ankle, hand, and sports medicine. The student is expected to participate, whenever possible, in the operative procedures performed on these patients and in their postoperative care. The student is also invited to attend the outpatient clinics in his or her assigned specialty. A series of one-hour lectures, rounds, or demonstrations is given each afternoon by the surgical specialties so that the student has the opportunity of gaining knowledge of the wide field of specialties even though he or she does not participate in every specialty as a clinical clerk. Directed by individual surgical specialty chiefs.

**Orthopaedics and Rehabilitation 104, Subinternship** Limited to third- and fourth-year clinical years, with prior clerkship rotation. The student is an active member of one of the orthopaedic teaching teams (pediatric orthopaedics, spine, joint reconstruction, trauma, oncology, foot and ankle, hand, and sports medicine). Inpatient, outpatient, and operating room experience is supplemented by regular conferences. Limited to four students, preferably for one-month rotations, throughout the year. Arrangements must be made with K. Umlauf.

**Orthopaedics and Rehabilitation 108, Subinternship, Adult Reconstructive and Rehabilitative Orthopaedics, VA Connecticut Healthcare System, West Haven** The student functions as the intern on a large adult orthopaedic service. He or she attends conferences at the Veterans Affairs Connecticut Healthcare System, West Haven, and at Yale-New Haven Hospital. (YNHH conferences include an ongoing seminar on basic sciences as related to the musculoskeletal diseases.) The student is a full participant in the outpatient department and in the work of the operating room. This subinternship offers an intensive clinical experience with a variety of complex orthopaedic reconstructive problems. Rotations are usually for one month. By arrangement with K. Umlauf.

**Orthopaedics and Rehabilitation 110, Biomechanics Terminology** Presentation and explanation of some basic biochemical terms used to describe body tissues, structures, and functions. More than one hundred basic engineering terms are introduced. The format of presentation for each term is (1) a precise definition followed by units of measurement in the new S.I. system, (2) a detailed explanation, and (3) examples of its use in the everyday experience as well as in the medical field. Mathematical formations are presented whenever necessary. Eight weeks, by arrangement. P. Ivancic.

**Orthopaedics and Rehabilitation 116, Basics of (Fracture) Diagnosis and Treatment** A six-week seminar in the basic elements of diagnosis and treatment of a spectrum of musculoskeletal trauma. M. Baumgaertner.

**Orthopaedics and Rehabilitation 118, Musculoskeletal Anatomy** The basics of musculoskeletal anatomy from a functional anatomic and surgical perspective. The material is
presented using prosected specimens. Knowledge of Anatomy 100a or its equivalent is assumed. M. Baumgaertner

Orthopaedics and Rehabilitation 120, Rehabilitation Medicine at Gaylord Hospital

A four-week elective rotation designed to provide a comprehensive view of rehabilitation. The elective is composed of didactic sessions and clinical experiences in both the inpatient and outpatient setting. Areas of primary focus include spinal cord injury, head trauma, multiple trauma, amputations, pain management, occupational rehabilitation, stroke, and other neurologic rehabilitation. Specific problems, such as gait deviation, heterotopic ossification, and spasticity are addressed. Therapeutic modalities—bracing and other durable medical equipment—are covered. The roles of allied health professionals, including physical, occupational, and speech therapies, and neuropsychology are demonstrated. Available throughout the year by arrangement with A. Sicklick and D. Rosenblum
PATHOLOGY

Office: LH 108, 785.2759

Associate Professors J. L. Brandsma (Comparative Medicine), G. Haines, R. J. Homer, D. Jain, R. Lazova (Dermatology), W. Min, V. Parkash, M. E. Robert, G. S. Shadel

Instructors A. Galan (Dermatology), M. Harigopal

Senior Research Scientists M. Kashgarian, J. H. Kim, R. Yesner

Research Scientist C. L. Howe

Clinical Professors G. L. Davis, D. M. Lowell

Associate Clinical Professors P. N. Fiedler, L. Hao, P. Hui, D. F. Miller

Assistant Clinical Professors W. Carver, T. E. Ciesielski, N. A. Gelfman, G. M. Golenswky, R. N. Kranwinkel

Clinical Instructors W. G. Frederick, A. Katsnelson, G. M. Kleinman, S. L. Wain

Pathology 600, Pathological Basis of Human Disease Fundamental principles underlying the pathological alterations in function and structure that constitute the reaction of the organism to injury. Pathology of diseases involving special organs and systems. Correlation of the clinical and anatomical manifestations is emphasized. For YSPH graduate students and MSTP students who are required to take PATH 100 for graduate credit.

J. Madri and staff

Pathology 616, Autopsy Pathology Participation in the autopsy service with members of the house staff in pathology. Participation in autopsies and the presentation and review of the clinical and anatomical findings of postmortem examinations with senior members of the department. Opportunities exist for correlation studies with previous biopsies,
and clinical investigative and cell biologic techniques in relation to necropsy material. Six weeks minimum, full time. Enrollment limited to two students. J. Sinard and staff

Pathology 617, Anatomic Pathology  The department offers an elective to medical students in the third and fourth years which provides a broad experience in general diagnostic techniques. Students have opportunities to participate in surgical pathology, cytology (including fine-needle aspiration), and autopsy. A daily conference is scheduled for both residents and students. In addition to direct responsibilities in the handling of the cases, the student has the opportunity to apply the special techniques of electron microscopy, immunohistochemistry, flow cytometry, and molecular diagnostics. A minimum of four weeks is suggested for this elective. Five students are accommodated every four to six weeks. B. West and staff

Pathology 620a and b, Laboratory Rotations in Experimental Pathology Laboratory rotations for first-year graduate students. D. Stern

Pathology 630b, Biomaterial-Tissue Interactions  An in-depth survey of the interactions between tissues and biomaterials, with an emphasis on the molecular- and cellular-level events that influence the performance and longevity of clinically relevant devices. Background in chemistry and cell biology is assumed. Open to advanced undergraduates with permission of the organizer. T. Kyriakides

Pathology 650b, Cellular and Molecular Biology of Cancer  A comprehensive survey of cancer research from the cellular to the clinical level. The relation of cancer to intracellular and intercellular regulation of cell proliferation is emphasized, as are animal models for cancer research. Background in molecular genetics and cell biology is assumed. D. F. Stern and R. Means

Pathology 670b, Biological Mechanisms of Reaction to Injury  An introduction to human biology and disease as a manifestation of reaction to injury. Topics include organ structure and function, cell injury, circulatory and inflammatory responses, disordered physiology, and neoplasia. M. Kashgarian and staff

Pathology 680a, Seminar in Pharmacology and Molecular Medicine  Readings and discussion in topics relevant to tumor biology, epithelial-mesenchymal transition, tumor angiogenesis, and metastases. The class emphasizes analysis of primary research literature and development of presentation skills. W. Min

Pathology 690a, Molecular Mechanisms of Disease  This course covers aspects of the fundamental molecular and cellular mechanisms underlying various human diseases. Many of the disorders discussed represent major forms of infectious, degenerative, vascular, neoplastic, and inflammatory disease. Additionally, certain rarer diseases that illustrate good models for investigation and/or application of basic biologic principles are covered in the course. The objective is to highlight advances in experimental and molecular medicine as they relate to understanding the pathogenesis of disease and the formulation of therapies. J. Sklar and M. Robek
PEDiATRICS

Office: LMP 4085, 785.4638

**Pediatrics 103, Third-Year Clerkship**  
The Pediatric Third Clerkship is an eight-week required rotation based on a national curriculum developed specifically for students beginning their clinical rotations. The students spend four weeks in the inpatient setting and four weeks in the outpatient setting. During the outpatient rotation, students are exposed to primary care as well as specialty care in the ambulatory setting. The inpatient portion of the rotation takes place at Yale-New Haven Hospital or Bridgeport Hospital. The objectives of the eight-week clerkship include improvement in knowledge as well as clinical skills such as history taking, physical examination skills, and problem solving. During the rotation, students are observed performing these skills by designated supervisors. They have the opportunity to supplement and complement their clinical experiences by completing computer-based cases, by working with a simulated model, and by interviewing standardized adolescent patients. Attention is paid to optimizing exposure to all pediatric age groups. The clinical experience is enhanced by a weekly interactive teaching session run by pediatric faculty members specifically for the third-year students. E. Colson, M. Bizzarro

**Pediatrics 128, Hematology–Oncology**  
A survey of the normal and abnormal hematology and the common malignancies of infancy and childhood. Students make initial
School of Medicine

rounds with the attending and the ward team at 7:30 a.m. The mornings are then spent in clinic seeing outpatients who come for therapy or follow-up. More extended bedside rounds, including time allotted for family discussions, take place in the afternoon. Students are expected to prepare a brief presentation for the team. One student, full time for two weeks, throughout the academic year. G. Kupfer and staff

**Pediatrics 139, Pediatric Neurology**  Students participate in the pediatric neurology clinic and see neurology patients on the pediatric wards. Up to two students, full time, for three weeks, throughout the academic year. L. R. Ment, G. Miller, E. Novotny, B. Shaywitz, S. Shaywitz

**Pediatrics 143b/Surgery 136b, Pediatric Surgery**  A general survey of pediatric surgical problems based on illustrated case summaries and subject presentation by students, with selected readings from the literature. Limited to six students, first and last six weeks of spring term. Once weekly, time to be arranged. C. K. Breuer, R. J. Touloukian, M. A. McKee, R. L. Moss

**Pediatrics 144, Clinical Clerkship in Pediatric Cardiology**  Developmental aspects of cardiovascular function as applied to infants and children in a clinical setting. Students are assigned to various members of the pediatric cardiology staff. Emphasis on physical diagnosis, use of noninvasive methods, and clinical physiologic correlates. Observation of catherization and operative procedures. One student every four weeks throughout the year. J. Asnes, M. Brueckner, J. Fahey, A. H. Friedman, G. Porter, B. Weeks

**Pediatrics 146, Clinical Pediatric Infectious Diseases**  Students participate in daily consultation rounds, Pediatric AIDS Clinic, and pediatric infectious diseases clinic. Students also participate in pediatric infectious disease rounds by presenting the case studies of one or more inpatients whom they have examined to a group of faculty and fellows. Rounds last approximately two hours (Thursday afternoon). Emphasis is placed on correlation of the clinical problem and its practical management with principles of infectious disease epidemiology and clinical microbiology (bacteriology, virology, and parasitology). Limited to two students per three- to six-week period throughout the academic year. W. Andiman, R. Baltimore, S. Bhaduri-McIntosh, M. Cappello, J. Kahn, G. Miller, E. Paintsil, G. Shapiro, M. Vazquez

**Pediatrics 148, Pediatric Endocrinology and Metabolism**  An extensive exposure to clinical pediatric endocrinology, in particular problems of growth, sexual development, thyroid disorders, adrenal diseases, obesity, type 1 and 2 diabetes mellitus, and other disorders of carbohydrate metabolism. A full six-week elective includes daily clinics in general endocrinology, diabetes, and hyper lipidemia/obesity, and the inpatient service. One student, full-time, six weeks, throughout the academic year. S. Boulware, T. Burgert, S. Caprio, T. Carpenter, E. Cengiz, M. Genel, S. Rivkees, K. Swan, W. V. Tamborlane, S. Weinzimer

**Pediatrics 152, Subinternship**  Senior students serve as intern equivalents in order to gain experience in providing care to pediatric patients. During the subinternship, students are directly responsible for the care of their assigned patients while under the supervision of senior residents and attending physicians. Subinterns spend four weeks on service. They are assigned to either the School Age and Adolescent unit, the Infant and Toddler unit,
or the Respiratory, Research, and Oncology (ROR) unit in the Department of Pediatrics at Yale-New Haven Children’s Hospital. D. Hersh and staff

**Pediatrics 153, Pediatric Gastroenterology/Hepatology** A general survey of clinical pediatric gastroenterology and hepatology with particular emphasis on inflammatory bowel disease, malabsorption, diarrheal disorders, nutrition, and liver disease. The elective includes daily inpatient rounds including rounds with pediatric liver transplant service, three weekly GI clinics, inherited metabolic liver disease clinic, and several weekly clinicopathologic conferences, as well as observation of endoscopic procedures. One student, full-time, three or six weeks, throughout the academic year. S. Husain, P. Mistry, D. Pashankar

**Pediatrics 154, Pediatric Respiratory Medicine** Students participate in the daily activities of the service in both the inpatient rounds and outpatient clinics. These include the evaluation of respiratory function in a variety of diseases including asthma, cystic fibrosis, bronchopulmonary dysplasia, pneumonia, aspiration syndromes, obstructive sleep disorders, and care of technology-dependent infants and children. Emphasis is on physical diagnosis. Rotations through the pulmonary function laboratory and the Children’s Sleep Center are available. Laboratory experience can be arranged. Participation in seminars and journal club are expected. One student, every two weeks, throughout the academic year. A. Bazzy-Asaad, S. Bhargava, M. Egan, A. Esquibies, P. Weiss

**Pediatrics 155, Pediatric Emergency Medicine** Senior students have the opportunity to evaluate and help manage a broad range of acute pediatric illnesses and injuries. Students are supervised by a Pediatric Emergency Medicine specialist. Clinical duties are scheduled by the program director. One student, full time, every four weeks throughout the year. L. D. Arnold and staff
PHARMACOLOGY

Office: SHM B204, 785.4372

Associate Professors  A. M. Bennett, M. P. DiGiovanna (Medicine), Y. Ha, R. Heimer (Epidemiology), M. E. Hodsdon (Laboratory Medicine), E. Lolis, G. Pizzorno (Medicine)

Assistant Professors  T. Boggon, D. A. Calderwood, S. Jordt, B. E. Turk

Senior Research Scientists  J. R. Cooper, W. H. Prusoff

Lecturer  R. J. Levine (Medicine)

PHAR 502a and b, Seminar in Pharmacology  A seminar given by a department faculty member on his or her area of interest to teach students how to critically evaluate papers and to improve the ability of students to give oral presentations.

PHAR 504a, Pharmacology I: Maintaining and Restoring Homeostasis  Lectures cover drug-receptor interactions, control of messenger systems and channels, and regulation of physiological systems. P. Dannies and staff

PHAR 504b, Pharmacology II: Interfering Selectively  Lectures cover antibiotics, immunotherapy, and chemotherapy. E. Lolis and staff

PHAR 506a and b, Methods in Pharmacological Research (Rotations)  Students work in laboratories of faculty of their choice. The period spent in each laboratory is one term. W. Sessa

PHAR 508b, Neuropharmacology  An intensive examination of current understanding of the sites and mechanisms involved in drug action on single nerve cells and on the brain. Emphasis on basic functions and illustrative examples of their disturbance by drugs. J. Howe

PHAR 518b, Current Topics in Cancer and Viral Therapy  This course discusses current and evolving topics in cancer and viral mechanisms of disease and potential treatments. Y. Cheng, E. Lolis
PSYCHIATRY

Office: 300 George Street, Suite 901, 785.2117

Senior Research Scientists  M. B. Bowers, J. D. Elsworth, G. Heninger

Research Scientists  A. Margolin, B. Morrow, J. Olausson, J. Poling, E. Ralevski

The Department of Psychiatry teaches in both preclinical and clinical years. The preclinical course is a study of medical behavioral science, rather than an introduction to clinical psychiatry. Specific clinical skills, such as interviewing and the recognition and management of psychiatric syndromes, are taught later in the curriculum and especially during the required clinical clerkship in Psychiatry. Electives are available for students with special interest in selected areas. All advanced clinical electives are numbered in the 200s. The required core clinical clerkship (Psychiatry 106) is a prerequisite for enrollment in any of these advanced clinical electives; an advanced clinical elective may not be taken instead of the required core clinical clerkship. Please note: All students signing up for a seminar elective must also register with the Medical Student Education Office, Department of Psychiatry, 785.2089 (pending approval of the instructor).

Psychiatry 101a, Patient-Centered Interviewing: The Patient’s Story This segment of the Pre-Clinical Clerkship focuses on the experience of illness—how people react to and cope with illness. The various psychosocial factors and psychological defenses which impact on the experience of illness, such as age, gender, social supports, socioeconomic status, and coping style, are examined. There is an emphasis on the patient interview and techniques for eliciting the patient’s story in an empathic and effective manner. The format includes lectures, demonstration interviews, and practice with standardized patients. R. Belitsky and Departments of Psychiatry and Medicine faculty
Psychiatry 101b, Biological Basis of Behavior  Lectures are integrated with the Neurology course, and include principles and neural mechanisms of learning and memory; neural systems involved in fear and anxiety; neural systems involved in reward and drug addiction; neural systems involved in stress; and neural systems involved in attention. Following each lecture, a psychiatrist interviews patients diagnosed with obsessive-compulsive disorder, panic disorder, cocaine abuse, post-traumatic stress disorder, and schizophrenia. These 1.5-hour clinical presentations, which include time for questions, link psychiatric symptoms to the neural mechanisms discussed in the lecture on that day. 2.5 hours per week. Department of Psychiatry faculty

Psychiatry 106, Clinical Clerkship  Skills and knowledge needed for the general practice of medicine are acquired in a clinical psychiatric setting. There is a “Patients in Crisis” component that emphasizes: conducting a competent screening interview in order to identify symptoms of a psychiatric or substance abuse disorder; performing a complete mental status examination of a patient who is emotionally disturbed or mentally ill; making a differential diagnosis, and planning for further evaluation and tests that would be useful in deciding among various diagnostic possibilities; making recommendations for biological, psychosocial, and/or social treatment interventions; assessing whether or not dangers to or from a patient exist; and understanding indications and procedures for lawful involuntary commitment of a patient to a mental hospital for treatment. There is also a “Psychiatry at the Interface with Medicine” component designed to provide students with an understanding of the presentation of psychiatric illness in patients with co-morbid medical disorders. Emphasis is placed on screening interviews, including mental status examination; identification of symptoms; and differential diagnosis and initial treatment recommendations of patients with co-morbid medical and psychiatric illness. Special emphasis is placed on evaluation of psychiatric emergencies and competency to make informed medical decisions. Additionally, students have the opportunity to learn and develop clinical skills through carefully designed outpatient experiences. R. Rohrbaugh and Department of Psychiatry faculty

Psychiatry 203, Subinternship in Hospital Psychiatry, Inpatient Division, Connecticut Mental Health Center  Intensive work with inpatients who suffer from major psychiatric disorders with or without substance abuse. Emphasis is on assessment, acute treatment, and arrangement of continuing care in the community. The clerk functions as an integral member of a multidisciplinary treatment team. Clinical research participation is encouraged. Opportunities available to explore special areas of interest (e.g., forensics, psychopharmacology, administrative) with Connecticut Mental Health Center faculty. The elective is given on the inpatient service, CMHC. Scheduled throughout the year during regular clerkship rotations for a minimum of four weeks. Prerequisite: Psychiatry 106. Maximum registration: two students. S. Jacobs, M. Jean-Baptiste, and staff. To enroll in this subinternship, please contact R. Rohrbaugh

Psychiatry 205, Subinternship in Medical Psychiatry (Consultation Psychiatry), Yale-New Haven Hospital, 2039 Clinic Building  This is an advanced clinical elective for third- and fourth-year students who have a particular interest in the psychiatric disorders that can occur in medical-surgical patients. The staff has special interests in differential diagnosis of medical vs. psychiatric illness, in psychopharmacology, and in computer
applications in psychiatry. Each student works up patients in parallel with advanced residents in inpatient and emergency department settings. Teaching occurs on daily walk rounds. Scheduled throughout the year during regular clerkship rotations (except July and August) for a minimum of four weeks. (Note: Fourth-year students will be given preference.) Prerequisite: Psychiatry 106. Maximum registration: one student per rotation. P. Desan, T. Stewart, W. H. Sledge, A. Papsun, and staff. To enroll in this subinternship, please contact R. Rohrbaugh

Psychiatry 206, Advanced Clinical Elective in Law and Psychiatry This clerkship program affords opportunities for fourth-year medical students to observe and participate in “competency to stand trial” evaluations with a clinical team that makes these assessments at the New Haven Correctional Center. In addition, they may attend Law School classes with students who represent psychiatric patients, observe civil commitment procedures, attend probate court hearings, as well as the criminal proceedings in local New Haven Superior Courts. Students attend work seminars where case evaluations and write-ups are discussed and prepared, and read appropriate legal cases and psychiatric literature. Students may be able to participate in parts of evaluations of insanity defense, custody determination, and other forensic issues. They attend the Law and Psychiatry Seminar during their rotation. Scheduled throughout the year (except August) during regular clerkship rotations for a minimum of four weeks. Prerequisite: Psychiatry 106. Maximum registration: two students. H. Zonana and staff. To enroll in this advanced clinical elective, please contact R. Rohrbaugh

Psychiatry 208, Subinternship in Consultation-Liaison Psychiatry at the VA Connecticut Healthcare System (VACHS), West Haven, Connecticut The Consultation-Liaison Service at the VACHS West Haven provides consultation to acute medical and surgical units, specialized rehabilitation units, and outpatient primary care clinics. Students participate in the management of patients with close supervision from attending staff. The goals of the rotation are (1) to increase skill in conducting a psychiatric interview which maximizes the collection of pertinent clinical data; (2) to use the data collected in formulating and implementing treatment plans emphasizing the interplay of biological and psychological factors in the patients’ presentation; (3) to experience the satisfaction of caring for patients with complex medical and psychiatric illness. Scheduled throughout the year for a minimum of four weeks. Open to third- and fourth-year medical students. Prerequisite: Psychiatry 106. Maximum registration: one student per rotation. C. Chiles and staff. To enroll in this subinternship, please contact R. Rohrbaugh

Psychiatry 209, Substance Abuse Elective An elective clinical training experience in substance abuse for interested third- and fourth-year students. The primary training site is the Outpatient Service at the VA Connecticut Healthcare System (VACHS) in West Haven. The substance abuse elective is scheduled for four weeks. This experience is an intensive one in which students work closely with addicted patients with chronic mental illness. Students interested in learning about medical detoxification from alcohol and/or opiates may participate in an intensive two-week elective in the Ambulatory School of Medicine Detoxification Clinic at the VACHS. Students learn about the evaluation and treatment of alcohol withdrawal and detoxification. Patients with benzodiazepine and opiate dependence are also treated in this clinic. Prerequisite: Psychiatry 106. Maximum
School of Medicine registration: two students. VACHS Faculty: L. Trevisan, I. Petrakis. Contact person (for VACHS): I. Petrakis, Psychiatry. To enroll in this advanced clinical elective, please contact R. Rohrbaugh

**Psychiatry 210, Subinternship in Hospital Psychiatry, Inpatient Division, Yale-New Haven Psychiatric Hospital** Intensive work with patients who suffer from major psychiatric disorders and range in age from college students to middle age. Emphasis is on assessment, acute treatment, and arrangement of post-discharge follow-up care in the community. The subintern is an advanced clerk functioning as a member of the multidisciplinary treatment team, taking on primary clinician and psychiatric/medical responsibilities for patients under the supervision of senior clinicians. The elective is given on the inpatient service at Y-NPHP; clinical research and outpatient involvement may be options. This subinternship is available throughout the year, during regular clerkship rotations for a minimum of four weeks. Prerequisite: Psychiatry 106. Maximum registration: one student per rotation. R. M. Milstein, M. Bowers, R. Hoffman, R. Tampi, and staff. To enroll in this subinternship, please contact R. Rohrbaugh

**Psychiatry 211, Subinternship in Clinical Neuroscience, Clinical Neuroscience Research Unit Inpatient Division** This clerkship offers senior medical students the opportunity to work closely with a variety of patients who are hospitalized during their participation and treatment in research protocols. The Clinical Neuroscience Research Unit (CNRU) is a thirteen-bed inpatient ward with associated outpatient clinics and basic science laboratories on the third floor of the Connecticut Mental Health Center (CMHC). Supervised implementation of novel psychopharmacology, exposure to multiple aspects of clinical and basic science research, and in-depth experience with individual and group psychotherapies are educational aspects of this elective. Patients’ diagnostic categories include depression, obsessive-compulsive disorder, schizophrenia, cocaine abuse, and substance abuse. Scheduled throughout the year for a minimum of four weeks. Prerequisites: Psychiatry 101 and 106. Maximum registration: one student per rotation. R. Malison, G. Heninger, V. Coric, Z. Bhagwagar, and staff. To enroll in this subinternship, please contact R. Rohrbaugh

**Psychiatry 214, Subinternship in Psychotic Disorders at G8W and the Schizophrenia Research Clinic at the VA Connecticut Healthcare System (VACHS) in West Haven, the Clinical Neuroscience Research Unit and the Psychopharmacology Intervention Program at the Connecticut Mental Health Center, the Community Care Center in West Haven** This subinternship is designed to provide an integrative exposure to the interface of psychopharmacology and psychosocial treatments for chronic psychotic disorders. Each individual requesting a subinternship is asked to outline his or her interest in psychotic disorders. Based on this information, a faculty mentor is assigned and a clinical program prepared that provides greater depth in the relevant areas. An effort is made to provide exposure to both hospital- and community-based treatments as well as clinical neuroscience advances. Within all treatment settings, subinterns have closely supervised direct clinical contact with patients. Subinterns are invited to attend academic conferences within the Department of Psychiatry focused on clinical and neuroscience issues relevant to psychosis. The goals of the rotation are (1) to expose the subintern to established and experimental medication treatments for psychotic disorders, particularly
Psychiatry; (2) to expose the subintern to rehabilitative approaches to schizophrenia; (3) to expose the subintern to community-based treatments for chronic mental illness. Scheduled throughout the year for a period of six to eight weeks. Prerequisite: Psychiatry 106. Maximum registration: one student per rotation. C. D’Souza, M. Bell, J. Cubells, L. Davidson, L. Harkness, S. Kruger, J. Krystal, and staff. To enroll in this subinternship, please contact R. Rohrbaugh

**Psychiatry 238, Subinternship in Early Psychosis: STEP Clinic**  
STEP (Specialized Treatment Early in Psychosis) is a multidisciplinary team-based treatment for individuals presenting early in the course of a psychotic illness. This clinic offers unique opportunities in the assessment and treatment of a population that is difficult to access in other clinical settings. Trainees have the opportunity to observe structured research assessments and interpretation of these scales in light of careful clinical follow-up. Given the diagnostic and prognostic heterogeneity of illnesses presenting with psychosis, this experience provides the opportunity to develop clinical expertise in diagnosis and management of a range of mental health issues. The enriched treatment includes cognitive-behavioral group therapy, family psycho-education groups, and cognitive remediation in addition to vocational support with a focus on rapidly reintegrating patients back to age-appropriate social, educational, and employment goals. Students have the opportunity to observe or participate in any of these treatments. The multidisciplinary and pluralistic nature of the intervention presents a rich opportunity to participate in collaborative care with other mental health disciplines. Trainees can also participate in regular seminars sponsored by the STEP and PRIME (Prevention through Risk Identification, Management, and Education) clinics. The latter is a research clinic focused on prodromal psychosis. Positions: 1-2. Site: Connecticut Mental Health Center (CMHC).

Scholarship: STEP is designed as a service delivery model with a built-in observational cohort and experimental pragmatic randomized controlled trial. Trainees are invited to take an active role in the various domains of scholarship including community and clinician education efforts, publication, and learning about clinical research design. V. Srihari (clinic director), J. Pollard (project director and family interventions coordinator, STEP clinic), C. Tek, (program director, Psychosis Team), L. Hyman (team leader, Psychosis Team), S. Woods (director, PRIME Clinic), J. Saksa (CBT coordinator, STEP Clinic), B. Walsh (clinical coordinator, PRIME Clinic). To enroll in this subinternship, please contact R. Rohrbaugh

**Psychiatry 325/CHLD 325, Child Psychiatry Elective, Yale Child Study Center**  
The aim of this elective is to provide the student with an intensive experience in infant, child, and adolescent psychiatry. The curriculum includes assessments of normal development and psychopathology in childhood, treatment methods, and research in major disorders of childhood. The elective takes advantage of the wide range of ongoing seminars, conferences, and clinical services in place at the Child Study Center. Teaching methods include seminars, conferences, field observations, ward rounds, and School of Medicine practica selected by the student following consultation with the director of medical studies, Child Study Center. Open to fourth-year students throughout the year. A. Martin, D. Stubbe, J. Woolston, and staff. To enroll in this advanced clinical elective, please contact A. Martin directly at 688.6016 or 785.3370
SURGERY

Office: FMB 102, 785.2697

Instructors  A. J. Carter, J. C. Escalon, M. W. Katigbak

Senior Research Scientists  G. L. Hammond, J. Latifpour

Associate Research Scientists  S. Bian, W. Gao, M. S. Kidd, L. Song

Clinical Professors  S. Ariyan, M. Arons, J. E. Fenn, J. F. Kveton, S. B. Nuland, R. S. Stahl, E. Yanagisawa

Surgery 103, Surgical Clerkship  This is a twelve-week block that includes a four-week core experience on one of the general surgery services at either Yale-New Haven Hospital or the West Haven VA Hospital (Gastroenterology, Oncology, Trauma, and VAMC), a four-week rotation that is divided into two weeks on Anesthesia and two weeks on Emergency Medicine, and an additional four-week subspecialty rotation on which students may select two 2-week subspecialty services, which are completed at Yale-New Haven Hospital (Cardiac, Endocrine, Orthopedics, Otolaryngology, Pediatrics, Peripheral Vascular, Plastic Surgery, Thoracic, Transplant, and Urology).

During all of the rotations on the Surgery services, the students can expect to be integrated into the clinical teams, working up patients to which they are assigned and participating in the evaluation and management of these patients (in both the inpatient and outpatient settings). In addition to knowledge acquisition, emphasis is placed on the development of basic clinical skills as well surgical problem-solving skills.

Throughout the twelve-week block, each student is assigned to a surgical mentor, who is responsible for monitoring progress, reinforcing core concepts, and facilitating skill development. In addition, there is a core curriculum, including a series of problem-oriented, interactive sessions focused on fundamental surgical problems, a twelve-week simulation course designed to facilitate clinical skill development, and a weekly case-based seminar, focused on decision making and doctor/patient interactions.

At the outset of the clerkship, the students receive an outline of learning objectives (for both knowledge and skills) and take a self-assessment examination. At the conclusion of the clerkship there is an exit interview and a final self-assessment examination.

Surgery 122, Subinternship, Plastic Surgery  Clinical experience as an intern on a large clinical ward. The student has experience in the management of craniofacial anomalies,
burns, trauma, hand surgery, head and neck surgery, reconstructive surgery of the head and neck and extremities, microsurgery, as well as surgery of the congenital anomalies and cosmetic surgery. Limited to one fourth-year student per month with a minimum of one-month rotations. Arrangements must be made with J. A. Persing

**Surgery 123b, Biochemical and Metabolic Foundations of Plastic and Reconstructive Surgery** A course designed to provide in-depth understanding of the molecular events underlying the diverse clinical phenomena encountered in plastic surgery. Topics include fluid electrolyte metabolism in the burn patient, biochemistry and metabolism of collagen and its relation to scarring and connective tissue disorders, normal wound healing, and disorders of the same. Offered for four weeks during the spring term, two hours per week by arrangement. Limited to two fourth-year students. J. A. Persing

**Surgery 129, Cardiopulmonary Transplantation** Intensive exposure to laboratory and clinical aspects of cardiac, cardiopulmonary, and pulmonary transplantation. Special emphasis on the relation between ongoing laboratory studies and clinical practice in this field. Clinical involvement in preoperative assessment of prospective transplant candidates, donor procurement, intraoperative management, and postoperative immunosuppression. Limited to one student by arrangement with J. Elefteriades

**Surgery 130, Subinternship, Cardiothoracic** Intensive exposure to preoperative and postoperative management of adult and pediatric cardiothoracic surgical patients and to intraoperative conduct of surgical procedures, with active participation in the operating room and in regular conferences. Students attend regular seminars covering major areas of cardiothoracic surgery with members of the faculty, and may be required to present a seminar on a subject in cardiothoracic surgery to faculty and resident staff. Limited to two students in the second clinical year. Three or six weeks by arrangement with J. Elefteriades

**Surgery 131, Subinternship, General Thoracic** Intensive exposure to preoperative and postoperative management of general thoracic surgical patients and to the intraoperative conduct of surgical procedures involving the lung, the chest wall, the thymus, and the esophagus. Included is an organized lecture series covering the entire field of general thoracic surgery. Students are expected to present a seminar at the conclusion of the subinternship, focusing on a specialized topic in general thoracic surgery. Six weeks by arrangement with J. Elefteriades

**Surgery 141, Outpatient Otolaryngology** This is an opportunity for those students who have not had exposure in otolaryngology to spend time with a full-time attending otolaryngologist seeing outpatients in an office setting. Timing is quite flexible and a student may spend one to three mornings or afternoons each week for one to four weeks. By arrangement with C. T. Sasaki and the full-time otolaryngology staff

**Surgery 142, Emergency Medicine** The student participates in the evaluation and treatment of adult emergency patients, learning appropriate work-up and therapy. Students are expected to attend morning conferences four mornings per week and to work four twelve-hour shifts that may include nights and weekends. Prerequisite: Surgery 103
**Surgery 143, Care of the Intensive Care Unit Patient** Didactic and clinical sessions in the Yale-New Haven Hospital SICU prepare the student to provide treatment for the critically ill patient. Topics include cardiopulmonary resuscitation, airway and ventilator management, assessment of the multiple trauma patient, and management of sepsis. Prerequisite: Surgery 103. Three to four weeks, by arrangement. K. Davis, L. Kaplan

**Surgery 144, Trauma Surgery** The student functions as an extern and participates actively in trauma service rounds, teaching conferences, trauma resuscitation, and operative management of trauma cases. Students are expected to attend conferences and take inhouse call with the chief resident of the trauma service. Prerequisite: Surgery 103. K. Davis

**Surgery 150, Plastic and Reconstructive Surgery** Evaluation and reconstructive surgery of deformities of congenital, traumatic, and neoplastic origin. Includes inpatient, outpatient, and operating room experience, supplemented by regular conferences. Limited to two students; available throughout the year. J. A. Persing

**Surgery 151, Subinternship, General Surgery** (Four weeks) Offered throughout the academic year at both Yale-New Haven Hospital and VA Connecticut Healthcare System, West Haven. Limited to second clinical year, one or two students per month. Arrangements must be made with W. Longo

**Surgery 152, Advanced Senior Seminar, General Surgery** This is a weekly evening seminar series covering advanced and controversial topics in general surgery. Three one-hour sessions include dinner at faculty homes and run from October through February. Reprints of pertinent articles provided prior to each seminar. Staff

**Surgery 153, Subinternship, Otolaryngology** This clinical experience is independent of the third-year Surgery/Otolaryngology rotation, and takes place on an individual basis. It includes operating room experience, ward responsibilities, and involvement in outpatient ENT. Yale-New Haven Hospital, the Hospital of St. Raphael, and the VA Connecticut Healthcare System, West Haven, are available for the rotation. Minimum rotation of four weeks; limited to one student. J. F. Kveton, C. T. Sasaki

**Surgery 158, Surgery at Waterbury Hospital** A well-supervised fourth-year clerkship including teaching rounds, operating room experience, outpatient clinical experience, and conferences in radiology, pathology, oncology, vascular surgery, and general surgery. Daily ICU rounds are conducted with an attending physician. Six weeks, for one or two students, with room and meals provided. E. Kwasnik and staff

**Surgery 159, Subinternship, Urology** Varied clinical studies, in-depth experience in all forms of urology. Limited to clinical years. One student per month, for three to four weeks. R. Weiss and staff

**Surgery 160, Surgery at St. Mary’s Hospital, Waterbury** Six-week subinternship in an affiliated community hospital of 400 beds, consisting of ward and operative experience, teaching rounds, and conferences. An independent general surgical residency exists at St. Mary’s. S. Dudrick and staff
Surgery 165, Surgery at Bridgeport Hospital  For a student contemplating a career in clinical surgery, an opportunity to function as a team member with residents and attending staff in a large community hospital. General surgery with fundamental pre- and postoperative care, appropriate operating room activity, basic bedside diagnostic and therapeutic hands-on experience, emphasis on intensive care unit, trauma, and burns. Each student is expected to present a twenty-minute research or clinical topic of choice at completion of the course. Room and board available on duty. Limited to one or two students for six- to eight-week rotations in the fourth year. Staff

Surgery 171, Subinternship, Peripheral Vascular Surgery  A practical experience in the diagnosis and management of vascular disease, including pre- and postoperative care. The scope of the experience includes orientation to the noninvasive vascular diagnostic laboratory, outpatient care in the Yale Vascular Center, and inpatient management (including patients in the OR, ICU, and the vascular surgery unit). Four weeks, by arrangement with B. Sumpio and staff

Surgery 172, Subinternship, Transplantation Surgery  This intensive clinical experience emphasizes the preoperative assessment, intraoperative care, and postoperative management of patients suffering end-stage organ system failure who are cared for by transplantation. Emphasis also includes the management of immunosuppressive medication regimens and the care of post-transplant problems. Available throughout the year, one or two students, for one month. Arrangements with S. Emre and staff

Surgery 173, Experimental Transplantation Surgery and Immunobiology  Clinical and laboratory studies into problems relevant to the field of organ transplantation. Students work under the tutelage of a member of the faculty in the Division of Organ Transplantation. Original projects must be mutually agreed upon, and may include studies into the immunology of allograft rejection, the mechanism of immunosuppressive drug action, immunological monitoring of patients following transplantation, or biochemical markers to potentially identify early rejection of renal, hepatic, pancreatic, or small bowel allografts. Available throughout the year, one or two students, time commitment by arrangement. S. Emre and staff

Surgery 174, Subinternship in Surgical Oncology  Intensive exposure to surgical aspects of the treatment of cancer in clinic, hospital, and operating room. The interaction between surgery, medical oncology, and radiation therapy is experienced by following patients receiving multiple forms of therapy. Available throughout the year, one or two students, preferably for one-month rotations. Arrangements with R. R. Salem

Surgery 175, Pediatric Cardiac Surgery  Intensive exposure to pediatric cardiac surgery with emphasis on preoperative evaluation and postoperative management. The student observes the changes in pre- and postoperative physiology and spends much of the time following postoperative patients. The student is exposed to the use of ventilators in the pediatric patient, inotropic and vaso-dilating agents, evaluation and treatment of low cardiac output state, and the use of pacemakers. Weekly conferences include surgical conferences, preoperative conferences, catheterization conference, pre- and postoperative clinics, as well as weekly sessions with the attending staff. Some technical experience and instruction are provided in the operating room according to the student’s interest.
Limited to two students per month. T. Shinoka, G. S. Kopf, and R. Kim. Arrangements to be made with the pediatric cardiac surgery office

_Surgery 176, Subinternship in Pediatric Surgery_ In-depth exposure to the broad spectrum of pediatric surgical problems of the abdomen, chest, head and neck, and pelvis. The student obtains experience with correction of congenital anomalies, management of trauma, care of the critically ill child, and management of solid tumors. The subintern is an integral part of the pediatric surgical team and is expected to take in-house night call every third night. Contact L. Moss
THERAPEUTIC RADIOLOGY

Office: HRT 140, 785.2956

Professors  S. J. Baserga (Molecular Biophysics and Biochemistry), D. E. Brash, J. Chen, D. C. DiMaio (Genetics), J. J. Fischer, P. M. Glazer (Chair), B. G. Haffty (Adjunct), R. Nath, R. E. Peschel, S. Rockwell, W. Rupp, R. J. Schulz (Emeritus), Y. H. Son, W. C. Summers, P. Sung (Molecular Biophysics and Biochemistry), J. B. Sweasy, L. D. Wilson

Professor of Research  K. Low

Associate Professors  Z. Chen, J. Deng, S. A. Higgins, J. P. Knisely, K. B. Roberts

Assistant Professors  R. Decker, F. Guo, A. M. Khan, Y. S. Liu, S. Mani, M. S. Moran, F. A. Rogers, J. B. Weidhaas, Z. Yun

Associate Research Scientists  A. K. Chikova, S. Dalal, K. Kim, Q. Lin, F. A. Rogers

Associate Clinical Professor  P. M. Pathare

Assistant Clinical Professors  M. Ahmad, J. E. Bond, A. Chu, Y. Fan

Lecturer  R. Vera

Therapeutic Radiology 101, Clinical Clerkship in Radiation Therapy  A flexible program designed to introduce the medical student to radiation therapy. The biological and physical bases of radiation therapy, together with clinical practice and ongoing research. Clinical exposure to patients with malignant disease, with between seventy and one hundred treated daily in the department. The student takes part in departmental conferences, clinics, lectures, and individual teaching sessions. Limited to two students at any time. L. D. Wilson and staff

Therapeutic Radiology 102, Clinical Radiobiology  This course is designed to provide residents in radiation oncology with a comprehensive review of clinical radiobiology as it applies to the practice of radiation therapy. The course is open to residents and fellows in other disciplines interested in radiobiology as it applies to clinical oncology. The course participant attends approximately twenty lectures in clinical radiobiology, which are delivered throughout the academic year between September and June. Scheduling by arrangement with L. D. Wilson

Therapeutic Radiology 201b, A Survey of Radiobiology  A review of the interaction of radiation on living organisms, progressing from DNA damage to complex mammalian systems. Modern concepts in molecular biology and cell kinetics are emphasized in understanding the sequelae of this interaction and the mechanism by which the organism responds to the injury produced. Fourteen sessions. By arrangement with Radiobiology staff

Therapeutic Radiology 305, Principles and Methods of Radiation Dosimetry  A graduate-level course for physics students or medical students with a strong physics background who want to learn about radiation dosimetry as it applies to medical practice. Topics include X-ray spectra, ionization chambers, X-ray exposure and the roentgen,
mass energy-absorption coefficients, the Bragg-Gray principle, stopping power and linear energy transfer, chemical dosimeters, instrumentation, and physical aspects of radiology. Approximately twenty hours of tutorial sessions. Scheduling by arrangement with instructor. R. Nath

**Therapeutic Radiology 306, Laboratory Projects in Radiation Dosimetry** Students are given problems that relate to and supplement long-term, ongoing radiation dosimetry projects within the department. Prerequisite: Therapeutic Radiology 305, or its equivalent. Scheduling by arrangement with instructor. R. Nath
MEMBERSHIP

**Professors** K. S. Anderson (Pharmacology), P. W. Askenase (Internal Medicine), R. E. Baron (Orthopaedics and Rehabilitation), L. M. Bartoshuk (Surgery), G. P. Beardsley (Pediatrics), J. R. Bender (Internal Medicine), N. Berliner (Internal Medicine), J. L. Bolognia (Dermatology), W. F. Boron (Cellular and Molecular Physiology), A. L. M. Bothwell (Immunobiology), H. K. Bottomly (Immunobiology), D. E. Brash (Therapeutic Radiology), I. M. Braverman (Dermatology), R. R. Breaker (Molecular, Cellular, and Developmental Biology), A. E. Broadus (Internal Medicine), M. J. Caplan (Cellular and Molecular Physiology), M. Cappello (Pediatrics), Y.-C. Cheng (Pharmacology), E. Chu (Internal Medicine; Pharmacology), L. Cooley (Genetics), D. L. Cooper (Internal Medicine), J. Costa (Pathology), J. E. Craft (Internal Medicine), P. Cresswell (Immunobiology), M. R. Cullen (Internal Medicine), A. M. Curtis (Diagnostic Radiology), P. De Camilli (Cell Biology), V. T. DeVita, Jr. (Internal Medicine), D. C. DiMaio (Genetics), T. P. Duffy (Internal Medicine), C. C. Duncan (Neurosurgery), J. S. Duncan (Diagnostic Radiology), R. L. Edelson (Dermatology), J. A. Elias (Internal Medicine), S. S. Ferro-Novick (Cell Biology), J. J. Fischer (Therapeutic Radiology), R. A. Flavell (Immunobiology), S. D. Flynn (Pathology), B. G. Forget (Internal Medicine), F. Foss (Dermatology), G. E. Friedlaender (Orthopaedics and Rehabilitation), J. E. Galán (Microbial Pathogenesis), A. Garen (Molecular Biophysics and Biochemistry), S. Ghosh (Immunobiology), P. M. Glazer (Therapeutic Radiology), E. J. Glusac (Pathology), B. G. Haffty (Therapeutic Radiology; Adjunct), A. D. Hamilton (Chemistry), G. L. Hammond (Surgery), P. W. Heald (Dermatology), R. B. Hochberg (Obstetrics, Gynecology, and Reproductive Sciences), N. J. Holbrook (Internal Medicine; Adjunct), T. R. Holford (Epidemiology and Public Health), M. C. Horowitz (Orthopaedics and Rehabilitation), K. L. Insogna (Internal Medicine), S. C. Jacobs (Psychiatry), J. D. Jamieson (Cell Biology), M. Kashgarian (Pathology; Emeritus), S. V. Kasl (Epidemiology and Public Health), P. B. Kavathas (Laboratory Medicine), W. H. Konigsberg (Molecular Biophysics and Biochemistry), D. R. Lannin (Surgery), D. J. Leffell (Dermatology), P. Lengyel (Molecular Biophysics and Biochemistry; Emeritus), P. M. Lizardi (Pathology), K. B. Low (Therapeutic Radiology; Adjunct), J. A. Madri (Pathology), N. J. Maihle (Obstetrics, Gynecology, and Reproductive Sciences), V. T. Marchesi (Pathology), S. T. Mayne (Epidemiology and Public Health), S. M. McCarthy (Diagnostic Radiology), R. McCorkle (School of Nursing), P. McPhedran (Laboratory Medicine; Emeritus), R. Medzhitov (Immunobiology), I. S. Mellman (Cell Biology), I. G. Miller (Pediatrics), L. M. Milstone (Dermatology), I. M. Modlin (Surgery), M. S. Mooseker (Molecular, Cellular, and Developmental Biology), J. S. Morrow (Pathology), R. Nath (Therapeutic Radiology), P. J. Novick (Cell Biology), S. O’Malley (Psychiatry), H. A. Pearson (Pediatrics; Emeritus), J. A. Persing (Surgery), R. E. Peschel (Therapeutic Radiology), J. M. Piepmeier (Neurosurgery), J. S. Pober (Pathology), W. H. Prusoff (Pharmacology; Emeritus), A. M. Pyle (Molecular Biophysics and Biochemistry), C. A. Redlich (Internal Medicine), L. Regan (Molecular Biophysics and Biochemistry), H. A. Risch (Epidemiology
and Public Health), S. C. Rockwell (Therapeutic Radiology), J. K. Rose (Pathology), A. T. Rosenfield (Diagnostic Radiology), F. H. Ruddle (Molecular, Cellular, and Developmental Biology), N. H. Ruddle (Epidemiology and Public Health), W. D. Rupp, Jr. (Therapeutic Radiology), R. R. Salem (Surgery), P. Salovey (Psychology), W. M. Saltzman (Biomedical Engineering), A. C. Sartorelli (Pharmacology), C. T. Sasaki (Surgery), D. G. Schatz (Immunobiology), J. Schlessinger (Pharmacology), P. E. Schwartz (Obstetrics, Gynecology, and Reproductive Sciences), W. C. Sessa (Pharmacology), M. J. Shlomchik (Laboratory Medicine), J. Sklar (Pathology), C. L. Slayman (Cellular and Molecular Physiology), B. R. Smith (Laboratory Medicine), E. L. Snyder (Vice Chair; Laboratory Medicine), M. Snyder (Molecular, Cellular, and Developmental Biology), S. Somlo (Internal Medicine), Y. H. Son (Therapeutic Radiology), J. A. Steitz (Molecular Biophysics and Biochemistry), D. F. Stern (Pathology), M. Strazzabosco (Internal Medicine), P. Sung (Molecular Biophysics and Biochemistry), P. J. Tattersall (Laboratory Medicine), F. A. Tavassoli (Pathology), R. E. Tigelaar (Dermatology), I. Tocino (Diagnostic Radiology), R. J. Touloukian (Surgery), R. Udelsman (Surgery), A. N. van den Pol (Neurosurgery), R. M. Weiss (Surgery), S. M. Weissman (Genetics), K. R. Williams (Molecular Biophysics and Biochemistry; Adjunct), J. L. Wood (Chemistry), T. Xu (Genetics), D. Zelterman (Epidemiology and Public Health), T. Zheng (Epidemiology and Public Health)

**Associate Professors** A. E. Bale (Genetics), S. J. Baserga (Molecular Biophysics and Biochemistry), D. J. S. Beardsley (Pediatrics), A. M. Bennett (Pharmacology), E. H. Bradley (Epidemiology and Public Health), J. L. Brandsma (Comparative Medicine), L. Cantley (Internal Medicine), E. B. Claus (Epidemiology and Public Health), J. W. Colberg (Surgery), J. P. Concato (Internal Medicine), C. M. Crews (Molecular, Cellular, and Developmental Biology), A. C. de Lotbinière (Neurosurgery), M. P. DiGiovanna (Internal Medicine), H. E. Foster, Jr. (Surgery), P. G. Gallagher (Pediatrics), F. J. Giordano (Internal Medicine), M. Girardi (Dermatology), C. P. Gross (Internal Medicine), J. R. Gruen (Pediatrics), L. N. Harris (Internal Medicine), C. Hashimoto (Cell Biology), S. A. Higgins (Therapeutic Radiology), B. A. Jones (Epidemiology and Public Health), W. K. Kelly (Urology), J. P. Knisely (Therapeutic Radiology), M. K. Knobf (School of Nursing), A. J. Koleske (Molecular Biophysics and Biochemistry), D. S. Krause (Laboratory Medicine), J. Lacy (Internal Medicine), R. Lazoza (Dermatology), H. Lin (Epidemiology and Public Health), E. Lolis (Pharmacology), M. J. Mamula (Internal Medicine), J. M. McNiff (Dermatology), G. Miesenböck (Cell Biology), G. G. Mor (Obstetrics, Gynecology, and Reproductive Sciences), A. S. Perkins (Pathology), W. M. Philbrick (Internal Medicine), L. E. Philpotts (Diagnostic Radiology), J. S. Pollak (Diagnostic Radiology), J. D. Reuter (Comparative Medicine), D. L. Rimm (Pathology), H. M. Rinder (Laboratory Medicine), K. B. Roberts (Therapeutic Radiology), D. A. Ross (Surgery), D. M. Rothstein (Internal Medicine), T. J. Rutherford (Obstetrics, Gynecology, and Reproductive Sciences), P. M. Schwartz (Dermatology; Visiting), M.W. Saif (Internal Medicine), S. E. Seropian (Internal Medicine), W. D. Shlomchik (Internal Medicine), M. J. Solomon (Molecular Biophysics and Biochemistry), M. J. Stern (Genetics), H. Sun (Genetics), J. B. Sweasy (Therapeutic Radiology), M. Sznol (Internal Medicine), H. S. Taylor (Obstetrics, Gynecology, and Reproductive Sciences), J. G. Thomson (Surgery), J. Van Hoff (Pediatrics), A. M. Vignery (Orthopaedics and Rehabilitation), L. D. Wilson (Therapeutic Radiology), S. L. Wolin (Cell Biology), J. J. Wysolmerski (Internal Medicine)
Assistant Professors  M. Abu-Khalaf (Internal Medicine), L. Alexander (Epidemiology and Public Health), J. Baehring (Neurology), E. Bahceci (Internal Medicine), C. Bifulco (Pathology), T. Boggon (Pharmacology), A. Bordey (Neurosurgery), D. Braddock (Pathology), D. A. Calderwood (Pharmacology), G. Chung (Internal Medicine), J. Colasanto (Therapeutic Radiology), H. A. Deshpande (Internal Medicine), S. Gettinger (Internal Medicine), M. J. Harding (Comparative Medicine), M. Hodson (Laboratory Medicine), L. J. Horvath (Diagnostic Radiology), J. G. Howe (Laboratory Medicine), K. S. Hudmon (Epidemiology and Public Health), P. Hui (Pathology), M. L. Irwin (Epidemiology and Public Health), A. Iwasaki (Immunobiology), N. Kadan-Lottick (Pediatrics), S. M. Kaech (Immunobiology), D. H. Kaplan (Dermatology), H. Kluger (Internal Medicine), X. Ma (Epidemiology and Public Health), S. Mani (Therapeutic Radiology), R. E. Means (Pathology), K. D. Miller (Internal Medicine), M. S. Moran (Therapeutic Radiology), W. H. Mothes (Microbial Pathogenesis), D. Narayan (Surgery), M. F. Perkal (Surgery), D. Psyrri (Internal Medicine), J. L. Reiter (Obstetrics, Gynecology, and Reproductive Sciences), M. Robek (Pathology), S. J. Santacroce (School of Nursing), F. J. Slack (Molecular, Cellular, and Developmental Biology), B. J. Sleight (Pediatrics), J. A. Sosa (Surgery), E. Stein (Molecular, Cellular, and Developmental Biology), D. K. Toomre (Cell Biology), D. P. Tuck (Pathology), B. Turk (Pharmacology), K. G. Vanasse (Internal Medicine), J. B. Weidhaas (Therapeutic Radiology), D. G. Wells (Molecular, Cellular, and Developmental Biology), Y. Wu (Laboratory Medicine), Z. Yin (Internal Medicine), Z. Yun (Therapeutic Radiology), Y. Zhang (Epidemiology and Public Health), Y. Zhu (Epidemiology and Public Health)

Senior Research Scientists  P. J. Flory (Genetics), R. Halaban (Dermatology), W. M. Philbrick (Internal Medicine)

Research Scientists  T. Ashley (Genetics), C. L. Berger (Dermatology), B. Cartmel (Epidemiology and Public Health), D. B. Fischer (Therapeutic Radiology), Z. Hu (Molecular Biophysics and Biochemistry), A. Khanna-Gupta (Internal Medicine), J. M. McGrath (Comparative Medicine), W. J. McMurray (Laboratory Medicine), D. Pradhan (Pathology), N. Wei (Molecular, Cellular, and Developmental Biology)

Associate Research Scientists  S. Agarwal (Internal Medicine), R. L. Camp (Pathology), B. A. Davis (Cellular and Molecular Physiology), H. G. Foellmer (Internal Medicine), R. L. Fuleihan (Pediatrics), D. J. Hanlon (Dermatology), M. S. Kluger (Dermatology), E. T. Matloff (Genetics), D. Ostapenko (Molecular Biophysics and Biochemistry), S. Radke, D. J. Schulman-Green (School of Nursing), M. Ulcickas Yood (Epidemiology and Public Health), J. Yang (Surgery)

Research Affiliate  J. M. Pawelek (Dermatology)

Clinical Professors  S. Ariyan (Surgery), T. N. Byrne (Neurology), L. R. Farber (Internal Medicine), D. S. Fischer (Internal Medicine), R. S. Stahl (Surgery)
Associate Clinical Professors  S. N. Bobrow (Internal Medicine), C. T. Donovan (School of Nursing), R. Dubrow (Epidemiology and Public Health), A. J. Graham (Surgery), S. Imaeda (Dermatology), S. A. Stein (Surgery)

Assistant Clinical Professors  P. A. Barcewicz (Surgery), K. A. Haedicke (Internal Medicine), M. E. Katz (Internal Medicine), J. F. Kveton (Surgery), R. A. Lowlicht (Surgery), J. C. Salomon (Surgery), R. F. Schlessel (Surgery)

Lecturers  I. Black (Chemistry), I. A. Dawson (Molecular, Cellular, and Developmental Biology)

The center supports a $100 million research base to promote translational research through collaborations between and within eight basic, epidemiological, and clinical research programs. Basic research programs in Signal Transduction, Gene Regulation and Functional Genomics, Cancer Genetics, Molecular Virology, and Developmental Therapeutics are integrated with clinical research programs in Immunology and Immunotherapy and Radiobiology and Therapy Research, and one epidemiological program, Cancer Prevention and Control. The center also supports eleven shared facilities that are available for oncological research: Flow Cytometry, Cesium Irradiator, Rapid CaseAscertainment, Animal Genomics, Clinical Research Services, Biostatistics, Proteomics, Cancer Genetic Counseling, Immune Monitoring, Microarray, Critical Technologies for Tissue Services, and Biomedical Informatics. Information regarding patient care, research, and cancer prevention and control may be obtained by telephoning 203.785.4095.
School of Nursing

The following courses in the School of Nursing are offered to interested medical students. For more information, contact faculty of record.

NURS 625b, Children with Chronic Conditions/Disabilities and Their Families  This course provides students with a forum to discuss theoretical concepts of illness in relation to a family-centered model of care for children and adolescents with a chronic condition/disability and their families. Relevant issues and such topics as service delivery, financing of care, and legislative and health policy issues are explored. Emphasis is placed on the role of advanced practice nursing in the provision of health care for children and adolescents with a chronic condition. Open with permission of the instructor. One and one-half hours per week. S. Santacroce

NURS 633a, Health Promotion in Children  This lecture/seminar course is designed to introduce the student to the primary care of children from infancy through preadolescence. Concepts and theories related to well-child care are explored. Clinical applications of the theories and principles of preventive and optimal health care are emphasized. Open with permission of the instructor. One and one-half hours per week. P. Jackson Allen

NURS 637a, Child Development  This course is designed to give an overview of social-emotional, cognitive, physical, moral, and language development in children from infancy through adolescence. Emphasis is placed upon understanding development in individual, familial, sociocultural, and environmental contexts. Issues of particular significance to the health care provider are stressed. Required for all pediatric nurse practitioner, family nurse practitioner, and child psychiatric–mental health students in the first year of specialization. Open to others with permission of the instructor. One and one-half hours per week. L. Sadler

NURS 723a/HPA 592a, Concepts and Principles of Aging  This elective course is designed as a multidisciplinary course that introduces students to the major concepts and principles of gerontology and to a variety of biopsychosocial theories on aging. Delivery systems of care for the elderly are explored along with the current social policy initiatives as they relate to the elderly. Research initiatives are discussed, and students are urged to explore issues of eldercare in their own specialty/discipline as well as in related disciplines. One and one-half hours per week. M. Wallace

NURS 733b, Living with Dying  Advances in treatment and technology have transformed the clinical course of many terminal illnesses. A growing number of people with terminal illness are living longer than ever before. Home care, shorter length of stay, and restrictions on admissions because of managed care have become a health-care delivery reality for individuals with even the most serious illnesses. Health-care providers need a comprehensive understanding of the individual and family experiences across an illness trajectory as clients adapt to living with disease and the possibility of death. This course develops practitioners’ cultural and gender awareness, understanding, and competencies in creating environments to relieve suffering for individuals and their families across settings. Emphasis is on nonpharmacologic interventions to relieve suffering, including spiritual, interpersonal, and sociocultural. The course is structured with the premise that
relief from suffering, meaning, and transcendence at the end of life are best achieved and understood through the interpersonal use of narrative techniques, like storytelling, to facilitate communication. One and one-half hours per week. R. McCorkle

**NURS 769a, Advanced Concepts and Principles of Diabetes Care** This seminar focuses on the concepts and principles of diabetes managed care based on the American Diabetes Association Standards of Care (2003). It includes principles of primary care (screening, early detection, intervention, patient education), secondary care principles related to diabetes management, tertiary care related to complications, various treatment modalities, patient education, and self-care. These concepts and principles of care are presented relative to type of diabetes (insulin dependent, noninsulin dependent, gestational and pregnancy, and secondary), age, developmental stage, duration of disease, and ethnicity. A multidisciplinary approach to care issues is emphasized, incorporating the contributions of other disciplines in the collaborative management of diabetes. Important aspects of living with a chronic illness such as the psychological, social, occupational, and economic are also emphasized. Open with permission of the instructor. Two hours per week. G. Melkus

**NURS 849b, Family Patterns and Systems Relevant to Health Care** This course provides theoretical perspectives on family patterns and structure, family development, family stress and coping, and contextual variables that influence the health of the family and individual. Application of these perspectives is explored in terms of the management of health care and illness in children and families. Techniques in assessment of family functioning, vulnerabilities, and strengths are presented from clinical and research perspectives. Selected family problems are analyzed within theoretical, clinical, and policy perspectives. Open with permission of the instructors. One and one-half hours per week. A. Crowley

**NURS 961a, Contemporary Issues in Health Policy and Politics** This course is based on the assumption that clinicians and researchers bring important data to health policy deliberations, but need to be politically savvy in disseminating such data and linking them to contemporary policy deliberations. It examines how health policy at national, state, and local levels of government influences access to, and cost and quality of, health care. Other structural variables, such as delivery systems, populations at risk, and the environment, are also covered. Comparative health policy is included. Required for all doctoral students. Open to others with permission of the instructor. Three hours per week. S. Cohen
Postgraduate Study

Graduate medical education in clinical departments is based upon the residency training programs of the Yale-New Haven Medical Center. Initial appointments are offered in Anesthesiology, Dermatology, Diagnostic Imaging, Emergency Medicine, Internal Medicine Primary Care, Internal Medicine, Neurology, Neurosurgery, Obstetrics and Gynecology, Ophthalmology, Orthopaedics and Rehabilitation, Otolaryngology, Pathology, Pediatrics, Plastic Surgery, Psychiatry, Surgery, Therapeutic Radiology, and Urology; appointments are made through the National Resident Matching Program or the appropriate specialty matching program (Neurology, Neurosurgery, Ophthalmology, Otolaryngology, Urology). Residencies are also offered in Dentistry and Pediatric Dentistry. Subspecialty residency programs are offered in the following specialties:

- Anesthesiology
- Cardiothoracic Surgery
- Child Psychiatry
- Dermatology
- Diagnostic Radiology
- Emergency Medicine
- Internal Medicine
- Neurology
- Neurosurgery
- Nuclear Medicine
- Obstetrics and Gynecology
- Pathology and Laboratory Medicine (AP/CP)
- Pediatric Surgery
- Pediatrics
- Psychiatry
- Transplant Surgery
- Vascular Surgery

The School and the hospital are joined in the establishment and management of an Office of Graduate Medical Education of Yale-New Haven Medical Center. Residents at the Yale-New Haven Hospital and the VA Connecticut Healthcare System, West Haven, are enrolled as postgraduate students in the School of Medicine in addition to their hospital appointments. In most of the clinical departments, a limited number of fellowships for research or clinical training are also available.

Detailed information concerning residency programs may be obtained from the chair of the appropriate department. Applicants must be graduates of an approved medical school in the United States or Canada or have successfully completed the requirements of the ECFMG and have a valid ECFMG certificate. General information may be obtained by visiting the Yale-New Haven Medical Center Graduate Medical Education Web site (www.ynhh.org/med_prof/grad_med.html) or the Yale University School of Medicine site (http://info.med.yale.edu/ysm/departments) and visiting the appropriate department.
Continuing Education

The mission of the Yale University School of Medicine’s Center for Continuing Medical Education is to advocate and support the continuing professional development of health care professionals. Through its Center for Continuing Medical Education, the School of Medicine offers a full range of evidence-based educational programs that enhance the practitioner’s knowledge base, provide updates and review, and expand professional skills.

Yale School of Medicine is accredited by the Accreditation Council for Continuing Medical Education as a provider of continuing medical education (CME). Under the auspices of the Yale Medical Group, the educational programs sponsored by Yale CME include primary care, specialty, and subspecialty topics in the field of medicine. The scope of these activities involves the body of knowledge and skills generally recognized and accepted by the profession as within the basic medical sciences, the discipline of clinical medicine, and the provision of health care to the public.

Yale CME provides content and material tailored to complement the participant’s needs and schedule through the following educational activities: conferences and workshops; home study courses; enduring materials; and distance education by personal computer and other innovative formats. The offerings are intended to enhance physician and other health professionals’ professional development and influence their behavior for the purpose of improving health outcomes and patient care.

Courses offered include (a) review courses and symposia designed to present advances in the diagnosis and management of selected disorders of general interest; (b) courses of interest to physicians in a particular specialty; and (c) courses dealing with matters of public health and its administration, developed by the faculty of the Department of Epidemiology and Public Health.

Most regularly scheduled educational conferences (Grand Rounds) of the Yale-New Haven Medical Center are also open to all physicians for CME credit. The School of Medicine also facilitates the presentation of continuing education programs for allied health personnel.

Also available for physicians and certain other health care workers are the Online Learning Program, which includes Medical Center Grand Rounds videos, and The Diabetes Newsletter. Based on the contents of well-known and widely circulated medical publications, the examination program is developed, edited, and supervised within the Center for Continuing Medical Education.

The Yale CME Web site and the Yale-New Haven Medical Center Weekly Schedule of Events contain the most timely and detailed listing of all these events. They may be accessed at http://cme.yale.edu or http://info.med.yale.edu/calendar. Inquiries should be addressed to the Center for Continuing Medical Education, PO Box 208052, New Haven CT 06520-8052; telephone, 203.785.4578; e-mail, cme@yale.edu.
Doctors of Medicine

CLASS OF 2008*

Anne Lenore Ackerman, B.S., Ph.D., Yale University. Mechanisms of Cross Presentation in Dendritic Cells and the Dendritic-Like Cell Line, KG-1. Surgery-Preliminary/Urology. UCLA Medical Center, Los Angeles, Calif. Urology. UCLA Medical Center, Los Angeles, Calif.

Louvonia Rose Boone, B.S., Yale University. Heart Rate Variability as a Predictor of Hypotension. Medicine-Preliminary. Griffin Hospital, Derby, Conn. Anesthesiology. New York Presbyterian Hospital—Columbia, New York, N.Y.

Leon Dimitrios Boudourakis, B.A., B.S., Michigan State University; M.H.S., Yale University. Evolution of the Surgeon Volume/Patient Outcome Relationship. General Surgery. Mount Sinai Hospital, New York, N.Y.

Benjamin Bowling, B.S., University of California-Los Angeles. Inhibition of Mitochondrial Protein Translation Sensitizes Melanoma Cells to Arsenic Trioxide Cytotoxicity via a Reactive Oxygen Species Dependent Mechanism. Internal Medicine. New York University School of Medicine, New York, N.Y.

*Pending completion of all requirements

Douglas Jackson Davis, B.A., B.S., St. Mary’s University; Ph.D., Yale University. *Optical Imaging and Spatiotemporal Quantification of Stimulus-Dependent Modulation of Whisker-Evoked Activity in Mouse Barrel Cortex.* Medicine/Primary-Preliminary. Yale-New Haven Hospital, New Haven, Conn. Diagnostic Radiology. Yale-New Haven Hospital, New Haven, Conn.

Alexander Diaz de Villalvilla, B.S., Georgetown University. *The Role of AMP-Dependent Protein Kinase in Acute Pancreatitis.* Medicine/Pediatrics. Rhode Island Hospital/Brown University, Providence, R.I.

Peter David Fabricant, B.A., University of Rochester. *Clinical and Demographic Predictors of Short-Term Recovery from Arthroscopic Partial Meniscectomy.* Orthopaedic Surgery. Hospital for Special Surgery/Cornell Medical Center, New York, N.Y.

Candace Hillary Feldman, B.A., Yale University; M.P.H., Johns Hopkins University. *Understanding the Relationship Between Women’s Participation and Health in Uttar Pradesh, India.* Internal Medicine/Primary. Brigham and Women’s Hospital, Boston, Mass.

Rachel Friedman, B.A., Harvard University; M.H.S., Yale University. *Physiological Effect of Relaxation Therapies on Autonomic Tone Early After Acute Coronary Syndromes.* Family Medicine. Sutter Medical Center of Santa Rosa/UCSF, Santa Rosa, Calif.

Sharmin Ghaznavi, B.S., Massachusetts Institute of Technology; Ph.D., Yale University. *Rumination and Cognitive Processing in Dysphoria*. Psychiatry. Massachusetts General Hospital, Boston, Mass.

Abby Lifter Hochberg, B.A., University of Pennsylvania; M.S., Pace University. *The Utility of Prophylactic Drainage Following Pancreaticoduodenectomy*. Medicine-Preliminary. Drexel University College of Medicine, Philadelphia, Pa.. Dermatology. Drexel University College of Medicine, Philadelphia, Pa..

Kristin Elizabeth Hoffmann, B.A., Wellesley College; M.H.S., Yale University. *Genotypic Confirmation of Transimmunization-Induced Dendritic Cell Maturation*. Medicine/Primary-
Preliminary. Yale-New Haven Hospital, New Haven, Conn. Dermatology. Yale-New Haven Hospital, New Haven, Conn.

Kimberly Lauren Johung, B.A., Ph.D., Yale University. *Global Analysis of Transcriptional Regulation During Induced Senescence in HeLa Cervical Carcinoma Cells.* Medicine-Preliminary. Yale-New Haven Hospital, New Haven, Conn. Radiation Oncology. Yale-New Haven Hospital, New Haven, Conn.

Rachel Esther Laff, B.A., Smith College. *Depression and Resilience During the First Six Months of Internship.* Internal Medicine/Primary. Yale-New Haven Hospital, New Haven, Conn.

Karl Robert Laskowski, B.A., Yale University; M.H.S., Yale University. *The Regulation of Mitochondrial Uncoupling Proteins in the Heart.* Internal Medicine. Brigham and Women’s Hospital, Boston, Mass.

Tamara Lazic, B.S., University of California, Los Angeles. *Anatomy, Physiology, and Management of Patients with Diffuse Pulmonary Arteriovenous Malformations.* Medicine/Primary-Preliminary. Yale-New Haven Hospital, New Haven, Conn. Dermatology. Roger Williams Medical Center Program, Providence, R.I.

Kurtland Ma, B.A., Yale University. *The Use of Traditional Chinese Medicine and It’s Possible Relationship with Adherence to Highly-Active Anti-Retroviral Therapy in Patients with HIV/AIDS in Hong Kong.* Emergency Medicine. Albert Einstein College of Medicine (Jacobi/Montefiore), Bronx, N.Y.

Mark Hippolyte John McRae, B.A., Cornell University. *Clinical and Radiographic Assessment of Lumbar Spine Total Disc Replacement in Athletes with Two Year Follow Up.* Plastic Surgery. New York University School of Medicine, New York, N.Y.

Greg Nelson, B.S., Massachusetts Institute of Technology; M.H.S., Yale University. *Studying the Development of Human Tissue-Engineered Arterial Grafts in a Chimeric Mouse Model.* Orthopaedic Surgery. Barnes-Jewish Hospital, St Louis, Mo.

David R. Peaper, B.A., DePauw University; Ph.D., Yale University. *Biochemical and Functional Characterization of the Tapasin/ERp57 Conjugate.* Clinical Pathology. Yale-New Haven Hospital, New Haven, Conn.

Zofia Piotrowska, B.A., Brown University; M.H.S., Yale University. *Rhinovirus-Associated Wheezing and Asthma in Young Children.* Internal Medicine. Brigham and Women’s Hospital, Boston, Mass.

Jason David Roh, B.A., Amherst College; M.H.S., Yale University. *The Chemokine MCP-1 is an Essential Mediator in Tissue Engineered Blood Vessel Development.* Internal Medicine. Brigham and Women’s Hospital, Boston, Mass.

Louis Frank Salamone, B.A., Harvard University. *Outcomes in Patients with End-Stage Renal Disease and Colonic Diverticular Disease.* General Surgery. Stanford University Programs, Stanford, Calif.

Amanda Rae Sandoval, B.A., University of Denver; M.P.H., Harvard University. *Stress Fractures in Female Military Recruits: Is Increased Body-Fat Harmful?* Psychiatry. Walter Reed Army Medical Center, Washington, D.C.

Danielle L. Smith, B.S., University of Maryland; Ph.D., Yale University. *Functional Implications of the Interaction Between the Tetraspanin CD82/KAI1 and Adherens Junction Proteins.* Obstetrics and Gynecology. University of Pittsburgh Medical Center, Pittsburgh, Pa.

Lori Ann Spoozak, B.A., State University of New York (SUNY); M.H.S., Yale University. *Evaluation of a Social Support Measure That May Indicate Risk of Depression During*

Timothy Brian Sullivan, B.A., University of Notre Dame. Palmitic Acid Increases ENAC Expression and Contributes to Insulin Resistance in Renal Distal Tubule. Emergency Medicine. Regions Hospital/HealthPartners Institute, St. Paul, Minn.

James Adam Troy, B.S., University of Washington; M.H.S., Yale University. Role of MKL1 in Megakaryocytopenia and in t(1;22)-Associated Acute Megakaryoblastic Leukemia. Internal Medicine. University of California–San Francisco, San Francisco, Calif.

Elizabeth Rachel Wahl, B.S., Yale University. Older Adults’ Understanding of Cardiovascular Risk and Preventative Medication Benefit. Internal Medicine/Primary. Yale-New Haven Hospital, New Haven, Conn.

Paul Charles Walker, B.A., University of Utah. Community-Based Epidemiological Study of Chagas Disease in Rural Peru. Otolaryngology. University of Iowa Hospitals and Clinics, Iowa City, Iowa

Indy McFall Wilkinson, B.A., Wake Forest University. The Changing Picture of Medical Diplomacy as Seen Through Scholarly Reports. Anesthesiology. Walter Reed Army Medical Center, Washington, D.C.

Kristina Frances Victoria Zdanys, B.A., Yale University. *BDNF Variants Influence Educational Attainment but not Disease Characteristics in Alzheimer’s Disease*. Psychiatry. New York University School of Medicine, New York, N.Y.

**STUDENTS RECEIVING THE M.D. AND PH.D. DEGREES**

Anne Ackerman
Tina Dasgupta
Douglas Davis
Sharmin Ghaznavi
Jennifer Giltnane
Keith Gipson
Jason Griffith
Kimberly Johung
Nandakumar Narayanan
Alison Norris
David Peaper
Danielle Smith

**STUDENT RECEIVING THE M.D. AND J.D. DEGREES**

Rasika Jayasekera

**STUDENTS RECEIVING THE M.D. AND M.B.A. DEGREES**

Roger Goldberg
Scott Kennedy
Misaki Kiguchi
Krishan Soni
Michael Swetye
Barbara Wexelman

**STUDENTS RECEIVING THE M.D. AND M.H.S. DEGREES**

Leon Boudourakis
Lu Anne Dinglasan
Jennifer Dominguez
Rachel Friedman
Kristin Hoffmann
Karl Laskowski
Dania Magri
Amy Meadows
Greg Nelson
Zofia Piotrowska
Jason Roh
Maulik Shah
Andrew Simpson
Lori Spoozak
James Troy
Gabriel Widi

**STUDENTS RECEIVING THE M.D. AND M.P.H. DEGREES**

Argyro Caminis
Candace Feldman
Lily Horng
Kelvin Lau
Amanda Sandoval
Enrollment for 2007–2008

POSTGRADUATE STUDENTS

Members of the resident staff at Yale-New Haven Hospital and the VA Connecticut Healthcare System’s West Haven campus are enrolled as postgraduate students in the School of Medicine. Information on postgraduate students is available from the Office of Postgraduate Medical Education.

REGISTERED FOR THE DEGREE OF DOCTOR OF MEDICINE

Fourth-Year Class
Anne Lenore Ackerman (B.S. Yale Univ. 1998; Ph.D. Yale Univ. 2003), Somerset, N.J.
Ayal Aaron Aizer (B.S. Brown Univ. 2004), Kingston, N.Y.
Eric Rolando Arzubi (B.S. Georgetown Univ. 1991), Westport, Conn.
Soledad Tarka Ayres (B.A. Smith Coll. 2003), Palo Alto, Calif.
Jessica Hoffmann Beard (B.A. Columbia Univ. 2003), Houston, Tex.
Louvonia Rose Boone (B.S. Yale Univ. 2001), Calhoun, Ga.
Argyro Pericles Caminis (B.A. Yale Univ. 2000), Rowayton, Conn.
Erik James Carlson (B.A. Dartmouth Coll. 2003), Atlanta, Ga.
Claudia Patricia Castiblanco (B.S. Iona Coll. 2002), White Plains, N.Y.
Cynthia Marie Correll (B.S. Univ. Pittsburgh 2003), Reading, Pa.
Tina Dasgupta (B.S. Univ. Alberta 2001), Alberta, Canada
Douglas Jackson Davis (B.A., B.S. St. Mary’s Univ. 1999), Selma, Tex.
Alexander Phillip Diaz De Villalvilla (B.S. Georgetown Univ. 2001), New York, N.Y.
Jennifer Domínguez (B.A. Duke Univ. 1999), Ridgefield, Conn.
Peter David Fabricant (B.A. Univ. Rochester 2004), Madison, Conn.
Candace Hillary Feldman (B.A. Yale Univ. 2003), Forest Hills, N.Y.
Rachel Summer Claire Friedman (B.A. Harvard Univ. 2001), Dingmans Ferry, Pa.
Sanaz Ghazal (B.A. Harvard Univ. 2001), Temecula, Calif.
Sharmin Ghaznavi (B.S. Massachusetts Inst. of Technology 2000), Ann Arbor, Mich.
Liza Elenia Goldman Huertas (B.S. Brown Univ. 1997), Orange, Conn.
Carolyn Page Graeber (B.S. Yale Univ. 2003), Morgantown, W.Va.
Jason Wells Griffith (B.A. Vanderbilt Univ. 1999), Dallas, Tex.
Ephat Hadas Harel (B.S. Yale Univ. 2004), Barrington, R.I.
Mary Stillwell Hatcher (B.A. Harvard Univ. 1998), Atlanta, Ga.
Kristin Elizabeth Hoffmann (B.A. Wellesley Coll. 2002), Madison, Wis.
Lily Ming-Sha Horng (B.S. Stanford Univ. 2002), Monterey Park, Calif.
Elizabeth Houle (B.A. Swarthmore Coll. 1998), Danville, Vt.
Ellen Margaret House (B.S. Yale Univ. 2004), Greensboro, N.C.
Rasika Priya Jayasekera (B.A. Yale Univ. 1999), Lexington, Ky.
Jenelle Asha Jindal (B.S. Stanford Univ. 2004), Lafayette, La.
Kimberly Lauren Johung (B.A. Yale Univ. 1999), Burlingame, Calif.
Ryan Karl Kaple (B.S. Univ. of Notre Dame 2003), Youngstown, Ohio
Rasha Saman Khoury (B.S. Georgetown Univ. 2004), Kenilworth, Ill.
Misaki Mikki Kiguchi (B.S. Yale Univ. 2003), Austin, Tex.
Yunie Kim (B.S. Univ. Washington 2003), Lynnwood, Wash.
Rachel Esther Laff (B.A. Smith Coll. 1999), Evanston, Ill.
Karl Robert Laskowski (B.A. Yale Univ. 2003), Centerville, Del.
Kelvin Cheukhang Lau (B.A. Univ. Pennsylvania 2003), Newton, Mass.
Tamara Lazard (B.S. Univ. California [Los Angeles] 2004), Belgrade, Yugoslavia
Corinna G. Levine (B.A. Cornell Univ. 2003), Pomfret Center, Conn.
Kiera Surelle Levine (B.A. Yale Univ. 1996), Los Angeles, Calif.
Sophia Liu (B.A. Stanford Univ. 2002), Great Neck, N.Y.
Kurtland Ma (B.A. Yale Univ. 2002), Scottsdale, Ariz.
Al Hasan Makkouk (B.S. Univ. Texas [Austin] 2003), Austin, Tex.
Sean Matthew McBride (B.S. Yale Univ. 2003), Wilmington, Del.
Lindsay Kellogg McGuire (B.A. Stanford Univ. 2003), Palo Alto, Calif.
Mark Hippolyte J. McRae (B.A. Cornell Univ. 2003), Toronto, Ontario, Canada
Tamara Porter Miller (B.A. Harvard Univ. 2004), Brookline, Mass.
Nandakumar Narayanan (B.A. Stanford Univ. 2000), Kenmore, Wash.
Ashley Elizabeth Neal (B.S. Clemson Univ. 2004), Galax, Va.
David Ryan Peaper (B.A. DePauw Univ. 1999), Carmel, Ind.
Zofia Piotrowska (B.A. Brown Univ. 2002), Minneapolis, Minn.
Mila Noelle Rainof (B.A., B.S. Stanford Univ. 2003), Santa Monica, Calif.
Jason David Roh (B.A. Amherst Coll. 2001), Freeport, Ill.
Jeannine Alberts Ruby (B.S. Yale Univ. 2003), Pewaukee, Wis.
Louis Frank Salamone (B.A. Harvard Univ. 2002), Waltham, Mass.
Margaret Emily Samuels-Kalow (B.S. Univ. Chicago 2004), New York, N.Y.
Amanda Rae Sandoval (B.A. Univ. Denver 2000), Thornton, Colo.
Kimberly Anne Schinnerer (B.A. Yale Univ. 2004), Gaithersburg, Md.
Maulik Pradeep Shah (B.A., B.S. Stanford Univ. 2003), Las Flores, Calif.
Andrew Kyle Simpson (B.S. Univ. Florida 2003), Bradenton, Fla.
Danielle Leigh Smith (Univ. Maryland [Baltimore County]), Silver Spring, Md.
Krishan V. Soni (B.S. Yale Univ. 2001), Dix Hills, N.Y.
Timothy Brian Sullivan (B.A. Univ. of Notre Dame 1993), Sterling, Ill.
James Adam Troy (B.S. Univ. Washington 2003), Seattle, Wash.
Pavithra Venkat (B.A. Stanford Univ. 2003), San Jose, Calif.
Elizabeth Rachel Wahl (B.S. Yale Univ. 1999), Chapel Hill, N.C.
Paul Charles Walker (B.A. Univ. Utah 2003), Kirtland, N. Mex.
Barbara Allison Wexelman (B.A. Yale Univ. 2003), Brooklyn, N.Y.
Gabriel Antonio Widi (B.S. Univ. Miami 2003), Miami, Fla.
Indy McFall Wilkinson (B.A. Wake Forest Univ. 2004), Oak Ridge, Tenn.
Christopher John Winterbottom (B.A. Dartmouth Coll. 2002), West Hartford, Conn.
Melissa Ann Wollan (B.S. Pacific Lutheran Univ. 2002), Spokane Valley, Wash.
Hannah Jean Yu (B.A. Dartmouth Coll. 2002), Louisville, Ky.
Kristina Frances Vic Zdanys (B.A. Yale Univ. 2004), North Haven, Conn.

Total, 96

Third-Year Class

Steven David Abramowitz (B.S. Yale Univ. 2005), Glenview, Ill.
Aaron Weldon Aday (B.S. Vanderbilt Univ. 2005), Bristol, Tenn.
Melissa Suen Arief (B.A. Vassar Coll. 2005), Gillette, N.J.
Eloise Davis Austin (B.A. Harvard Univ. 2002), San Antonio, Tex.
Mary Ann Badon (B.A. Clark Univ. 2005), Farmington, Conn.
Hasani Kigos Baharanyi (B.A. Harvard Univ. 2004), Auburn, Ala.
Jessica Rosalind Berwick (B.A. Harvard Univ. 2004), Newton, Mass.
Sundeev Ram Bhat (B.A. Stanford Univ. 2004), Toledo, Ohio
Joseph Isadha Boonsiri (B.S. Yale Univ. 2005), Grosse Ile, Mich.
Rebecca Elaine Bruccoleri (B.A. Dartmouth Coll. 2005), Glastonbury, Conn.
Philip Johannes Butler (B.S. Massachusetts Inst. of Technology 2004), Lubbock, Tex.
Jonathan Ari Cabin (B.A. Univ. Pennsylvania 2001), Woodbridge, Conn.
Justin Albert Chen (B.S. Yale Univ. 2003), McLean, Va.
Wendy Anne Ciocciacca (B.A. Harvard Univ. 2003), Hingham, Mass.
Justin Brent Cohen (B.A. Princeton Univ. 2005), Armonk, N.Y.
Zachary Andrew Corbin (B.S. Yale Univ. 2004), Roanoke, Va.
Sara Eve Crager (B.A. McGill Univ. 2005), Denver, Colo.
Michael William Destefano (B.S. Georgetown Univ. 2005), Radnor, Pa.
Martin Hoeller Dominguez (B.S. Yale Univ. 2005), Indianapolis, Ind.
Kathleen-Jo Flores Elayda (B.A. Loyola Univ. of Chicago 2005), Houston, Tex.
Caroline Wagner Engel (B.A. Dartmouth Coll. 2005), New York, N.Y.
Benjamin Peter Erickson (B.A. Harvard Univ. 2004), Williamstown, Mass.
Temidayo Ayodele Fadelu (B.S. Baylor Univ. 2005), Lagos, Nigeria
Samer Fadl (B.A. Yale Univ. 2004), New Haven, Conn.
Tanaz Rivka Farzan (B.S. Univ. Southern California 2005), Beverly Hills, Calif.
Corey Scott Frucht (B.S., M.S. Brandeis Univ. 2004), Bullville, N.Y.
Andrew Taylor Georgi (B.A. Weber State Univ. 2004), North Ogden, Utah
Kimberly Beth Gold (B.A. Columbia Univ. 2002), Gainesville, Fla.
Carolyn Graham Goldberg (B.S. Brown Univ. 2005), Westport, Conn.
Stephen Elliot Gordon (B.A. Harvard Univ. 1998; M.B.A. Univ. Pennsylvania 2005),
Pacific Palisades, Calif.
Amanda Nicole Gra≠-Baker (B.S. Stanford Univ. 2004), Lafayette, Calif.
Johanna Kate Halfon (B.S. Yale Univ. 2004), Midlothian, Va.
Philip Scorza Hall (B.A. Princeton Univ. 2005), Milford, Ohio
Kylene Elizabeth Halloran (B.S. Loyola Coll. 2003), West Hartford, Conn.
Luz Evelyn Jimenez (B.A. Columbia Univ. 2003), Brooklyn, N.Y.
Yoshio Arturo Kaneko (B.A. Harvard Univ. 2002), Guilford, Conn.
Caleb Bosler Korngold (B.A. Stanford Univ. 2001), Davis, Calif.
Maya Evelyn Kotas (B.S. Yale Univ. 2005), Ithaca, N.Y.
Gifty Kwakye (B.S. Yale Univ. 2005), Rockville, Md.
Simon Erik Laganiere (B.S. McGill Univ. 2003), Ile Cadieux, Quebec, Canada
Jennifer Ching-Yi Lee (B.S. Yale Univ. 2005), Whitestone, N.Y.
Robert David Leone (B.A. Harvard Univ. 1989), East Quogue, N.Y.
Adam Martin Licurse (B.A. Yale Univ. 2005), Fayetteville, N.Y.
Anthony Thomas Marféo (B.S. Northeastern Univ. 2004), North Scituate, R.I.
Susan Mathai (B.A. Harvard Univ. 2005), Dallas, Tex.
Sean David McEvoy (B.S. Univ. Iowa 2004), Ryan, Iowa.
Leah Jennifer McNally (B.S. Duke Univ. 2005), Fort Lauderdale, Fla.
Fabienne Christine Meier-Abt (B.A. Cambridge Univ. 2005), Gockhausen, Switzerland
Anne Kathryn Merritt (B.A. Dartmouth Coll. 2005), Darien, Conn.
Christopher Perry Miller (B.A. Univ. Pennsylvania 2005), Hamden, Conn.
Yasha Satish Modi (B.A. New York Univ. 2005), Newburgh, N.Y.
Kemunto Mokaya (B.S. Yale Univ. 2005), Nairobi, Kenya
Janelle Katie Moulder (B.S. Northeastern Univ. 2005), Cooper City, Fla.
Nikhil Ravindra Nayak (B.A. Georgetown Univ. 2003), Flanders, N.J.
Abby Lynne Nerlinger (B.S. Univ. Notre Dame 2005), Wilmington, Del.
Enrollment 299

Esi Wusiwa Nkyekyer (B.A. Bryn Mawr Coll. 2003), Accra, Ghana
Titilope Oduyebo (B.S. Univ. Maryland [College Park] 2005), Upper Marlboro, Md.
Christopher Joseph Painter (B.A. Case Western Reserve Univ. 2005), Pittsburgh, Pa.
Swapna Reddy (B.A. Univ. Pennsylvania 2004), Princeton, N.J.
Mariangela Rivera (B.S. State Univ. New York [Stony Brook] 2004), Selden, N.Y.
Aviva Jill Romm (B.S. Lesley Coll. 1998), Cheshire, Conn.
Rachel Kushner Rosenstein (B.A. Princeton Univ. 2005), Far Hills, N.J.
Oliver Quinlan Rothschild (B.A. Univ. Chicago 2002), New York, N.Y.
Jennifer Marie Sabino (B.S. United States Military Academy 2005), New Fairfield, Conn.
Sudip Sarkar (B.A. Vanderbilt Univ. 2005), Memphis, Tenn.
Rajendra Fernando Sawh-Martinez (B.S. New York Univ. 2005), Lakeland, Fla.
Joanna Bradshaw Schatz (B.A. Mount Holyoke Coll. 2003), S. Kingstown, R.I.
Mark David Schlangel (B.A. Brandeis Univ. 2005), New Rochelle, N.Y.

David Charles Shield (B.A. Brown Univ. 2003), Seekonk, Mass.
Kamila Janetta Sikora (B.S. Univ. Southern California 2005), Centennial, Colo.
Amanda Mondonedo Silverio (B.A. Stanford Univ. 2003), Chino Hills, Calif.

Shreya Sood (B.A. Cornell Univ. Endowed Colleges 2005), Woodbridge, Conn.
Heather Korkosz Speller (B.A. Boston Coll. 2005), Belmont, Mass.
Joshua William Trufant (B.A. Brown Univ. 1999), Brookline, Mass.
Aimee Marie Two (B.S. Brown Univ. 2005), Tempe, Ariz.
Katherine Elizabeth Uyhazi (B.S. Coll. of New Jersey 2005), Lawrenceville, N.J.
Matthew Lepore Vestal (B.A. Johns Hopkins Univ. 2004), Thornwood, N.J.
Ellen Marie Vollmers (B.S. Tulane Univ. 2004), Old Town, Maine.
Heather Wachtel (B.A. Harvard Univ. 2003), New York, N.Y.
Frederick Diing-Jye Wang (B.S. Massachusetts Inst. of Technology 2005), Parker, Tex.
Joshua Isaac Weiner (B.A. Harvard Univ. 2003), Scarsdale, N.Y.
Rachel Scott Weston (B.A. Brown Univ. 2003), Arlington, Va.
Rachel Harriet Wolfsen (B.A. Rice Univ. 2005), Edina, Minn.
Julie Mae Xanthopoulos (B.S. Lafayette Coll. 2004), Lewistown, Pa.
Qi Zheng (B.A. Grinnell Coll. 2004), Shanghai, China

Total, 102
Second-Year Class

Johannes Adomako-Mensah (B.A. Middlebury Coll. 2004), Accra, Ghana
Akua Adu-Boahene (B.S. Massachusetts Inst. of Technology 2006), Decatur, Ga.
Sungeeta Agrawal (B.A. Northwestern Univ. 2006), Concord, Mass.
Feras Akbik (B.S. Emory Univ. 2005), Atlanta, Ga.
Lisa Mee-Hyun An (B.S. Massachusetts Inst. of Technology 2005), Springfield, Va.
Emma Longley Barber (B.S. Yale Univ. 2006), Chicago, Ill.
Jonathan Philip Belman (B.S. Pennsylvania State Univ. 2004), Pine Brook, N.J.
Marie Suzy Bewley (B.S. Yale Univ. 2004), Guilford, Conn.

School of Management  Courses for college graduates. Professional degree: Master of Business Administration (M.B.A.).

For additional information, please write to the Admissions Office, Yale School of Management, PO Box 208200, New Haven CT 06520-8200; tel., 203.432.5635; fax, 203.432.7004; e-mail, mba.admissions@yale.edu; Web site, http://mba.yale.edu/
Travel Directions

See also http://business.yale.edu/map/medicine.html. Additional parking is available at the Amistad, Howard Avenue, and Temple garages, and at Yale-New Haven Hospital’s Emergency Department and Children’s Hospital.

BY AIR

Tweed–New Haven Airport is the closest airport and is approximately four miles from the Yale campus. It is serviced by USAirways (800.428.4322) and Pan Am (800.359.7262). Local taxi service, Metro Cab (203.777.7777), is available at the airport. Connecticut Limousine Service (800.472.5466) to New Haven services Kennedy International Airport (New York), La Guardia Airport (New York), Newark International Airport (Newark, New Jersey), and Bradley International Airport (Windsor Locks, Connecticut, near Hartford).

BY TRAIN

There is hourly Metro-North (800.638.7646) service to New Haven from Grand Central Station in New York every day of the week. Amtrak (800.872.7245) service is scheduled daily from Boston, Washington, D.C., or New York (Penn Station).

BY CAR

From I-95 North or South Take Exit 47 (Route 34) to Exit 2 or 3. Visitor parking is available in the Air Rights Garage, which can be entered from North or South Frontage Roads, or from York Street.

From I-91 South Take Exit 1 (Route 34) to Exit 2 or 3. Continue to the Air Rights Garage, as above.

From Merritt Parkway (Rte. 15) North Take Exit 57 to Route 34 East into New Haven. Turn right onto Ella T. Grasso Boulevard (Rte. 10) and then left onto South Frontage Road (Legion Avenue). Follow Yale-New Haven Hospital and Rte. 34 signs. Continue to the Air Rights Garage, as above.

From Wilbur Cross Parkway (Rte. 15) South Take Exit 59 immediately after the tunnel. Go right at end of ramp. Merge left onto Whalley Avenue at light. Stay on Whalley until you see signs for Yale-New Haven Hospital at Park Street. Follow hospital signs, then make a left turn onto South Frontage Road. Continue to the Air Rights Garage, as above.
