Conference Brochure

#SETTINGTHEPACE2016
Innovation: Designing our Future!

Are you proud of being an Emergency Nurse? If you are reading this, we’re pretty certain that you are, because as a conference committee, we know we are. During the initial phases of #SettingThePace2016, we stopped to reflect on what the Emergency Nurses Association meant to all of us. Our varying ages, stages in our careers, and experiences brought a tremendous onslaught of ideas. We thought about the past. We relished on the memories that being a part of this profession and specialty brought us. We sighed and thought, “How do we out do, the 35th anniversary?” “What do we want to learn about?” We reflected and thought about all the different things we wanted for Emergency Nurses everywhere.

The resounding summary of our conversation all flowed back to: “How do we prepare the Emergency Nurse for the future and how do we get involved?” #SettingThePace2016 is about Innovation: Designing our future. As an organization, we need to pay attention to the changes and challenges that emergency medicine will bring in the future. We wanted to present topics that are going to evoke thought, question your own practices, and inspire innovation. Whether you’re a new novice staff nurse who is starting their first job as an ED RN, or the expert nurse who is looking for a new way to provide education or build your chapter, this conference has a constellation of topics that we hope spark your interest! We wanted to accomplish all of this all the while remembering our roots of promoting continuing education and supporting safe practice and safe care!

We hope you come ready to have fun, network, learn, and challenge yourself to new topics to inspire innovation in your practice! It is our hope that you leave our conference feeling invigorated to bring something new to your organization and practice!

See you Saratoga!

Evidenced Based Practice

NYSENA is seeking research and evidence-based practice abstracts that address emergency care issues including clinical, education and injury prevention for presentation at the 2016 conference. The paper and poster sessions are focused on topics that are of interest and importance to nurses, managers, educators, researchers and others who practice in emergency care settings.

Abstracts must reflect either completed projects or projects in the final stages of completion with results available for inclusion in the poster presentation. Suggested topics include, but are not limited to, abstracts which address clinical practice, education, research, injury prevention, quality & patient safety, trauma, government affairs, pediatrics, telephone triage, emergency medical services, forensics, etc. Authors may submit abstracts for more than one paper and/or poster.

ENA prefers to accept posters and papers from a variety of authors. A primary presenter is the individual who registers for the conference (registration is required) and who presents the paper or poster at the conference. This presenter will have their poster hung at the conference but the presenter does not need to stay at poster, they may attend classes at the conference.

Poster Awards Program: Sponsored by the NYSENA, the Poster Awards Program is open to all authors of presented posters (both ENA members and non-members). Two awards will be given out – one for the best Research poster, and one for the best Evidence-based Practice poster. To be eligible for this award, the poster must be set up at the start of the conference - NO exceptions.

Additional information is available. Contact conference@nysena.org.
