Credentials Coordinator
PREFACE

This Education Catalog is a guide to the programs offered by The Mount Sinai Hospital through Nursing Education and The School of Continuing Education in Nursing. Programs are designed for orientation, staff development and continuing education as well as clinical initiatives.

Nursing Education provides professional development and educational support for the Department of Nursing within The Mount Sinai Hospital. Educational support is also provided for other clinical departments/personnel in the hospital. The Mount Sinai Hospital School of Continuing Education in Nursing offers programs to the professional health care and lay community.

The Mount Sinai Hospital is an approved provider of continuing nursing education by the Alabama Nurses Association, an accredited approver by the American Nurses Credentialing Center’s Commission on Accreditation.

Programs that have completed this review are identified accordingly.

Programs are for identified hospital staff and the outside professional and lay communities. Courses are predominantly free to Mount Sinai nursing staff unless otherwise noted.

*Online Registration only for Employees:

**Process for Mount Sinai Employees:**
Register online via intranet. Click on “Nursing” at the top, then “Nursing Education Online Registration”.

**Outside participants:**
Contact Nursing Education at: (212) 824-7240 or email at: nurse.education@mountsinai.org
**TABLE OF CONTENTS**

**ORIENTATION PROGRAMS**
- Assistive Nursing Personnel Orientation Program (PCA, NA, Tech)  
- Business Associate Orientation Program  
- Cardiovascular Technician Orientation Program  
- Clinical Director Nursing Orientation Program  
- Clinical Nurse Orientation Program  
- Management/Advanced Practice Nursing Orientation Program  
- Per Diem/Agency Nursing Orientation Program  
- Student Nurse Internship Orientation  
- Surgical Technician Orientation Program

**BASIC/ADVANCED CARDIAC LIFE SUPPORT PROGRAMS**
- Advanced Cardiac Life Support (ACLS) Full Course/Renewal Program  
- Basic Cardiac Life Support (BCLS) Full Course/Renewal Program  
- BCLS Instructor Program  
- BCLS Instructor Renewal Program  
- Heartsaver-AED Program  
- Pediatric Advanced Cardiac Life Support (PALS) Full Course / Renewal Program  
- Totsaver

**STAFF DEVELOPMENT PROGRAMS**
- Cardiac Dysrhythmia Interpretation Course* (2 Day Course)  
- Cardiopulmonary Physical Assessment Workshop*  
- Cardiovascular Nurse & Technologist Symposium  
- Competency Day  
- Critical Care Core Program*  
- Culturally Competent Nursing Care*  
- Emergency Nursing Core Course and Certification Update*  
- Essentials of Pediatric Management*  
- Evidence-Based Practice Workshop / Change Management*  
- Fundamentals of Leadership*  
- Geriatric Nursing: Improving Family Centered Elder Care*  
- Introduction to Common Cardiac Dysrhythmias (4 Hour Course)*  
- Licensed Practical Nurse (LPN) IV Therapy Initial Program  
- Mechanical Ventilation Workshop*  
- Mock Code  
- 2013 Mount Sinai Heart Nurse Practitioner Symposium  
- Mount Sinai School of Medicine Affiliated Programs  
- Nursing Grand Rounds* (Day/Night Sessions)*  
- Nursing Research Day*  
- ONS Chemotherapy & Biotherapy*  
- Patient Monitoring Systems GE Telemetry / Bedmaster  
- Phlebotomy Workshop  
- RN Preceptor Program*  
- School Affiliation Faculty Orientation Program  
- Treatment Basics: Antineoplastic Therapy in the Non-Oncology Setting  
- Webinar: Accountability in your RN Practice*  

* Contact Hours will be awarded
ASSISTIVE NURSING PERSONNEL ORIENTATION PROGRAM (PCA, NA, TECH)

OVERVIEW
This is a two week centralized program designed to provide the newly hired Assistive Nursing Personnel (Patient Care Associate, Nursing Assistant, Medical Clinical Associate, Mental Health Associate, Surgical Care Associate, Ambulatory/ED/Dialysis Technician) with the knowledge and skills essential to function in his/her role. Participants are evaluated in their patient observation skills, interpersonal and technical skills within a competency based assessment process.

OBJECTIVES
- Identify the role & responsibilities of the specific position.
- Identify basic human anatomy and physiology.
- Demonstrate knowledge of basic medical terminology.
- Demonstrate methods for effective communication with patients, families and members of the health care team.
- Identify hospital policies/procedures relating to the specific role.
- Identify professional code of conduct/behavior in the performance of the specific role.
- Demonstrate competency in technical skills/procedures/ EMR documentation relevant to the specific role.
- Complete Departmental/Regulatory Agency Mandated programs.

TARGET POPULATION
Newly hired Patient Care Associates, Nursing Assistants, MHAs, SCAs and Technicians

FACULTY
Virginia DeFina, MS, RN-BC, NP Program Leader
Education Specialist

Date/Time All sessions are from 0800 - 1630
January 28 - February 8
April 1-12
*May 28 - June 10 (NB June 10)
July 29 - August 9
September 23 - October 4
**November 25 - December 9

* Memorial Day Holiday ** Thanksgiving Holiday
N.B. - New Beginnings/Hospital Orientation is on Day 1
Note: SCAs and IR Technicians only attend Days 1-4 unless otherwise noted

LOCATION
35 E. 102 Street, 2nd floor

REGISTRATION
Please call Nursing Recruitment & Retention at 212.241.9061
Monday - Friday between 0800 - 1700,
or email nurse.recruitment@mountsinai.org
BUSINESS ASSOCIATE “BEST” ORIENTATION PROGRAM

OVERVIEW
This centralized orientation program is designed to prepare the newly hired Business Associate for their role within The Mount Sinai Hospital. The program includes a review of Regulatory Programs, Foundations of Customer Service and Clinical Computer Skills.

OBJECTIVES
• Complete Departmental and Regulatory Agency mandated programs.
• Demonstrate methods for effective communication with patients, families and members of the health care team using the principles of Customer Service.
• Demonstrate knowledge of the computer systems specific to the Business Associate role.

TARGET POPULATION
Newly Hired Business Associates

FACULTY
Carol Manns, MSN, RN  Clinical Program Manager, Program Leader
Training and Education Faculty
Information Technology Faculty

DATE/TIME
January  7 - 11  July  8 - 12
February  11 - 15  August 12 - 16
March  11 - 15  September 9 - 13
April  15 - 19  October 14 - 18
May  13 - 17  November 11 - 15
June  10 - 14  December 9 - 13

LOCATION
Day 1: New Beginnings 0800-1630
Day 2: Didactic in Nursing Education in 35 E 102 St 2nd floor Lecture Hall
Day 3: Didactic in Training and Education in 19 E 98 St. 2D and Nursing Education
Day 4 & 5: Computer/Technical training in 5 E 98 St. SB room 05

REGISTRATION

CARDIOVASCULAR TECHNICIAN ORIENTATION PROGRAM

OVERVIEW
This is a two week centralized program designed to provide the newly hired Cardiovascular Technician with the knowledge and skills essential to function in his/her role within the Cardiac Cath Lab setting.

OBJECTIVES
- Identify role/responsibilities of Cardiovascular Technician.
- Demonstrate methods for effective communication with patients, families and members of the health care team.
- Demonstrate knowledge of basic medical terminology.
- Describe basic anatomy & physiology of cardiovascular system.
- Distinguish cardiac dysrhythmias and discuss the indications for the use of pacemakers.
- Identify hemodynamic monitoring equipment and their functions.
- Identify various invasive procedures done in the Cardiac Cath Lab as they relate to the Cardiovascular Technician role.
- Discuss the principles of aseptic technique and the protocol for infection control.
- Identify hospital policies/procedures relating to the Cardiovascular Technician role.
- Identify professional code of conduct/behavior in the performance of the Cardiovascular Technician role.
- Demonstrate competency in technical skills/procedures/ EMR documentation relevant to the Cardiovascular Technician role.
- Complete Departmental and Regulatory Agency Mandated programs.

TARGET POPULATION
Newly hired Cardiovascular Technician

FACULTY
Robin Krinsky, MSN, RN-BC, CCRN  Program Leader
Victoria Dayrit, MSN, RN, CCRN

DATE/TIME
Programs are given upon request

LOCATION
35 E. 102 Street, 2nd floor

REGISTRATION
Please call Nursing Recruitment & Retention at 212.241.9061, Monday-Friday between 0800 - 1700, or email nurse.recruitment@mountsinai.org.
CLINICAL DIRECTOR ORIENTATION PROGRAM

OVERVIEW
This is a self-directed program designed to provide the newly hired Clinical Director with an orientation to The Mount Sinai Hospital.

OBJECTIVES
- Identify the variety of services & administrative processes within the institution that are critical to patient care.
- Identify the various professional disciplines and their relationship to Nursing and Patient Care Services operations.
- Identify the concepts and initiatives for Patient Access, Case Management, Managed Care and the development of alliances within The Mount Sinai Hospital and related Health System affiliates.
- Discuss the process for Facility Planning within the institution.
- Describe the process of Operational Planning and Certificates of Need (CON) regulations.
- Identify Information Technology and Data Processing systems utilized within the institution.
- Explain/interpret systems/reports/budgets relating to Finance Department.

BASIC CARDIAC LIFE SUPPORT (BCLS)  
FULL COURSE / RENEWAL PROGRAM

OVERVIEW
Designed to teach / update health care providers the American Heart Association (AHA) standards for adult, child and infant one and two rescuer CPR, management of foreign body airway obstruction and use of the automatic external defibrillators (AED).

OBJECTIVES
• Discuss the role of AHA.
• Discuss health requirements in performing BCLS psychomotor skills.
• Identify risk factors of heart disease/discuss prudent heart living.
• Discuss care of the pre-arrest victim.
• Identify signs and symptoms of cardiac and respiratory arrest.
• Demonstrate proficiency in the performance of the following psychomotor skills:
  • Adult one and two person rescuer
  • Child one and two person rescuer
  • Infant one and two person rescuer
  • Management of foreign body airway obstruction:
    • adult
    • child
    • infant
  • Airway management and ventilation devices
  • Automated external defibrillator
  • Score a minimum of 84% in the written examination.

Education Specialists

Date/Time  Day 1 & 2 are from 0900 - 1700 (didactic),
Day 3 0800 - 1400 (BCLS Monitoring)

February 25 & March 11 and Monitoring March 20
September 16 & 30 and Monitoring October 23

Note:
Course participants must also be observed teaching a scheduled BCLS Course. For Mount Sinai options, see BCLS Full Course/Renewal Program for available course dates and times.

LOCATION
35E. 102 Street, 2nd floor
BCLS INSTRUCTOR PROGRAM
(CONTINUED)

PROGRAM REQUIREMENTS
Must bring a current, valid American Heart Association (AHA) BCLS Healthcare Provider (Course C) card to the first day of the course.

FEE/REGISTRATION
$350 for outside participants; $300 MSH affiliates.
Fund transfers must be submitted on or before the course.

Course fees payable to The Mount Sinai Hospital and REMSCO (Two (2) separate checks required)

MSH Employees: Register online via intranet. Click on “Nursing” at the top, then “Nursing Education Online Registration”.
Outside participants: Contact Nursing Education at: (212) 824-7240
BCLS INSTRUCTOR RENEWAL PROGRAM

OVERVIEW
This program is designed by REMSCO/AHA to update current BCLS Instructors and/or Instructor-Trainers. Upon successful completion of program requirements, the participant will receive a card issued by AHA/REMSCO.

OBJECTIVES
• Explain recent changes related to BCLS.
• Demonstrate proficiency in the cognitive and psychomotor skills of BCLS.
• Demonstrate effective teaching ability.

PROGRAM REQUIREMENTS
Current AHA BCLS Instructor and/or Trainer card, documented BCLS course monitoring, proficiency in BCLS skills and teaching, achieve a minimum of 90% on the BCLS provider exam at the beginning of the course.

TARGET POPULATION
Current REMSCO/AHA BCLS Instructors

FACULTY

HEARTSAVER-AED PROGRAM

OVERVIEW
This course is designed by the American Heart Association, to prepare individuals in recognizing life threatening emergencies in adults. It includes an integrated adult CPR and the use of an Automated External Defibrillator (AED).

OBJECTIVES
• Discuss the AHA adult chain of survival.
• Identify the risk factors for heart disease and stroke.
• Recognize the warning signs of heart attack and stroke.
• Demonstrate the following psychomotor skills:
  a. Adult 1-Rescuer CPR
  b. Rescue Breathing with a Face mask or shield and gloves
  c. Relief of Foreign Body Airway Obstruction, Conscious Choking
  d. AED
• Score a minimum of 84% in the written test.

TARGET POPULATION
General Public

FACULTY
Michele Galbo MS, RN, CEN Program Leader
Education Specialist

DATE / TIME: Groups scheduled by appointment only

LOCATION
35 E. 102 Street, 2nd floor

FEE/REGISTRATION
$50 per person
Course fees payable to The Mount Sinai Hospital.

MSH Employees: Register online via intranet. Click on “Nursing” at the top, then “Nursing Education Online Registration”
Outside participants: Contact Nursing Education at: (212) 824-7240
OVERVIEW
Designed to teach/update healthcare providers the American Heart Association (AHA) standards for pediatric victims of cardiac arrest and other cardiopulmonary emergencies through mastery of select psychomotor skills and successful completion of a written exam.

OBJECTIVES
• Demonstrate Basic Life Support on a child/infant mannequin.
• Demonstrate assessment and management for a variety of pediatric emergency conditions including respiratory failure, shock, trauma and foreign body airway obstruction.
• Identify & demonstrate correct use of oxygen delivery systems.
• Identify appropriate fluid resuscitation strategies.
• Demonstrate appropriate neonatal resuscitation.
• Identify common pediatric rhythm disturbances & demonstrate appropriate intervention in case situations.
• Demonstrate knowledge of pediatric emergency drugs by responding to case study situations.

TARGET POPULATION
Pediatric Critical Care, ICUs, Emergency Department, PACU & Endoscopy RNs, MDs, APNs

FACULTY
Michele Galbo, MS, RN, CEN Program Leader
Donald Basdeo, BSN, RN
Vicky Dayrit, MA, RNC, CCRN
Robin Krinsky, MSN, RN-BC, CCRN

Outside participants: Contact Nursing Education at: (212) 824-7240
OVERVIEW
This is a three-hour program designed by the American Heart Association (AHA) and the American Academy of Pediatrics.

OBJECTIVES
• Identify causes of cardiac or pulmonary arrest.
• Discuss prudent heart living.
• Identify causes of common childhood injuries.
• Discuss strategies in preventing childhood injuries and maintaining a safe environment for infants and children.
• Demonstrate the following psychomotor skills: infant/child CPR
• management of foreign body obstruction:

TARGET POPULATION
Parents/ Family members

FACULTY
Certified faculty in Womens & Childrens Services (WCS)

DATE/TIME
For more information about dates and times, please call Womens & Childrens Services at 212.241.7491, Monday - Friday between 0800 - 1700.

LOCATION
35E. 102 Street, 2nd floor

FEE/REGISTRATION
$75 per person
$135 per couple/household
Course fees payable to The Mount Sinai Hospital - Registration is limited.

Please call Women & Children Services at 212.241.7491
Monday-Friday between 0800-1700 for more information/registration.
CARDIAC DYSRHYTHMIA INTERPRETATION

OVERVIEW
This two day program is designed to provide the nurse with a systematic approach to analysis, interpretation & clinical management of cardiac dysrhythmia.

OBJECTIVES
• Define properties of the cardiac electrical & mechanical cells.
• Describe the conduction pathway of an electrical impulse.
• Identify the characteristics of a normal EKG.
• State the criteria for normal sinus rhythm and lethal rhythms.
• Interpret EKG using the five-step-approach.
• Differentiate between dysrhythmias originating in atria/ventricles.
• Discuss the hemodynamic consequences of each dysrhythmia.
• State the nursing & medical interventions for each dysrhythmia.

TARGET POPULATION
Registered Nurses
(Required for Nurses who work in Critical Care, Telemetry and Stepdown Units)

FACULTY
Michele Galbo, MS, RN, CEN Program Leader
Education Specialist

DATE/TIME
All sessions are from 0800 - 1630
Retakes at 0830

January 23 & 25 (Retake: 1/30) July 23 & 26 (Retake: 8/1)
February 27 & March 1 (Retake: 3/7) Sep. 24 & 27 (Retake: 10/3)
March 26 & 29 (Retake: 4/4) Oct. 31 & Nov. 1 (Retake: 11/7)
May 29 & 31 (Retake: 6/6) Dec. 2 & 4 (Retake: 12/10)

REQUISITE
Available via MSSM bookstore website at:
http://www.posmancollegiate.com/mtsina
ALSO available for purchase before class at Nursing Education, $45.

LOCATION
35 E. 102 Street, 2nd floor

FEE/REGISTRATION
$250 for outside RNs (includes book)
$200 for Mount Sinai Hospital Health System affiliates (includes book)
$150 for Nursing Students with valid ID (includes book)
Fund transfers must be submitted on or before the course.
Course fees payable to The Mount Sinai Hospital

MSH Employees: Register online via intranet. Click on “Nursing” at the top then “Nursing Education Online Registration”.
Outside participants: Contact Nursing Education at: (212) 824-7240

14.5 contact hours will be awarded, by AACN

This program has been approved by the American Association of Critical Care Nurses (AACN) for 14.5 contact hours, synergy CERP Category B
CARDIOPULMONARY PHYSICAL ASSESSMENT WORKSHOP

OVERVIEW
This program is designed to provide the nurse with the base skills and knowledge necessary to perform a systematic physical assessment of the respiratory and cardiovascular systems.

OBJECTIVES
• Discuss the anatomy and physiology of the respiratory system.
• Identify significant anterior and posterior thoracic landmarks related to chest auscultation.
• Demonstrate the critical steps of physical assessment: inspection, palpation, percussion and auscultation.
• Differentiate between normal/abnormal breath sounds.
• Document respiratory physical assessment findings.
• Describe anatomy & physiology of the cardiovascular system.
• Identify the critical elements of cardiac assessment.
• Demonstrate correct stethoscope placement for auscultating heart sounds (S1, S2, PMI)
• Document cardiovascular physical assessment findings.
• Interpret arterial blood gases

TARGET POPULATION
Registered Nurses (Bring Stethoscope)

FACULTY
Carol Manns, MSN, RN  Program Leader
Clinical Program Manager

DATE/TIME   All sessions are from 0900 - 1600
March 4    September 26
June 3    December 6

LOCATION
35 E. 102 Street 2nd Floor

FEE/REGISTRATION
$125 for outside RN’s
$95 for Mount Sinai Hospital Health System affiliates
$70 for Nursing Students with valid ID
Course fees payable to The Mount Sinai Hospital
Fund Transfers must be submitted on or before the course.

MSH Employees: Register online via intranet.
Click on “Nursing” at the top, then “Nursing Education Online Registration”.
Outside participants: Contact Nursing Education at: (212) 824-7240

5.8 contact hours will be awarded upon attendance at entire event and submission of completed evaluation.

The Mount Sinai Hospital is an approved provider of continuing nursing education by the Alabama Nurses Association, an accredited approver by the American Nurses Credentialing Center’s Commission on Accreditation.
OVERVIEW
This course is a comprehensive update on the latest advances in interventional and cardiovascular therapy.

OBJECTIVES
• Discuss advances in cardiology
• Identify new treatments in acute coronary syndromes
• Review new adjuncts to conventional therapy
• Review recognition and management of Interventional complications
• Identify advances in anticoagulation therapy
• Participate in hands-on learning sessions

TARGET POPULATION
This course is specifically designed for Nurses, Nurse Practitioners, Technicians, and other Allied Health Care Professionals who work in Cardiac Catheterization laboratories.

FACULTY
Robin Krinsky, MSN, RN-BC, CCRN  Program Leader
Nurse Clinician -Educator, Mount Sinai Heart

Beth Oliver, DNP, RN  Co- Program Leader
Vice President, Mount Sinai Heart

DATE/TIME
June 11  0800 - 1630

LOCATION
Stern Auditorium, Annenberg Building Mezzanine

FEE/REGISTRATION
$75 for Mount Sinai RNs and Techs
$150 for outside RNs
$100 for Mount Sinai Hospital Health System affiliates
Course fees payable to The Mount Sinai School of Medicine

Contact hours will be awarded.

For more information, please contact Mount Sinai School of Medicine, One Gustave Levy Place, Box 1193, New York, NY 10029-6574.
COMPETENCY DAY

OVERVIEW
This program offering is designed for the registered professional nurse to demonstrate unit specific competency of high risk/frequency skills that may include:
• ACT
• Blood Administration
• CLABS
• Dysrhythmias
• Propofol Administration
• Patient Controlled Analgesia update
• Restraints
• Sedation/Analgesia
• Universal Protocol
• Zoll Defibrillator
• POC Testing

This program is also designed for assistive staff to demonstrate unit competency in the skills below:
• Restraints Use/Basic First Aid
• Venipuncture Order of Draws.

TARGET POPULATION
MSH Registered Nurses & Assistive Staff

FACULTY
Donald Basdeo, BSN, RN                     Program Leader
                  Clinical Program Manager

DATE/TIME      All sessions are from 0730 - 1700
January 24      July 11
March 28        September 12

CRITICAL CARE CORE PROGRAM

OVERVIEW
This is an intensive five-day intermediate level program to provide the nurse with the knowledge necessary for effective performance in the critical care area. The program presents a systems approach with a pathophysiology review and nursing/medical management of adult/pediatric populations.

OBJECTIVES
• Describe the essential elements of the pathophysiological alterations and management of critically ill patients with the following problems: respiratory failure, neurological problems, cardiac dysfunction, hematologic emergencies, hemodynamic instability, renal failure, gastrointestinal problems, need for sedation/analgesia, shock syndromes, and endocrine problems.
• Discuss the differences in the pathophysiology and management of the critically ill adult and pediatric populations.
• Explain indications for the use of pharmacologic agents frequently used for the management of critically ill patients (inotropes, vasodilators, vasopressors, diuretics, anesthetic agents).
• Apply ACLS standards to simulated emergency situations.
• Discuss communication & decision-making strategies regarding ethical issues
• Discuss palliative care, pain management, & organ donation as it relates to the critically ill patients

TARGET POPULATION
Clinical Nurses (ICUs, SDU, PACU), Clinical Nurse Managers, Coordinators and Advanced Practice Clinicians (Newly hired/ currently working/transferred to Critical Care Units)

FACULTY
Michele Galbo, MS, RN, CEN, CEN
Donald Basdeo, BSN, RN

$400 for Mount Sinai Hospital Health System affiliates
$250 for Nursing Students with valid ID
Course fees payable to The Mount Sinai Hospital

MSH Employees: Register online via intranet. Click on “Nursing” at the top, then “Nursing Education Online Registration”.
Outside participants: Contact Nursing Education at: (212) 824-7240

This program has been approved for 35.25 contact hours; 32.25 for Synergy CERP Category A and 3.0 for Synergy Category B.
CULTURALLY COMPETENT NURSING CARE

OVERVIEW
This program is designed to integrate evidence based education and skills for the delivery of culturally competent nursing care by all levels of professional nurses. Interactive games, case studies and care plan development are integral to enhance and evaluate the learning experience.

OBJECTIVES
• Define culture, cultural sensitivity, and cultural competence.
• Discuss global health initiatives that address health disparities locally and nationally.
• Discuss diversity in the population of New York City and the United States regarding demographic changes, immigration patterns, economic and health issues.
• Integrate evidence based concepts from nursing models of culturally competent healthcare into nursing care delivery.
• Role play scenarios related to cultural differences and effect on or conflict with the healthcare plan.
• Discuss clinical experiences that demonstrate examples of culturally competent care.

TARGET POPULATION
All levels of MSH professional nursing staff, part of Nursing Orientation.

FACULTY
Carol Manns, MSN, RN, Clinical Program Manager
Deon Kaura, RN, Clinical Nurse Program Leader
Janet Thompson, RN Clinical Nurse CSICU Co-Program Leader

2.5 contact hours will be awarded upon attendance at entire event and submission of completed evaluation

The Mount Sinai Hospital is an approved provider of continuing nursing education by the Alabama Nurses Association, an accredited approver by the American Nurses Credentialing Center’s Commission on Accreditation.
EMERGENCY NURSING CORE COURSE & CERTIFICATION UPDATE

OVERVIEW
To provide the Emergency Nurse with a basic foundation in the assessment and management of specific patient care emergencies and to prepare the experienced Emergency Nurse to sit for the Certified Emergency Nurses (CEN) examination.

OBJECTIVES
• Trauma and abdominal emergencies.
• Psychiatric emergencies.
• Medical emergencies.
• Cardiovascular and respiratory emergencies.
• Gynecological and genitourinary emergencies.
• Professional issues.

TARGET POPULATION
Registered nurses in the ED

FACULTY
Donald Basdeo, BSN, RN
Program Leader
Clinical Program Manager, Emergency Department

DATE/TIME
March 7 & 8 0800-1630
October 28 & 29 0800-1630

12 contact hours will be awarded upon attendance at entire event and submission of completed evaluation

The Mount Sinai Hospital is an approved provider of continuing nursing education by the Alabama Nurses Association, an accredited approver by the American Nurses Credentialing Center’s Commission on Accreditation.
ESSENTIALS OF PEDIATRIC MANAGEMENT: DEVELOPMENTAL ASPECTS OF CARE AND PEDIATRIC EMERGENCIES

OVERVIEW
This class is designed to provide the registered nurse with the knowledge necessary to assess the pediatric patient and to manage pediatric emergencies.

OBJECTIVES
• Review developmental stages and associated stressors.
• Discuss effective communication and comfort techniques utilized in the care of children and their families.
• Describe primary and secondary assessment of the pediatric patient.
• Review “Red Flag” vital signs for the pediatric patient.
• Discuss 3 pain assessment methods utilized for pediatric patients.
• Discuss nursing management during common pediatric emergencies.
• Review roles, responsibilities and Team 7000 cart content during a cardiopulmonary arrest of a pediatric patient.

TARGET POPULATION
Open only to all Mount Sinai Nursing Staff
Mandatory for the following units: AHC, Blood Bank Apheresis, Dental Clinic, B1 Dialysis, GP 8W EMU, GP 11C Pediatric Bone Marrow Transplant, Jack Martin Fund Clinic, Madison 6, P4, P5, Annenberg 4, Pediatric Associates/Clinic, Peds Area in the Cath Lab, Radiation Oncology, Radiology/IR, Rehabilitation

FACULTY
Carol Manns, MSN, RN  Program Leader
Michele Galbo, MS, RN, CEN
Robin Krinsky, MSN, RN-BC, CCRN  Rosalinda Margulies, MPH, RNC
Susan Nevins, MA, RN, ANP, CNRN  Emma Rafol, MA, RN, CS, CCRN

FEE/REGISTRATION
MSH Employees: Register online via intranet. Click on “Nursing” at the top, then “Nursing Education Online Registration”.

2 contact hours will be awarded upon attendance at entire event, achievement of a minimum score of 80% on post test and submission of completed evaluation.

The Mount Sinai Hospital is an approved provider of continuing nursing education by the Alabama Nurses Association, an accredited approver by the American Nurses Credentialing Center’s Commission on Accreditation.
EVIDENCE-BASED PRACTICE WORKSHOP / CHANGE MANAGEMENT

OVERVIEW
This program is designed to provide registered nurses with the basic components of evidence based practice to support inquiry in the clinical setting.

OBJECTIVES
• Define evidence based practice (EBP).
• Discuss three models of evidence based practice.
• Identify the roles of Change champion and Opinion leader.
• Discuss the PICO (problem, intervention, comparison, outcome) method.
• Identify methods for conducting a literature review to find the evidence

TARGET POPULATION
Registered Nurses
Open only to all Mount Sinai Professional Nursing Staff, part of Nursing Orientation

FACULTY
Medel Paguingan, EdD, RN, CNE  Program Leader
Nursing Research Committee

3 contact hours will be awarded upon attendance at entire event and submission of completed evaluation

The Mount Sinai Hospital is an approved provider of continuing nursing education by the Alabama Nurses Association, an accredited approver by the American Nurses Credentialing Center’s Commission on Accreditation.
OVERVIEW
This course is designed to prepare registered nurses to assume the charge nurse role to support quality patient care.

OBJECTIVES
• Describe the leadership functions that support effective, quality patient care.
• Integrate priority setting and delegation skills in the management of patient care with respect to patient assignments, patient flow decisions and emergency care.
• Utilize effective communication and conflict resolution techniques to foster interdisciplinary teamwork and patient care delivery.
• Discuss the critical issues in a professional environment of care that supports patient safety and care delivery.
• Identify the relevant Standards of Care and resources to be accessed by staff.
• Apply the principles outlined above.

GERIATRIC RESOURCE NURSING COURSE

OVERVIEW
This program is designed to introduce the best practice protocols in family centered care of the older adult. The program will focus on the normal aging process and the biological, mental, emotional, socio-cultural and homeostatic imbalances that occur in the elderly patient. Ethnogeriatric competency of healthcare providers will be introduced. Topics on functional assessment, cognition, nutrition, pharmaco-dynamics and caregiving issues in the elderly will be explored. The NICHE curriculum will be utilized as the foundation for this program.

OBJECTIVES
• Define concepts of aging.
• Discuss the major theories of aging.
• Describe age-related changes & their implications to nursing care.
• Identify various geriatric assessments.
• Discuss the nutritional and pharmacological aspects of care for the elderly.
• Recognize hazards of hospitalization.
• Discuss the best practices in the nursing care of the elderly.

TARGET POPULATION
Registered Nurses

FACULTY
Nadine Sanders, MPS, RNC Program Leader
Education Specialist

Fund transfers must be submitted on or before the course.

MSH Employees: Register online via intranet. Click on Nursing” at the top, then “Nursing Education Online Registration”.
Outside participants: Contact Nursing Education at: (212) 824-7240

7 contact hours will be awarded upon attendance at entire event and submission of completed evaluation.
INTRODUCTION TO COMMON CARDIAC DYSRHYTHMIAS

OVERVIEW
This 4 hours course is designed to provide the clinical nurse with a basic introduction to common cardiac dysrhythmias. The program presents a systems approach to common dysrhythmias with a review of nursing/medical management associated with the rhythms. This course also prepares the nurse in rhythm recognition as a prerequisite for Advanced Cardiac Life Support (ACLS). This course covers only common cardiac dysrhythmias; nurses in critical care/telemetry units must take the 2 day Cardiac Dysrhythmia course.

OBJECTIVES
• Define the properties of the cardiac cells
• Describe the conduction pathway of an electrical impulse
• Identify the characteristics of a normal ECG
• State the criteria of each rhythm
• Interpret an ECG using the five step approach
• Differentiate among dysrhythmias originating from the sinus node, atrial and ventricles
• Discuss hemodynamic consequences of each dysrhythmia
• State the nursing and medical interventions for each dysrhythmia

TARGET POPULATION
Registered Nurses
(Required for NICU, Endoscopy and Dental Clinic RNs)

LICENSED PRACTICAL NURSE (LPN)
IV THERAPY INITIAL PROGRAM

OVERVIEW
To provide the LPN with the knowledge and skills for the administration of IV fluids and medication as required by the New York State Education Department

OBJECTIVES
• Discuss LPN responsibilities and requirements for compliance for administering IV fluids and medications.
• Complete calculation assessment achieving a minimum score of 80%
• Demonstrate preparation of additives to a primary IV solution container.
• Demonstrate preparation of solusets from a powder for IV piggybacks
• Demonstrate instillation of IV medications via Medlock.
• Demonstrate conversion of an existing intravenous infusion into a saline lock.
• Describe basic components of the Infusion Pump.

Outside participants: Contact Nursing Education at: (212) 824-7240
MECHANICAL VENTILATION WORKSHOP

OVERVIEW
This workshop is designed for nurses who care for patients requiring mechanical ventilation. This course will review pulmonary anatomy and physiology, pathophysiology of pulmonary disease, nursing care of the patient requiring mechanical ventilation and other respiratory therapy equipment.

OBJECTIVES
• Discuss anatomy & physiology of the pulmonary system.
• Discuss the pathophysiology of pulmonary disorders.
• Identify respiratory therapy oxygen delivery systems.
• Define the principles of mechanical ventilation.
• Describe the process of weaning a patient.
• Discuss the complications of mechanical ventilation.
• Demonstrate the use of a mechanical ventilator.
• Describe the nursing management utilized when owning for the patient requiring ventilation.

TARGET POPULATION
Registered Nurses in Medical/Surgical/Step Down Units, KCC2S/Rehab

FACULTY
Nadine Sanders, MPS, RNC                  Program Leader
Education Specialist, Respiratory Care Unit / Medical Services
Joseph Widawsky, RRT                      Respiratory Therapy Department

DATE/TIME                       All session are from 0800 - 1630
March 6                              June 18
September 5                           October 22
                                       December 3

LOCATION
35 E. 102 Street, 2nd floor

FEE/REGISTRATION
$125 for outside RNs, $70 for Mount Sinai Hospital Health System affiliates
$95 for Mount Sinai Hospital Affiliate
$70 for Nursing Student with Valid ID
Course fees payable to The Mount Sinai Hospital
Pre-requisite: Knowledge of arterial blood gases, cardiac and respiratory assessment or completion of CardioPulmonary Physical Assessment Workshop

MSH Employees: Register online via intranet. Click on “Nursing” at the top, then “Nursing Education Online Registration”.
Outside participants: Contact Nursing Education at: (212) 824-7240

7 contact hours will be awarded upon attendance at entire event and submission of completed evaluation

The Mount Sinai Hospital is an approved provider of continuing nursing education by the Alabama State Nurses Association, an accredited approver by the American Nurses Credentialing Center’s Commission on Accreditation.
OVERVIEW
This program is designed for clinical nurses to experience and practice the management of a Team 7000 situation through interactive instruction with SimMan, a human patient simulator. Clinical scenarios will be utilized in a team-based, group interaction. A debriefing will follow to provide valuable feedback. This challenging experience addresses response to a Team 7000 situation, review of code cart contents and roles and responsibilities of the RN in a Team.

OBJECTIVES
• Increase confidence and enhance performance during a Team 7000.
• Critically analyze a patient situation and problem solve to prevent or resolve complications.
• Demonstrate critical knowledge and emergency management skills using BCLS in real-time scenarios.
• Review content of Team 7000 Cart.
• Perform the designated RN role in a Team 7000.

TARGET POPULATION
The Mount Sinai Registered Nurses only

FACULTY
Virginia DeFina, MS, RN-BC, NP  Program Leaders
Susan Nevins, MA, RN, CCRN, CNRN, ACNP
Harmon Mercer, MS, RN, CCRN
Education Specialists

DATE/TIME  All sessions are from 0800 - 1000
January 30  August 8
April 3  October 2
June 7  December 4

LOCATION
35 E. 102 Street, 2nd Floor
OVERVIEW
This course is specifically designed to enhance current knowledge about the prevention, intervention and management of cardiovascular disease. Presentations will provide Nurse Practitioners, Nurses, Physicians, and Physician Assistants with evidence-based approaches to abnormal findings and information regarding new cutting edge technologies.

REGISTRATION
MSH Employees: Register online via intranet. Click on “Nursing” at the top, then “Nursing Education Online Registration”. Lectures will address new insights in managing cardiovascular diseases in the diabetic patient, pulmonary hypertension, heart failure, and practical applications of clinical trials.

OBJECTIVES
• At the conclusion of this educational activity participants will be able to:
• Discuss the top ten advances of interventional cardiology
• Manage patients with advanced heart failure
• Describe the criteria for heart transplant evaluation
• Understand the role of genetic research in cardiovascular disease
• Differentiate mitral valve disease
• Define the DNP
• Discuss current issues for the advanced practice nurse
• Recognize the presenting signs and symptoms for.

TARGET POPULATION
This course is designed for Nurse Practitioners, Nurses, Physicians, Physician Assistants and other health care professionals interested in the care of patients with cardiovascular disease.

FACULTY
Robin Krinsky, MSN, RN-BC, CCRN Program Leader
Nurse Clinician - Educator, Mount Sinai Heart Nurse Practitioners and Physicians

DATE/TIME
November 8 0700-1730
Go to www.mountsinaiheartnp.com for specific date.

LOCATION
NY Academy of Medicine

Go to www.mountsinaiheartnp.com to find out more about the symposium dates and registration information.
ORIENTATION TO VENIPUNCTURE TECHNIQUES

This lab workshop provides knowledge and skills practice on the technique of venipuncture for the purpose of blood collection and intravenous infusion. Second year medical students are coached while demonstrating techniques of venipuncture on artificial arms and/or laboratory partners.

TARGET POPULATION

Mount Sinai School of Medicine Students

FACULTY

Virginia DeFina, MS, RN, NP, BC  Program Leader
Education Specialist
School of Medicine Faculty
Second and Third Year Medical Students

DATE/TIME

Orientation to Venipuncture Techniques
January 4  0900 - 1100

Clinical Skills Week
June 26 & 27  0900 - 1700

LOCATION

Annenberg Building
Medical School
12th Floor Labs

FEE/REGISTRATION

None
NURSING GRAND ROUNDS

OVERVIEW
This one hour program offered is designed to communicate current trends, nursing concepts and best practices, presented by The Mount Sinai Hospital nursing staff and guest speakers.

OBJECTIVES
• Identify current trends/concepts and clinical practice issues within professional nursing, related to the specific topic presented.
• Identify outcomes for the promotion of quality care for patients and their families.

TARGET POPULATION
Professional nurses and other health care providers.

FACULTY
Michele Galbo, MS, RN, CEN Program Leader
Education Specialist
Mount Sinai Hospital Staff

DATE/TIME
Day Nursing Grand Rounds
All sessions are from 1200 - 1300

January 9 Perioperative Service
January 23 Medicine Services

October 30
December 18
NURSING RESEARCH DAY

OVERVIEW
This annual program is for Mount Sinai nurses, physicians, members of the interdisciplinary health care team, and members of our affiliates to present the results of their research and evidence-based practice projects. These projects are conducted within the professional nursing and patient care arena.

OBJECTIVES
- Apply evidence-based practice and research findings to nursing practice
- Identify evidence-based strategies being implemented in specific specialty services
- Discuss potential clinical questions that could result in interdisciplinary collaboration
- Communicate findings to community of nurses and members of the health care team

TARGET POPULATION
Registered Nurses
Members of the Interdisciplinary Health Care Team

FACULTY
Emerson Ea, Senior Manager
Nursing Research and Evidence Based Practice

DATE/TIME
0900 – 1600
December, 2013

LOCATION
Presentation: Hatch Auditorium
Poster Session: Guggenheim Pavilion, Atrium, 1st Floor

The Mount Sinai Hospital is an approved provider of continuing nursing education by the Alabama State Nurses Association, an accredited approver by the American Nurses Credentialing Center’s Commission on Accreditation.
ONS CHEMOTHERAPY AND BIOThERAPy COURSE

OVERVIEW
Designed to teach the Oncology Nursing Society’s (ONS) standards for basic education in the administration and management of cytotoxic and biotherapeutic agents.

OBJECTIVES
• To provide a broad spectrum of information concerning cellular kinetics and drug classifications,
• Identify safe handling and administration procedures
• Discuss the management of side effects
• Discuss patient teaching strategies
• Discuss case studies related to the presented theoretical concepts

TARGET POPULATION
Only open to MSH RNs/APNs who administer chemotherapy: 11E, 11C, KP4, P4, Oncology Research, Radiation Oncology, RTC, Dubin Breast Center, Annenberg 4, MSHQ

FACULTY
Carnice Lee, MS, RN, CNE, OCN
Consultant, Oncology Clinical Nurse Specialist

DATE/TIME All sessions are from 0800-1630
Re-take exams at 0830
March 4 & 5 (Re-take 3/18)
May 20 & 21 (Re-take 5/24)
August 23 & 26 (Re-take 8/29)
November 21 & 22 (Re-take 11/26)

LOCATION
35 E. 102 Street, 2nd floor

REGISTRATION
MSH Employees: Register online via intranet. Click on “Nursing” at the top, then “Nursing Education Online Registration” on the sidebar.

13.5 Contact Hours and provider card awarded by ONS upon successful completion of the course post-test and completion of the online course evaluation by the defined deadline.

ONS is approved as a provider of continuing education by the California Board of Registered Nursing Provider #2850
PATIENT MONITORING SYSTEMS
GE TELEMETRY / BEDMASTER

OVERVIEW
This course is designed to give professional nurses the information and product knowledge needed to proficiently operate telemetry and patient bedside monitoring systems including Solar 8000i, Dash, and Transport Pro monitors, and Central Station. This course will use discussion, scenarios and return demonstrations to teach the monitoring platform and the application of problem-solving techniques for issues that may arise in the nursing care areas.

OBJECTIVES
• Identify components of the Patient Monitors including the appropriate acquisition device.
• Perform operations specific to parameters in each parameter box.
  • Adjust patient alarms.
  • Perform the graphing of waveforms, patient information windows and the timing changes on a strip.
  • Perform the admission and discharge of a patient from ADT, turning Pace Detection on, 12-lead EKG, automatic NBP measurements and the changing of respiration lead monitored.
• Demonstrate how to initiate invasive monitoring and basic knowledge of applicable invasive parameters:
  - Arterial Line
  - PA Wedge
  - Cardiac Output
  - Turn parameters on and off
• Perform Cardiac Calculations
• Submit 12 Lead ECG to Muse system
• View another patient/bedside monitor

TARGET POPULATION
Registered nurses from clinical areas that use the telemetry and patient bedside monitoring systems.

FACULTY
Michele Galbo, MS, RN, CEN  Program Leader
Donald Basdeo, BSN, RN
Victoria Dayrit, MA, RN-C, CCRN
Robin Krinsky, MSN, RN-BC, CCRN
Linda Margulies, MPH, RNC
Victor Murgolo, BS, RN, CCRN
Susan Nevins, MA, RN, ANP, CNRN, CCRN
Emmal Rafol, MA, RN, CS, CCRN
Nadine Sanders, MPS, RNC

DATE/TIME
All sessions are 0800 - 1000
January 11  April 19  July 12  October 18
February 15  May 17  August 16  November 15
March 15  June 14  September 13  December 13

LOCATION
35 E. 102 Street, 2nd floor

REGISTRATION
Open to Mount Sinai Nurses working in clinical areas where the patient monitoring and telemetry systems are used. Registration at time of orientation.
PHLEBOTOMY WORKSHOP

OVERVIEW
This workshop provides the participant with basic knowledge and skills in phlebotomy techniques using “butterfly” device in order to obtain blood specimens for laboratory tests. In depth theory including Federal Needle Stick Legislation, OSHA/Infection Control standards will be discussed. Multiple opportunities for hands-on practice in simulation will be provided within a small group size. Participants should expect to perform phlebotomy on each other. Certificates of completion will be provided at the end of the program.

OBJECTIVES
• Discuss the anatomy and physiology of the venous system.
• Discuss OSHA/Infection Control and Federal Needle Stick Legislation as they relate to phlebotomy.
• Prepare equipment in an organized manner.
• Return demonstrate phlebotomy using the butterfly method.

TARGET POPULATION
Research Coordinators/Associates/Assistants

FACULTY
Virginia DeFina MS, RN-BC, NP Program Leader
Education Specialist

DATE/TIME  All Sessions are from 0800 - 1200
January 15  June 18
March 5  September 17
May 6  November 6

LOCATION
35 E. 102 Street, 2nd Floor

FEE/REGISTRATION
$100 for Outside Participants
$90 for MSH Health System Affiliates & MSH Non-Nursing Staff
$70 Nursing Students with valid ID

Fund transfers must be submitted on or before the course.
Courses payable to: The Mount Sinai Hospital

MSH Employees: Register online via intranet.
Click on “Nursing” at the top, then “Nursing Education Online Registration”.

46
RN PRECEPTOR WORKSHOP

OVERVIEW
This program is designed to provide clinical nurses with the leadership skills, knowledge base and technical competencies required to perform the role of preceptor.

OBJECTIVES
• State the purpose of the Preceptor Workshop.
• Discuss the partnership and goals between the preceptor and orientee.
• Describe the roles of the participants vested in the success of the newly hired registered nurse / orientee.
• Review the process of orientation focusing on measurable outcomes and time frames.
• Discuss the Principles of Adult Learning and its application to the interaction between preceptor and orientee.
• Appreciate the role of cultural competence in the preceptor - orientee relationship in patient care.
• Design a patient care assignment matching the skill level of the newly hired nurse, the acuity (case mix) of the patient population, and needed clinical experience for the newly hired nurse.
• Identify communication techniques/skills to manage conflict.
• Develop strategies for management of specific case based problems experienced by the newly hired nurse.
• Describe the evaluation process of the orientee throughout his / her orientation.

TARGET POPULATION
Registered Nurses assuming the role of Preceptor (Must meet requirements as stated in Nursing Policy #1320)

FACULTY
Carol Manns, MSN, RN Program Leader
Clinical Program Manager
Medel Paruirigan, EdD, RN, CEN Program Leader
Sr. Manager, Nursing Research & Education

DATE/TIME All sessions are from 0800 - 1630
January 17 March 21 May 24
July 18 September 19 November 8
*Note: SNI Preceptor Program - TBD 1100 - 1300

LOCATION
Day Classes: 35 E. 102 Street, 2nd Floor

FEE/REGISTRATION
$125 for outside RNs $95 for MSH Health System Affiliates
$75 Nursing Students (with Valid ID)
MSH Employees: Register online via intranet. Click on “Nursing” at the top, then “Nursing Education Online Registration”.
Outside participants: Contact Nursing Education at: (212) 824-7240

4 contact hours will be awarded upon attendance at entire event and submission of completed evaluation.

The Mount Sinai Hospital is an approved provider of continuing nursing education by the Alabama State Nurses Association, an accredited approver by the American Nurses Credentialing Center’s Commission on Accreditation.
SCHOOL AFFILIATION FACULTY ORIENTATION PROGRAM

OVERVIEW
This orientation program is designed to provide affiliating clinical instructors with an overview of the policies and procedures of the institution as they relate to the clinical experience of undergraduate nursing students. Nursing Student orientation is the responsibility of the clinical instructor.

OBJECTIVES
• Explain the organizational structure of the institution and The Department of Nursing.
• Discuss the policies and procedures within the scope of the nursing student experience related to medication, documentation and standards of patient care.
• Complete the following mandated Regulatory Agency programs:
  • AIDS Confidentiality Law
  • Patient Bill of Rights/Advanced Directives
  • CPR/Team 7000 Review
  • Medical Emergency Preparedness
  • Fire Prevention/Intervention
  • Safety
  • Quality Assessment/Performance Improvement
  • Compliance - Code of Ethics
  • Infection Control/OSHA/Regulated Medical Waste
  • Restraints/Mechanical Safeguards
  • Seclusion (where applicable)
  • Abuse and Neglect
  • Hepatitis B Vaccine Information
  • TB mask fit-testing
• Utilize clinical computer systems related to patient documentation/order entry/retrieval.
• Discuss specific unit norms in assigned areas.
• Identify roles & responsibilities of the clinical instructor and nursing students during their affiliation in the institution.

TARGET POPULATION
 Faculty Members/Instructors from Affiliated Schools of Nursing/Allied Health

FACULTY
 Michele Galbo, MS, RN, CEN Program Leader
 Education Specialist
 Joan Richards MSN, RN, CNE School Affiliation Coordinator

DATE/TIME
 Programs are given upon request
TREATMENT BASICS: ANTINEOPLASTIC THERAPY IN THE NON-ONCOLOGY SETTING

OVERVIEW
This four hour course is designed as an introduction to the use of antineoplastic agents in non cancer and non-malignant diseases in non oncologic indications based in the Oncology Nursing Society standards.

OBJECTIVES
• Identify administration procedures
• Identify safe handling and disposal of hazardous drugs
• Discuss the management of side effect
• Discuss patient teaching strategies

TARGET POPULATION
Only open to MSH RNs on designated units: GP 6W, 7C, 7W, 9C, 9E, 10E, 10C 11E, CRC, MICU, Med/Surg Specialty Clinics, P5, PICU, SICU

FACULTY
Carnice Lee MS, RN, CNE, OCN, AOCNS
Consultant, Oncology Clinical Nurse Specialist

35 E. 102 Street, 2nd floor

REGISTRATION
MSH Employees: Register online via the intranet. Click on “Nursing” at the top, then “Nursing” at the top, then “Nursing Education Online Registration”.

4.0 Contact Hours awarded by ONS upon successful completion of the program and completion of the online course evaluation by the defined deadline.

ONS is approved as a provider of continuing education by the California Board of Registered Nursing Provider #2850
WEBINAR: ACCOUNTABILITY IN YOUR RN PRACTICE

OVERVIEW
This is a live Webinar designed for registered nurses to have an opportunity to dialogue with nurse leaders in the Office of the Professions about the scope of practice for RNs in New York State. A highly interactive methodology is used where each nurse is given a question or engage in further discussion about the topic. Examples of topics are: education laws, unprofessional conduct, requirements for licensure, competence, application of roles of the professional nurse, malpractice, negligence and medication administration.

OBJECTIVES
• Describe the legal scope of the practice of nursing in New York State.
• Differentiate the registered nurses’ role in delegation, assignment and supervision.
• Apply scope of practice laws and regulations to clinical practice situations.

TARGET POPULATION
Currently practicing Clinical Nurses.

FACULTY
Nursing Leadership in the Office of the Professions
