CHARLES CURI (VACANCY)

The Department of Health and Human Services is the Cabinet-level department of the Federal executive branch most involved with the Nation’s human concerns. In one way or another, it touches the lives of more Americans than any other Federal agency. It is literally a department of people serving people, from newborn infants to persons requiring health services to our most elderly citizens.
The Department of Health and Human Services (HHS) was created as the Department of Health, Education, and Welfare on April 11, 1953 (5 U.S.C. App.).

**Secretary** The Secretary of Health and Human Services advises the President on health, welfare, and income security plans, policies, and programs of the Federal Government; and directs Department staff in carrying out the approved programs and activities of the Department and promotes general public understanding of the Department’s goals, programs, and objectives.

**Public Health and Science** The Office ensures that the Department conducts broad-based public health assessments designed to anticipate future public health issues and problems and devises and implements appropriate interventions and evaluations to maintain, sustain, and improve the health of the Nation; provides assistance in managing the implementation and coordination of Secretarial decisions for the Public Health Service (PHS) and coordination of population-based health, clinical preventive services, and science initiatives that cut across operating divisions; provides presentations on international health issues; and provides direction and policy oversight, through the Surgeon General, for the Public Health Service Commissioned Corps.

### Administration on Aging

The Administration on Aging, the principal agency designated to carry out the provisions of the Older Americans Act of 1965, is responsible for all issues involving the elderly. The Administration develops policies, plans, and programs designed to promote the welfare of the elderly; promotes their needs by planning programs and developing policy; and provides policy, procedural direction, and technical assistance to States and Native American tribal governments.

### Administration for Children and Families

The Administration for Children and Families provides advice to the Secretary on issues pertaining to children, youth, and families; child support enforcement; community services; developmental disabilities; family assistance; Native American assistance; refugee resettlement; and legalized aliens.
For further information, contact the Administration for Children and Families, 370 L’Enfant Promenade

Agency for Healthcare Research and Quality
The Agency for Healthcare Research and Quality, as part of the Public Health Service, is responsible for supporting research designed to improve the quality of healthcare, reduce its costs, address patient safety and medical errors, and broaden access to essential services.

For further information, contact the Agency for Healthcare Research and Quality, 2101 East Jefferson Street, Rockville, MD 20852. Phone, 301–594–6662. Internet, www.ahrq.gov. E-mail, info@ahrq.gov.

Agency for Toxic Substances and Disease Registry
The Agency for Toxic Substances and Disease Registry, as part of the Public Health Service, is charged with the prevention of exposure to toxic substances and the prevention of the adverse health effects and diminished quality of life associated with exposure to hazardous substances from waste sites, unplanned releases, and other sources of pollution present in the environment.

Centers for Disease Control and Prevention
The Centers for Disease Control and Prevention, as part of the Public Health Service, is charged with protecting the public health of the Nation by providing leadership and direction in the prevention of and control of diseases and other preventable conditions and responding to public health emergencies.

For further information, contact the Centers for Disease Control and Prevention, 1600 Clifton Road NE., Atlanta, GA, 30333. Phone, 404–639–3286, Internet, www.cdc.gov.

Centers for Medicare & Medicaid Services
[For the Health Care Financing Administration statement of reorganization citing their official change of Agency name, see the Federal Register of July 5, 2001, 66 FR 35437]
The Centers for Medicare & Medicaid Services was created to combine under one administration the oversight of the Medicare program, the Federal portion of the Medicaid program and State Children’s Health Insurance Program, and related quality assurance activities.

Food and Drug Administration

The Food and Drug Administration (FDA), as part of the Public Health Service, is charged with ensuring that food is safe, pure, and wholesome; human and animal drugs, biological products, and medical devices are safe and effective; and electronic products that emit radiation are safe.

For further information, contact the Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857. Phone, 888-463-6332 (toll free). Internet, www.fda.gov.

Health Resources and Services Administration

The Health Resources and Services Administration (HRSA), as part of the Public Health Service, is the primary healthcare service agency of the Federal Government, making essential primary care services accessible to the poor, uninsured, and geographically isolated. Programs administered by HRSA include maternal and child health services; HIV/AIDS assistance programs; the Ricky Ray Hemophilia Relief Fund; the Vaccine Injury Compensation Program; and Hansen’s disease programs. HRSA attends to the special healthcare needs of people with chronic health needs, minorities, and those living along the U.S. border with Mexico. HRSA also administers the national practitioner databank and the healthcare integrity and protection databank.

For further information, contact the Office of Communications, Health Resources and Services Administration, 5600 Fishers Lane, Rockville, MD 20857. Phone, 301-443-2086. Internet, www.hrsa.gov.

Indian Health Service

The Indian Health Service, as part of the Public Health Service, provides a comprehensive health services delivery system for American Indians and Alaska Natives, with opportunity for maximum tribal involvement in developing and managing programs to meet their health needs. It assists Native American tribes in developing their health programs; facilitates and assists tribes in coordinating health planning, obtaining and utilizing health resources available through Federal, State, and local programs, operating comprehensive health programs, and evaluating health programs; and provides comprehensive healthcare services including hospital and ambulatory medical care, preventive and rehabilitative services, and development of community sanitation facilities.

For further information, contact the Management Policy Support Staff, Indian Health Service, Room 6–34, 5600 Fishers Lane, Rockville, MD 20851. Phone, 301-443-2650. Internet, www.ihs.gov.

National Institutes of Health

The National Institutes of Health (NIH), as part of the Public Health Service, supports biomedical and behavioral research domestically and abroad, conducts research in its own laboratories and clinics, trains promising young
researchers, and promotes acquisition and distribution of medical knowledge.

**Aging** The Institute conducts and supports biomedical, social, and behavioral research to increase knowledge of the aging process and the physical, psychological, and social factors associated with aging.

For further information, contact the National Institute on Aging. Phone, 301–496–1752. Internet, www.nih.gov/niac.

**Alcohol Abuse and Alcoholism** The Institute conducts and supports biomedical and behavioral research, in order to provide science-based approaches to the prevention and treatment of alcohol abuse and alcoholism.

**Allergy and Infectious Diseases** The Institute conducts and supports research, research training, and clinical evaluations on the causes, treatment, and prevention of a wide variety of infectious, allergic, and immunologic diseases.

For further information, contact the National Institute of Allergy and Infectious Diseases. Phone, 301–496–5717. Internet, www.niaid.nih.gov.

**Arthritis and Musculoskeletal and Skin Diseases** The Institute supports research into the causes, treatment, and prevention of arthritis and musculoskeletal and skin diseases.

For further information, contact the National Institute of Arthritis and Musculoskeletal and Skin Diseases. Phone, 301–496–4353. Internet, www.niams.nih.gov.

**Biomedical Imaging and Bioengineering** The Institute conducts, coordinates, and supports research, training, dissemination of health information, and other programs with respect to biomedical imaging, biomedical engineering, and associated technologies and modalities with biomedical applications.

For further information, contact the National Institute of Biomedical Imaging and Bioengineering. Phone, 301–402–7617. Internet, www.nibib.nih.gov.

**Cancer** The Institute developed a national cancer program to expand existing scientific knowledge on cancer cause and prevention as well as on the diagnosis, treatment, and rehabilitation of cancer patients. Research activities encompass basic biological, clinical, prevention, and behavioral research.

**Child Health and Human Development** The Institute conducts and supports laboratory, clinical, and epidemiological research on the reproductive, neurobiologic, developmental, and behavioral processes that determine and maintain the health of children, adults, families, and populations.

For further information, contact the National Institute of Child Health and Human Development. Phone, 301–496–5133. Internet, www.nichd.nih.gov.

**Clinical Center** The Center is designed to bring scientists working in Institute laboratories into proximity with clinicians caring for patients, so that they may collaborate on problems of mutual concern. The research institutes select patients, referred to NIH by themselves or by physicians throughout the United States and overseas, for clinical studies of specific diseases and disorders.

For further information, contact the Clinical Center. Phone, 301–496–3227. Internet, www.cc.nih.gov.

**Complementary and Alternative Medicine** The Center is dedicated to exploring complementary and alternative healing practices in the context of rigorous science; educating and training complementary and alternative medicine researchers; and disseminating authoritative information to the public and professionals. Through its programs, the Center seeks to facilitate the integration of safe and effective complementary and alternative practices into conventional medicine.

For further information, call 301–435–5042. Internet, nccam.nih.gov.

**Deafness and Other Communication Disorders** The Institute conducts and supports biomedical and behavioral
research and research training on normal mechanisms as well as diseases and disorders of hearing, balance, smell, taste, voice, speech, and language through a diversity of research performed in its own laboratories, and a program of research and center grants.

For further information, contact the National Institute on Deafness and Other Communication Disorders. Phone, 301–496–7243. Internet, www.nidcd.nih.gov.

Dental and Craniofacial Diseases The Institute conducts and supports research and research training into the causes, prevention, diagnosis, and treatment of craniofacial, oral, and dental diseases and disorders.

For further information, contact the National Institute of Dental and Craniofacial Research. Phone, 301–496–4261. Internet, www.nidcd.nih.gov.

Diabetes and Digestive and Kidney Diseases The Institute conducts, fosters, and supports basic and clinical research into the causes, prevention, diagnosis, and treatment of diabetes, endocrine, and metabolic diseases, digestive diseases and nutrition, kidney and urologic diseases, and blood diseases.

Drug Abuse The Institute’s primary mission is to lead the Nation in bringing the power of science to bear on drug abuse and addiction through the strategic support and conduct of research across a broad range of disciplines and the rapid and effective dissemination and use of the results of that research to significantly improve drug abuse and addiction prevention, treatment, and policy.

Environmental Health Sciences The Institute seeks to reduce the burden of human illness and dysfunction by understanding the elements of environmental exposures, human susceptibility, and time and how these elements interrelate.

For further information, contact the National Institute of Environmental Health Sciences. Phone, 919–541–3211. Internet, www.niehs.nih.gov.

Fogarty International Center The Center promotes and supports international scientific research to reduce disparities in global health; fosters biomedical research partnerships through grants, fellowships, and international agreements; and provides leadership in international science policy and research strategies.

General Medical Sciences The Institute supports basic biomedical research and research training in areas ranging from cell biology, chemistry, and biophysics to genetics, pharmacology, and systemic response to trauma.

For further information, contact the National Institute of General Medical Sciences. Phone, 301–496–7301. Internet, www.nigms.nih.gov.

Heart, Lung, and Blood Diseases The Institute provides leadership for a national program in diseases of the heart, blood vessels, lung, and blood; sleep disorders; and blood resources. It conducts, fosters, and supports an integrated and coordinated program of basic research, clinical investigations and trials, observational studies, and demonstration and education projects.

Human Genome Research The Institute formulates research goals and long-range plans to accomplish the mission of the human genome project.

For further information, contact the National Human Genome Research Institute. Phone, 301–496–0844. Internet, www.genome.gov.

Medical Library The Library of Medicine serves as the Nation’s chief medical information source and is authorized to provide medical library services and online bibliographic search capabilities, such as MEDLINE and TOXLINE, to public and private
agencies, organizations, institutions, and individuals.

Mental Health The Institute supports and conducts fundamental research in neuroscience, genetics, molecular biology, and behavior as the foundation of an extensive clinical research portfolio which seeks to expand and refine treatments available for illnesses such as schizophrenia; depressive disorders; severe anxiety; childhood mental disorders; and other mental disorders.

Minority Health and Health Disparities The Center advises the NIH Director and the Institute and Center Directors on the development of NIH-wide policy issues related to minority health disparities research, research on other health disparities, and related research training; develops a comprehensive strategic plan governing the conduct and support of all NIH minority health disparities research, research on other health disparities, and related research training activities; and administers funds for the support of that research through grants and through leveraging the programs of the NIH.

Neurological Disorders and Stroke The Institute’s mission is to reduce the burden of neurological diseases by conducting and supporting fundamental and applied research on human neurological disorders. It also conducts and supports research on the development and function of the normal brain and nervous system in order to better understand normal processes relating to disease states.

For further information, contact the National Institute of Neurological Disorders and Stroke. Phone, 301–496–5751. Internet, www.ninds.nih.gov.

Nursing Research The Institute provides leadership for nursing research, supports and conducts research and training, and disseminates information to build a scientific base for nursing practice and patient care and to promote health and ameliorate the effects of illness on the American people.

For further information, contact the National Institute of Nursing Research. Phone, 301–496–0207. Internet, www.nih.gov.nnr.

Ophthalmological Diseases The Institute conducts, fosters, and supports research on the causes, natural history, prevention, diagnosis, and treatment of disorders of the eye and visual system. It also directs the National Eye Health Education Program.

Research Resources The Center enhances the research capabilities of institutions and their investigators; provides competitive support to renovate or construct modern biomedical research facilities; purchases shared research instrumentation; and develops or enhances the research capacity among those institutions which have not had the opportunity to fully participate in previous NIH research programs. It funds research networks of centers to facilitate patient-oriented research and provides centers for access to sophisticated biomedical research technology and resource centers and biorepositories to conduct research on human diseases with animal models.

Scientific Review The Center receives and assigns applications for peer reviews to scientific review groups whose members hold advanced degrees and are established investigators in the extramural community. After review, applications are referred to funding components for potential award.

Substance Abuse and Mental Health Services Administration

The Substance Abuse and Mental Health Services Administration (SAMHSA), a part of the Public Health Service, provides national leadership to ensure that knowledge acquired is effectively used for the prevention and treatment of addictive and mental disorders. It strives to improve access and reduce barriers to high quality, effective programs and services for individuals who suffer from or are at risk for these disorders, as well as for their families and communities.

For further information, contact the Substance Abuse and Mental Health Services Administration, 5600 Fishers Lane, Rockville, MD 20857. Phone, 301–443–4795. Internet, www.samhsa.gov.

Food and Drug Administration

Direct inquiries to the appropriate office, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857.

Consumer Activities Contact the Public Affairs Office. Phone, 301–827–5006.

Contracts Contact the Director, Office of Facilities, Acquisition, and Central Services (HFA–500). Phone, 301–827–6890.

Electronic Access Information on FDA is available electronically through the Internet, at www.fda.gov.

Employment FDA uses various civil service examinations and registers in its recruitment for positions. In the Washington, DC, metropolitan area contact the Personnel Officer (HFA–400) (phone, 301–827–4120); outside the Washington, DC, area contact the appropriate local FDA office. Schools interested in the college recruitment program should contact the Personnel Officer (HFA–400) (phone, 301–827–4120).

Reading Rooms Freedom of Information, Room 12A–30 (phone, 301–443–1813); Hearing Clerk and Documents Management Branch, Room 1061, 5630 Fishers Lane, Rockville, MD 20857 (phone, 301–827–6251).

Speakers Speakers are available for presentations to private organizations and community groups. Requests should be directed to the local FDA office.

Health Resources and Services Administration

Direct inquiries to the appropriate office, Health Resources and Services Administration, 5600 Fishers Lane, Rockville, MD 20857. Internet, www.hrsa.gov.

Employment The majority of positions are in the Federal civil service. Inquiries should be addressed to the Division of Personnel, Room 14A–46 (phone, 301–443–5460; TDD, 301–443–5278). For information on vacant positions, call 301–443–1230. Some health professional positions are filled through the Commissioned Corps of the Public Health Service, a uniformed service of the U.S. Government. Contact the Division of Commissioned Personnel, Room 4A–15, 5600 Fishers Lane, Rockville, MD 20857.

Films Contact the Office of Communications for availability of audiovisual materials related to program activities.

Publications Contact the HRSA Information Center (phone, 888–ASK–HRSA); the National Maternal and Child Health Clearinghouse (phone, 888–434–4MCH); or the National Clearinghouse for Primary Care Information, (phone, 703–821–8955; fax, 703–821–2098).

Bulk quantities may be purchased from the Superintendent of Documents, Government Printing Office, Washington, DC 20402.
Indian Health Service

Direct inquiries to the appropriate office, Indian Health Service, 5600 Fishers Lane, Rockville, MD 20857.

Electronic Access  Information on IHS is available electronically through the Internet, at www.ihs.gov.

Employment  For positions in the Washington, DC, metropolitan area, contact the Division of Personnel Management, Office of Human Resources, Room 4B–44 (phone, 301–443–6520). For specific area office addresses, see the U.S. Government listings in the commercial telephone directories. Some health professional positions are filled through the Commissioned Corps of the Public Health Service, a uniformed service of the U.S. Government. Direct inquiries to the Division of Commissioned Personnel, Room 4A–15, 5600 Fishers Lane, Rockville, MD 20857. Phone, 301–443–3464.

Publications  Single copies of publications are available, free of charge, from the Communications Office, Room 6–35. Phone, 301–443–3593.

National Institutes of Health

Direct inquiries to the appropriate office indicated at the National Institutes of Health, Bethesda, MD 20892.

Contracts  For information on research and development contracts, contact the Office of Contracts Management. Phone, 301–496–4422. For all other contracts, contact the Office of Procurement Management. Phone, 301–496–7448.

Employment  Staff fellowships are available to recent doctorates in biomedical sciences. Contact the Office of Human Resource Management. Phone, 301–496–2404.

Environmental Research  Research on the effects of environmental exposures to human health is conducted and supported by the National Institute of Environmental Health Sciences, Research Triangle Park, NC 22709. Phone, 919–541–3345.

Films  Research and health-related films are available for loan from the National Library of Medicine, Collection Access Section, Bethesda, MD 20894.

Public Health Service Commissioned Officer Program  For information on the Commissioned Officer programs at NIH and the program for early commissioning of senior medical students in the Reserve Corps of the Public Health Service, contact the Division of Senior Systems. Phone, 301–496–1443.

NIH Publications List, Index Medicus, Cumulated Index Medicus Annual, and Research Grants Index may be ordered from the Government Printing Office, Washington, DC 20402.

Program Support Center  General inquiries may be directed to the Program Support Center, 5600 Fishers Lane, Room 17–21, Rockville, MD 20857.

Electronic Access  Information is available electronically through the Internet, www.psc.gov.

Employment  Information is available electronically through the Internet, at www.psc.gov/spo/spo.html. Inquiries may be directed to the Division of Personnel Operations, Room 17–38, 5600 Fishers Lane, Rockville, MD 20857 (phone, 301–443–3201), or Room 1100, 300 C Street SW., Washington, DC 20201 (phone, 202–619–0146), or the Public Health Service Commissioned Corps, Room 4A–18, 5600 Fishers Lane, Rockville, MD 20857 (phone, 301–594–3360).
