I. **Galileo® G3 Scales Alignment with Head Start Early Learning Outcomes Framework**

The *Head Start Child Development and Early Learning Framework* is designed to provide Head Start, and other early childhood programs, with a description of the skills, behaviors, and knowledge that are most important for a child’s school and long-term success. The guidance provided by the *Head Start Child Development and Early Learning Framework* can inform and facilitate developmentally appropriate practice leading to early learners’ success now, and in the future as these children make the transition to the early grades. The *Head Start Child Development and Early Learning Framework* can be used by programs in a number of ways to guide everyday local decision-making and action leading to positive outcomes for children. They can be included in:

- the selection and use of quality curriculum and assessment tools as part of an overall approach to promoting positive outcomes for children;
- the selection and implementation of developmentally appropriate learning opportunities in a variety of developmental domains;
- the establishment of school readiness goals consistent with state and local expectations;
- the monitoring of children’s progress;
- the integration of child assessment data with various aspects of early childhood program planning and design;
- the collection of child assessment data for other early childhood reporting systems; and
- the promotion of child well-being, success, and continuous quality improvement in programs.

Galileo Pre-K Online is uniquely designed to support systemic implementation of *Head Start Child Development and Early Learning Framework*. Galileo Pre-K Online is a complete, fully integrated, research-based, and standards-aligned curriculum, assessment, and reporting system. Galileo Pre-K Online includes a comprehensive curriculum with an empirically-based scope and sequence as well as tools supporting planning, individualization, assessment, and the documentation of progress. Since 1987, Galileo Pre-K has been successfully implemented by Head Start, Early Head Start, public school preschool, and proprietary early childhood programs. Galileo Pre-K Online is currently used in early childhood programs to support a collaborative, data-driven, and goal-directed approach to promoting positive outcomes for children.

A. **Alignment with the Head Start Child Development and Early Learning Framework**

The Galileo G3 assessment scales for ages birth through 5 provided by ATI to early childhood programs are aligned with, and reflect the scope and intent of, the *Head Start Child Development and Early Learning Framework* for children ages birth through 5. These reliable, valid scales form the basis for the comprehensive Galileo curriculum as well as the integrated Galileo assessment tools by defining research-based and empirically-based developmental sequences (progression) in five age ranges, birth to 8 months, 8 to 18 months, 18 to 24 months, 2 to 3 years, and 3 through 5 years.

This alignment document is organized into sections displaying the *Head Start Child Development and Early Learning Framework* along with the aligned capabilities from the Galileo G3 scales. The Galileo G3 scales for birth to age 3 years are organized into 5 domains of knowledge. The Galileo G3 scales for 3 through 5 years are organized into 12 domains of knowledge In addition, the Galileo *School Readiness Scales* draw capabilities from across these domains to provide information about child progress towards mastery of the essential capabilities for school readiness within each age range. The following table indicates the number of capabilities included in each of the Galileo G3 scales.

B. Comprehensive Coverage to Support the Provision of Learning Opportunities and the Assessment of Children’s Progress

The knowledge areas comprising the Galileo G3 scales for birth through age 5 provide comprehensive coverage of a domain of knowledge in a way that makes it possible to implement a comprehensive curriculum, effectively assess children’s learning, and provide meaningful developmentally appropriate learning opportunities. Overall, the Head Start Child Development and Early Learning Framework is comprehensively represented through the wide variety of knowledge areas comprising the 12 developmental domains in the 3 through 5 years scale and the 5 developmental domains in the younger age range. These knowledge areas make it possible for early childhood programs to effectively assess the broad range and depth of knowledge and skills acquired by young children during the early years of learning, including capabilities important for school readiness. The knowledge areas within the Galileo G3 Physical Development and Health for 3 through 5 year-olds, for example, are indicated in Table 2.

As you read through the alignment in this document, you will note that the domain from the Head Start Child Development and Early Learning Framework is labeled at the top of each table. The knowledge areas/subdomains, goals, developmental progressions and indicators of the framework are then listed. The columns present the details of how the Galileo G3 scales and the included capabilities correspond to the framework’s domain structure. Underlined capabilities are also reflected in the Galileo G3 School Readiness Scale for the corresponding age range.

C. Comprehensive, Validated Development Sequences Extending Key Knowledge, Behaviors, and Skills

The Head Start Child Development and Early Learning Framework provides important information about key knowledge, behaviors, and skills acquired by young children and serves as a useful guide for the selection of a comprehensive curriculum as well as assessment instruments to assess children’s progress. The Galileo G3 scales illustrated in this document are comprised of in-depth, comprehensive, and empirically based developmental sequences/progressions for Galileo knowledge areas and capabilities, reflecting the new framework. In this regard, the Galileo G3 assessment scales make it possible for early childhood programs to implement a research-based, standards-aligned, comprehensive, and developmentally appropriate approach to the provision of learning opportunities and the assessment of infants, toddlers and young children. As just one example of this capability, each Galileo knowledge area is comprised of a full range of capabilities forming empirically based developmental sequences. These empirically based sequences make it possible for early childhood programs to implement a comprehensive curriculum and to effectively and confidently use the results of assessment to provide developmentally appropriate learning opportunities to children based on individual abilities, strengths, interests, and needs. Moreover, the Galileo G3 assessment scales can be effectively utilized to measure growth over an extended period of time and to document program impact on children’s learning.
### I. Galileo® G3 Assessment Scales Alignment with the Head Start Early Learning Outcomes Framework Ages Birth to 3 Years

#### A. Domain: Approaches to Learning

Notes:
- Underlined capabilities are reflected in the School Readiness Scale.
- The term “emerging” is used when specific skills, behaviors, or concepts have not yet emerged or are not yet observable.
- NA indicates when a standard has no alignment to the G3 Scales.

## APPROACHES TO LEARNING

### Sub-Domain: Initiative and Curiosity

**Galileo® G3 Assessment Scale Goal**

**INDICATORS: By 36 Months**

- Engages others in interactions or shared activities.
- Demonstrates initiative by making choices or expressing preferences.
- Attempts challenging tasks with or without adult help.
- Shows eagerness to try new things.

<table>
<thead>
<tr>
<th>Social and Emotional Development – 2-3 years</th>
</tr>
</thead>
<tbody>
<tr>
<td>36) Initiates play with a familiar peer.</td>
</tr>
<tr>
<td>38) Enjoys an activity of interest (e.g., art) with a friend.</td>
</tr>
<tr>
<td>51) Shows interest in wanting to dress her/himself.</td>
</tr>
</tbody>
</table>

**Approaches to Learning – 2-3 years**

- 11) Insists on completing a task even when assistance is needed.
- 16) Shows interest in completing simple puzzles, stringing beads successfully, and repeating attempts to use scissors. - 2-3 years. SR 2.

### Cognitive Development and General Knowledge – 18-24 months

- 4) States clear preferences regarding colors, foods, and clothes.

**Goal: ATL 7. Child shows interest in and curiosity about objects, materials, or events.**

#### Birth to 9 Months

Shows excitement when engaged in learning, such as smiling at an adult, laughing after batting at a mobile, or knocking over a toy.

**Approaches to Learning – 00-08 months**

- 7) Actively explores the world by using their bodies and senses, as well as tools, materials, and equipment.
- 8) Kicks or swats a mobile to repeat a sound or motion.

**Social and Emotional Development – 00-08 months**

- 51) Smiles and claps hands when they successfully accomplish a task (e.g., climbing upstairs).
- 58) Smiles as she/he helps with simple tasks (e.g., picking up toys).

#### 8 to 18 Months

Approaches new events, experiences with others, or materials with interest and curiosity, such as intently listening to a new song or examining new toys or materials.

**Approaches to Learning – 00-08 months**

**Approaches to Learning – 8-18 months**

- 6) Shows interest in new experiences (e.g., reaching out to touch the rain, stopping play to watch a garbage truck).
- 9) Begins to explore the environment independently.

**Approaches to Learning – 18-24 months**

- 6) Eagerly seeks and takes pleasure in learning new skills.

#### 16 to 36 Months

Participates in new experiences, asks questions, and experiments with new things or materials, such as collecting leaves and pinecones in the fall.

**Approaches to Learning – 18-24 months**

- 7) Tries new art materials such as play dough or finger painting, musical instruments, or other new toys.
- 9) Explores most areas of the classroom.

**Language, Communication, Reading and Writing – 18-24 months**

- 20) Asks questions to obtain information or assistance. -18-24 SR 27; 2-3 years. 18.

# Approaches to Learning

## Sub-Domain: Creativity

### Goal: ATL 8. Child uses creativity to increase understanding and learning.

#### Birth to 9 Months

Uses a variety of ways to interact with other people. Modifies expressions, actions, or behaviors based on responses of others.

#### 8 to 18 Months

Finds new things to do with familiar, everyday objects, such as using a cooking pot for a hat or a spoon as a drumstick.

#### 16 to 36 Months

Combines objects or materials in new and unexpected ways. Shows delight in creating something new.

### Social and Emotional Development – 00-08 months

49) Repeats an action when it makes people laugh.

52) Recognizes that adults respond to their cues (e.g., crying, squirming) and stop playing or interacting.

54) Cries in particular ways to get needs met.

### Approaches to Learning – 08-18 months

8) Uses tools to retrieve items that are out of reach (e.g., using a string to pull a toy toward self).

### Approaches to Learning – 18-24 months

21) Uses a variety of materials during play to represent objects and events (e.g., uses pegs with play dough as candles for cake).

24) Combines materials, objects, equipment in new ways to produce multiple uses.

### Cognitive Development and General Knowledge – 18-24 months

51) Uses materials such as pencils, paints, and play dough in different and varied ways.

### Approaches to Learning – 2-3 years

26) Uses objects together as tools.

### Language, Communication, Reading and Writing – 18-24 months

17) Invents new words for fun and experimenting.

19) Combines words to create meaningful short sentences.

### INDICATORS: By 36 Months

- Pays attention to new or unusual things.
- Shows willingness to participate in new activities or experiences.
- Uses language in creative ways, sometimes making up words or rhymes.

### Approaches to Learning – 2-3 years

1) Tries new art materials such as play dough or finger painting, musical instruments, or other new toys.

5) Explores new toys to see how they work.

### Social and Emotional Development – 2-3 years

12) Tries out new games and toys.

13) Starts becoming more comfortable when entering new environments.

### Language, Communication, Reading and Writing – 2-3 years

9) Combines words to create meaningful short sentences.

10) Enjoys repeating rhymes and songs.

</tbody>
</table>

---

**Social and Emotional Development – 00-08 months**

- 9) Begins to show interest in other children, playing side-by-side using the same or similar toys. -00-08 SR 31; 008-18 SR 31.
- 35) Gains the attention of peers through vocalizations, reaching out, and smiling. -00-08 SR 32.

**Social and Emotional Development – 08-18 months**

- 49) Touches or imitates another child sitting nearby.
- 50) Recognizes the name of a friend.

**Social and Emotional Development – 18-24 months**

- 6) Exhibits emerging social play (e.g., seeks out familiar adults to help dress a doll).
- 46) Initiates play with a familiar peer.

**Social and Emotional Development – 2-3 years**

- 4) Engages in positive social play alongside, and occasionally with, other children. -2-3 years. SR 34.
- 9) Verbally or nonverbally invites a peer to play.

**Social and Emotional Development – 00-08 months**

- 9) Begins to show interest in other children, playing side-by-side using the same or similar toys. -00-08 SR 31; -00-08 SR 33.
- 15) Reaches for and grasps objects.
- 44) Touches or imitates another child sitting nearby.

**Social and Emotional Development – 08-18 months**

- 49) Touches or imitates another child sitting nearby.
- 58) Moves his/her body to fit inside a tunnel toy with a peer or sibling.
### SOCIAL AND EMOTIONAL DEVELOPMENT

#### Sub-Domain: Relationships with Other Children

<table>
<thead>
<tr>
<th>16 to 36 Months</th>
<th>Galileo® G3 Assessment Scale Goal</th>
</tr>
</thead>
</table>
| Joins in play with other children by sometimes taking turns or doing joint activities with a common goal, such as building block structures with others or pretending to eat together. | **Social and Emotional Development – 18-24 months**
| | 5) Participates in parallel play. -18-24 SR40 |
| | 32) Waits to take her/his turn. |
| | 46) Initiates play with a familiar peer. |

#### INDICATORS: By 36 Months

- Uses multiple strategies, such as imitating or responding, in order to enter play with other children.
- Engages in extended play with other children with a common focus.
- Engages in simple cooperative play with other children.

**Social and Emotional Development – 2-3 years**

- 24) Plays beside another child for short periods of time.
- 26) Waits to take her/his turn.
- 36) Initiates play with a familiar peer.
- 38) Enjoys an activity of interest (e.g., art) with a friend.
### SOCIAL AND EMOTIONAL DEVELOPMENT

**Sub-Domain: Emotional Functioning**

<table>
<thead>
<tr>
<th>Galileo® G3 Assessment Scale Goal</th>
</tr>
</thead>
</table>

#### Birth to 9 Months

<table>
<thead>
<tr>
<th>Expresses feelings of comfort, discomfort, enjoyment, fear, surprise, anger, or unhappiness by crying, smiling, laughing or through facial expressions, body movements or gestures, often to elicit a response from a familiar adult.</th>
</tr>
</thead>
</table>

**Social and Emotional Development – 00-08 months**

3) Turns head, looking away, frowning, and/or arching her/his back to end or avoid interactions.  
18) Cries when hungry, uncomfortable, or unhappy.  
20) Kicks legs in excitement and settles when seeing a familiar adult.  
32) Smiles at others.  
**Cognitive Development and General Knowledge – 00-08 months**

3) Laughs aloud when lightly tickled.

---

#### 8 to 18 Months

<table>
<thead>
<tr>
<th>Expresses a variety of emotions and modifies their expression according to the reactions of familiar adults, based on the child’s cultural background.</th>
</tr>
</thead>
</table>

**Social and Emotional Development – 08-18 months**

45) Imitates and terminates a social smile and repeats the behavior as adults respond.  
63) Recognizes that adults respond to their cues (e.g., crying, squirming) and stop playing or interacting.

---

#### 16 to 36 Months

<table>
<thead>
<tr>
<th>Expresses a range of emotions, including surprise, guilt, embarrassment, or pride, based on increasing awareness of their effects on others.</th>
</tr>
</thead>
</table>

**Social and Emotional Development – 18-24 months**

1) Shows affection, such as hugs and kisses.  
2) Begins to enjoy and initiate humor, such as laughing in response to games.  
22) Begins to end tantrums with some redirection.  
21) Begins to recognize that others smile when they smile, and others look unhappy when they cry.

---

**INDICATORS: By 36 Months**

- Expresses a variety of emotions through facial expressions, sounds, gestures, or words.  
- Uses words to describe some feelings or emotions that reflect an awareness of other people’s emotions.

**Social and Emotional Development – 2-3 years**

7) Responds to another child’s or adult’s distress with efforts to assist. -2-3 years, SR 37.  
20) Begins using emotionally charged words (e.g., "I’m mad") to get needs met, as opposed to simply acting out needs. -2-3 years, SR 39.  
23) Uses words or crying to get someone’s attention.

---

#### Goal: IT-SE 7. Child recognizes and interprets emotions of others with the support of familiar adults.

#### Birth to 9 Months

<table>
<thead>
<tr>
<th>Attends with interest when others show they are happy, sad, or fearful by their facial expressions, voices, or actions.</th>
</tr>
</thead>
</table>

**Social and Emotional Development – 00-08 months**

10) Shows empathy for familiar others, especially those perceived to be hurt or sad. -00-08 SR 34; -008-18 SR 34.
### SOCIAL AND EMOTIONAL DEVELOPMENT

**Sub-Domain: Emotional Functioning**

<table>
<thead>
<tr>
<th>Galileo® G3 Assessment Scale Goal</th>
</tr>
</thead>
</table>

**8 to 18 Months**

Responds to others’ emotional expressions, often by sharing an emotional reaction, such as smiling when an adult smiles or showing excitement when other children are excited.

**Social and Emotional Development – 08-18 months**

3) Claps and smiles in a back and forth manner with a parent, caregiver, or teacher.

24) Recognizes the smiles on familiar adults’ faces.

55) Repeats an action when it makes people laugh.

**16 to 36 Months**

Shows understanding of some emotional expressions of others by labeling the emotions, asking questions about them, or responding in appropriate nonverbal ways.

**Social and Emotional Development – 18-24 months**

17) Recognizes the smiles on familiar adults’ faces.

20) Pats a crying child on the back as their parents, caregivers, and teachers help the hurt child.

21) Begins to recognize that others smile when they smile, and others look unhappy when they cry.

**INDICATORS: By 36 Months**

- Recognizes feelings and emotions of others.
- Responds to feelings and emotions of others with support from familiar adults.
- Describes feelings of characters in a book with support from an adult.

**Social and Emotional Development – 2-3 years**

7) Responds to another child’s or adult’s distress with efforts to assist. -2-3 years. SR 37.

**Cognitive Development and General Knowledge – 2-3 years**

28) Uses words to describe feelings (e.g., “happy”).

40) Points to pictures that represent feelings and names the emotions.

47) Comforts crying peers.

**Goal: IT-SE 8. Child expresses care and concern towards others.**

**Birth to 9 Months**

May cry when another child cries.

**Social and Emotional Development – 00-08 months**

22) Looks at and possibly cries themselves when another child cries.

**8 to 18 Months**

Looks sad or concerned when another child is crying or upset. May seek adult’s help or offer something, such as a blanket, food, or a soft toy.

**Social and Emotional Development – 08-18 months**

27) Pats a crying child on the back as parents, caregivers, or teachers help the hurt child.

**16 to 36 Months**

Expresses empathy toward other children or adults who have been hurt or are crying by showing concerned attention. May try to comfort them with words or actions.

**Social and Emotional Development – 18-24 months**

4) Shows empathy for familiar others, especially those perceived to be hurt or sad. -00-08 SR 34; -008-18 SR 34.

20) Pats a crying child on the back as their parents, caregivers, and teachers help the hurt child.
## SOCIAL AND EMOTIONAL DEVELOPMENT
### Sub-Domain: Emotional Functioning

## Galileo® G3 Assessment Scale Goal

### INDICATORS: By 36 Months
- Shows care and concern for others, including comforting others in distress.
- Responds to needs of others and tries to help others with simple tasks.

**Social and Emotional Development – 2-3 years**
1. Responds to another child’s or adult’s distress with efforts to assist. (2-3 years, SR 37)
2. Responds positively to emotional support from adults and other children.

**Cognitive Development and General Knowledge – 2-3 years**
47) Comforts crying peers.

### Goal: IT-SE 9. Child manages emotions with the support of familiar adults.

#### Birth to 9 Months
- Quiets or stops crying when held and gently rocked or talked to by a familiar adult.

**Social and Emotional Development – 00-08 months**
11) Responds to touch by relaxing (e.g., when back is rubbed).
12) Responds to sound by cooing when songs are sung by familiar adults.
26) Stops crying, often when cuddled/picked up by a familiar adult.

#### 8 to 18 Months
- Looks to or seeks comfort when distressed and accepts reassurance from a familiar adult, or engages in self-comforting behaviors, such as sucking on fingers or thumb to calm self when upset or in new situations.

**Social and Emotional Development – 08-18 months**
21) Uses a comfort object, such as a blanket or stuffed toy, for security when feeling stressed.
22) Looks toward familiar adults for help when becoming upset.
25) Demonstrates the ability to be comforted by familiar adults when frightened.
27) Engages in self-calming behavior (e.g., sucks on her/his hand to calm before sleep).

#### 16 to 36 Months
- Shows developing ability to cope with stress or strong emotions by using strategies, such as getting a familiar toy or blanket or seeking contact with a familiar adult.

**Social and Emotional Development – 18-24 months**
21) Uses a comfort object, such as a blanket or stuffed toy, for security when feeling stressed.
28) Engages in self-calming behavior (e.g., sucks on her/his hand to calm before sleep).
31) Uses transitional objects (e.g., blanket, bear, pacifier) to calm her/himself when tired.
36) Calls for help from a familiar adult to intervene in a dispute with another child (e.g., grabbing toys away).

### INDICATORS: By 36 Months
- Uses different ways to calm or comfort self when upset.
- Responds positively to emotional support from adults and other children.

**Social and Emotional Development – 2-3 years**
23) Engages in reassuring self-talk or changing goals when frustrated or frightened.
27) Continues to use comfort objects such as blankets and stuffed animals to calm her/himself.
### SOCIAL AND EMOTIONAL DEVELOPMENT

**Sub-Domain: Sense of Identity and Belonging**

#### Galileo® G3 Assessment Scale Goal

**Goal: IT-SE 10.** Child shows awareness about self and how to connect with others.

<table>
<thead>
<tr>
<th>Birth to 9 Months</th>
<th></th>
</tr>
</thead>
</table>
| Learns about self by exploring hands, feet, body, and movement. | **Social and Emotional Development – 00-08 months**
|  | 45) Realizes she/he has control over her/his hands.
|  | **Physical Development and Health – 00-08 months**
|  | 11) Examines her/his own hands. |

<table>
<thead>
<tr>
<th>8 to 18 Months</th>
<th></th>
</tr>
</thead>
</table>
| Experiments with use of hands and body, discovering new capacities and how movement and gestures can be used to relate to others. | **Social and Emotional Development – 08-18 months**
|  | 61) Points to and names several of her/his own body parts.
|  | **Language, Communication, Reading and Writing – 08-18 months**
|  | 4) Uses some sign or body language to indicate a need (e.g., “more” “eat”). |

<table>
<thead>
<tr>
<th>16 to 36 Months</th>
<th></th>
</tr>
</thead>
</table>
| Identifies obvious physical similarities and differences between self and others. Compares characteristics of self and others. | **Social and Emotional Development – 18-24 months**
|  | 49) Indicates ownership of an object when it is taken by another child (e.g., says “Mine, mine!”).
|  | 51) Uses “I”, “mine”, and “me” often. |

#### INDICATORS: By 36 Months

- Recognizes own name.
- Identifies some physical characteristics of self, such as hair color, age gender, or size.
- Recognizes some similarities and differences between self and others.

<table>
<thead>
<tr>
<th>Social and Emotional Development – 18-24 months</th>

</table>
| Identifies obvious physical similarities and differences between self and others. Compares characteristics of self and others. | **Social and Emotional Development – 18-24 months**
|  | 54) Notices that another child has features (e.g., brown hair) similar to her/his own. |
## SOCIAL AND EMOTIONAL DEVELOPMENT

**Sub-Domain: Sense of Identity and Belonging**

### Galileo® G3 Assessment Scale Goal

**INDICATORS: By 36 Months**

- Recognizes own name.
- Identifies some physical characteristics of self, such as hair color, age gender, or size.
- Recognizes some similarities and differences between self and others.

**Social and Emotional Development – 18-24 months**

54) Notices that another child has features (e.g., brown hair) similar to her/his own.

**Goal: IT-SE 12. Child shows confidence in own abilities through relationships with others.**

### Birth to 9 Months

Participates in back-and-forth social interactions through facial expressions, sounds, gestures, and responding to the actions of others.

**Social and Emotional Development – 00-08 months**

40) Imitates and terminates a social smile and repeats the behavior as adults respond.
42) Tries to imitate the kisses of familiar adults.
44) Touches or imitates another child sitting nearby.

### 8 to 18 Months

Expresses desires and preferences. Seeks to draw adult’s attention to objects of interest or new physical skills and attends to adult’s responses.

**Social and Emotional Development – 08-18 months**

51) Shows preferences for familiar adults when hurt or needing comfort.
56) Protests when given a non-preferred food rather than a preferred food.
65) Plays with a preferred toy more than others.

### 16 to 36 Months

Contributes own ideas, skills, and abilities to activities and experiences with adults and other children. May call attention to new skills and abilities or seek to do things by self, such as putting on own jacket or pouring juice out of a small pitcher.

**Social and Emotional Development – 18-24 months**

59) Shows “drawing” or scribbling to a familiar adult.
60) Attempts to engage in independent activities (e.g., taking off an open coat) and not giving up immediately if having difficulty.
63) Shows interest in wanting to dress her/himself.
64) Shows increased interest in toileting.

**INDICATORS: By 36 Months**

- Shows confidence in increasing abilities.
- Shows others what they can do.

**Social and Emotional Development – 2-3 years**

13) Starts becoming more comfortable when entering new environments.
45) Refers to her/himself by positive characteristics (e.g., “smart” or “strong”).
46) Insists on doing thing on her/his own (e.g., carrying own plate to the table).
48) Continues to engage in a performance activity (e.g., dance) as familiar adults applaud.
50) Shares successes at independent accomplishments with adults (e.g., opens her/his own lunchbox and showing how they did it).
## SOCIAL AND EMOTIONAL DEVELOPMENT

### Sub-Domain: Sense of Identity and Belonging

**Galileo® G3 Assessment Scale Goal**

**Goal:** IT-SE 13. Child develops a sense of belonging through relationships with others.

### Birth to 9 Months

Shows awareness of familiar routines by behaviors, such as opening mouth for feeding or lifting arms to be picked up.

**Social and Emotional Development – 00-08 months**

16) Enacts familiar routines within familiar surroundings (e.g., splashing water when placed in the bath tub). -00-08 SR 33; 008-18 SR32.

**Physical Development and Health – 00-08 months**

24) Responds to adult feeding cues by kicking feet or turning head.

25) Responds positively to sleeping routines by relaxing when rocked.

### 8 to 18 Months

Anticipates familiar routines or activities, such as getting shoes when it is time to go outside or watching for a parent when it is time to go home.

**Social and Emotional Development – 08-18 months**

13) Enacts familiar routines within familiar surroundings (e.g., splashing water when placed in the bath tub). -00-08 SR 33.

7) Insists on routines for transitions (e.g., when parents drop-off the child at the center). -18-24 SR 41; 2-3 years. SR 35.

### 16 to 36 Months

Refers to personal or family experiences and events that have happened in the recent past, such as when a grandparent came to visit or when there was a family celebration.

**Social and Emotional Development – 2-3 years**

47) Talks about the neighborhood, city, or area in which she/he lives.

**Cognitive Development and General Knowledge – 2-3 years**

34) Answers questions about prior events.

### INDICATORS: By 36 Months

- Identifies self as a member of a family.
- Points to or names self and other familiar people, such as in photos or pictures.
- Talks about family members, familiar people, or friends who may not be present.

**Social and Emotional Development – 18-24 months**

53) Points to her/himself in a photograph.

44) Talks about her/his family.
## Domain: Language and Communication

### Notes:
- Underlined capabilities are reflected in the School Readiness Scale.
- The term “emerging” is used when specific skills, behaviors, or concepts have not yet emerged or are not yet observable.
- NA indicates when a standard has no alignment to the G3 Scales.

- Uses combinations of words and simple sentences or signs in a variety of situations.
- Uses simple sentences, such as 3–4 word sentences, to communicate needs and wants.
- Cognitive Development and General Knowledge – 2-3 years
  - 3) Verbalizes observations, such as “Milk gone!” or “Daddy here!”
  - Language, Communication, Reading and Writing – 2-3 years
  - 9) Combines words to create meaningful short sentences. 13) Asks questions to obtain information or assistance. -18-24 SR 27; 2-3 years. SR 17.
# LANGUAGE AND COMMUNICATION

## Sub-Domain: Communicating and Speaking

<table>
<thead>
<tr>
<th>Galileo® G3 Assessment Scale Goal</th>
</tr>
</thead>
<tbody>
<tr>
<td>Goal: LC 4. Child uses non-verbal communication and language to engage others in interaction.</td>
</tr>
</tbody>
</table>

### Birth to 9 Months

- Uses facial expressions, including smiling, or uses gestures or sounds, such as cooing or babbling, to engage familiar adults in social interaction.

<table>
<thead>
<tr>
<th>Language, Communication, Reading and Writing – 00-08 months</th>
</tr>
</thead>
<tbody>
<tr>
<td>10) Begins to coo using vowel sounds and other sounds consistent with the home language. -00-08 SR 12; 08-18 SR 17.</td>
</tr>
<tr>
<td>12) Uses her/his body to communicate (e.g., waving and pointing and holding hands over eyes for peek-a-boo).</td>
</tr>
</tbody>
</table>

### 8 to 18 Months

- Repeats actions or single words to initiate or maintain social interactions with other children or adults, such as clapping hands or calling a name to get someone’s attention.

<table>
<thead>
<tr>
<th>Language, Communication, Reading and Writing – 08-18 months</th>
</tr>
</thead>
<tbody>
<tr>
<td>15) Uses gestures, sounds, words, and movements to initiate an interaction or game (e.g., patty-cake).</td>
</tr>
<tr>
<td>13) Uses one-word utterances or short phrases to influence the actions of others (e.g., “mine”).</td>
</tr>
</tbody>
</table>

### 16 to 36 Months

- Uses words, signs, phrases, or simple sentences to initiate, continue, or extend conversations with others about feelings, experiences, or thoughts.

<table>
<thead>
<tr>
<th>Language, Communication, Reading and Writing – 18-24 months</th>
</tr>
</thead>
<tbody>
<tr>
<td>14) Uses two-word sentences to share ideas, feelings, or needs.</td>

**Sub-Domain: Vocabulary**  

<table>
<thead>
<tr>
<th><strong>Galileo® G3 Assessment Scale Goal</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Goal: LC 8. Child uses an increasing number of words in communication and conversation with others.</strong></td>
</tr>
</tbody>
</table>

### Birth to 9 Months-

- May use signs or verbalizations for familiar people or objects.  
  - **Language, Communication, Reading and Writing – 08-18 months**
  - 11) Uses sounds to name people, such as dada and mama.

### 8 to 18 Months

- Imitates new words or signs and uses some words or signs for naming or making simple one-word requests, such as saying or signing "milk" when asking for a drink.  
  - **Language, Communication, Reading and Writing – 08-18 months**
  - 9) Uses her/his body to communicate (e.g., waving and pointing and holding hands over eyes for peek-a-boo).
  - 13) Uses one-word utterances or short phrases to influence the actions of others (e.g., "mine").
  - 16) Says a few basic words (e.g., "mama", "dada").  -08-18 SR 18; 18-24 SR 16.

### 16 to 36 Months

- Uses an increasing number of words in communication and conversation with others and adds new vocabulary words regularly.  
  - **Language, Communication, Reading and Writing – 2-3 years**
  - 8) Repeats or tries different words/sentences to get another child or adult to respond.
  - 11) Uses descriptive words with objects (e.g., "pretty flowers").
  - 14) Uses words to describe activities (e.g., playing catch) or functions of objects (e.g., spoon for eating).

### INDICATORS: By 36 Months

- Shows rapid growth in number of words or signs used in conversation with others.
- Demonstrates a vocabulary of at least 300 words in home language.
- Asks questions about the meaning of new words.

- **Physical Development and Health – 2-3 years**
  - 33) Expands understandable vocabulary.

### Goal: LC 12. Child recognizes pictures and some symbols, signs, or words.

#### Birth to 9 Months

**Looks at picture books and listens to an adult talk about pictures in a book.**

**Language, Communication, Reading and Writing – 00-08 months**

18) Babbles while looking at a book with an adult. -00-08 SR 18.

#### 8 to 18 Months

**Points at pictures in a book, making sounds or saying words and interacting with an adult reading a book.**

**Language, Communication, Reading and Writing – 08-18 months**

25) Points to pictures in books as they are named by an adult.

**Language, Communication, Reading and Writing – 18-24 months**

31) Uses words to label and describe pictures/objects in books. -18-24 SR 25.

#### 16 to 36 Months

**Talks about books, acts out events from stories, and uses some vocabulary encountered during book reading.**

**Language, Communication, Reading and Writing – 18-24 months**

36) Comments on characters in books.

**Language, Communication, Reading and Writing – 2-3 years**

24) Retells a familiar story, poem, or song in his/her own words. -2-3 years. SR 19.

### INDICATORS: By 36 Months

- Uses pictures as a guide to talk about a story that has been read.
- Asks or answers questions about what is happening in a book or story.
- Identifies the feelings of characters in a book or story.

**Language, Communication, Reading and Writing – 2-3 years**

6) Responds appropriately to questions about a picture book being read. -2-3 years. SR 9.

30) Asks adults to read printed information such as signs, labels, advertisements. -2-3 years. SR 21.

### Goal: LC 13. Child makes marks and uses them to represent objects or actions.

#### Birth to 9 Months

**Emerging**
### LANGUAGE AND COMMUNICATION

**Sub-Domain: Emergent Literacy**

#### 8 to 18 Months

<table>
<thead>
<tr>
<th>Action</th>
<th>Language, Communication, Reading and Writing – 08-18 months</th>
</tr>
</thead>
</table>
| Makes marks on a paper with a large crayon or marker to explore writing materials. | 34) Imitates writing by scribbling without regard to direction or location. -08-18 SR 21.  
37) Repeats motions to make additional marks on paper. -08-18 SR 22. |

#### 16 to 36 Months

<table>
<thead>
<tr>
<th>Action</th>
<th>Language, Communication, Reading and Writing – 18-24 months</th>
</tr>
</thead>
</table>
| Makes scribbles on paper to represent an object or action even though an adult might not recognize what it is. | 45) Scribbles spontaneously often using circular motions.  

#### INDICATORS: By 36 Months

- Draws pictures using scribbles and talks with others about what they have made.
- Draws straight lines or curved lines. Identifies the feelings of characters in a book or story.
- Makes letter-like marks or scribbles on paper.

<table>
<thead>
<tr>
<th>Language, Communication, Reading and Writing – 08-18 months</th>
</tr>
</thead>
<tbody>
<tr>
<td>36) Shows scribbling or markings to others.</td>
</tr>
</tbody>
</table>

### Language, Communication, Reading and Writing – 2-3 years

<table>
<thead>
<tr>
<th>Language, Communication, Reading and Writing – 2-3 years</th>
</tr>
</thead>
<tbody>
<tr>
<td>37) Shows scribbling or markings to others.</td>
</tr>
<tr>
<td>43) Uses scribbles on paper to communicate a message.</td>
</tr>
</tbody>
</table>

**Galileo G3 Assessment Scale Goal**
C. Domain: Cognition

Notes:
- Underlined capabilities are reflected in the School Readiness Scale.
- The term “emerging” is used when specific skills, behaviors, or concepts have not yet emerged or are not yet observable.
- NA indicates when a standard has no alignment to the G3 Scales.

<table>
<thead>
<tr>
<th>COGNITION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sub-Domain: Exploration and Discovery</td>
</tr>
<tr>
<td>Galileo® G3 Assessment Scale Goal</td>
</tr>
</tbody>
</table>

**Goal: IT-C 1.** Child actively explores people and objects to understand self, others, and objects.

### Birth to 9 Months

<table>
<thead>
<tr>
<th>Uses the senses and a variety of actions to examine people and objects, such as mouthing, touching, shaking or dropping.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cognitive Development and General Knowledge – 00-08 months</td>
</tr>
<tr>
<td>4) Looks at, reaches for, and then attempts to grab an object (e.g., bottle or toy).</td>
</tr>
<tr>
<td>10) Touches and mouths objects for sensory exploration. -00-08 SR 8.</td>
</tr>
<tr>
<td>45) Reaches for objects within view.-00-08 SR 10.</td>
</tr>
</tbody>
</table>

| Approaches to Learning – 00-08 months |
| 4) Explores objects using a variety of senses (e.g., mouthing, waving, banging). |
| 11) Bangs an object repeatedly while exploring its properties. -00-08 SR 2. |

### 8 to 18 Months

<table>
<thead>
<tr>
<th>Acts intentionally to achieve a goal or when manipulating an object, such as trying to get an adult to do something or trying different ways to reach a toy under a table.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Social and Emotional Development – 08-18 months</td>
</tr>
<tr>
<td>39) Vocalizes and points to get the attention of a familiar adult.</td>
</tr>
</tbody>
</table>

| Cognitive Development and General Knowledge – 08-18 months |
| 58) Uses a stick or object to obtain something out of reach. 008-18 SR 11. |
| 64) Tries out various ways to get her/his arms into the sleeves of a jacket/sweater. |

| Cognitive Development and General Knowledge – 18-24 months |
| 9) Pulls on the hand of adults when wanting to communicate. |

| Approaches to Learning – 18-24 months |
| 18) Uses tools to retrieve items that are out of reach (e.g., using a string to pull a toy toward self). |

### 16 to 36 Months

<table>
<thead>
<tr>
<th>Observes and experiments with how things work, seeks information from others, or experiments with different behaviors to see how people and objects react.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cognitive Development and General Knowledge – 18-24 months</td>
</tr>
<tr>
<td>11) Explores the contents of cabinets and drawers.</td>
</tr>
<tr>
<td>12) Stacks blocks and knocks them down.</td>
</tr>
<tr>
<td>16) Explores objects by taking things apart, stacking sorting, tracing, etc.-2-3 years. SR 7.</td>
</tr>
</tbody>
</table>

| Social and Emotional Development – 18-24 months |
| 30) Uses words or crying to get someone’s attention. |
### Galileo G3 Assessment Scale Goal

| Goal IT-C2. | Child uses understanding of causal relationships to act on social and physical environments. |

#### Birth to 9 Months

<table>
<thead>
<tr>
<th>Indications</th>
<th>Cognitive Development and General Knowledge – 00-08 months</th>
</tr>
</thead>
<tbody>
<tr>
<td>Repeats an action to make things happen or to get an adult to repeat an action, such as dropping a toy from the high chair repeatedly and waiting for an adult to pick it up.</td>
<td>11) Bangs a variety of objects on the floor or table (e.g., utensils, blocks, and toys). 12) Shakes toys to elicit a response or sound. 13) Enjoys rolling a ball to familiar adults.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Approaches to Learning – 2-3 years</th>
</tr>
</thead>
<tbody>
<tr>
<td>7) Looks at insects, leaves, or other things from nature, examines and watches them move or grow.</td>
</tr>
<tr>
<td>8) Explores most areas of the classroom.</td>
</tr>
</tbody>
</table>

#### 8 to 18 Months

<table>
<thead>
<tr>
<th>Indications</th>
<th>Cognitive Development and General Knowledge – 08-18 months</th>
</tr>
</thead>
<tbody>
<tr>
<td>Engages in purposeful actions to cause things to happen, such as making splashes in a puddle or rolling a ball to knock over a tower.</td>
<td>16) Fills and dumps sand, toys, and blocks. 20) Drops a toy or a bottle on the floor and watches to see what happens.</td>
</tr>
</tbody>
</table>

#### 16 to 36 Months

<table>
<thead>
<tr>
<th>Indications</th>
<th>Social and Emotional Development – 08-18 months</th>
<th>Social and Emotional Development – 18-24 months</th>
</tr>
</thead>
<tbody>
<tr>
<td>Identifies the cause of an observed outcome, such as the tower fell over because it was built too high. Predicts outcomes of actions or events, such as turning the faucet will make water come out.</td>
<td>64) Recognizes that her/his actions can affect an object (e.g., kicking a mobile to make it move over and over), 00-08 SR 30.</td>
<td>41) Uses trial and error to fit different shapes into holes or to stack things in order. 56) Demonstrates some persistence and creativity in solving a problem (e.g., turns puzzle pieces in various directions to complete the puzzle).</td>
</tr>
<tr>
<td>INDICATORS: By 36 Months</td>
<td>Nature and Science- 3-5 years</td>
<td></td>
</tr>
<tr>
<td>-----------------------------------------------------------------------------------------</td>
<td>-------------------------------------------------------------------------------------------</td>
<td></td>
</tr>
<tr>
<td>- Makes simple predictions about what will happen next, such as in a story or in everyday routines.</td>
<td>27) Predicts what might come next in a life cycle sequence (e.g., seed to plant).</td>
<td></td>
</tr>
<tr>
<td>- Anticipates some cause and effects of own actions, such as what happens while running with a cup of water.</td>
<td>28) Predicts that a plant will die if it does not receive water.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>35) Predicts which way a scale will tip when a weight is added to one side.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>49) Provides an explanation for why an event/outcome occurred (e.g., flower wilted).</td>
<td></td>
</tr>
</tbody>
</table>
### COGNITION (EXECUTIVE FUNCTIONING)

**Sub-Domain: Memory**

<table>
<thead>
<tr>
<th>Galileo® G3 Assessment Scale Goal</th>
</tr>

<td>7) Insists on routines for transitions (e.g., when parents drop-off the child at the center). - 2-3 years. SR 35.</td>
<td></td>
</tr>
</tbody>
</table>

## COGNITION (EXECUTIVE FUNCTIONING)

### Sub-Domain: Memory

<table>
<thead>
<tr>
<th>8 to 18 Months</th>
<th>Cognitive Development and General Knowledge – 08-18 months</th>
</tr>
</thead>
</table>
| Searches for hidden or missing people or objects in the place they were last seen or found. May wait and watch at a door or window for the return of a family member. | 26) Pulls the cover off a toy hidden from view.  
28) Finds hidden objects. |

<table>
<thead>
<tr>
<th>16 to 36 Months</th>
<th>Cognitive Development and General Knowledge – 18-24 months</th>
</tr>
</thead>
<tbody>
<tr>
<td>Uses a variety of search strategies to find hidden or missing people or objects, including looking in multiple locations for things that have been missing for some time.</td>
<td>27) Occasionally asks about a favorite adult when the adult is not present.</td>
</tr>
</tbody>
</table>

### INDICATORS: By 36 Months

- Notices who is missing from a familiar group, such as family at dinner or children in a playgroup.
- Looks in several different places for a toy that was played with a few days before.

<table>
<thead>
<tr>
<th>8 to 18 Months</th>
<th>Cognitive Development and General Knowledge – 08-18 months</th>
</tr>
</thead>
<tbody>
<tr>
<td>Remembers how to use objects or materials from previous experience. Anticipates routines or events by taking action, such as going to the table when it is time to eat.</td>
<td>38) Enacts familiar events or household chores.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>16 to 36 Months</th>
<th>Cognitive Development and General Knowledge – 18-24 months</th>
</tr>
</thead>
</table>
| Tells others about memories and past experiences. Remembers how to do a series of actions that were observed at an earlier time. | 30) Places items back in their "correct" place.  
28) Pulls/pushes a wagon or cart around the play area possibly putting toys in it. |

**Goal: IT-C 5.** Child uses memories as a foundation for more complex actions and thoughts.

### Birth to 9 Months

<table>
<thead>
<tr>
<th>8 to 18 Months</th>
<th>Cognitive Development and General Knowledge – 00-08 months</th>
</tr>
</thead>
</table>
| Shows excitement with a toy or other object that was played with days earlier. Anticipates familiar actions or routines, such as getting picked up or being fed. | 22) Anticipates feeding time (e.g., responds to stimuli such as appearance of a bottle).  
24) Shows pleasure when presented with a familiar object. |

<table>
<thead>
<tr>
<th>16 to 36 Months</th>
<th>Cognitive Development and General Knowledge – 08-18 months</th>
</tr>
</thead>
<tbody>
<tr>
<td>Remembers how to do a series of actions that were observed at an earlier time.</td>

## COGNITION
### Sub-Domain: Reasoning and Problem Solving

**Galileo® G3 Assessment Scale Goal**

**Goal:** IT-C 6. Child learns to use a variety of strategies in solving problems.

### Birth to 9 Months

<table>
<thead>
<tr>
<th>Cognitive Development and General Knowledge – 00-08 months</th>
</tr>
</thead>
<tbody>
<tr>
<td>4) Looks at, reaches for, and then attempts to grab an object (e.g., bottle or toy).</td>
</tr>
<tr>
<td>36) Smiles as she/he figures out how to move around an object.</td>
</tr>
<tr>
<td>42) Stretches out arms in a motion to be picked up.</td>
</tr>
</tbody>
</table>

**Birth to 9 Months**

Engages in simple repeated actions to reach a goal, such as trying to get whole hand and then fingers or thumb in mouth.

### 8 to 18 Months

<table>
<thead>
<tr>
<th>Cognitive Development and General Knowledge – 08-18 months</th>
</tr>
</thead>
<tbody>
<tr>
<td>16) Fills and dumps sand, toys, and blocks.</td>
</tr>
<tr>
<td>18) Places items in containers and then pours them out, repeatedly.</td>
</tr>
</tbody>
</table>

**8 to 18 Months**

Explores how to make something happen again or how something works by doing actions over and over again, such as repeatedly filling a container and emptying it out.

### 16 to 36 Months

<table>
<thead>
<tr>
<th>Cognitive Development and General Knowledge – 18-24 months</th>
</tr>
</thead>
<tbody>
<tr>
<td>12) Stacks blocks and knocks them down.</td>
</tr>
<tr>
<td>41) Uses trial and error to fit different shapes into holes or to stack things in order.</td>
</tr>
<tr>
<td>43) Tries out various ways to get her/his arms into the sleeves of a jacket/sweater.</td>
</tr>
<tr>
<td>56) Demonstrates some persistence and creativity in solving a problem (e.g., turns puzzle pieces in various directions to complete the puzzle).</td>
</tr>
</tbody>
</table>

**16 to 36 Months**

Engages in activities for longer periods of time and tries several times to solve more challenging problems, often using a combination of actions or behaviors.

### INDICATORS: By 36 Months

- Uses a variety of strategies to solve problems, such as trial and error, simple tools, or asking someone to help.
- Tries to solve the same problem in several different ways at different times.

<table>
<thead>
<tr>
<th>Cognitive Development and General Knowledge – 2-3 years</th>
</tr>
</thead>
<tbody>
<tr>
<td>13) Repeatedly does the same puzzles.</td>
</tr>
<tr>
<td>53) Finds solutions basic everyday problems (e.g., peels paper off a crayon to continue coloring).</td>
</tr>
<tr>
<td>54) Demonstrates some persistence and creativity in solving a problem (e.g., turns puzzle pieces in various directions to complete the puzzle).</td>
</tr>
</tbody>
</table>

### Approaches to Learning – 2-3 years

15) Repeats activities or games over and over, such as building a block structure, taking it apart, and rebuilding it.

### Social and Emotional Development – 2-3 years

37) Seeks help from familiar adults after unsuccessfully attempting to complete a task.
<table>
<thead>
<tr>
<th>Sub-Domain: Reasoning and Problem Solving</th>
<th>Galileo® G3 Assessment Scale Goal</th>
</tr>
</thead>
<tbody>
<tr>
<td>Goal: IT-C 7. Child uses reasoning and planning ahead to solve problems.</td>
<td></td>
</tr>
</tbody>
</table>

### Birth to 9 Months

- Uses own actions or movements to solve simple problems, such as rolling to the side to reach an object or kicking to make something move.

#### Cognitive Development and General Knowledge – 00-08 months
1. Looks at, reaches for, and then attempts to grab an object (e.g., bottle or toy).
2. Points, gestures, and makes sound to indicate what she/he wants.

#### Social and Emotional Development – 00-08 months
3. Recognizes that her/his actions can affect an object (e.g., kicking a mobile to make it move over and over). - 00-08 SR 30.

### 8 to 18 Months

- Tries different solutions to everyday problems until discovering one that works. May try the same strategy multiple times even if it is not working.

#### Cognitive Development and General Knowledge – 08-18 months
1. Chooses to solve simple tasks (e.g., attempting a simple puzzle).
2. Uses trial and error to fit different shapes into holes or to stack things in order.
3. Tries out various ways to get her/his arms into the sleeves of a jacket/sweater.

#### Social and Emotional Development – 18-24 months
4. Attempts to engage in independent activities (e.g., taking off an open coat) and not giving up immediately if having difficulty.

### 16 to 36 Months

- Uses problem-solving and experimenting to figure out solutions to everyday problems, including in social situations, such as when two children who both want to fit into a small car agree to take turns.

#### Cognitive Development and General Knowledge – 18-24 months
1. Uses negotiation and language, with the help from adults, to solve problems when playing with peers.

#### Social and Emotional Development – 18-24 months
2. Calls for help from a familiar adult to intervene in a dispute with another child (e.g., grabbing toys away).

### INDICATORS: By 36 Months

- Tries to fix things that are broken, such as putting a toy back together or using tape to repair a torn paper.
- Plans ways to solve problems based on knowledge and experience, such as getting a stool to reach a book that is on a shelf after trying to reach it on tiptoes.

#### Cognitive Development and General Knowledge – 2-3 years
1. Finds solutions basic everyday problems (e.g., peels paper off a crayon to continue coloring).
2. Demonstrates some persistence and creativity in solving a problem (e.g., turns puzzle pieces in various directions to complete the puzzle).

#### Approaches to Learning – 18-24 months
3. Uses tools to retrieve items that are out of reach (e.g., using a string to pull a toy toward self).
## COGNITION
### Sub-Domain: Emergent Mathematical Thinking

<table>
<thead>
<tr>
<th>Galileo® G3 Assessment Scale Goal</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Goal:</strong> IT-C 8. Child develops sense of number and quantity.</td>
</tr>
</tbody>
</table>

### Birth to 9 Months
- Attends to quantity in play with objects, such as reaching or looking for more than one object.

<table>
<thead>
<tr>
<th>Cognitive Development and General Knowledge – 08-18 months</th>
</tr>
</thead>
<tbody>
<tr>
<td>15) Shows pleasure when read to by smiling or using words such as “Yea!” or “More!”</td>
</tr>
</tbody>
</table>

### 8 to 18 Months
- Uses a few basic words to refer to change in the amount of objects, such as asking for “more” or saying “all gone” when a plate is empty.

<table>
<thead>
<tr>
<th>Cognitive Development and General Knowledge – 08-18 months</th>
</tr>
</thead>
<tbody>
<tr>
<td>30) Asks for more (e.g., food, objects, activity).</td>
</tr>
</tbody>
</table>

### 16 to 36 Months
- Uses language to refer to quantity, such as using some number words or signs to identify small amounts, or using other words referring to quantity, such as a little, too much or a lot.

### INDICATORS: By 36 Months
- Counts small number of objects (2–3), sometimes counting the same object twice or using numbers out of order.
- Identifies “more” or “less” with a small number of items without needing to count them.
- Uses fingers to show how old they are.

<table>
<thead>
<tr>
<th>Early Math- 3-5 years</th>
</tr>
</thead>
<tbody>
<tr>
<td>2) Counts to find how many are in a group up to 5.</td>
</tr>
<tr>
<td>16) Indicates that a small group has more after some have been added.</td>
</tr>
<tr>
<td>18) Indicates that a small group has less after taking some away.</td>
</tr>
</tbody>
</table>

### Goal: IT-C 9. Child uses spatial awareness to understand objects and their movement in space.

### Birth to 9 Months
- Explores or examines objects and watches objects when they move.

<table>
<thead>
<tr>
<th>Cognitive Development and General Knowledge – 00-08 months</th>
</tr>
</thead>
<tbody>
<tr>
<td>18) Watches and follows the movement of a mobile.</td>
</tr>
<tr>
<td>19) Watches and follows both horizontal and vertical movements of objects.</td>
</tr>
</tbody>
</table>

### 8 to 18 Months
- Explores how things fit together, how they fit with other things, and how they move through space, such as a ball thrown under a table.

<table>
<thead>
<tr>
<th>Cognitive Development and General Knowledge – 08-18 months</th>
</tr>
</thead>
<tbody>
<tr>
<td>7) Enjoys rolling a ball to familiar adults.</td>
</tr>
<tr>
<td>20) Drops a toy or a bottle on the floor and watches to see what happens.</td>
</tr>
</tbody>
</table>

<tr>
<td></td>
<td>3) Imitates adult activities such as reading a magazine or helping to set the table.</td>
</tr>
<tr>
<td></td>
<td>Cognitive Development and General Knowledge –18-24 months</td>
</tr>
<tr>
<td></td>
<td>18) Pretends to call familiar people on a play phone.</td>
</tr>
</tbody>
</table>

### INDICATORS: By 36 Months

- Watches and imitates adult actions involving multiple steps, such as getting spoons and forks to set a table.
- Imitates someone else’s conversation, such as in pretend play or on a toy phone.

### Social and Emotional Development – 2-3 years

- 8) Starts to imitate adult social behaviors such as using words like “please” and “thank you”.

### Approaches to Learning – 2-3 years

- 2) Imitates adult activities such as reading a magazine or helping to set the table.

### Cognitive Development and General Knowledge –2-3 years

- 46) Imitates other children’s play or begins to play with others in associative play.

<table>
<thead>
<tr>
<th>Goal: IT-C 12. Child uses objects or symbols to represent something else.</th>

<td></td>
</tr>
</tbody>
</table>

**INDICATORS: By 36 Months**

- Uses familiar objects to represent something else.
- Improvises with props during pretend play, such as using a towel for a blanket or making a cookie out of play dough.
- Understands that some symbols have meaning, such as a sign or a drawing.

**Goal: IT-C 13. Child uses pretend play to increase understanding of culture, environment and experiences.**

**Birth to 9 Months**

**Emerging**

**8 to 18 Months**

Imitates everyday actions of others, such as pretending to feed a doll or stuffed toy.

Cognitive Development and General Knowledge – 08-18 months

39) Pretends to call familiar people on a play phone.

Cognitive Development and General Knowledge – 18-24 months

10) Plays "dress-up", imitating the behaviors of familiar adults.

Approaches to Learning – 2-3 years

18) Uses a variety of materials during play to represent objects and events (e.g., uses pegs with play dough as candles for cake). -18-24 SR 8.

21) Scribbles on a piece of paper to communicate (e.g., making a shopping list).

Language Communication, Reading and Writing – 2-3 year

30) Asks adults to read printed information such as signs, labels, advertisements. -2-3years, SR 21.

D. Domain: Perceptual, Motor, and Physical Development

Notes:
- Underlined capabilities are reflected in the School Readiness Scale.
- The term "emerging" is used when specific skills, behaviors, or concepts have not yet emerged or are not yet observable.
- NA indicates when a standard has no alignment to the G3 Scales.

<table>
<thead>
<tr>
<th>PERCEPTUAL, MOTOR AND PHYSICAL DEVELOPMENT</th>
<th>Galileo® G3 Assessment Scale Goal</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sub-Domain: Perception</td>
<td>Goal: IT-PMP 1. Child uses perceptual information to understand objects, experiences, and interactions.</td>
</tr>
</tbody>
</table>

**Birth to 9 Months**

- Uses perceptual information to organize basic understanding of objects when given opportunities to observe, handle, and use objects, including recognizing differences in texture and how things feel.

**Physical Development and Health – 00-08 months**
- 10) Follows a human face with her/his eyes.

**Cognitive Development and General Knowledge – 00-08 months**
- 10) Touches and mouths objects for sensory exploration, -00-08 SR 8.

**8 to 18 Months**

- Uses perceptual information about properties of objects in matching and associating them with each other through play and interaction with an adult, such as using a play bottle to feed a baby doll.

**Physical Development and Health – 08-18 months**
- 17) Uses two objects together (e.g., putting a spoon in a cup and moving the spoon around). -18-24 SR 37.

**Approaches to Learning – 08-18 months**
- 27) Engages in pretend play (e.g., feeds baby doll with bottle, pretends to lock/unlock door). -08-18 SR 7; 18-24 SR 2.

**16 to 36 Months**

- Observes others making things happen to understand the cause and effect relationship of intention and action, such as seeing an adult prepare to go outside and then going to get their own jacket.

**Physical Development and Health – 2-3 years**
- 20) Helps adults with dressing her/him (e.g., giving a matching sock, holding out a shoe after socks are on).

**INDICATORS: By 36 Months**

- Combines information gained through the senses to understand objects, experiences, and interactions.
- Adjusts ways of interacting with materials based on sensory and perceptual information, such as pressing harder on clay than on play dough to make something.
- Modifies responses in social situations based on perceptual information, especially when meeting new people, such as hiding their face from an unfamiliar person.

**Cognitive Development and General Knowledge – 2-3 year**
- 40) Makes a detour to retrieve an object.

**Approaches to Learning – 2-3 year**
- 23) Finds solutions to simple problems (e.g., riding toy is stuck on another toy so the child backs up and drives around the toy). -18-24 SR 5.
### Sub-Domain: Perception

#### Goal IT-PMP 2. Child uses perceptual information in directing own actions, experiences, and interactions.

<table>
<thead>
<tr>
<th>Birth to 9 Months</th>
<th>Physical Development and Health – 00-08 months</th>
</tr>
</thead>
<tbody>
<tr>
<td>Adjusts balance and movement with the changing size and proportion of own body in response to opportunities in the environment.</td>
<td>6) Stands firmly on legs and bounces actively when held in standing position. -00-08 SR 24.</td>
</tr>
<tr>
<td></td>
<td>9) Sits without adult support.</td>
</tr>
<tr>
<td></td>
<td>32) Passes an object from one hand to another. -00-08 SR 27.</td>

<td>----------------------------------</td>
</tr>
<tr>
<td><strong>Sub-Domain: Gross Motor</strong></td>
<td></td>
</tr>
</tbody>
</table>

**Goal:** IT-PMP 3. Child demonstrates effective and efficient use of large muscles for movement and position.

### Birth to 9 Months

Explores new body positions and movements, such as rolling over, sitting, crawling, hitting or kicking at objects to achieve goals.

**Physical Development and Health – 00-08 months**

1) Rolls over from back to front.
2) Turns head from side to side, kicks feet, and moves hands.
3) Sits with adult support.
4) Pushes chest and head up from a flat surface.

### 8 to 18 Months

Moves from crawling to cruising to walking, learning new muscle coordination for each new skill, and how to manage changing ground surfaces.

**Physical Development and Health – 08-18 months**

7) Walks without help.
9) Climbs up and walks down stairs with adult assistance. -18-24 SR 32.

### 16 to 36 Months

Gains control of a variety of postures and movements including stooping, going from sitting to standing, running, and jumping.

**Physical Development and Health – 08-18 months**

7) Stands on tiptoes to reach for an object.
8) Runs although she/he may have difficulty stopping and turning. -18-24 SR 35.

**INDICATORS: By 36 Months**

- Coordinates movements and actions for a purpose.
- Walks and runs, adjusting speed or direction depending on the situation.

**Physical Development and Health – 2-3 years**

7) Jumps in place and off low objects, such as a step.
8) Stops and turns while running.

**Goal:** PMP 4. Child demonstrates effective and efficient use of large muscles to explore the environment.

### Birth to 9 Months

Uses each new posture (raising head, rolling onto back, sitting) to learn new ways to explore the environment. For example, sits up to be able to reach for or hold objects.

**Approaches to Learning – 2-3 year**

4) Looks at, reaches for, and then attempts to grab an object (e.g., bottle or toy).

**Language, Communication, Reading and Writing – 00-08 months**

27) Pushes her/his body up with arms when on tummy.
30) Holds toys with both hands. -00-08 SR 14.
31) Reaches, grasps, and places objects in her/his mouth.
## PERCEPTUAL, MOTOR AND PHYSICAL DEVELOPMENT

**Galileo® G3 Assessment Scale Goal**

### Sub-Domain: Gross Motor

<table>
<thead>
<tr>
<th>Age Range</th>
<th>Description</th>
<th>Galileo G3 Assessment Scale Goal</th>
</tr>
</thead>
</table>
| 8 to 18 Months | Uses body position, balance, and especially movement to explore and examine materials, activities, and spaces. | **Physical Development and Health – 00-08 months**  
8) Begins to crawl.  
**Physical Development and Health – 08-18 months**  
42) Demonstrates an interest in actively exploring the environment.  
**Language, Communication, Reading and Writing – 00-08 months**  
32) Passes an object from one hand to another. -00-08 SR 27. |
| 16 to 36 Months | Uses a variety of increasingly complex movements, body positions, and postures to participate in active and quiet, indoor and outdoor play. | **Physical Development and Health – 2-3 years**  
41) Makes use of inside and outside environments to play in. -2-3 years. SR 30. |

**INDICATORS: By 36 Months**

- Explores environments using motor skills, such as throwing, kicking, jumping, climbing, carrying, and running.  
- Experiments with different ways of moving the body, such as dancing around the room.

**Cognitive Development and General Knowledge – 2-3 year**  
44) Demonstrates the ability to move in time with music.  
**Approaches to Learning – 2-3 year**  
8) Explores most areas of the classroom.

**Goal: PMP 5.** Child uses sensory information and body awareness to understand how their body relates to the environment.

### Birth to 9 Months

<table>
<thead>
<tr>
<th>Activity</th>
<th>Physical Development and Health – 00-08 months</th>
</tr>
</thead>
</table>
| Responds to sounds and sights in the environment by orienting head or body to understand the information in the event. For example, a young infant will turn towards an adult and re-position their body to be picked up. | 24) Responds to adult feeding cues by kicking feet or turning head.  
30) Turns head in response to a sound. |

### 8 to 18 Months

<table>
<thead>
<tr>
<th>Activity</th>
<th>Physical Development and Health – 08-18 months</th>
</tr>
</thead>
</table>
| Shows awareness as an accomplished crawler or walker of new challenges or dangers in the environment, such as steep inclines or drop-offs. | 6) Crawls on hands and knees.  
9) Climbs up and walks down stairs with adult assistance. -18-24 SR 32. |

### 16 to 36 Months -

<table>
<thead>
<tr>
<th>Activity</th>
<th>Language, Communication, Reading and Writing – 18-24 months</th>
</tr>
</thead>
<tbody>
<tr>
<td>Shows understanding of what size openings are needed for their body to move through. Learns about body size, such as doll clothes won’t fit on a child’s body or a child’s body won’t fit on dollhouse furniture.</td>
<td>41) Attempts to feed, dress, or cuddle their dolls and stuffed animals.</td>
</tr>
</tbody>
</table>
### PERCEPTUAL, MOTOR AND PHYSICAL DEVELOPMENT

**Sub-Domain: Gross Motor**

<table>
<thead>
<tr>
<th>Galileo® G3 Assessment Scale Goal</th>
</tr>
</thead>
<tbody>
<tr>
<td>Physical Development and Health – 3-5 years</td>
</tr>
<tr>
<td>31) Has calm and settled rest periods.</td>
</tr>
</tbody>
</table>

#### INDICATORS: By 36 Months

- Maintains balance and posture while seated and concentrating, such as working with clay, blocks, or markers or looking at a book.
- Adjusts position of body to fit through or into small spaces.
## PERCEPTUAL, MOTOR AND PHYSICAL DEVELOPMENT

### Sub-Domain: Fine Motor

<table>
<thead>
<tr>
<th>Birth to 9 Months</th>
<th>Physical Development and Health – 00-08 months</th>
</tr>
</thead>
</table>
| Coordinates hands and eyes when reaching for and holding stable or moving objects. | 15) Looks at objects as he/she transfers them from hand to hand. 00-08 SR 26.  
18) Reaches for and holds bottle while being fed by an adult. |

<table>
<thead>
<tr>
<th>8 to 18 Months</th>
<th>Physical Development and Health – 08-18 months</th>
</tr>
</thead>
</table>
| Uses hand-eye coordination for more complex actions, such as releasing objects into a container, or stacking cups, rings or blocks, or picking up pieces of food one by one. | 16) Builds a tower of two to four cubes.  
18) Drinks from a cup with help.  
20) Regularly feeds him/herself finger foods. |

<table>
<thead>
<tr>
<th>16 to 36 Months</th>
<th>Physical Development and Health – 18-24 months</th>
</tr>
</thead>
</table>
| Uses hand-eye coordination when participating in routines, play and activities, such as putting on a mitten, painting at an easel, putting pieces of a puzzle together, or folding paper. | 9) Puts objects in a box.  
10) Tries to turn the key on a wind-up toy. |

#### INDICATORS: By 36 Months

- Uses hand-eye coordination to manipulate objects and materials such as completing puzzles or threading beads with large holes.
- Uses hand-eye coordination in handling books, such as turning pages, pointing to a picture, or looking for favorite page.
- Pulls apart large pop-it beads and tries to push them together again.
- Uses one hand to turn the pages of a book.
- Threads beads by coordinating a string into the bead opening.

#### Goal: PMP 7. Child shows interest in and curiosity about objects, materials, or events.

<table>
<thead>
<tr>
<th>Birth to 9 Months</th>
<th>Physical Development and Health – 00-08 months</th>
</tr>
</thead>
</table>
| Uses single actions to explore shape, size, texture, or weight of objects, such as turning an object over or around, or dropping or pushing away an object. | 4) Explores objects using a variety of senses (e.g., mouthing, waving, banging).  
11) Examines her/his own hands. |
### PERCEPTUAL, MOTOR AND PHYSICAL DEVELOPMENT

**Sub-Domain: Fine Motor**

#### Galileo® G3 Assessment Scale Goal

**8 to 18 Months**

Explores properties of objects and materials by using various hand actions, such as pulling at them, picking them up to examine them, pointing to learn their names, turning knobs on objects, or turning pages in a board book.

**Approaches to Learning – 08-18 months**

5) Actively explores the world by using their bodies and senses, as well as tools, materials, and equipment. -00-08 SR 2.

11) Bangs an object repeatedly while exploring its properties. -00-08 SR 3.

**Physical Development and Health – 08-18 months**

12) Points to objects/people that attract her/his attention.

14) Picks up small objects with thumb and forefinger.

#### 16 to 36 Months

Plans ways to use hands for various activities, such as stacking, building, connecting, drawing, painting, and doing self-care skills or routines.

**Physical Development and Health – 18-24 months**

15) Empties and fills containers.

16) Scribbles using a variety of materials (e.g., chalk, finger paints, crayons).

**Physical Development and Health – 2-3 years**

16) Pulls apart large pop-it beads and tries to push them together again.

**INDICATORS: By 36 Months**

- Uses hands efficiently for a variety of actions or activities, such as building with blocks, wiping up a spill, or feeding self.
- Coordinates use of both hands to put things together, such as connecting blocks or linking toys.

**Physical Development and Health – 18-24 months**

10) Demonstrates increasing ability to manipulate objects (e.g., bouncing up and down on objects).

21) Eats with a spoon with some assistance.

23) Unzips zippers.

**Birth to 9 Months**

Uses increasingly refined grasps, matching the grasp to the task, such as using an index finger and thumb to pick up pieces of cereal or using the whole hand to bang objects together.

**Physical Development and Health – 00-08 months**

16) Picks up small objects with thumb and forefinger.

**8 to 18 Months**

Extends reach by using simple tools, such as a pull string, stick, or rake to pull a distant object closer.

**Social and Emotional Development – 08-18 months**

8) Uses adults as tools, as in asking to be picked up to reach the toy on the shelf.

**Cognitive Development and General Knowledge – 08-18 months**

58) Uses a stick or object to obtain something out of reach. - 08-18 SR 11.
### 16 to 36 Months

</table>

### INDICATORS: By 36 Months

- Adjusts grasp with ease to new tools and materials.
- Uses pincer grasp with thumb and fingers to manipulate small objects or handle tools, such as stringing small beads.
- Uses hand tools in a variety of ways, such as a rolling pin with clay or play dough, or a toy shovel with sand.

<tr>
<td>Physical Development and Health – 2-3 years</td>
</tr>
<tr>
<td>21) Insists on washing and drying his/her own hands.</td>
</tr>
<tr>
<td>29) Feeds himself/herself without help.</td>
</tr>
<tr>
<td>37) Begins to independently brush their teeth with supervision.</td>
</tr>
</tbody>
</table>

### INDICATORS: By 36 Months

- Shows increasing independence in self-care routines with guidance from adults.
- Puts on or takes off some articles of clothing, such as shoes, socks, coat, or hat.

| Physical Development and Health – 18-24 months |
| 2) Actively participates in everyday health routines (e.g., washing hands). |
| Physical Development and Health – 2-3 years |
| 3) Develops self-care skills, such as helping to dress him/herself. |
| 19) Unzips zippers. |
| 20) Helps adults with dressing her/him (e.g., giving a matching sock, holding out a shoe after socks are on.) |
| 21) Insists on washing and drying his/her own hands. |

### Goal: PMP 10. Child demonstrates effective and efficient use of large muscles to explore the environment.

<table>

| Accepts adult guidance, support, and protection when encountering unsafe situations. Learns some differences between safe and unsafe play behaviors, such as not to stand on chairs or tables, or not to put small objects in mouth. | Physical Development and Health – 18-24 months  
40) Looks at the adult giving directions and then follows the directions. -2-3 years. SR3. |

**INDICATORS: By 36 Months**

- Cooperates with adults when in unsafe situations, such as taking an adult’s hand to cross a street or being cautious around an unfamiliar dog.
- Shows some understanding of safe and unsafe behaviors, such as not touching a hot stove.

Physical Development and Health – 3-5 years  
35) Understands that parents and teachers are helpful resources.  
38) Knows to stay away from harmful objects (e.g., broken glass, holes, rusty iron).  
40) Identifies nonedible/poisonous substances, without assistance.  
41) Identifies potentially dangerous situations/activities, without assistance.

**Goal IT-PMP. Child demonstrates increasing interest in engaging in healthy eating habits and making nutritious food choices.**

### Birth to 9 Months

**Emerging**

**8 to 18 Months**

**Shows interest in new foods that are offered.**

Physical Development and Health – 18-24 months  
34) Takes age-appropriate amounts of food with encouragement from adults.  
33) Makes personal food choices from several healthy options.

**16 to 36 Months**

Shows willingness to try new nutritious foods when offered on multiple occasions. Sometimes makes nutritious choices about which foods to eat when offered several choices, with support from an adult.

Physical Development and Health – 18-24  
31) Consumes a variety of healthy foods from all food groups when offered by an adult.  
Physical Development and Health – 08-18  
38) Eats healthy snacks.

**INDICATORS: By 36 Months**

- Expresses preferences about foods, specifically likes or dislikes, sometimes based on whether the food is nutritious.  
- Sometimes makes nutritious choices with support from an adult.  
- Communicates to adults when hungry, thirsty, or has had enough to eat.

Cognitive Development and General Knowledge – 18-24 months  
4) States clear preferences regarding colors, foods, and clothes.  
Physical Development and Health – 18-24  
44) Uses vocalizations, gestures or words to indicate basic needs.
II. Galileo® G3 Assessment Scales Alignment with the Head Start Early Learning Outcomes Framework 3 through 5 Years

A. Domain: Approaches to Learning

Notes:
- Underlined capabilities are reflected in the School Readiness Scale.
- The term “emerging” is used when specific skills, behaviors, or concepts have not yet emerged or are not yet observable.
- NA indicates when a standard has no alignment to the G3 Scales.

<table>
<thead>
<tr>
<th>Sub-Domain: Emotional and Behavioral Self-Regulation</th>
<th>Galileo® G3 Assessment Scale Goal</th>
</tr>
</thead>
<tbody>
<tr>
<td>36 to 48 Months</td>
<td></td>
</tr>
<tr>
<td>Manages less intense emotions, such as mild frustration, independently. May require adult support to manage more intense emotions.</td>
<td>Social and Emotional Development 16) Seeks support from familiar adults to resolve conflicts with peers. 28) Comforts self by engaging in calming/soothing activities some of the time.</td>
</tr>
<tr>
<td>48 to 60 Months</td>
<td></td>
</tr>
<tr>
<td>Has an expanding range of strategies for managing emotions, both less intense emotions as well as those that cause greater distress. May still look to adults for support in managing the most intense emotions, but shows increasing skill in successfully using strategies suggested by adults.</td>
<td>Social Studies 6) Engages in problem-solving behavior with diminishing support from adults (e.g., negotiating roles in play). Social and Emotional Development 28) Comforts self by engaging in calming/soothing activities some of the time.</td>
</tr>
</tbody>
</table>

INDICATORS: By 60 Months
- Expresses emotions in ways that are appropriate to the situation.
- Looks for adult assistance when emotions are most intense.
- Uses a range of coping strategies to manage emotions with the support of an adult, such as using words or taking deep breaths.

Goal IT P-ATL 2. Child follows classroom rules and routines with increasing independence.

<table>
<thead>
<tr>
<th>36 to 48 Months</th>
<th>Social and Emotional Development</th>
</tr>
</thead>
<tbody>
<tr>
<td>Follows simple rules and routines with assistance from adults, such as hanging up their coat or sitting at the table when asked by an adult.</td>
<td>12) Follows established rules and routines in the classroom.</td>
</tr>
</tbody>
</table>
## APPROACHES TO LEARNING

### Sub-Domain: Emotional and Behavioral Self-Regulation

<table>
<thead>
<tr>
<th>48 to 60 Months</th>
<th>Social and Emotional Development</th>
</tr>
</thead>
<tbody>
<tr>
<td>Usually follows classroom rules and routines with occasional reminders from adults, such as following an end of lunch routine that includes putting away their plate, washing hands, and lining up at the door to go outside.</td>
<td>30) Carries out a classroom routine, without prompts (e.g., putting coat in cubby). -3-5 years. SR 69.</td>
</tr>
</tbody>
</table>

### INDICATORS: By 60 Months

- Demonstrates awareness of classroom rules when asked and is able to follow these rules most of the time.
- Follows most classroom routines, such as putting away backpack when entering the room or sitting on the rug after outside time.
- Responds to signals when transitioning from one activity to another.

<table>
<thead>
<tr>
<th>36 to 48 Months</th>
<th>Creative Arts</th>
</tr>
</thead>
<tbody>
<tr>
<td>Handles classroom materials, such as putting them where they belong, with adult support.</td>
<td>16) Takes care of art materials/supplies (e.g., washes brushes, covers paint).</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>48 to 60 Months</th>
<th>Social and Emotional Development</th>
</tr>
</thead>
<tbody>
<tr>
<td>Usually handles, takes care of, and manages classroom materials, such as using them in appropriate ways and not throwing them from the sensory table onto the floor.</td>
<td>15) Uses classroom materials safely and for their intended purpose.</td>
</tr>
</tbody>
</table>

### INDICATORS: By 60 Months

- Appropriately handles materials during activities.
- Cleans up and puts materials away appropriately, such as places blocks back on correct shelf or places markers in the correct bin.

### Goal: P-ATL 4. Child manages actions, words, and behavior with increasing independence.

<table>
<thead>
<tr>
<th>36 to 48 Months</th>
<th>Social and Emotional Development</th>
</tr>
</thead>
<tbody>
<tr>
<td>Manages own actions, words and behavior with frequent support from adults, such as reminders to use gentle touches and friendly words.</td>
<td>10) Begins using emotionally charged words (e.g., &quot;I'm mad&quot;) to get needs met, as opposed to simply acting out needs. 19) Expresses wants and needs in conflict situations.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>48 to 60 Months</th>
<th>Social Studies</th>
</tr>
</thead>
<tbody>
<tr>
<td>Manages own actions, words, and behavior with occasional support from adults.</td>
<td>6) Engages in problem-solving behavior with diminishing support from adults (e.g., negotiating roles in play). Social and Emotional Development</td>
</tr>
</tbody>
</table>
### APPROACHES TO LEARNING

#### Sub-Domain: Emotional and Behavioral Self-Regulation

<table>
<thead>
<tr>
<th>Galileo® G3 Assessment Scale Goal</th>
</tr>
</thead>
<tbody>
<tr>
<td>28) Comforts self by engaging in calming/soothing activities some of the time.</td>
</tr>
<tr>
<td>43) Chooses to express self to others safely/respectfully in difficult situations.</td>
</tr>
</tbody>
</table>

#### INDICATORS: By 60 Months

- Demonstrates control over actions and words in response to a challenging situation, such as wanting to use the same materials as another child, or frustration over not being able to climb to the top of a structure. May need support from adults.
- Manages behavior according to expectations, such as using quiet feet when asked or sitting on the rug during circle time.
- Waits for turn, such as waits in line to wash hands or waits for turn on swings.
- Refrains from aggressive behavior towards others.

#### Approaches to Learning

27) Says, signs, or gestures when it is her/his turn in a game or activity.

#### Social and Emotional Development

15) Persists with a difficult or non-preferred activity.
25) Uses passive strategies to manage escalating conflicts (e.g., avoids, disengages).

#### Social Studies

6) Engages in problem-solving behavior with diminishing support from adults (e.g., negotiating roles in play).
8) Demonstrates awareness of the outcomes of one's own choices.
### APPROACHES TO LEARNING

**Sub-Domain: Cognitive Self-Regulation (Executive Functioning)**

#### Galileo® G3 Assessment Scale Goal

**Goal:** P-ATL 5. Child demonstrates an increasing ability to control impulses.

<table>
<thead>
<tr>
<th>36 to 48 Months</th>
<th>Social and Emotional – 2-3 years</th>
</tr>
</thead>
<tbody>
<tr>
<td>Frequently engages in impulsive behaviors, but inhibits them when directly supported by an adult.</td>
<td>18) Begins to end tantrums with some redirection.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>48 to 60 Months</th>
<th>Approaches to Learning – 2-3 years</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sometimes controls impulses independently, while at other times needs support from an adult.</td>
<td>11) Insists on completing a task even when assistance is needed.</td>
</tr>
<tr>
<td></td>
<td>18) Begins to end tantrums with some redirection.</td>
</tr>
<tr>
<td></td>
<td>19) Engages in reassuring self-talk or changing goals when frustrated or frightened.</td>
</tr>
</tbody>
</table>

#### INDICATORS: By 60 Months

- Stops an engaging activity to transition to another less desirable activity with adult guidance and support.
- Delays having desires met, such as agreeing to wait turn to start an activity.
- Without adult reminders, waits to communicate information to a group.
- Refrains from responding impulsively, such as waiting to be called on during group discussion or requesting materials rather than grabbing them.

**Goal:** P-ATL 6. Child maintains focus and sustains attention with minimal adult support.

<table>
<thead>
<tr>
<th>36 to 48 Months</th>
<th>Approaches to Learning</th>
</tr>
</thead>
<tbody>
<tr>
<td>With adult support, focuses attention on tasks and experiences for short periods of time, despite interruptions or distractions.</td>
<td>12) Maintains interest in an activity for an appropriate period of time.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>48 to 60 Months</th>
<th>Approaches to Learning</th>
</tr>
</thead>
<tbody>
<tr>
<td>With increasing independence, focuses attention on tasks and experiences for longer periods of time, despite interruptions or distractions.</td>
<td>11) Maintains concentration in an activity despite distractions or interruptions.</td>
</tr>
</tbody>
</table>

#### INDICATORS: By 60 Months

- Maintains focus on activities for extended periods of time, such as 15 minutes or more.
- Engages in purposeful play for extended periods of time.
- Attends to adult during large and small group activities with minimal support.
<table>
<thead>
<tr>
<th>APPROACHES TO LEARNING</th>
<th>Sub-Domain: Cognitive Self-Regulation (Executive Functioning)</th>
<th>Galileo® G3 Assessment Scale Goal</th>
</tr>
</thead>
</table>

**Goal: P-ATL 7. Child persists in tasks.**

### 36 to 48 Months

- Persists on preferred tasks when presented with small challenges with or without adult support, such as continuing to try to build a tall tower with blocks, even when some pieces fall.

**Approaches to Learning**

- 15) Persists with a difficult or non-preferred activity.

### 48 to 60 Months

- Frequently persists on preferred tasks. Sometimes persists on less preferred activities with or without adult support, such as working to clean up an activity area.

**Approaches to Learning**

- 16) Checks to see if a simple task has been completed, without being asked.

**INDICATORS: By 60 Months**

- Completes tasks that are challenging or less preferred despite frustration, either by persisting independently or seeking help from an adult or other child.
- Returns with focus to an activity or project after having been away from it.

**Approaches to Learning**

- 18) Sets a goal prior to beginning of an activity or a project.
- 19) Says, signs, or gestures whether or not a simple task has been completed.

**Goal: P-ATL 8. Child holds information in mind and manipulates it to perform tasks.**

### 36 to 48 Months

- Holds small amounts of information in mind, such as two-step directions, to successfully complete simple tasks.

**Language**

- 3) Follows a small set of step-by-step directions, without prompts.

### 48 to 60 Months

- Holds an increasing amount of information in mind in order to successfully complete tasks.

**Language**

- 3) Follows a small set of step-by-step directions, without prompts.

**INDICATORS: By 60 Months**

- Accurately recounts recent experiences in the correct order and includes relevant details.
- Successfully follows detailed, multi-step directions, sometimes with reminders.
- Remembers actions to go with stories or songs shortly after being taught.

**Language**

- 3) Follows a small set of step-by-step directions, without prompts.

**Social Studies**

- 38) Shares episodes of personal history from birth to present, through personal memorabilia or connected to stories.
- 39) Arranges sequences of personal and shared events through pictures, growth charts, and other media.
### APPROACHES TO LEARNING

**Sub-Domain: Cognitive Self-Regulation**

(Executive Functioning)

<table>
<thead>
<tr>
<th>Galileo® G3 Assessment Scale Goal</th>
</tr>
</thead>
</table>

**Goal:** P- ATL 9. Child demonstrates flexibility in thinking and behavior.

#### 36 to 48 Months

- Demonstrates flexibility, or the ability to switch gears, in thinking and behavior when prompted by an adult, such as trying a new way to climb a structure when the first attempt does not work.

<table>
<thead>
<tr>
<th>Social and Emotional Development</th>
</tr>
</thead>
<tbody>
<tr>
<td>22) Shows the ability to compromise in conflict resolution. -3-5 years. SR 70.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Approaches to Learning</th>
</tr>
</thead>
<tbody>
<tr>
<td>9) Finds solutions to simple problems (e.g., riding toy is stuck on another toy so the child backs up and drives around the toy).</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Logic and Reasoning</th>
</tr>
</thead>
<tbody>
<tr>
<td>16) Seeks assistance from peers when attempting to solve a problem.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Physical Development and Health</th>
</tr>
</thead>
<tbody>
<tr>
<td>37) Follows outdoor and indoor play rules, without prompts.</td>
</tr>
</tbody>
</table>

#### 48 to 60 Months

- Demonstrates flexibility in thinking and behavior without prompting at times. Also responds consistently to adult suggestions to show flexibility in approaching tasks or solving problems, such as taking turns to share toys when many children want to use them.

<table>
<thead>
<tr>
<th>Social and Emotional Development</th>
</tr>
</thead>
<tbody>
<tr>
<td>22) Shows the ability to compromise in conflict resolution. -3-5 years. SR 70.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Approaches to Learning</th>
</tr>
</thead>
<tbody>
<tr>
<td>9) Finds solutions to simple problems (e.g., riding toy is stuck on another toy so the child backs up and drives around the toy).</td>
</tr>
<tr>
<td>24) Takes turns playing with a toy or object. -3-5 years. SR 63.</td>
</tr>
</tbody>
</table>

#### INDICATORS: By 60 Months

- Tries different strategies to complete work or solve problems including with other children.
- Applies different rules in contexts that require different behaviors, such as using indoor voices or feet instead of outdoor voices or feet.
- Transitions between activities without getting upset.
### APPROACHES TO LEARNING

**Sub-Domain: Initiative and Curiosity**

**Galileo® G3 Assessment Scale Goal**

**Goal: P-ATL 10.** Child demonstrates initiative and independence.

<table>
<thead>
<tr>
<th>36 to 48 Months</th>
<th>Approaches to Learning</th>
</tr>
</thead>
<tbody>
<tr>
<td>Regularly shows initiative, particularly in interactions with familiar adults. Works independently for brief periods of time without adult prompting.</td>
<td>4) Selects activities or objects from a choice of at least two in a daily routine.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>48 to 60 Months</th>
<th>Approaches to Learning</th>
</tr>
</thead>
<tbody>
<tr>
<td>Frequently shows initiative, particularly when engaged in preferred activities. Demonstrates a willingness and capability to work independently for increasing amounts of time.</td>
<td>2) Participates in an increasing variety of experiences independently.</td>
</tr>
</tbody>
</table>

**INDICATORS: By 60 Months**

- Engages in independent activities.
- Makes choices and communicates these to adults and other children.
- Independently identifies and seeks things to complete activities or tasks, such as gathering art supplies to make a mask or gathering cards to play a matching activity.
- Plans play scenarios, such as dramatic play or construction, by establishing roles for play, using appropriate materials, and generating appropriate scenarios to be enacted.

**Goal: P-ATL 11.** Child shows interest in and curiosity about the world around them.

<table>
<thead>
<tr>
<th>36 to 48 Months</th>
<th>Approaches to Learning</th>
</tr>
</thead>
<tbody>
<tr>
<td>Seeks out new information and explores new play and tasks with adult support.</td>
<td>1) Explores most areas of the classroom.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>48 to 60 Months</th>
<th>Approaches to Learning</th>
</tr>
</thead>
<tbody>
<tr>
<td>Seeks out new information and explores new play and tasks both independently and with adult support.</td>
<td>2) Participates in an increasing variety of experiences independently. 13) Completes a simple self-selected activity or task.</td>
</tr>
</tbody>
</table>

**INDICATORS: By 60 Months**

- Asks questions and seeks new information.
- Is willing to participate in new activities or experiences even if they are perceived as challenging.
- Demonstrates eagerness to learn about and discuss a range of topics, ideas, and activities.

**Approaches to Learning**

7) Asks questions to find out about topics presented in the classroom (e.g. who, what, where, why, or how).
<table>
<thead>
<tr>
<th>APPROACHES TO LEARNING</th>
<th>Galileo® G3 Assessment Scale Goal</th>
</tr>
</thead>
<tbody>
<tr>
<td>36 to 48 Months</td>
<td></td>

# B. Domain: Social and Emotional Development

### Notes:
- Underlined capabilities are reflected in the School Readiness Scale.
- The term “emerging” is used when specific skills, behaviors, or concepts have not yet emerged or are not yet observable.
- NA indicates when a standard has no alignment to the G3 Scales.

## Social and Emotional Development

### Sub-Domain: Relationships with Adults

#### Galileo® G3 Assessment Scale Goal

**Goal P-SE 1.** Child engages in and maintains positive relationships and interactions with adults.

**36 to 48 Months**

Engages in positive interactions with adults, such as by demonstrating affection or talking about ideas. Is able to separate from trusted adults when in familiar settings. Uses adults as a resource to solve problems.

**Social and Emotional Development**

29) Accepts arrival and departure transitions as routine parts of the day.
27) Insists on routines for transitions (e.g., when parents drop-off the child at the center).

**48 to 60 Months**

Clearly shows enjoyment in interactions with trusted adults while also demonstrating skill in separating from these adults with minimal distress when in a familiar setting. Child initiates interactions with adults and participates in longer and more reciprocal interactions with both trusted and new adults.

**Logic and Reasoning**

15) Seeks assistance from an adult when attempting to solve a problem.
16) Seeks support from familiar adults to resolve conflicts with peers.

**INDICATORS: By 60 Months**

- Interacts readily with trusted adults.
- Engages in some positive interactions with less familiar adults, such as parent volunteers.
- Shows affection and preference for adults who interact with them on a regular basis.
- Seeks help from adults when needed.

#### Goal P-SE 2. Child engages in prosocial and cooperative behavior with adults.

**36 to 48 Months**

Sometimes engages in prosocial behavior with adults, such as greeting the teacher or saying goodbye, and responds to adult requests and directions that may include assistance or prompting. Sometimes demonstrates uncooperative behavior with familiar adults, such as saying “No” to requests, but these moments are typically resolved with support from adults.

**Social and Emotional Development**

14) Comfortably accepts guidance and directions from a familiar adult.

**48 to 60 Months**

Often engages in prosocial behavior with adults and usually responds appropriately to adult requests and directions without significant assistance or prompting. Uncooperative behavior with familiar adults is rare and the child is able to resolve minor conflicts with adults with support, such as being given reminders to use a quiet voice or follow directions.

**Social and Emotional Development**

14) Comfortably accepts guidance and directions from a familiar adult.
### Social and Emotional Development

#### Sub-Domain: Relationships with Adults

**Galileo® G3 Assessment Scale Goal**

**INDICATORS: By 60 Months**

- Engages in prosocial behaviors with adults, such as using respectful language or greetings.
- Attends to an adult when asked.
- Follows adult guidelines and expectations for appropriate behavior.
- Asks or waits for adult permission before doing something when they are unsure.

**Social and Emotional Development**

12) Follows established rules and routines in the classroom, 3-5 years. SR68.
14) Comfortably accepts guidance and directions from a familiar adult.
**SOCIAL AND EMOTIONAL DEVELOPMENT**

Sub-Domain: Relationships with other Children

---

**Goal P-SE 3. Child engages in and maintains positive interactions and relationships with other children.**

### 36 to 48 Months

- Sometimes engages in and maintains interactions with other children without support from an adult, or demonstrates skills in doing this when prompted by an adult. May spontaneously engage in prosocial behaviors with other children, such as sharing and taking turns with materials and in conversations, or may engage in these with prompting from adults.

---

**Social and Emotional Development**

- 4) Demonstrates cooperative behaviors such as helping, turn-taking, sharing, comforting, and compromising.
- 31) Responds appropriately to greeting by familiar peers.
- 32) Initiates greeting of familiar peers.
- 36) Says, signs, or gestures the names of friends.
- 35) Plays without disrupting or destroying the work of others. 3-5 years. SR71.

### 48 to 60 Months

- Sustains interactions with other children more often and for increasing periods of time. Demonstrates prosocial behaviors with other children with and without prompting from adults. Likely to show at least some preference for playing with particular children.

---

**Social and Emotional Development**

- 33) Verbally or nonverbally invites a peer to play.
- 39) Sustains a cooperative participation with others.

**INDICATORS: By 60 Months**

- Engages in and maintains positive interactions with other children.
- Uses a variety of skills for entering social situations with other children, such as suggesting something to do together, joining an existing activity, or sharing a toy.
- Takes turns in conversations and interactions with other children.
- Develops friendships with one or two preferred other children.

---

**Social and Emotional Development**

- 33) Verbally or nonverbally invites a peer to play.
- 36) Says, signs, or gestures the names of friends.
- 38) Joins a cooperative play activity using appropriate verbal/nonverbal strategies. 3-5 years. SR73.
- 39) Sustains a cooperative participation with others.

---

**Goal P-SE 4. Child engages in cooperative play with other children.**

### 36 to 48 Months

- Often plays cooperatively with other children. For at least short periods during this play, works with other children to plan and enact this play in a coordinated way.

---

**Social and Emotional Development**

- 4) Demonstrates cooperative behaviors such as helping, turn-taking, sharing, comforting, and compromising.

### 48 to 60 Months

- Cooperatively plays with other children in an increasingly coordinated way. Works with other children to make plans for what and how they will play together. When given the opportunity, these coordinated play periods get longer.

---

**Social and Emotional Development**

- 33) Verbally or nonverbally invites a peer to play.
- 39) Sustains a cooperative participation with others.

| 35) Plays without disrupting or destroying the work of others. 3-5 years. SR71. |
| 37) Chooses to express self to others safely/respectfully in calm situations. 3-5 years. SR72. |
| 41) Recognizes the impact of his/her actions on others' feelings. |
| 43) Chooses to express self to others safely/respectfully in difficult situations. |
### Goal P-SE 6. Child expresses a broad range of emotions and recognizes these emotions in self and others.

#### 36 to 48 Months

- Expresses a broad range of emotions across contexts, such as during play and in interactions with adults. Notices when strong emotions are exhibited by others and begins to use words to describe some of these emotions, such as happy, sad, or mad.

- **Social and Emotional Development**
  - 34) Begins to recognize that others smile when they smile, and others look unhappy when they cry.

#### 48 to 60 Months

- Expresses a broad range of emotions and begins to notice more subtle or complex emotions in self and others, such as embarrassed or worried. Uses words to describe own feelings when prompted, and may at times use these words without prompting, such as saying “Don’t be mad” when engaged in play with other children.

- **Social and Emotional Development**
  - 10) Begins using emotionally charged words (e.g., "I'm mad") to get needs met, as opposed to simply acting out needs.
  - 11) Answers the question, “How do you feel?” with a feeling word (e.g., angry, happy, mad, sad, alone).

**INDICATORS: By 60 Months**

- Recognizes and labels basic emotions in books or photographs.
- Uses words to describe own feelings.
- Uses words to describe the feelings of adults or other children.

- **Social and Emotional Development**
  - 10) Begins using emotionally charged words (e.g., "I'm mad") to get needs met, as opposed to simply acting out needs.
  - 11) Answers the question, “How do you feel?” with a feeling word (e.g., angry, happy, mad, sad, alone).

### Goal P-SE 7. Child expresses care and concern toward others.

#### 36 to 48 Months

- Often pays attention when others are distressed, but attention and response to this distress may be brief. May seek out adult support to help another child who is distressed.

- **Social and Emotional Development**
  - 46) Expresses empathy or caring for others by consoling, comforting, or helping.

#### 48 to 60 Months

- Consistently pays attention when others are distressed and often responds with care, either by seeking out adult support or providing reassurance or support themselves.

- **Social and Emotional Development**
  - 46) Expresses empathy or caring for others by consoling, comforting, or helping.

**INDICATORS: By 60 Months**

- Makes empathetic statements to adults or other children.
- Offers support to adults or other children who are distressed.

- **Social and Emotional Development**
  - 41) Recognizes the impact of his/her actions on others’ feelings.
  - 46) Expresses empathy or caring for others by consoling, comforting, or helping.
### Social and Emotional Development

**Sub-Domain: Emotional Functioning**

<table>
<thead>
<tr>
<th>Galileo® G3 Assessment Scale Goal</th>
<th>Social and Emotional Development</th>
</tr>
</thead>
<tbody>
<tr>
<td>Goal P-SE 8. Child manages emotions with increasing independence.*</td>
<td></td>
</tr>
</tbody>
</table>

#### 36 to 48 Months

<table>
<thead>
<tr>
<th>MANAGES LESS INTENSE EMOTIONS, SUCH AS MILD FRUSTRATION, INDEPENDENTLY. MAY REQUIRE ADULT SUPPORT TO MANAGE MORE INTENSE EMOTIONS.</th>
</tr>
</thead>
</table>

#### 48 to 60 Months

<table>
<thead>
<tr>
<th>HAS AN EXPANDING RANGE OF STRATEGIES FOR MANAGING EMOTIONS, BOTH LESS INTENSE EMOTIONS AS WELL AS THOSE THAT CAUSE GREATER DISTRESS. MAY STILL LOOK TO ADULTS FOR SUPPORT IN MANAGING THE MOST INTENSE EMOTIONS, BUT SHOWS INCREASING SKILL IN SUCCESSFULLY USING STRATEGIES SUGGESTED BY ADULTS.</th>
</tr>
</thead>
</table>

#### Indicators: By 60 Months

- Expresses emotions in ways that are appropriate to the situation.
- Looks for adult assistance when emotions are most intense.
- Uses a range of coping strategies to manage emotions with the support of an adult, such as using words or taking deep breaths.

<table>
<thead>
<tr>
<th>Social and Emotional Development</th>
</tr>
</thead>
<tbody>
<tr>

</tbody>
</table>
### Social and Emotional Development

**Sub-Domain: Sense of Identity and Belonging**

#### Goal P-SE 9. Child recognizes self as a unique individual having own abilities, characteristics, emotions, and interests.

**36 to 48 Months**

| Describes own physical characteristics and behaviors and indicates likes and dislikes when asked. | Social and Emotional Development  
1) Knows his/her own first and last names.  
2) Knows his/her age.  
3) Knows his/her gender.  
5) Describes his/her physical attributes (what I look like). |

**48 to 60 Months**

| Describes a larger range of individual characteristics and interests and communicates how these are similar or different from those of other people. | Social and Emotional Development  
4) Refers to her/himself by positive characteristics (e.g., "smart" or "strong"). |

**INDICATORS: By 60 Months**

- Describes self-using several different characteristics.  
- Demonstrates knowledge of uniqueness of self, such as talents, interests, preferences, or culture.

#### Goal P-SE 10. Child expresses confidence in own skills and positive feelings about self.

**36 to 48 Months**

| Expresses enjoyment in accomplishing daily routines and new skills and may draw adult attention to these accomplishments. May share own ideas or express positive feelings about self, particularly when prompted by an adult. | Social and Emotional Development  
8) Talks positively about a recent accomplishment. |

**48 to 60 Months**

| Enjoys accomplishing a greater number of tasks and sharing these accomplishments with other children and adults. Makes increasing number of contributions to group discussion and may share ideas with or without adult prompting. | Social and Emotional Development  
8) Talks positively about a recent accomplishment. |

**INDICATORS: By 60 Months**

- Shows satisfaction or seeks acknowledgment when completing a task or solving a problem.  
- Expresses own ideas or beliefs in group contexts or in interactions with others.  
- Uses positive words to describe self, such as kind or hard-worker.

| Social and Emotional Development  
4) Refers to her/himself by positive characteristics (e.g., "smart" or "strong").  
5) Describes his/her physical attributes (what I look like).  
7) Says positive things about his/her appearance.  
8) Talks positively about a recent accomplishment. |
## SOCIAL AND EMOTIONAL DEVELOPMENT
### Sub-Domain: Sense of Identity and Belonging

<table>
<thead>
<tr>
<th>Galileo® G3 Assessment Scale Goal</th>
</tr>
</thead>
<tbody>
<tr>
<td>Goal P-SE 11. Child has sense of belonging to family, community, and other groups.</td>
</tr>
</tbody>
</table>

### 36 to 48 Months

- Communicates feeling a sense of belonging to family and an emerging sense of connections to other communities through words or other forms of expression, such as drawing a picture of their family or sharing a special object related to their cultural heritage.

### Social Studies

- Shares personal family stories and traditions.
- Identifies family members and relationship to each.
- Describes or illustrates the roles/responsibilities of community workers.

### 48 to 60 Months

- Has a sense of belonging to family and community and communicates details about these connections, such as sharing a story about a family gathering, both spontaneously and when prompted by an adult or other child.

### Social Studies

- Tells each family member's duties or responsibilities in the household (e.g., who cooks, who does laundry).
- Describes or illustrates the roles/responsibilities of community workers. 3-5 years. SR27.

### INDICATORS: By 60 Months

- Identifies self as being a part of different groups, such as family, community, culture, faith, or preschool.
- Relates personal stories about being a part of different groups.
- Identifies similarities and differences about self across familiar environments and settings.

### Social Studies

- Shares episodes of personal history from birth to present, through personal memorabilia or connected to stories.
- Arranges sequences of personal and shared events through pictures, growth charts, and other media.
- Shows recognition of and respect for differences between genders.
- Shows respect for those with special needs.
- Shows respect for members of different cultures.
- Tells one way a classmate is like him/herself (e.g., we both have brown eyes).
- Shows respect for varying family structures.
### C.1. Domain: Language and Communication

**Notes:**
- Underlined capabilities are reflected in the School Readiness Scale.
- The term “emerging” is used when specific skills, behaviors, or concepts have not yet emerged or are not yet observable.
- NA indicates when a standard has no alignment to the G3 Scales.

#### LANGUAGE AND COMMUNICATION

**Sub-Domain: Attending and Understanding**

<table>
<thead>
<tr>
<th>Galileo® G3 Assessment Scale Goal</th>
</tr>
</thead>
</table>

**Goal: P-LC 1. Child attends to communication and language from others.**

### 36 to 48 Months

- Shows acknowledgment of comments or questions and is able to attend to conversations, either spoken or signed.

<table>
<thead>
<tr>
<th>Language</th>
</tr>
</thead>
<tbody>
<tr>
<td>1) Listens attentively to a conversation, story, poem, or song.</td>
</tr>
<tr>
<td>2) Follows a simple one-step direction.</td>
</tr>
</tbody>
</table>

### 48 to 60 Months

- Shows acknowledgment of complex comments or questions. Is able to attend to longer, multi-turn conversations, either spoken or signed.

<table>
<thead>
<tr>
<th>Language</th>
</tr>
</thead>
<tbody>
<tr>
<td>3) Follows a small set of step-by-step directions, without prompts.</td>
</tr>
</tbody>
</table>

**INDICATORS: By 60 Months**

- Uses verbal and non-verbal signals appropriately to acknowledge the comments or questions of others.
- Shows ongoing connection to a conversation, group discussion, or presentation.

<table>
<thead>
<tr>
<th>Language</th>
</tr>
</thead>
<tbody>
<tr>
<td>4) Asks questions and/or makes comments about a story, poem, or song. -3-5 years. SR 32.</td>
</tr>
<tr>
<td>19) Responds to comments or questions from others during a conversation.</td>
</tr>
</tbody>
</table>

**Goal P-LC 2. Child understands and responds to increasingly complex communication and language from others.**

### 36 to 48 Months

- Understands and responds (verbally and non-verbally) to increasingly longer sentences, simple questions, and simple stories.

<table>
<thead>
<tr>
<th>Language</th>
</tr>
</thead>
<tbody>
<tr>
<td>1) Listens attentively to a conversation, story, poem, or song.</td>
</tr>
<tr>
<td>2) Follows a simple one-step direction.</td>
</tr>
</tbody>
</table>

### 48 to 60 Months

- Shows an understanding of complex statements, questions, and stories containing multiple phrases and ideas, and responds appropriately.

<table>
<thead>
<tr>
<th>Language</th>
</tr>
</thead>
<tbody>
<tr>
<td>3) Follows a small set of step-by-step directions, without prompts.</td>
</tr>
<tr>
<td>4) Asks questions and/or makes comments about a story, poem, or song. -3-5 years. SR 32.</td>
</tr>
</tbody>
</table>
## LANGUAGE AND COMMUNICATION

**Sub-Domain: Attending and Understanding**

<table>
<thead>
<tr>
<th>INDICATORS: By 60 Months</th>
<th>Galileo G3 Assessment Scale Goal</th>
</tr>
</thead>
<tbody>
<tr>
<td>- Shows an ability to recall (in order) multiple step directions.</td>
<td><strong>Language</strong></td>
</tr>
<tr>
<td>- Demonstrates understanding of a variety of question types, such as “Yes/No?” or “Who/What/When/Where?” or “How/Why?”</td>
<td>3) Follows a small set of step-by-step directions, without prompts.</td>
</tr>
<tr>
<td>- Shows understanding of a variety of sentence types, such as multi-clause, cause-effect, sequential order, or if-then.</td>
<td>5) Retells a familiar story, poem or song in his/her own words.</td>
</tr>
<tr>
<td>- Shows an understanding of talk related to the past or future.</td>
<td>13) Understands past and future tense (e.g., went, will).</td>
</tr>
</tbody>
</table>

**Social Studies**

35) Begins to use or respond to the language of time such as related to daily routines or schedules. -3-5 Years. SR 35.
### LANGUAGE AND COMMUNICATION

**Sub-Domain: Communication and Speaking**

<table>
<thead>
<tr>
<th>Goal: P-LC 3. Child maintains focus and sustains attention with support</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>36 to 48 Months</strong></td>
</tr>
<tr>
<td>Uses language, spoken or sign, for different purposes and is sometimes able to provide sufficient detail to get needs met from a variety of adults.</td>
</tr>
<tr>
<td>15) Uses appropriate words or gestures to share information or experiences.</td>
</tr>
<tr>
<td><strong>48 to 60 Months</strong></td>
</tr>
<tr>
<td>Uses language, spoken or sign, for a variety of purposes and can typically provide sufficient detail in order to get needs met from a variety of adults.</td>
</tr>
<tr>
<td>17) Uses appropriate words or gestures to relate feelings, needs, or opinions.</td>
</tr>
</tbody>
</table>

**INDICATORS: By 60 Months**

- Usually provides sufficient detail in order to get needs met, such as explaining a point of difficulty in a task or sharing a request from home with the teacher.
- Uses language, spoken or sign, to clarify a word or statement when misunderstood.
- Children who are DLLs may switch between their languages.

<table>
<thead>
<tr>
<th>Goal P-LC 4. Child understands, follows, and uses appropriate social and conversational rules.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>36 to 48 Months</strong></td>
</tr>
<tr>
<td>Engages in conversations with adults, other children, or within the group setting lasting 2–3 conversational turns, and, with support, will sometimes use appropriate tone and volume for different situations.</td>
</tr>
<tr>
<td>18) Takes turns being a speaker.</td>
</tr>
<tr>
<td><strong>48 to 60 Months</strong></td>
</tr>
<tr>
<td>Maintains multi-turn conversations with adults or other children by being responsive to the conversational partner in a variety of ways, such as by asking a question. With increasing independence, varies tone and volume of expression to match the social situation.</td>
</tr>
<tr>
<td>20) Adjusts conversation to changes in topic.</td>
</tr>
</tbody>
</table>

**INDICATORS: By 60 Months**

- Maintains multi-turn conversations with adults, other children, and within larger groups by responding in increasingly sophisticated ways, such as asking related questions or expressing agreement.
- With increasing independence, matches the tone and volume of expression to the content and social situation, such as by using a whisper to tell a secret.
## LANGUAGE AND COMMUNICATION
Sub-Domain: Communication and Speaking

<table>
<thead>
<tr>
<th>Galileo® G3 Assessment Scale Goal</th>
</tr>
</thead>
<tbody>
<tr>
<td>Goal P-LC 5. Child expresses himself in increasingly long, detailed, and sophisticated ways.</td>
</tr>
</tbody>
</table>

### 36 to 48 Months

Communicates clearly enough to be understood by familiar adults, but may make some pronunciation and grammatical errors. Typically uses 3–5 word phrases/sentences when communicating. With some prompting, can offer multiple (2–3) pieces of information on a single topic.

<table>
<thead>
<tr>
<th>Language</th>
</tr>
</thead>
<tbody>
<tr>
<td>14) Repeats or tries different words/sentences to get another child or adult to respond.</td>
</tr>
<tr>
<td>22) Uses basic rules of grammar in speech (e.g., personal pronouns, plurals, position words).</td>
</tr>
</tbody>
</table>

### 48 to 60 Months

Communicates clearly enough to be understood by familiar and unfamiliar adults, but may make some pronunciation errors and some isolated grammatical errors. Uses longer sentences, as well as sentences that are slightly more complex, such as "I need a pencil because this one broke." Can offer multiple pieces of information on a topic with increasing independence and answer simple questions.

<table>
<thead>
<tr>
<th>Language</th>
</tr>
</thead>
<tbody>
<tr>
<td>23) Combines words to create meaningful short sentences.</td>
</tr>
<tr>
<td>25) Uses descriptive words with objects (e.g. pretty flowers).</td>
</tr>
<tr>
<td>27) Uses pronouns to refer to people and things (e.g., she, he, it).</td>
</tr>
</tbody>
</table>

### INDICATORS: By 60 Months

- Communicates clearly enough to be understood by adults across a range of situations. Pronunciation errors and grammatical errors are isolated and infrequent. Shows proficiency with prepositions, regular/irregular past tense, possessives, and noun-verb agreement.
- Typically, uses complete sentences of more than 5 words with complex structures, such as sentences involving sequence and causal relations.
- Can produce and organize multiple sentences on a topic, such as giving directions or telling a story, including information about the past or present or things not physically present, and answer a variety of question types.

<table>
<thead>
<tr>
<th>Language</th>
</tr>
</thead>
<tbody>
<tr>
<td>28) Uses past and future tenses (e.g., went, will).</td>
</tr>
<tr>
<td>29) Uses possessive endings (e.g., Jose’s, Emma’s).</td>
</tr>
<tr>
<td>30) Uses compound sentences (e.g., sentences joined by and, but, or).</td>
</tr>
<tr>
<td>33) Makes up a story from beginning, to middle, to end.</td>
</tr>
</tbody>
</table>
### LANGUAGE AND COMMUNICATION

**Sub-Domain: Vocabulary**

**Galileo G3 Assessment Scale Goal**

Goal P-LC 6. Child understands and uses a wide variety of words for a variety of purposes.

<table>
<thead>
<tr>
<th>36 to 48 Months</th>
<th>Language</th>
</tr>
</thead>
<tbody>
<tr>
<td>Shows a rapid increase in acquisition of new vocabulary words that describe actions, emotions, things, or ideas that are meaningful within the everyday environment. Uses new vocabulary words to describe relations among things or ideas. Shows repetition of new words offered by adults.</td>
<td>22) Uses basic rules of grammar in speech (e.g., personal pronouns, plurals, position words). 25) Uses descriptive words with objects (e.g. pretty flowers). 27) Uses pronouns to refer to people and things (e.g., she, he, it).</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>48 to 60 Months</th>
<th>Language</th>
</tr>
</thead>
<tbody>
<tr>
<td>Shows a steady increase in vocabulary through the acquisition of words with increasing specificity and variety. Shows repetition of new words offered by adults and may ask about the meaning of unfamiliar words.</td>
<td>26) Takes apart and puts together compound words. 28) Uses past and future tenses (e.g., went, will). 29) Uses possessive endings (e.g., Jose’s, Emma’s).</td>
</tr>
</tbody>
</table>

**INDICATORS: By 60 Months**

- Demonstrates the use of multiple (2–3) new words or signs a day during play and other activities.
- Shows recognition of and/or familiarity with key domain-specific words heard during reading or discussions.
- With multiple exposures, uses new domain-specific vocabulary during activities, such as using the word “cocoon” when learning about the life-cycle of caterpillars, or “cylinder” when learning about 3-D shapes.
- With support, forms guesses about the meaning of new words from context clues.

**Goal P-LC 7. Child shows understanding of word categories and relationships among words.**

<table>
<thead>
<tr>
<th>36 to 48 Months</th>
<th>Logic and Reasoning</th>
</tr>
</thead>
<tbody>
<tr>
<td>Typically uses known words in the correct context and, with support, shows an emerging understanding of how words are related to broader categories, such as sorting things by color.</td>
<td>25) Provides rationale for sorting objects into specific groups (e.g., all flat). -3-5 Years, SR 11.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>48 to 60 Months</th>
<th>Language</th>
</tr>
</thead>
<tbody>
<tr>
<td>Demonstrates an increasingly sophisticated understanding of words and word categories with support, such as listing multiple examples of a familiar category or identifying a synonym or antonym.</td>
<td>12) Understands words that describe the qualities of objects (e.g., color, soft, cold). 13) Understands past and future tense (e.g., went, will).</td>
</tr>
</tbody>
</table>
### LANGUAGE AND COMMUNICATION
#### Sub-Domain: Vocabulary

<table>
<thead>
<tr>
<th>INDICATORS: By 60 Months</th>
<th>Logic and Reasoning</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Categorizes words or objects, such as sorting a hard hat, machines, and tools into the construction group, or giving many examples of farm animals.</td>
<td>24) Describes the similarities/differences between two events (e.g., day/night).</td>
</tr>
<tr>
<td>• Discusses new words in relation to known words and word categories, such as “It fell to the bottom when it sank” or “When you hop it’s like jumping on one leg” or “The bear and fox are both wild animals.”</td>
<td>25) Provides rationale for sorting objects into specific groups (e.g., all flat). -3-5 Years, SR 11.</td>
</tr>
<tr>
<td>• Identifies shared characteristics among people, places, things, or actions, such as identifying that both cats and dogs are furry and have four legs.</td>
<td>26) Associates events/experiences with their intent(s) (e.g., school: learning).</td>
</tr>
<tr>
<td>• Identifies key common antonyms, such as black/white or up/down. Identifies 1–2 synonyms for very familiar words, such as glad or happy.</td>
<td></td>
</tr>
<tr>
<td>• Shows an ability to distinguish similar words, such as “I don’t like it, I love it!” or “It’s more than tall, it’s gigantic” or “It’s so cold, it’s frosty.”</td>
<td></td>
</tr>
</tbody>
</table>
## C.2. Domain: Literacy

### Notes:
- Underlined capabilities are reflected in the School Readiness Scale.
- The term "emerging" is used when specific skills, behaviors, or concepts have not yet emerged or are not yet observable.

<td><strong>Goal P-LIT 1. Child demonstrates awareness that spoken language is composed of smaller segments of sound.</strong></td>
</tr>
</tbody>
</table>
| **36 to 48 Months** | **Literacy**
1) Recognizes matching and dissimilar sounds of consonants and vowels, 3-5 years. SR 37.
2) Distinguishes between some beginning consonant sounds in spoken language. |
| Shows rote imitation and enjoyment of rhyme and alliteration. With support, distinguishes when two words rhyme and when two words begin with the same sound. | **Literacy**
3) Says both syllables of a two-syllable word, with distinct separation, 3-5 years. SR 38.
4) Recognizes rhymes in poems, readings, or conversation, most of the time, 3-5 years. SR 39.
5) Distinguishes between some ending consonant sounds in spoken language. |
| **48 to 60 Months** | **Literacy**
| Demonstrates rhyme recognition, such as identifying which words rhyme from a group of three: hat, cat, log. Recognizes phonemic changes in words, such as noticing the problem with "Old McDonald had a charm." Is able to count syllables and understand sounds in spoken words. | **Literacy**
| Literary | 2) Distinguishes between some beginning consonant sounds in spoken language.
5) Distinguishes between some ending consonant sounds in spoken language.
6) Creates rhyming words in play activities.
7) Distinguishes between some vowel sounds in spoken language. |
| **INDICATORS: By 60 Months** | **Literacy**
| • Provides one or more words that rhyme with a single given target, such as "What rhymes with log?"
• Produces the beginning sound in a spoken word, such as "Dog begins with /d/.
• Provides a word that fits with a group of words sharing an initial sound, with adult support, such as “Sock, Sara, and song all start with the /s/ sound. What else starts with the /s/ sound?” | **Literacy**
| 2) Distinguishes between some beginning consonant sounds in spoken language.
5) Distinguishes between some ending consonant sounds in spoken language. |

### LITERACY

#### Sub-Domain: Print and Alphabet Knowledge

<table>
<thead>
<tr>
<th>Goal P-LIT 2. Child demonstrates an understanding of how print is used (functions of print) and the rules that govern how print works (conventions of print).</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>36 to 48 Months</strong></td>
</tr>
<tr>
<td>Distinguishes print from pictures and shows an understanding that print is something meaningful, such as asking an adult “What does this say?” or “Read this.”</td>
</tr>
<tr>
<td>23) Knows that print conveys information to the reader (e.g., a message, facts, how to do something). 3-5 years. SR47.</td>
</tr>
<tr>
<td><strong>48 to 60 Months</strong></td>
</tr>
<tr>
<td>Begins to demonstrate an understanding of the connection between speech and print. Shows a growing awareness that print is a system that has rules and conventions, such as holding a book correctly or following a book left to right.</td>
</tr>
<tr>
<td>17) Views reading materials one page at a time (front to back), most of the time.</td>
</tr>
<tr>
<td>22) Recognizes that a spoken word/speech can be written and read. 3-5 years. SR46.</td>
</tr>
<tr>
<td>25) Recognizes that sentences are read from left to right. 3-5 years. SR49.</td>
</tr>
<tr>
<td>- Understands that print is organized differently for different purposes, such as a note, list, or storybook.</td>
</tr>
<tr>
<td>- Understands that written words are made up of a group of individual letters.</td>
</tr>
<tr>
<td>- Begins to point to single-syllable words while reading simple, memorized texts.</td>
</tr>
<tr>
<td>- Identifies book parts and features, such as the front, back, title, and author.</td>
</tr>
<tr>
<td><strong>Goal P-LIT 3. Child identifies letters of the alphabet and produces correct sounds associated with letters.</strong></td>
</tr>
<tr>

<td>some spoken dialogue.</td>
</tr>
</tbody>
</table>

### INDICATORS: By 60 Months

- Answers questions about details of a story with increasingly specific information, such as when asked “Who was Mary?” responds “She was the girl who was riding the horse and then got hurt.”
- Answers increasingly complex inferential questions, such as requiring children to make predictions based on multiple pieces of information from the story; infer characters feelings or intentions; or provide evaluations or judgments that are grounded in the text.
- Provides a summary of a story, highlighting a number of the key ideas in the story and how they relate.

## LITERACY

**Sub-Domain: Writing**

### Galileo® G3 Assessment Scale Goal

**Goal P-LIT 6.** Child writes for a variety of purposes using increasingly sophisticated marks.

### 36 to 48 Months

<table>
<thead>
<tr>
<th><strong>Engages in writing activities that consist largely of drawing and scribbling. Begins to convey meaning. With modeling and support, writes some letter-like forms and letters.</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Literacy</strong></td>
</tr>
<tr>
<td>34) Uses scribble on paper to communicate a message. 3-5 years. SR52.</td>
</tr>
<tr>
<td>39) Uses a variety of writing tools and materials to communicate with others.</td>
</tr>
<tr>
<td>37) Draws horizontal and vertical lines.</td>
</tr>
</tbody>
</table>

### 48 to 60 Months

<table>
<thead>
<tr>
<th><strong>Progressively uses drawing, scribbling, letter-like forms, and letters to intentionally convey meaning. With support, child may use invented spelling consisting of salient or beginning sounds, such as L for elevator or B for bug.</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Literacy</strong></td>
</tr>
<tr>
<td>35) Communicates by scribbling and with some letter-like shapes. 3-5 years. SR53.</td>
</tr>
<tr>
<td>36) Draws figures and shapes to convey meanings.</td>
</tr>
<tr>
<td>41) Writes some letters.</td>
</tr>
</tbody>
</table>

### INDICATORS: By 60 Months

- Creates a variety of written products that may or may not phonetically relate to intended messages.
- Shows an interest in copying simple words posted in the classroom.
- Attempts to independently write some words using invented spelling, such as K for kite.
- Writes first name correctly or close to correctly.
- Writes (draws, illustrates) for a variety of purposes and demonstrates evidence of many aspects of print conventions, such as creating a book that moves left to right.

| **Literacy** |
| 40) Copies her/his name from a sample. 3-5 years. SR54. |
| 42) Writes using inventive spelling. |
| 43) Write her/his name, without assistance. 3-5 years. SR55. |
### D.1. Domain: Mathematics

**Notes:**
- Underlined capabilities are reflected in the School Readiness Scale.
- The term “emerging” is used when specific skills, behaviors, or concepts have not yet emerged or are not yet observable.
- NA indicates when a standard has no alignment to the G3 Scales.

<table>
<thead>
<tr>

<tr>
<td>5) Counts to find out how many are in a group greater than 10.</td>
<td><strong>SR3.</strong></td>
</tr>
</tbody>
</table>

| **Goal P-MATH 2. Child recognizes the number of objects in a small set.** |
| **36 to 48 Months** | |
| Develops an understanding of what whole numbers mean. Begins to recognize the number of small objects in groups without counting (referred to as “subitizing”). | |
| 7) Writes numerals to indicate 6 or less objects. 3-5 years. SR4. | **SR4.** |
| 8) Writes numerals to indicate between 7 and 10 objects. 3-5 years. SR5. | **SR5.** |
| 9) Writes numerals to indicate between 11 and 20 objects. 3-5 years. SR6. | **SR6.** |
| 10) Answers questions about two sets of items using comparison terminology (e.g., more, less, greater than, fewer than, equal to). | **SR9.** |
| 11) Separates a group into two sets and identifies the number of items in both sets. 3-5 years. SR7. | **SR7.** |
## MATHEMATICS
### Sub-Domain: Counting and Cardinality

### Galileo® G3 Assessment Scale Goal

| 48 to 60 Months | 7) Writes numerals to indicate 6 or less objects, 3-5 years. SR4.  
|                 | 8) Writes numerals to indicate between 7 and 10 objects, 3-5 years. SR5.  
|                 | 9) Writes numerals to indicate between 11 and 20 objects, 3-5 years. SR6.  
|                 | 10) Answers questions about two sets of items using comparison terminology (e.g., more, less, greater than, fewer than, equal to).  
|                 | 11) Separates a group into two sets and identifies the number of items in both sets, 3-5 years. SR7.  |

### INDICATORS: By 60 Months

- Instantly recognizes, without counting, small quantities of up to 5 objects and says or signs the number.  
- 7) Writes numerals to indicate 6 or less objects, 3-5 years. SR4.  
- 8) Writes numerals to indicate between 7 and 10 objects, 3-5 years. SR5.  
- 9) Writes numerals to indicate between 11 and 20 objects, 3-5 years. SR6.  
- 10) Answers questions about two sets of items using comparison terminology (e.g., more, less, greater than, fewer than, equal to).  
- 11) Separates a group into two sets and identifies the number of items in both sets, 3-5 years. SR7.  

### Goal P-MATH 3. Child understands the relationship between numbers and quantities.

| 36 to 48 Months | Early Math  
|                 | 1) Uses one-to-one correspondence when counting objects.  
|                 | 2) Counts to find how many are in a group up to 5, 3-5 years. SR1.  

| 48 to 60 Months | Early Math  
|                 | 3) Counts forward from a number > 1 to find how many are in a group, 3-5 years. SR2.  
|                 | 4) Counts to find how many are in a group up to 10, 3-5 years. SR3.  
|                 | 5) Counts to find out how many are in a group greater than 10.

## MATHEMATICS

### Sub-Domain: Counting and Cardinality

<table>
<thead>
<tr>
<th>Galileo® G3 Assessment Scale Goal</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>INDICATORS: By 60 Months</strong></td>
</tr>
<tr>
<td>- When counting objects, says or signs the number names in order, pairing one number word that corresponds with one object, up to at least 10.</td>
</tr>
<tr>
<td>- Counts and answers “How many?” questions for approximately 10 objects.</td>
</tr>
<tr>
<td>- Accurately counts as many as 5 objects in a scattered configuration.</td>
</tr>
<tr>
<td>- Understands that each successive number name refers to a quantity that is one larger.</td>
</tr>
<tr>
<td>- Understands that the last number said represents the number of objects in a set.</td>
</tr>
</tbody>
</table>

**Early Math**

3) Counts forward from a number > 1 to find how many are in a group, 3-5 years. SR2.

4) Counts to find how many are in a group up to 10, 3-5 years. SR3.

5) Counts to find out how many are in a group greater than 10.

### Goal P-MATH 4. Child compares numbers.

#### 36 to 48 Months

Begins to accurately count and compare objects that are about the same size and are in small groups with adult assistance, such as counts a pile of 2 blocks and a pile of 4, and determines whether the piles have the same or different numbers of blocks. Identifies the first and second objects in a sequence.

**Early Math**

11) Separates a group into two sets and identifies the number of items in both sets, 3-5 years. SR7.

### 48 to 60 Months

Counts to determine and compare number amounts even when the larger groups’ objects are smaller in size, such as buttons, compared with the smaller groups objects that are larger in size, such as markers. Child uses numbers related to order or position.

**Early Math**

11) Separates a group into two sets and identifies the number of items in both sets, 3-5 years. SR7.

30) Arranges objects in order by size.

#### INDICATORS: By 60 Months

- Identifies whether the number of objects in one group is more than, less than, or the same as objects in another group for up to at least five objects.
- Child identifies and uses numbers related to order or position from first to tenth.

**Early Math**

10) Answers questions about two sets of items using comparison terminology (e.g., more, less, greater than, fewer than, equal to).

### Goal P-MATH 5. Child associates a quantity with written numerals up to 5 and begins to write numbers.

#### 36 to 48 Months

Begins to understand that a written numeral represents a quantity and may draw objects or use informal symbols to represent numbers.

**Early Math**

12) Identifies numerals 0 to 5.

**Literacy**

36) Draws figures and shapes to convey meanings.
## MATHEMATICS
### Sub-Domain: Counting and Cardinality

<table>
<thead>
<tr>
<th>Galileo® G3 Assessment Scale Goal</th>
<th>48 to 60 Months</th>
</tr>
</thead>
</table>
| **Understands that written numbers represent quantities of objects, and uses information symbols, such as a tally, to represent numerals. With adult support, writes some numerals up to 10.** | Early Math  
7) Writes numerals to indicate 6 or less objects. 3-5 years. SR7.  
13) Identifies numerals 6 to 10.  
14) Identifies numerals 11 to 20. |

**INDICATORS: By 60 Months**

- Associates a number of objects with a written numeral 0–5.  
- Recognizes and, with support, writes some numerals up to 10.  

Early Math  
7) Writes numerals to indicate 6 or less objects. 3-5 years. SR4.  
8) Writes numerals to indicate between 7 and 10 objects. 3-5 years. SR5.  
9) Writes numerals to indicate between 11 and 20 objects. 3-5 years. SR6.  
13) Identifies numerals 6 to 10.  
14) Identifies numerals 11 to 20.
### MATHEMATICS

**Sub-Domain: Operations and Algebraic Thinking**

**Goal P-MATH 6. Child understands addition as adding to and understands subtraction as taking away from.**

<table>
<thead>
<tr>
<th>36 to 48 Months</th>
<th>Early Math</th>
</tr>
</thead>
</table>
| Begins to add and subtract very small collections of objects with adult support. For example, the teacher says, “You have 3 grapes and get 1 more. How many in all?” Child counts out 3, then counts out 1 more, then counts all 4: “1, 2, 3, 4. I have 4!” | 15) Adds one to a small group, when asked.  
16) Indicates that a small group has more after some have been added.  
18) Indicates that a small group has less after taking some away.  
19) Indicates that one was taken away from a small group. |

<table>
<thead>
<tr>
<th>48 to 60 Months</th>
<th>Early Math</th>
</tr>
</thead>
</table>
| Solves addition problems by joining objects together and subtraction problems by separating, using manipulatives and fingers to represent objects. | 17) Adds two small groups by combining the groups and counting all the objects, 3-5 years; SR8.  
20) Indicates how many are left after taking one from a small group. |

**INDICATORS: By 60 Months**

- Represents addition and subtraction in different ways, such as with fingers, objects, and drawings.
- Solves addition and subtraction word problems. Adds and subtracts up to 5 to or from a given number.
- With adult assistance, begins to use counting on from the larger number for addition. For example, when adding a group of 3 and a group of 2, counts “one, two, three…” and then counts on “four, five!” (keeping track with fingers). When counting back for subtraction such as taking away 3 from 5, counts “five, four, three…two!” (keeping track with fingers).

**Goal P-MATH 7. Child understands simple patterns.**

<table>
<thead>
<tr>
<th>36 to 48 Months</th>
<th>Early Math</th>
</tr>
</thead>
</table>
| Recognizes a simple pattern, and with adult assistance, fills in the missing element of a pattern, such as boy, girl, boy, girl, ____, girl. Duplicates and extends ABABAB patterns. | 18) Uses concrete materials to solve a problem (e.g., blocks to count).  
21) Acts out a simple word problem using objects (e.g., shows 3 toy lizards then takes 1 toy lizard away).  
22) Draws a picture of a simple word problem (e.g., draws three dogs and then draws three more). |

**Logic and Reasoning**

- 38) Repeats alternating movement patterns (e.g., up/up/down, up/up/down).  
- 39) Repeats an alternating visual pattern (e.g., red/green/red/green).  
- 40) Repeats an alternating auditory pattern (e.g., loud/soft claps).  
- 41) Extends a number series (e.g., 1,2,3 blocks to 4 blocks).
### MATHEMATICS

#### Sub-Domain: Operations and Algebraic Thinking

<table>
<thead>
<tr>
<th>Galileo® G3 Assessment Scale Goal</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>48 to 60 Months</strong></td>
</tr>
</tbody>
</table>

- Creates, identifies, extends, and duplicates simple repeating patterns in different forms, such as with objects, numbers, sounds, and movements.

- **Early Math**
  - 42) Creates an alternating visual pattern using art or play materials.
  - **Logic and Reasoning**
    - 35) Creates a duplicate AB pattern when shown an AB pattern (e.g., green, red, green, red).
    - 36) Creates an original AB pattern when shown an AB pattern (e.g., circle, square, circle, square).

#### INDICATORS: By 60 Months

- Fills in missing elements of simple patterns.
- Duplicates simple patterns in a different location than demonstrated, such as making the same alternating color pattern with blocks at a table that was demonstrated on the rug, and extends patterns, such as making an eight block tower of the same pattern that was demonstrated with four blocks.
- Identifies the core unit of sequentially repeating patterns, such as color in a sequence of alternating red and blue blocks.

- **Early Math**
  - 42) Creates an alternating visual pattern using art or play materials.
  - 43) Repeats a pattern alternating numbers of objects (e.g., 1 cup/2 spoons).
- **Logic and Reasoning**
  - 35) Creates a duplicate AB pattern when shown an AB pattern (e.g., green, red, green, red).
  - 36) Creates an original AB pattern when shown an AB pattern (e.g., circle, square, circle, square).
### MATHEMATICS
**Sub-Domain: Measurement**

#### Galileo® G3 Assessment Scale Goal

**Goal P-MATH 8.** Child measures objects by their various attributes using standard and non-standard measurement. Uses differences in attributes to make comparisons.

<table>
<thead>
<tr>
<th>36 to 48 Months</th>
<th>48 to 60 Months</th>
</tr>
</thead>
<tbody>
<tr>
<td>With adult support, begins to understand that attributes can be compared, such as one child can be taller than another child.</td>
<td>With some adult support, uses measurable attributes to make comparisons, such as identifies objects as the same/different and more/less.</td>
</tr>
</tbody>
</table>

#### Early Math

- 24) Matches objects to an example.
- 25) Sorts diverse objects based on a physical attribute (e.g., shape).

- 10) Answers questions about two sets of items using comparison terminology (e.g., more, less, greater than, fewer than, equal to).
- 28) Identifies the shorter or taller of two persons or things.
- 29) Identifies the shortest or tallest in a group.

#### INDICATORS: By 60 Months

- Measures using the same unit, such as putting together snap cubes to see how tall a book is.
- Compares or orders up to 5 objects based on their measurable attributes, such as height or weight.
- Uses comparative language, such as shortest, heaviest, or biggest.

- 27) Sorts diverse objects based on multiple attributes (e.g., size and shape).
- 28) Identifies the shorter or taller of two persons or things.
- 29) Identifies the shortest or tallest in a group.
- 44) Uses non-standard unit (e.g., cut-out paper squares) to measure area.
- 45) Uses non-standard units (e.g., paper cups) to measure volume.
- 46) Uses non-standard units (e.g., paper clips) to measure length. 3-5 years. SR12.
- 47) Uses a familiar measuring device (e.g., ruler, scale, measuring cups).
### MATHEMATICS
Sub-Domain: Geometry and Spatial Sense

#### Galileo® G3 Assessment Scale Goal

**Goal P-MATH 9. Child identifies, describes, compares, and composes shapes.**

<table>
<thead>
<tr>
<th>Age Range</th>
<th>Description</th>
<th>Early Math</th>
</tr>
</thead>
<tbody>
<tr>
<td>36 to 48 Months</td>
<td>Recognizes and names typical circle, square, and sometimes a triangle. With adult support, matches some shapes that are different sizes and orientations.</td>
<td>34) Identifies familiar shapes (e.g., circle, square, triangle, diamond) by name.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>36) Creates new shapes from familiar shapes by folding, cutting, or twisting.</td>
</tr>
</tbody>
</table>

**INDICATORS: By 60 Months**
- Names and describes shapes in terms of length of sides, number of sides, and number of angles.
- Correctly names basic shapes regardless of size and orientation.
- Analyzes, compares and sorts two-and three-dimensional shapes and objects in different sizes. Describes their similarities, differences, and other attributes, such as size and shape.
- Creates and builds shapes from components.

**Goal P-MATH 10. Child explores the positions of objects in space.**

<table>
<thead>
<tr>
<th>Age Range</th>
<th>Description</th>
<th>Early Math</th>
</tr>
</thead>
<tbody>
<tr>
<td>36 to 48 Months</td>
<td>Begins to understand spatial vocabulary. With adult support, follows directions involving their own position in space, such as “Stand up and stretch your arms to the sky.”</td>
<td>32) Understands object directionality concepts (e.g., right, left, up, down).</td>
</tr>
<tr>
<td></td>
<td></td>
<td>33) Understands object position concepts (e.g., under, top, bottom, inside, behind).</td>
</tr>
</tbody>
</table>

**INDICATORS: By 60 Months**
- Understands and uses language related to directionality, order, and the position of objects, including up/down, and in front/behind.
- Correctly follows directions involving their own position in space, such as “Stand up” and “Move forward.”

**48 to 60 Months**
- Increasingly understands spatial vocabulary. Follows directions involving their own position in space, such as “Move to the front of the line.”
- Understands object position concepts (e.g., under, top, bottom, inside, behind).
## D.2. Domain: Scientific Reasoning

### Notes:
- Underlined capabilities are reflected in the School Readiness Scale.
- The term “emerging” is used when specific skills, behaviors, or concepts have not yet emerged or are not yet observable.
- NA indicates when a standard has no alignment to the G3 Scales.

<td><strong>Goal P-SCI 2. Child engages in scientific talk.</strong></td>
</tr>
<tr>
<td><strong>36 to 48 Months</strong></td>
<td><strong>Nature and Science</strong></td>
</tr>
</tbody>
</table>
| Begins to use scientific vocabulary words with modeling and support from an adult. Sometimes repeats new words offered by adults. | 54) Asks “Why” questions to learn more about a current/past event.  
56) Asks “How” objects and events are different/same. |
| **48 to 60 Months** | **Nature and Science** |
| Uses a greater number of scientific vocabulary words. Repeats new words offered by adults and may ask questions about unfamiliar words. | 10) Draws/talks about observed life cycle changes in a familiar plant.  
7) Draws/talks about changes in her/himself over time.  
14) Draws/talks about patterns in the physical world (e.g., seasons, day/night). |
| **INDICATORS: By 60 Months** | **Nature and Science** |
| - Uses scientific practice words or signs, such as observe, describe, compare, contrast, question, predict, experiment, reflect, cooperate, or measure.  
- Uses scientific content words when investigating and describing observable phenomena, such as parts of a plant, animal, or object. | 8) Describes/draws the type of shelter used by familiar animals.  
11) Draws/talks about observed life cycle changes in a familiar animal.  
15) Associates objects/events with different temperatures (e.g., ice-low temp).  
16) Draws/talks about aspects of Earth (e.g., soil, trees, mountains, ocean). |

**Goal P-SCI 3. Child compares and categorizes observable phenomena.**

| **36 to 48 Months** | **Early Math** |
| Sorts objects into groups based on simple attributes, such as color. With support, uses measurement tools to quantify similarities and differences of observable phenomena, such as when a child scoops sand into two containers and with adult assistance, determines which container holds more scoops. | 25) Sorts diverse objects based on a physical attribute (e.g., shape). 3-5 years. SR10.  
**Nature and Science** 3) Uses tools to measure materials and make comparisons (e.g., scales, rulers). 3-5 years. SR13. |
| **48 to 60 Months** | **Early Math** |
| With increasing independence, sorts objects into groups based on more complex attributes, such as weight, sound, or texture. Uses measurement tools to assess the properties of and compare observable phenomena. | 25) Sorts diverse objects based on a physical attribute (e.g., shape). 3-5 years. SR10.  
**Nature and Science** 3) Uses tools to measure materials and make comparisons (e.g., scales, rulers). 3-5 years. SR13. |
<p>| <strong>INDICATORS: By 60 Months</strong> | <strong>Early Math</strong> |
| - Categorizes by sorting observable phenomena into groups based on attributes such as appearance, weight, function, ability, texture, odor, and sound. | 27) Sorts diverse objects based on multiple attributes (e.g., size and shape). 3-5 years. SR18. |</p>

| - Uses measurement tools, such as a ruler, balance scale, eye dropper, unit blocks, thermometer, or measuring cup, to quantify similarities and differences of observable phenomena. | 44) Uses non-standard unit (e.g., cut-out paper squares) to measure area.  
45) Uses non-standard units (e.g., paper cups) to measure volume.  
46) Uses non-standard units (e.g., paper clips) to measure length. 3-5 years. SR21.  
47) Uses a familiar measuring device (e.g., ruler, scale, measuring cups). |
# Scientific Reasoning

**Sub-Domain: Reasoning and Problem Solving**

**Galileo® G3 Assessment Scale Goal**

### Goal P-SCI 4. Child asks a question, gathers information, and makes predictions.

<table>
<thead>
<tr>
<th>Time Frame</th>
<th>Nature and Science</th>
</tr>
</thead>
<tbody>
<tr>
<td>36 to 48 Months</td>
<td>- 27) Predicts what might come next in a life cycle sequence (e.g., seed to plant), 3-5 years, SR18.</td>
</tr>
<tr>
<td>36 to 48 Months</td>
<td>- 28) Predicts that a plant will die if it does not receive water.</td>
</tr>
<tr>
<td>36 to 48 Months</td>
<td>- 34) Predicts that it is likely to rain when dark clouds come.</td>
</tr>
<tr>
<td>36 to 48 Months</td>
<td>- 35) Predicts which way a scale will tip when a weight is added to one side, 3-5 years, SR19.</td>
</tr>
</tbody>
</table>

### 48 to 60 Months

<table>
<thead>
<tr>
<th>Time Frame</th>
<th>Nature and Science</th>
</tr>
</thead>
<tbody>
<tr>
<td>48 to 60 Months</td>
<td>- 29) Predicts that an animal will seek shelter in bad weather.</td>
</tr>
<tr>
<td>48 to 60 Months</td>
<td>- 30) Predicts that a plant will die if it does not receive sufficient light.</td>
</tr>
<tr>
<td>48 to 60 Months</td>
<td>- 36) Predicts direction of an object when acted upon directly (e.g., thrown, pushed), 3-5 years, SR20.</td>
</tr>
<tr>
<td>48 to 60 Months</td>
<td>- 37) Predicts changes in objects when heat/cold is applied (e.g., ice melts).</td>
</tr>
</tbody>
</table>

### INDICATORS: By 60 Months

- Asks questions that can be answered through an investigation, such as “What do plants need to grow?” or “What countries do the children in our class come from?”
- Gathers information about a question by looking at books or discussing prior knowledge and observations.
- Makes predictions and brainstorms solutions based on background knowledge and experiences, such as “I think that plants need water to grow.” or “I think adding yellow paint to purple will make brown.”

### Nature and Science

- 31) Predicts that human activity may threaten animal habitat/survival. |
- 32) Predicts that extreme weather (drought, freeze) will injure plants/wildlife. |
- 33) Predicts that plants may be destroyed when an animal population increases. |
- 39) Predicts that the steeper the incline, the faster an object will move. |
- 38) Predicts changes in objects when liquid is added (e.g., sand, paper). |

### Goal P-SCI 5. Child plans and conducts investigations and experiments.

<table>
<thead>
<tr>
<th>Time Frame</th>
<th>Nature and Science</th>
</tr>
</thead>
<tbody>
<tr>
<td>36 to 48 Months</td>
<td>- 40) Participates in simple investigations to answer questions.</td>
</tr>
</tbody>
</table>

With adult support, engages in simple investigations and experiments, such as building a “bridge” out of classroom materials and seeing how many dolls it will hold before it collapses. Records data with teacher assistance, mostly using pictures and marks on a page.
### SCIENTIFIC REASONING
**Sub-Domain: Reasoning and Problem Solving**

<table>
<thead>
<tr>
<th>Galileo® G3 Assessment Scale Goal</th>
<th>48 to 60 Months</th>
</tr>
</thead>
<tbody>
<tr>
<td>Nature and Science</td>
<td></td>
</tr>
<tr>
<td>45) Uses more than one approach to gather data/answer a question (e.g., book, adult).</td>
<td>With increasing independence, engages in some parts of conducting complex investigations or experiments. Increasingly able to articulate the steps that need to be taken to conduct an investigation. Uses more complex ways to gather and record data, such as with adult support, makes a graph that shows children’s favorite snacks.</td>
</tr>
<tr>
<td><strong>INDICATORS: By 60 Months</strong></td>
<td></td>
</tr>
<tr>
<td>• Articulates steps to be taken and lists materials needed for an investigation or experiment.</td>
<td><strong>Nature and Science</strong></td>
</tr>
<tr>
<td>• Implements steps and uses materials to explore testable questions, such as “Do plants need water to grow?” by planting seeds and giving water to some but not to others.</td>
<td>45) Uses more than one approach to gather data/answer a question (e.g., book, adult).</td>
</tr>
<tr>
<td>• Uses senses and simple tools to observe, gather, and record data, such as gathering data on where children’s families are from and creating a graph that shows the number of children from different countries.</td>
<td>46) Presents observations in a variety of ways (e.g., drawings, charts, maps). 3-5 years, SR21.</td>
</tr>

### PERCEPTUAL, MOTOR AND PHYSICAL DEVELOPMENT

**Sub-Domain: Gross Motor**

<table>
<thead>
<tr>
<th>Goal P-PMP 1. Child demonstrates control, strength, and coordination of large muscles.</th>
</tr>
</thead>
<tbody>
<tr>
<td>36 to 48 Months</td>
</tr>
<tr>
<td>Balances, such as on one leg or a beam, for short periods with some assistance. Performs some skills, such as jumping for height and hopping, but these skills may not be consistently demonstrated. Engages in physical activity that requires strength and stamina for at least brief periods.</td>
</tr>
<tr>
<td>45) Walks to a destination without help.</td>
</tr>
<tr>
<td>50) Climbs up and down stairs, 3-5 years. SR83.</td>
</tr>
<tr>
<td>48 to 60 Months</td>
</tr>
<tr>
<td>Balances, such as on one leg or on a beam, for longer periods of time both when standing still and when moving from one position to another. Demonstrates more coordinated movement when engaging in skills, such as jumping for height and distance, hopping, and running. Engages in more complex movements, such as riding a tricycle, with ease. Engages in physical activities of increasing levels of intensity for sustained periods of time.</td>
</tr>
<tr>
<td>49) Walks along a line on the floor, most of the time.</td>
</tr>
</tbody>
</table>

#### INDICATORS: By 60 Months
- Demonstrates balance in large-muscle movement, such as walking on a log without falling or balancing on one leg.
- Performs activities that combine and coordinate large muscle movements, including swinging on a swing, climbing a ladder, or dancing to music.
- Demonstrates strength and stamina that allow for participation in a range of physical activities, such as running around playing tag.

<table>
<thead>
<tr>
<th>Goal P-PMP 2. Child uses perceptual information to guide motions and interactions with objects and other people.</th>
</tr>
</thead>
<tbody>
<tr>
<td>36 to 48 Months</td>
</tr>
<tr>
<td>51) Walks along a wide beam, most of the time.</td>

<td>- Moves body in relation to objects to effectively perform tasks, such as moving body in position to kick a ball.</td>
</tr>
<tr>
<td>- When asked, can move own body in front of, to the side, or behind something or someone else, such as getting in line with other children.</td>
</tr>
<tr>
<td>- Changes directions when moving with little difficulty.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Physical Development &amp; Health</th>
</tr>
</thead>
<tbody>
<tr>
<td>55) Pedals a tricycle, steers and makes turns around obstacles and corners.</td>
</tr>
<tr>
<td>58) Skips with direction and control, most of the time. 3-5 years. SR85.</td>
</tr>
<tr>
<td>59) Gallops maintaining direction and control, most of the time.</td>
</tr>
</tbody>
</table>
### PERCEPTUAL, MOTOR AND PHYSICAL DEVELOPMENT

**Sub-Domain: Fine Motor**

#### Galileo® G3 Assessment Scale Goal

**Goal P-PMP 3.** Child demonstrates increasing control, strength, and coordination of small muscles.

<table>
<thead>
<tr>
<th>36 to 48 Months</th>
<th>Physical Development &amp; Health</th>
</tr>
</thead>
</table>
| Performs simple hand-eye tasks, such as drawing simple shapes like circles and cutting paper with scissors. May demonstrate limited precision and control in more complex tasks. | 65) Begins to use a fork.  
66) Eats with a fork and a spoon, or other appropriate utensils. |

<table>
<thead>
<tr>
<th>48 to 60 Months</th>
<th>Physical Development &amp; Health</th>
</tr>
</thead>
</table>
| Performs tasks that require more complex hand-eye coordination, such as cutting out shapes and drawing letter-like forms, with moderate levels of precision and control. | 68) Cuts with scissors along a straight line.  
69) Cuts with scissors along a curved line. |

#### INDICATORS: By 60 Months

- Easily coordinates hand and eye movements to carry out tasks, such as working on puzzles or stringing beads together.
- Uses a pincer grip to hold and manipulate tools for writing, drawing, and painting.
- Uses coordinated movements to complete complex tasks, such as cutting along a line, pouring, or buttoning.

<table>
<thead>
<tr>
<th>48 to 60 Months</th>
<th>Physical Development &amp; Health</th>
</tr>
</thead>
</table>
| 67) Correctly holds a pencil or crayon. 3-5 years. SR86.  
70) Uses scissors to cut out a pre-formed simple shape. 3-5 years. SR87.  
71) Strings large beads on a piece of yarn.  
72) Builds short structures with blocks or other materials (e.g., 3 blocks high).  
73) Builds tall structures with blocks or other materials (e.g., 10 blocks high).  
74) Uses computer keyboard/mouse for writing/drawing, without assistance. 3-5 years. SR88. |
### Goal P-PMP 4. Child demonstrates personal hygiene and self-care skills.

#### 36 to 48 Months

| Shows an awareness of personal hygiene and self-care skills, such as telling an adult it is important to wash hands before eating. May not complete or exhibit these skills regularly without adult guidance and supervision. | **Physical Development & Health**  
6) Washes and dries hands with some supervision.  
8) Brushes teeth with help.  
7) Insists on washing and drying own hands.  
9) Begins to independently brush his/her teeth with supervision.  
10) Disposes of tissues appropriately in a container. |

#### 48 to 60 Months

| Begins to take more responsibility for personal hygiene and self-care skills. Sometimes completes them without adult prompting. | **Physical Development & Health**  
19) Unzips zippers.  
20) Unfastens clothing (e.g., snaps, Velcro, buttons, zippers), without assistance.  
21) Fastens clothing (e.g., snaps, Velcro, buttons, zippers), without assistance.  
22) Puts on front-opening garment, without assistance.  
23) Puts on pull-over garment, without assistance.  
26) Uses bathroom, without assistance.  
27) Initiates a trip to the bathroom, without being prompted. |

### INDICATORS: By 60 Months

- Washes hands with soap and water. Knows to do this before eating, after using the bathroom, or after blowing nose.  
- Demonstrates increasing ability to take responsibility for participating in personal self-care skills, such as brushing teeth or getting dressed.  
- Physical Development & Health  
11) Covers mouth appropriately when coughing or sneezing.  
12) Brushes teeth in a correct fashion, without assistance.  
13) Uses tissues properly to blow/wipe nose, without assistance.  
14) Requests or initiates hand washing when needed (e.g., before eating). 3-5 years. SR76.  
24) Puts on shoes correctly, without assistance.  
25) Ties own shoes, without assistance.  
28) Completes bathroom activities (clothing up/down, wiping, flushing) independently. 3-5 years. SR78.  
29) Disposes of toilet paper/paper towels appropriately.  
30) Remains dry and unsoiled between bathroom trips.
## PERCEPTUAL, MOTOR AND PHYSICAL DEVELOPMENT

<table>
<thead>
<tr>
<th>Sub-Domain: Health, Safety and Nutrition</th>
<th>Galileo® G3 Assessment Scale Goal</th>
</tr>
</thead>
</table>

**Goal P-PMP 5. Child develops knowledge and skills that help promote nutritious food choices and eating habits.**

### 36 to 48 Months

Demonstrates a basic knowledge of the role of foods and nutrition in healthy development. Often requires adult guidance and supervision to make healthy eating choices.

**Physical Development & Health**

3) Independently selects and eats a variety of food types. 3-5 years. SR74.

### 48 to 60 Months

Demonstrates an increasing understanding of the ways in which foods and nutrition help the body grow and be healthy. Makes healthy eating choices both independently and with support.

**Physical Development & Health**

3) Independently selects and eats a variety of food types. 3-5 years. SR74.
4) Serves self an appropriate amount of food.

### INDICATORS: By 60 Months

- Identifies a variety of healthy and unhealthy foods.
- Demonstrates basic understanding that eating a variety of foods helps the body grow and be healthy.
- Moderates food consumption based on awareness of own hunger and fullness.

**Physical Development & Health**

3) Independently selects and eats a variety of food types. 3-5 years. SR74.
4) Serves self an appropriate amount of food.
5) Identifies examples of foods that are healthy. 3-5 years. SR75.

**Goal P-PMP 6. Child demonstrates knowledge of personal safety practices and routines.**

### 36 to 48 Months

Shows awareness of a growing number of personal safety practices and routines. Looks to adults for support in enacting these.

**Physical Development & Health**

32) Cooperates by opening mouth for a quick visual exam.
35) Understands that parents and teachers are helpful resources.

### 48 to 60 Months

Exhibits increasing independence in following basic personal safety practices and routines. Follows adult guidance around more complex practices.

**Physical Development & Health**

36) Follows fire safety/fire drill rules, without assistance. 3-5 years. SR79.
