Guide to Maryland County/Regional Resources at the Maryland Historical Society
What resources are available for specific counties and how do I find them?

Most of the published county resources available at the Maryland Historical Society can be located in section MF187 of the Rhodes Reading Room (the row farthest from the reference desk). Books on specific counties or regions of Maryland are arranged alphabetically by county beginning with Allegany County in the northeast stacks and continuing across the room in the southeast stacks of the Reading Room. Some records are also available on microfilm or in pamphlet form. Patrons may access microfilm and those books on the first floor of the Rhodes Reading Room themselves; however, pamphlets must be retrieved by the staff. Since searching the Library’s on-line catalogue by county name would result in too many hits, we have listed below some of the most popular resources for each county. **Please note that this is not an inclusive list**, just an example of the types of records available for each county and where you might find them. If you are interested in a particular type of record, you can search the Library’s on-line catalog using specific key words.

**KENT COUNTY (KE) – formed in 1642**
