FGCU offers many great housing options for first-year students. South Village (SoVi) is reserved for freshmen and offers suite-style living. All suites have private bedrooms and shared bathrooms. Osprey Hall offers three-bedroom suites that have kitchenettes in the common living area and a shared bathroom. North Lake Village offers four-person, apartment-style housing in either two- or four-bedroom configurations.
South Village is home to the First Year Residential Experience (FYRE) program. The FYRE Program is designed to provide first-year students with a wide range of support systems and the opportunity to meet, live, and transition into college life with other freshmen. By living, learning and working together, students develop relationships and skills that will enrich their college experience.

Convenience, friendship, social activities and educational programming are only a few of the reasons students choose to live on campus.

Live where you learn...
Around Here

Southwest Florida is a popular vacation destination. Just minutes from the FGCU campus you can find large shopping complexes, restaurants and nightlife, an IMAX theater, Germain Arena and world famous beaches! Two minor league sports teams, the Florida Everblades (hockey) and the Fort Myers Miracle (baseball), play nearby. Also, Fort Myers is the spring training home of the Minnesota Twins and Boston Red Sox.

Powered by Sunshine

Taking care of the environment is not only an initiative – it’s part of the University’s mission. The 15-acre solar field reduces electrical costs on campus by roughly 18%. Most current and future buildings are planned to meet the U.S. Green Building Council’s Leadership in Energy and Environmental Design (LEED) certification. To further emphasize the University’s commitment to the environment, undergraduate students are required to take an environmental education course (University Colloquium) which explores the concept of sustainability as it relates not only to Southwest Florida, but the entire world. Integrating environmental sustainability practices into campus life and the community... We do that here.
Florida Gulf Coast University’s admission standards are competitive. Admission decisions are based on the projected academic success of students as determined by their grade point average and standardized test scores. Students holding an Associate of Arts (AA) degree from one of Florida’s Public Universities or State/Community Colleges will find transferring to FGCU seamless. All other transfer students will have coursework awarded on a course-by-course basis.
