CALL FOR PROPOSALS

Mobilizing Literacy Research for Social Transformation

November 30th to December 3rd, 2016
Nashville, Tennessee (Omni Hotel)

Conference Chair, Rebecca Rogers
Conference Co-Chair, Gay Ivey

Proposals Must Be Submitted Electronically by 11:59 PM PST March 1, 2016

I. Theme
The theme of the 2016 Conference is Mobilizing Literacy Research for Social Transformation. Global advances in technology and the rise of social media have led to the mobility and mobilization of diverse and powerful language, literacy and educational practices. These practices have been employed in recent social movements calling for racial and environmental justice and income equality. Still across the world and within our own communities, many children and families experience chasms of inequity and related disparities in access, attainment, and literacy achievement. The theme of this year’s conference invites us to consider the metaphors of mobility, materiality, movement and transformation in our research epistemologies, methodologies, and literacy areas. We encourage sessions that take a critical look at the research methods we employ, the complexity of interpretation and the implications for policy, particularly where historically underserved communities are concerned. (see General Criteria in Section VIII).
II. **General Information**

The Literacy Research Association, a non-profit professional organization, is comprised of individuals who share an interest in advancing literacy theory, research, and practice. We are a community that engages in research and dialogue pertaining to literacy and related topics. We support the professional development of emerging and established scholars. We advocate research-informed improvements in education. We seek high-quality research and discussions of important theoretical or methodological issues. **Only original work related to literacy not presented or published elsewhere may be proposed for the conference.**

Interested parties are invited to submit proposals for presentation at the 66th Annual Conference. The Conference will be held at the Omni Hotel in Nashville, Tennessee. General inquiries and a digital copy of the Call for Proposals visit [http://www.literacyresearchassociation.org/pdf/Conference/2016CallFinal.pdf](http://www.literacyresearchassociation.org/pdf/Conference/2016CallFinal.pdf) or, please visit the Association’s website ([www.LiteracyResearchAssociation.org](http://www.LiteracyResearchAssociation.org)). Inquiries about specific areas of research should be directed to the respective Area Chairs ([see Attachment B](#)).

III. **General Regulations and Policies**

Current membership in the Association is not required for submitting proposals or attending the Conference, but all participants and attendees are required to register. Only original work related to literacy not presented or published elsewhere may be proposed. A proposal may be submitted only once and to only one area, following the Guidelines for Submission ([Attachment A](#)) and, with the exception of study groups, blinded for review. No individual can appear on the program more than three (3) times, including participation as a chair, discussant, or presenter, but excluding invited talks, paper session chairs, and paper session discussants.

IV. **Guidelines for Submission and Deadlines**

All proposals must be submitted online through the AllAcademic system. Proposal submissions will be available on January 15, 2016 at the Association’s website [www.LiteracyResearchAssociation.org](http://www.LiteracyResearchAssociation.org). Proposals must be complete and conform to the Guidelines for Submission ([Attachment A](#)) to be considered for review.

The proposal, excluding the reference list and tables or figures, **must be no more than 1500 words**. **Additional sections or appendices (other than the reference list, tables, or figures) will be deleted by Area Chairs.**

Proposals must be submitted online to the appropriate area **no later than 11:59 PM PST on March 1, 2016**. See [Attachment B](#) for a list of the program areas, topic descriptors, and Area Chairs’ e-mail addresses for queries. Proposals that do not fall within a defined content area may be submitted to Area 13.

If you have questions or need assistance with your submission, do not contact the Conference Chair. Please contact submissionhelp@literacyResearchAssociation.org.

V. **Notification**

Only the proposal organizer will receive an e-mail confirmation when a proposal has been successfully submitted online. If you do not receive a confirmation e-mail message, contact the Proposal System Administrator via e-mail at: submissionhelp@LiteracyResearchAssociation.org for assistance. The proposal organizer will be notified of the decision regarding acceptance or rejection of the proposal by **July 20, 2016**. The organizer must notify all participants of the proposal’s acceptance, scheduled
time and date of the session, and other relevant information when this information is received.

VI. Audiovisual Equipment
The Association will provide LCD projectors/screens for all session rooms (with the exception of the Roundtable sessions). Any additional A/V must be paid for by the presenters and be requested through the Headquarters Office via email at: submissionhelp@LiteracyResearchAssociation.org.

VII. Types of Submissions

The Association invites submissions that reflect a diversity of methodological and theoretical approaches. LRA accepts the following types of proposal submissions:

**Individual Paper**
Individual paper submissions are organized into a *paper session* by Area Chairs. The session includes up to three *Research Reports* and/or *Theoretical Papers*. Each individual presents for approximately 20 minutes. A chair is assigned to each paper session to introduce and monitor time. In cases where there is clear content expertise, a discussant will be assigned to the session to stimulate discussion. The final 30 minutes in the session are reserved for the discussant’s comments and audience interaction.

The *Research Report* provides background, rationale, questions, methodology, results, and implications of a completed study. The research should be complete, and the proposal should include findings and implications. Proposals must mask the identity of the author(s).

The *Theoretical Paper* may include, but is not limited to, research syntheses, position papers on critical issues related to literacy research, or presentations of models of literacy, literacy acquisition, or literacy instruction. The thesis, argument structure, and related literature should be clearly described. Proposals must mask the identity of the author(s).

**Roundtable**
A *roundtable* is a paper presentation (approximately 15-20 minutes) followed by an audience discussion (approximately 20 minutes), for a total session time of 40-45 minutes each. Typically, a roundtable is a Research-in-Progress Report, which describes an on-going study that has made sufficient progress and provides interim results. In 2016, some roundtable sessions may include two presentations selected and organized by the Area Chairs. Proposals must mask the identity of the author(s).

Research or theoretical work, in the *planning stages*, should not be submitted for review as a roundtable presentation.

Audiovisual equipment (i.e., LCD projectors, screens) is not provided for roundtable sessions.

**Symposium**
A *symposium* brings together literacy research focused on a strong, unifying theme. A symposium typically consists of a chair, three speakers, and a discussant, but other arrangements are possible. Ample opportunity for audience participation should be considered. A symposium is scheduled for a 90-minute time period. In the proposal, each speaker should have a focused topic and title. Proposals must mask the identity of the author(s).

Strong preference will be given to symposia that include scholars from different institutions, representing different data sets, settings, or theoretical traditions, or bringing different perspectives
Symposia participants may decide to develop a brief statement about their topic and its relationship to literacy education and stakeholders’ decision-making. This statement/draft may be submitted for development in collaboration with an Area Chair and members of the Policy and Legislative Committee.

**Alternative Format**

An *alternative format* session presents significant research-based issues representing a strong, unifying theme. These 90-minute sessions are creative alternatives in which presenters share their research and engage participants through alternative modes, including theatre/performance, media and technology simulations, cultural circles, interactive inquiry, think tank sessions, etc. *In relation to the 2016 conference theme, alternative formats might include artist/authors, policy makers, digital designers or public intellectuals who share research related to the multiple meanings of mobility, materiality, movement and transformation in literacy research and practice. Alternative symposia might also focus on research methods, the complexity of interpretation and the implications for policy, particularly where historically underserved communities are concerned. In the proposal, each speaker should have a focused topic and title. Proposals must mask the identity of the author(s).*

Alternative Format participants may decide to develop a brief statement about their topic and its relationship to literacy education and stakeholders’ decision-making. This statement/draft may be submitted for development in collaboration with an Area Chair and members of the Policy and Legislative Committee.

**Study Group**

A *study group* provides an opportunity for focused, well-planned and well-led discussion of new concepts and research related to a topic. Study groups meet each day of the Conference and attendance is open to all meeting participants. Study group leaders and participants may decide to develop a brief statement about their topic and its relationship to literacy education and stakeholders’ decision-making. This statement/draft may be submitted for development in collaboration with an Area Chair and members of the Policy and Legislative Committee. *Study Group proposals do not need to mask author(s) identity; indeed, some indication of the leaders’ experience and expertise is welcome. In addition, LRA values longstanding study groups. Such groups should briefly describe their history, productivity, and current approach to supporting scholarship in the area.*

Study groups will meet from 12-1pm over the lunch hour.

**VIII. Review of Proposals and Criteria**

All proposals, except for study groups, receive a masked review by at least 3 reviewers who are Association members and who have presented their work at previous conferences and/or who have published relevant peer-reviewed research.

Proposals must mask the identity of the author(s). Citing one’s own work is permissible, and is often necessary and useful, but authors must be careful to not reveal their identity. At the discretion of the respective Area Chairs, proposals that provide obvious clues to an author’s identity may be rejected or returned for revision.

**General Criteria for Review**

1. Significance to the field
2. Relevance and soundness of theoretical rationale
3. Rigor of methodology
4. Trustworthiness of results and conclusions
5. Appropriateness of citations grounded in the relevant literature
6. Clarity of proposal
7. Connection to conference theme (Note. An explicit connection to the conference theme is encouraged and will enhance a proposal, but the lack of a clear connection to the conference theme alone will not disqualify a proposal.)

Additional Criteria for Symposia and Alternative Format Sessions
1. Coherence of the theme and focus across papers or presentations
2. Evidence of multiple perspectives from more than one institution
3. Quality of individual proposals in relation to a strong collective proposal

Additional Criteria for Study Groups
1. Strong rationale grounded in the relevant literature
2. Well-organized and feasible agenda
3. Qualified facilitators, including facilitators with a longstanding history with the group

IX. Presenting at the Conference
All paper and symposium presenters are expected to make well-organized and coherent oral presentations within the time limits established by the session chair. Each presenter must provide a 1-2 page précis for distribution to the audience or upload it to the file library website in advance of their presentation. The précis typically includes the name and address of the presenter, a statement of the issue or question being examined, tables or figures for key findings, a summary of the conclusions/interpretations, and key references. Roundtable and alternative session presenters typically provide a similar overview depending on the focus of their session.

X. Publication of Papers
Presenters are strongly encouraged to submit their papers for possible publication in either the Literacy Research: Theory, Method and Practice (LR:TMP) or the Journal of Literacy Research. However, acceptance on the program does not guarantee publication. Consult the LR:TMP style sheet for guidelines in preparing the manuscript. The editors of LR:TMP will send papers to appointed review board members for review. Individuals are also encouraged to submit papers to the ERIC system.

XI. J. Michael Parker Award
The J. Michael Parker Award was established in 2001 in honor of J. Michael Parker, winner of the Student Outstanding Research Award, to encourage research in adult literacy. The award is given to graduate students and untenured professors who are LRA members and present research on adult learning or education at the Annual Conference. Recipient(s) of the award will receive $500. Committee members will rate the submissions on the following criteria:

1. Research is capable of making a significant contribution to theory and/or practice of adult literacy learning and instruction.
2. Methodology is appropriate to the research question and of sufficient rigor.
3. Implications of the research are of a scope needed to impact the field.

Applicants are required to submit their full paper (25 pages or less) electronically by October 1, 2016. Papers must be double-spaced and in 12-point font. The text limit does not include references and any
appendices. Those interested in applying should visit the award’s website for application instructions and materials (http://www.literacyresearchassociation.org/index.php/component/content/article?id=86).

XII. Student Outstanding Research Award
The Student Outstanding Research Award was initiated in 1985 to encourage greater participation of students in the Annual Conference and to honor excellent scholarship. The award is given annually for an outstanding student paper, presented at the Conference, which may or may not be based on a dissertation. All forms of research, including conceptual papers, are welcomed. Recipient(s) of the award will receive $500. A version of the winning paper is published in the Yearbook. Those interested in applying should visit the award’s website for application instructions and materials. Please check the criteria described below before requesting award information:

1. The paper must be solely student-authored. It may be co-authored with other students, but cannot be coauthored with a faculty member, either as presented or in its published form.
2. The proposal must have been accepted for presentation at the 2016 Conference.
3. The applicant must submit the full paper (25 pages or less) electronically by August 15, 2016, to the Committee Chair accompanied by a brief note indicating that the applicant is applying for the 2016 Student Outstanding Research Award. See the website for information about application materials.
4. A cover sheet submitted with your award proposal must identify the title of your LRA presentation, your contact information, and be signed by a faculty member at your home institution to affirm that the applicant conducted the research and was a graduate student when the research was conducted.
